

## Duke, Duchess Draw Applause In Miami Visit

MIAMI, Fla., Dec. 10 (AP)—The Duchess of Windsor, looking smart and chipper despite a seriously infected tooth, arrived in Miami today with her royal husband for a major dental operation.

The duke and his American-born duchess arrived aboard the yacht Southern Cross and went through the formalities of receiving dignitaries and talking with newsmen before they sped to St. Francis hospital for preliminary x-rays.

A crowd taxed police lines and blocked traffic in Biscayne Boulevard to get a glimpse of the royal couple as they left the same pier where President Roosevelt embarked a week before for a Caribbean cruise.

When the Windsors appeared on deck, a roar of applause rose from the crowd. As the duke and duchess left the yacht, steamships in the harbor sounded their whistles and coast guard planes roared a salute overhead.

The duchess appeared well and in good spirits as she stood beside Edward at his press conference. Neither referred to the fact that it was the fourth anniversary of his abdication from the British throne.

She was dressed in a smart fall two-piece ensemble of navy blue and blue cap with mercury wings of white-tipped blue.

Answering questions as to how she was feeling, the duke commented: "I think her appearance here answers that."

He declined to discuss the British war effort, with the remark: "I formerly was a free lance, but after all, I'm an official of the government now."

The royal party was greeted by Mrs. Mark Byron III, daughter of Gov. Fred P. Cone, Stephen Childs, British embassy representative, and Mrs. Childs, mayors and chamber of commerce heads of the Miami area, and a small group of other officials.

## British Claim New Victories In Africa

Churchill Happily Announces Success In Desert Offensive

LONDON, Dec. 10 (AP)—British forces in Egypt have raced 75 miles in a swift and continuing offensive to cut between the Italian positions in the western desert and have taken 4,000 prisoners in three days, official announcements said today.

Prime Minister Winston Churchill, formally announcing the offensive to the house of commons, disclosed that British units have reached the Mediterranean coast after penetrating Italian lines between the Italian bases of Sidi Barrani and Buqbuq, roughly 70 miles and 35 miles, respectively, inside the Egyptian-Libyan frontier.

His announcement coincided with a British African command communique placing the number of Italians captured since Saturday at 4,000 (roughly 5 per cent of the estimated 80,000 Italians within Egypt).

Churchill disclosed that the offensive had been delayed for about a month because of the necessity of replacing the warplanes which were detached from Africa to aid Greece.

Now, he said, the air force and navy are fully supporting the offensive, and he left no doubt that "we shall receive further news shortly."

He detailed two attacks on Italian fortified positions by forces of British, African and "Free French" troops under Sir Maitland Wilson. In the first of these, he said, an Italian general was killed and his second in command captured.

He declined to say, however, whether the Italian base at Sidi Barrani had been cut off.

The prime minister's ruddy face was beaming as he announced the successful opening of the campaign against Marshal Rodolfo Graziani's army which for months has been poised for an attack on Alexandria and Suez.

Woman Hurt In Auto Mishap

Mrs. Jack Lightfoot was treated at the Cowper Clinic Tuesday for injuries received in an automobile collision at W. 4th and San Jacinto streets Monday afternoon.

She had a broken collar bone and suffered a slight brain concussion.

She was riding in the rear seat of a taxi as passenger when it was in collision with another machine driven by Mrs. Lorena Pederson. The taxi was northbound on San Jacinto and Mrs. Pederson was westbound on 4th when the mishap occurred. She told authorities that the setting sun obscured her vision. Marshall Wiswell was driver of the taxi.

## Fuehrer Tells Mass Defeat Is Impossible

Cheering Munitions Factory Workers Hear Leader Speak

By LOUIS P. LOCHNER BERLIN, Dec. 10 (AP)—"We will defeat the entire world," Adolf Hitler shouted to cheering munitions workers today in a speech which admitted not even the remotest chance that Germany might fall short of her goals.

Bitterly the fuhrer pictured Germany as the champion of labor and the "have-nots" in a war between "two worlds"—between the "haves" and the "have-nots," between capital and labor.

Confidently, he declared, "whatever happens, Germany will be victorious."

The speech was studied with attacks on capitalism and the democracies, particularly with sharp jibes against Britain and her leaders.

The fuhrer reiterated his confidence that nothing in the world could stop Germany and declared that "once I have decided on my course I am filled with boundless fanaticism."

"Our capacity for work is our gold, our capital, and with it we will defeat the entire world," he declared.

Conflict in the world, he said, is a conflict between "haves" and "have-nots."

He opened to new prospects as to the immediate future except that the fight would continue relentlessly.

In the war he said "we stand fortified against every eventually."

He taunted the British with talking "about my missing the bus."

Well, I got there just long enough ahead to climb aboard before the British. Whenever the German soldier stands, nobody else can get."

Hitler got a round of applause from his audience when he said "the time for the final struggle is determined by us. I am always careful x x x. We can afford to wait. The German people will appreciate it more if I wait and thereby save lives."

"x x x The world must recognize," he said, "that there can be no defeat in Germany, either military or economic, due to long duration" of the war.

"I speak very seldom now," Hitler began, "first because I have See HITLER, Page 8, Column 2"

## Baptist Leaders Assemble Here

Approximately 150 Baptists met here today at the East 4th Baptist church to coordinate a drive for increased Sunday school membership throughout the Big Spring association.

Associational work has been decentralized, the Rev. A. B. Lightfoot, assistant pastor of the East 4th church, said.

Heretofore, one state-wide meeting has been held, but this year it was decided to break the drive into 110 association conclaves in December.

Churches represented in the district meeting are Forsan, Garden City, Tarzan, Midland, Prairie View, Stanton, Goldsmith, Cosmona, Odessa and Big Spring.

Among speakers were the Rev. J. M. Sibley, Sweetwater, Mrs. O. E. Harris, Dallas, and Dr. J. W. Bruner, Fort Worth, who are coordinating the state-wide program.

The Rev. Sibley spoke on a platform of progress, Mrs. Harris on associational officers, and their work. Others on the meeting program include the Rev. John T. Kee, Odessa, the Rev. Marvin Leach, Forsan, the Rev. N. W. Pitts, Cosmona, and the Rev. C. E. Lancaster, Big Spring.

Plans for the year were to be talked in an afternoon session by the district missionary, the Rev. W. C. Harrison, Odessa, and the Rev. R. E. Dunham, pastor of the host church, was due to give the associational report and a challenge to carry out the program.

Dr. Bruner and the Rev. B. A. Rogers, Immanuel church, Odessa, were to appear on the program with these departmental leaders Mrs. Joe Hamilton, Odessa; Mrs. Vernon Logan, Big Spring; Mrs. J. E. Nell, Odessa; Mrs. V. Phillips, Big Spring; Mrs. N. W. Pitts, Cosmona; Mrs. R. E. Dunham, the Rev. Lightfoot, the Rev. Fred McPherson, Midland, and the Rev. Z. C. Chambliss, Goldsmith.

## Barrels Rolled Out - - Salvation Army Collects Food

Major L. W. Canning, commander of the Salvation Army has rolled out the barrels for collection of food for the needy.

Today he was busy placing brightly-painted barrels in Big Spring grocery stores to receive donations of food from the public.

Major Canning suggests that it will be little trouble for the grocery shopper to buy an extra can of this and an extra pound of that

to be placed in the barrels for Christmas dinners for unfortunate people.

The Salvation Army commander at noon had placed barrels in Linck No. 1, George O'Brien, B. & B. on Scurry, and Robinson and Sons groceries. About eight other barrels are to be distributed.

He had no more than rolled the barrel into place when contributions began dropping into some of them, said Major Canning.

Collections of food in the barrels will supplement money being collected in traditional Salvation Army kettles in downtown Big Spring. These kettles always bring in \$400 or better, and when he's feeling optimistic, Major Canning hopes to reach \$500 this year. Collections thus far are running slightly ahead of last year.

Returning the groceries here were Policemen A. W. Crocker, Red Williams and Deputy Sheriff Denver Dunn.

## PERCENTAGE COLLECTION OF TAXES GAINS

Percentage collections on the county tax roll increased during November, figures released Tuesday by Tax Collector John F. Wolcott, showed.

Total ad valorem collections handled by his office during November were \$3,991,97. Of this \$2,477 went to common school districts, \$3,382 to the state and \$3,131 to Howard county.

Current collections to Dec. 1st stood at \$162,361, or roughly 68 per cent of the current roll.

During the month, when a two per cent discount was offered on payments, tax payers earned \$105.82 in discounts, boosting the discount figure for the season to \$4,709.

December payments will merit one per cent discount and those in January get no discount, but taxes must be paid not later than Jan. 31 or go delinquent and be subject to interest and penalty unless paid on the half-and-half plan.

## Private Gets Decorations Quick Way

HATTIESBURG, Miss., Dec. 10 (AP)—Capt. Clarence Loeschler, Battery D (Lima, O.) of the 136th field artillery at Camp Shelby summoned Pvt. Paul Patterson to his tent to issue an order.

When Pvt. Patterson stepped in and saluted, "Captain Loeschler's eyes," he "bugged."

"Pvt. Patterson's blue denim overalls in which he was working were neatly covered with medals—sharpshooter's medal, field artillery medal, automatic rifle marksmanship medal, machine gunner's medal and a pistol medal.

"Patterson, where did you get those medals?" the captain asked. Patterson drew up and swelled his chest.

"Won them, Sir," he replied, proudly.

"How, Patterson," inquired the captain, puzzled.

"Shootin' craps, Sir," said Patterson.

(P.S.: Pvt. Patterson does not wear his medals any more.)

## Negroes Face Theft Charges

Felony theft charges were brought Tuesday against three negroes, reportedly operating here and at San Angelo.

Those charged were Neal Willie Evans, Charles Hardin and Beulah Mae Garnett.

They were arrested in Sweetwater on advice from local police. Officers obtained a quantity of material, reportedly missed from local stores, after they made affidavits to that effect. Sunday Sweetwater officers would not release the loot until Big Spring and San Angelo officers made the affidavits.

# There's Knack To Wrapping Packages . . . There Must Be!

"JINGLE BELLS" . . . The man-of-the-house whistles while he wraps his Christmas gifts. He can do it himself, thank you. Women make too much fuss over the fancy wrapping racket. Look at those big seals to cover up any rough spots. It's a slick.

DIRECTIONS ought to come with this stuff. It's not so easy to handle, you know. And when it sticks to your fingers and clothes, it'll get the hang of it in another minute, by gum. Those designers of fancy papers ought to be more careful about the weight of the paper. Look at those bulky corners. But in another minute, everything will be under control.

MORE LIKE IT. A man who can criss-cross that sticky tape is good. But it sure holds the package together, especially if you add enough stickers (and there are so many varieties). Now to cut the wrappings.

IT'S WONDERFUL what those big silver stars do for that brown wrapping paper. They sure help the looks of the outside of the package. And the giant polka-dots are favorites of the girl friend. It takes an artistic eye to figure out just where to put them, you'll admit. But they ought to flavor that gun.

SOMEBODY should have wanted this string. That groceryman had no business giving away such cheap stuff. And they're making the entire lot too long. Those cheap skates didn't put enough stick-on on the skates.

NOW, HOW DID THAT HAPPEN? No intended that tag to be the life of the package—something downright individual in Christmas messages. Well—it's a good package, anyway. Takes something out of a fellow, though. But that tag—it's got to go. Hey, is there a package wrapping outfit around here?

# Miss Laneau's Notes

By MARY WHALEY

We have it on good authority that when you go deer hunting, getting the deer is just a minor part of the affair. It is the thrill of tracking down the animal that furnishes the fun, not the result of the trip.

Of course, this is just one woman's opinion on the subject, but it looks to us like by the time we had gotten up before the sun, seven miles in cold and discomfort, and then tramped the hills carrying a heavy gun, we would like to get some more out of it than a sore throat and blisters.

Where the fun comes in when a man has walked more miles than he would dream of in a city, rubbed a blister on his heel from his heavy boots, and scratched his hands on thickets and comes home as deer-less as when he left, is a mystery to our female mind.

But, it seems that crouching for hours behind a tree waiting for a deer to come along is fascinating. Loading the gun with cold-numbed fingers is exciting, and missing the prey is best of all.

Because then you can tell about the one you missed and it can be as big as you want it to be and nobody can complain. They have no proof. Only one hunter's word against another's.

Far be it from us to rail against anyone with ambition to get up early enough to go deer hunting but it does seem pointless, and we aren't allergic to deer meat either.

# Morgenthau Asks Investors To Aid Armament Work

## Fully Taxable Defense Notes Placed On Sale

WASHINGTON, Dec. 10. (AP)—The government invited investors today to enlist in the national preparedness drive by subscribing to a fully taxable \$600,000,000 issue of defense notes—the first wholly taxable federal issue in U. S. history.

"People who have the money should be delighted to pay this when the money goes for national defense," declared Treasury Secretary Morgenthau at a press conference yesterday and said it was unfair for a "man who owns \$1,000,000 in tax free obligations to spend his winter in Palm Beach and make no contribution to pay for national defense, while we ask our boys to work eight to 12 hours a day in army camps for \$30 a month. x x x

"We feel that we should draft all money—that is, that all money should pay taxes toward the defense program."

Emphasizing that he spoke for President Roosevelt, Morgenthau said the half-billion dollars worth of notes to be offered tomorrow was only a starter in the program of making government securities subject to full taxation.

Congress, he said, would be asked for authority to lift the tax exemption clause from all future federal bond issues, including United States savings bonds and government-guaranteed obligations.

Further, the treasury will seek congressional permission to launch a nationwide campaign to sell "baby bonds" in denominations as small as \$5—possibly even to sell bond stamps at 25 cents each, as was done in World war days.

And the dignified cabinet member nodded approval to a suggestion that the bond-selling drive revive the 1917 custom of encouraging pretty girls to give away kisses to the bond-buyers.

## Forsan To Have A Busy Yule-Tide Season

By AQUILLA WEST  
FORSAN, Dec. 10.—With Christmas just around the corner local Sunday school classes, schools and clubs are preparing entertainments.

The season will be studded with socials in keeping with a custom of the community, and even the husbands will be special guests at some of the affairs. Decorations are following the Yule trend and drawings of names in many organizations has been effected as a means of sparing the budget.

Each of the 21 classes of the Baptist Sunday school will have socials, according to the Rev. Marvin Leech and C. V. Wash, superintendent. Children's classes at the Church of Christ will celebrate with a party, according to T. L. Campbell, minister.

Perhaps the largest and most beautiful affair of the holiday season will be the annual tea of the local Study Club at the home of Mrs. Harry Miller. It is to be staged Wednesday between the hours of 4:30 p. m. and 5:30 p. m. and Mrs. Miller will be assisted by the social committee composed of Mrs. J. D. Galt, Mrs. C. C. Kent and Mrs. C. B. Connally.

Mrs. E. K. Sawdy was hostess to the Sew and Chat Sewing club at her home on the Pure Oil Co. lease at Chalk last Friday when husbands were guests.

Although there will be no community Christmas tree, each school room is to be decorated and room parties held. On Dec. 17 the P. T. A. party is scheduled with Mrs. R. E. Blount of Big Spring as guest speaker. "The Birth of Christ," a pageant, will be presented by the seventh grade under Barnett Hinds.

The Faculty club is to entertain this week prior to Christmas in the home economics department, and wives of teachers other than those who teach, will have charge of arrangements.

Club parties include those by the Pioneer Bridge unit, which enjoys the longest existence of any in this area. Mrs. Lloyd Burkhardt is president and indicated the club would have the Christmas social in a Big Spring hotel. If it is a dinner affair, husbands will be guests. Similar plans are in prospect for the Happy 12 club, said Mrs. Bill Conger, president. Husbands will be guests at the Good Luck Sewing club social for which Mrs. L. B. Barber will be hostess.

The El Principe Cinco, a small sorority of high school girls, has a Christmas party booked as does the Quilting club, which has not completed arrangements.

## SANTA and the GIANT-KILLER

### Chapter Eight FIND HAVOC WROUGHT BY CHIMNEY WITCH

Santa and Eric made a circle in the air over the Toyshop chimneys before their sleigh settled down on the snow. Santa peered out and exclaimed, "Good gracious! Look!"

Eric looked and saw that the Toyshop was a brown, low building with wide roofs. Great fir trees grew all around. But the chimney was broken off close to the eaves and red bricks lay scattered over the snow.

He could see little gnomes—chubby little men with long ears—running around excitedly. He saw Mrs. Santa in a red dress waving up at Santa's sleigh as though she wanted him to hurry.

The sleigh had no sooner settled in the snow than Santa hopped out like a boy and ran to Mrs. Santa, shouting, "What has happened?"

Eric followed and heard Mrs. Santa say, "Oh, I'm glad you're back. The chimney witch is here again. You should see the dolls."

"Dear! Dear!" said Santa. He ran into the Toyshop with Mrs. Santa and Eric followed. They saw several dolls with broken arms. Some of them couldn't even walk because they had broken legs. And over the whole Toyshop there was a thick coat of soot. It streaked dolls' dresses and blackened the dolls' cribs.

Visitor Presented  
"Good Gracious!" said Santa. He sank into his big armchair by the fireplace and picked up one little doll that was holding out her broken arm to him.

Mrs. Santa sank into a chair opposite him.

"Oh," said Santa looking at Eric, "we have a visitor, Mrs. Santa. This is the lad I told you about."

Eric bowed and Mrs. Santa managed a bright smile for him. But she was so worried about the witch that she started right in to tell Santa what had happened.

"It was just an hour ago," she said. "The tin soldiers wanted to try those new fire engines. They hooked together all the ladders and stood them up inside the chimney. They started to climb up. But the first thing I knew one tin soldier fell back into the fireplace all bent and twisted. Then all of them fell back."

"Clouds of soot poured into the room. We tried to close up the fireplace, but then the witch slipped in a window behind us and pushed all those dolls off the shelves. Now we can't find her."

Mrs. Santa stopped talking and all over the Toyshop there was a fearful murmur of little dolls. The doll fairies flew around putting them to bed. Santa's fingers flew as he talked. In a twinkling he had made another arm for the doll on his lap. Then he moved over to his workbench to fix the other dolls. But his forehead was wrinkled with worry.

"No Telling When"  
"You see, Eric," said Santa, "there's no telling when that witch will be back."

"Is there no way to catch her, Sir?" asked Eric.

"We've tried other times," said Santa. "But she is a chimney witch and she can set fire to any trap we make."

"Could we shoot her?"  
"Yes. But no one here is swift enough," said Santa. "She can change into a puff of smoke quicker than you draw breath."

"Where does she hide?" asked Eric.  
"We're not sure. But when she's angry like this she usually comes back at midnight to do more mischief. She slips down the chimney," said Santa.  
"Then I will try to shoot her at midnight," said Eric.  
"If you try, and fail, she will bewitch you," said Santa.  
Eric laughed. "I'm not afraid."

TOMORROW: The witch is caught.

SANTA PEERED OUT AND EXCLAIMED, "GOOD GRACIOUS! LOOK!"

# Top College Boys Sought By Chicago

WASHINGTON, Dec. 10 (AP)—The Chicago Bears, who staged one surprise with their 73-to-0 massacre of the Washington Redskins a few days ago, pulled another today by bobbing up with first call on the services of Tommy Harmon and "Jarrin" John Kimbrough in the annual draft of the nation's top-flight collegiate football players.

Deals made a year ago put the champion Chicago club in a position to take two picks before any of the nine other teams in the National Professional Football league get a single selection from the list of some 400 eligibles. The draft will wind up the league's two-day meeting.

Disclosure that the Bears would have first call today on the two most sought backs in the 1940 draft followed adoption of a new league rule last night to prevent any future skimming of the cream of the college stars in the future by a championship team.

The new rule, effective with the 1941 draft, prohibits any team from trading or selling its first or second choice draftees for one year without consent of all other team owners, and retains present regulation which puts the team finishing first last in selection privileges.

Trades previously made with the tail-end Philadelphia Eagles and the last division Pittsburgh Steelers—who changed ownership at yesterday's meeting—gave the Bears the edge in today's draft.

George Halas, owner of the Bears, expressed the opinion both Harmon, of Michigan University, and Kimbrough, of Texas A. and M., would be valuable additions to any team.

# Golden Glovers Plan Workout Schedule

AL MCCOY, New England heavyweight and an 11-year ring veteran at 26, gets a shot at Joe Louis in a championship match at Boston December 16. McCoy's record this year shows a knockout victory over Nathan Mann and decisions over Mello Bettina, former lightweight champ, and Buddy Knox. Billy Conn recently outpointed him.

## Amateurs Will Train In Ring At ABC Park

Preliminary arrangements for a training schedule were made at a meeting of Golden Gloves contenders and their trainers Monday night at ABC park.

According to tentative plans, the amateur boxers will go through a workout session every night at the park except Wednesday and possibly Saturday. Bob Stinnett and Kid Whittington, both ex-pro fighters, will be on hand to step through paces with the boys. Ring equipment is installed, gloves are available, and a good turnout of simon-pure battlers are on deck for training before the Herald-sponsored district tournament on January 20-21.

Sonny Peach, middleweight, signed up for competition to take a spot as one of the outstanding contenders. Peach is an ex-Army scrapper and Golden Glover with fifty bouts under his belt. In his one year of boxing under Golden Glove sponsorship, he moved to the top in the state. Last year he was stopped by Andy Eagleton, Texas' top-ranking Golden Glove middle, in a close combat.

Another fighting soldier, Brady Piper, entered the ranks of hopefuls. Piper is also a middleweight with twenty amateur bouts to his credit. He is a stockily built lad but carries a punch to make up for what he might lack in reach.

Marshall Hamilton, Fort Worth District Golden Glove champion in 1939, has definitely decided to come out for a shot at the district tourney. Hamilton is a bit overweight for the feather division at the present, but is grinding off the fat with a stiff conditioning process.

Owen Brummett, rugged Big Spring footballer, is taking his power into the Golden Gloves roundelays. Brummett, a 135-pounder, has had one year of Golden Gloves experience. Year before last he went into the district finals before being stopped.

Other boys signing up Monday night were Billy Jackson, 16-year-old 112-pounder with three bouts under his belt; Ollie Deal, welter with one year of Golden Gloves competition; and Jack Franklin, welter.

Unless plans are changed, Melcolm Bridges will take a crew of boxers to Sweetwater Friday night to see what the boys back east have in the way of ring class.

Prospective Golden Gloves contenders are urged to get on the dotted line as soon as possible in order to be in shape for fast rounds on tournament night. Stinnett pointed out in a brief talk at ABC park that he was looking forward to a stand-out year for boxers in the Big Spring district, provided all contenders would come out in full strength.

Mauna Loa on the island of Hawaii has poured out more lava in the last century than any other volcano.

## Looking 'em Over

Jada Davis, Odessa sports writer and one of Big Spring's heartiest critics, comes out with the statement that Big Spring refuses to recognize a press pass. This department is of the opinion that there is right on both sides, but difficulties could be ironed out if a little light could be thrown on the situation. If some definite arrangement could be made in regard to admitting scouts and scribes to the field, and such arrangement clearly understood by all concerned, we think that, with a little reasonableness on both sides, the inconvenience could be erased.

Big Spring seems to be the main offender in the difficulty, according to visiting newspapermen and scouts. There is a definite rule for the problem but there are times when a man in a hurry overlooks some of them. We believe that the rules should be observed, but a man who has been vouched for by one who knows should be admitted without a lot of hand-waving and sarcasm.

We have never had any trouble being admitted to a football game in the district but have had some experience in trying to get men in who, were to our certain knowledge, bona fide members of the working press.

But, we would like to make it known that Big Spring officials do recognize a pass when they see one and are no more apt to wroop it for the cash and bulldoze the pass carrier than the next fellow.

## Temple Rates Top Among Unknowns

By The Associated Press

Big Jovial Les Cranfill has made quite a record as coach of the Temple Wildcats.

The Hardin-Simmons product, in four seasons, has produced three district champions—and Temple fans will tell you there would have been four had not the school been on the interscholastic league's suspended list.

Cranfill declared at the start of the current season that his squad was nothing like as strong potentially as the intelligibles of 1939. Yet today Temple is in the quarter-finals of the state race and getting better every game.

Temple had to remain out of the league all last season because of rules violations. The team had a good record although it played non-league members, junior colleges, etc.

In 1937, Cranfill's first season as coach, the Wildcats tied Waco and Cleburne for the lead and were awarded the pennant on the basis of better statistics than the other two. That year the Cats lost to Longview in the quarter-finals.

In 1938 Temple got into the semi-finals after upsetting the favored Tyler outfit, then lost to Corpus Christi in a great battle.

The other day Temple beat Stephenville on penetrations in a 7-7 tie when most of the experts had picked the Yellow Jackets to win.

Friday afternoon the Wildcats meet Longview. Again they're in the quarter-finals and again Longview is favored to come through. But Temple has one of the heaviest teams in the state, a squad just now finding itself, and a lot of fur is due to fly when Wildcats start battling it out with Lobos at Temple.

The Wildcats are pally named "the comeback kids" of the season. Rated next to Waco and Corsicana in the district race, the Cats immediately made the fans and critics forget all about them by dropping the first four games.

However, those losses were to some of the best teams in the state—Robstown, Brackenridge (San Antonio), Austin and Bryan. Then the Wildcats started to click. They swept through the district campaign like a whirlwind. The tip-off came when they beat Corsicana by two touchdowns. Next they crushed Waco 25-0 in Waco.

Paced by Ed Dusek, 180-pound back with a touchdown complex, the Wildcats look as tough as they come. That ponderous lien has given up but 14 points in the last six games. Those games marked the beginning of the Temple football team. The other four just didn't count.

## Majors Open Annual Winter Bull Session

CHICAGO, Dec. 10 (AP)—Baseball's major league club owners opened their annual winter meeting today amid rumblings of a possible blast of legislative action and the still gentle murmur of trade winds.

As managers continued their uncounted huddles over disposition or acquisition of playing talent, American and National league moguls entered separate sessions to consider several problems in their respective circuits. They ranged from a move toward rekindling the no-trade rule imposed last year on the American league championship club, to extension of a new contract for the game's commissioner, Kenesaw M. Landis.

No decision on another term for Landis will be made until the joint session of the leagues tomorrow or Thursday. But the National league owners were expected to discuss the problem and the American league has ready a formal resolution that a new contract extending to 1946 be given the 75-year-old Landis, whose present contract has another year to run.

There was a prospect of a hot battle over the rule which prevents the American league pennant winner from inter-league trading. Connie Mack, veteran manager of the Philadelphia Athletics, said that his club would vote to retain the present no-trade regulation, which he called "the greatest rule we've ever had."

Chicago, New York, Boston and Detroit were expected to vote for its abolishment.

The night baseball question was expected to bob up with a bang. The National league has prepared a resolution to prohibit any major league club from playing more than seven night games a season at home. The American league last year gave St. Louis permission to play 14—and the Browns drew more fans in those 14 after-dark contests than in 53 home day-light appearances.

## Cowboy Back Rates Little All-America

NEW YORK, Dec. 10 (AP)—One player each from the East, the South, the Southwest and the Pacific Coast make up the backfield of the annual "Little All-America" football team named today by the Associated Press.

## Westbrook's Girls Battle Forsan Sextet

WESTBROOK, Dec. 10—Fresh from triumphs which gave it another tournament championship, the Westbrook girls' basketball team will play at Forsan tonight.

Last weekend the Westbrook sextet romped off with the Divide tourney, never being pressed to win. In the initial round, Divide fell by a count of 35-23, then Denton dropped by a 32-17 score while Pyron was vanquishing Blackwell, 27-26.

Even in the championship game the Westbrook girls were not extended, for they won handily, 31-18. Denton beat Blackwell for third place, 31-27. Eola won over Divide for consolation by a 42-34 tally.

Dollie Mae Davenport, guard, and Sara Bolin, forward, placed on the all tournament team. This weekend the girls will participate in another tournament at Lawn near Abilene. The tournament starts on Friday and continues through Saturday.

## Alice Marble Leads Ballot Of Popularity

NEW YORK, Dec. 10 (AP)—Mr. Harmon, meet the new champion, Miss Alice Marble of California and New York.

Yesterday it looked as if Tom Harmon had won a pretty decisive triumph in being named No. 1 male athlete of the year in the Associated Press poll. But the Harmon landslide shrinks to a small pebble rolling down a small hill compared with today's vote for Miss Marble as outstanding woman competitor of 1940.

Seventy-two sports experts throughout the country took part in the voting. All but seven put the tennis queen, also the winner in 1939, at the head of the list with 216 points.

There hardly was a second. This distinction, in any event, was won by cheerful Betty Jeamson of San Antonio, Texas, who got four firsts and 89 points for the quite considerable feat of winning the U. S. women's golf title for the second year in a row.

Only five others got more than three points. They were Marjorie Gestring, Los Angeles diving star, 31 without a first-place vote; Betty Berg, Minneapolis golfer who, like Miss Marble, turned pro this year, one first and 23 points; Babe Didrikson-Zaharias, western open golf winner, two and 15; Lorraine Fisher of New York, swimming champion, none and 9; and Katie Rawlis-Thompson of Florida, swimming, none and 4.

## Class A Play Ends Friday

Death Valley, once an area of thirst and grave danger, was visited by 80,842 persons in the 1939-40 season.

MUSICAL BOND—As one musician to another, Jan Paderevski, Polish pianist-statesman, wishes Marjorie Lawrence, Metropolitan opera soprano, luck on her N. Y. concert that's a Bundles for Britain benefit. He also bought tickets.

## Army To Call Up 20,000 Officers

WASHINGTON, Dec. 10 (AP)—The war department announced today that it now appeared that it would be necessary to order approximately 20,000 additional reserve officers to extended active duty before next June 30.

By the end of this month, the army said it expected to have almost 30,000 reserve officers on active duty as a result of the tremendous expansion of the nation's land forces.

"In view of the constantly changing situation," the department said, "it appears to be impracticable to give individual reserve officers definite information as to the exact dates they will be called for active duty. However, all corps area and department commanders and chiefs of branches, have been directed to provide reserve officers under their jurisdiction with as much advance notice as possible."

# 1941 Scout Work Planned

## Leaders Meet To Consider New Activities

Scout leaders of the Big Spring district took preliminary steps Monday night toward organization for 1941 and looked ahead to the annual Buffalo Trail council gathering here Jan. 17.

Albert Darby, camping and activities chairman, gave a resume of scouting affairs for the past year, including the mobilization last Thursday and the subsequent gathering of clothes and toys by Boy Scout troops. He also suggested troop camps in a district group during the Christmas holidays.

Organization of a sea scout troop and contemplated organization of troops at Foran and Midway were outlined by Nat Shick, organization chairman.

B. Reagan, W. C. Blankenship and Dr. C. W. Deats were named as a committee to return nomination for a 1941 district chairman. Walter Wilson was designated to head the Big Spring attendance committee for the annual council banquet. Details of the council index chart, which showed how the local council stands in comparison with other areas in the nation, were explained by S. P. Gaskin, area executive. Dr. W. B. Hardy, vice-chairman, presided in the absence of District Chairman Carl Blomfield.

## California Will Quit Rocker Shift

DEL MONTE, Calif., Dec. 10 (AP)—The University of California's famed rocker shift—a bone of contention over which rival football coaches have snarled for years—was buried today in the vaults of the Pacific Coast conference.

Chinching what undoubtedly was a stormy session last night, Head Coach Leonard "Stub" Allison of California agreed not to use the peculiar bobbing line movement in future campaigns.

The up and down action, which some coaches contended drew opponents offside, intentionally or not, was used mainly by linemen, less frequently by the back field.

The Tampere iron and linen works in Finland has recently received a million-dollar order from the Soviet Union for turbines and machinery for a power station to be built at Enso. (Enso is in the territory ceded to the U.S.S.R. by the March peace treaty.)

## Powerful Lobby Group Will Support Texas Safety Laws

(Herald Austin Bureau)

Austin—If members of the 47th Texas legislature want to play safe, they will enact in toto the five point program of the Texas Safety association.

Behind that program will be the most effective lobby known to legis-

lative experts—the women of Texas. Lawmakers who expect to come back to succeeding legislatures know what they are up against: Women have a way of remembering how a lawmaker voted.

In charge of lobbying for the

safety program will be Mrs. Joseph Perkins of Eastland, past president of the Texas Federation of Women's Clubs. United with the federation will be the Texas Congress of Parents and Teachers. The women are confident they will succeed.

The confidence was epitomized the other day in a question put by Mrs. Perkins before the C. I. T. Seminar of Safety:

"With 200,000 Texas women talking for the safety program, who is going to oppose us?"

The program, drafted by safety experts after much study, includes the following objectives:

1. Strengthen the driver's license law.
2. Provide adequate highway patrolmen.
3. Revise the present speed laws.
4. Revise the drunken driver law to insure certainty of punishment.
5. Set up a uniform accident reporting system.

The proposed driver's license law will provide for rigid examination of applicants and authority to revoke or suspend for good cause. Licensees will be required to pay a fee of 50 cents a year or \$1 for two years so that the money will not be required to finance the driver's license division.

An increase in the highway patrol will be urged to give "visible control" of traffic. Safety experts point out that drivers are always more cautious when they know a patrolman is on duty. An additional 200 patrolmen are needed to do an adequate job of supervising Texas highway traffic, according to W. H. Richardson, chairman of the Public Safety commission.

The present 45-mile speed limit, it is observed, is ignored by the great majority of people who drive over state highways. The proposed act would raise the speed limit to lessen congestion and facilitate the flow of traffic. The act would allow 60 miles per hour on open highways in daytime, 50 miles per hour at night, and 30 miles per hour in any business or residential district.

It will be proposed that the offense of drunk driving be made a misdemeanor instead of a felony. This, it is believed, will insure more convictions, therefore more punishment, which would discourage drunken drivers. At present, it is difficult for a prosecutor to obtain convictions for drunken driving because most people are reluctant to brand a fellow citizen a felon.

A law to require reports of accidents will be proposed. Its purpose will be to obtain accurate data on the causes of accidents so that safety experts may proceed intelligently in removing the causes.

## Mexicans Steal Electric Power

MEXICO CITY, Dec. 10 (AP)—In the federal district, where clocks have been advanced an hour and drastic restrictions imposed to save electricity, more than 450,000 kilowatts of electrical energy are stolen from power lines daily, Javier Gaxiola, minister of national economy, declared.

The minister added that a special force of inspectors would be created to deal with the problem of stolen current and that punishment for offenders would be "extremely severe."

## Brazilian Officers Study U.S. Army

SAN ANTONIO, Dec. 10 (AP)—An inspection and study of the military establishment of the United States army was begun at Randolph Field today by Gen. Amaro Soares De Bittencourt, deputy chief of staff of the Brazilian army, and Lieut. Col. Stenio Lima of the Brazilian general staff.

The visiting army officials were met at Laredo yesterday by Brig. Gen. W. H. Simpson, chief of the infantry section of the second division, Fort Sam Houston, and following a military review staged at Fort McIntosh, near Laredo, were escorted to San Antonio by Texas state highway patrol officers.

The United States contains about 319,000,000 acres of arable land.

## The Effects Of Liquor Cannot Be Repealed

### A QUEENLY GESTURE

Information from sources we believe to be entirely reliable reveals that Queen Elizabeth of England has decided to abstain from using or serving wine during the period of the war. While it would be gratifying news to read that she had decided against wine for all time, it is still a very commendable gesture on her part. It is to be hoped that millions will follow her example, not only in England, but throughout the world. No one dare ponder lightly over all the implications of Her Majesty's wise and gracious decision. If the queen of a great commonwealth of nations can take this step, why cannot others in less prominent places do likewise?

### PRICE OF MOONSHINE

A liquor trade-journal carries quite a story complaining that the price of moonshine, fresh from the canebrakes of South Carolina, has jumped from \$4 a gallon to \$8 a gallon. Why the "regular" liquor men should complain about the price of moonshine doubling in price is a little difficult to understand, unless they are trying to conjure up another charge against the Drys. But the Drys can't be bothered if the price of moonshine goes up to \$80 a gallon. The Wets promised, when they asked for repeal, that they would do away with the makers of illicit liquors and bootleggers. Why don't they make good?—Submitted by and published at the request of the local WCTU.

Gasoline Stocks

The Chamber of Commerce of the United States, in its Washington Review, takes issue with the commission's recommendations. The USCC points out that shut-down refinery capacity is greater today and more efficient than its entire capacity in 1917.

The Chamber of Commerce of the United States

With the oil and refining industries at the advanced stage that they are, it seems a bit premature to load up all available storage space, particularly when gasoline stocks always constitute a real threat to the stability of the market.

THE PAST UNFOLDS

The tradition apparently is inspiring, for you have only to hang around the corridors these days to have some senator buttonhole you with stories of the last senate to occupy the room.

Man About Manhattan

only tame lions you find are in Africa. The trouble with Hollywood lions is the treatment they get. Lions are no different from other guys. They don't like guys standing around with whips and guns in their hands, taking pictures.

Hollywood Sights And Sounds

can three Lane sisters discourage? He got his answer in "Four Daughters" and the sequels, in various of their solo flights. And he still is getting it in Rosemary's personal appearance trip.

The Herald's Serial Story

Chapter 17 BAFBLING "Then she didn't know? Did you ever help her to look for it, Thomas?" It seemed hopeless, but I kept trying.

Thomas looked really embarrassed this time and stammered and finally came out with, "Well, no; that is, not exactly." "What do you mean, not exactly?" "Well, Miss Sally, ma'am, sometimes I sort of looked for it myself, seen 'em how anxious you gran'ma was to find it."

Who Killed Aunt Maggie?

first thing I saw on entering Alice's room was her quilted bed thrown over the foot of the bed and, even without comparing them, I knew that my sample was of a much deeper shade.

Life's Darkest Moment! EXCUSE ME, SIR, BUT COULD YOU TELL ME IF THERE ARE ANY LARGER MOPS DOWN STAIRS? DOWN STAIRS??

By Medora Field

not one of us has an alibi. Murder is had enough in any case, but think what a mare's nest this is going to be when the police start trying to prove each one of us guilty. That is no doubt the line they will take.

By George Tucker

While he was spinning these yarns Harry got around to the modern western movie. We asked him if he thought the horse operas had improved in the last 25 years and he shook his head.

By Robbin Coons

Ever hear Harold Lloyd's nickname? It's Yabbe, and it's tacked on to a dog in Lloyd's girl-guy-goo (whatever the title is now) picture.

Declaration of war: On those shorts starring dance band leaders and their bands. One of the recent headaches added injury to insult by basing its "plot" upon the romantic appeal exerted by the leader—which was the more painful because the audience, rightfully, tittered throughout.

Comic strip panels with dialogue: "WHATCHA GOT ME, ALBERTO? PUSH CURTAINS!", "HOLY SMOKE! WHY, IT'S A LITTLE LORD FAUNTLEROY, OUTFIT! PUSHPANTS, SASH, PUMPS, AN' AN' A LACE COLLAR! NIX! IT'S OUT!", "OH, OAKY, I WANT TO THANK YOU FOR THE BEAUTIFUL FLOWERS YOU'VE BEEN SENDING ME!", "I HAVE IT ALL FIGURED OUT NOW, DUCKEY-DUCKA KNOW! I'D LIKE A LOOK AT SOME OF JACK'S LETTERS TO HER...", "HOW MUCH DID THAT COST? I DIDN'T SAY YOU COULD BUY A BRACELET!!", "BUT YOU SAID I COULD BUY AN EXPENSIVE HAT! I'M GOING TO PAY THE DIFFERENCE BETWEEN THE HAT AND THIS BRACELET OUT OF MY OWN MONEY!", "YOUR OWN MONEY? JUST WHAT MONEY IS THAT—IF I MAY ASK?", "THE MONEY YOU'RE GOING TO GIVE ME—WHEN YOU GIVE ME SOME!"

**Ginnings Totalled 12,548 Bales As Of November 30**

Production of cotton in Howard county for the 1940 season stood at approximately 12,548 bales as of Nov. 30, the county AAA office reported Tuesday.

Total lint pounds handled to that date reached 6,035,548, boosted to that level by 962,205 net lint pounds of approximately 2,000 bales for the period from Nov. 16 through Nov. 30.

This did not include ginnings of out of county cotton, which normally runs to a few thousand bales over the county.

**Son Is Born**

**Hitler**

very little time.

"The struggle is one between two worlds.

"I want first to discuss western Europe.

"There we find 85,000,000 Germans, 46,000,000 English, 45,000,000 Italians and 37,000,000 French.

"Forty-six million Englishmen control 4,000,000 square kilometers, the French only 10,000,000, the Italians one-half million, while 85,000,000 Germans have as foundation for living only 600,000 square kilometers.

"Hitler then traced German history from the Thirty Years' war onward, stressing what he called dynamic selfishness and other factors which made necessary the bending of all energies toward internal affairs in Germany.

Meanwhile, he said "Britain put together a tremendous empire by force."

"We tried to solve the problems by appeals to common sense. We tried to bridge the chasm between those who had too much and those with too little.

"We preferred common sense to force. The right to live belongs to all nations. It won't do for one people to say 'we'll let you others take part in our life.' It isn't a question of charity. It is a question of obtaining one's rights.

"The right to live includes the right to soil.

"Bloody sacrifices are better than gradually dying off of nations.

"When we took over we demanded first national unity as this was necessary for giving us the necessary strength to satisfy our claims."

Hitler then traced domestic achievements of the Nazi regime. He said he tried to bring about national unity by an appeal to reason.

But during 15 years he was scoffed at as he worked his way to the top, he said.

"My second demand," he said, "was the removal of foreign political oppression as exemplified in the Versailles treaty whereby among other things, our colonies and possessions were taken from us.

"In other words, my second demand was to fight against Versailles. I said this even when I was still a soldier.

"The rest of the world didn't want our national unity, and it was determined to continue the Versailles system.

"American and English observers patently spoke of the haves and have nots. We English, we Americans, we French are haves, and whoever hasn't must remain satisfied with not having. To some, I was the representative of the have nots.

"Now again, I enter the fight as the representative of the have nots."

Hitler was interrupted here by a long burst of applause.

"It is interesting to observe," Hitler continued, "the mode of living of the rich. They had so-called democracy x x x.

"It is said this means rule by the people, ut when you look closer the people as such have not an opinion—it is placed before them. Now, who places this viewpoint before them? Why, it is capitalism!

"The slogan of liberty really means freedom of economy, namely for everybody to grab for himself without state control. Capital first makes the newspapers subservient. The Lord of the so-called free press is the man who supplies the capital, this press moulds public opinion. The papers appear according to political parties, but in reality there is no difference between them.

"There's no real opposition—the

opposition really holds the same view.

"Now one might suppose that in lands of freedom and democracy everybody lived in plenty. The contrary is true. Nowhere is the standard of the masses lower."

Hitler spoke of India especially where, he said, the direst poverty reigns.

"Rich America has 12 to 13 million unemployed annually," he declared.

"We want a state in which birth matters nothing and achievement means everything. Contrasted with this is the idea of our enemies—a fight for egoism, for capital, for individual and family privileges.

"Our enemies know that if they succeed then they have bought all their gold in vain, then family dynasties will be removed, and there will be a collapse."

**Stock Of Fish In Moss Creek Lake Enlarged**

Moss Creek lake now is about adequately stocked, and prospects are that there will be some good fishing in another season or so in the nearest city lake.

Frank Covert, pumper and supervisor of the lake grounds for the city, said that the federal fish hatchery had brought over another consignment of fingerling bass and channel cat for induction into the lake.

He estimated there were around 10,000 of the fingerlings, which added to the several thousand bass, crappie and other game fish placed in the lake last summer, will give the body of water a good supply of fish.

Later on the federal hatchery will cooperate by placing more fish in the lake, Covert said. However, for the amount of water now impounded, the supply is about adequate.

**Here 'n' There**

Five years ago a little old man with stiffened fingers got out his Stradivarius here and at times drew the sweetest tones from the violin most of his audience had ever heard. There was a small crowd—his appearance date had been confused—and after the concert he retired to his dressing room, almost in tears. Music lovers sought to console him, telling him how grand his tones had been. "No," he said, "they applaud, but they didn't like my music." A few days ago the little old man, Jan Kubelik, died in Prague, near the city of his birth. Always an artist with disdain for money, he died almost penniless—a broken man who had been one of the world's greatest violinists.

**Baptists Hear Wadzeck Talk**

Christmas should be a season for introspection, Woodrow W. Wadzeck, First Methodist church educational director, told the First Baptist Brotherhood gathering in the church basement Monday evening.

Men should examine themselves from time to time, and particularly at this season, he said, to see if they really know their fellow men and if they are lending helping hands.

Others who spoke were the Rev. Jim Sibley, Sweetwater, who said the challenge to men was definite work, and the Rev. W. C. Harrison, Odessa, district No. 8 missionary, who echoed this belief, and Bruce Frazier, draft board chief clerk.

The Rev. C. E. Lancaster, First Baptist pastor, also reminded men of the campaign to raise funds to carry the church program to army training camp areas in Texas.

George Melear, president, presided, and entertainment was furnished by Clemmie Lee Crain and Marvin Louise Davis, who gave accordion and guitar numbers. Jake Douglass was made master of ceremonies for the January meeting and Horace Reagan program chairman. The Brotherhood voted to sponsor a farewell party for one of the quota groups of selectees in January.
