

Revised Labor Measure Before House Today

See Quick Action On Compromise Bill With T-H Features

WASHINGTON, May 3. (AP)—An importantly revised democratic labor bill carrying several Taft Hartley features went before the House today for perhaps quick action.

The compromise was far different from the simple repealer which labor unions have been seeking to wipe out the T-H Law. For one thing, it would continue to permit the use of 80-day injunctions—bitterly fought by unions—to deal with national emergency strikes.

Speaker Rayburn (D-Tex.) and Democratic Floor Leader McCormack (D-Mass.) were scheduled to speak for the new proposal. A House vote was possible before tonight.

The parliamentary situation was such that, before getting to the Labor Committee's Lesinski bill the House would have to vote on the Wood measure, a union-opposed bill that would re-enact most of the Taft-Hartley Law. The Wood bill has piled up strength among Republicans and southern Democrats. The new democratic measure consists of the administration's original bill to repeal the Taft-Hartley Law with five compromise amendments inserted and a new section tacked on at the end.

Perryton Man Faces Trial In Shooting Of Father And Son

PERRYTON, May 3. (AP)—Selection of a jury for the murder trial of W. A. Cronister was scheduled to begin here today. Last evening the court denied a state motion for a change of venue.

Dist. Atty. Bob Galloway asked that site of the trial be moved on grounds a jury without prejudice could not be obtained in Ochiltree County. The court heard testimony from both state and defense witnesses most of yesterday afternoon.

Cronister is charged with the double slaying last May of C. W. Barker and his son, W. H. Barker. The charge is murder with malice. The Barkers were shot to death on a Southeast Ochiltree county road. The Barkers and Cronister had had a dispute over stock tanks and other movable property involved in a sale of land by Cronister to Barker.

A special venire of 175 men was called for the trial. He court dismissed 28 of these.

Remains Of Former Big Springer Due Here For Interment

Mr. and Mrs. John Whitten, Arlington, were enroute here Tuesday to complete arrangements for burial of her brother, Barney L. Russell, who was found dead of heart attack in his home at Los Angeles, Calif. Monday.

The body was due to arrive here by airliner, possibly Wednesday. No time for services has been fixed, the Eberley Funeral home announced.

Russell was graduated from the Big Spring high school and worked for various business establishments here for a number of years before he moved to California about 25 years ago.

Burial was to be in the L.O.O.F. cemetery beside the graves of his parents, Mr. and Mrs. J. N. Russell.

DAYS DEATHLESS

LUNG PUMP OPERATED BY HAND

Mate's Love Saves Woman

ITHACA, N. Y., May 3. (AP)—A pretty, young mother stricken with polio ended a cross-country trip today in an iron lung—alive because of her husband's deft use of a beer-can opener.

Death rode over the Union Pacific Flyer that brought Mrs. Shirley Palmer, 24, across the Western Plains yesterday.

But her war pilot-husband was beside her when the electric motor operating the air pump of the portable iron lung burned out.

Because he crunched there and operated the lung pump by hand for more than 10 hours, the enterprising Big Springs Memorial Hospital today for treatment.

The lovely beer-can opener?

THIS WAS THEIR HOME — S-Sgt. and Mrs. Leland Shumake stand in the second story apartment of a barracks which was their home on the University of Oklahoma airport, Norman, Okla., before last Saturday's tornado. They were not at home when the storm hit. Shumake is an instructor in the 185th fighter squadron of the Oklahoma Air National Guard. (AP Wirephoto).

FAR SHORT OF \$40,000 GOAL

'Y' Fund Campaign At Crucial Point

The YMCA building fund campaign is at its crucial point. This was emphasized by directors of the effort today as they surveyed results to date and made plans for a broadening of solicitation deemed necessary if a permanent home is to be provided for the youth agency.

A total of \$40,000 is required to purchase the First Christian church property at Fourth and Scurry, and of this sum, a little more than half has been accounted for in cash and pledges.

It's the "last half" that represents the challenge, said Cliff Wiley, campaign chairman, and he emphasized that if the building program is to be accomplished "without dragging along all summer," a greater percentage of larger subscriptions must be had.

Actually, the drive has progressed nicely to date," said Wiley. "We had an original list of 460 cards, and of this number there were only 40 definite turn-downs. Pledges or donations have been received from 250 cards, leaving only 170 for further work.

"From this number we must obtain larger pledges, and we are making a special appeal to those people who have the means to meet this challenge for community betterment."

R. T. Piner, chairman of a special gifts division, joined Wiley in the statement that there had been already a generous subscription from a number on the special list.

Subscriptions running \$500 and more have included: Corden Petroleum Corp. \$2,000; R. B. G. Cowper 1,000; C. D. Wiley 1,000; Empire Southern Gas 1,000; L. S. McDowell, Jr. 1,000; R. T. Piner 1,000; E. O. Ellington 500; T. S. Currie 500; Doris Chaik Cole 500; J. D. Jones 500; J. B. Mull 500.

"We are most hopeful that these subscriptions will be matched by others who have not yet taken action," the campaign leaders said.

Wiley continued: "We realize this is a big task for Big Spring and Howard County, but we have covered half the distance and there is no reason why we can't go on to the goal. The people who want to see this community's youth program stabilized and the community improved as a result must decide that they must help meet the community obligation."

Woods Lauds New Rent Regulations

NEW YORK, May 3. (AP)—Housing interests were highly critical of the new policy. The strike threat came from Rep. Vito Marcantonio, chairman of the American Labor Party.

The new law, Woods said, "goes right down the middle, protecting landlords against rents that would deny them a fair profit, and protecting tenants against being charged a higher rent than the fair new operating income adjustment allows."

First reactions of New York landlords and tenants to details of the new "fair rent" formula, announced last night by Woods, were confusion and anger.

Realty interests said the new provisions offered little financial relief. Spokesmen for tenants' groups said they gave the landlords too much relief.

Woods said the law not only gives landlords and tenants fair treatment rent-wise but allows them an equal right to appeal from decisions by the expeditor.

The landlords' net operating income as "increased substantially above the pre-war level," the expeditor said.

Before the housing shortage, Woods said, landlords counted on losses from vacancies and non-payment of rents. These losses have almost disappeared.

There were no replacement parts at North Platte. But the Omaha Fire Department wired that a brand new pump unit awaited the Palmers there. And Palmer carried on until they reached Omaha—squatting, then kneeling, then sitting, changing his position to ease his muscles.

The Palmers are natives of Newark, N. Y., near Rochester. They were living at Encino, Calif., and Palmer was an art student at Los Angeles when Mrs. Palmer was stricken.

Mrs. Palmer was transferred from the Pullman car to an ambulance at Syracuse for the last leg of the trip to Ithaca.

Acheson Says Start Of ERP Turning Point

Western World Is Cautioned Not To Relax Its Efforts

WASHINGTON, May 3. (AP)—Secretary of State Acheson said today the start of the European Recovery Program marked the turning point in the cold war. But he cautioned that the Western World should not rest upon "the success achieved thus far."

"We must press forward vigorously to the realization of our immediate objectives," Acheson told a meeting of the United States Chamber of Commerce here.

"We must go further and devise means for consolidating the gains now being made and for extending them into the future."

Acheson spoke after the business leaders heard from the chamber's president, Earl O. Shreve, that a "recession from postwar peaks" of business is inevitable. This, Shreve said, will bring "overdue relief to millions of consumers."

Of the general world political situation, Acheson drew the picture:

"I think the forces of freedom and democracy are entitled to draw encouragement from the recent trend of events in western Europe. Since the beginning of the European Recovery Program, totalitarianism in western Europe has made no advance."

"Increased production and financial stability have stimulated the renewed hope and confidence in the future."

Shreve predicted the business recession in his keynote address. He said:

"When the current readjustment has run its course, and buying for inventory replacement revives, business should find itself on a sounder and infinitely more satisfactory basis."

The shift to a "more solid and orderly pattern of prosperity" will be blocked or delayed, Shreve said, if the government raises taxes and lays down economic controls—as proposed by President Truman—or embarks on a policy of in-the-red financing.

Colorado City Man Found Dead In Automobile

Colorado City, May 3.—A frantic all-night search for Charles B. Ezzell, 49, well-known Colorado City contractor, ended at daylight here today with discovery of his body in his car at Ruddick Park.

Ezzell's body was slumped in his car with a .45 calibre automatic, said Sheriff Nick Narrell and Police Chief Dick Hickman. The officers said that a bullet had entered his right temple and that the gun belonged to Ezzell. Justice of Peace L. A. Costin said he would enter a formal verdict today, indicating he had no evidence to indicate foul play.

A search was instituted late Monday when the contractor's wife became worried when he failed to return home. She enlisted the aid of his brothers, Grady Ezzell and Vernon Ezzell, and together with officers they began a survey of the area. Ezzell had left his work at 4 p. m.

The police chief and sheriff placed death at sometime Monday evening, probably before midnight. Two California tourists, who had parked nearby at 2:30 a. m. today told officers the Ezzell car was there when they arrived.

At first robbery was feared when jewelry, valued at \$6,000, was not found on the contractor's person. It was located at his home, however. Officers quoted the contractor's wife as saying that he had been ill and extremely nervous for six months.

Arrangements were pending at noon Tuesday and announcements were to be made from Kiker & Sons funeral home.

Ezzell had been a resident of Colorado City for 33 years and during that time had constructed several hundred new homes. He was a partner in a new residential development underway near the hospital.

Surviving are his widow; one daughter, Mrs. Anita Merket; two sons, Kenneth and Charles Ezzell; his mother, Mrs. Wm. H. Ezzell; and his two brothers, all of Colorado City.

Surviving are his widow, Mrs. Ruby Smith; one son, Arthur Smith; one daughter, Dorothy J. Smith; his mother, Mrs. C. G. Smith, Amarillo; two step-sons, Billy Shaw and Richard Shaw, both in the Army; one step-daughter, Peggy Shaw, Big Spring; three brothers, Clyde Smith, Tennessee; L. W. Plainview, and A. H. Smith, Fort Worth; three sisters, Mrs. J. R. Black and Mrs. E. E. White-worth, Plainview, and Mrs. W. D. Vaughn, Amarillo. His father-in-law, G. W. Mo., Lubbock, and three brothers-in-law, Marvin Monk, Abernathy, Jeff Monk, Seagraves, and Dick Monk, El Paso are here for the rites.

Reported Plan To Sink Vessel Is Disclosed

U. S. Navy Denies It 'Ran Out' On Threatened City

SHANGHAI, May 3. (AP)—United States, British and French naval craft left the Shanghai waterfront because of a reported Communist plot to block their passage to the sea, a U. S. Navy spokesman said today.

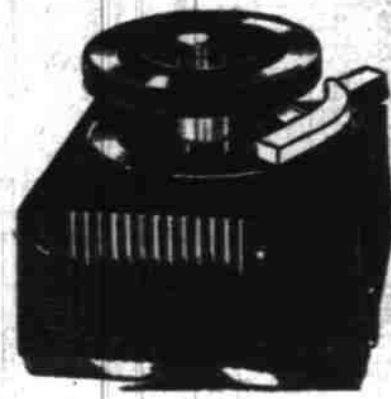

The spokesman, from the staff of U. S. Vice Adm. Oscar C. Badger, said "reliable sources" told the United States Navy that Communists planned to scuttle a ship near Whooching, the Chinese Nationalist garrison, that would have blocked the larger ships from the sea.

Record Changer Has Fast Title

Believe it or not, but playing time lost in changing one to another of 10 records on the new RCA world's fastest—is less than it has taken you to read this sentence. That's how fast the compact, unique, and even uncanny instrument functions. In one and one-third seconds, the switch is made from one record to another. The best nearest rivals can do is four to six seconds.

But this is but one of many virtues of the RCA record changer offered by the Radio Lab, 502 1/2 Gregg. Because it employs the principle of only 45 revolutions per minute, and because the pick-up arm and its improved silent sapphire permanent point jewel rides with only five grams (or about one

RCA-45 RPM Record Changer

sixth of an ounce) of pressure, the tone is superb. This means longer wear on records, too.

The record changer, which can be had complete with amplifier (\$39.95) or as attachment for any radio (\$24.95), employs the newest thing in records—transparent, thin and virtually unbreakable. They are only slightly more than six inches in diameter. So compact are they that require only a fraction of the shelf space. In fact, 100 weigh only seven pounds as compared to a four 75 pounds for conventional platters.

All you have to do is to put 10 records on the player, settle down to almost one hour of virtually continuous distortion-free music from a unit that is so compact it's hard to believe that it is possible.

Precision Repairs

Virtually all garage men and auto repair specialists in this area are familiar with the precision work that is featured at automotive machine shop operated by the Walker Auto Parts, 409 East 3rd street. The shop, which is the largest of its kind in Big Spring, specializes in crankshaft grinding, piston grinding and other similar types of work.

Curling, played on natural or artificial ice, resembles lawn bowling and deck shuffleboard.

New Variety Air Conditioning In Handy Units

The "Moustainaire," an entirely new type of air conditioning equipment, has been added to the list of commodities handled by Runyan Plumbing Co., located at 505 East 6th street in Big Spring.

Designed to provide perfect comfort all summer long, the "Moustainaire" operates on a new principle which lifts cool air and reduces humidity. The base of the stainless steel apparatus holds water which is controlled by an automatic float valve to a three-inch level. An aspen excelsior-covered drum rotates in the water at the rate of four revolutions per minute, thereby eliminating any dry spots on the pad.

Air is drawn through the openings at the end of the drum, passing through the pad where it is cooled by evaporation. As the air is lifted by the action of the blower, gravity causes the excess moisture to drop, allowing cool air with less humidity to pass through the ducts.

The cabinet is attractive in design, and is made of stainless steel which will not rust or corrode. The heavy duty all-steel blower is compact and mounted to rubber shock mounts to eliminate vibration.

One of the principal features, however, is the Leland Loadstar motor with thermocut control. It requires less electricity to operate and the thermal protectors reduce the fire hazard by automatically stopping the motor, should it become overheated. The reaction is the same, regardless of whether the overheating is caused by overloading or a drop in voltage. When the motor has cooled sufficiently, it is automatically turned on again.

The Runyan Plumbing Co. is inviting patrons to stop by the shop at 505 East 6th to see the new "Moustainaire" or else call 535 and ask for details of installation plans.

Proper Installation Of Appliances As Important As Quality Of Items

Proper installation of household appliances is as important to their operation as the quality of such merchandise.

An establishment whose workmen are fully qualified to make installations is the L. M. Brooks Appliance Company, located at 107 East Second street.

Employees of the concern keep well briefed in all improvements to modern gas ranges and gas refrigerators and are required to take refresher courses some two or three times a year in order to meet requirements set down by the state.

The Brooks company is the agent for such popular makes of kitchen stoves as the Magic-Chef range, which leads all others in total sales year in and year out, and the Servel gas refrigerators.

Manufactured by the American Stove company, the Magic Chef

gas range boasts such outstanding features as automatic clock control, flush-to-wall construction so that the range fits smoothly into the kitchen, automatic oven heat-makes oven watching unnecessary, flue deflector to deflect flue products away from the wall, quiet operation, smokeless type broiler lighting, automatic broiler lighting, hi-low burners, rust resisting plus one or more giant top burners on each stove.

An estimated 2,000,000 families in the United States use the Servel gas refrigerator, which Brooks stocks here. The refrigerator comes in several different models, ranging in height from 34 1/2 inches to 63 1/2 inches.

CRAFTSMAN'S TOUCH
Henry Thames, K&T Electric head, puts a skilled touch into a motor rewinding touch at his shop at 400 East 3rd street. The shop long has been the place where many in this area go for prompt and expert service for electrical needs, because of the combination of best materials, modern equipment and skilled workmanship. (Jack M. Haynes Photo).

Portable Radio Has Three-Way Reception
A Globe Trotter isn't world traveler anymore—not after RCA put that tag on its modern three-way reception portable radio. Smartly styled in maroon plastic and weatherized aluminum, the Glob Trotter is easy to handle. A lift of the dial cover clicks the set on, and volume with golden-throat tone is ample for outdoor gatherings. The set plays anywhere by plugging it into an AC or DC outlet — or on its self-contained, long life battery. Radio Lab, 502 Gregg, is dealer for the handy portable in Big Spring.

Joins Plumbing Staff
E. A. Fivesash joined the staff of the Runyan Plumbing Co., 505 E. 6th street, recently. Fivesash is a Master plumber who is thoroughly experienced in the business. Runyan's maintains a capable staff of personnel which permits the local firm to give prompt attention to all requirements of its patrons.

Tractor Problem
Repairs to farm implements and tractors are no problem this spring for patrons of the Big Spring Tractor Co., located on the Lamesa highway. The local Ford Tractor dealers have a bountiful supply of parts, and the repair shop is operated by expert personnel who are thoroughly familiar with various implements and tractors.

ONLY 'FEW ADJUSTMENTS' NEEDED

Auto Workers Say Walkout Can Be Averted By Ford Co.

DETROIT, May 3. (AP)—The CIO United Auto Workers said today only "a few adjustments" in production rates were necessary to forestall a threatened strike of 60,000 Ford employees.

Ford has slowed down its Rouge plant production and removed the chief cause of a speed-up dispute, the union said.

The company, which has denied union charges of a speedup, had no comment.

Another meeting of union and company officials is scheduled for tomorrow. At that time Ford is expected to answer a union request for a written agreement covering production rates.

The parties met yesterday after a union investigating committee had checked operations at the big Rouge plant where UAW Local 600 charged a speed-up.

The local's request for strike authorization was set aside last Thursday by the UAW International Executive Board pending the inquiry.

Emil Mazey, UAW secretary-treasurer and head of the union investigating committee, said the dispute could be settled if production were continued "with a few adjustments," on the basis of the company's operations yesterday.

A settlement at Rouge, some sources said, might help to head off a walkout Thursday of 3,500 workers at Ford's Lincoln-Mercury plant. A strike there has been approved by the UAW board.

If Rouge's 60,000 walked out, almost all Ford's nationwide operations would be hit.

Ford was asked for a written agreement insuring that assembly lines in the Rouge "B" Building would be kept at "the present ratio of manpower to speed of the lines," Mazey said.

"The company informed the union, he said, 'that it would take our proposal under advisement and give us an answer on Wednesday.'"

Meanwhile, 25,000 Hudson Motor Car Co. workers faced a layoff today due to a shortage of brakes in the Bendix strike. The company said it hoped to resume production early next week.

Hudson is preparing to make its own brakes from dies obtained Saturday from Bendix.

At one time prior to today's scheduled Hudson's layoff, there had been a total of 27,000 idle in the auto industry—all attributed to the Bendix strike.

Yesterday, however, Kaiser-Frazer called back 7,000 employees. K-F removed its brake parts and dies from the Bendix Plant Saturday.

Nash at Kenosha and Milwaukee, Wis., has laid off 12,000 men and Packard in Detroit 8,000.

Gen. Vandenberg Warns Against Cutting Air Force To 48 Groups

INDIANAPOLIS, May 3. (AP)—Gen. Hoyt S. Vandenberg told 500 members of the American Legion Sunday night that a 48-group Air Force "can guarantee no more than prevention of early defeat and hope of eventual victory in event of war."

The Air Force chief of staff referred to President Truman's budget recommendations for the 1950 fiscal year, under which the Air Force must cut its strength from 39 groups to 48 by July 1.

"The cheapest defense force is the one that can achieve the cheapest victory," Gen. Vandenberg said. "No victory today could be really cheap, either in lives or treasure."

He added "we hope and trust the 48-group Air Force will be a sufficient deterrent to prevent a conflict which most certainly would prove costly to us all."

Before the President made his budget recommendations, Air Force leaders said they considered

a 70-group Air Force an absolute minimum for safety and strength.

Gen. Vandenberg told the legionnaires that the Air Force was looking to the future, and said plans already are under way for "the first replacement" for giant B-36 six-engine bombers.

"Some day," the Air Force chief asserted, "all airplanes like the B-36 may be outmoded by long range uninhabited missiles. Long before that time, however, the B-36 will be replaced by a better airplane, perhaps by a series of better airplanes."

Gen. Vandenberg criticized what he termed a "Magnet Line psychology" regarding power of long-range bombing attacks. He said "air power alone and unassisted is scarcely capable of winning a complete victory."

"More than two-thirds of the regular Air Force groups are trained and equipped primarily for air defense and support of land and sea operations," the chief of staff told the national Legion meeting.

He was the principal speaker at the Legion's 13th annual aerial roundup, at which posts from over the nation flew in with membership cards and dues for 1949.

Legion officials reported that a tabulation of roundup cards raised the organization's rolls to 2,795,684 members.

Cattle Association President Opposes New Farm Program

WASHINGTON, May 3. (AP)—Texas and southwestern cattle raisers are bitterly opposed to at least some phases of the new administration farm program, their associate president, Bryant Edwards told the House Agriculture Committee today.

They are especially against the idea of subsidies, Edwards said yesterday, terming the payments "repugnant."

The plan, proposed by Secretary of Agriculture Brannan, also is impractical from an administrative standpoint, he said.

Edwards declared: "At no time in the history of this nation has our industry ever sought governmental support of prices. Nor has our industry ever been subjected to any character of program even resembling such a plan."

He continued: "It was stated that subsidies would be paid according to grades of the cattle.

"Who would grade these cattle? Where would they be graded? What would be done with reference to the substantial numbers of cattle sold for small town slaughter? Who would grade or count them? "Would the government attempt to follow every animal from the range to track? If so, the task would be gigantic and the employees in this industry alone would outnumber the armed forces."

Three Film Stars Safe In Flood In Morocco Sector

CASABLANCA, French Morocco, May 3. (AP)—Film stars Tyrone Power, Orson Welles and Linda Christian are safe today in flood-ravaged Morocco.

But Cecile Aubry, 17-year-old French film actress, was missing and at least eight persons were dead in the flood area, which includes Algeria.

Miss Aubry, appearing with Power and Welles in "The Black Rose," failed to return from a sightseeing tour Friday.

Wells flew to Casablanca from Marrakech this morning.

A 20th Century-Fox spokesman expressed hope that Miss Aubry might have taken refuge in an Arab home.

She was with her mother. A chauffeur accompanied them.

Pelting rains sent flash floods racing down out of the Atlas Mountains. Many of South Morocco's few bridges and long sections of roads were destroyed.

Death Gun Fished From Milwaukee River By Police

MILWAUKEE, May 3. (AP)—The gun which brought death to 16-year-old Pat Birmingham was fished from the mud of the Milwaukee River yesterday.

Milton Babich, 19, had told Dist. Atty. William J. McCauley that he dumped the body and the .22 calibre target revolver into the river at that point last Feb. 10. He claims Patricia died by accident that day when the gun discharged twice as she picked it up by the barrel and he grabbed for the handle.

He said he hoped to frighten her so she wouldn't tell that her sister, Kathleen, was pregnant.

Babich, who eloped with Kathleen two days before the West Allis High School girl's body was found, March 20, has been charged with first degree murder. He faces preliminary hearing on that charge tomorrow.

McCauley said last night that the gun taken from the river had been identified by the operator of a West Milwaukee sporting goods store as one he sold to a youth who gave the name of Victor Babich.

McCauley previously had quoted Milton Babich as saying he purchased the death gun at that store, giving the name of his elder brother, Victor.

McCauley evaded all questions on whether any finger prints were found on the weapon, stating only that it would be sent to the state crime laboratory at Madison for "tests."

Bolivia Counts Six Dead After Election

LA PAZ, Bolivia, May 3. (AP)—Bolivia counted at least six dead and 30 wounded today as the result of bloody riots which followed Sunday's parliamentary elections.

The 1949 meeting is Hialeah's 22nd racing season. The track opened in 1925, but did not operate in 1927, 1943, and 1945.

'GIANTS' AT FOOD FAIR — Pictured above are the giant salami sausage and Wisconsin cheddar cheese which will be displayed in Big Spring Tuesday in connection with the Furr Food 45th anniversary celebration. These two "largest in the world" will be at the local Furr store Wednesday, May 4, from 8:30 a. m. to 10:30 a. m. These attractions were built for the Furr Food Fair. The 14-foot sausage was built in Fort Worth, the cheese was made in Wisconsin. Visitors will have chance to win a year's supply of each product (a pound a week for a year) by visiting the truck show when it appears here Wednesday. These awards are a part of the \$50,000 prize program which is a feature of the Furr Food Fair.

Texas Congressmen Feted In Washington

WASHINGTON, May 3. (AP)—Texas congressmen and their wives were guests at a dinner given by a Lone Star delegation which came here for a U. S. Chamber of Commerce meeting.

Joe W. Evans, Houston cotton man and former president of its chamber, presided at the dinner last night.

The East and West Texas Chambers of Commerce and local chambers of Houston, Dallas, Fort Worth, Austin and San Antonio were sponsors.

Representatives from the various chambers attending the dinner included: Hubert Harrison, Longview; John R. Alford, Henderson; W. S. Bellows and W. N. Blanton, Houston; D. A. Hulcy and J. Ben Critz, Dallas; Homer Covey and William Holden, Fort Worth; Fred W. Catterall, Jr., Austin; Walter McAllister and James V. Goodwin, San Antonio.

Antiseptic Ointment Soothes SKIN IRRITATIONS

For helpful antiseptic and medicinal aid to externally caused skin irritations that itch, such as tetter, rash, simple ringworm, dryness or eczema, use Gray's Ointment as directed. Medicated to cling longer for more thoroughly relieving itching.

Kerr And Thomas Back Lake Texoma Development Plan

DENISON, May 3. (AP)—Oklahoma's Sens. Kerr and Thomas are supporting the \$800,000 full appropriation for development of Lake Texoma.

They notified the chamber of commerce here of their stand by telegrams.

The U. S. Corps of Engineers' original recommendation was slashed to \$425,000 by the budget bureau. The money would be used for an extensive development program at the lake.

Mississippi will play three night football games next fall, against Auburn in Mobile on Sept. 24, Boston College in Boston on Oct.

Local People Should Take Pride In Trend For Cultural Advance

Big Spring people should take a full measure of pride in the accomplishment of music students in the interscholastic league festival in San Angelo during the past weekend.

The municipal high school band took first division rating in marching and sight-reading, only one step under the maximum of "superior." It also earned a second division rating for concert playing, a grade that might have been raised except for circumstances which precluded use of several key players.

Ensembles and soloists earned 11 first division ratings for their work, seven second division ratings, and a trio of third division ratings. These figures ought to confirm locally held views that the band is making steady and commendable progress.

The girl's high school chorus gained a third division rating, which is not to be frowned upon in view of the comparatively short history of this unit.

It is fitting to note, here in the midst of National Music week, that the art of music seems to be gaining a foothold among our youth, where it will pay the greatest dividends.

Those who have labored long to bring the cultural side of our community life abreast the material developments may take heart from the definite upward trend. Among adults we have a number of outstanding artists; among youth there is every promise that the field will be multiplied. The long struggle is beginning to bear fruits.

Superficial Evidences Not The Real Cause Of Home Weakness

National Family Week, for your information, is ostensibly being observed now for the purpose of focusing attention upon the importance of vital home units.

Perhaps it won't make any difference with most people, but if it serves to direct our meditations upon the necessity of stronger homes, then it will have accomplished a great deal of good.

No little of our confusion today stems from a weakening of the home structure. This is a patent fact; it is a threadbare truth. Under such circumstances, it seems that something could and should be done about it; yet nothing has proven so difficult to contemporary parents as grappling with this problem.

Causes are many, but most of what we

attribute as causes are superficial results rather than causes. The whirlpool tempo, the competitive bid for time, the year for entertainment, boredom in the family circles are examples.

Perhaps the fundamental cause is a parental selfishness and shallowness that has capitulated to substitutionary measures. The tragedy is a failure to recognize that homemaking is the highest and most important of callings, transcending personal pleasure, civic responsibility, and social obligations.

Most of us could well ask if ours are the sort of homes which our parents provided for us. If not, why not? If not, then we are withering on the vine and failing a most solemn duty.

Affairs Of The World—DeWitt MacKenzie

It's Tough On Indian Princes Not To Have Elephant To Name

INDIA IS HAPPY OVER THE HISTORIC agreement which permits her to become a republic and still remain a member of the British Commonwealth of Nations — without acknowledging the sovereignty of the king-emperor.

However, there are a few who are bound to be regretful. Outstanding among them are the hundreds of princes who have lost their thrones since India was granted independence and now see the severing of the last tie with the imperial "glories" of the past.

Since India gained her freedom the native principalities and their rulers have come under control of the New Delhi government.

IT IS WELL THAT THESE PRINCES should go, for they have no place in this age.

The story of the princes forms one of the striking pages of history. The pomp and splendor surrounding them had to be seen to be believed.

Many of the rulers had the power of life and death over their subjects. They paid

homage to only person—the king-emperor.

Back in 1916 I was for a fortnight the guest of the late Maharajah of Gwalior. We were chatting one day about the relationship between the princes and the British government, and he emphasized the importance of the position of the king-emperor in the minds of the rulers. They looked more to the sovereign than to his government.

"LET ME PUT IT THIS WAY," SAID his highness. "The princes are five shillings in the pound for the government and 15 shillings in the pound for his majesty."

And don't let anybody tell you that the British government didn't cultivate this reverence for the crown among the princes. This respect for royalty helped the government in handling the frequently temperamental rulers.

So you see the new agreement, under which India doesn't recognize the sovereignty of the king-emperor, is a tough reminder of bygone days for the Maharajahs, some of whom haven't an elephant left to ride upon.

Nation Today—James Marlow

Congress Presses Toward Goal Of Early Summer Adjournment

WASHINGTON.—IT'S JUST BEGINNING to get good in Congress now. Meaning, there'll be a little more action.

Congress has passed the half-way mark in this year's session, with four months gone and maybe two or three left to go. Don't feel bad if you're an average person who's been reading about Congress for four months and find now you can't remember precisely what's happened here.

The fact is, nothing much has happened. It's been mostly talk, argument and jockeying.

The going has been pretty slow, particularly in the Senate, but the first few months of any session always drag.

That's because those months are always used in getting the big bills ready for debate and a vote in both House and Senate.

THEY'RE PRETTY MUCH TAKEN UP with log committee hearings on the bills, and the brigades of witnesses who make headlines.

About the only action completed by Congress—meaning House and Senate together—was passage of the new rent control law.

Aside from that, everything else has been pretty much up in the air, with action by the House on this, by the Senate on that, but seldom by both houses on any

Today's Birthday

MARY ASTOR, born May 3, 1906, in Quincy, Ill., as Lucille Langhanke. For more than 28 years she has played mother roles in the movies. After attending the Kenwood Loring School in Chicago, she started her screen career at the age of 14 in two-reel silent films. Since the advent of sound she has featured in "The Man With Two Faces," "Dodsworth," "The Maltese Falcon," "Meet Me in St. Louis," and "Cas Timberlane," among many others. Her director was Franklyn Thorpe in 1935 attracted wide attention. In 1937 she was married to Manuel Martinez del Campo of Mexico, from whom she was divorced in 1942. Three years later she was married to Thomas G. Wheelock. She has a son and a daughter.

"YOU'RE JUST A BUREAUCRAT LIVING OFFA THE PUBLIC

Merry-Go-Round—Drew Pearson

American Food Is Being Farben-ized Under Cover Of Official Buck-Passing

WASHINGTON.—The American housewife doesn't know it, but more and more of the food she buys for her family contains the same basic "ersatz" ingredients which I. G. Farben, the notorious Nazi cartel, developed for German troops and civilians in the last war. The German people lived on "ersatz" during most of the war.

The extent of this Farben-izing of American food, unbeknownst to the consumer, has been partially investigated by the Food and Drug Administration, which has been holding hearings on the use of synthetic substitutes for milk and shortening in bread.

However, the whole story hasn't been told the public, chiefly because of official buck-passing. Food and drug officials wring their hands and say they have no authority under the law for a full-fledged investigation. They admit, however, that more and more chemical substitutes are being used in various foods and that they do not know what the final result will be on the health of the nation.

Meanwhile Republican Rep. Frank Keefe of Wisconsin, who has been quizzing the food and drug administration, has made some startling disclosures about what goes into many of the things we eat. Keefe charges:

1.—That bread can and is being chemicalized to a point where it has little if any nutritional value; 2.—That non-nutritional chemicals, "mostly the result of the work of I. G. Farben chemists," are being palmed off on the unsuspecting public, in place of milk, fats and eggs in such foods as cake, doughnuts, cereal mixes, peanut butter, ice cream, candy, salad dressing, milk drinks, synthetic whipping cream, pickles and food flavors; 3.—Manufacturers and pharmaceutical houses that produce synthetic foodstuffs have not made adequate research to determine if the substitutes are poisonous. Keefe points out that seven persons died after using a substitute salt prepared for people who cannot use organic salt in their diet.

AHEAD OF NUTRITION
The synthetic ingredient which many bakers now use in bread is a compound of polyoxyethylene glycol and stearic acid, known as polyoxyethylene monostearate. Stearic acid is derived from animal fats, but polyoxyethylene glycol, a substance similar to purified anti-freeze for automobiles, has no nutritional value.

I. G. Farben experimented widely with polyoxyethylene products as a base for "ersatz" German foods during the war. The American compound is produced chiefly by the Atlas Powder Company of Wilmington, Del., and Glyco Products Company of Brooklyn and is distributed in slightly different forms under the trade names "Sta-Soft" and "Myl-45." Both keep bread soft for a long period, so that a housewife who feels a loaf in a grocery store thinks she is getting oven-fresh bread.

In fact, this deceptive quality—plus a pleasing taste the chemical given to bread—is the chief selling point of its distributors. Vernon C. Usher, Inc., of Chicago, which makes a somewhat similar synthetic compound called "To-Scor," frankly states, in his literature to the baking trade:

"In speaking of higher quality, we mean products that not only look good, but are appealing to the sense of taste as well. . . . bakery goods that are not overburdened with fats and other richness to the point where substantially less is eaten.

"We believe that every person—man, woman or child—eats and drinks only that which appeals to the sense of taste, with little or no thought of nutritive value; so, we emphasize, again, that higher quality bakery goods, in our opinion, are attained by balancing formulas to a point where they are not overburdened with rich substances which, in the end, tend to discourage and decrease consumption."

DEPARTMENT WARNING
One government agency that is carefully watching on this nutritional question is the Department of Agriculture. The department foresees not only higher support prices for surplus dairy products, costing the taxpayers millions, but a serious economic threat to dairy farming if baking chemicals come into wide vogue.

In a confidential report prepared for Agriculture Secretary Charles Brannan, Ralph Trigg, chief of the Production and Marketing Division, points out:

"It is our opinion that the department should object to the approval of chemical softeners as acceptable ingredients in baking formulas, because of the effect on the health of the nation, since evidence indicates that the substitution of chemical softeners for fats, eggs and milk considerably reduces the food value of the product.

If the facts warrant, and if the Food and Drug Administration, because of statutory limitations, is unable to prevent or limit the use of synthetics as substitutes for natural foods in bakery products, we would further suggest that the department request new legislation on this matter."

ON NEW MEXICO
When the President is pleased, his face lights up and two dimples pop into his cheeks. Thus his face gave him away the other day over prospects of returning to old haunts in New Mexico.

He was invited to slip down to Santa Fe, this fall for the 100th anniversary of New Mexico's pioneer paper, the Santa Fe New Mexican, making the plea was General Manager George N. Reynolds, who called at the White House with New Mexico's two senators, Dennis Chavez and Clinton Anderson.

Truman wouldn't make any flat promises to attend, but he recalled with a chuckle his early experiences in the state. He had visited New Mexico in 1909 and again in 1924, he related. Both times he had stopped to rummage through an old curio shop and chat with the owner, the late J. S. Candelario. One prize item Candelario showed off was a trunk which he said had belonged to Lew Wallace, early New Mexico governor and author of "Ben Hur."

Truman recalled how Candelario had told him with a broad wink: "If I sell that one, it will be the ninth one I have sold."

HOLLYWOOD—For most of her life, people have been telling Judy Garland she will lose her voice if she doesn't stop singing so loudly. Today she is still going strong—and as loud as ever.

In one of her rare moments of talking about herself for print, Judy reflected on her voice: "Sometimes it's so loud it surprises me. That's the way I've always sung. I've never strained my voice, possibly because I use the right muscles in my throat.

"When I was a kid in vaudeville, people would say I'd lose my voice before I got much older. That alarmed my mother, so she sent me to a vocal coach. "The first lesson had me trying to blow off a piece of paper pasted on my forehead. 'Breath control,' she said. Next she had me singing with a pencil in my teeth. 'Poor diction,' she said. I told her I didn't usually sing with a pencil in my teeth.

When Judy revolted against such methods, the teacher said: "You don't want to sing like Kate Smith, do you?"

"If I'm lucky, yes," 12-year-old Judy replied.

She hasn't had a lesson since. She can't even read music today. Her new songs are played or sung to her and she catches on that way. She never practices between pictures and doesn't sing in the bathtub.

And though she has danced with Fred Astaire and Gene Kelly

Around The Rim—The Herald Staff

Civilian Dog Tag May Be Latest Boon To Humanity In Atomic Age

Looks like we're going back to Army days again. At least, we seem rather willing to pick up some Army traits and make them civilian.

Recently, a New York police surgeon suggested that all civilians carry an identification "dog tag" and from reports issued in a Gallup Poll it looks like a lot of people would be willing to support his program. Some 84 per cent of the people questioned said they thought it would be a good idea to require everyone to carry an identification tag giving his name, residence and blood type to be used in case of accident. Ninety per cent reported that they would be willing to carry the tags.

The advocate of the civilian dog tag is Dr. Carleton Simon of the New York Association of Chiefs of Police and his argument is that such identification can be the means of saving lives in the event of serious accident. We're not too fond of his idea, but we do think it might be helpful to those people who insist on traveling long distances alone and often end up with a

serious accident or illness. Their finders would have a little better idea about what to do next. This would often be as valuable as the blood type indicated on the disk.

Most ex-servicemen seem to feel that identification disks were a nuisance and frequently became discolored, but there are also many reports which state that speed in giving a blood transfusion spelled the difference between recovery and death. The time which it takes to classify an injured person's blood may mean too little time to save a life.

With the interest in blood donors which came during the war, most of us know our blood type, but that doesn't always mean we would be able to give such information at a time when we need a transfusion quickly.

Maybe the 90 per cent of interviewers were smart when they stated they would be willing to wear dog tags. Dog tags might be a good idea, but we fear there will be a revolution if anyone ever has the bright idea that we should all start eating dog biscuits.—MILDRED YOUNG

Notebook—Hal Boyle

Keeping Female Figure Requires A Good Deal Of CBA Figuring

NEW YORK.—IT TAKES A LOT OF figuring to keep the female figure in bounds.

And that watchdog of the womanly bulge, the Corset and Brassiere Association of America, has come up with a few well-rounded statistics.

It has found that no one shape seems to satisfy the girls for long. The only thing about the feminine contour that has remained unchanged since Cleopatra's day is the shoulder. (Eds. note: It is as cold as ever.)

Researchers of the CBA have discovered the American woman of today is no longer the wasp-waisted stringbean of yore. She's more billowy than willow.

PUT IN TERMS OF A MATHEMATICAL formula, the average woman now is 5 feet 3 inches tall and weighs 133 pounds. She has a 35½-inch bust, 29-inch waist and 38-inch hips.

At least these are the typical measure-

ments of the women who buy foundation garments. And 85 per cent of those over 15 years of age do.

The farmer's daughter is shorter and wider at the beam than her city sister. And the rich girl has a scrawnier chassis than the working girl.

One survey showed that only about one out of 15 women has the classic measurement—a "perfect 36."

PERHAPS THIS HELPS EXPLAIN THE Corset and Brassiere Association's contention that 55 million American women figure they have a figure problem—and do something about it.

Some 300 American firms, employing more than 17,000 persons, each year turn out 100 million brassieres, 5 million "falsies" or bust pads, and 41 million girdles and corsets.

Today the industry's best customer is the best-dressed girl in the world—the American working girl. She buys four brassieres and two girdles a year.

Broadway—Mark Barron

Ralph Bellamy Gets Script Of 'Detective Story' Just In Time

NEW YORK—Ralph Bellamy had his luggage half-packed, had closed all his affairs in the East and was prepared to quit Broadway and go back to Hollywood for good when a messenger boy knocked on his door. He handed him the script for Sidney King's hit melodrama, "Detective Story." Bellamy immediately unpacked, changed his mind and happily decided to stay on Broadway.

The tall, blond, broad-shouldered actor recalled that his first play on Broadway, "Town Boy," lasted for only two performances. But it brought him movie offers which kept him in Hollywood for twelve years to play in more than 80 films.

Fran Warren, the thrush who has sung in front of Charlie Barnet's and Claude Thornhill's bands, has a low, throaty voice. But once in a while when she gets a song that needs some good, loud singing she can come through with notes that make the roof quiver.

When asked where she had trained herself for such good, loud warbling, he said: "Why, I started singing with the James Monroe High School in New York City. And when you have to be heard above a high school band, you have to be louder than the loudest."

Lucy Kelston, the Brooklyn girl, finally made her debut at the La Scala Opera House in Milan, Italy, but it was a rough road. Being a student opera singer and also an American, her only chance at the famed La Scala was to wait in the wings in case one of the regular Italian stars failed to appear.

Several weeks ago she cabled New York friends that she was to go on because a star had suddenly become ill. But a few minutes before curtain time the star had recovered enough to give her performance so young Miss Kelston was sidetracked again.

A few nights ago she got another chance, sang the lead in a Verdi opera and scored a heart warming triumph. And Miss Kelston is the girl whose Brooklyn neighbors used to phone for the police when she would begin practicing her high notes.

Joe Melizier sailed for Europe with a banner bon voyage. He designed the sets for "Death of a Salesman" and "South Pacific," both of which won several major prizes as the best shows of the Broadway season.

Joe Melizier sailed for Europe with a banner bon voyage. He designed the sets for "Death of a Salesman" and "South Pacific," both of which won several major prizes as the best shows of the Broadway season.

Mr. Acheson, like General Marshall before him, is under fairly heavy fire because he does not come forward with a plan of action for China.

Things have gone against us not only in China but in almost the whole Far East. Nothing in our foreign policy, except the defense of the Western Hemisphere, has been so settled and fixed as our friendly interest in China. It was our refusal to surrender China to Japan which made the conflict in the far Pacific irreconcilable and brought about the war with Japan. Yet now we see China passing into the hands of men who regard us as their enemies. And Japan, which we conquered in order to liberate China, has no future—except as a sullen and rebellious dependency which we have to govern, support, and defend if it is cut off from that Chinese mainland which is now controlled by men who are unfriendly to us.

The bitter truth is that the collapse of nationalist China has for the time being at least left us without strong friends or effective influence in the Far East. We are alone. Our European allies have interests but little power or influence. The British in Malaya, the French in Indo-China, and the Dutch in Indonesia have just about enough strength to hang on where they are in the hope that something can be saved by an orderly retreat.

The Marshall-Acheson policy, which is a policy of non-intervention in the Chinese civil war, is easily open to the criticism that it solves none of our problems. But the critics of this policy, especially the congressional critics, can fairly be asked whether they would in fact wish to involve

Outstanding Artists To Appear Thursday

The Texas State College for Women Modern Dance Group which will appear here Thursday at 8 p. m. under the sponsorship of the local American Association of University Women Chapter, was organized and is still directed by Dr. Anne Schley Duggan, Professor and Director of the Department of Health, Physical Education, and Recreation. Since 1939, she has been assisted by Jeanette Schlottmann, Mary Campbell, accompanist for the group, is also the composer of the music for many of the compositions. Dr. Duggan is an outstanding authority in dance education. She has served as a specialist in folk and tap dance as well as in modern dance, teaching refresher courses here in the United States at conventions and also in Canada. For five summers (1942-1946) she taught at the University of the Dance, Jacob's Pillow, Lee, Massachusetts, which in 1946 was attended by many members of the group under the G. I. Bill of Rights. Dr. Duggan is the author of numerous books and articles on dance in education. During the past decade, Dr. Duggan has contributed in large measure to the establishment of the modern dance as a vital art in the Southwest. Her vision for the values of dance as a creative, enriching experience for young women has prompted her work in this direction and has inspired them to artistic expression.

Miss Schlottmann has studied dance with Dr. Duggan at the Texas State College for Women and has danced in Master Classes held on the campus conducted by leading dance exponents in America. She has been a member of the Modern Dance Group since its organization and has continued to appear as a solo performer with the group since the completion of her Master's Degree and affiliation with the college as an instructor in the Department of Health, Physical Education, and Recreation. Miss Schlottmann was awarded a full scholarship at the Mattier Farm Studios in New Hampshire for the summer session of 1943. She assisted Dr. Duggan in her teaching at the University of the Dance, Jacob's Pillow, Lee, Massachusetts, during the summers of 1942 and 1943. She collaborated with Dr. Duggan in the production of "The Folk Dance Library" comprising of five volumes which include not only the music and accompaniments for all dances analyzed but background materials pertaining to geography, history, sociology, festivals, and costumes for various regions into which the units of The Folk Dance Library have been divided.

This is Miss Campbell's fifth year with the TSCW Modern Dance Group; she came directly from Ted Shawn's University of the Dance, Jacob's Pillow, Lee, Massachusetts. As a colleague and accompanist for many outstanding dancers of the Twentieth Century, Miss Campbell has been intimately associated with the development of the modern dance in America. A native of New England, Miss Campbell is a graduate of the Faxon Piano School in Boston and studied dance accompaniment at the Wigman-Schule, Dresden, Germany. As a professional accompanist, Miss Campbell was associated with the Bragott-Denishawn School in Boston and accompanied Miss St. Denis and Mr. Shawn on their last tour of the United States. She was accompanist for Shawn on his European solo tour. In 1940, Miss Campbell went to South America as accompanist-composer for Miriam Winslow and Foster Fitz-Simmons, first North American modern dancers to appear in South America. Miss Campbell is keenly interested in Modern Dance in America; her sensitive understanding of movement as a medium of art expression makes her accompaniments a truly integral part of dance composition.

Miss Patti McDaniel, tutor and graduate student in the Department of Health, Physical Education, and Recreation, is appearing again this year with the Texas State College for Women Modern Dance Group as soloist and member of the ensemble.

Marion Nicoll, a senior health, physical education, and recreation student at TSCW, is president of the Modern Dance Group; Peggy Lawler, a junior English student, is secretary. Della Brennen, senior major in the Department of Health, Physical Education, and Recreation, is percussion accompanist of the Modern Dance Group.

Costumes for the Modern Dance Group are under the direction of Mrs. Alois Storrie, accompanist in the Department of Health, Physical Education, and Recreation. Marie Delaney of the Fine Arts Department, an authority in the field of costume design, serves as a consultant in the planning of the costumes.

Members of the Modern Dance Group include Bessie Akagi, Nancy Ball, Edith Breitenbach, Joan Collard, Betty Hill, Ruth Helen Knoepfl, Peggy Lawler, Patti McDaniel, Helen Troy Martin, Marion Nicoll, Lynette Poole, Jeanette Schlottmann, Kathryn Soontag and Claire Williams.

Betsy Cunningham, dramatic soprano and a native of Arlington, Tenn., is a postgraduate voice student of Dr. Stella Owsley, Professor of voice at the Texas State College for Women and an outstanding vocal authority in the Southwest. Miss Cunningham is an attractive young woman gifted with a beautiful soprano voice. She has sung successfully in many concerts and as soloist on tour with the Texas State College for Women Symphony Orchestra and with the Modern Dance Group. During the present tour with the Modern Dance Group, Miss Cunningham will sing the vocal accompaniments for the dances comprising the "Negro Spiritual Suite." In conjunction with the formal concerts, Miss Cunningham will also sing a solo group of songs including "O Patria Mia" from "Aida" by Verdi, "Sheep and Lambs" by Homer, "Auld Daddy Darkness" by Homer, "Little Polly Flinders" by Diack (with apologies to Mozart), and "The Nightingale" by Stephens. When the Modern Dance Group appears in lecture-demonstrations on the high school assembly programs, Miss Cunningham will sing a solo group of songs including: "A Grand Night for Singing" by Rodgers, "Sheep and Lambs" by Homer, "Auld Daddy Darkness" by Homer, and "Little Polly Flinders" by Diack (with apologies to Mozart).

Critics of Texas and of the Southwest at large predict a successful future for this young Tennessee girl and feel that in due time she will take her rightful place among the leading singers of today.

TO INVESTIGATE ROMANCE RUMORS — Dr. Peter Lindstrom, husband of actress Ingrid Bergman (both above), went to Italy to investigate rumors of a romance between his wife and Italian film director Roberto Rossellini. John Vernon, her personal representative said in Los Angeles. The couple are shown in Hollywood in October, 1947. (AP Wirephoto).

Ingrid Walks Stromboli's Shore Hunting Design For Happy Living

ROME, May 3 (U)—Like any girl in love, Ingrid Bergman walked Stromboli's sunny shore today hunting a design for happy living.

In her heart was the answer to a question which might have been lifted from one of her Hollywood scripts:

Did she love Roberto Rossellini, storied genius of Italy's film world, as Italian newspapers reported? Or were there more happy years ahead with her doctor-husband, Peter Arm Lindstrom, whose marriage with the actress has for years been about as near an idyl as Hollywood could boast?

Nobody knew the answer—except the 31-year-old film star.

But Robert Conway of the New York Daily News, who talked with her for four hours on Stromboli, said Miss Bergman had "tactfully confirmed" that she is in love with Rossellini.

Conway quoted Ingrid as saying she and Rossellini "wanted to keep it quiet."

She refused to deny that she will divorce Dr. Lindstrom, father of her daughter, Conway cabled his paper.

But Dr. Lindstrom still had to be heard from.

His dramatic half-way-around-the-world flight from Los Angeles resulted in a face-to-face meeting with his wife, film circles said. What the results were no one knew.

Another question mark was whether Rossellini was free to marry. He has been separated from the mother of his children for some time Italian press reports said. But there has been no confirmation of rumors that he received a recent Hungarian divorce.

Rossellini, producer of "Paisan" and "The Open City," and Miss Bergman are making a picture, "Of God's Earth," on Stromboli, a volcanic island between Sicily and Italy.

Some cynics, talking not of the film in the making, still thought the real-life romance might be a publicity stunt. But most reporters seemed to be taking it seriously.

Flower School Is In Progress

Approximately 25 women were attending the flower judging and arrangement school this morning at the Settles Hotel. Others were expected to be in attendance before the first day's session closed late this afternoon.

Mrs. C. E. Beavers was the leader for a study concerning horticulture.

Registration for the second day will be held at 8:30 a. m. Wednesday. Mrs. Inez Adrian Hamilton will be in charge of the second and final day sessions which will deal with flower arrangement.

Mrs. Stella Yates Leads Bible Study

Mrs. Stella Yates led the Bible study Monday for the West Side Baptist W.M.U. at the church.

She took the lesson from I Samuel through the third chapter of I Kings. Mrs. J. C. Madry sang "When I See the Blood"; Mrs. C. L. Kirkland gave the invocation and Mrs. Emma Byers pronounced the benediction. The W.M.U. voted to take an offering Sunday for Baptist hospitals.

Attending were Mrs. Guy Simmons, Mrs. L. C. Gibbs, Mrs. Byers, Mrs. E. O. Sanderson, Mrs. Madry, Mrs. Leroy Brooks, Mrs. Cecil Rhodes, Mrs. A. J. Lloyd, Mrs. T. E. Sanders, Mrs. Kirkland, Mrs. Vera McCristian, Ruby Rutledge, Mrs. Yates and Mrs. J. R. Phillips.

Girl Scout Leaders Training School Set

Local Girl Scout leaders are being asked to attend an arts and crafts training school to be held in Sweetwater Thursday from 10 a. m. to 12 p. m. and 1 p. m. to 3 p. m. Transportation will be furnished. Those who will furnish transportation are asked to contact Mrs. Ross Boykin.

Will Receive Princess

VATICAN CITY, May 3 (U)—A source close to the Vatican secretary of state said today Pope Pius XII would receive Princess Margaret of England during her stay in Rome.

Three Little Kittens

Design No. E-518
These cute kittens may be embroidered on tea towels and do daily service. Hot iron transfer pattern No. E-518 contains 9 motifs about 3 by 7 inches each with complete instructions.

To order: Send 20 cents in coin with pattern number, to Needlework Bureau, Big Spring Herald, Box 229, Madison Square Station, New York, N. Y. An extra 15c will bring you the Needlework Book which includes free patterns and a wide variety of designs for knitting, crocheting, and embroidery.

RIBBON RAMBLINGS

By MILDRED YOUNG

Ever consider the importance of the family ironing board. It's the place where articles of clothing are made to look like new again. It's the place where a lot of work is done, but it is also an invisible visitor wherever people meet because it helps the world to look well-dressed and neat.

One of the main servants of law enforcement, the process server, is also one of the least publicized. But as one of the most hated and feared law enforcement workers he has been forced to adopt odd disguises to do his job and has often been threatened with bodily harm, even death.

One of the unexplained mysteries of all time is why people insist on hiding from a process server. But they do just that, even though the chances of their being tagged are about 100 to 1 in the process server's favor.

It is reported that once a woman refused to take her hands out of dishwater long enough to accept a paper from a deputy sheriff. (One of the requirements is that the process server actually touch with the summons the person being served.) The deputy sheriff laid the summons in the crook of her elbow, tipped his hat and went away.

One of the highlights of the local P-TA Council will take place Wednesday afternoon at 1:30 o'clock when new council and unit officers will be installed in the high school gym. A council meeting will be held and there will be a school of instruction for the new officers. This meeting will about wind up activities for the 1948-49 school year. It's been a good year for the organization and we extend our congratulations and best wishes for 1949-50.

"Your School On Air" To Be Heard Wednesday

"Your School On The Air" will be broadcast Wednesday at 3:00 p. m. by the third and sixth grades of the East Ward school under the direction of Mrs. Bill Griesse and Elfa Schrank, radio chairman of the East Ward school. W. C. Blankenship, superintendent of schools, will give a brief talk.

Note The Size Range

2973
SIZES 14-50

For freedom's sake this new shirt-waist style features easy fullness in the bodice plus plenty of pleats in the skirt. Both short and long sleeve length included in pattern.

No. 2973 is cut in sizes 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48 and 50. Size 36, 5 yds. 35-in.

Send 25c for PATTERN with Name, Address and Style Number. State Size desired.

The SUMMER FASHION BOOK is just off the press, all designed with the simplicity that speaks good style and easy sewing, and with special attention to the use of cottons. Over 150 pattern designs for all ages and occasions. Send now for your copy, price just 25 cents.

Address: PATTERN DEPT., Big Spring Herald, 121 W. 19th St., New York, 11, N.Y.

Family Reunion Is Held At Knott; Many Visits And Visitors Reported

KNOTT, May 3 (Sp)—A family reunion was held at the home of Mr. and Mrs. W. A. Burchell Sunday. Present were Sgt. and Mrs. R. D. Burchell and son, Camp Carson, Colorado, Mr. and Mrs. J. R. Dangel and son, Philadelphia, Pa., Mr. and Mrs. Edward Burchell and daughter, W. A. Landon, Waldon Burchell, Mr. and Mrs. Clyde Wood, Mr. and Mrs. Lloyd Curry and Jan, and Mrs. W. M. Hilborn, Big Spring.

Mrs. W. N. Irwin is visiting Mr. and Mrs. George Anders in Dallas. Mrs. L. T. Johnson, Mrs. J. C. Spalding and Mary Ann spent the week end in Sweetwater and attended the T. P. singing convention.

Sunday guests in the C. G. Ditto home were Mrs. M. M. Ditto and Mrs. A. E. Cockrell. Mr. and Mrs. P. O. Hughes, Big Spring, visited their son and daughter-in-law, Mr. and Mrs. V. R. Hughes, Sunday.

Mr. and Mrs. E. C. Airheart and Nelda Fay Latty visited Mr. and Mrs. Ben Elliott and family in Westbrook Sunday.

Attending the funeral of Joe L. Parks in Alpine Friday were: Mrs. James Jeffcoat, Mrs. S. W. Windom and Billy Jo Morris.

Mr. and Mrs. J. G. Nichols are visiting Mr. and Mrs. Stanley Martin in Fredricksburg.

Mr. and Mrs. Drayton Hawthorne of Anson visited Mr. and Mrs. H. R. Caffey Monday.

Mr. and Mrs. W. D. Burks and family were Sunday guests of his parents Mr. and Mrs. C. A. Burks. A group of seniors went to Abilene Saturday to attend Field Day at Hardin-Simmons University. Making the trip were Wanda Lee Robinson, La Rue Tate, Maurine Chapman, Gerald Cockrell, Miss Tompkins, Mrs. T. M. Robinson and Mrs. Fred Roman.

Mr. and Mrs. Billy Crawford and Mr. and Mrs. Cecil Autry were Sunday guests of Mr. and Mrs. Arnold Lloyd.

Mrs. J. C. Spalding entertained Friday with a Stanley party. Mrs. C. B. Nunneley, Big Spring, directed games and contests. Refreshments were served to Mrs. Roy Phillips and Patsy, Big Spring, Mrs. Elsie Smith, Mrs. Oliver Nichols, Mrs. C. A. Burks, Mrs. C. S. Ross, Mrs. Robert Brown, Mrs. Grady Hodnett, Mrs. Frank Hodnett, Mrs. Fred Roman, Mrs. J. B. Sample, Mrs. Richard Thomas and Mrs. Cecil Allred.

Robinson, Wanda Lee, Joyce, Carol and Martha, Mr. and Mrs. Fred Roman, Mr. and Mrs. E. L. Roman, Wanda Jean, Donnie and Judy.

Rev. R. D. Hill of Klondike visited the Fred Romans Sunday afternoon.

TEXAS LADY LOSES 47 POUNDS

The following remarkable story shows conclusively that Barometra DOES take off fat. It contains nothing harmful. In fact, it contains ingredients that make you feel better. No starvation diet—no weakness and no hunger. Barometra, the original grapefruit juice recipe, takes off fat quickly, safely and you can eat plenty.

Here is proof

Here is what Mrs. H. F. Bishop, Route 1, Stamford, Texas, has to say:

"I am very glad to endorse Barometra, as please accept my sincere thanks and appreciation for the great benefit I derived from its use. I not only lost weight, but also looked and felt better in every way. I had to have a very serious operation and was told that I must lose a lot of weight before the operation could be performed. I went on a diet and tried very hard to lose 100 pounds, but wasn't losing much weight until I heard of Barometra. I began taking it and would soon tell the difference in the way I felt and the weight I was losing. I weighed 200 pounds when I started and I lost a total of 47 pounds and was able to undergo my operation. I am truly grateful to recommend it to others, since it did so much for me."

At all druggists

If you are overweight and want to take off pounds, just get to your druggist and ask for four ounces of liquid Barometra. Pour this into a glass bottle and add enough grapefruit juice to fill bottle. Then take just two tablespoons twice a day. If the very first bottle doesn't show you the difference, get way to take off weight, return the empty bottle for your money back.

S.S.S. Family Favorite for Over 70 Years

WELCOME RELIEF From Your Run-Down

TIRED FEELING

Starts to Work at Once
Helps Keep You Feeling Better

Recently a man wrote: "I felt myself slipping. No color, losing weight, couldn't sleep well. I took several bottles of S.S.S. Now I feel like a different person—100%."

To get real relief when your blood count is low—to regain your strength—you must keep up your blood count. S.S.S. Tonic works quickly and effectively in building-up low blood strength in men, women and children who have non-organic simple or nutritional anemia. So why wait! S.S.S. Tonic helps Nature work faster when extra help is needed.

Millions of bottles sold! Get a bottle of S.S.S. Tonic in the big red box from your drug store. Family size: \$2.00; Regular size: \$1.25.

DOCTORS' TESTS PROVE
You Get NEW Vigor and Pep when you energize your body with RICH, RED BLOOD

S.S.S. Tonic goes right to work to build-up your blood strength... builds-up starved, weak blood to renew energy and pep. Medical authorities, by blood analyses on case subjects, taking S.S.S. Tonic, state the following conclusions:

... Laboratory studies show that for increasing red-blood-cells and for making the cells rich in coloring matter S.S.S. Tonic was definitely greater than Liver and Iron...

Other Tests Showed stomach gastric discomfort relieved, and that food was more quickly digested—thereby giving steady relief from ACID INDIGESTION

Fred Rodriguez Whiffs 13 In Notching First Victory

Errors Betray Odessa Oilers

It was one of those games in which the home team in victory didn't look as good as did the guests in defeat.

The Big Spring Bronces registered a 7-5 win over the Odessa Oilers before something like 1,100 fans here Monday night, most of whom must still be wondering how they managed it.

Odessa slugged out 13 assorted base blows, including two round trippers, to six for Big Spring. Everytime one glanced up, it seems, the Oilers were looking down the throat of Fernando Rodriguez, the Big Spring tosser.

But Trompoloco, who owns quite a speed ball at times, rode out squall after squall with his usual demeanor and struggled in to notch his first victory of the campaign.

Jess Grimes of the visitors pitched well enough to win half a dozen games but Ledy Luck deserted him at the most crucial times. Too, he committed a bobble in the sixth on a simple pop fly hit by Rodriguez that led to three runs and the difference between the two clubs.

All Grimes had to do to take Rodriguez's pop was to stick his glove hand up and let the ball trickle down his sleeve. As it was, however, he juggled it, made two stabs at it as if the thing were a disappearing thumb and finally dropped it. Two runners scored while the comedy was going on and a third was to dance home a short time later on Felix Gomez's one-baser through the box.

Bert Hernandez hit a powerful three-run four-master in the second to put Big Spring out in front to stay.

Alex Monchak and Frank Mormino had four base hits for the opposition, each of which came with a runner on. Monchak hit his in the fourth with Bob Doe up front. Mormino's homer came in the ninth, also with Doe on the sacks.

The Odessans committed six errors in all and at least four of them figured directly in the Big Spring scoring.

DIAMOND DUST—Potato Pascual hit a long blow in the fourth that was headed for the fence but Howard Eberthorn went back to take it. Ace Mendez was robbed of a blow by Wayne Batson in the third when he sizzled one directly at the Odessa first sacker. Ray Vasquez, the Big Spring short stop, didn't get his first fielding chance until the sixth, when he accepted a throw by Hernandez to erase Eberthorn at second. It was his only one all night. Al Valdez received credit for a freak hit in the sixth when he dropped one out in no man's land. Dick Bayman never did quite get under it. Grimes used the bat like a cleanup hitter. He drove out two safeties and connected with the ball everytime. Rodriguez seemed to have his fast ball when he needed it. He fanned 13 batters, including Bayman four times.

Sports In Brief

By The Associated Press

BASEBALL
New York—Court issued a summons for Manager Leo Durocher of New York Giants charging him with simple assault against Fred Boyesen, a Brooklyn fan, at the Polo Grounds last Thursday.

Chicago—White Sox denied rumor of a \$500 fine against Catcher Joe Tipton and said everybody was happy on the second place club.

GOLF
Athens, Ga.—Al Besselink of the University of Miami defeated Dave Smith of South Carolina, 1-up in 37 holes, to win the Southern Intercollegiate Golf Tournament.

Southern Pines, N. C.—Dick Shapman led a field of 85 in the first round of the Carolinas Open Golf Tournament with a four-under par 68.

DERBY CANDIDATE — Capot (above) with Jockey Ted Atkinson up, is slated to carry the Greentree Stable colors in the diamond jubilee running of the Kentucky Derby in Louisville. (AP Wire-photo).

Looking 'Em Over

by Tommy Hart

Plan for having the Howard County Junior college football team scrimmage several jaycee elevens of this area next fall has already been junked. Instead, the Jayhawks will play a regular schedule now being booked by Harold Davis, athletic director of the school.

Original designs called for a "get-acquainted" program the first year and a full-scale schedule by the 1950. Promoters at the school were to proceed cautiously because they didn't know how much interest would be manifested.

However, from all indications, there will be more candidates for the team than Davis and Johnny Dibrell, who will serve as head coach, can suit out. Dibrell is now quite confident he will be able to field a fairly strong first eleven.

Davis is trying to book games with such teams as Ranger, Odessa, Clifton and Weatherford. Most of the clubs, let it be added, still have openings on their '49 schedules.

TURNER BROKE DISCUS RECORD, YET FINISHED THIRD
Delmar Turner, the big boy who will probably man a tackle post for Dibrell next fall, succeeded in breaking the discus record at the Brady Junior College track and field meet last week but still came in third in that event.

Turner tossed the saucer 119 feet 11 1/2 inches, a feat which shattered the old mark by 8 feet 5 inches. The winning toss, however, was 122 feet.

Bob Reed of HCJC wound up fourth in the 100-yard dash, and that after covering the distance in 10.2 seconds.

The three points Turner and Reed accounted for enabled the locals in finish in sixth place in the Brady show, which was won by San Antonio JC. The Hawks finished ahead of such schools as Amarillo, Cisco and Ranger in team standings.

HARDESTY CAMPAIGNING TO GET CLARK IN UT
Frank Hardesty, the University of Texas ex who now operates a drugstore here, has been carrying on a one-man campaign to get Don Clark, the HCJC basketball-baseball star, into the Austin school.

Hardesty, an old basketball hand himself, figures Don will make Jack Gray, the UT cage mentor, quite a hand at the round ball game. He says Clark plays the type of game Gray goes for, would be invaluable to a club that was short on reserves last year. He furthermore opines Don could make the starting nine as a baseball player.

DOUGLASS DID ALLRIGHT IN TOURNAMENT
Jake Douglass of Our Town, only local entry in the West Texas-New Mexico Bowling Association tournament, which is underway in Lubbock at the present time, bids fair to win a few shekels when the prize money is handed out.

Jake is competing with the Mission Orange team of Lubbock, currently in third place in team standings. (There are 72 team entries.) In doubles, Douglass teamed with E. G. Christenson of Lubbock and the two of them led for a while, having compiled a score of 1293. Two duos succeeded in overtaking them but it appears now Douglass and his partner will wind up in third place.

Jake is holding down third place behind Ben Brown, Lubbock and Christenson in all-events with an 1885, just 80 pins off the pace.

In ragtime doubles, which is being held in conjunction with the tournament, Douglass teamed with T. L. Brown of Lubbock to nail down second place with an aggregate of 1206.

George Tate, Lubbock, well known here, is the leader in singles play at the moment with a score of 719. Charles Gay, Odessa, holds second place with a 610. Albuquerque will get the 1950 tournament.

Derby Trial Set To Be Run Today

LOUISVILLE, Ky., May 3. (AP)—This Kentucky Derby business really begins to warm up today with eight eligibles for Saturday's \$100,000 jamboree squaring off in a race worth \$90,000 less—the Derby Trial.

Several of the "leading men" in the world famous classic are slated for action in the one mile trial. It is the final test before Saturday's colorful show.

The three big horses in this afternoon's race appear to be Fred W. Hooper's powerful combination of Olympia and Ocean Drive, and Greentree Stable's ever-dangerous Capot.

Capot, who is being ridden by jockey Ted Atkinson, is the favorite to win. He is a three-year-old colt, bred by Greentree Stable, and is owned by the same stable. He is a dark-colored horse and is known for his speed and endurance. He has won several races and is expected to be a top performer in the Derby.

Dallas Eagles Slow Missions With 12-3 Win

By The Associated Press

The Dallas Eagles, like a card sharp, let the opposition win one once in awhile just to keep up the interest in other Texas League baseball clubs.

San Antonio's Missions were elated to stop the Eagles with only three hits Sunday night. They figured that was the turning point. Then what!

Last night the Eagles blasted 11 hits in licking the Missions 12-3 and the field returned to the study of ways and means of getting into Dallas' class.

Houston beat Fort Worth 4-2, Tulsa downed Beaumont 10-5 and Oklahoma City edged Shreveport 2-1 in other games of the night. It meant all the first division clubs except Dallas slid down.

The home run bats of the Eagles roared ominously. Bill Serena pounded his ninth and tenth homers of the season while belting in five runs. Buck Frierson wasn't so spectacular but he got more results as he sent five tallies across the plate with a circuiter and a double.

Augie Zande was the hero in Houston's victory over Fort Worth. Zande handuffed Fort Worth with a great relief job in the last six innings. He came in with the score 2-0 in favor of the Cats and put out the fire while his mates, featuring Solly Henus, pounded on for single runs in the third, sixth, seventh and eighth.

Dick Rozek elbowed a five-hitter as Oklahoma City licked Shreveport. It halted a Shreveport winning surge that had gone eight games. Oklahoma City got nine hits off Dee Sanders and scored in the first and seventh frames. The Shreveport tally was on an error.

Tulsa ended a six-game losing streak in trimming Beaumont. The Oilers battered across six runs in the sixth to ice the game. A homer with the bases filled by Joe Adecock was the big blow of the frame.

WT-NM League A Run Factory

By The Associated Press

It was one of those nights in the West Texas-New Mexico League. The boys went run-crazy. Exactly 94-count 'em—filtered across the plate in the four games.

The biggest slugfest was the Borger-Amarillo thing. The Gassers beat Amarillo 24-14 to stay in the league lead.

Borger, winning its ninth straight, used 24 hits to pulverize the Gold Sox. The Gassers scored eight runs in the third and nine more in the fourth.

Albuquerque, in a virtual tie with Borger for the top, held the pace, by licking Clovis 17-15 in the other scoring battle. Clovis pitched in eight errors in the three hours and seven minutes of play. Tom Breisinger doubled in the winning run.

Mike Dooley hit a homer with the bases full and Jim Prince parked one with two on in leading Lubbock to a 14-4 decision over Pampa.

The only low-score game was at Abilene where the Blue Sox beat Lamesa 5-1 behind the four-hit pitching of Rene Vega.

Leaders Face Major Tests On The Road

By JOE REICHLER

Associated Press Staff Writer

The baseball spotlight was focused today on the New York Yankees and Cincinnati Reds as the first set of inter-sectional clashes in the majors got under way.

Having demonstrated, rather amazingly, their ability to cope with their associates in the eastern half of the American League, the surprising Yankees now face their big test in the West.

Although they received rough treatment by Boston in their 11-2 defeat Sunday, Casey Stengel's men took 10 out of 13 from the east, and seven out of eight in the Stadium.

That showing gave them a two-game bulge on the rest of the field. More important, however, are their two-and-a-half and three-and-a-half game leads over Cleveland and Boston, the teams generally figured to battle for the flag.

The Stengelmen open today in St. Louis, where they face the Browns twice. Then they engage the White Sox three times in Chicago, the Tigers three times in Detroit and the Indians once in Cleveland. There also are three games in Philadelphia as a prelude to their return home.

The big surprise in the National League has been furnished by Bucky Walters' Reds. Last place choice by nearly every expert in the pre-season pool, the Reds have caused a lot of red faces by winning seven of their first 12 games. That put them in second place, only a game behind the pace-setting Boston Braves.

Neither the Dodgers and Red Sox, pre-season favorites to meet in the World Series, has been able to do better than .500. The Dodgers won only six of their first 13 games, and the Red Sox split their first 12. In the other hand, the Chicago, doomed to the American League basement by a majority of the scribes, have won eight and lost five to take over the runner-up honors to the Yankees.

There were no games scheduled yesterday in either league.

Texas PGA Show Is Underway

DALLAS, May 3. (AP)—Sixteen foursoomes moved out today in a best-ball feature of the Texas PGA Week-Long Golf Tournament.

Included among the 64 professionals were three women — Betty Mims White, Dallas, who officially turns pro today; Louise Suggs of Lithia Springs, Ga., and Patty Berg of Minneapolis.

Byron Nelson, defending Texas PGA Open champion, will play in the best-ball event.

Another woman pro was added to the field today with announcement by Betty Jameson of San Antonio that she would be here tomorrow for a golf clinic.

Five professionals qualified for the National PGA at Richmond, Va., in sectional rounds yesterday. Jack Harden of El Paso shot a four-under-par 138 for the 36 holes to lead the 30 pros posting scores.

Second were Ray Hill of Shreveport and Raymond Gafford of Fort Worth with 141. Frank Champ of Lake Charles, La., and Charles Klein of Amarillo captured the two other spots with 143's.

Nelson is exempt from qualifying, being a former national PGA champion.

The Herd is booked to meet the league leaders, the Lamesa Tornados, in a game here Friday afternoon.

Standings:

TEAM	W	L	Pct.
Lamesa	7	1	.875
San Angelo	5	3	.625
BIG SPRING	5	4	.556
Midland	4	4	.500
Odessa	5	6	.455
Abilene	4	5	.444
Sweetwater	1	8	.111

Jenkins Beaten

PHILADELPHIA, May 3. (AP)—Eddie Giosa, 137, Philadelphia, out-pointed Lew Jenkins, 136, Sweetwater, Texas, in a boxing match here last night. It was a 10-round affair.

TEXAS CLINCHES CROWN
By The Associated Press
The University of Texas is golf champion of the Southwest Conference. The Longhorns clinched the team title yesterday by beating Arkansas 5 1-2 to 1-2.

LEAD AT STAKE

Oilers To Play Jayhawks In Headliner On Sunday

The Tri-County baseball league race reaches a boiling point Sunday next when Howard County Junior college and the Forsan Oilers, unbeaten in conference competition to date, clash at Forsan.

The Jayhawks unleashed their big bats last Sunday to topple Ackerly, 17-7, after being held to one-run victories by Knott and Coahoma.

Forsan has churned past Cosden, Ackerly and Knott without working up a sweat. In three outings, the Oilers have registered two shut-outs.

Harold Davis, the HCJC coach may send Don Clark to the hill against the Oilers. Wes Roberson, Forsan, is due to counter with reliable Lefty Shelton, who already has a no-hit no-run game to his credit this year.

In other league games Sunday Coahoma will visit Knott and Ackerly comes to town to play Cosden.

Standings:

TEAM	W	L	Pct.
HCJC	3	0	1.000
Forsan	3	0	1.000
Cosden	1	2	.333
Ackerly	1	2	.333
Knott	1	2	.333
Coahoma	0	3	.000

Lippy's Parley With Chandler Slated Today

CINCINNATI, May 3. (AP)—Leo Durocher marches back onto Baseball Commissioner A. B. Chandler's carpet again today.

But this time the fiery Leo goes before Chandler loaded with statements in support of his claim that he was not at fault in an alleged assault on a fan at the Polo Grounds last Thursday.

Fred Boyesen, the fan, has filed a charge of simple assault against Durocher, claiming the New York Giant manager hit and kicked him. But the Giants' official family came here for the hearing armed with affidavits that Leo was not the guilty party. One of those affidavits was signed by a fan who said he thought he accidentally kicked Boyesen when the latter fell.

Durocher now is under an indefinite suspension which Chandler slapped on him the day after the incident in the Polo Grounds.

The commissioner said yesterday he was "of an open mind," but his desk was piled with letters and telegrams asking for leniency for the Giant pilot.

A source close to Chandler has said the suspension was imposed immediately as a precautionary measure. That source said Chandler feared there would be acts of vandalism from the Harlem section of New York if Durocher remained in uniform.

Durocher, accompanied by Giant President Horace Stoneham, Carry Schumacher, assistant t Stoneham, and club secretary Eddie Brannick, smiled for photographers when he arrived here last night by plane from New York. However, the whole party appeared to be in a very sober state of mind.

Bulldogs Triumph Over Eagles, 8-1

ABILENE, May 3.—The Midland Bulldogs crossed the plate three times in both the first and third innings to build an advantage that was never seriously challenged as they handed the Abilene Eagles an 8-1 District 3AA setback here Monday.

Costly errors by Abilene and timely hits by the Bulldogs produced most of the Midland runs.

GUERRA SLATED FOR HILL DUTY

Gil Guerra will probably open on the hill for Big Spring tonight when the Bronces host the Odessa Oilers in the second game of their abbreviated series.

Alex Monchak, the Odessa pilot, has not announced his mound choice but it could be Ray Knoblauch, a limited service man from Bay City, Mich.

Last night's game was the final in a Big Spring uniform for Justo Azpiazu, popular first sacker. Azpiazu left this morning for Havana where he will become a member of the Havana Florida International league.

A rookie first sacker, whose name could not immediately be learned, will take over at that position for Big Spring.

Gumbo Helba, a veteran pitcher of the 1948 season, will rejoin Big Spring today.

SAYS LORD WAS HOMOSEXUAL

Hester Once More Changes His Story

CLEBURNE, May 3. (AP)—Arthur Clayton Hester, convicted slayer of Dr. John Lord, twice has changed his trial testimony that Dr. Lord was a homosexual.

Waiting in jail here to be taken to the state prison where he faces a 50-year prison sentence, Hester yesterday said Dr. Lord was a

Seven Negroes Given Death On Rape Count

MARTINSVILLE, Va., May 3. (AP)—Death in the electric chair had been decreed today for seven Negro men found guilty of raping a white Martinsville housewife five months ago.

The last two of the seven defendants, James Luther Hairston, 19, and John Clabon Taylor, 20, were convicted last night by a Martinsville circuit court jury.

Hairston and Taylor were tried jointly on motion of their own attorneys. Their conviction climaxed the series of almost identical cases which opened April 18 after a motion for change of venue had been denied by Judge Kennon C. Whittle.

Eleven days of court proceedings were required for the seven to be tried and found guilty of raping Mrs. Ruby Stroud Floyd on the night of Jan. 8 as she walked in the Negro section of East Martinsville.

Identified by Mrs. Floyd as those who raped her "12 to 14 times" on the Danville and Western Railway tracks and in a nearby wood were James Hairston, Taylor, Joe Henry Hampton, 20; Frank Hairston, Jr., 19; Booker T. Millner, 20; Howard Lee Hairston, 19; and Francis DeSales Grayson, 37.

State police produced at each of the trials statements of confession which they said the Negro men had signed. Nevertheless all the men pleaded not guilty when they faced the court.

Under Virginia law, the jury determines guilt and fixes the punishment in criminal cases.

sex pervert. Hours later he reversed and said, "Dr. Lord was a homosexual, just like I said to start with, my statement was untrue. I made it because I thought it would help me."

Hester was convicted last Saturday of the bludgeoning of Dr. Lord, 70, dean of the graduate school at Texas Christian University in Fort Worth. Dr. Lord had taken Hester off the streets and given him a home.

The handsome, evert jaunty youth of 18, appeared voluntarily in the office of Dist. Atty. John A. James yesterday. He had asked Sheriff Houston Walling to take him there so he could "clear some things up."

In an interview with Jack Proctor, Cleburne newspaper man, Hester said, "I wanted to clear the name of Dr. Lord because I really liked the old man."

In his signed statement to James Hester said: "I was afraid Mr. James would prosecute me again if I said I had lied during the trial. Dr. Lord was not a homosexual as I testified to and not at any time did he ever have an unnatural sexual relation with me or conduct himself in any manner that would lead me to believe him a homosexual."

Then he said to Proctor, "My life was at stake; I had to frame it."

Later, after questioning by the district attorney, Hester reversed himself the second time.

During his trial Hester said he beat the educator to death because he failed to keep a promise to lend him the family car if he would submit to an unnatural act.

He indicated these two factors were involved in the slaying on May 8.

Hester was arrested in Los Angeles March 12, after driving and hitch hiking there from the Lord home near Burleson, a short distance south of Fort Worth.

Massachusetts Seeks Texan In Alleged Assault

BOSTON, May 3. (AP)—The government is trying again to bring a Texan back here to face federal charges of assaulting his mother-in-law and spiriting away his daughter.

The charged man is Louis Bob Conley, 29, ex-Army sergeant from Amarillo.

Many people in Amarillo, local authorities said they understood, have contributed to a Conley defense fund because they resented a Massachusetts judge's remark that "some southerners would just as soon beat a woman as a horse."

Yesterday the federal government prepared a brief outlining its case for Texas authorities. Court attaches said authorities hoped Conley would be returned by court order or would return here voluntarily in time for the June session.

Conley is under a Plymouth County, Mass., indictment for the second time. The first indictment was found faulty. The indictment alleges Conley assaulted his mother-in-law with a dangerous weapon and took away his daughter, Lynette, 3.

Fifteen Producers Race Federal Court

DALLAS, May 3. (AP)—Fifteen movie producers, distributors and exhibitors facing a federal restraint of trade suit have been granted a 20-day delay in the date of their hearing.

Federal Judge William H. Atwell yesterday ordered the delay in the suit brought by Charles Brent of Dallas and W. H. O'Bryan of Oklahoma City. The pair, owners of the village theater in Port Arthur, complained they were unable to get first run films.

The trial will be held probably in federal court in Sherman or Tyler.

Defendants named in the suit are Jefferson Amusement Co. which operates all other theaters in Port Arthur; East Texas Theater, Inc.; and the Paramount, Loew's, M-G-M, R-K-O, Warner Bros., Twentieth-Century Fox, Columbia and Universal Film Companies, a and their distributing companies.

Brent and O'Bryan said they have lost \$125,000 worth of business and ask treble damages under federal anti-trust laws, plus \$37,500 at attorney's fees.

U. S. Family Doctor's Importance Stressed As Medical Meet Opens

SAN ANTONIO, May 3. (AP)—The president of the state medical association says it is the family doctor, not the specialist, who must look after the nation's health.

Dr. Tate Miller, Dallas, estimates 90 per cent of the ailments of humanity can be treated by the family doctor.

Miller spoke yesterday before the Texas Academy of General Practice, one of 11 medical groups to hold meetings preliminary to today's opening of the eighty-second annual session of the State Medical Assn. of Texas.

"Specialization has been given an undue amount of prominence," he said.

As Miller spoke before the academy, chairman of the association's public relations committee, was one of three doctors to attack the proposed federal legislation of insurance yesterday.

The others were Dr. H. E. Griffin, Graham, chairman of the committee on Medical Economics, and Dr. George W. Cox, state health officer.

New presidents of the medical organizations holding preliminary business sessions yesterday include: Dr. H. T. Jackson, Fort Worth, Texas Academy of General Practice; Dr. C. Hansford Brownless, Aus-

Future English Queen In Gay Mood

LONDON, May 3. (AP)—The future queen of England sang "Minnie the Moocher" at the Palladium Theater last night.

Princess Elizabeth, along with the rest of the audience, joined American Comedian Danny Kaye in several choruses of the song.

It was the third time since Kaye's British premiere last year that the Princess and Prince Philip had seen him perform. They sat in the audience for some 50 minutes and then went backstage to talk with Kaye for another 45 minutes.
