TRIBUTE TO "NETA GEE"
Neta is our new friend here. She is so kind, she is a dear. With her, there is no growing old, and half her story is not told.

Flowers she likes, and birds and bees. She also likes pretty trees. She is busy all the time. Her kitchen should have a pretty chim.

Preserves she makes, and jellies and jams. From tomatoes, plum and maybe yams! Her hot rolls rate number one. Life goes on, she's just begun!

Sent in by a friend.

CITY CHIT CHAT
By Charlie L. Garrett, Mayor
Your City Commission met on August 2 with the Mayor and all Commissioners present. Also all city employees were at the meeting.

After the approval of the minutes, the proposed policy book for city employees was read to them. Some questions were asked about certain parts and some changes were noted. The Commission had met in a special session on a previous date and had adopted the proposed policies. The policies spell out the general operation of the city with the various responsibilities of the employees as well as those of the Commission. After time for the policies to be studied a while and changes made, if necessary, the booklet will be reproduced and each employee now working and any hired in the future will be given a copy. We feel that with everyone knowing what is expected and what their responsibilities are, that we can have a better working relationship and give better service to the citizens.

We had a good singing Thursday night but we sure missed some of our regulars who could not be with us. It's just not the same when someone is missing. Hopefully soon, vacations, shopping, etc. will be done and we can get back to having all our old crowd back. All of you are always welcome. We would love to have you join us. Those attending: Mary Emerson, Marion and Annie Dennis, W.C. and Blanche Browning, Earl and Jo Jo Lewis from Eastland, Hazel and W.R. Collins from Eastland, Mary Revels, Jettie Daniels, Velma Bennett and others. Thanks to all of you who came. We are looking forward to Thursday night at 7 p.m. for Good Old Gospel Singing.

Friday afternoon we were entertained by M.C. Dorsett and his wife Faye. I was ill and could not be here but I am told that he was very good. They had a good crowd and everyone enjoyed his steel guitar playing very much. He will be coming every Friday afternoon at 2 p.m. to play for us. I understand he is a multitaleanted man. He paints, whittles, plays music and many other interesting things. I am looking forward to hearing his music and visiting with them again soon.

They are 2 more of the wonderful, thoughtful people of Gorman. God bless all of you.

We have been very fortunate here at Lawndale to have the generosity of so many shared with us. I understand several people have given food to us. If I leave anyone out please call me because we appreciate each of you so much. I want to thank the Porter sisters, Sarah and Sandy for bringing blackeyed peas, Billie Grice and her dad for bringing tomatoes, Jim Barnes for bringing tomatoes, and Rickie Fuller for the cantelopes. All of these donations make our meals so much better. We have had pea shelling parties twice. Our ladies always did this at home and they still love any activity that they did at home. Thanks for loving our people. It show when people are so generous.

Our 2 p.m. Church service was brought by the First Baptist Church of Gorman. Bro. Dossey's subject was on Revelations - Chapter 3, verse 1. We should let the Holy spirit have complete control of our lives if we have sinned, repent and be a witness for the Lord.

SENIOR CITIZENS NEWS

My! What a wonderful feeling to be home again. I will tell you these vacations spent while my Boss was in West Texas Medical Center at Abilene for two weeks was not all pleasure. Tho we thank the Lord that she is home again.

The rains that have visited us have been so wonderful. Tho some close by have missed them almost.

I am sure the old Folks are still enjoying these bountiful gardens and orchards. What a blessing it is to all in these escalating prices of everything except gasoline and it has just flown out of sight. I believe that some one is sure trying to steal the use of our cars. Tho so many just waste our resources. We need some one to put those "Environmentalists" in the right place. Do not sell them any thing to eat, use or wear. Let them live as they try to force their rules on Industry and farming.

We extend our deepest sympathy to the relatives of Miss Cora Richmond. I have known her since 1919. We were on an oil lease near their home. We bought vegetables, etc., from them. She was a fine neighbor and friend to all that knew her. Also Walker McCully raised in New Hope Community. War I Vet. I have known him since Childhood. He was a friend and neighbor to all. Also J.C. Allison of Bear Springs Community. He was a County officer for many years. There are others that I do not know their names, due to being absent.

I do not know how our office gang has been doing

GARRETT REUNION

The descendants of the late T.B. and Betty Garrett of Carbon met for their annual family reunion on August 28 and 29. On Saturday night forty nine of the descendants along with three visitors showed up at the Eastland Park of picnic, which was enjoyed by all. On Sunday other joined with part of those present on Saturday night to bring the total of

lately. Tho I am sure that I can vouch that there has not been any improvement in it. What a tragedy that the President put Hamilton Jordan as his head man. In my opinion he is not the man for the job. Why?

Tho I will give him a big boost for firing Schlesenger, head of the Energy Department. He was just a blank.

I was at De Leon Thursday getting a hair cut and Luke was there. The barber call Luke "Okra". Luke wanted to know what he meant. The barber said "Your head is as slick as boiled okra". Luke turned red in the face and began coughing. The barber beat him on the back and asked him what was wrong? Luke said "I swallowed my -- tobacco". All there, sure laughed. Tho Luke did not seem to agree with the gang that was there.

The barber offered to give him a free hair transplant. He got his stapling outfit out and Luke just got out of the chair in high gear.

It would be a tragedy if our Country should elect Ted Kennedy president. He is so liberal that our Country would soon be worse off than England. Read your papers and study his character and all that are running for the Presidency.

Look up, smile and thank the giver of all things.

 **THE EXCITING RFM 7800 "TOUCH" CONTROL MICROWAVE OVEN** by Whirlpool

It's so easy it makes cooking a joy. With a touch of your finger, you tell the RFM7800 exactly what to do and it remembers. Naturally, it cooks by time. Just set any combination of 4 cooking cycles - including defrost - and it does the rest automatically.

Or if you'd rather cook to the temperature of MEAL SENSOR* probe, no problem. Just set any of 9 different pre-set temperatures, and the oven cooks your food until the probe senses the selected temperature.

But what's really beautiful about the RFM7800, is its ability to cook to a selected "serve time." All you do is tell it how long to defrost, and cook, and when you'd like it ready. An end-of-cooking signal sounds when the pre-set "serve time" is reached.

All this and a choice of ten cooking powers. A digital MEAL-TIMER* clock. The Whirlpool Micro Menus cookbook with recipes tested and approved in conjunction with Better Homes & Gardens Test Kitchen. And a Cooking School class to show you how to make the most of it all.

The Senior Citizens Bazaar Committee met this week to plan the annual event and special activities. At the committee meeting it was decided to let the Bazaar be rotated among towns in the county. The Committee is also working on some special activities to be held in connection with the Bazaar. These will be announced at a later date.

The Bazaar exhibitors must be 60 years old or older and residents of the county. The exception of this rule is that any handicapped person 50 years or older may exhibit and sale their handmade articles.

Inflation affects your electric bill even more than your grocery bill.

Every time you go to the grocery store you can see what inflation's doing to your food bill. But because you don't buy electricity by the can, you probably don't realize how inflation affects the cost of electricity.

Fuel costs are up, particularly natural gas. Equipment costs are up. Power lines, transformers and poles cost us more every day. Just like milk costs you more every day.

The millions of dollars we must borrow to build plants to ensure your electricity needs in the future are costing us more.

The cost of building these plants is higher, too, because of inflation. And because of the time and money it takes to comply with an ever-increasing number of government regulations. The longer it takes to build, the more inflation takes its toll.

Inflation, overregula-

tion and rising fuel costs are all making your electricity cost you more. But by using electricity wisely you can do your part in keeping that cost down in your home.

At Texas Electric, we want you to know what you're paying for.
