

UN Repatriates Leave Communist Ambulances

United Nations returnees released by the Communists during the fourth exchange of POWs at Panmunjom, are shown about to enter the receiving tent after unloading from Communist ambulances. At right, center, is Rear Adm. John C. Daniel, chief UN prisoner of war negotiator. (AP Wirephoto).

Hopes Brightening For Final Vote On Tidelands

Foes Are Ready For Test Of Strength

WASHINGTON (AP)—Sen. Anderson (D-NM) held out "quite a little hope" today for a final Senate vote this week on a bill to establish state title to submerged lands within their boundaries. Anderson is one of the opponents who have forced the Senate into its 23rd day of debate on the bill. Majority leader Taft said he is negotiating, but has no concrete agreements with Anderson and other leaders of the opposition block to end the debate. Anderson has called "an honest-to-God filibuster." The opponents have de-

Truce Negotiators Try Again Tuesday

By ROBERT B. TUCKMAN PANMUNJOM, Korea, April 27 (AP)—The new Korean armistice talks deadlocked again today as the U. N. Command flatly rejected a Red prisoner exchange proposal which it said offers only return to Communist rule or "endless captivity" for Reds who refuse to go home. In their second meeting since Oct. 8, both Allied and Communist delegates stood pat on their own plans for settling the exchange problem and bringing a truce in Korea. Another session was scheduled for 11 a. m. tomorrow. The truce talks were broken off Oct. 8 by the U. N. Command when it refused to force any prisoner to go home against his will. The Reds demanded all prisoners back, including some 50,000 Chinese and North Koreans who have said they will go home for good.

Political Foes Are Blamed In Chief's Murder

By MARC PURDUE TEHRAN, Iran (AP)—Iran's government today blamed a group of political opponents for the murder of National Police Chief Brig. Gen. Mahmood Afshartus, found strangled in a roadside grave yesterday. A communique issued by Col. Hosseingholi Ashrafi, military governor of Tehran, said the names of the alleged slayers and those who plotted the crime would be disclosed later. The communique said investigation and confessions of those responsible had led to the discovery of Afshartus' body six days after his mysterious disappearance in the heart of Tehran.

Dulles To Seek Support For Reduced Europe Aid

WASHINGTON (AP)—Secretary of State Dulles returned from an Atlantic Alliance meeting today to report to President Eisenhower and Congress that "We accomplished some good, hard, practical results" for American security. Dulles, Treasury Secretary Humphrey and Foreign Aid Chief Stassen arrived from Paris in a military air transport plane. Ministers of the North Atlantic Council countries in Paris were so busy with their own works, Dulles said, "we didn't have time" to give very much study to Saturday's Moscow press statement generally rejecting Eisenhower's recent peace plan but stating a readiness to engage in talks with the Western powers. Of the Paris session he said: "We had, I think, a very successful meeting. We were very realistic. We accomplished some good hard practical results which I think on the one hand fully protected the interests of the United States and on the other hand built up the strength of NATO in which we were all interested." The secretary faces the task of seeking financial support from Congress for the slowed-down European defense program. This may prove to be a formidable task—not only because of the cost-cutting temper of Congress but also because of indications the defense buildup may henceforth go even slower than Dulles himself has advocated. The secretary was due to report promptly to President Eisenhower on the North Atlantic Treaty Organization Council meeting which he and other top U. S. officials attended. The Council set military targets for the Atlantic Allies for this year at an increase of six divisions in Western Europe for a predicted total of about 56. Two years ago the aim by that time was close to 100 divisions. The Eisenhower administration had favored a slowdown or stretch-out of the program for a long cold war struggle with the Soviets. Dulles thus abandoned the urgency with which representatives of the previous Truman administration had pressed the armament buildup. Evidence that the whole project might go even slower than he wanted, however, was found in the fact that the German upper house within recent days refused to ratify the European Defense Community Treaty, under which West Germany would be rearmated. Also, there has been speculation that the Soviet peace offensives would have relaxing effect on defense preparations in Europe far more than in the U. S. Dulles, in sessions with congressional committees, will have to convince legislators that this country is getting its money's worth out of current military and economic aid to Europe and will continue to do so. Dulles reportedly cautioned European leaders they would have to make a better showing on the European army plan by June 30 if Congress is to be impressed. Although Europe is a defense problems have dominated his negotiations at Paris for the past week, Dulles had a variety of other major problems to discuss with the President. Among them were: 1. The Moscow statement declaring Soviet readiness to join in businesslike peace negotiations with the peace plan which President Eisenhower put forth April 16, beginning with an armistice in Korea and ending with world disarmament. Dulles declined comment on the statement Saturday. But President Eisenhower said it might mean that the Soviets are ready to take some concrete steps toward peace. However, diplomatic officials found little except a polite tone in the Russian statement to justify optimism. 2. In contrast to their own

Man Is Hurt Critically In Mishap Here

R. W. Webb, 1011 E. 12th, remained in a critical condition today with injuries suffered in a traffic accident at Third and Gregg Sunday afternoon. Doctors at Big Spring Hospital reported he received a basal skull fracture and brain concussion. He was still unconscious at noon today. Webb was injured about 3:30 p. m. Sunday when he apparently stepped in front of a truck at Third and Gregg, police reported. A heavy Diesel truck, operated by Harold Lloyd Horton of Odessa, swerved in an effort to avoid the pedestrian and also collided with an automobile, officers said. Driver of the car, a 1950 Chevrolet, was Harry Ralph Spencer, 810 W. 11th. Both the truck and car were going east on Third Street (Highway 80). Back of the car was badly damaged. Webb was believed to be starting north on Third at the time of the accident which occurred in the west side of the intersection. The injured man was taken to the hospital in an Eberley-River ambulance. One other traffic mishap was reported in Big Spring Sunday. Cars driven by James A. Cunningham, Midland, and B. F. McGetts, Coahoma, were in collision in the 200 block of East Third, police said. Damage was not extensive and no one was injured.

More Problems Discussed By Commissioners

A number of problems were considered this morning in Howard County Commissioners' Court meeting. Discussions were held on a visit to Lake J. B. Thomas, what agencies will be housed in the new Courthouse, installation of telephone lines on county road right-of-ways, welfare expenses, and appointment of a home demonstration agent. Commissioners tried to place a call through to Ector County today to arrange a trip around Lake J. B. Thomas for Ector, Howard, and Borden Commissioners. The trip was planned last week but did not materialize. Commissioners of the three counties are attempting to formulate plans for a joint-road project around the lake. The call had not got through this morning. Housing of various agencies in the new Courthouse is already becoming a problem, commissioners said. They discussed room for agricultural agencies this morning. County Judge R. H. Weaver stated that he believed all county agencies should be provided for before room is made for state and federal agencies. No decisions were made by the court. Application by W. D. Berry to construct telephone lines on county road right-of-ways was granted by the court. The lines will be laid north out of Coahoma, along several county roads, and finally to the new Reef Fields Gasoline Plant. Mary Cantrell, case worker for the County Welfare Department, discussed several pending cases with the commissioners. She submitted an expense total of \$902.90 for aid between March 21 and April 20. Largest single item—\$465—was for hospital expenses. Five women connected with the 4-H Club work asked the court members to award ribbons at the Thursday night dress review to be held in Howard County Junior College auditorium. The commissioners said they would be there. The women also urged that the appointment of a new home demonstration agent be expedited. Judge Weaver explained to them that an agent cannot be appointed until the district home demonstration agent approves one. Agents are scarce all over the state, it was explained. Joe Barbee, supervisor of the county road crew, was also present to discuss road work since the recent rain. Vacations for the members of the crew were also discussed.

MAY AVERT CLASH

Simpson Is Willing To Change His Bill

By CHARLES F. BARRETT WASHINGTON (AP)—Rep. Richard M. Simpson (R-Pa) said today he is willing to drop a controversial provision in his reciprocal trade bill which would bar any lowering of tariffs to levels found to imperil American industry. Simpson's new stand seemed likely to go a long way toward averting a sharp, open clash between President Eisenhower and the key House Republicans on the touchy issues of tariffs and foreign trade. The Pennsylvania congressman disclosed his position at the House Ways and Means Committee prepared to open hearings today on his bill to extend the Reciprocal Trade Act for one year beyond June 12. This week's witnesses are from groups which support high protective tariffs. The leadoff witness was O. R. Strachan, speaking for a committee of industry, agriculture and labor on import-export policy. The issue, which often stirs a party-splitting fight in Congress, is especially important this year. Many U. S. Allies and some administration leaders have been urging a relaxing of foreign trade barriers to sell more goods here—on the theory of "trade-not aid." Simpson is an influential member of the tariff-handling Ways and Means Committee and chairman of the Republican Congressional Campaign Committee—the group that will work with Eisenhower next year to try to retain control of the House. Under the present law, the President has power to negotiate new tariffs below levels determined by the Tariff Commission to constitute a danger to American industry. Further, the President can set aside Tariff Commission recommendations that current import taxes be increased to provide adequate protection for American industry against cheaper competition from foreign goods. Simpson's bill, as originally introduced, would have taken away both these presidential powers and would have made Tariff Commission "peril point" findings binding and final. Simpson told an interviewer he has been persuaded, in talks with administration leaders, that Eisen-

French Voters Turn Backs On DeGaulle

PARIS (AP)—French voters turned their backs on Gen. Charles de Gaulle's Rally of the French People in municipal elections yesterday. The Communists just about held their own in the working class districts of the big cities, but lost votes and control of some town halls in rural areas. The biggest gainers from the return to the Rally of the French People (RPF) were independents behind former Premier Antoine Pinay. During his term, Pinay made a determined and well publicized effort to hold down prices that won him great personal popularity. The Gaullists started their rise to political power in 1947. They captured about 27 per cent of the vote then to equal Communist strength. They have been hampered by the general's refusal to cooperate with other anti-Communist parties. Incomplete figures confirmed the main trends. Unofficial figures for Paris indicated the Communists had held all of their 28 seats on the municipal council. The RPF, dropped from

Bell Drums Support For Anti-Red Bill

AUSTIN (AP)—Waving a color photograph of Stalin, Rep. Marshall Bell asked the House today to pass his bill which he said would take pro-Communist material out of school and college libraries. Bell, of San Antonio, said the Stalin picture was in literature found at the Junior College in Borger. A small group of opponents argued with Bell, asserting the bill was a threat to academic freedom. The Senate refused to take up a proposed water measure out of its regular order. The vote was 18-12 to take it up, but a two-thirds vote was needed. The measure would put a fee on use of public waters to finance local dams. It is the one against which Sen. Rogers Kelley of Edinburg and Sen. George Moffett of Chillicothe staged a 14-hour filibuster last week. Kelley said he would fight it again whenever it comes up. Bell cannot rob our institutions of learning of their ability to get facts," Rep. Anita Blair of El Paso argued. "The truth is our greatest weapon against Communism." The House voted 94-32 to take up Bell's bill and then plunged into debate on it. The Legislature started its 26th week with new efforts to jar loose one of the tax bills log jammed in committee. Floor leaders of the \$600 a year base pay boost for public school teachers still had their hardest task as the measure neared the final passage stage in the House. The increase would cost 60 to 70 million dollars in new revenue in two years. Thus the largest tax bill in the history of the state threatens. There was no doubt economy forces would battle such a huge revenue measure. South Texas politics competed for the legislative spotlight as lawmakers got back on the job. A Senate committee begins its study this afternoon of a resolution to set up a legislative investigation of charges against Judge Woodrow Laughlin of Alice. A State Bar Committee has accused the 79th District Court Judge of reprehensible conduct, asked the Legislature to investigate and prescribe "suitable punishment." The House Revenue and Taxation Committee scheduled for this

Tomorrow Deadline For Binion Appeal

DALLAS (AP)—Tomorrow is the last day in which gambler Benny Binion can appeal a Supreme Court ruling which, in effect, directs him to appear in federal court here May 4. If the Las Vegas, Nev., casino operator does show up here to face federal charges of income tax evasion, he will be nabbed also to face state charges of operating a million dollar policy game racket at Dallas. The commission hopes to save about \$250,000 a year by the changes. Anderson said on an NBC television show last night he thinks the state ownership bill will be passed within the next two weeks. But he predicted the Supreme Court would upset such a law, holding Congress has no right to give away title to the lands. Opponents of state ownership had a strategy caucus scheduled today, but Hill said he doubted they would be willing to quit talking right away. Taft said yesterday there was no press of legislation for the next two weeks but he felt the bill's opponents were "rather inclined to be reasonable" about ending the debate. Anderson said on an NBC television show last night he thinks the state ownership bill will be passed within the next two weeks. Santa Fe Reports Increase Of Income

NEW YORK (AP)—The Santa Fe Railroad reported today net income for the March quarter of \$19,649,550 compared to \$18,211,701. The Rock Island reported a net of \$6,908,561 compared to \$4,783,770 for the same period.

TOP RANKING SOLONS AGREE

Administration Probably Can Balance Budget By Next Year

By JACK BELL WASHINGTON (AP)—Several top-ranking Republicans and Democrats, including Sen. Taft (R-Ohio), agreed today with Sen. Byrd (D-W.Va.) that the Eisenhower administration can balance the next fiscal year's budget. But there was a wide difference of views about the Virginia senator's proposal that Congress keep excess profits and individual income taxes at present high levels until July 1, 1954, to get the revenue Byrd said would be needed. And there was evidence that a stiff fight is developing over reported administration proposals to cut sharply the \$2,700,000,000 that former President Truman proposed be spent on atomic energy development in the year beginning July 1. Taft, Republican leader, said in an interview he agrees with Byrd that the budget can be balanced. But he declined to discuss details of the Virginia's week-end proposal to trim \$2,800,000,000 off Truman's spending program. Taft said some figures may be forthcoming when legislative leaders discuss the defense program with President Eisenhower at a White House conference Thursday. The Ohioan has called for a cut of about four billion dollars in defense and about 2½ billion in foreign aid. Byrd would keep defense spending at its present level and cut foreign aid \$2,900,000,000. Sen. Millikin (R-Colo.), chairman of the Senate Finance Committee, wouldn't comment on Byrd's proposal for keeping taxes at present levels. The excess profits levy is scheduled to die July 1 and income taxes are due to drop 10 per cent next Jan. 1. A bill pending in the House would advance the date to July 1. "We'll be all right, though. We'll balance the budget—and we'll reduce taxes too," Millikin declared. Sen. George (D-Ga.) said he believes a cut of six billion or more can be realized "without crippling the defense program or destroying the foreign aid program." But he didn't see much chance of keeping taxes at present levels. Reports that the Eisenhower administration will recommend a substantial slash in atomic development funds stirred up controversy. Sen. Hickenlooper (R-Iowa) said in an interview: "I don't believe the appropriation can be cut below the budget without hurting the program. It's the one field where I think we have a minimum budget for essential needs."

Soldiers Hanged

AMMAN, Jordan (AP)—An Arab Legion sergeant and a private were hanged today for high treason. They were convicted of passing secret information concerning the Legion to Israel.

THE WEATHER

New Gay Hill School Is Dedicated Sunday

GAY HILL — Dr. W. A. Hunt, president of Howard County Junior College, and some 50 patrons and friends of the Gay Hill School District Sunday afternoon dedicated the new Gay Hill school plant to the training of those who will be of service to God and mankind.

Dr. Hunt placed strong emphasis on moral and spiritual aspects of education, listing four objectives educators must re-adopt if public education is to fulfill its role in today's world. He deplored the fact that lessons in science have displaced moral teachings as the undertone in material used by teachers in the elementary grades.

The dedicatory speaker was introduced by Walker Bailey, Howard County schools superintendent. Bailey was presented by Glenn Murray, Gay Hill principal.

Also introduced were Melvin Anderson, Virgil Little, Aubrey Hamlin and Lonnie Rawlings, all members of the Gay Hill school board; L. L. Underwood, county trustee, and a number of visitors from throughout the area. Gay Hill teachers introduced were Mr. and Mrs. Murray and Mrs. Earl Brownrigg.

Ends Marathon

Sen. Wayne Morse (Ind-Ore.) leaves the Senate floor in Washington to end a 22-hour 26-minute speech and make him the undisputed long-distance champion of all the senators in history. Morse spoke at great length to dramatize his opposition to a bill giving the states title to submerged offshore lands. The previous record for a Senate speech was 18 hours and 24 minutes by Robert M. LaFollette. (AP Wirephoto).

First Freed Texans Expected To Hit San Antonio This Week

By The Associated Press

The first of nine Texas prisoners of war released in Korea were expected to hit San Antonio late this week.

Among the last of the 148 Americans set free last week in the exchange of sick and wounded prisoners were Capt. Marion Green, son of Mr. and Mrs. I. W. Green of Gilmer, the Cpl. Elias Villegas, son of Mr. and Mrs. Jose Villegas of near San Antonio.

All sick and wounded former prisoners will be handled through regular military channels, says Joe Draper, Air Transport publicity officer in San Antonio.

Draper said the Texans will go to Kelly Air Force Base by hospital plane from Travis AFB, Calif. The four men from San Antonio will be taken to Brooke Army Hospital. Others from Texas will get an overnight rest stop at Lackland AFB Hospital and be flown to service hospitals nearest their homes.

Green's parents in Gilmer heard about his release Saturday night. "It's hard to describe how happy I feel," said his mother. "I'm overjoyed — that's the only way I can put it. The Greens had settled back for a quiet evening in their East Texas home when the radio blared the news."

Green was captured July 14, 1950. His wife, Cleola, got the news in her home in Lawton, Okla., after returning from a church picnic.

"My heart beat 90 miles a minute," she said. "I had an intuition this was going to happen."

The Greens have three children.

They had faith.

Villegas' parents were reached by telephone late Saturday in their small country home near San Antonio.

"I knew my boy would come home," Mrs. Villegas said. Villegas was 24 Wednesday. He entered the service five years ago and had spent two years and five

months in a Communist prison camp.

Mrs. Villegas said she received several letters saying he was treated well.

Other prisoners of war from Texas released earlier were: Sgt. Gerald Neighbors, 22, husband of Mrs. Shirley Neighbors, Hereford.

Cpl. Theodore Jackson, 33, son of Maggie Davidson, Palestine.

Pfc. Eddie Vidal, husband of Mona Gomez-Vidal, San Antonio.

Pfc. Samuel Armstrong, 18, son of Mrs. Ida Barnes, San Antonio.

Cpl. Jimmie Lacy, 17, husband of Mrs. Sue Lacy, Texasiana.

Navy hospital corpsman Thomas Waddill, 20, son of Mr. and Mrs. T. E. Waddill, Fort Worth.

Lt. Albert de la Garza, 22, husband of Mrs. Gloria de la Garza, San Antonio.

Doctors Told Not To Oppose Social Security

MEDICAL CONVENTION SET HOUSTON — Texas doctors have been advised not to oppose the practice of social security as long as it aids destitute and needy citizens.

"We must, however, stand guard against a five-and-dime system of pork-barrelling taxpayers' money into political votes," Dr. Truman Terrell of Fort Worth, president of the Texas Medical Association, said.

Terrell spoke yesterday to the association's House of Delegates. The House of Delegates also heard a warning that Texas physicians are not organized to take care of their communities in times of disaster.

Dr. Ozer Woods, assistant director of civil defense in charge of health in Dallas, said the medical profession should organize pharmacists, hospital and nurses for specific jobs in time of disaster.

Most of the 3,000 doctors were attending the annual meetings of 11 allied organizations which meet each year with the association.

PRACTICING AT 89

Valley Doctor Is Honored By TMA

HOUSTON — A San Benito physician who started his 89th birthday by going to see a patient at 4 a.m. has been named Texas' general practitioner of the year.

Dr. Clarence Cash observed that birthday eight days ago.

The friendly doctor was busy with a late breakfast of bacon and eggs yesterday when he was told the Texas Medical Association had selected him for the honor.

"I've been trying to put this off

for two years because I thought there were other doctors who deserved it more," he said.

The soft-spoken man with blue eyes described himself as "just a country doctor."

He has delivered over 5,000 babies, taught school, been San Benito mayor twice and was a city councilman eight years.

He became interested in medicine while teaching school near San Angelo, where Dr. Boyd Corlick was a neighbor. After studying for three years under Corlick, he went to medical school one year and then passed the state examination to practice.

That was 55 years ago. He has been at San Benito since 1914.

At 89 he still practices medicine. Cash was climbing the stairs to his second floor San Benito office last year just within three weeks after an emergency appendectomy.

"I've lived a long time and believed in lots of things but I never believed in a man of 88 having his appendix removed," Cash said.

His medical career has been in Suyant, Tuscola, Abilene and San Benito. He founded Tuscola and wrote the first milk ordinance in Abilene.

Two of his four children are doctors. They are Dr. W. A. C. Cash, Abilene, Dr. C. M. Cash Jr., Beaumont. His daughters are Mrs. Ruth Edwards Rice of Pecos and Mrs. Paul Cottrell of San Benito.

Cash was selected from among six nominees. The others were Drs. Charles Jones, Comfort; Jerome Nast, Corpus Christi; James Wharton, McAllen; Eugene Halley, Denison; and N. A. Elder, Nixon.

Seeking More Funds For SPA

WASHINGTON — Congressmen friendly to the Southwest Power Administration (SPA) pondered today how to get more money for that agency.

The House Appropriations Committee recommended last week that SPA be held to a total of \$1,650,000 for the year starting July 1, an action called "a slap in the farmer's face" by Clyde Ellis, executive director of the national Rural Electric Co-operative Association.

This was \$7,400,000 under the amount recommended for SPA by former President Truman in January and \$4,395,000 below that suggested more recently by Interior Secretary McKay.

The problem, said one House member, is whether to try to override the committee in the House this week or concentrate the effort in the Senate.

Democratic minority leader Rayburn (D-Tex.), who has strongly supported SPA, has not indicated what he plans.

SPA markets surplus power from government-owned dams. Its customers chiefly are rural electric co-operatives and some small municipalities.

Lie Argues For Peace Attempt By Compromise

UNITED NATIONS, N. Y. (AP)—Saying another farce is being played out, the United Nations has served for seven years as secretary general, Trygve Lie argued yesterday that negotiated compromises could bring world peace.

There can be no settlement in the Far East, he declared, unless Communist China is a party to it. "Nor can 'unconditional surrender' bring real peace in Korea. Lie spoke in a recorded message broadcast over the world in honor of the eighth anniversary of the United Nations' founding in San Francisco.

A Korean armistice, he said, would be a great victory for collective security under the U. N., but "real peace and freedom for Korea may be a long time to come."

"It is not possible to foresee a Korean settlement except in relation to other Far East issues and there can be no settlement unless the People's Republic of China is a party to it," he asserted.

Lie said the U. N. would have to maintain military strength to "discourage any more attempts at armed aggression," but that it also would have to "face the realities."

"You cannot negotiate a true settlement on the theory of unconditional surrender," he said. "International politics are the art of the possible and practical. You have to make compromises that in the long run will serve the principles for which you stand."

"As in Korea, so with Germany and Austria and all the other issues of the cold war, that must in time and either in mutual disaster or be resolved by negotiated settlements."

Oil Surplus And High Price Hinted

ST. LOUIS — The possibility of another oil surplus this summer and a hint at possible higher prices came in separate reports at the mid-year meeting of the Independent Petroleum Association of America today.

The supply and demand committee of the organization said current U. S. production plus imports total 7,910,000 barrels a day while the summer demand is expected to be 7,858,000 barrels daily.

The cost study committee, in another report, said there has been no general increase in crude oil prices since 1947 while costs have climbed, causing "a disparity of prices received from the sale of oil as related to increased costs."

The supply and demand report said the industry recently cut back domestic production by about 350,000 barrels a day and may make further reductions to bring production more in line with demand.

Marine Sergeants Borrow Transport

SHREVEPORT — Two Marines, neither a licensed pilot, flew a twin-engine troop transport from Dallas to Shreveport yesterday in the dark.

Barksdale Air Force Base said the men were Sgt. William Milburn, 23, of Shreveport, and George Hogarty, 20, of Boston.

Capt. Leonard Jopin, Barksdale PIO, said the two and a few drinks in Dallas, went to Love Field where the plane was parked and took off. They said they wanted to visit friends in Shreveport.

Milburn was crew chief. He had eight hours of pilot instruction as a civilian in 1945. Hogarty was radio operator, with no pilot training.

The plane made a flight from its home base at Cherry Point, N. C., to Dallas where an overnight stop was planned.

DeMille Is Made Honorary Texan

TYLER — Hollywood producer Cecil B. DeMille was made an honorary citizen of Texas yesterday by Gov. Shivers.

Then DeMille reminded Shivers the governor had made him an honorary admiral in the Texas Navy several years ago.

DeMille was here speaking for the Shriners Hospitals for Crippled Children.

Scene Put On Film As Crime Acted Out

VAN NUYS, Calif. (AP)—A man said he beat his wife to death with a croquet mallet and chopped off her hands with a hatchet.

And while he starred in this grisly drama, swinging the mallet again, a police movie camera and sound equipment recorded his actions and words. Neighbor youngsters watched over the fence, like fans inspecting a movie trolley on location.

Richard E. Fredericks, 35, returned Saturday night from Mapewood, N. J., where he was arrested, was taken to his Van Nuys home yesterday. The camera on a rolling tripod followed him and a tape recorder whirled—recording the first crime re-enactment ever filmed by Los Angeles police.

Detectives Al Ortiz and C. S. Stewart said Fredericks, an insurance clerk, told this story:

Last Jan. 7 he and his wife Ruth, 32, got into an argument because she wanted to go back to work as a waitress in a cocktail lounge.

He went outside to work in the yard.

"I was cutting devil grass in the back yard when I heard her running toward me," he said. "Just as she got near me, she tripped over our children's wagon and fell."

"A knife fell from her hand. She cursed. There was a croquet mallet behind me which I had been using to put stakes in the rose garden. I reached and grabbed the mallet and started to swing at her. I don't know how many times. I just kept swinging."

Fredericks said he dragged his wife into the garage. The detec-

Red China Plans Envoy To England

TAIPEH, Formosa (AP)—The pro-Nationalist China News said today Red China is planning to send its first ambassador to London.

The English-language daily newspaper attributed its story to a mainland report.

Official Nationalist sources said the government had received an intelligence report of such a plan and believed it.

The China News said the ambassador would be Chang Han-fu, a Communist vice minister for foreign affairs.

Great Britain recognized the Red Peiping regime in January, 1950, and sent a charge d'affaires to Peiping.

Bodies Are Being Taken From Smouldering Mine

AGANGUEO, Mexico (AP)—Rescue teams had hoisted 11 bodies from the smoking mouth of the burn-out American Smelting Company silver mine near here early today. They still dug for 14 others listed as dead in a fierce fire and explosions Saturday.

Six other miners were not accounted for.

Company officials estimated that it would take several more days to dig out all the victims of the disaster, the worst in any Mexican mine in recent years. There was no possibility that any of the 14 known to be below ground could be alive, Rescue Squad Chief Antonio Madraz said.

The 68-year-old mine—in mountains near this tiny village 80 miles west of Mexico City—was turned into a blazing furnace 500 feet below the surface when a series of electrical shorts set fire to electric cables and shafts and then touched off dust and gas explosions.

About 300 men were in the mine at the time. Some 200 in the upper levels escaped. Another 70, choking with smoke, were led to safety during rescue operations in the darkness Saturday night. Those who died were smothered by smoke, not burned, officials said.

Mild Temperatures Are Due In State

By The Associated Press

Fair to partly cloudy skies were expected in Texas Monday and Tuesday with temperatures mild.

A few widely scattered showers were forecast.

Overnight temperatures ranged from the 40s in North Texas to the 70s in the south.

Pleasant readings in the 70s and 80s Sunday drew thousands of Texans outdoors. No rain was reported.

School Children Are Killed As Volcano Comes To Life

By FRED SAITO

TOKYO (AP)—Aso Volcano erupted thunderously today, killing at least six of 40 school children peering into its depths.

Some unofficial death estimates ran as high as 10.

One hundred children were reported injured in Aso's first eruption in 20 years.

The youngsters were on an excursion inside the 15-mile-wide

great crater of 5,267-foot Mt. Aso on Kyushu, Japan's southernmost island.

They were looking into one of five volcanic peaks inside the gaping crater when it awakened with a smoking roar, blasting rocks wildly into the air. Some were the size of a man's head.

The children fled in terror. The full crater contains 11 farm villages with nearly 60,000 people, but they were not considered in danger.

The newspaper Nishi Nippon said the blast came from 4,339-foot Naka Dake Crater, one of the five peaks.

Rocks shot through grey smoke to almost 1,000 feet and then rained back to earth for 600 yards around. The great crater is 24,500 acres wide, and contains two railroads and nine stations.

Full eruptions of the entire crater apparently took place in pre-historic days, and only minor eruptions in some of the five peaks are recorded in Japanese annals.

The last big eruption of Mt. Aso took place in 1933. It showered rocks and ashes practically on all of the 16,000-square mile island of Kyushu.

At that time, the observatory issued an alarm and the eruption caused no casualties. Since then, Aso has been quiet with smoke and vapor coming out of small new craters, and only a few small eruptions.

Eight Children Perish In Fire

SAULT STE. MARIE, Ont. (AP)—Eight children in one family and three in another—perished in a week-end fire here.

Investigators said seven of the eight child victims apparently were trapped while sleeping in one bed. Their charred bodies were found in the bed. The eighth was recovered between the bed and a door.

Five of the eight were children of Philip and Winifred Derry, who suffered severe burns in a futile rescue attempt. They were Dorothy, 7; Reginald, 5; Clifford, 4; Eleanor, 3; and John, 1 1/2.

The other three, cousins of the Derry children, were children of Mr. and Mrs. Arthur Trudell: Wilma, 14; Marion, 10; and Diane, 8.

Wilma had been baby sitting for the Derrys and Marion and Diane went with her. They were staying overnight.

Derry told Ontario provincial police he got up during the night and put wood in a kitchen range. He and his wife were awakened by the fire several hours later, he said.

After fleeing through a window, the parents realized the plight of the children and attempted to re-enter the house. But it was engulfed in flames by then.

Red Mail Received

DALLAS (AP)—Communist literature mailed from Dallas has been received by members of parent-teacher groups, women's clubs and newspapers, the Dallas News said today.

If we follow His example we will be in harmony with the Infinite one who rules the utmost stars. "I seek not mine own will but the will of Him that sent me." — John 5:30.

Our Defenses In Europe Showing Improvement Over Previous Years

The day when the armies of Russia and her satellites could shove everybody aside and streak for the Atlantic Coast of Europe without serious hindrance is past and gone. That is the gist of what Gen. Alfred M. Gruenther, chief of staff to General Matthew Ridgway at NATO headquarters in Europe, told the Senate Foreign Relations Committee on April 1. Heard in a closed session, General Gruenther's testimony was not made public until yesterday.

Europe would believe we were "pulling out of there." For this purpose former President Truman included \$7.5 billion in the budget he submitted before retiring, and there is a prevalent belief that the Eisenhower administration plans to reduce it by \$2 billion. Economizers outside the administration speak of cutting it to the vanishing point, but that is hardly likely. Gruenther said there are still 4,000,000 men under arms in the Soviet forces—upward of 175 land divisions—20,000 operational aircraft and upwards of 300 submarines. Thirty of these divisions are stationed in Europe, mostly in forward areas, with others on the western borders of the Soviet Union "where they can quickly be brought up for reinforcements."

Supply Outlook For Water Sound, But Wisest Use Should Be Made

No one can say with assurance what the weather pattern will be this year. So far, there have been no radical departures from the trend of the past two years. Total amount of precipitation the first four months, however, is substantially above that of a year ago. Most of this is due to thunderstorm activity. This is the category in which there may be some faint glimmer of hope. At certain seasons, West Texas does come in for some general rains where the amounts are basically the same for great expanses of country. A great deal of the area's moisture, however, comes from recurring thunderstorms which happily fill in the blank places most of the time. These, too, supply most of our run-off.

City of Big Spring sources of water are ready for production, and productive facilities are in good repair. For peaking during the summer, three or four million gallons per day can be produced. This, coupled with supplies from the CRMWD main supply line, indicates more than ample supply without putting a tax on either end of the productive sources. This final word about water. Regardless of its availability, water should be utilized to the greatest extent. There is never reason to waste. So far as possible, circulating pumps should be used on air conditioners. In watering shrubs, trees, etc., be sensible by watering slowly and thoroughly. Good soakings widely spaced do much more good than shallow sprinklings which hardly penetrate to the roots. Never let your water stay on to where it runs off your yard. By leveling or terracing or judicious use of curbing, water can be retained—even that from the clouds, and that seemingly does more good than all we can get from a hydrant.

Washington Calling — Marquis Childs Some Republicans Finally Note They Must Be More Responsible

WASHINGTON. —The theory developed in the campaign last fall that power would bring responsibility has undergone a considerable strain since the new administration took over. With the antics of Senator Joe McCarthy and his crew hitting the front pages practically every day it began to look like one of those nice ideas out of the political science textbooks that had better not be put to a practical test. But the fact is that a special interesting example can be cited to document the theory. Perhaps the most striking instance is none other than the senior senator from Indiana, Homer Capehart.

The old days Capehart forced through an amendment to the post-Korean controls bill that made it possible for a manufacturer to add just about every kind of cost to his price and get it approved. The cost-plus Capehart amendment was the target of many groups but particularly the unions. No one could have been more surprised than those who had fought the amendment in committee to hear the senator say in closed session that he realized he had been wrong. The lesson of Korea has, of course, been painfully brought home to every consumer in America and for that matter in the whole free world. Effective standby controls were not available. Speculators cashed in on a soaring commodity market. The domestic price level which had begun to shake down zoomed upward in a new inflationary spiral.

Priest 'Dives' For His Church Funds

PARIS (AP) — France has an unconventional Catholic priest, the Abbe Simon, known as "God's acrobat." To get money to restore his church in the village of Saone in eastern France, the Abbe Simon goes around the country putting on a diving exhibition from a platform 105 feet high. "I was scared to death the first time, but I threw myself off the platform with a prayer to Saint Theresa to protect me," said the Abbe, who earned \$180 from the first jump, and since has made 12 others.

Trap Gets Goose

GLENDIVE, Mont. (AP) — Life for a goose who laid vanishing eggs ended in a bear trap. John Oljar, owner of the goose, thought a skunk was stealing eggs from the bird's nest. He set a huge bear trap for the culprit with a hen's egg as bait. The "culprit," having hidden her eggs, waddled back to the nest to pick up the bait. She stuck her neck out and that was that. Owner Oljar found one dead duck — a goose.

"And Some Of Those Countries Aren't American At All"

Notebook — Hal Boyle Those Mexican Gestures Make For As Much Exercise As Golf Game In U.S.A.

By JACK RUTLEDGE (For Hal Boyle) MEXICO CITY (AP) — A Mexican can get almost as much exercise sitting at a table talking, as some Americans can in a round of golf. It's those gestures.

Mexicans have a gesture, usually accompanied by a grimace, shrug or other physical contortion, for almost every thought and feeling. Some are so expressive words are unnecessary. Others are so subtle only a Mexican can understand them. A few can be confusing, like thumbing one's nose. Let's look in on two friends, call them Pancho and Miguel, meeting and talking.

The World Today — James Marlow Comparison Of Ike's First 100 Days Not Significant

WASHINGTON (AP) — On Thursday President Eisenhower will have completed his first 100 days in the White House. There will be comparisons between his first 100 days and those of Presidents Franklin D. Roosevelt and Truman. But these are comparisons without real significance since the circumstances under which the three men took over the presidency were different. A true judgment of Eisenhower's first 100 days may have to wait a year, perhaps years.

It will have to be pegged not so much on what he has done in these first 100 days but on the plans and decisions made in that period for the future. Roosevelt took over when the country was broke and bewildered. He had to act fast to prevent collapse, and he did, with one emergency measure after another. Truman's first 100 days were momentous—the surrender of Germany and the disintegration of Japan—but would have been the same no matter who sat in the White House. It was after the 100 days that Truman had to make his big decisions.

This Day In Texas

By CURTIS BISHOP To be first adjutant-general of the State of Texas, Governor James P. Henderson on this day in 1846 appointed the man who had led the famous "New Orleans Grays" into the Texas Revolution. He was William P. Cooke, who had become captain of that noted group of volunteers upon their arrival in San Antonio and led his company during the storming of Bexar under Ben Milam. He was on Houston's staff at the battle of San Jacinto and later accompanied the general to New Orleans when Houston went there for treatment of his wounds. After the excitement had died down Cooke resigned from the Texas Army and opened a drug store in Houston. Perhaps such a life was too tame; in 1839 he rejoined the army. The following January he became quartermaster general in a Mexican campaign. Cooke laid out the Military Road from the Brazos to the Red River and participated in the Blockhouse fight with the Comanches. Appointed a civil commissioner for the ill-fated Santa Fe expedition in May, 1841, Cooke soon found himself in a Mexican dungeon. He received his release in June, 1842 and returned to Texas. Cooke held the position of adjutant-general until his death in Seguin late in 1847.

MISTER BREGER

Preventing Juvenile Delinquency Is Urged Instead Of The Cure

The opinions contained in this and other articles in this column are solely those of the writers who sign them. They are not to be interpreted as necessarily reflecting the opinions of The Herald.—Editor's Note.

The American family has often been used as a 'whipping boy' for juvenile delinquency. The noble institution is being unjustly accused, though, insists an organization which has ferreted into the subject. Its contention is that "the family has not really failed." True, says the report issued by the group, changed social situations have bewildered families and they do not know how to meet them. That especially applies to urban life, where it is more difficult to train children in family living than it was in the old rural situation where the family was a complete unit relying on itself.

The research organization held that a certain percentage of the population is psychopathic and will include various types of adult criminals. At the same time, the group points out, there always will be a margin of safe people who are unlikely to get into trouble. But in between these two extreme groups there will be a portion of the youth which can slip either way. The report issued by the organization stated it was believed that "community efforts can make some differences in influencing the percentages in these bands." The group recommends, and has plenty of company in this respect, that emphasis must be shifted from the cure to the prevention of juvenile delinquency and adjustment.

Business Outlook — J. A. Livingston Humphrey, Martin Let Demand For Money Set Interest Rates

Congress won't award the Medal of Honor to Secretary of the Treasury George M. Humphrey for putting out an issue of 3 1/2 per cent government bonds. Humphrey has already been criticized in the Senate for making it harder for farmers and small business men to borrow money. Nor would the average American dream of conferring the Distinguished Service Cross on William McChesney Martin Jr., chairman of the Federal Reserve Board, for extraordinary heroism in refusing to meddle with the interest rates people have to pay to finance the purchase of new homes, automobiles, factories, or inventories.

Humphrey and Martin are not risking their lives. They're not displaying physical courage. Yet, in refusing to let inflation rip, they are showing moral and financial courage. They are letting competition—the demand for money—set interest rates. Thus, the Reserve Board kept "hands off" when Treasury bonds broke below 93 cents on the dollar—when the terms of the new 30-year 3 1/2s were announced. Humphrey and Martin are taking a real risk. Their tight-money policy could bring on a business decline. But they're taking the risk with open eyes.

Today business men must compete with the Treasury for funds. That's tough competition, since the Treasury's credit rating is tops in the world. Some business men may decide to forego expansion projects now—either because money's scarce or the interest rate is too high. Result: injections of debt—additional money into the income stream to pay workers—will tend to slow up. The boom could level off and even turn down. That would suit the administration. Business men don't abandon well-thought-out expansion projects. They postpone them. And right now, when employment is at an all-time high and business is piping hot, postponement is desirable. Then, later on, when slack does occur, the country would have a shelf of business' own private projects to provide jobs.

Besides, the U. S. economic system has certain built-in cushions to withstand a long, deep slump; specifically, unemployment insurance, old-age pension payments, and defense expenditures. In addition, the government can embark on public-works projects and the Reserve Board could reverse its credit policy by buying government securities. This would pump reserves into the banks, which, in turn, would make banks much more willing to lend. The Humphrey-Martin financial policy comes when business can afford it. Earnings of 229 industrial companies in the first quarter showed a gain of 13 per cent over a year ago. Seventeen utilities reported a gain of 10 per cent. And the Bell Tele-

Bible Holders Used On Trains Unearthed

ST. ALBANS, Vt. (AP) — Old time trains in Vermont used to have brass Bible holders in each of the cars. Older residents remember when they had Bibles in them. Al Sauviat, railroad historian, has unearthed some of the old brass holders, but for a time he was stumped to explain why Bibles were considered necessary in railroad cars. Now he thinks he knows why. In 1888 the legislature of Vermont passed a law permitting Sunday trains in Vermont. It authorized "running on a railroad of such through trains on Sunday as, in the opinion of the Board, the public necessity and convenience may require, having regard to the due observance of the day." Sauviat thinks Vermont railroads provided for "due observance of the day" by making the Bibles available.

Uncle Ray's Corner Austin Took Place Of Father Texas is the only American state which has had years as an independent republic. For almost 10 years, Texas had a flag of its own, and carried on a government. Then it joined the United States of America. It is known today as the "Lone Star State." In memory of the flag with a single star which used to fly over the republic. It is true that California raised a flag of revolt against Mexico when the "Bear Flag War" flamed up 107 years ago. Bearing an image of a bear, the flag was flown over the town of Sonoma, but a few weeks later the American flag was used as the standard of revolt. After the end of the Mexican War, California became a part of the United States.

Uncle Ray's Corner Austin Took Place Of Father

The story of Texas differs in several ways. The Texans revolted 10 years before the outbreak of the Mexican War, and made good their claim to being free from Mexican rule. Stephen Austin was one of the leaders of the Texans, and his name was used for Austin, the capital city of Texas. His father, Moses Austin, obtained a large grant of land while the province belonged to the Spanish Empire. The grant was made 132 years ago, and the land was to be divided among settlers who moved into Texas from the United States. Only six months after obtaining the grant, the older Austin died. His 28-year-old son took his place and proved to be an able leader of the settlers.

Newlyweds

Lt. and Mrs. Thomas M. Goff are shown just after their wedding ceremony recently at the Stanford Baptist Church, Stanford, Ky. The bride is the former Mildred Daugherty, who before her marriage was employed at the State Hospital here. The bridegroom recently completed his jet training at Webb Air Force Base. Parents of the couple are Mr. and Mrs. J. H. Daugherty of Stanford and Mr. and Mrs. W. S. Goff of Greenville, Ky.

Fosters Are Making Home In Big Spring

First Lt. and Mrs. F. M. Foster are making their home here following their recent marriage. The bride is the former Mary Jane Couch, daughter of Mr. and Mrs. W. R. Rogers, 408 Lancaster. Mrs. Ida Foster of Woodleaf, N. C. is the mother of the bridegroom. The Rev. Virgil James, pastor, officiated at the informal, double ring ceremony at the Hillcrest Memorial Baptist Church. Given in marriage by her father, the bride wore a pastel blue ballerina length dress. It was designed with a scooped neckline, cape sleeves and a fitted bodice. She wore white accessories and

carried an arrangement of pink sweetheart roses centered with a gardenia on a Bible. Mrs. Jack Austin of Tulsa, Okla., was matron of honor. She was attired in a navy blue suit with matching accessories and a white carnation corsage. J. C. Hunter of Tulsa served as best man. The bride is a graduate of Big Spring High School and before her marriage was employed at Medical Arts Clinic-Hospital. Her husband is a graduate of Coolee High School, Coolee, N. C. They are making their home at 1514-B Wood. Following the ceremony, there was an informal reception held at the home of the bride's parents.

THIS IS GOOD EATING

SPINACH RING

Ingredients: 1 cup boiling water, 1 teaspoon salt, one 14-ounce package frozen chopped spinach, pepper, teaspoon finely grated onion (juice and pulp), 1 egg, 2 tablespoons butter or margarine (melted). Method: Add 1/4 teaspoon of the salt and frozen spinach to boiling water. Bring rapidly to boil again; reduce heat and boil gently, stirring as necessary to break up spinach, just until tender—about 3 minutes. Drain; there should be about 1 1/2 cups drained spinach. (Reserve cooking liquid to use in soup.) Stir into spinach remaining 1/4 teaspoon salt, pepper (to taste) and onion. Beat egg just until yolk and white are combined; stir gradually and vigorously into spin-

ach; stir in melted butter. Turn into small (2 cup) well buttered ring mold. Place mold in 8-inch square baking pan; fill pan with hot water so that water reaches about two-thirds way up mold. Bake in moderate (375°) oven 25 to 30 minutes or until firm. Loosen edges of spinach ring with spatula; unmold on serving plate. Fill center with creamed eggs; put some of the eggs around outside of spinach ring if too much for center. Makes 4 servings. Serve with the menu below. Spinach Ring filled with Creamed Eggs Lettuce and Beet Salad Bread and Butter Cookies Beverage

Jimmie Lee Pitts To Give Concert Tuesday Evening

Jimmie Lee Pitts, young Negro contralto, will be presented in a concert Tuesday at 8 p. m. at the Municipal Auditorium. Tickets, \$1 each, are now on sale at the Book Store and the offices of the Chamber of Commerce.

Miss Pitts is working toward her Master of Arts degree at Westminster Choir College, Princeton, N. J. She is the daughter of Mrs. R. J. Walker, 911 NW 4th, and will be sponsored in concert here by the Lakeview Chamber of Commerce.

In a letter to Mrs. George O'Brien one of the first to recognize Miss Pitts' talent, Dr. John F. Williamson, president of Westminster College, wrote:

"She has been soloist on our last tour with the Westminster Choir and her singing was so thrilling

that every night the audience had three recalls.

"Two of the critics felt that she was Marion Anderson when she was young, and all of our graduates foresee a great future for her."

Mrs. O'Brien first heard the singer at a church function and was so impressed that she insisted that others hear her. Mary Lou Hendricks, then music instructor at Howard County Junior College, wrote Dr. Williamson for an audition.

The B&PW Club, Coden, the state Negro student fund and individual contributors combined to give Miss Pitts a financial start at the college.

Since then, the proceeds from her concerts, together with help from Coden and the student fund, have made it possible for her to continue her studies.

Pastor Speaks At Banquet; Revival Is Now In Progress

FORSAN. (Spl) — Dr. P. D. O'Brien, pastor of the First Baptist Church in Big Spring, was guest speaker at the banquet held recently in the school cafeteria by the Goodfellows of the Forsan Baptist Church.

Wayne Monroe welcomed the guests and Jesse Overton gave the invocation. The Rev. J. M. Staggs made the announcements and special music was provided by the Northside Baptist Church of Big Spring.

Special guests included a group of men and boys from Lees and Raymond Blankinship, home on leave from the Navy. About 100 attended.

Revival services are being held at the Forsan Baptist Church by the Rev. Buren Higdon of Abilene. Bill Denton of San Angelo is in charge of the music. Services are held daily at 7:30 a. m. and 8 p. m.

Kenneth Cowley was welcomed as a new member when the Forsan service club met Thursday night at the school.

Guests were Pete Thomas and Mrs. Gilmore of Coahoma. The group discussed the clean-up drive and voted to extend it for a longer period.

Almost every Boy Scout from the

Blums Have Guests

Mr. and Mrs. Joe Blum, 1501 Stadium, have as their guests their son and daughter-in-law, Mr. and Mrs. Robert J. Blum, of Houston. The younger Mrs. Blum is staying here with her mother and father-in-law while her husband is doing special work in Amarillo. Robert Blum will return here for a short visit before the couple returns to their home.

Attend Celebration

Mr. and Mrs. Joe Chapman, Joe Bob, Gloria Jean and Pamela Jane, attended the Dorward Day celebration at Gall Sunday. Mrs. Chapman is a niece of the Dorwards and Pamela Jane, 2 months, was among the youngest of the children there.

Mothers Are Aided By Appliances

The trend toward larger families is due in large part to the constantly increasing efficiency of many modern household appliances, some authorities on population statistics say. Modern young women have learned from home economics classes and from their own mothers how housework has been lightened by these automatic devices. So instead of dreading having a large family to rear, they want more children. They realize that housekeeping is much less of a burden than it used to be and there is more time for enjoying the children.

Practical-minded young husbands who want a large family see that labor saving appliances also contribute to economy in the cost of living. Some have even figured that the savings affected have paid for having the second and third baby. The diaper problem is hardly a problem at all with the washing machine, dryer and ironer. Cleanliness for the whole family isn't much more than a push-button affair.

Modern automatic refrigerators with increased capacity for safe food storage make greater economy in quantity purchases at the grocery store. Modern refrigerators operate more efficiently, too. Husband, incidentally, are doing more and more of the family food shopping and enjoying it besides.

The dial controls on automatic electric ranges make it easier to prepare the more frequently required food for infants. Some even have a "deep well" cooker, which may be used as a bottle sterilizer, so important to the baby's health. Dishes from the meals of the smaller children, who have different meal schedules from the rest of the family, are easily taken care of in the fully automatic dishwasher.

Dishwasher and automatic laundry equipment go a long way toward keeping mother young-looking, too.

Mr. and Mrs. Joseph Hayden spent the week end in Snyder with her son and daughter-in-law, Mr. and Mrs. Hal Battle, and children.

Summer 'Cooler'

The coolest garment ever devised—and the easiest to make—is the cotton "tie-on-the-shoulder" summer dress. Pattern comes in sizes 4, 6, 8 and 10 year sizes; applique ballet girl of 5 1/2 inches is in a transfer with all instructions on how to applique ballet frock over the transfer lines; flowers and features are embroidered. Make several of these inexpensive, quickly launderable frocks in pretty stripes, polka dotted cottons, in bright gingham, in flower pastels.

Send 25 cents for the "TIE-ON-SHOULDER" DRESS (Pattern No. 582) tissue pattern, transfer ballet dancer, all instructions, YOUR NAME, ADDRESS, PATTERN NUMBER AND SIZE to CAROL CURTIS

Big Spring Herald Box 229, Madison Square Station New York 10, N. Y. Patterns ready to fill orders immediately. For special handling of order via first class mail include an extra 5 cents per pattern.

Larger Sizes!

Welcome and wonderful for summer is this dress-and-bolero combination. Its slimming princess sunback styling comes in a wide range of "hard to find" larger sizes! (Dress can also be cut higher in the back!)

No. 2646 is cut in sizes 14, 16, 18, 20, 36, 38, 40, 42, 44, 46. Size 18: dress and bolero take 6 yds. 15-in. Send 30 cents for PATTERN with Name, Address, Style Number and Size. Address PATTERN BUREAU, Big Spring Herald, Box 42, Old Chelsea Station, New York 11, N. Y.

Patterns ready to fill orders immediately. For special handling of order via first class mail include an extra 5 cents per pattern.

THE SPRING-SUMMER FASHION BOOK is now available. From cover to cover it's a gem with simple-to-make vacation favorites. Scores of smart original designs for all occasions, all ages, all sizes and all members of the family. IN COLOR. Price just 25 cents.

DORIS HAHN

Doris Hahn To Be State FHA Officer

FORSAN (Spl) — Doris Hahn will be installed a state officer of the Future Homemakers of America at the state meeting in San Antonio April 30-May 2.

She is a sophomore home economics student and has been selected leader for the local FHA chapter. She has been a member of the student council and last year received the annual Forsan Service Club Citizenship Award. She sings with the Christ's Ambassadors.

Last fall Miss Hahn was selected to be queen of the high school Halloween Cranial.

Also attending the meeting will be Mrs. W. M. Romans, FHA sponsor, and Ann Green and Sue Jones.

Miss Hahn will attend a breakfast for state officers Saturday morning and will be installed at the House of Delegates meeting following it.

Art Students To Give Show May 15

Mrs. Myrtle Lee, local artist and teacher, will present her art students in their annual fine arts exhibit May 15 at the First Presbyterian Church.

Mrs. Lee will display the work of her largest class of adults, elementary and high school pupils during the afternoon and evening of the 15th.

The exhibits will include oils, pastels, water colors, India ink and other crafts. Some of Mrs. Lee's own work in pastels and oils will also be on display.

Later in the summer Mrs. Lee and Dr. Dwight Jones will present a show of their work. The later show will include landscapes and still-lives by Dr. Jones and children by Mrs. Lee.

Visits And Guests Make Most Of News In Forsan

FORSAN. (Spl) — Visits and guests make the bulk of the news in Forsan this week.

Mrs. Troy Frazier has returned to her home in Brownwood after an extended visit with her sister and brother-in-law, Mr. and Mrs. Charlie Alston.

Mr. and Mrs. Dave Knight have recently visited in Odessa and Seminole.

Jerry Bowler has been in Alpine attending the football tryouts at Sul Ross State College.

Week-end visitors here include Mr. and Mrs. Jimmy Hagar, Donna and Suby, of Pecos.

Corrine Starr and Jewelle Davis, both students at Howard Payne College, Brownwood, are visiting

Corrine's parents, Mr. and Mrs. Sam Starr.

Mr. and Mrs. Dan Fairchild and Mike were guests during the week with his parents, Mr. and Mrs. M. M. Fairchild, and Mary Ann.

Mr. and Mrs. Bryant Averitt are vacationing in Fresno and other California cities.

Guests this week of Mr. and Mrs. R. A. Chambers have been Mr. and Mrs. N. J. West of Elk City, Okla. and Mr. and Mrs. Ray Sanders of Mangum, Okla.

Mr. and Mrs. Carl Bankston have announced the birth of a daughter, Brenda Kay, April 22 in a Big

Spring hospital. The little girl weighed seven pounds, 11 1/2 ounces. Mr. and Mrs. A. O. Jones and family and Mr. and Mrs. O. W. Fletcher and family have had as their guest this week, Joe Kirkpatrick, of O'Donnell.

Johnita Griffith has returned home from a visit with her sister and family, Mr. and Mrs. Jesse Brown and son, in Frazier, Colo.

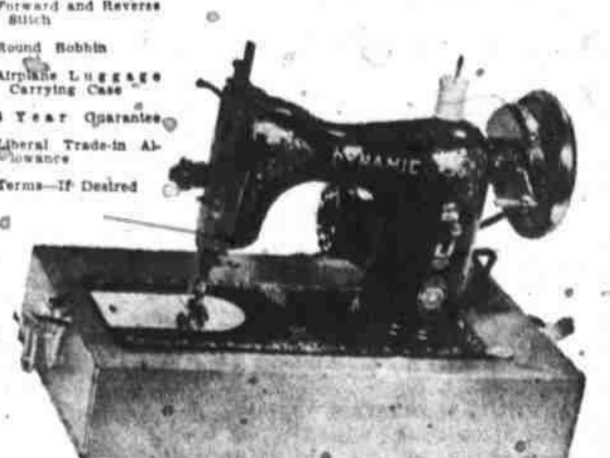

Mrs. Hamlin Elrod and Mrs. J. R. Asbury attended the district F. T. A. Spring Conference in Lamesa during the week.

F. P. Honeycutt, Dan Hayhurst, Hood Jones and Harold Hicks attended a recent regional track meet in Odessa.

Mr. and Mrs. John Cardwell are in Dallas for a week-end visit with her brother and sister-in-law, Mr. and Mrs. J. N. Edens.

Two Locations Are Staked In Diamond M Field Of Borden

Two locations were reported today in the Diamond M Canyon Field of Borden County. They are R. E. Smith's Nos. 11 and 12. C. V. Thompson, and both are set for 7,000 feet.

Borden

R. E. Smith of Houston No. 11 C. V. Thompson, 1,151 from north and 2,594.8 from west of lines, section 102, block 25, H&TC survey, is a new 7,000 foot rotary location in the Diamond M Canyon field.

R. E. Smith No. 12 Thompson, 2,576.6 from south and 2,594.6 from west of lines, section 102, block 25, H&TC survey, is another 7,000 foot rotary venture in the Diamond M field.

Vickers No. 1 Oregon, C NE NE, 11-33-3n-T&P survey, took a drillstem test in lime and chert formation, which is probably the Mississippi. Top of Mississippian has not been called. The test was from 9,867 to 9,900 feet with the tool open two hours and 15 minutes. There was a weak blow of air which died after three minutes. Recovery was 120 feet of slightly gas-cut mud, with no shows of oil or water. Operator is now drilling below 9,976 feet in chert and lime.

Green No. 1 Slaughter, C NW NW, 23-33-3n-T&P survey, got down to 7,780 feet in lime and shale.

Dawson

Magnolia No. 1 Elland, C NE NE, labor 33, league 273, Glascock (25) has a total depth of 4,462 feet in anhydrite, where operator is waiting on cement for 9 1/2 inch casing.

Glascock

Sinclair No. 1 Cox, C SE SE, 38-33-4n-T&P survey, still has a total depth of 10,156 feet in the Fusselman. A drillstem test was taken from 10,125 to 10,156 feet with the tool open two hours. Recovery was 540 feet of drilling mud, 450 feet of muddy sulphur water, and 8,928 feet of sulphur water. Operator is preparing to plug back to test the San Andres.

Howard

Cosden No. 1 Crawford, C SW SW, 47-32-1n-T&P survey, is reported down to 4,775 feet in lime.

Martin

Brown and Wheeler No. 1 Morrison, C NW NE, 28-36-1n-T&P survey, cored from 3,706 to 3,807 feet. There were no shows of possible production. Operator is now reaming core hole from 3,735 to 3,807 feet and will then resume drilling.

Search Goes On For Lost Boy

CHOTEAU, Mont. (AP)—Volunteers by the score spent the night in rugged mountains near here before resuming their search today for an 11-year-old Boy Scout missing since Saturday night.

Bank Robber Under Arrest

Police in St. Louis hold one of the bank robbers who identified himself as William Scholl of Chicago after he took part in the unsuccessful holdup attempt at the Southwest Bank in St. Louis. Scholl suffered a bullet wound in the back as the robbers exchanged shots with police. (AP Wirephoto).

Raymond Andrews Elected Regional V-P By Jaycees

Raymond Andrews of Big Spring was elected regional vice president in the Texas Junior Chamber of Commerce Saturday at the organization's annual convention in Corpus Christi.

TV MAY CAUSE GROOKED TEETH

DALLAS (AP)—If your children have crooked teeth maybe you can blame it on television. A nationally known dental specialist warned yesterday of "television malocclusion."

Two Charged In Local Shooting

Charges of assault with intent to murder were filed this morning against Lupe Zapata and Joe Alendrez, local Latin-Americans.

Car Pilfering Is Reported In City

Car pilferers raided at least three vehicles in Big Spring during the week end, police reported.

Convention Is Set

WICHITA FALLS (AP)—The 26 schools in the Texas Intercollegiate Press Association voted yesterday to hold their 1954 convention in Mexico City.

Gunshot Is Fatal

HOUSTON (AP)—Ira Newbury, 45, Houston laborer, died Saturday night of gunshot wounds received March 21. A charge of assault to murder had been filed against Leo Cagle, 37.

Horner To Moscow

LONDON (AP)—Arthur Horner, acting general secretary of Britain's National Union of Miners, left today for Moscow. He intends to undergo six weeks of treatment by Soviet doctors. He is a member of the Communist Party.

Casualties Named

WASHINGTON (AP)—The Defense Department identified 59 Korean War casualties in a new list (No. 789) that included 9 killed, 46 wounded, 1 injured and 3 captured.

Reduction Announced

TEHRAN (AP)—The National Oil Company said today it will give a 50 per cent price reduction to Japanese and U. S. purchasers of Iranian oil because of the long haulage involved.

Sets Conference

WASHINGTON (AP)—Ovela Culp Hobby, secretary of health, education and welfare and the second woman ever to hold a Cabinet post, scheduled her first news conference today.

Godfrey Starts Last Week Before Surgery

NEW YORK (AP)—Arthur Godfrey started today the final week of his multiple radio and television performances before leaving the air to undergo surgery.

MARKETS

NEW YORK (AP)—Cattle 3,700; steady to strong; good and choice slaughter steers and yearlings \$18-21.50; commons and medium \$16-18; beef cows \$11-16-17; good and choice slaughter calves \$18-22; good and choice stocker calves \$14-16; stocker cows \$11-14.

NEW YORK (AP)—Cotton prices were unchanged to 10 cents a bale higher at noon today. May 1953, 37 1/2. Oct. 33 1/2.

Godfrey Starts Last Week Before Surgery

NEW YORK (AP)—Arthur Godfrey started today the final week of his multiple radio and television performances before leaving the air to undergo surgery.

The husky red head is to enter a Boston Hospital next Monday for an operation to correct a hip injury suffered 20 years ago in an auto accident. It is expected to be four months before Godfrey can resume his normal activities.

Godfrey is expected to remain in the hospital six weeks, during which he will be off the air entirely. Then he will go to his 1,700-acre farm near Leesburg, Va., to complete his recuperation. He plans to resume his radio broadcasts from there. He hopes to return to his TV shows in September.

Beale, Orme Are Attending Session

R. L. Beale and Douglas Orme were in Oklahoma City today, to attend sessions of the Southwest Regional Conference of Community Chests and Councils. The conference, being held at the Hotel Skirvin, will continue through Wednesday.

Legion Officers Set Session For Tonight

A meeting of officers and executive committee of the American Legion Post will be held tonight, and Commander H. W. Wright called for full attendance.

Police Fleed Reds

BERLIN (AP)—Nearly four companies of East Germany's militarized police force have fled to West Berlin this year, West Berlin police said today. The total is 1,135 men.

BELL

(Continued From Page One) afternoon a hearing on Rep. George Hinson's bill levying a tax of 2 cents per 1,000 cubic feet on all natural gas taken from the ground under long-term contract.

\$16,000 Suit Is Filed In Court

J. W. Redman filed a \$16,000 damage suit in 118th District Court today as next friend for his minor son, Jerry Wayne Redman.

Man Is Fined \$26 In City Court Case

Fines totalling \$26 were assessed in Corporation Court today against a man who pleaded guilty to charges of theft and drunkenness.

Sabres Fly In Support Of UN Ground Troops

SEOUL (AP)—Deadly American Sabre jets flew dive bombing missions in close support of Allied forces today for the first time in the Korean War.

Attack Is Fatal To Tom Hunter

WICHITA FALLS (AP)—Tom Hunter, 63, who ran for governor four times in the 1930's, died yesterday in Fort Isabel after a heart attack. He never was elected.

Hearing Set On Laughlin Case

AUSTIN (AP)—Sen. William Shireman said he expected to call only a few witnesses, "if any" at this afternoon's hearing on charges against Judge Woodrow Laughlin of Alice.

Trucks Still Busy In Clean-Up Work

Trash trucks were working east of Gregg Street today as they continue to haul off results of Big Spring's annual clean-up campaign.

NT Mentor Wonders About Bob's Status

USGA Doesn't Make Decision

DENTON (AP)—Coach Fred Cobb of the National Intercollegiate Champion North Texas State golf team wondered what happened to one of his boys but he was elated today over five others being returned to an amateur status.

The United States Golf Association executive committee meeting at Pinehurst, N. C., reinstated Joe Conrad of Breckenridge, Don January of Dallas, Stan Mosley of San Antonio and Marion Hisey of Pocatello, Idaho, but did not act on the case of Bobby Maxwell of Big Spring.

The North Texas State golfers, plus Billy Maxwell, former National Amateur champion now in the Army, were taken from the amateur rolls several weeks ago on charges they taught golf at the college. It was ruled they were being paid for it through athletic scholarships.

Cobb said Bobby Maxwell, brother of Billy, had made the same application as the others and he was at a loss to understand why this boy was not returned to an amateur status like the others.

title three years in a row. He said the boys also probably would try to qualify for the National Amateur and National Open.

Gardnar Mulloy Wins River Oaks Tennis Tournery Crown

HOUSTON (AP)—Gardnar Mulloy moved to San Antonio to defend another title after wrapping up his third River Oaks Tennis Tournament championship.

With a dazzling display of passing shots off forehand and backhand, Mulloy demonstrated to nearly 2,000 fans at River Oaks yesterday why he is the leading player in the United States.

He took command at the start and never let up the pressure in defeating second-ranked Vic Seixas 6-4, 5-7, 6-4, 6-2.

The Miami, Fla., lawyer forced Seixas into numerous errors and closed the match with a smashing service which the Philadelphian barely touched with his racket.

if they had remained under suspension of the U. S. G. A. The latter has different rules from the N. C. A. A. Being suspended by the USGA would have meant only that they couldn't compete in USGA sponsored events like the National Amateur, National Open, etc.

LOOKING 'EM OVER

With Tommy Hart

Bill Heater, the Webb Air Base athlete who suffered keen disappointment when some one read the fine print in baseball's constitution and ruled him ineligible to play with Big Spring, played ball in the same semi-pro circuit up in Vermont one season with Robin Roberts.

Heater recalls Roberts was quite a hurler, even in those days. He won something like 25 games, against only three losses. It so happened that the final defeat was inflicted by the team for which Heater performed.

Asked what seemed to be the trouble with the Odessa baseball club (which lost its first two games to Midland, then dropped one to San Angelo, Eddie Jacome of the Midland Indians replied: "Same trouble as a great year. No pitching."

Scouter Hughes, Midland's veteran shortstop, probably shokes up more on his bat than any other player in the Longhorn League. He swings with his hands about six inches removed from the end of the mace.

Al Costa, the Big Spring shortstop, is hitting like he intends to return to the .300 ranks. Al clouted .303 in 1951 but slumped to .268 last year.

Will Field Team

Forsan is to have a little League team this year. Fact is, workouts have already started there. The youngsters are to use the diamond made available to the Forsan Concho Basin League team last season, out to size.

Mustangs Meet Rugged Baylor

The Southwest Conference baseball race rolls down the stretch with Southern Methodist leading only because it has played more games.

SMU could lose its lofty perch this week because the Methodists battle tough Baylor, a team that's still in the race for the title, a couple of games.

Ex-Big Springer Is Named Coach

ROBERT LEE — James Mancill has been named new head coach at Robert Lee High School. Mancill, who has been connected with the Colorado City school system for the past two years, will not assume his duties until Sept. 1.

Buldigos at 4 p. m. here Tuesday. The Buldigos are one of the two clubs Big Spring has beaten this spring, and the Longhorns did it decisively. The final jab was 6-2.

Indications are Coach Roy Baird will use Charley Rose in the box against the Buldigos. Rose saw action in last Saturday's game with San Angelo, but as the right fielder.

Midland is riding in the 3-AA cellar but could tie the Herd by winning tomorrow's game. The Steers' record is now 2-4. Midland's 1-5.

The contest will be the first of two home games for the local club this week. On Saturday, at 2 p. m., the Steers play Odessa in the local park.

HCCJ TRACK TEAM RUNS

The Howard County Junior College track and field team moved northward today, headed for Lubbock and the West Zone meet.

Martyn Baker's team, composed of eight athletes, rank as favorites to cop the team title and bring home a flock of firsts in the individual events.

Odessa and Clarendon are the only other teams in the zone fielding teams. The chief competition may come from Clarendon. Odessa has had only three boys working out most of the time.

Bobby Baker, Robert Cobb, Weldon McCreath, Ben Hitt and Carl Preston are among those due to score heavily for HCCJ.

The Hawks will also compete in the State Meet in Denton next Monday, according to present plans.

Referee Defends Officiating

Tommy Rawson, referee of the fight in which Lightweight Champion Jimmy Carter floored Tommy Collins ten times before a halt was called in the fourth round looks over the Associated Press pictures of the fight in his home in Arlington, Mass. Rawson, target of a nationwide storm of criticism, much of it from TV fans, for letting the fight go to ten knockdowns, says the pictures justify his officiating.

Rawson says the pictures show "Collins eyes were not closed, he was not out, his arms were not limp, he knew what he was doing." (AP Wirephoto).

STEEDES, TRIBE MEET AT 8:15

The Big Spring Broncs and the Midland Indians resume their own private war this evening at Steer Park, before the Broncs hit the road for six days. Game time tonight is 8:15 p. m.

Valdes Is Star In Broncs' Win

Al Valdes, a catcher known more for his ability to handle pitchers than his hitting prowess, turned "mean" here Sunday afternoon and slugged the Big Spring Broncs to a 16-9 victory over the Midland Indians.

Valdes drove in seven runs, six of them in one frame, as the Broncs made it easy for Oscar Reguera to chalk up his second mound success of the season.

The Cayuses ganged up on Ben Quintana, the Indians' starting hurler, and Bud Sisk for 12 big runs in the fourth inning, then coasted in.

Valdes drove out two home runs, one with the bases jammed. It equalled his four-master output for the entire 1952 season.

The Broncs won their first home game of the 1953 season in this one.

Jess Jacinto and Jerald Felton gave Valdes plenty of support in the attack department. Jacinto drove in four tallies himself while Felton accounted for a brace of two-basers and a single.

Midland got to rolling in the late innings but it was much too late. Julio Delatorre hit a triple, double and single for the guests.

Mandy Diaz blasted out a double and two singles in the 16-hit Big Spring attack.

DIAMOND DUST — Sixteen men went to bat in the Broncs' big fourth. The game was played under warm skies and with a gentle breeze blowing from the south. The paid crowd was reported at 671.

Scouter Hughes, Midland's shortstop, was deprived of a base hit in the first inning when he failed to touch first base.

Freddy Lujon took over the Midland catching duties in the absence of Art Bowland, who made a trip to Abilene on personal business. The game's only double play occurred in the eighth inning, when Quinton Basco dispatched a ground ball to Al Costa.

MIDLAND: Dallas 20, Basco 20, Hughes 12, Prince 10, Waldorf 10, DeLatorre 10, White 10, Lujan 10, X-Brown 10, Quinton 10, Sisk 10, Total 110. BRONCS: Jacinto 20, Valdes 20, Diaz 20, Riber 10, McClain 10, Valdes 10, Phillips 10, Fritow 10, Reguera 10, Total 100. MIDLAND: 100-003-203-9. BRONCS: 000-112-21-61-16.

LITTLE SPORT

Texas Clinches Tennis Crown

By The Associated Press

The Southwest Conference tennis campaign ends this week with the championship already in the corral of the Texas Longhorns.

Texas clinched the team title last week by beating Southern Methodist 5-1 and Texas Christian 6-0. The Longhorns have 22 points to only two for the opposition. They could lose their final match—against Baylor at Austin Saturday—and still have the championship.

Texas A&M and Texas Christian play at College Station Friday, and Rice and Texas Christian at Houston Saturday to wind up the team race.

Singles and doubles champions will be determined at the conference meet in Fort Worth May 14-15.

Plainview Wins Over Amarillo

By The Associated Press

The Iron Dukes of Albuquerque have broken loose in the West Texas-New Mexico League. Having to win their first two games by one-run margins, the Dukes decided that was too nerve-wracking.

The Dukes combed three Abilene pitchers for 18 hits. They came from behind to blast seven runs early in the fourth to sew it up across. Rookie Len Santos, who took over in the third, got credit for the pitching victory.

Plainview, new member of the league, finally won a game. The Ponies outlasted Amarillo 8-6 as Lee Gatewood kept nine Abilene hits scattered well enough.

BRONC CARD

MONDAY — Midland here. TUESDAY — At Odessa. WEDNESDAY — At Odessa. THURSDAY — At Odessa. FRIDAY — At Midland. SATURDAY — At Midland.

Bill Serena's two-run homer featured a four-run rally by the Chicago Cubs in the seventh inning for a 7-5 edge over the St. Louis Cards.

A Cincinnati-at-Milwaukee doubleheader was rained out.

Bob Feller and Bob Lemon pitched Cleveland into first place in the American League by a margin of 28 percentage points over the New York Yankees.

Feller pitched a five-hitter to nip Detroit, 2-1, in the opener, and Lemon rode home on nine-run eighth inning for a 12-2 romp, his third win. The tribe now has won five in a row.

The St. Louis Browns and Chicago White Sox split two, the Browns taking the first, 7-2, as Bob Elliott batted in four runs with a triple and homer. Joe Dohson shut out the Browns, 3-0, to beat rookie Mike Blyka in the second game.

The Philadelphia A's and Boston Red Sox were washed out of two games at Fenway Park.

Flock Options Two

DALLAS (AP)—The Dallas Eagles are expected to pitch Gale Engle and outfielder Wes Gibson to Greenville of the Big State League.

Mustangs Meet Rugged Baylor

By The Associated Press

The Southwest Conference baseball race rolls down the stretch with Southern Methodist leading only because it has played more games.

SMU could lose its lofty perch this week because the Methodists battle tough Baylor, a team that's still in the race for the title, a couple of games.

SMU which has lost two of the same at Southern Methodist, plays impotent Texas Christian in a brace of contests.

Southern Methodist made what might be a fatal stumble last week when the Methodists took an unexpected trimming from Texas A&M 14-5. SMU previously had beaten Baylor and was in a good position to win the title—until that misstep with the Aggies.

Texas won two games during the week, swamping Texas Christian 15-1 and outlasting Baylor 14-1.

The week's work starts Monday with Southern Methodist playing Rice at Houston and Texas Christian engaging Texas A&M at College Station. Wednesday Rice plays Lamar Tech of the Lone Star Conference at Beaumont.

Friday and Saturday all the teams in the conference race will be in action. SMU and Baylor play at Dallas. Rice and A&M at Houston and Texas and Texas Christian at Fort Worth.

Sprinter Idled

LONDON (AP)—E. McDonald, Baylor, one of the world's top sprinters, was suspended today by the Southern Subcommittee of the British Amateur Athletic Association for using his name for advertising.

DEAF BUT NOT DUMB

Far from being "dumb" the Used Car shopper who defends his ears to the "Bargain-Bargain" chant is really wise. The "Bargain" tag is usually sucker bait. A buyer's safest program of purchase is to seek the reliable dealer. When the firms right—so will the car be.

- 1950 BUICK Special sedan. Black and shiny. This one is in the best possible shape. A swell vacation car.
- 1951 BUICK Roadmaster Riviera. Radio, heater, defroster, premium tires, dynaflow, two-tone, hydraulic window lifts, and solid leather trim. VOT Else you VANT, Eh Tony.
- 1950 BUICK Super 4-door sedan. No help wanted. This baby will do the job all by itself.
- 1952 FORD Ranch Wagon. You have to look twice to tell its not brand new. OK you fisherman this is the one you've been waiting for.
- 1949 CHEVROLET 4 door Sedan. Less than 30,000 actual miles on this one and clean, clean, clean. Heat and music.
- 1949 BUICK 4-door sedan. Green—Straight drive. Nice enough for anyone—and cheap enough to own.

NEW CAR GUARANTEE

On The Following Cars. We'll guarantee that if you buy one of these you'll be looking around for a new car in 60 days.

- 1946 CHEVROLET 2-door. Black, radio and heater.
- 1947 DESOTO 4-door. Its BIG, Its CLEAN, Its GOOD.
- 1947 CHEVROLET 4-door sedan. Talnt bad Magee and a give away price.

Drivers Burned Fatally In Crash

TAHOKA, Tex. (U.P.)—Two huge trucks carrying liquefied gas collided yesterday six miles west of here. The drivers were fatally burned by explosions and fires seen 40 miles away.

Billy Jenkins, about 19, of Brownfield and Lubbock, died in his cab. Cecil Collier, 28, Slaton, walked a mile into Tahoka despite third degree burns over most of his body. Collier died five hours later.

Collier said the trucks belonged to Keystone Fleming Transport Company of Lubbock were enroute from Sundown to O'Donnell, with Collier in the lead. Each truck carried two 2,500 gallon tanks of butane and propane.

Collier said he overtook an intersection six miles west of Tahoka and applied his brakes. Jenkins' truck hit him from the rear—"only a light tap but the first thing I knew there were flames all around," Collier's clothes were burned from his body.

The first explosion and fire was seen in Lamesa, 30 miles away, and the second about an hour later was visible in Lubbock, 40 miles away.

Baylor's Medical College Observes 50th Anniversary

HOUSTON (U.P.)—Baylor University's College of Medicine observes its 50th anniversary today.

Some 500 Baylor medical alumni meet tonight to mark the golden anniversary and to honor the man who headed the college for 30 years. Dean emeritus Walter Walter Moursund.

The group also will be observing the 10th anniversary of the college's moving to Houston.

Moursund, retired several months ago and was succeeded by Dr. Stanley Olson, former head of the University of Illinois School of Medicine at Chicago. Baylor has produced 2,323 doctors.

The college's first crisis came between 1910 and 1915 when the American Medical Association was campaigning to raise the standards of medical education. There were 160 medical schools when the campaign began. Only 80, including Baylor, survived.

The second crisis came 10 years ago when the school was moved from Dallas to Houston. The move caused a deep rift among the faculty.

1,500 People Visit Gail During Celebration Of 'Dorward Day'

By FRANKLIN REYNOLDS

GAIL — All roads led to this tiny Borden County capital Sunday and more than 1,500 people traveled there to join the festive throng combining a long-delayed homecoming with the observance of "Dorward Day" honoring David Dorward, pioneer, wagon cook, cowboy and pharmacist, and Mrs. Dorward, pioneer school teacher and church leader.

A thousand and a half people may not sound like a big crowd to many people living in many places, but when it is taken in consideration that this crowd added up to about 30 times the present population of Gail, situated on U. S. Highway 180 about midway between Snyder and Lamesa, and about 40 miles north of Big Spring, the figure becomes impressive.

Any community that entertains that many times its normal population has assumed quite a task.

Mr. Dorward came to Borden County with his father and two brothers in 1892 to become a cowboy and wagon cook. Mrs. Dorward, Miss Minnie Russell, who had been born in Dallas County, but who had just recently moved to Mineral Wells with her family, came in 1895 and for three years taught a total of 14 pupils from three families in a half-dugout school in the pasture of the Old 48 Ranch about seven miles north of here. Later she returned to Mineral Wells for a couple of years, but came back to Gail in the fall of 1900 to become a teacher in the Gail school. The next year she and Dorward, who had opened a drug store on the west side of The Square were married.

Two of their three sons were here Sunday, with their families, to be with their father and mother on the occasion. They were Russell Dorward, who manages a

big cattle ranch in Mexico about 100 miles south of Eagle Pass, and Maurice, a Dallas business man.

The third son, Kelvin, head of a division of the U. S. Department of Agriculture in Washington, was unable to attend.

In presenting a history of Borden County in the course of the afternoon ceremonies, Mrs. Charles Miller of Snyder, a Borden County native, recalled that it was 52 years ago that Mr. Dorward organized and supervised the first Easter Egg hunt ever held in the county. Mrs. Miller also pointed out that Mrs. Dorward had been a teacher in the Methodist Sunday School at Gail for that many years and is now engaged in teaching the third generation of Borden Countians in her classes. She has been superintendent of this Sunday School since 1918.

Previous to 1918 the people of Gail and Borden County did not have any outside telephone communication with the world. That year Dorward had a telephone installed in his drug store. Invited the public to make use of it without any profit to the store, and this facility has been in service since, the only telephone in the county.

When a call is received for some person Dorward goes out into the street and hunts them up and summons them to the telephone if they are in town. A little more than a year ago a private line was run from his store to the Courthouse across the street (Highway 180). Before the installation of this inter-communications line he had to walk across the street to summon county officials to the telephone.

Borden is a county without a bank, a newspaper, a railroad, but there was a time in the 1918-1921 period when the population of Gail grew to about 1,200 the equivalent of the present population of the entire county which is mainly devoted to livestock raising.

Sunday's observance of "Dorward Day" included services at the Methodist Church in the morning; a barbecue at noon and afternoon ceremonies in the auditorium of the new Borden County High School.

Dr. O. P. Clark, the Methodist pastor at Sweetwater, delivered the sermon at the morning services, and was assisted by the Rev. M. W. Clark, a retired minister now living at Snyder, who was an early day circuit rider formerly preaching at Gail. Also assisting with the morning services was the Rev. Wayland Dowden of Fluvanna, present pastor of the Gail Methodist Church, who occupies the pulpit here the last Sunday in each month. Mrs. Dick Cantrell was morning soloist, singing "Above the Hills of Time."

The three pastors also participated in the afternoon ceremonies at which Mrs. Miller read her history of the county.

25 Violent Deaths Reported In State

By The Associated Press

A tragic assortment of violence, including an auto-train smashup, the spectacular explosion of two bottled gas trucks, and two plane crashes, killed at least 25 persons in Texas over the week end.

Traffic fatalities reached 13. Three died in shootings and two drowned.

Three railroad workers died 20 miles northwest of Houston Sunday night when their car was struck by the streamlined Southern Pacific Sunbeam passenger train near Fairbanks. The dead were Jesus Vasquez, 40, Fairbanks; Milesio Ribera, 40, Cypress, and Julio Valaquez, 43, Fairbanks.

Cecil Collier, 28, of Slaton, and Billy Jenkins, 19, of Brownfield, died after their big transport, loaded with liquefied gas, collided and burst into flames early Sunday near Tahoka. Collier said the Jenkins truck, had struck him from behind as he tried to stop. Flames were seen 40 miles away.

A religious education instructor at Wayland College of Plainview was killed Saturday night in a plane crash at Amarillo. Lake Plyant, 31, was on his first cross country solo flight. He apparently became lost trying to return from Abilene to Plainview.

John Karcher, 28, San Antonio mechanic, died in the crash of a private plane near Beville late Saturday.

Paul Voss, 5, of Arlington drowned Sunday in Eagle Mountain Lake near Dallas.

Dennis Strebeck, 10, of Alba near Greenville drowned Sunday in a stock tank.

Pauline Moulton, 2, a Negro girl, died Sunday when fire swept through a frame house in Honey Grove.

At Houston, a wife was freed under \$3,000 bond Sunday after being charged with murder in the shooting of her husband, John Curtis, 43, insurance man, who was shot to death Saturday night.

Bobby Chambers, 20, Houston, was killed Saturday night when the convertible he was driving overturned near Houston.

A soldier home on week end leave was killed Sunday in a car-truck collision south of Richland, near Corsicana. The victim was Pvt. Thomas Harlan, 20, stationed at Camp Polk, La.

Florian Jozwiak, 19, Houston, was killed early Sunday in a car-truck collision near Rosenberg.

Allen Lindsey, 25, was shot to death in a Dallas tavern early Saturday. Police held the tavern operator, 58.

Lynn Anthony, 3, of Mabank, was struck by a car and killed Saturday near Dallas.

A suicide verdict was returned at Houston in the death of George Stroud, 77, found with a bullet wound in the head.

Mrs. Herbert Lewis, 23, died in a Victoria hospital Friday night of injuries received in an accident on the San Antonio River.

Mrs. Reno Leisner, 34, of Victoria was killed Friday night when her car hit a truck on a bridge.

Howard Longbottom, 12, smothered to death Saturday when a cave he was digging in sand hills 12 miles east of Monahans collapsed.

Mrs. Elizabeth Mullins, 16, died Friday night when her car and a truck, weather truck collided in Fort Worth.

Pete Johnson, 40, of Dallas died Saturday in a fall from a railroad trestle in Fort Worth.

William Roberts, 25, Houston fireman, and his brother, Edwin, 22, a Navy recruiter stationed in Houston, were killed Friday night in a truck - auto collision near Gatesville.

Rita White, 9 months, of Dallas died in her crib Sunday, apparently of suffocation.

Langham Rites Set Wednesday

David Lee Langham, 77, died in a hospital here Sunday after an illness of two weeks.

Mr. Langham had been engaged for many years in farming near Ackerly.

Rites are to be held in the First Baptist Church at Ackerly at 3 p. m. Wednesday with B. R. Howze, Big Spring, Primitive Baptist minister, officiating. Burial will be in the Ackerly Cemetery with the Eberley-River Funeral Home in charge of arrangements.

Surviving Mr. Langham are his wife; four daughters, Mrs. Hazel Hammett, Long Beach, Calif., Mrs. Lavada Ray, Lamesa, Mrs. Louise Stuphen, Elsa, Mrs. Maris Webb, Midland; one son, Kenneth Langham, Ackerly; a step-son, Willie Lee Poe, Midland.

Also surviving are 10 grandchildren; two sisters, Mrs. Bell Sluder, Roby, Mrs. Louella Gee, Pasadena; four brothers, James Langham, Dallas, Rayford Langham, Palestine, John Langham, Scottsdale, Ariz., and Páchal Langham, Frederick, Okla. One daughter preceded him in death.

Britain To Open New Wool Market

LONDON (U.P.)—British wool brokers and traders completed arrangements today for the opening Wednesday of a futures market on wool tops that will operate on lines similar to the corresponding market in New York.

A spokesman for the London Wool Traders' Market Association said there will be three sales a day. Trading will be in wool tops, partly processed wool.

The market will be in addition to the established current wool market, an old fixture of London commodity trading.

"Britain has never had a futures wool market of this sort before," the spokesman said. "We feel there is a need for one now. The new market reflects an expansion of trading activities in wool."

Trading will be done at Langtion House in Mincing Lane.

College Students Get Another Chance

AUSTIN (U.P.)—College students who missed taking their draft deferment tests April 23, state draft director Paul Wakefield said today.

Deferment is based on a college student's score on the test or on his class standing. Applications for the test, the last this school year, must be postmarked by midnight May 11. They may be secured from any draft board.

Plane Is Believed Down In Pacific

MANILA (U.P.)—A Clark Air Force Base spokesman said tonight a commercial plane was believed down somewhere between Okinawa and the Philippines.

The spokesman said the report came from Okinawa but gave no details as to the type of plane or the number aboard.

French Reinforce Indochina Units

HANOI, Indochina (U.P.)—French troops in Indochina poured a steady stream of troops and war materiel into the Laotian royal seat of Luangprabang today as Communist-linked Vietminh forces drove toward the city. The best estimates are that the invaders are four or five days away.

French and Laotian troops dug trenches and constructed barbed wire entanglements and other fortifications around the town. The 6,000 residents remained calm and Lameo's aging king and his son said they would stay in their capital.

Donovan Viewing Reds With Caution

DALLAS (U.P.)—Maj. Gen. William Donovan, wartime director of the Office of Strategic Services, said Russia's flirting with the West should deceive no one.

"Premier Malenkov was not put into office to pass up 30 years of Communist education and destroy the Soviet Empire," he said yesterday. Donovan will address the Dallas Council on World Affairs tonight.

TOKYO Offers Reward

TOKYO (U.P.)—The United Nations offered tonight a \$100,000 reward to the first Communist flier to bring a MIG15 jet or other Russian-made jet over to the Allied lines. The offer was broadcast over the Allied radio.

Australia had 81,000 immigrants in the first nine months of 1952.

after which the principal address was delivered by District Judge E. A. Hills of Littlefield, who was superintendent of the Gail school and a teacher there from 1910 until 1914.

District Judge Sterling Williams of Snyder presided as master of ceremonies and the benediction was pronounced by Calloway Johnson, an early settler, now living a few miles from Snyder. The afternoon program was concluded with a solo, "Evening Prayer" by Mrs. George Seaby.

During the afternoon ceremonies, since the Dorwards had insisted on no gifts to them, the Rev. M. W. Clark presented a new piano to the Methodist Church on behalf of the committee having benediction. The instrument having been purchased with funds contributed by the people of the county and friends from elsewhere, some of whom traveled several hundred miles to attend the services. The piano was accepted, on behalf of the church, by Rev. Dowden.

Old-timers described the barbecue as the finest ever served in "Texas. There were still wash-tubs filled with barbecued beef and goat for all the visitors had eaten their fill and a count of the other items revealed there had been better than a full-size pie, a large family-size cake and a gallon bowl of salad to every three persons who were there.

Those present expressed their regret that Sheriff Sid Reeder, one of the organizers in proposing the occasion, was ill at home and unable to attend.

The car parking and other assistance and efficiently rendered services were performed by the members of the recently-organized Borden County Sheriff's Posse of which Reeder is president.

For many of the visitors who were here yesterday it was their first return to Borden County in more than 25 years. There was no rush, no hurry to get into the chuck line, nor was there any hurry or rush to get away since the program was ended—those old-timers were having too much fun visiting with each other and in showing off their children, grandchildren and great-grandchildren.

And those who should know all agreed it was the largest crowd they had ever seen assembled in Gail on any occasion.

We Give J.Y. GREEN STAMPS CODEN NO. 7 400 Gregg Street CODEN NO. 5 1001 11th Place

Emily Post's TELEPHONE TIPS A young lady writes: "People tell me I'm hard to understand over the telephone. Is there anything I can do to improve my voice and speech?" There probably is. The first step—and possibly the most important one—is a cheerful and considerate attitude toward whoever it may be who is calling you. A smile in your telephone voice is every bit as attractive as a smile on your lips when you're talking face to face. Watch the speed of your speech. If you talk too fast your words run together. Drawl, and your words sound disconnected. Reading aloud will help you find the right speed for clear, understandable speech. Talk directly into the mouthpiece, with your lips an inch away. Don't shout. Don't whisper or mumble. Your natural tone of voice is best. Let your voice be friendly and ready to be helpful—the voice with a smile.

A reader says: "Thank you for correcting a bad telephone habit I used to have. After reading your comments on the unnecessary use of 'information,' I've made it a practice to look for numbers in the telephone book first. I might add that I was surprised how few times I really need to call 'information.'" I think there is little I can add to this thoughtful note of thanks. You will find most of the telephone numbers you need to call in the directory. It is always better to consult the telephone book first. If the number is not listed there, then is the time to call "information."

A correspondent complains: "A few people I know are careless about hanging up the receiver after finishing a telephone conversation. Don't they realize that slamming the receiver down makes an unpleasant noise in the other telephone?" Slamming the receiver is as discourteous as slamming the door. Always hang up gently as a parting, thoughtful gesture. And when you hang up be careful to replace the receiver securely in its proper place. A receiver off the hook means that no calls can get through to your telephone.

Regime To Eliminate Costly Arms Plants

By STERLING F. GREEN
WASHINGTON (AP) — Roger M. Kyes, deputy secretary of defense, said today the Eisenhower administration will review the whole munitions picture and weed out high-cost arms plants to keep America strong in peace and war.

"Fantastic," Kyes called some of the planning done by the former Truman administration. A speech he prepared for the U. S. Chamber of Commerce convention here contained the sharpest criticism to come so far from the new administration of the Truman regime's rearmament program.

The No. 2 man in the Defense Department announced: "Because in some instances the mobilization base is too widely diffused, there will be situations where a sufficient quantity of the item manufactured is not required to maintain a minimum economic production flow in all facilities. In these cases, certain of the facilities will be forced to stop production, and where necessary for the maintenance of the mobilization base, arrangements will be made for standby, while in others, the tools will be handled in such a manner as to assure their availability. The general policy will be that of retaining the low-cost producer of desired goods, as against the high-cost producer."

But Kyes also said "careful consideration" would be given to preserving industries vital to defense which do not have full opportunity in civilian economy, noting that "the aircraft industry is an example of this type."

This major policy statement by Kyes presumably reflected the current views of Secretary of Defense Wilson, who has been in Europe. Both men are former top executives of General Motors. A month ago Wilson was known to be questioning the wisdom of the "broad case" mobilization program instituted by the former administration. In his prepared address, Kyes used sharp words in talking of the rearmament program started with the beginning of the Korean War in 1950—"fantastic paper targets," "exaggerated figures," "poor planning and inefficient execution."

He cited as examples: "One mobilization plan resulted in requirements over and above assets on hand which would cost \$30 billion dollars for hard goods alone. And: 'Most of us would question the combat capabilities of a year's surplus of calculating machines.'"

He declared: "We have been and are paying dearly for two mistaken conceptions with respect to national security. First: unsound and unrealistic calculations of requirements for materials, equipment and supplies on the part of the military. Second: a neglect of the needs of a minimum military posture in time of peace."

He summed up his views on a mobilization base this way: "When choosing an organization 'large or small' to comprise the mobilization base, Kyes said, there are six criteria: (1) It must have the management and technical knowledge required; (2) It must have adequate capacity; (3) It must have enough capital so as not to be fully dependent on federal aid; (4) Manpower must be available; (5) Generally, no facility should fall below requirements for a minimum economic unit; (6) It should not be given more defense business than it can handle efficiently—up to three or four times its civilian dollar volume.

"An effective base for industrial mobilization is essential, as well as a minimum stockpile of material. We must maintain a careful balance between weapons that are immediately required if war occurs and the lead times necessary to produce in quantity weapons of proven design from existing or readily available capacity. Technological progress with respect to new weapons and equipment makes this a desirable policy, rather than risk the stockpiling of end items which deteriorate, or quickly become outmoded and obsolete."

A basic problem in munitions production, he said, is that civilians "cut the military to the bone in time of peace" and the military always calls for more than it needs in time of war. To avoid waste and inefficiency, he said, both segments must practice restraint.

When the Korean War broke out in mid-1950 Congress appropriated "huge sums" and the military started contracting for goods on "unrealistic schedules," Kyes said. But with cutbacks and stretch-outs later, he said, "fantastic paper targets crumbled before the realities."

However, Kyes said: "If we insist that the military abandon their present attitude as claimants for absolute requirements without responsibility for economic consequences, we should also insist that the civilian attitude of irresponsibility between wars should be abandoned."

Earlier, President Laurence F. Lee of the Chamber of Commerce had forecast "sweeping decentralization" of the government. He predicted the states and even local units of his organization would take over some federal functions. Lee, of Jacksonville xxx second grad

more confident sense of direction." "A sweeping decentralization of the federal government is in the making," Lee said.

"We can be sure that from it will develop great opportunities and responsibilities for our state Chambers of Commerce, local Chambers and the national Chamber. It is entirely probable that some of our private volunteer organizations will be shouldering certain functions and services now administered by federal bureaus. Many millions of tax dollars can be released for creative and productive purposes by reducing the scope of federal authority, for waste is inherent in all highly centralized governments. So is corruption."

The three-day Chamber meeting, at which attendance of 2,500 was indicated, scheduled as speakers top government officials including Secretary of Commerce Woeke tomorrow, Secretary of Agriculture Benson and Secretary of the Interior McKay Wednesday and President Eisenhower at the closing dinner Wednesday.

The law — published yesterday and certain of parliamentary approval later this year—reaffirms the Yugoslav Constitution's basic guarantee of freedom of worship. However, it rejects recent demands of the Roman Catholic church, including those for religious instruction in public schools and unrestricted circulation of church papers.

The new law calls specifically for a separation of schools from religious instruction and puts religious literature under the general laws governing the press, thus allowing government control over material considered hostile to the administration.

The law declares as a basic principle that all religions are equal and bans discrimination against individuals on the basis of religious conviction. It permits religious schools to train future clergymen and allows the clergy to hold services on church grounds, form their own organizations and collect money for expenses.

DALLAS (AP)—A burglar got \$250 yesterday by reaching through a bathroom window and lifting the money from a porcelain water tank. R. R. Revis said he had been taking a shower but stepped out of the bathroom to answer the telephone.

DALLAS (AP)—Delton Verner, 28, of Duncenville died yesterday of injuries received in an auto accident in Grand Prairie Tuesday.

Grid Score In Letter Angers Reds

By FRED HAMPSON
HONG KONG (AP) — It simply drove the Communists wild. The Canadian bishop wrote years ago in a letter to another priest in China: "N. D. hit the dust. Purdue took them after five years."

For that, Bishop O'Gara of Ottawa spent a week of round-the-clock questioning in a Red China "house for reformation."

Freed, the ailing bishop today told in a hospital how that terse thought sent his captors into a frenzy.

The Passionist priest was arrested in his Yuan Ling Diocese in Central Hunan province in June, 1951. The Communists confronted him with the letter: "Who is this bandit, N. D.?" "Who is this man, Purdue?" "Don't hold anything back!"

The bishop, ill from a bladder infection and months of imprisonment, protested feebly—N. D. was only a university called Notre Dame which was defeated in a game called football by another university called Purdue.

"That's a lie," said the angry questioner. "All you tell is lies. You had better tell the truth." "Now — who is this bandit, N. D.?"

For a week they haggled to a stalemate—the Communist never was convinced.

DALLAS (AP)—Delton Verner, 28, of Duncenville died yesterday of injuries received in an auto accident in Grand Prairie Tuesday.

San Antonio Buzzed

SAN ANTONIO (AP)—Civil Aeronautics safety experts were investigating reports of a small red airplane that buzzed San Antonio at low level yesterday trailing smoke. The plane landed safely.
