ANNOUNCING MRS. DORENDA

CONTRACTOR CONTRACTOR

HELPFUL ADVICE FOR THE WOMAN DRIVER by Kay Nicolette Women's Service Director

Gulf Oil Corporation Whether or not your cas can stop on a dime (and chances are it can't), a tencent piece can be a vital thing to have on hand in case your auto doesn't start. The most important tool you can carry in your car is a dime to make

a telephone call to the nearest service station, the police or a friend.

When you need someone who can either come to your assistance or can help get assistance to you, it's a good idea to have taped two or three dimes to the inside of your glove compartment door so they'll be handy for such an emergency.

Then, before you go to a phone, lock your car, making certain there's nothing visible on the front or rear seats (skilled thieves can break into and strip a car in minutes). Next, make a mental note of your exact location - name of street, part of town, corner you are at or near, and approximate distance from prominent landmarks. Then

For helpful advice on safe driving and maintenance of your car, write to Gulf Oil Company - U.S., P.O. Box
