

# US-British Blow Promised To Divert Germans From Russia

WASHINGTON, June 27 (AP)—President Roosevelt and Prime Minister Churchill today jointly promised a stroke at Germany which will divert Nazi troops from the Russian front and said the outlook for victory had improved in the last six months.

With Churchill safely back in London, they issued a statement which in addition called transportation the present "major problem" of the United Nations. But it noted that while the U-boat toll in the Atlantic was heavy, ship production was increasing and new steps against the submarines were planned by the British and American navies.

The statement made no specific mention of a "second front," but nevertheless included a paragraph which provoked an intensive whirl of speculation on that subject.

"While exact plans, for obvious reasons, cannot be disclosed," the statement said, "it can be said that the coming operations, which were discussed in detail at our Washington conference, between ourselves and our respective military advisors, will divert German strength from the attack on Russia."

Many observers concluded that the millions of American and English troops mobilized in the British Isles were to be thrown into an invasion of the Nazi-held continent. Since the project had reached the stage of discussion in detail, some suggested that the day of attack might be very near.

Others cautioned, however, against jumping at conclusions and advanced the theory that the "coming operations," might be confined to intensified mass air attacks upon German cities, such as

have spread havoc in Rostock, Cologne and Bremen.

The statement said the conference between the two war leaders, covered "very fully all the major problems" of the conflict, took "full cognizance of our disadvantages as well as our advantages, and did not 'understate' the task ahead."

"We have conducted our conferences with the full knowledge of the power and resourcefulness of our enemies," it said.

A survey on the munitions production situation, it said, gave "on the whole an optimistic picture."

Never before, the war leaders added, have the United Nations "been in such hearty and detailed agreement on plans for winning the war as they are today."

LONDON, June 27 (AP)—A large vanguard of the United States

Army Air Corps is established in the British Isles and is making preparations at a secret base to bomb Germany soon in mass attacks coordinated with those of the Royal Air Force.

How far the preparations have advanced and the actual size of American aerial units were military secrets, but authoritative sources said the men were already deployed to join the great assaults such as those on Bremen, Cologne, Essen, Rostock, Liebeck and other German industrial or shipping centers.

It was not disclosed whether a sufficient number of planes had been amassed for an all-American striking force, but as long ago as April 21 it was announced that bombers for use of United States airmen in wing to wing attacks with the RAF were being ferried across the Atlantic.

## Glamour Hidden By Work In This Glider Training

Glamour, no doubt, exists in the pre-glider training program being operated here through contract with the Big Spring Flying Service, but the young men absorbing the training haven't had time to discover it yet.

Long hours—and hard ones too—without grace of time and a half for overtime is the lot of the glider pilot. He is up before dawn at 5 a. m. these days, ready for a 15-hour stretch that includes three periods off for eating and the rest for training of one kind or another.

For convenience, the class is divided. Half of the number grabs breakfast and is off for the flying field 14 miles to the north. Here they are given instructions in flying light craft. Before long they are coming in for "dead stick" landings and eventually with motor off. It becomes a "dead stick" proposition indeed.

This, unless these "unusual" winds dictate otherwise, continues until noon when they board an army truck and come back to town for lunch.

The afternoon is given over to ground work, which nominally means book learning. But there is a joker in the deck in the form of an hour physical education. This, brethren, is a set of calisthenics prescribed by the army and which is practical example of the old belief that the army can either make a man out of you or kill you.

## Navy Calls For Aid In Coastal Patrol

WASHINGTON, June 27 (AP)—In a move to put a great fleet of small boats into the war against submarines off the Atlantic and Gulf coasts, the navy called today for all owners of seagoing craft to volunteer the services of themselves and their vessels.

It was hoped, an announcement said, that 1,000 additional small boats might join the anti-submarine patrols being conducted by 1,200 craft.

The navy said "requirements have been relaxed" to qualify additional boats, but gave no details as to what the new requirements would be.

It was indicated, however, that the sole test would be whether, in the opinion of officers conducting the anti-submarine warfare, the boat in question could be useful.

Saying that Vice Admiral R. R. Wessche, commander of the coast guard, desired an organization of yachtsmen as coast guard reserve officers to assist in operation of these craft, the navy announced.

"Physical requirements are limited only to immediate ability of the men to serve." Submarines already have sunk over 300 cargo ships in the western Atlantic and Caribbean, many of them close to the United States continental shoreline.

The navy already has enrolled hundreds of privately-owned boats and their owners in the war against submarines. There have been complaints in congress and elsewhere, however, that its restrictions were so rigid that many useful craft and experienced watermen were ruled out.

Mercantile response has been generally whole-hearted toward the quarter-hour cessation of business Wednesday noon when only bonds and stamps will be sold during that time. Some few pieces have said they couldn't afford to stop regular sales just to promote bonds and stamps. Maybe—

Take a car load of passengers with you when you go out to the Independence Day celebration at the city park amphitheatre. There ought to be a minimum of empty seats, just as there ought to be fewer cars this year. We hope, however, there will not be any decline in the tremendous popularity of the event.

The housing conference last week resulted in much information, little hope. FHA agents said that materials might be had—but they doubted it. They also pointed out that under existing regulations houses would have to be built on the property line in order to

## Nazis Haven't Yet Cracked Sevastopol

Drive Also Checked By Reds In Kharkov Sector

By HENRY C. CASSIDY  
MOSCOW, Sunday, June 28 (AP)—The valiant defenders of Sevastopol smashed attack after attack by storming Nazi forces which tried without success to advance all day yesterday in bitter fighting over stacks of their axis dead, the Russians reported early today.

The siege of the Crimean port roared into its 24th day with no indication of a German breakthrough into the vast defenses of Sevastopol.

On the Kharkov front it was the same story, military dispatches said.

There Marshal Timoshenko's forces were credited with halting the eight-day-old German drive, and in one sector threw the Germans back in slashing tank counter-attacks.

The Germans were unable to make any headway whatever, the frontline accounts said, despite the extravagant use of massed air attacks in an effort to enlarge their gains.

These accounts were pointed up by the midnight communique, which told of the continued repulse of the Germans before Sevastopol and added there had been no other changes yesterday anywhere on the long front.

Of the battle for Sevastopol it said: "Our troops repelled several enemy attacks on the Sevastopol sector and inflicted heavy losses on the enemy."

The Soviet air force was credited with inflicting "devastating blows" upon the Germans on the Kharkov front. In two days, the communique said, 23 Nazi planes were shot down, 46 tanks and 117 trucks destroyed and 300 German soldiers killed by Russian airmen. (The British radio, relaying Moscow accounts, said that a no-aviation flare-up of aerial warfare all up and down the front Soviet pilots were "breaking up raid after raid upon Red army positions.")

In "exceptionally fierce" fighting, the eight-day Ukraine offensive of the Germans was brought to a halt east of Kuyyansk, 60 miles southeast of Kharkov, said Pravda accounts. Thirty-one air battles were fought in a single day and 81 German planes were wrecked in them, said the newspaper's correspondent.

Before Sevastopol, the Crimean base of the Red fleet which has been under violent assault for 23 days, the Russians declared the Germans had expended the stupendous total of 50 trainloads of explosives—bombs, shells and mines—in a futile effort to break open the city's defenses.

The government announcement of the sinkings—the first since Mexico declared war on the axis—said one man was killed on the Tuxpan and four were missing and that the entire crew of the Choapas was missing.

The crew of the Tuxpan, brought to shore by rescue craft after her SOS was heard, reported that the Choapas was torpedoed within sight of the Tuxpan's lifeboats two hours after the Tuxpan went down.

## Want Curb On War Buying

WASHINGTON, June 27 (AP)—Full civilian control over army and navy purchasing was urged today by two members of the senate defense investigating committee who said they were apprehensive that the War Production board might lose this authority in a current reorganization move.

Chairman Truman (D-Mo.) and Senator Mead (D-NY) said they desired to see Donald M. Nelson, the war production chief, retain the final decision on the letting of military contracts but believed the assignment of several of Nelson's aides to the war and navy departments might portend a change in policy.

While Nelson assured the committee that he was retaining complete responsibility over the war production effort, Mead said he was impressed by reports that the army and navy departments were beginning to absorb more and more of the authority originally delegated to the WPB chief.

## Two Mexican Tankers Sunk In The Gulf

TAMPICO, Mexico, June 27 (AP)—Two Mexican tankers were torpedoed 50 miles off the Mexican coast this morning and war measures were imposed immediately, with this important oil post ordered blacked out.

A squadron of planes and available warships were sent to seek the submarine which attacked the ships.

One vessel was the government tanker Tuxpan, the former 7,000-ton Italian tanker Americano, which was taken over by Mexico after she sought refuge in the harbor of Tampico when Italy entered the war.

She was sent down off Isla Lobos, about 85 miles south of Tampico. The second ship was the Choapas, the former Italian tanker Atlas which also was expropriated after seeking refuge in a Mexican harbor. It was said she had been missing for two days after starting on a short coast-wise trip from one oil port to another.

The government announcement of the sinkings—the first since Mexico declared war on the axis—said one man was killed on the Tuxpan and four were missing and that the entire crew of the Choapas was missing.

The crew of the Tuxpan, brought to shore by rescue craft after her SOS was heard, reported that the Choapas was torpedoed within sight of the Tuxpan's lifeboats two hours after the Tuxpan went down.

## War Heroes To Visit Ft. Worth, Dallas

DALLAS, June 27 (AP)—R. J. O'Donnell, state chairman of arrangements for the National War heroes parade, today announced the schedule of next week's visit to Dallas and Fort Worth of 15 war heroes.

The young men who come from theatres of action all over the world will arrive here at 10:15 a. m. next Thursday.

At 8:30 p. m. they will go to Arlington Downs for the huge bi-city rally. There they will tell of their exploits which singled them out of the United Nations fighting forces to make a tour of America.

Among the heroes will be a Texas—Lieut. Col. John A. Hilger of Houston, one of the twenty officers who was decorated for participating in the air raid on Tokyo.

## RAF At Malta Wins A 7-0 Victory

VALLETTA, Malta, June 27 (AP)—The RAF fighter patrol shot down seven enemy fighters in the last 24 hours without suffering a single loss, it was officially announced tonight.

A number of deaths and injuries resulted from a brief bombing attack on the harbor area and the vicinity of an airdrome last night, it was reported.

## British Army Reinforced To Meet Rommel

Veterans Ready To Defend Egypt Territory Inch By Inch

By EDWARD KENNEDY  
CAIRO, June 27 (AP)—The British Eighth Army stood reinforced at full strength tonight 15 miles west of Matruh against a powerful Axis striking force spearheaded by three mechanized divisions aiming at Alexandria, 165 miles away, and the Suez Canal beyond.

The allied desert army was in position on a chosen line 115 miles inside Egypt, and military men said that when the imminently expected German onslaught comes, the veterans will defend Egypt inch by inch.

With the enemy within 150 miles of the lush Nile valley where 98 per cent of Egyptians live, there was no doubt the situation was serious but the Eighth Army—smarting from its bad defeat in Libya—was described as determined that the enemy shall not pass.

Marshal Erwin Rommel, the axis commander, has thrown everything he has into his Egyptian invasion, military men said, but before he can reach the Nile he must smash through the 40-mile desert stretch between the Mediterranean and the great Ostara Depression—a great inland sea of sand through which a modern army can not move.

Rommel had advanced 15 miles overnight but he definitely had been slowed.

Axis and other reports reaching Cairo indicated that the battle of mechanized land forces was imminent, if not actually under way.

"By day and night, bomber and fighter-bomber formations of the allied air force in the battle area have been turned against the enemy ground forces and grounded air forces in the area west of Matruh," said tonight's RAF communique.

The axis zone of forward operations stretching southwestward 80 miles from Matruh on the coast was criss-crossed by planes guided by men grimly determined to exact a terrific toll from the invader before he came to grips with the battered Eighth Army.

A big enemy armored column with other price control regulations, were explained to approximately 40 retail merchants in a special meeting arranged Friday evening in the Bettles ballroom by the chamber of commerce.

While the number attending was not nearly so large as had been anticipated, chamber officials felt that it had been highly successful from an informational point.

Answers, wherever possible, were given to all questions concerning the filing of cost-of-living lists with the local rationing board not later than June 30. Walter Wilson, rationing board assistant, and J. H. Greene, chamber manager, made it clear that this list had to be prepared according to specific instructions, contain only items listed in an OPA retailers guide, and had to be in by deadline time.

This was not to be confused, they said, with the base inventory which contains every item sold in the store in March, which is the ceiling price base. This list, they reminded, is to be prepared and kept ready for an inspector if and when he calls for it.

## Auto Use Stamps Must Move Fast

Four a minute, eight hours a day, two days—that's the schedule Postmaster Nat Shick has figured out if the driving public is to secure its anticipated supply of automobile use stamps by deadline time Tuesday evening.

Up to closing time Saturday, 1-150 of the \$5 stamps had been sold, the postmaster reported. This left an estimated 3,545 to be bought and placed on cars during the next two days—or something like 1,923 a day.

To facilitate matters, a supply of stamps has been placed at each window in the postoffice. All the motorist has to do is to go to any window, lay down \$5 in cold cash (no checks accepted) and get his stamp. There is no signing, but there will be on cards this time.

## Nazi Saboteurs Land By Subs, Are Nabbed

First-Hand Report—Maj. Gen. Russell L. Maxwell (left), head of a U.S. military mission in Africa, receives a first-hand report on the operation of this American-made light tank from the driver, a British soldier with the Middle East command, "somewhere" in Egypt.

NEW YORK, June 27 (AP)—German submarines have boldly landed highly-skilled saboteurs on American shores with full equipment for wrecking war factories, J. Edgar Hoover, chief of the FBI announced tonight.

Eight men have been caught, Hoover said, and their explosives seized.

Two groups of four men each were caught, one on Long Island east of New York City and the other in Florida.

Four men were put ashore on Long Island June 18, and the others near Jacksonville, Fla., three days later, Hoover said.

The four who reached Anagnoset Beach, Long Island, came in a rubber boat from a submarine about 800 yards offshore, Hoover said. They changed into American civilian clothes on the beach, and buried loads of TNT with time-clock fuses in the sand. Then they went separate ways to New York City.

The others carried out a similar procedure on a beach near Jacksonville, he declared.

Hoover described the eight agents as "men highly-trained in sabotage at a Berlin sabotage school."

The names of the agents as given out by the FBI were: Group I (landed on Long Island)—George John Daesch, 35, group leader; Ernest Peter Burger, 35, who in 1931 was a private in the Michigan National Guard; Heinrich Harm Heink, 35, and Robert Quirin, 34.

Group II (landed in Florida)—Edward John Kerling, 33, group leader; Herbert Haupt, 22; Werner Thiel, 35, and Hermann Neubauer, 32.

Hoover said that some of the agents were imprisoned in New York and others in Chicago. He said that the disposition of their cases would be left to Attorney General Biddle in Washington. There were no specific charges placed against the eight prisoners.

## Children Die Of Tick Fever

Funeral for two children of Mr. and Mrs. C. L. Draper, former residents of Big Spring, will be held at 3 p. m. today at the Ebsary chapel with the Rev. Homer Sheats Assembly of God pastor, officiating.

Bodies of the two, who were stricken fatally with tick fever, arrived here Saturday night for interment.

Stricken with the fever at West Columbia in South Texas, where Draper worked, the children were taken to a Galveston hospital where they succumbed Tuesday. Sherman Edward was born here Oct. 27, 1939 and Annie Ruth on Aug. 6, 1941.

Besides the parents, they leave two brothers, Clifford Ray and Jesse Charles; the maternal grandparents, Mr. and Mrs. S. S. Patton, Sterling City; a great-grandmother, Mrs. Mattie Shoultz; and these uncles and aunts who will be here for services: Ray and Fred Draper, Virgil Patton, Mrs. Teresa Kerby, and Mrs. Gertrude Draper, Big Spring; Ernest Patton, San Angelo; Giles and Jackie Patton and Louise and Bernice Patton, Sterling City.

Casketbearers will be D. M. Pierce, R. L. Franks, Clay Garver, Paton Parker, M. H. Tate and Billy Parker.

## Eight Planned Extensive US Destruction

Groups Caught On Long Island And In Florida

## Chinese Lose Vital Air Base

CHUNGKING, June 27 (AP)—The Japanese again have reduced the gap between the two tongues of their Chekiang-Kiang offensive to about 50 miles by recapturing Kweiki, and have taken the last important Chekiang airbase at Lianhu, the Chinese high command announced today.

Kweiki, 60 miles southeast of Nanchang, base point of the Japanese western arm in Kiangsi, was wrested from the Japanese only a few days ago, and the invaders were driven back 12 miles along the Chekiang-Kiang railway.

On Thursday, the day following Chinese announcement of this victory, the Japanese, reinforced by troops from conquered areas in the South Sea, drove into the town, and advanced to the south.

Japanese capture of Lianhu in a southwest slant into coastal Chekiang province followed a bitter and obstinate struggle in the streets in which both sides lost heavily. A sanguinary fight was said to be continuing just at the outskirts of the town, noted because it was the second hot base from which the United States army air force might bomb Tokyo. Chushien in western Chekiang, the best base, already is in Japanese hands.

## Inventorys Must Be In Before 1st

Ration board representatives grew more concerned with the approach of July 1, when cost-of-living items inventorys have to be in their hands from all retailers—and it looked like a lot of merchants faced some overtime work.

Board Secretary Walter Wilson once again reminded that the inventorys have to be filed—with the local board—"by July 1," and he interpreted that as meaning midnight Tuesday, June 30.

He said that several of the inventorys which were sent to the Dallas office had been returned to him, and of these, only two were correct. Those who sent their inventorys should call by his office and get them for correction, he said.

The cost-of-living inventorys, together with other price control regulations, were explained to approximately 40 retail merchants in a special meeting arranged Friday evening in the Bettles ballroom by the chamber of commerce.

While the number attending was not nearly so large as had been anticipated, chamber officials felt that it had been highly successful from an informational point.

## Capt. Neville Here On July 4

Assignment of Maj. Art Goebel, noted transoceanic flier, to special duty, was announced today by the assignment of the speaker for Big Spring's third annual July 4th celebration.

Personnel department of the Midland Army Flying School announced that the major would be on duty at the time the Big Spring celebration was coming off. In his stead, Capt. Neville reportedly a fluent speaker, will give the patriotic address of the evening.

Most of the free fireworks display had arrived here, but there was one case yet to come, the chamber of commerce was advised. Meanwhile, committees for preparing the free display were being drafted and barring rain, it will be tamed off Saturday evening as a climax to the celebration.

Plans were to use the opportunity when thousands are assembled at once places to bet in a word for war bonds and stamps. The program, as customary, will be in the city amphitheatre.

Master of ceremonies for the program will be the Rev. Dick O'Brien. Following a band concert, Wanda Lou Petty will sing as will Lucille Cathey, Arnold Marshall and a trio composed of Wanda McQuain, Kathleen Underwood and Clarinda Mary Sanders.

# Red Skelton, Eleanor Powell Star In Ritz Funmusical

## 'Ship Ahoy' Is Feature For Today And Monday

The lad who has soared to radio stardom in a few short months with a phrase, "I doed it," gets starring honors in a new film musical right along with lithe-limbed Eleanor Powell.

Red Skelton is the comic, of course, and his new picture is "Ship Ahoy," a bit of fun and nonsense interspersed with gay music and nifty dance numbers which plays today and Monday at the Ritz theatre.

Along with Skelton and Miss Powell are the Tommy Dorsey swing band and, for more comedy, Bert Lahr and Virginia O'Brien. There is also a large chorus of glamour girls who provide background to Eleanor's dance numbers. There are four elaborate production numbers to show off Eleanor's high stepping, in which the dancing star is featured in a Spanish bullfight number, a Morse code tap, a novel soft shoe dance, and an Hawaiian war chant.

While Tommy and the boys beat out some hot rhythms, Red Skelton and Bert Lahr are heard in vocal numbers, "Poor You," and "I'll Take Tallulah."

Miss Powell is seen as a G-girl in the musical, with Skelton as her hypochondriac sweetheart. Both become involved with foreign agents, dangerous plots and hilarious mix-ups. The action takes place on a showboat bound for southern waters.

The Department of Commerce has miles on 600,000 foreign business firms.

**Nice Man**—Red Skelton of "I doed it" fame seems to hold some attraction for the lovely ladies, as attested by this scene from "Ship Ahoy," new musical comedy at the Ritz today and Monday. While Red provides the comedy, the spectacular dancer, Eleanor Powell, comes forth with five novel dance routines to add grace to the picture. Tommy Dorsey's orchestra, Bert Lahr and Virginia O'Brien are other features.

# Pearl Harbor Drama Offered At The Lyric

"Remember Pearl Harbor," timely in its plot and action, comes to the Lyric theatre today and Monday as a special attraction due to win applause as an absorbing drama.

A stirring tribute to those heroes who defend our far-flung frontiers, the film—the story of which is, of course, entirely fictional—deals with the exploits of a group of soldiers who fight brilliantly and bravely in defense of the Philippines against the Japanese aggressors.

Personable Donald M. Barry has one of his best roles to date as fun-loving Private "Lucky" Smith, who refuses to take army life seriously until the time of the attack, then distinguishes himself by his valorous conduct in battle. He is ably seconded by Alan Curtis, Robert Maynard Holmes, who are seen as the pals who stick by him through thick and thin.

Fay McKenzie, whom critics have acclaimed as one of the loveliest and most talented of filmdom's younger players, wins new laurels with her excellent performance in this picture. The "villain" is well taken care of by Sig Ruman and Rhys Williams who are cast as the ring-leaders of a spy ring operating in the Philippines. Robert Emmett Keane, Ian Keith, and Diana Del Rio also have important featured roles.

The battle sequence which provides the picture with its gripping climax is of tremendous scope, involving action on both land and sea. Brilliantly executed, these scenes are among the most spectacular ever staged in Hollywood for any motion picture.

**Heroism**—The historic date of December 7, 1941, is written large in a new movie, "Remember Pearl Harbor," which is the Lyric theatre's featured attraction for today and Monday. Fay McKenzie, Don "Red" Barry and Alan Curtis are the principals in the story, inspired by the daring deeds performed by heroic defenders of Hawaii when they were attacked by Japs.

**Far North**—Romantic adventure in the Yukon is brought to the Queen theatre today and Monday in the film, "The Girl from Alaska," with Ray Middleton and Jean Parker as featured players. This is a scene from the picture, adapted from the Saturday Evening Post serial, "Golden Portage."

# Gold Country Is Background For Movie

The season's smartest get-together of drama, romance, and red-blooded action is scheduled for the Queen theatre today and Monday with the showing of Republic's "Girl from Alaska."

Based on the Robert Ormand Case story, "Golden Portage," which ran serially in the Saturday Evening Post, the film co-stars Ray Middleton and Jean Parker, with important featured roles going to Jerome Cowan, Robert Barrat, Mala, and Francis McDonald. Nick Grinde directed under the supervision of associate producer Armand Schaefer.

Middleton's role is that of Steve Bentley, a prospector in the Alaskan

gold country, who is the unwilling partner in a scheme to steal \$100,000 in gold belonging to "Pete" McCoy (Jean Parker). Master-minding this plot is Ravenhill (Jerome Cowan), who has framed Bentley on a murder charge and pressured him into cooperating by threatening to turn him over to the law.

Romance, however, interferences with Ravenhill's planning. Bentley falls in love with "Pete" and risks his own life in a desperate attempt to save her. The latter portion of the film is given over to the two young people's flight across Alaska to the gold.

Two new groups of selectees are scheduled to leave Mitchell county for induction June 30. The first group includes Paul M. Barron of Loraine; Wilson Truett Bulter, Loraine; Hubert Feaster, Colorado City; Alvin Allison, Westbrook; Stone Hamilton Carstensen, Colorado City; and Elmer Lee Ward, Colorado City.

The second group is made up of negro citizens who will report for induction July 1. They are Clarence Cloud, Charles Edward Baker, Berlin Wade, A. D. Williams, of Colorado City; Jimmie B. Caldwell, Loraine; and Curtis Buster, Big Spring.

**Magnesium Plant Now In Operation**

FREEMONT, June 27. (AP)—The \$22,000,000 new Dow Magnesium corporation plant, largest such factory in the United States, was operating today three months ahead of schedule.

The first ingot of metal in the plant was poured yesterday, seven months after the start of construction. It will be in full production by Nov. 1. It is twice as large as the Dow Chemical company plant which has been making magnesium from sea water here for some time.

# Metal Salvage Is Important

WASHINGTON, June 27. (AP) (Wide World)—The "metals for war" situation is acute, but if everyone co-operates energetically enough, it may not become dangerous.

This is the opinion of men who are devoting day and night to the roundup of waste supplies of steel, iron, copper, bronze, brass, aluminum, lead, nickel, zinc, tin and such like scrap.

About July 15, they intend to call in supplies that have accumulated in the junkyards and on the farms and in homes since the government's request last December for everything that would make a ship, plane, tank or gun. They await only the end of the present rubber salvage campaign to turn over organization, transportation and other facilities for an equally intense movement of metals to the mills.

Lesing J. Rosenwald, WPA's chief of industrial conservation, is placing emphasis on collection of iron and steel scrap. According to "Iron Age," this country hopes to produce 87 million net tons of new steel this year compared with 82,500,000 in 1941—and will need 87,250,000 gross tons of scrap, or 2,750,000 tons more than last year.

But officials are just as eager to get every ounce of other junk metals.

There is talk of asking folks to turn in brass ash trays and other normally insignificant metal items which they can spare. The government finally may require store stocks of non-essential aluminum and copper kitchen utensils.

# Services Held For Mrs. W. W. Watson

COLORADO CITY, June 27. —Funeral services for Mrs. W. W. Watson, pioneer Colorado City citizen, were held this afternoon at the Church of Christ, with Clyde P. Findley, minister, officiating.

Mrs. Watson, who had lived here since 1905, is survived by eight children, three brothers, and two sisters. Eighteen grandchildren and six great-grandchildren also survive.

# Fresh Fruits And Potatoes On Stamp List

Three fresh fruits and Irish potatoes have been added to the list of blue stamp foods available during July under the Food Stamp program in Howard county, according to Claud Wolf, issuing officer for the Agricultural Marketing Administration's Food Stamp plan.

Fresh peaches, fresh plums, and fresh apples are the fruits added. These, together with oranges, all fresh vegetables, including Irish and sweet potatoes, and the staple foods continued on the list, will give participants a wide variety from which to select the foods they require.

Dried prunes and fresh grapefruit are the only two commodities removed from the July list. Dried prunes are being acquired for use largely by our armed forces and the season of heavy marketing of grapefruit is drawing to a close.

With these changes, the complete list of Blue Stamp foods issued by the Agricultural Marketing Administration for July 1 through July 31 in all stamp program areas is as follows: fresh peaches, plums, apples, and oranges, all fresh vegeta-

bles including Irish and sweet potatoes, shell eggs, butter, corn meal, hominy (corn) grits, dry edible beans, wheat flour, enriched wheat flour, self rising flour, enriched self rising flour, and whole wheat (Graham) flour.

## County's Cotton Thriving On Sub-Surface Moisture

Despite hot, dry winds and little surface moisture prospects for Howard county's cotton crop are still favorable, according to County Agent O. P. Griffin.

There is practically no surface moisture left, but cotton is now using the sub-surface moisture and can keep on growing indefinitely on it, Griffin said. Little of the sub-surface moisture will be lost, especially in well cultivated fields, except that which is actually used up by the plants. Evaporation of

this moisture in the sub-strata will not amount to much, and Griffin estimates that some cotton would be made in the county without any more rain for the rest of the season.

The insect situation is still under fair control in most parts of the county. However, Griffin found evidence of cotton flea hoppers in areas northwest and northeast of Coahoma this week. Due to the fact that he found few of the insects themselves Griffin said that parasites had probably destroyed the generation of flea hoppers that did the damage. Damages in both these areas were slight, Griffin said.

Some actual insects were found on farms around Lomax and it is feared that considerable damage will be done there before they can be halted. Most all the insects found were fully grown and approaching the breeding stage. Provided there are enough lady bird beetle larvae the next generation might be destroyed. Lady bird beetles probably destroyed the insects in the Coahoma area, as the fields infested at Lomax showed no signs of larvae.

## Parachute Troops Get Extra Pay

Men serving in army parachute units receive \$50 extra pay per month, according to Lt. Colonel Joseph R. Feller, West Texas recruiting and induction officer. This branch of the army affords an excellent opportunity for young men to be an important part of our war program, and at the same time earn extra pay.

There is an urgent need for men for parachute units at this time. For duty with those units men must be between the ages of 18 and 32, under 185 pounds in weight and not over six feet tall. Vision must be 20-40 or better. Men who are eligible are urged to apply at the nearest army recruiting office.

## Second Front Planning May Help Defense

LONDON, June 27 (AP)—Winston Churchill came home today from his third meeting with President Roosevelt to find his personal political situation seriously challenged by his critics but also new hope for United Nations' offensive operations against Germany.

Not only did he have to implement, from the British side, the plan for creating a second front against Adolf Hitler. From the minute he stepped from his trans-Atlantic plane, which he piloted part of the time, he busied himself in preparing for a debate in the house of commons where his government's direction of the war is being questioned by a motion denying confidence in his leadership.

Grinning and cheerful, he began a series of conferences with members of his war cabinet and his party leaders.

Part of his task of rebuilding British confidence—severely shaken by the Libyan debacle—had already been achieved by his and President Roosevelt's simultaneous announcement from London and Washington of "coming operations" to divert the weight of the German attack against Russia.

A further statement from the British press association lent added support. It said that air raids by American and British pilots "will be preliminary to a second land front in Europe."

Informed political sources in London, awaiting the commons debate on conduct of the war, predicted that Churchill probably will give his legislative superiors an accounting like this:

**MUNITIONS:** Approaching a maximum monthly output, with general production good.

**SHIPS:** "Greatly increasing" production and steps planned by the Allied navies to limit losses to German submarines.

**STRATEGY:** Relief of China from Japanese pressure although Russia's immediate situation appears to get first consideration since both Britain and the United States regard Russia as the most vital front.

**TRANSPORTATION:** A major strategic problem which may slow plans for any front except strictly a defensive one.

Members of the house of commons are expected, informed circles say, to ask these three questions when the prime minister appears before them:

"Who gave the order to hold Tobruk?"

"Why were the early communications on the African campaign uniformly optimistic?"

"Why did the German 88 millimeter gun, first used in the Spanish civil war, surprise the British general staff?"

The middle east still was uppermost in the minds of many Britons, particularly since German Field Marshal Erwin Rommel's forces had driven to within 15 miles of Matruh, 130 miles inside Egypt.

The Department of Commerce says explorations show Peru has enough iron ore to last 50 years.

## Volunteer Officer Candidates Must Pass All Tests

Lt. Col. Joseph R. Feller, recruiting and induction officer at Lubbock, stated that the war department program for permitting men now classed 3A by selective service, to enter the army as volunteer officer candidates has been misunderstood in many cases. All of these candidates are required before acceptance as such to report to a designated army reception center for mental and physical examinations. These examinations are intended to weed out all of those who are of doubtful officer calibre. This is a protection for the army as well as the individual concerned.

A great many more applications have been received than can be accepted except after a delay of several months. Successful applicants are called to service in order of their date of qualification.

After an applicant is accepted and inducted as a volunteer officer candidate, he is still not certain of acceptance for an officer candidate school. In soliciting candidates for this school, all men in the service are considered and the volunteer officer candidate must take his chance with the others. The fact that he has already passed a qualifying examination indicates that his chances for selection are better than men who have not taken such examination, but no promises can be given that he will be selected.

# Farms Will Be Combed For War-Valuable Scrap Metal

A campaign designed to bring in every available piece of scrap from the farms, ranches and rural sections of Howard county will be launched within the next few days by the county War Board leaders in collaboration with the W.P.A.

In planning the program the W.P.A. hopes to secure several trucks which will call on the farms of the county and pick up the scrap. Similar campaigns are already underway in Tom Green, Taylor, Nolan and Brown counties

and all 29 counties in the district centered at San Angelo will be lined up in the near future.

A representative from the W.P.A. offices in San Angelo was in Big Spring Friday and Saturday discussing the campaign with War Board members and other interests who will aid in the program.

County Agent O. P. Griffin said that virtually every farm in the county that had means of conveyance had already brought in much scrap metal, but there still remain

thousands of pounds that have not been touched. In many cases there are old farming implements that the farmers have not had time to dismantle and bring into town, and possibly will not be able to before their crops are finished. This type of scrap will be picked up in the new drive, as well as any other that may have been overlooked previously.

Farmers are still urged to bring in scrap metal as often as possible and not necessarily wait on the trucks. The main point is to get it into town so that it can be shipped.

## Here's How We Plan to Keep 'em Rolling

**CUSTOMER Service Schedules NOW IN EFFECT**

1. Regular Service calls will be made between 8:30 a.m. and 5 p.m.
2. You may telephone for requests for service on any day, but no calls for regular service scheduled for Saturdays, Sundays or holidays.
3. An extra day's time must be allowed for answering service requests, as to cover several service calls on each trip.

As you know, this company must restrict its use of materials needed by Uncle Sam. One step in this direction is a change to a new Customer Service Schedule, printed above. This saves tires, gasoline, oil and metal parts required in the operation of our cars and trucks—and helps us to continue to provide the fine service you expect. While the speed of GAS company service will be cut down, there will be no change in the quality! . . . Our customers can aid the war economy program by keeping all GAS appliances clean and in good condition, thus making them more efficient, more economical and extending their term of service.

Under all conditions, your friends at Empire Southern Service Co., will try to answer all service requests as best they can, on a basis of maximum helpfulness . . . We will continue to operate for the greatest good of the greatest number!

## Cosden Shows Year's Profit Of \$438,594

Net profit, after deduction for taxes, of \$438,594 is shown for the Cosden Petroleum corporation and its pipe line subsidiary for the fiscal year ended April 30, in the annual report made public Saturday by President Raymond L. Tollett.

The fiscal statement shows an accumulation of dividends as of April 30 of \$399,880.31, of \$0.37 per share, but directors have elected to pass payment of dividends, preferring to conserve resources for emergency needs in connection with wartime operations.

The corporation's gross operating income increased from \$6,696,978 in 1941 to \$8,196,984 for the fiscal year just closed, or better than 27 per cent, while general and administrative expenses showed a slight decline.

The statement showed an increase valuation reserves of \$443,849, and a reduction of investment of \$190,989. Working capital was increased \$31,113, while long-term liabilities decreased \$438,322.

Cosden increased its own crude production during the year, getting oil from eight of nine wells which it owned in whole or in part. Additional leases also were acquired.

Total crude oil processed at the Big Spring and Graham refineries was 6,381,988 barrels, as compared with 4,999,469 barrels during the previous year. Processing cost was .811 per barrel less than in the preceding year.

The Big Spring plant processed 4,980,174 barrels, and during a part of the year the throughput exceeded rated daily capacity. The Graham refinery throughput was 201,811 barrels.

Wartime economy has presented a changing picture for the petroleum corporation. Sales to domestic users of gasoline dropped 25 per cent in May of this year, but Cosden has expanded its selling program. The company was the first mid-continent refinery to offer substantial quantities of gasoline for movement in tank cars to the Atlantic coast, and was the first to ship in trainload lots.

Cosden's gross operating income was broken down like this: sales of crude oil and gas, \$222,412; sales of refinery products, \$8,960,368; tank car revenue, \$404,108.

Taxes, other than federal income taxes, amounted to \$91,501 and the provision for federal income tax was set up as \$226,323.16.

CLEVELAND, June 27. (AP)—There now are dates in Washington, the Office of War Information informed stenographers today.

"Girls," the OWI urged, "if you know how badly the United States of America needed your help in Washington, you'd go there."

"Anyone who can operate a typewriter even at 35 words per minute, or who can do clerical work, can serve his nation there as surely as a soldier. Typists start at \$105; stenographers at \$120.

"And—take the word of F. H. Trimmer, acting personnel officer here—the Washington scene has changed until now there are more dates, and it is easier to find a place to live.

Statements picked up this week indicated clearly that the juvenile "ring," which created such a reaction when exposed earlier in the year, was at least partially in operation again.

One youngster, working in conjunction with two others, told of having entered the Walter Cundiff home at 105 E. 10th and having taken some golf clubs and other items. The same lad, without help of his companions, twice entered the home of Mrs. Joe Barnett at 410 Nolan street.

Of five boys questioned by officers during the week in connection with a series of burglaries, all were involved in the "ring" thefts which barred an unprecedented wave of juvenile delinquency here approximately six months ago.

During the week one youth was sentenced to the state reformatory after confessing to two burglaries in addition to a previous record. Another was given a suspended sentence, and he was the one involved in the three new cases, said Police Chief J. B. Bruton.

# New Civilian Pilot Training Program Starts Here July 1

Ground instruction and flight training will be given at the Big Spring municipal airport beginning July 1st under a new Civilian Pilot Training program as revised by the war and navy departments

and at least ten men are needed to begin the first eight weeks of training. The C.A.A. program will be utilized by the army during the coming year to train large numbers of flying specialists, including instructors, glider pilots, co-pilots, liaison and service pilots. The training is available to men who have reached the age of 18 but are not yet 37 years old and who can pass CAA mental and physical tests.

The program is also open to those who have been unable to meet the stringent physical requirements of the army for combat pilots. Enrollees will be enlisted in the reserve corps for active service and others will remain in inactive status as civilian instructors, airline pilots, and co-pilots.

## Read Test May Be Opener Of New Pay Area

Presence of a higher gravity oil than in nearest tests led operators Saturday to speculate on the possibility that the Ray Oil Co. of Dallas No. 1 Willard Read, extreme eastern Howard county exploration, would prove to be opener of a new pool.

Oil from the column which was standing more than 2,000 feet in the hole Saturday tested 32.2 gravity. The test is a mile and seven-eighths from nearest production and had been regarded originally as an outpost to the Dodge-Dennan field in the East Howard pool.

Drilling was halted Friday at 2,782 feet in the pay since operators were cautiously exploring the zone. The bottom horizon had extended from 2,767 feet. First pay came from 2,634-60 feet and it was this streak that was to be treated next week with acid.

Saturday the 5 3/16 inch string had been run below 2,400 feet and operators were waiting on cement to set. The test is located 330 feet from the south and east lines of section 37-30, 1n, T&P, is only some 200 feet south of the railroad tracks and near the Mitchell county line in a rugged stretch of country known as Rattlesnake Gap. Oil has been sought in that general vicinity for more than 20 years. If this test, a producer, it will call for three offsets.

## Postal Federation Officials Here For Conference Today

A conference of all local post-office clerks and their wives with national and state federation officials has been called for today, and full attendance is urged.

Here for a session to be held on the Settles hotel messanine at 2:30 this afternoon are J. Cline House of Oklahoma City, vice president of the National Federation of P.O. Clerks, and Homer E. Shamburger, Fort Worth, vice president of the state federation. Mrs. Shamburger also is here.

All Big Spring postal clerks were urged to be on hand to meet the visitors.

## County Scrap Collection Is Still Growing

Sights were eased up a notch Saturday as revised totals showed Howard county to still be pressing forward in its scrap rubber collection campaign.

Leaders were predicting an excess of the 200,000 mark after 24,241 pounds brought in up to Saturday afternoon boosted the grand total for two weeks of collecting to 285,083 pounds. This was roughly 13.8 pounds per capita, far above state and national averages.

Some thought that Monday would see 300,000 pounds in the hopper since considerable volume from rural sources was not figured in Saturday.

The campaign for salvage rubber—and that includes anything with rubber in it—is to continue through Tuesday. B. J. McDaniel, chairman of the local committee, composed of all men, urged all who have not yet gathered up the scrap rubber goods about the place to do so and either sell or leave them at any service station or leave them beside the garbage can.

While this scrap drive was about to terminate for the time being, another was in the making. E. E. Hendricks, representing the war production board, was here Saturday in the interest of setting up an industrial scrap iron committee—one that would be responsible for gathering scrap constantly from all industrial plants in the county.

## Mitchell County Rubber Collection Over 91,000 Lbs.

COLORADO CITY, June 27. — With gasoline distributors' warehouses filled to capacity with the tons of scrap rubber in from all over Mitchell county, Frank Kelley and Jack Helton, collection committee, estimated late Friday that 91,033 pounds have been weighed in from the filling station collection points.

The amount represents rubber bought and paid for at the prevailing 1 cent per pound only, and does not include rubber tossed in the downtown "donation pen" which is filling rapidly. Scrap rubber donated will be sold at current prices and the money will go into the Mitchell county war chest.

Figures from the pen and from the Friday collection of rubber gathered by citizens and collected from all over Colorado City by trucks and pick-ups furnished by various companies and individuals, are incomplete. According to some optimistic estimates the final yield for the county may exceed 50 tons.

## Church Vacation School Draws 153

With the original attendance goal reached during the first week of its daily vacation Bible school, the Assembly of God church aimed higher for this, the second and final week.

Friday enrollment in the school, which extends from beginners through adult ages, stood at 153, which was three over the original goal. Workers are now laboring toward a 200 goal during the last week, said the Rev. Homer Sheats, pastor.

Activities will be terminated Friday at 8:30 p. m. with a "commencement" exercise at the church at 4th and Lancaster. The school is under the direction of the Rev. and Mrs. Donald Walker of Plainview.

## Stocks Up Slightly After A Sick Week

NEW YORK, June 27 (AP) — The stock market today emerged from a rather depressing week with mild and selective recovery tendencies a little more than offsetting declining trends for many leaders.

The Associated Press average of 60 stocks was up .1 of a point at 25.1 but showed a net recession of .5 on the week. Dealings were light throughout, transfers totaling 113,290 shares compared with 127,060 last Saturday.

## Texas Construction At All-Time High

By The Associated Press  
Texas Contractor reported today that Texas construction in actual contracts set an all-time record for the first six months of the year with a total of \$405,572,281 recorded.

Of this amount, \$191,144,817 was for war industries the nature of which is censored. June awards, as reported by the Contractor, amounted to \$69,436,070, and totaled \$46,486,079 the past week.

Of Texas cities reporting building permits issued last week, Corpus Christi ranked first with a total of \$5,072,397, of which sum a \$5,000,000 permit was granted to build a refinery.

## SCRAP RUBBER DRIVE ENDS JUNE 30

Tuesday, June 30, ends the **SCRAP RUBBER** drive called for by President Roosevelt . . . To date, Big Spring has accounted for approximately 285,000 pounds of scrap rubber, but still more is needed from this area if we are to do our full share to help reinforce the nation's supply of rubber . . . and, possibly, keep **GASOLINE RATIONING** out of Texas!

More important than gas rationing or other sacrifices we may be called on to make is the urgent need for this vital material, but if the cooperative efforts of the nation as a whole can turn in enough scrap rubber by June 30, nation-wide rationing of motor fuel may be spared.

Let's all take a few hours **TODAY** to search out the attic, store room, garage and every other place that might hold a discarded article containing **ANY AMOUNT** of rubber . . . then turn it over to the nearest **SERVICE STATION** Monday and Tuesday. You will be well paid for your time and trouble in the satisfaction of knowing you are contributing directly to the war effort . . . but more than that you will receive 1c per pound for all scrap rubber—regardless of condition—that you turn in!

### "Pardon My Sarong"

Universal's latest Abbott and Costello comedy also features Virginia Bruce, Leif Erickson and Nan Wynne.

Tired of bus-driving in Chicago, the boys take off for California, where they are promptly arrested for stealing the bus.

To escape arrest they board a private yacht, which later runs aground on an uncharted South Sea island in a storm.

Luana (Nan Wynne), daughter of the island chieftain, soon complicates their situation by falling in love with the unwilling Costello.

When Luana's native suitor, Whamba (Leif Erickson), threatens to assassinate his rival, Costello accidentally knocks out his pal Abbott.

But Costello's antics finally solve all their problems and the yacht sails for home—with Luana accompanying him as a stowaway.

## Fashion Scene

Mademoiselle Summer has descended upon us and playclothes are the order of the day. Never was it more certain that "all work and no play makes Jill a dull girl," so relax in the sun, swim, and take part in outdoor funning to break the stress of your war work. You will return to it with more vigor and determination than ever. Looking pert in your fun clothes is equally conducive to a refreshed spirit, so go all-out in your selections of playclothes this year in color and originality—as fashion itself has.

Margaret McKay

Among the really new and exotic designs are the rumba bathing suits. They are a combination of the old favorite bandeau top in bolero cut, with the trunks in tiny, ripping, close-set ruffles ala the Cuban rumba dancer's costume. While Lupe Velez is the perfect type for the new idea, it was luscious Ann Miller who dared it first in Hollywood, at a recent swimming pool party. Her suit was in red and mimosa yellow calico. Gingham and calico is now a real glamour cloth and in the romper style is especially fetching.

Joan Bennett has designed for herself what she labels her "around-the-clock-frock." Of white waffle pique, with three flared ruffles trimmed with rows of red rick-rack, the bodice—which has a halter neckline for sunning—becomes completely "covered up" by adding a long-sleeved white pique bolero. Each of the three ruffles button on and when all three are attached, the outfit is floor length, and Miss Bennett is ready to receive guests for a summer dinner party. When the lower ruffle is removed, Miss Bennett is attired for a luncheon date and when the second ruffle is removed, plus the bolero, Miss Bennett is ready for a sun fest around a swimming pool.

**BEST DRESSED GIRL OF THE WEEK:** Pinafores are everywhere—in patios, gardens or at the market—and they are in giant flower prints, plain or striped. No one looked more bewitching than Linda Darnell in her rose-colored candy-striped pinafore of pique this week, and with it she wore one of the big flowered shawls peasant-fashion over her head. The shawl was a big red rose splashed affair of challis.

**AROUND TOWN:** Rita Hayworth in a pareo draped bathing suit. Sharon Douglas dancing with Eddie Norris at the Biltmore Bowl in a white crepe, harem-tucked-skirt cocktail frock appliqued with turquoise flowers of pique. Put down pique and crepe as a novel new combination. . . . Jane Wyman in the new peach-bloom color. . . . Janet Blair and John Howard dining at the Brown Derby, with Janet wearing one of the smart black quilted hat fashions with matching duffel bag of linen quilted in white.

### Reviews of Previews

Dorothy Lamour, who recently returned to Hollywood after a nationwide bond-selling tour so spectacularly successful that a whole batch of glamour girls are now on the road endeavoring to duplicate her salesmanship, slips back into her sarong in Paramount's "BEYOND THE BLUE HORIZON," previewed this past week.

Given the benefit of technicolor photography, the beautiful Dorothy has never looked more charming, and excellent support by Richard Denning, Jack Haley, Patricia Morrison, Walter Abel and an ape, Gogo, who at times almost steals the picture with his antics, make film escapism entertainment that most anyone will enjoy.

The story is a bit too complicated to retell here; suffice it to say that it starts for a change with Dorothy back in civilization, looking well indeed in evening clothes, but little time is lost in slipping her into the familiar sarong and back to the jungle.

Dorothy Lamour innocently kisses the family butler in this opening scene from "Beyond the Blue Horizon." She has two songs, "A Full Moon and an Empty Heart" and "Pagan Lullaby," both tuneful and well done in Miss Lamour's throaty voice, and some of the jungle shots are eye-filling indeed.

MGM previewed the first of the new Dr. Kildare series with-out Lew Ayres, and young Phillip Dorn who is subbing for him does an excellent job indeed. Titled "CALLING DR. GILLESPIE," the story revolves around an incipient homicidal maniac who is seeking revenge on Dr. Gillespie for a fancied wrong.

It's a tense story, loaded with suspense and launches this new series with a bang. Performances are all tops, with an especial word going to young Phil Brown who dominates every scene he is in with his performance of the maniac.

"CALLING DR. GILLESPIE" is first-rate entertainment and will please most every moviegoer.

Metro-Goldwyn-Mayer also previewed the new Wallace Beery film, "JACKASS MAIL," a story, as the title indicates, of the days before the railroads came to the lusty western frontiers and the mail arrived via the jackass route.

Beery delivers a standard performance, using all of his usual muggin', groanin', grinnin' technique, and is splendidly supported by hoarse voiced Marjorie Main, able J. Carol Nash, with little Darryl Hickman playing the boy who does the reforming of the rough diamond Beery, and doing an excellent job of it all.

"JACKASS MAIL" will please all Beery fans, who are legion, and is refreshing entertainment for anyone.

Columbia Picture's "CANAL ZONE," starring Chester Morris, Harriett Hilliard and John Hubbard, is an up-to-the-minute exciting story of the bomber ferry command, the action taking place at a training station in the Canal Zone where the recruits are taught to fly the big ships across the South Atlantic to Africa.

Morris is an instructor, very much in love with the daughter of the base commander (Harriett Hilliard) into whose lap is dumped a brash, bumptious socialist, John Hubbard, who throws discipline to the winds and goes on the make for the lovely Miss Hilliard. However he is a super-flyer who proves his real worth when he rescues Morris from a mountain crash during a storm, and then departs for the war front leaving the status quo just what it was before his arrival.

Chester Morris has never been seen to better advantage, with Hubbard doing the playboy for all it is worth, and as someone remarked, that mustache of his doesn't hurt his appearance either. Miss Hilliard is charming as the only woman in the film.

"CANAL ZONE" is entertainment for the whole family: all will enjoy it.

It is not amiss at this time to make mention of the current release of "GONE WITH THE WIND" at popular prices.

The picture is again making box office history all over the country and moviegoers seem just as anxious either to see it or see it again as when the film was first released almost two and one-half years ago. If you haven't seen it, make a point of doing so, and don't hesitate taking every member of the family. It is entertainment for all ages.

## Meet the Stars

With Vic Boesen

Back in the early Thirties, in the dives along Chicago's "Barbary Coast," where the bluebloods go slumming and the rest of us make no excuses, patrons used to toss coins to a song-and-dance team composed of a lanky, genial kid with a ukulele and a Crosby voice, and a rag-footed Negro called Sugar Foot Brown.

Vic Boesen

They were pretty good. Even the sagging demimodes drifting in from the swirling filth and stink of Clark Street paused to look and listen. Assorted dark characters from the underworld sometimes flipped them paper money. "My dear, they're cleavah!" came from the bluebloods in slightly thick North Shore British.

The lad with the uke was especially good. It didn't matter much that his name was Johnnie Johnston. No one would have guessed that some day he would end up in Hollywood under contract to a major motion picture studio and that his name would appear on theater marquees from Maine to the Pacific.

BUT THAT is what happened. It was Johnnie Johnston's voice that sent Irene Dunne's memories trailing back as she played the recordings in "Penny Serenade," and, although you haven't seen him yet, you will soon, in Paramount's "Sweater Girl" and "Priorities of 1943." Right now he's making "Star Spangled Rhythm," in which he sings with Vera Zorina.

Johnnie's adventures didn't begin and end on Chicago's Clark Street. Indeed, his adventures shade out in fact what others in Hollywood have done in pipe dreams. Born in Kansas City, he grew up in pool and billiard halls. His parents divorced when he was ten, and his mother became a professional bowler. He has ridden the rods and side-dor pullmans many times across the nation. Once he was locked three days in the ice compartment of a refrigerator car; and another time, traveling in similar style, he defended a hobo mother and child from a knife-armed Negro, pushing the attacker from the train as it pulled out of the yards. He has worked his way to such far places as Australia, China and Japan.

IN CHICAGO he first got on by shaping up folding cardboard boxes at fifty cents a day and two meals. Then he sold novelty matches, keeping for himself whatever he could get above three cents a unit. When he had saved nine dollars he took a room at two dollars a week over by the car barns on Archer Avenue. With two more dollars he made a down payment on a ukulele and turned troubadour among the honkytonks.

Although he neither smoked nor drank, which would have been some armor against the din and gin, he kept his head and one day he found himself broadcasting from NBC's Chicago studios. His show, "Club Matinee," became an institution, ending after five years only because his sinus finally drove him west. In the transfer he never lost a lick on the way up.

There's a story to think about—you wrong guys who claim you never had a chance.

## QUIZ BOX

Q. From Bill Lewellen, Neoga, Illinois: I would like a biographical sketch of Dennis Morgan.

A. Dennis Morgan was born at Prentice, Wisconsin, December 20th, 1916. He attended public school there, followed by high school at Marshfield, Wisconsin, the University of Wisconsin, and Carroll College at Waukesha, Wisconsin. Was a crack athlete at high school and college.

Finishing college, he managed to get a job singing and announcing on a radio station in Milwaukee, staying there for a year and a half. From there he went into stock for several seasons. He finally met Mary Garden, who arranged for the screen test which brought him to Hollywood and a contract with MGM. But with Nelson Eddy on their player roster he got little work there and switched to Paramount where the same thing happened. Then Warner Brothers signed him, and he's been a busy man since.

He is six feet two, weighs 185 pounds, with blue eyes and brown hair. Latest picture is "The Hard Way," as yet unreleased.

Q. From I. B. Bryan, Big Spring, Texas: When will the next Henry Aldrich picture be released, and what is the name of the girl who plays Dizzy's girl friend in Paramount's "Henry and Dizzy"?

A. No definite release has been set for the next Aldrich picture. Fact is Paramount has so many finished pictures on hand that they have accumulated a tremendous backlog, some pictures now being released having been finished six months or more ago. Dizzy's girl-friend is Mary Anderson.

**EXCLUSIVELY YOURS:** Monty Woolley, the "Man Who Came to Dinner" and became the man of the hour in Hollywood, isn't going to shave off his famous beard after all. Twentieth Century-Fox wanted the character actor clean shaven before casting him with Ida Lupino in "The Light of Heart." Woolley liked the role so well he agreed to part with the chin muff he's worn for 20 years. But at the last minute, the studio decided to let Woolley keep the beard, fearful that its absence would detract from his screen appearance. The actor, incidentally, is the talk of the town for his magnificent acting job in "The Pied Piper" . . . Producer Hunt Stromberg is cooling up a deal to costar Marlene Dietrich and Greta Garbo in a picture.

They hire doubles in Hollywood to protect the stars from injury. But it worked in reverse for a shot in Pine and Thomas' "Submarine Alert." Two doubles for Richard Arlen and Nils Asther were slugging each other when one tripped and crashed into Arlen, standing off-stage. Arlen, not the double, is nursing the bruises. . . . As expected, Hollywood is meeting the \$5000 set building limit with a flood of outdoor dramas. Of seven films to go before the cameras at Fox soon, five are outdoor stories—"One Man Army," "China Girl," "Springtime in the Rockies," "My Friend Flicka" and "The Ox-Bow Incident." . . . Sid Grauman is paying Sid Silvers and Rags Ragland for his Vias Street vaudeville show. The comics are packing 'em in at Charley Foy's.

Hollywood has decided to do something about indiscriminate publicity linking film stars with the war effort. A board of strategy has been organized by the Producers Association to bar all attempts of using the war to exploit motion pictures and motion picture stars. . . . Fred Astaire will have an entrance reminiscent of Barrymore for a scene in his Columbia film musical with Rita Hayworth. Rita, a loveless maiden, dreams about a knight in armor on a white, plumed charger. Astaire will be aboard her dream horse.

Promised and hoped for: Vic Mature, Hollywood's big hunk of man, singing "I've Found a Great Big Hunk of Love" to Lucille Ball in RKO's "Sweet or Hot." . . . Song title of the month: Harry Rosenthal and Jimmy McHugh's "I Can't Give You Anything But Love, Baby." . . . Add jobs we envy: The makeup man who has to put body makeup on Hedy Lamarr every day for her role in "White Cargo." . . . Someone asked Arthur Murray if his tires were getting thin. "Thin," said Murray, "why on a clear day you can see the tubes." . . . Tom Brown and Mary Lou Simpson are burning up the local bistros. . . . Joan Bennett will have a permanent scar on her leg as a result of a burn from a heating pad.

## ON THE SETS

With Reed Johnston

For once in his life this usually unauthoritative observer is in a position to pass expert judgment on the authenticity of a movie set. This is the sub-basement apartment in New York's Greenwich Village where Rosalind Russell and Janet Blair meet with most of their hilarious adventures in Columbia's screen version of the stage play, "My Sister Eileen," and your reporter lived in those environs in the days when blasting operations for the Eighth Avenue subway rocked the neighborhood daily.

It was against these well-remembered explosions that Miss Russell, who is Ruth Sherwood, and Miss Blair, her sister Eileen, were complaining bitterly to George Tobias, their Greek landlord, in a sequence where, buoyed up by unexpected wealth in the form of a check from a magazine, they threaten to quit his premises forever. In the preceding sequence this check had just been handed to the girls by the editor, Brian Aherne, who on his way out collided with the entering landlord and left him behind to face the angry tenants.

"Please, ladies," said Tobias in his best Greek accents, "look! I gotta letter from the city says the explosions stop today!" Then, finding the ladies still unmoved, he continued, "You stay here and I put in all new furniture, new painting and"—he concluded triumphantly—"lower the rent to thirty dollars!"

Whereupon Miss Russell, as the more level-headed of the two, demanded, "How do we know you'll keep your promise?"

"Yes, how do we know?" asked Miss Blair.

"Look," said Tobias, slapping down a paper. "It says so in the lease. Only you gotta sign it for six months."

"If it says so in the lease he'll have to do it," Miss Blair agreed.

"Sure! You got me trapped," said Tobias, as the girls signed the lease without bothering to read it. And considering the wily expression on his face, it seemed extremely likely that the girls themselves were the ones upon whom the trap would spring.

It should be unnecessary to tell you that Miss Russell looked exceedingly charming throughout this scene, and that Miss Blair, now a blonde, is looking prettier than ever before. What you may not be prepared for, however, is the curly brown wig worn in a Hesperia dress fashion by Mr. Tobias. If anything could make him prettier that wig ought to do it, but I am constrained to report that the effect is comic rather than beautifying.

Of course they planned it that way. And in all fairness to Mr. Tobias, one of my favorite character actors, it must be said that he wears his headpiece with a flair, for all the world as if it were a white plume, and also that he gets quite as much attention from the hairdresser as either of the ladies.

In Paramount's "Faint Heart Story" Claudette Colbert wears a Parisian-styled evening gown of suede colored jersey, with an attached hood fastened to the shoulder with a gold and jeweled butterfly pin.

Jinx Falkenburg displays those youthful charms which give a special meaning to her dancing role in the recent Columbia musical production, appropriately titled "Lucky Lags."

## College Crown Annexed By Frank Tatum

SOUTH BEND, Ind., June 27 (AP) — Frank "Sandy" Tatum, Jr., the Stanford Phi Beta Kappa student, today won the National Intercollegiate championship.

He pelted Northwestern's Manuel De La Torre with subpar golf for a 5 and 4 victory to snap a Jim which had dogged Stanford linkmen three times in the past five years.

Chain O'Lakes course with a one-under-par 70 in the morning to lead the Madrid-born De La Torre three-up.

De La Torre, also an honor student, took a one-up advantage on the 8th hole, but the match was evened on the ninth as Tatum potted a nine-foot putt for a birdie. It was the only lead De La Torre enjoyed as Tatum's torrid putter cracked out three birdies on the last nine which helped develop a two-under par 33.

De La Torre, the 20-year-old sophomore who wishes to enter the diplomatic service after getting his naturalization papers, found his consistent par shooting insufficient to keep step with Tatum.

The Spaniard carded a respectable 78 on the first 18 holes but never was able to bridge the gap Tatum built in winning the 12th, 13th and 14th by sinking two 25-foot putts for birdies and posting a par which was good when De La Torre three-putted for a bogey.

## Kraft, Oliver In Trans-Miss. Finals

KANSAS CITY, June 27 (AP) — Gant killer John Kraft of Denver potted a 3 and 2 defeat on 19-year-old Frankie Stranahan, the pride of the Toledo Inverness golf club, in a semi-final match today. This assuring the crowning of a new champion in the 42nd annual trans-Mississippi tournament.

The handsome Coloradan never gave the defending titlist time to catch his breath after going 1 up for the second time with a birdie 4 on the fifth hole. He carded a 3-under-par 35 for the first half of the 18-hole match play—holding a two stroke margin at the turn—and chipped two shots off regulation figures for the 16 holes.

Irl Oliver, a local youth representing the host course, edged out a 1 up extra-hole victory over Danny Schoonover, Kansas City amateur king from Topeka.

DALLAS, June 27 (AP) — Johnny McPartland, rookie southpaw, buried two-hit ball as the Dallas Rebels took their third straight win over the Tulsa Oilers tonight 5-0.

## Santone Girl Downs Iowan By 9-7 Count

CHICAGO, June 27 (AP) — Betty Jameson, a grand champion, won the women's Western Open golf title today.

The San Antonio girl with the pleasant personality and a soft voice slightly tinged with Texas drawl triumphed over 17-year-old Phyllis Otto of Atlantic, Iowa, 9 and 7, over 29 holes of the Elmhurst country club in the final of the six-day tournament.

She mowed down a formidable opponent with an amazing first round in which she took a 5-up lead. Miss Otto did not win a hole after the 15th of the morning round and 24-year-old Betty, who writes golf for the San Antonio Evening News, almost casually earned four more holes in the afternoon to triumph with ease.

Championship honors are nothing new to Betty Jameson. When she was 14-years-old she won the 1934 Southern women's tourney. She triumphed the hard way in the 1937 and 1940 trans-Mississippi meets by defeating the great Patty Berg in both finals. And she took the national tournaments in 1939 and 1940.

There was nothing to do but accord Betty the title of 1943 national champion after today's events. The war-time cancellation of the National and trans-Mississippi made this year's women's Western Open the only major meet for amateurs and professionals, and Betty won that.

She succeeds Patty Berg as champion in this tournament. The Minneapolis red-head did not defend since she was incapacitated by a knee injury received in an automobile accident last winter. Miss Jameson, fourth in last Monday's qualifying play with a three-over-par 79, was even par for the route today. She shot a 39-40-79 for the first 18, had a 36 for the first nine of the afternoon round and finished the last two holes with a birdie three and a par four.

## Ohio Tourney In 3-Way Tie

GIRARD, O., June 27 (AP) — Determined to retain his Mahoning open title, Clayton Heatner, the big blond from Durham, N. C., fired into a three-way tie of 131 today with Lloyd Mangrum and E. J. (Dutch) Harrison.

Heatner shaved a stroke off yesterday's two-below-par 63 to press his bid for \$1,000 first place money. Heatner and his two top competitors were five beneath par.

Mangrum, from Monterey Park, Calif., and a good stretch golfer when he's "hot," added a 66 to his first round 65 while Harrison carved four strokes from par on the home nine for a sensational 30 which gave him eightens of 66 and 65 at the halfway mark. E. J., known on the pro circuit as the Arkansas Traveler, now lives at Harrisburg, Pa.

Joe Kirkwood, the track shot artist from Abington, Pa., and Horton Smith of Pinehurst, N. C., who started today's play over the par 68 Mahoning Country club course deadlock with Byrd, slumped to 70 for half-way totals of 135—still good enough for third place.

The slump of Ben Hogan, leading money winner, and victor in the recent Hale America tourney, furnished one of the day's surprises. Three strokes off the pace Friday, he dropped to nines of 36 and 35, an unremarkable 71 and a 36-hole total of 132.

## Yankees Whip Sox 7-3. Keep Lead Intact

CHICAGO, June 27 (AP) — The New York Yankees clung to their six and a half game lead in the American league today by defeating the Chicago White Sox, 7-3, as Spurgeon Chandler registered his eighth pitching victory against two defeats.

**HOMERS HELP BROWNS**  
ST. LOUIS, June 27 (AP) — Glenn McQuillen and Vernon Stephens hit home runs in succession for the St. Louis Browns in the third inning today to feature an 8 to 3 victory over the Washington Senators.

**TIGERS 6, A's 5**  
DETROIT, June 27 (AP) — Roger Cramer's double in the 13th inning, his fourth hit of the game, drove in Bill Hitchcock from first today to bring the Detroit Tigers a 6 to 5 victory over the Philadelphia Athletics. Johnny Gorsica, who relieved Tommy Bridges, was the winning pitcher.

**SOX BEAT INDIANS**  
CLEVELAND, June 27 (AP) — Kendall Chase held Cleveland's Indians to one hit for seven innings today—long enough to let his Boston Red Sox mates pile up six runs and go on to a 6-3 triumph over the Tribe.

## Red Cross Golf Tourney Slated For July Fourth

A second Red Cross golf tournament will be held at the municipal course July 4. Manager Harold Akey has announced. The tournament will be similar to the one played there about three weeks ago, with money derived from entrance fees going to the Red Cross war fund.

The entrance fees are fifty-cents each, and of the total receipts 85 per cent goes to the national Red Cross and 15 per cent to the local chapter.

All golfers of this section are invited to participate in the play.

## A&M Group Wins Meet At Corpus

CORPUS CHRISTI, June 27 (AP) — Lipcomb Pharmacy of College Station, represented by several A. and M. athletes, won the Corpus Christi naval air station invitation track and field meet tonight with a total of 49 points.

The host naval air station team was second, with 34 points, followed by the University of Texas with 21, Rice Institute 23, Army Air Force pre-flight school of Kelly Field, 19, Indiana University 10, Stephen F. Austin Teachers 5, and Howard Payne 3.

Bill Cummins of Rice received the trophy for the outstanding individual performance. He scored 17 points in winning the 120-yard high hurdles in 14.4 seconds, the low hurdles in 24.4 and the broad jump with 21 feet, 5 1/4 inches. He also was fourth in the pole vault and high jump.

## Former White Sox Player Succumbs

MICHIGAN CITY, Ind., June 27 (AP) — Corp. Eugene Stack of Saginaw, Mich., a soldier at Fort Custer, Mich., and a former Chicago White Sox baseball player, died of heart attack last night a short time after he had pitched and lost a 5 to 3 game with the Michigan City Cubs.

Stack, whose real name was Eugene Stachiwack, was a pitcher for the Fort Custer team.

## Cincy Downs Brooklyn On Homer In 9th

BROOKLYN, June 27 (AP) — The ninth-inning strategy of the Brooklyn Dodgers exploded in the face of Pitcher Curt Davis today as a three-run homer with two men out, giving the Cincinnati Reds and Johnny Vander Meer a 3-1 decision.

The defeat cut Brooklyn's lead in the National league to nine games as the St. Louis Cardinals were kept idle at Philadelphia.

Davis and Vander Meer, who yielded only four hits apiece, hooked up in a corking mound duel which went for seven innings without a score.

**SHUTOUT FOR JAVEY**  
BOSTON, June 27 (AP) — Al Javery registered his second shutout in eight days today for his sixth victory as the Boston Braves beat the Chicago Cubs 4 to 0 to even their series.

The big Boston righthander struck out Jimmy Fox, who won yesterday's game with a ninth inning homer, three times.

**Missions Make It Three In A Row Over Beaumont**  
BEAUMONT, June 27 (AP) — The league-leading Exporters almost won a game here today, after losing three straight to San Antonio, when the second half of a doubleheader ended in a 3-2 draw after nine innings to allow the Missions to catch a train. San Antonio took the opener, 9 to 4, scoring six runs in the seventh inning, featured by Tom Hafey's home run with a mate aboard.

When Hafey came to bat in the ninth inning of the opener, he was felled by Bob Gillespie's fastball. He was rushed to the hospital for observation.

Joe Weasing, Exporter second baseman, hit a home run in the seventh chapter with two on base for three of Beaumont's runs in the initial tussle.

The second game was a stubborn mound duel between Al Lamachia of the Missions and Charlie Fuchs, the latter making his home debut after being sent here by the Detroit Tigers.

## Looking 'Em Over

This weekend finds two head coaching positions filled by Texas colleges, and football is starting to make a place for itself in the year's sports talk. At the new consolidated Trinity University Alvah Boggs will be barking orders from the head mentor's stand when the gridiron season rolls around.

Greenberg, the slugging Detroit Tiger star, will be captain of the boys from McDill. A corporal from McDill related recently his first meeting with the mighty Greenberg. Hank entered the barracks and began to take part in the palaver that was issuing forth, and finally introduced himself to some of the boys. "I've heard of a guy named Greenberg," the corporal said, "but if I recall correctly, he was a baseball player." Needless to say his embarrassment was profound when he learned that he was talking to THE Greenberg.

Forty-six of Ted Lyons' 250 major league victories have been at the expense of the Cleveland Indians. . . The former Baylor chunker has beaten the Yankees only 27 times. . . Sports writers all over the country are lauding the story about J. G. Taylor Spink, publisher of the Sporting News, which appeared in last week's Saturday Evening Post. . . A Lou Gehrig Memorial ambulance was presented to Mayor La Guardia of New York by Mrs. Gehrig on the eve of the immortal first baseman's birthday. . . Directors of the six clubs which formerly made up the Evangeline league have announced intentions of keeping their territorial fees paid up to insure another league there after the war.

Completion of 76 years of organized baseball will bring on quite a celebration in San Antonio July 24, which has already been designated as "diamond jubilee night" by club officials. Their first game was played there in 1867. The Fort Worth Cats will furnish opposition for the Missions, and League President J. Alvin Gardner will be special guest for the occasion.

## Ballinger Up In Stick Race

DALLAS, June 27 (AP) — The clouting twins of Beaumont's hustling Exporters—Hoot Evers and Dick Wakefield—continued to set the Texas league pace during the past week but moving up fast was Henry Ballinger of the Shreveport Sports.

Averages through Wednesday showed Evers in front with 309 and Wakefield three points behind, while Ballinger drove into striking distance with an average of 355.

Beaumont's team continued to lead in hitting, blistering the ball for 284, more than 20 points ahead of second-place Houston.

Stub Overmire of Beaumont has been out of action for some time due to an injury but still topped the pitchers with his eleven victories and three defeats, but Joe Berry of Tulsa had the best average—eight wins and two losses.

## First Round Ends Today In Cosden Golf Tournament

Match play in the annual Cosden golf tournament has been in progress this week at the country club, and today's play will windup the first round of play.

All first round matches must be completed this afternoon and play in the second round will get underway next week.

Management at the country club has reported that the number of players visiting the course this week was heavier than that of last week.

## Mr. Big Tail Wins Easily At Aqueduct

NEW YORK, June 27 (AP) — Whirlaway stretched out his six foot tall and won the Brooklyn handicap today so easily he looked as if he can overhaul Seabiscuit's all-time money-winning record any time the cash is laid on the line for him.

Turning loose his famous kick down Aqueduct's "killer" straightaway in tune with the "Here comes Whirlaway" cry from the stands, Little Mr. Big Tail galloped home by nearly two lengths to pick up a \$23,650 pay-check and become the second horse in all racing history to go over the \$400,000 mark in earnings.

Today's trick skyrocketed his bankroll to \$404,486 just \$23,244 short of the Biscuit's \$428,730. He ran the mile and a quarter in 2 minutes, 2 2/5 seconds. The time lopped three-fifths of a second off the record for the Brooklyn and came within one second of the track record on footing that was not completely fast.

Mrs. Payne Whitney's Swing and Sway was second and Mrs. Parker Corning's Attention third.

The army and navy relief funds and the United Service Organizations collected \$100,000 from the program.

## Photography Is Subject For H. D. Women

Talk on photography was given by Mrs. Charles Kelsey for the Reporters' Association of the Home Demonstration clubs at the county agent's office Saturday afternoon.

Mrs. Kelsey spoke on various methods of taking pictures but stressed the fact that the subject should fill the viewfinders, for better pictures.

Mrs. I. H. Beverance, Mrs. Paul Adams, and Mrs. M.M. Fairchild were named as a committee to present the radio program on July 6th at 1:15 o'clock.

Others present were Mrs. O. R. Smith, Knott; Mrs. J. G. Hammock, Fairview; Mrs. M. M. Fairchild, Overton; Mrs. L. H. Severance, Coahoma; Mrs. Shirley Fryar, Hillway; Mrs. Paul Adams, Knott; Fontilla Johnson.

Next meeting is to be held the fourth Saturday in September.

## Lucky Thirteen Club Meets In McGibbon Home

Spring flowers decorated the home of Mrs. K. H. McGibbon when she entertained Friday for the Lucky Thirteen bridge club.

Mrs. James A. Fowler was included as only guest. High score went to Mrs. Robert Stripling and bingo to Mrs. H. G. Keaton.

New members present included Mrs. Charles Watson and Mrs. H. C. Stipp. Others playing were Mrs. O. M. Waters, Mrs. Mark Wentz, Mrs. J. V. Birdwell.

## Cosden Chatter—

By TOMMIE McCRAHY

R. L. Tollett returned by plane Thursday evening from a trip to Chicago, New York, and Washington, D. C.

Otto Peters, Sr. addressed the students of the Basic Industrial Safety Engineering course in Midland Friday evening on the subject of First Aid.

The Cosden golf tournament has started off with a bang. Thirty-nine employees have entered, and from all indications, the championship flight will see many hot contests.

Horace Wallin had Sam Heffner rolling on the club house lawn when he missed a four-foot putt on the 18th hole, which would have halved the match with "Rat" Ramsey. Sam had drawn Wallin's name in the Calcutta pool, which as a result, caused Sam to lose out plenty.

Mr. and Mrs. Bob Ward have had as their guest for the past week, Mrs. Ward's mother, Mrs. W. E. Polk of Fort Worth.

Quite a few men are leaving the employment of the company this week to answer the call to arms. Roy Baird has enlisted in the navy air corps. Bud Hudson of the sales department is leaving Wednesday for the navy, and Orville Hicks of the credit department has already reported to the army.

Ferris Daugherty received a letter from "Willie" Wharton, who is stationed at Camp Lawrence, San Diego, Calif., and in it there was enclosed a picture of him in his uniform. He sent the picture to Daugherty with this personal recommendation—"Build a fence around it to keep the ladies from crushing."

"Hoople" Hart is attending the Snyder rodeo this week and in which he is one of the contestants. At the rodeo held in Post last week he placed first in the wild cow milking contest.

Mr. and Mrs. T. J. Dunlap and son, Jerry, are spending the weekend in Lorenza, visiting with his parents.

E. W. Williams is out of the office this weekend on a business trip to Albuquerque and Deming, New Mexico.

W. E. Gibson and Sam Heffner left Saturday for Deming, New Mexico on company business.

**Jane Echols Given Party On Birthday**

COAHOMA, June 27 (SpI) — Mr. and Mrs. Leroy Echols honored their daughter, Jane, on her 10th birthday anniversary at their home Thursday with a lawn party.

Contests and games were played and refreshments served to Jane Hardy, Patsy Kiser, Marguerite Stamps, Bonnie Payne Lindley, Ann Mullins, O. D. Daniel, Dennen Mullins, Shirley Ann Wheat and Jo Ann Conklin.

Mr. and Mrs. Thomas J. Coffey left this weekend for Ruidoso, N. M., for a vacation.

**JERSEY AND TAFFETA**—New gown featuring decollete over silk jersey undergown, combined with sea-green paper taffeta overskirt laced onto the dress with a shepherdess tie, is modeled by Jane Froman, radio songstress.

## Making Own Wardrobe Is Fun For Some But A Chore For Others

Maybe the hems aren't works of art, and perhaps some of the seams wouldn't pass a professional seamstress' eye, but nevertheless many of the girls are whipping up homemade dresses this year that look good to the average eye.

Unless the housewife is an experienced hand, though, most of the dress, blouses and skirts that they have fashioned for themselves are usually plain affairs and worn at home or for informal occasions. The store-bought clothes still rate number one with most women for dressing up.

Some of the local ladies confessed that each summer they experienced the same urge to buy a few yards of pretty summer material, spend hours selecting a pattern, and then dust off the sewing machine for a real orgy of work.

But a few others admitted that after an afternoon or two of this, they felt their ambition slipping. Along about the time they had to rip the same seam two or three times, before they finally got it halfway decent, they felt that one home made dress was all they needed in their wardrobe.

It takes an experienced hand, many of the women admitted, to get pockets on straight, button holes that look like button holes, and a collar that lays down in the proper places.

But the smarties who do all their own sewing all the time really strike their speed in the summer. They make up a dress in a day and wear it that night, usually complete with a matching bag or turban. And this leaves their not so clever sisters moaning, "how do you do it?"

## Edith Ahern Given Party On Birthday

Edith Myrtle Ahern was entertained by a group of her friends on her 14th birthday Thursday evening at the home of her parents.

Games were played and refreshments served to Suddie Bell Dixon, Edwina and Geneva Turner, Verbal Whitley, Jane Mize, Ila Ruth Simms, Ethel Hapinattal, Marshall Steart, Lowell Hollan, Alvin and Junior Mize, Vance Simms and Delmar Turner.

All day quilting was held Thursday in the home of Mrs. J. P. Ferguson by the Wesley Memorial Friendship Sunday school class.

Covered-dish luncheon was served at noon and others attending were Mrs. John K. Whitaker, Mrs. Cecil Nabors, Mrs. W. W. Coleman, Mrs. H. J. Whittington, Mrs. J. W. Tabor, Mrs. Jack King, Mrs. Ika Low, Frances Ferguson.

## Wilhelmina To Be Next Royal Visitor In US

WASHINGTON, June 27. (AP)—This capital, which has become the mecca of world-famous people in the United Nations cause, is awaiting with much interest the first visit of an European queen of an empire in her own right—Wilhelmina of the Netherlands.

With royal disregard of danger, this 61-year-old grandmotherly queen flew from Britain to Canada. It was her first trip across the Atlantic ocean, and her first airplane ride. She arrived in Ottawa 30 days ago.

Out on the field to meet her were her daughter, Crown Princess Juliana, and her two grandchildren, Beatrix, 4, and Irene, 2, who have been living near Ottawa, and whom she had not seen for two years.

Wilhelmina will be the first queen born to a throne to sample American democracy. Other royal visitors, Queen Elizabeth of Britain, Queen Marie of Rumania, and Queen Marie of Yugoslavia, were married to heirs to the crown.

## Registrants Put In Four Categories

AUSTIN, June 27. (AP)—Married registrants with wives and children or with children alone, providing they were married before Dec. 8, 1941, now have somewhat less chance for immediate induction to the armed services.

This, generally, is the effect of an amendment to the selective service act which provides for classifying registrants into four categories.

To fill quotas—and national selective service headquarters has ordered all quotas filled—draft boards must draw men otherwise qualified from these categories—in order.

In other words men in category 1, will be drafted first and none in category 2 will be taken until category 1 is exhausted.

Here are the categories:

1. Men with no dependents and no family relationship.
2. Men with no family relationship but with persons financially dependent upon them.
3. Men married before Dec. 8, 1941 who have no children but who do have wives with whom they maintain a bonafide family relationship.
4. Men married before Dec. 8, 1941 who with their wives and children or with children alone have a bonafide family relationship.

Definitions of these categories will be tightened eventually, an announcement from state selective service headquarters said, and in the meantime registrants must be selected for induction from the broad categories.

This means, according to the announcement, that 1-A and 1-A-O men will be called first in order of their order numbers and without regard to registration groups.

## From 6 a. m. To 11 p. m. WAAC's Have Rigorous Schedule To Keep

By GEORGE S. MILLS

Wide World Features

FORT DES MOINES, Iowa.—"A girl will do everything in the Army but carry a rifle."

That's the way Captain Gordon C. Jones, director of training, puts it in describing the scope of the Women's Army Auxiliary Corps. The first 400 candidates for the WAAC officers' training school are expected to report here July 20.

The captain might also have added that Miss Betty WAAC will develop plenty of muscles in the initial eight weeks' training course. The tentative schedule calls for an hour and a half's brisk exercise on the ordinary day, including close order drill, calisthenics and athletics.

She also will have to learn half a dozen or more bugle calls which say "You've got to get up," "Food's ready," "To the colors," "Lights out," "Taps" and the like. Not to mention such things as getting up, dressed, bed made and quarters arranged, all in half an hour.

School officers are not worried over the girls having too much excess energy to expend over the weekends. One officer said the schedule is so tough that when Saturday rolls around "most of them either will be too tired to leave camp or will feel the need for further study."

"This is a competitive proposition," he said, pointing out that not all candidates will be commissioned as officers.

As a general thing, Betty will be on her own Saturday afternoon and all day Sunday, although she probably won't be allowed to leave the city of Des Moines. She will be permitted to wear civilian clothes off the post. When she leaves, she will have to sign out, and when she returns she will have to sign in.

Here is a tentative day in Betty's first week of life in the Army:

6 A.M.—Reveille wakes her and more than 30 other girls from their regulation Army cots in one of the large rooms of the renovated red brick barracks. In 30 minutes hair must be combed, face washed, uniform donned, bed made, equipment put away. She will have a wall locker for her clothes.

6:30—Mess call sounds and she hurries to the mess hall where she picks up her breakfast cafeteria style.

7:00—Close order drill, 25 minutes of it. Colonel Don C. Faith, the school's commanding officer, says first drill work will be by squads. A masculine noncommissioned officer will act as instructor, but feminine group leaders will be named as soon as possible.

Miss WAAC's first drill instruction will concern

the position of the soldier. She will learn right face, left face, about face and the like. Since she is not going to take a bead on any enemies, she will not be exposed to the manual of arms.

7:55—Drill ends.

8:05—She settles back to listen to a 45-minute lecture on military discipline, customs and courtesies.

9—(Gas, doesn't it seem a long time since 6.) Another 45 minutes of military discipline and customs. This session is labeled "practical work" as contrasted with the preceding lecture period.

It's time out for the next 20 minutes and, presumably refreshed, Betty then goes into a 45-minute class on "The proper wearing and care of the uniform."

11—A 45-minute physical training period starts, featuring calisthenics or mass games conducted by a feminine director of athletics. The games are designed to bring out in the candidate her team work possibilities.

11:45—Time out.

12:15 P.M.—Mess call.

1—Assembly.

1:10—Nearly two and a half hours of lectures designed to prepare Betty to qualify as a leader for training her rank-and-file sisters next fall.

2:55—Another close order drill session.

4:15—Recall is rounded. This session may be used at times for calisthenics.

Betty has the good part of the next hour to prepare for "retreat" when the flag is lowered.

After dinner she won't have the evening off, far from it. The schedule calls for a two-hour study period in the evening.

10:45—The call to quarters sounds and weary Betty goes to bed (if she hasn't already done so).

11—Taps sounds and the fort is quiet until reveille at 6 a. m. begins another day.

Betty WAAC may not always rightfully blame a man for waking her with reveille notes each morning. Eventually, even the buglers for the school will be women.

The course of study will vary from time to time to hurry the candidates through the various phases of the program.

The schedule for the first candidates has been intensified, the officers said, because the WAAC staff wants to send 27 service command companies to assignments in the nation's nine corps areas by Jan. 1. The companies, each composed of 150 officers and auxiliaries, will be limited to such specialist groups as switchboard operators, stenographers, typists, clerks and other administrative workers, and staff car chauffeurs.

## 20-Ct Bombsight Does Good Work In Tokyo Raid

WASHINGTON, June 27. (AP)—An improvised, 20-cent bombsight was used by the American fliers who blasted Japanese cities in April it was disclosed today when 23 of those who participated in the famous raid were given distinguished flying crosses.

Lieut. General Henry H. Arnold, commanding general of the army air forces, presented the medals in ceremonies at Bolling Field.

Brig. General James H. Doolittle, who led the raid and was awarded the congressional medal of honor by President Roosevelt May 18 attended.

Those decorated today and five others unable to attend because of injuries or illness not connected with the raid have just returned to the United States for reassignment. The other participants are still in combat zones. All are to receive decorations eventually.

It was the belief that some planes must inevitably fall into Japanese hands, that led to removal of the secret Norden bombsight from each plane. Anyway, the war department explained, the Norden sight was not necessary for a successful low altitude attack such as was carried out. The improvised bombsight, costing only 20 cents to make, was designed by Major Charles R. Greening of Tacoma, Wash., armament officer of the squadron.

## FSA Families Have Big Gain In Income

Farm Security Administration clients here as well as other Texas low-income farm families have increased their annual net income by 108 per cent and more than doubled food production for their use since receiving rehabilitation loans from FSA, said Ur D. Kendrick, Howard county supervisor.

Texas gains were above the national figures, and local gains were on about a par with the state figure, he said.

Secretary of Agriculture Wickard, commenting on the figures, agreed that they showed that "these small farms with their supply of home labor (furnished) a real opportunity today for a high percentage increase in wartime production."

In Texas the value of home used production per family increased from \$166 to \$378, or 128 per cent since farmers in this state first received help. At the same time Texas FSA borrowers raised their net income from \$407 to \$953.

Fruit and vegetables earned by 127 per cent, milk production jumped 57 per cent and meat production by 96 per cent. Last year the average was 15 bushels per family in fruits and vegetables and 143 dozen eggs and 11 gallons of lard per family.

To keep this record going now that the nation is at war, FSA has been instructed to expand the community and cooperative service program to enable small farmers to make maximum use of available machinery and tools and also to develop means of getting their increased food production on the market.

In almost every instance there has been an increase in field acreage this year, and irrigated patches are bigger too, said Kendrick, whose offices are in the postoffice building basement.

## Your Money Buys More SHIPS GUNS and PLANES

Every man, woman, and child has a vital part in the war effort. This is our war

Editorial --

If You Have To Be Mad To Buy Bonds, STAY Mad

A couple of the air force boys, just before dawn, at an Alaskan outpost. Says one to the other: "Aw, what's the use of going out on patrol today. We got these babies on the run and they'll be boiling 'uncle' in a couple of months."

"Hasn't been a sub reported in this area in 24 hours. There's no need in getting a stiff neck just looking."

It's well and good to direct a cold fury at the brutal forces which would destroy decency in this world, but it's mighty bad to pitch war effort on the basis of temperment. Maybe the aviator isn't quite so wrought up this morning. Is it an excuse for him to watch on the tanker feels a bit more secure than he did yesterday; is it an excuse for him to relax in his alertness?

The providing of money to fight this war is as definitely our duty -- our CONTINUING duty -- as are the tasks assigned the aviators, the soldiers and the sailors. They do their job every day. We have to do ours every day.

We have slipped badly this month. We have failed in our obligation. We are letting our country down. It is as if we permitted another Pearl Harbor to explode in our own midst.

Hollywood Sights and Sounds--

Here's How Movies Master Realism

By ROBBIN COONS

HOLLYWOOD -- The preview audience that hissed and groaned over a movie chase scene involving screeching brakes and burning rubber was merely pointing the way of things to come.

This is movie realism that shows movie executives do have a sense of humor, for not only "E. G." but a character called "Y. Frank Fremont" appears in the film, made at a non-mythical studio called Paramount where Y. Frank Freeman is boss.

It's all of which means that, in the interest of realism in films dealing with today, the studio train sheds will loom large in the romantic spotlight, and studio railroads -- quite remarkable in themselves -- will carry an extra load of romance.

Women Really Get Busy

By JACK STINNETT

WASHINGTON -- Mary Anderson, director of the Women's Bureau of the Department of Labor, is beginning to see some of her wishful thinking of a year or so ago become reality.

Famous Men's Sons Appear In New Play

By GEORGE TUCKER

NEW YORK -- I have a hunch the old man will be there when the U. S. Army, led by Irving Berlin, invades Broadway next July 4th.

By old man I mean Maxwell Anderson, the playwright. By old man I mean Victor Moore, the actor, and Ernest Truex, the comedian. By old man is meant Joe Cook, the comic.

The check was received by Major General Thomas M. Robins, assistant chief of engineers, as a direct gift to the government under the terms of the amended war powers act authorized acceptance of such gifts.

'Bomb' Check Goes For War Production

DALLAS, June 27. (AP)—A certified check for \$822.60 measuring 5 3/4 by 15 3/4 inches shaped like a bomb, has been donated to the army's war production program by construction workers of the engineers' corps working on the Bluebonnet ordnance plant in Texas.

MRS. MURDOCK TAKES A CASE by George Harmon Coxe

CHAPTER 12 Shock

"Listen, darling," Joyce said, words like weights she had to lift. "There's something you've got to know." She hesitated, groping for some easier way to explain, then plunging ahead with Della's eyes upon her.

"Yes, I know," she said. "I'm sorry I was such a goose but--" She broke off, her eyes tortured but a gradual firmness coming about the mouth and chin.

"I told you not to wait up." "You knew I couldn't sleep at ter what you told me over the phone."

**Plan Enlargement  
Of Big Bend Park**

FORT WORTH, June 27. (AP)—Texas' Big Bend National Park may be enlarged to an international vacation land this fall by extending it into old Mexico. M. R. Tillotson, Santa Fe, regional director of the national park service, told members of the Texas Big Bend Park Association today.

Tillotson has just returned from a trip to Mexico City, where he conferred with Carlos Villas Perez, chief of the Mexican National Park service, who told him Mexico is anxious to establish on the south side of the Rio Grande a national park contiguous to the Big Bend National park.

Leon Callihan, city policeman, may well qualify as a picture bloodhound. Saturday he picked up a wanted man and companion after having seen the picture of one of them only once. Earlier in the week he had picked up Chester Slik, wanted for the past two months for desertion, when he recognized the soldier's wife, who was with him, from her picture.

Speaking of police, Chief J. B. Bruton recently got more than passing interest out of a man who handles the accounts of a woman whose name was being forged by a group of boys. Bruton was able to tell the man that \$85 in forged checks were in the bank. Skeptical, the agent checked. Sure enough Bruton was right. Moreover, the police chief told them to be watching for another \$15 check, and in a day or two, here it came. How he knew of the forgings and who were the forgers, however, remains his little secret.

Here are some Cub activities—Dens 1 and 2 went swimming Thursday; collected 100 pounds of rubber and 400 pounds of metal, money going into the treasury; passed out literature for chamber of commerce. This week the dens meet with Den Mother Mrs. Harry Montgomery, 805 Albert street. Pete Fugiar will act as den chief.

**Ballot Places  
To Be Fixed**

All troubles had been ironed out Saturday, and the Howard county executive democratic committee was prepared to go into session Monday and draw for ballot places.

The James Kilday dispute concerning one railroad commission place had been settled by a supreme court decision which held that his and 10 other names should be certified for the place. That in turn answered the question for the local committee whether Howard county ballots would contain only the name of Kilday or all the candidates.

Saturday the committee had the answer to another problem. When George Choate, candidate for district clerk, sent his ballot fee to County Chairman L. S. Patterson, Patterson never received the funds, but Saturday a man was being held in jail on a charge that he stole it.

according to Hoover.

Hoover said the men had supplies of explosives for a two-year sabotage campaign against American war objectives, including TNT, fuses and time clocks for delayed action bombs, and small black bombs camouflaged to look like large pieces of coal.

Under questioning by FBI men, Hoover said, the agents listed war plants, waterways, railroads and bridges which were marked for destruction.

These included the Aluminum Corporation of America's plants at Alcoa, Tenn., Massena, N. Y., and East St. Louis, Ill.; the Cryolite plant at Philadelphia, manufacturing light metals; the Chesapeake and Ohio Railroad in industrial areas; Hell Gate bridge, New York City; The Pennsylvania Railroad terminal at Newark, N. J., and all bridges on which transportation was carried in the New York area.

Other objectives, Hoover said, were in the inland waterways system—locking of canal locks on the Ohio river near Cincinnati, the New York City water supply system, conduits in Westchester county, hydro-electric plants at Niagara Falls, and railroad tracks on the famous horseshoe curve near Altoona, Pa.

Hoover added they planned to plant bombs in locker rooms at railroad stations and in department stores to create panic and break down civilian morale.

The FBI found American currency totaling nearly \$150,000, with which the agents were to bribe and pay off assistants, in secret compartments in traveling cases carried by the men.

Hoover said they were all English-speaking men, who had formerly been employed in the United States. Many were former German-American Bund members, he declared, and several between 1939 and 1941 had been returned to Germany because of their activity in the Bund.

**East Gets Boost  
In Gasoline Price**

WASHINGTON, June 27 (AP)—The OPA approved an increase in prices of gasoline and domestic fuel oil along the eastern seaboard today, with Administrator Leon Henderson asserting that subsidies to industries which cannot operate under present price ceilings would have averted the raise.

The authorized increases were 2 1/2 cents a gallon for gasoline, and 2 cents a gallon for fuel oil, and kerosene. The new prices become effective on Monday.

**FIGHTING OFF JAPS**—Shell bursts fill the sky around a U.S. Navy aircraft carrier engaged in fighting off a Japanese torpedo plane attack during the battle of Midway. Smoke bursts show intensity of carrier's anti-aircraft fire. Circles indicate Jap planes, and splash at right (arrow) is described as marking the spot where a downed Jap plane plunged into the sea. (This dramatic battle picture takes in considerably more area and has more detail than those previously published).

make utility connections. War or no war, that's as stupid a rule as some genius could conjure. None will invest money in a building on a property line, and if the rule is to block building, why didn't somebody have courage enough to just say "no building" in the first place?

Showing of the Ray Oil Co. No. 1 Willard Read oil test in eastern Howard county has given us our best prospects in nearly two years of either an important extension to an existing pool or opening of a new area of production in proximity to Big Spring. Results of this test will be most interesting to watch.

Breaking of several burglary cases, in which juveniles have been involved, proves one thing—that our officers are far more efficient at catching the delinquents than we are at preventing them from getting into trouble in the first place. Officers recognize their responsibility, we don't.

**52 Names To Be On  
Primary Ballot**

DALLAS, June 27 (AP)—R. T. Johnson, manager of the Texas election bureau, said tonight that the July 25 primary state ballot will have fifty-two names.

This total matches in number the ballot of 1938, which was the longest list of candidates in the history of the bureau. This year's ballot has one more name than that of 1940.

Johnson said the poll tax report now available to him shows 1,141,775 taxes paid in 1942 compared with 1,559,875 in 1940. To each of these must be added exemptions.

**Atlantic Ship Toll  
Goes Up To 315**

By The Associated Press

The loss of two more Allied merchant vessels to axis submarines in Atlantic waters was disclosed by the navy Saturday, and survivors of two other United Nations' cargo ships sunk in the Pacific by Japanese U-boats reached an Australian port.

The Atlantic sinkings included a medium-sized United States cargo carrier and a small Yugoslavian vessel, and brought reported Allied and neutral nations' ship losses in that area since the United States entered the war to a total of 315 merchantmen.
