LETTER TO THE EDITOR

I, along with others, attended a meeting in regard to St. Jude's Ranch for Children being situated in our community. It seems that some have already made up their minds that this organization and their mission is evil.

I ask each of you, how can helping abused children be evil?

Ask yourself "What Would Jesus Do?" Scriptures warn us about standing in the way of children. Be assured you will answer for the stand you take in this matter.

What I'm saying is be sure of your fact and have an open mind. Count your blessings! Be thankful that you are not one of the abused. Be merciful, Christ was and is!

I say again, "What Would Jesus Do?"

A Concerned Citizen,
Billy Joe Dennis

see how our economy is getting lower and lower year by year and that we need to do something to help keep our area and city from slowly dying little by little. So let's all get behind this fine organization and call or write them at the above address and let them know how the majority feels about the facility.

Let's all look to the Good Lord for guidance in this matter and be swayed by what He would do. The Lord looks after all of us and we should all abide by his words, "Love thy Children" and give these youth another chance at life.

The work is going right along on the new Post Office. The brick work is finished and the window glass is being installed. Within the next few weeks the crews should finish the inside walls and wiring, etc. This is going to be a very big asset to the beauty of our city. We will have pictures as the work continues.

School's out now and there are a lot of children on the streets of

our town on bicycles, skates and taking walks. We all need to be alert to them and watch over them. Sometimes the children are busy playing and are not watching for vehicles like they should and it's up to us to keep on eye on them.

We are really glad to have Michelle Thackerson sending in news from Carbon. We have missed The Carbon News since Mrs. Stacy wrote the news for us. So if you have any news to put in the Carbon News call Michelle at 639-2244. It's great to have news for your newspaper.

NUMBER TWENTY-ONE

— J —

The Lord has blessed us again with rain showers in the area. The rain on Sunday ranged from about one-half inch to over an inch north-west of Gorman. The moisture has afforded many farmers to plant their crops and some peanuts are already up and growing. We thank the Lord for the moisture.

It seems as though there are some folks objecting to the St. Jude's Ranch just off the Desdemona Highway at the former Helen Dixon place. There has been much work put in at the location and things are moving along nicely.

The administration at the ranch were disheartened to learn of a negative attempt to keep this ranch out of our area. It seems they think that these boys will be a bad influence on our youth. However, these youth are not hardened criminals, rapists and murderers. They have just had some unfortunate things happen to them and are in need of our help instead of not giving them the opportunity to turn their lives around. If these youth were tough criminals, the state wouldn't let them stay at a ranch of this sort. This ranch has a very good opportunity to grow and expand their facilities and we should all get behind this project with our full support. It would not only be great for the youth, but it would also be a boost to our economy.

What we need to do is call or write to St. Jude's Ranch, P.O. Box 639, Gorman, Texas 76454 or call and let the ranch executives know that the majority is behind them. You can call and show them your support at 734-3850.

A town meeting will be held on June 11th at 7:30 in the Gorman Senior Center. More info will be available at this time. **MAKE TIME TO ATTEND!** Concerned Citizens of the Community

Community Meeting

Friday 11th at 7:30 PM at Community Center

Issue: St. Jude's Ranch for Children Residential Treatment Center Level of Care Definition-Level V Severe problems, unable to function in multiple areas. Sometimes willing to cooperate when prompted or instructed, but may lack motivation or ability to participate in personal care or social activities or is severely impaired in reality testing or communications. May exhibit persistent or unpredictable aggression, be markedly withdrawn and isolated due to either mood or thought disturbance, or make suicidal attempts. Presents a moderate to severe risk of causing harm to self or to others. Requires 24 hour supervision by multiple staff in limited access setting.

These children (boys) will be in our school. They will be 8 to 12 years old in the beginning, then up to 17 years later. They will remain at the treatment center for 12 months then go in to Foster care, probably in our community. The population of the center will grow to 60 in 5 years but remember each group will be coming out in 1 year.

There is much information to share with you and we can stop this if we wish. There is a law to protect small communities like ours.

Guest speakers will be members of the Lometa community, Chief of Police, Sam Horan of Benbrook, Linda Horan, Fraud Investigator for TWC.

Other guests will be State Representative Jim Keffer, County Judge Brad Stephenson and Sheriff Wayne Bradford.

Bring pad and pen for information and only written questions for our guests will be accepted.

This is a very serious issue for our community and everyone in this area. Please make an effort to attend.

Carbon Comm. Baptist to Mark Anniversary

The Carbon Community Baptist Mission held its first services in the old Golden Peanut Company weighing station in Carbon on February 9, 1997. There were eleven people present for Sunday School and 19 attending worship services. Brother Buck Landingham was the first pastor.

The Lord blessed us in being able to purchase the old Carbon School building and grounds. The first services in the school building were held June 23, 1997.

The first-year celebration was held on February 8, 1998 with 20 people in Sunday School and 80 attending worship services.

With the Lord leading us, we have been able to do a large amount of repair, refurbishing, and restoration. We are also proud to announce that after two years of being a mission under the sponsorship of Pioneer Baptist, we are completing the final process to become a church.

We take this opportunity to invite everyone in the area to attend our two-year anniversary celebration on Sunday, June 13, 1999. Sunday School begins at 10:00 AM and worship services begin at 11:00 AM. Our first pastor, Brother Buck Landingham, will conduct the services with our present pastor, Jody Forbus assisting. The morning worship services will also feature our music director, Ike Whitson. After morning services, there will be a pot-luck luncheon.

If there are any Carbon Exes or others who are interested, we will be pleased to conduct tours after lunch until 2:00 PM.

Please join us for this very special celebration and bring a covered dish if you wish. We are planning a great day with good preaching, good music, good food, good fellowship and worshipping our Lord and Savior, Jesus Christ.

If you need information on this event, please call (254)639-2618 or (254)639-2609.

Number of Hepatitis Cases Increasing

By Mabelle Trout
Taken From Abilene Reporter-News
EASTLAND — The number of cases of hepatitis A in Eastland County is steadily climbing...

County physicians have reported 41 cases, said Brad Walsh of the Texas Department of Health office in Arlington...

Normal for Eastland County is about three cases per year, Walsh said. The 41 reported cases include 15 in Ranger, 10 in Eastland, nine in Cisco...

Most patients are young adults, but two elderly people in Cisco have been diagnosed, and that is puzzling, Walsh said.

Walsh said food service workers in Eastland County have not been checked because of the expense. If a worker is diagnosed, others exposed to that person are given injections of gamma globulin...

Day care facilities in the county are doing a good job, he noted, because no young children have been diagnosed. One nursing home had two infected workers, and steps were taken to protect the residents.

The outbreak has kept Eastland Memorial Hospital busy. Administrator John Yeary said 38 hepatitis patients have been admitted since March 31.

Host Families Needed

If you have room in your hearts and room in your home, the SHARE! High School Exchange Program is seeking families to host high school exchange students for the coming school year...

The students will arrive in early August, 1999 and will stay with the host family from one semester or until the end of the school year.

Annual Watkins Reunion

Of the eight remaining grandchildren of Mr. & Mrs. J.M. Watkins, seven were in attendance. They are: Clyde Brooks of Albuquerque, NM...

There were a total of 42 in attendance. Those in attendance were: Clyde & Marjorie Brooks and four sons of Albuquerque, NM or surrounding suburbs.

A great time was had by all and looking forward to next year.

Eastland Courthouse Opens Its Doors to Preservation Team

Representatives from the National Trust for Historic Preservation, the Texas Historical Commission, and the firm of Wharry Engineering will visit the Eastland County Courthouse on Friday, June 11 to conduct an assessment as part of the county's participation in the "Courthouse Smart Start" program.

The Southwest Office of the National Trust, through a generous donation by the Meadows Foundation and in partnership with the Texas Historical Commission and Preservation Texas, established the Smart Start planning grant to be awarded to twelve select Texas counties in anticipation of the Governor's Texas Courthouse Initiative. This legislation will provide an estimated \$50 million in matching grants to be used by Texas communities to repair and restore their historic courthouses. It is hoped that the twelve counties that have secured a basic preservation plan with their Smart Start grant will be better positioned to apply for and receive funding from the state. The plan is to be completed by September 1, 1999.

Devin Shelton of the Texas Historical Commission will be inspecting the courthouse along with Wade Ellison of Wharry Engineering, the firm hired by Eastland County to prepare the plan. Shelton and Ellison will be conducting a comprehensive assessment of various elements of the courthouse including the building's structure and foundation; electrical and plumbing systems; fire safety issues; compliance with the Americans with Disabilities Act; landscaping; and the condition of other memorials or statues on the site. Jeff Tully of the National Trust will also be on hand to answer questions about the Smart Start grant and the Texas Courthouse Initiative. The Texas Historical Commission is the state agency for historic preservation that administers a variety of programs to preserve the archeological, historical and cultural resources of

Texas. The National Trust for Historic Preservation provides leadership, education and advocacy to save America's diverse historic places and revitalize our communities. The Trust's Southwest Regional Office in Fort Worth assists with preservation projects in Texas, New Mexico, Oklahoma and Arkansas.
