## An All American Food Quiz

son and Chaucer to Cervantes, philosophers, poets and writers have recorded the wonders of food.

"Tell me what you eat, and I will tell you what you are." "The way to a man's heart is through his stomach." "The proof of the pudding is in the eating." "Asparagus inspires gentle thoughts." "Seeing is deceiving. It's eating that's believing;" and "No man is lonely while eating spaghetti — it requires so much attention." are just a few quotes

on the subject of food that have been recorded through the ages.

A new maxim coined by Kraft, "Nobody cooks like you," is one to which we'd all like to aspire in our kitchens. While taking the following food quiz (from Kraft) probably won't make you a better cook, it may make you more appreciative of some of the foods you eat:

1. The term "big cheese" first came into usage in the early 1800's when which American President was presented with a 1,235 pound cheese?
2. On what errand was David when he stopped to fight Goliath?
3. Where did oranges, grapefruit and pasta (noodles) first originate?
4. Where did the American Hamburger originate?
5. What is the world's most expensive herb?
6. What cheeses are named after towns and places?
7. Who originally promised everyone in his country

18. Wild Rice is not actually a rice. What is it?
- A. Rome, Italy in 171 B.C. and it specialized in a wheat-honey loaf.
- B. The Dutch in the 17th or 18th century.
- C. Cheddar (near Bristol, England); Limburger (Limburg, Belgium); Roquefort, Neufchatel, Pont L'Evêque (France); Parmesan (Parma, Italy)
- D. A seed from an aquatic grass known as "zizania-aquatica."
- E. Steak
- F. Thomas Jefferson
- G. The tomato (now considered the most popular

- homegrown plant in the United States).
- H. China
- I. Mary Ann Furnace, Pennsylvania in 1765.
- J. He was delivering cheese to Saul's camp.
- K. Paris, France in 1603
- L. Hamburg, Germany
- M. The white truffle of Alba, Italy, which sells for as high as \$200 per pound.
- N. Henry IV
- O. Egypt
- P. Saffron — 75,000 crocuses are required to make one pound.
- Q. Bangladesh
- R. Cauliflower

Answers: 1-F; 2-J; 3-H; 4-L; 5-P; 6-C; 7-N; 8-Q; 9-E; 10-K; 11-A; 12-R; 13-G; 14-O; 15-M; 16-B; 17-I; 18-D.

"Fall of the Alamo". Tho those 182 "Brave Men" made the Mexican pay a dear price for it. Fannin and his men surrendered at Caleta near Goliad, with the understanding that they would be treated as prisoners of war. Tho the dastardly Commander had them shot down in cold blood. hat a time that was? You see from the time that Cortez killed the Montezuma Indians the Church ruled Mexico. That is the main trouble there today. Just raise all the children you can. They have more resources. Tho just a few get all the money or income and keep them peons.

We have given many billions of dollars or loans to Poland and they say they want to stay Communist. Stop aiding such as these.

Stop Cuban aid to El Salvador. Also Nicaragua, Mexico is for Cuba in their Communist aid.

One night at prayer meeting the leader asked if there were any requests for prayer. An old lady named a certain person for them to pray for. The leader wanted to know where she lived? The lady said "She is about to die and is on "As The World Turns" program. This actually happened as may son was at church at that time.

In 1907 several people met at Triumph School one night to see about getting telephone in the community. The elected my Dad, secretary. 20 men agreed to join at \$10 per phone and each one took an extra share. That gave them \$400 capitol. They could sell or do what they wanted for that extra share.

Dad wrote the entire minutes in a book with a turkey quill, split just like a pen. He used bluing for ink. The lined in at Kokomo and Staff. As each place had a Switch Board. There were Doctors and Drug Stores at each place. As well as a Blacksmith, Gin, Dry Goods and Grocery Stores. Hard roads in Winter when it rains, and froze. Tho when it rained the blackland was sure sticky. In dry weather the sand was very boggy and hot in the summer.

In those days you that wer in school studied at night during the week. No Radio. We started getting daily papers in 1911. Since then I have read a daily paper at least 60 years. If I could just retain what I have read there would be many solutions in My Old Brain.

We are so thankful to the Ladies that come on last Thursday of each month to celebrate the Birthdays of people her ein the Home. Also to Juanita for playing and singing on that day. Music has a charm for me. I always enjoy it.

The Singers on Thursday night are always welcome. W. R. and Haxel Collins come from Eastland, the Brownings, The Marion Dennises, and Joyce what a voice. To all of you. It just makes life more pleasant. It puts Stars in your crown as so many here are lonely and this brings back fond memories of years that have flown by.

Our deepest sympathy goes out to the Paul Taylor family. Just remember he has stood before the Judge that you and I will meet in the not too distant future.

In Monday's Reporters News. Kenneth Garrett was dead on arrival at Eastland Hospital. Raised in Flatwood Community. I have known him since childhood. A fine man. Loved by all.

Larry Shoemaker Jr. of Albany. Killed at Drilling accident in Phillipines. Working for Halliburton. I have known him since childhood. He was 29 years old.

Wasn't that a fine tribute to Henry Capers? It was all so true. In those days the good guys won. Not so today. TV teachers how to murder, how to get dope. What a shame that some shows are a disgrace to the human race.

Look up. Smile. It is worth while.

**Senator Glasgow Reports**

According to Senator Bob Glasgow, the bill to restore the lateral road fund to the counties has passed the Senate and is currently being considered by the House of Representatives.

"If the bill becomes law, the counties will find an extra bonus this September when the new fiscal year begins," stated the Senator.

The Senator went further to explain that an extra \$16.9 million would be available for distribution at that time which would represent the principle amount of lateral road funds frozen by the Governor's veto for the past two years along with the accrual of interest on that amount.

The amount of funds distributed to each county is determined on the basis of

calls and cards and prayers all concern shown to us during this time of illness.

formula which takes into consideration the rural population of each county and the county road mileages in each county. This formula would be based upon the 1980 census population and the county road mileage as of January 1, 1981.

The Senator released figures which estimate the amount that each county in the 22nd District would receive. Senator Glasgow was cautious to explain that these were based upon old census figures and old road mileage figures and it would not accurately reflect what the new census figures or road mileage figures would be.

The figures released would be available for distribution on September 1, 1981, and

would represent a three-year accrual of lateral road fund benefits as follows:

- Bosque is \$89,458.62
  - Comanche is \$95,414.31
  - Cooke is \$110,238.39
  - Denton is \$186,642.81
  - Eastland is \$95,242.17
  - Erath is \$97,971.03
  - Hill is \$147,921.12
  - Hood is \$51,201.78
  - Jack is \$55,862.25
  - Montague is \$96,937.53
  - Palo Pinto is \$83,163.69
  - Parker is \$135,056.40
  - Somervill is \$20,236.71
  - Stephens is \$51,422.13
  - Wise is \$119,584.41
  - Young is \$70,802.43
- After the distribution of the three-year amount, the succeeding year's amounts due each county would be approximately one-third of those amounts stated above.

**DAVID GOOD NAMED TO DEAN'S LIST**

ABILENE — David Good of Abilene has been named to the Dean's List at McMurry College for the 1980 fall semester, according to Dr. Paul Jungmeyer, academic dean of the college.

The Dean's List is the academic honor roll made up each semester of those students who have carried a minimum of twelve semester hours and have achieved a grade point average of 3.5 or above for that semester.

McMurry College is a four year liberal arts institution located in Abilene, Texas. It is jointly owned by the Northwest Texas and New Mexico Conferences of the United Methodist Church.

Mr. Good, a Physical Ed. major at McMurry, is the son of Mr. and Mrs. Kenneth Good of Gorman.

According to a recent government survey, heart disease mortality has dropped steadily for close to 30 years.

Stamp collecting probably began as soon as stamps were issued. In 1841 a young lady advertised in a newspaper for used stamps. She had about 16,000, but needed more to complete the project of papering her room with stamps.

Can't Decide About Interest Paying Checking Accounts?  
Don't Really Understand What They Are  
Or How They Work?

Come By Or Call **Sunbelt Savings**

We'll tell you the advantages of earning interest on the balance in your checkbook. Many people maintain these balances each month, not realizing they could be earning interest on their money — 5 1/2%.

We'll take time to explain all phases of our **SunCheck** interest paying checking account. We'll explain the safekeeping option. Its advantages are many. We are all used to sorting all those cancelled checks, so we'll tell you how much more convenient this system is. Of course, we also offer the traditional return check option, for those of you who want to keep your actual checks.

We'll explain the advantages of maintaining a **AVERAGE DAILY** balance over maintaining a **MINIMUM** balance. With an **AVERAGE DAILY BALANCE OF \$400.00** for safekeeping and **\$500.00** for returned checks, you can go below these balances during the month and not be charged a service charge, as long as it averages out each month to the accepted balance. If you use our direct deposit, there will never be a service charge no matter how low your balance goes. This is especially great for people on Social Security or receiving any type of Government checks. We will do all the paper work for you.

If you must maintain a **MINIMUM** balance, then the first time your balance goes below the required minimum, you will be charged a service charge for the whole month. You can see the definite advantage of an **AVERAGE DAILY** balance which is what we offer.

We encourage sole proprietorships and unincorporated business to open these **SunCheck** accounts. Let your money earn interest for you while you conduct business — 5 1/2 percent compounded daily for an annual yield of 5.39 percent. Come in now and open up your account with us.
