Warren Addresses Issues

I would like to address some issues of importance.

1. The Unitary System has been mentioned as a possibility to be studied for Eastland county. The Unitary System is based on combining all equipment and personnel under one administration in a central location. This system would reduce services to the outlying areas and the extra cost of building and operating this system would be a tremendous tax burden. This system will not work and I would not be in favor of this system at all.

2. The County vehicles and equipment belong to the County and should not be used except for County business.

3. I do not have a problem with the main office and barn being at Rising Star, where there is a very good shop and a large storage area for materials.

4. I believe that the area north and northwest of Gorman that is in Pct. 3 but is maintained by another commissioner, should be brought back under the maintenance and control of Pct. 3 Commissioner whom they vote for.

Pct. 3 as a whole has the best roads in the County. If elected, I will continue to keep them that way and make

in Brownwood, Texas to Johnny Dee and Mary Frances Horton. He lived in DeLeon all his life.

Survivors include his parents, Johnny and Mary Horton of DeLeon; three brothers, William Joseph Horton of Grand Prairie; Thomas Paul Horton and Daniel Lee Horton, both of DeLeon; grandmother, Dorothy Horton of DeLeon; great-grandmother, Ruby Smith-Self of Bangs.

He was preceded by grandparents, Terrill Horton and Fred and Jeanette Moline.

The family requests memorials be made to DeLeon Hospital or Cook Children's Hospital in Ft. Worth.

Thank You

Words cannot describe the depth of our appreciation to the citizens of Gorman and DeLeon for their support in our moment of tragedy and grief. We are overwhelmed by the amount of wonderful people who truly care. You shared with us our loss and made it bearable. You shared with us your faith and helped us not to despair. You gave us comfort in our time of sorrow and let us know you share our pain.

There are so many people who sent flowers, cooked meals for us, and helped us financially that we just cannot name them all. May God bless you all and find us worthy to serve you in return.

Let's all now rejoice in the knowledge that little Lucas is with the Lord. Gratefully yours,
The Horton family

improvements when needed.

Even though Pct. 3 is the largest Precinct in the County, I will not favor one area over the other. Each community is just as important as the other.

Being a landowner and tax payer, I know the importance of having good roads and keeping our taxes as low as possible.

I will provide a strong voice for our Precinct on the Commissioner's Court. I will keep the people informed of all County issues, and I would not hesitate to ask the people for their opinion on issues that was as controversial as the extra expansion of the new County Jail.

The County Commissioner's job is not a part-time job. I will devote full time to the Eastland County Commissioner Pct. 3 position.

I will have an open door policy and help anyone anyway I can.

Again, I am asking for your support by voting for Wesley Warren on April 11th.

Sincerely,
Wesley N. Warren

Gorman Recognizes FFA Contribution to Agriculture

Gorman celebrated National Agriculture Week with a Wednesday, March 22nd ceremony to recognize the Gorman High School FFA whose contributions locally have helped to make agriculture in Texas and America the envy of the world.

Keith Graf, director of U. S. Senator Phil Gramm's Dallas Regional Office delivered remarks regarding the significance of National Agriculture Week. Graf presented the Gorman High School FFA Program will a Certificate of Appreciation from Senator Gramm during the ceremony.

This year, National Agriculture Week was observed March 20th thru 24th. "As we all know, a vibrant American agriculture industry is vital to ensuring an equally dynamic U. S. economy. It is important to note that agriculture provides jobs for 21 million Americans, and provides 16% of the nation's income," Gramm said.

"American farmers produce hundreds of different crops and dozens of breeds of livestock on a countryside that ranges from lush pasture lands to deserts, huge plains to high mountains, and vast rural areas to suburbia. Our farm families spring from different ethnic backgrounds, work successfully in every imaginable kind of farming structure, and have a unique combination of entrepreneurial genius and managerial skill," the senator said.

"I applaud those Texans who are committed to the continued growth of American agriculture as we enter the 21st century," Gramm said.

Happy Birthday to Brandy Carlton on Wed. 22nd.

Happy Birthday to Mildred Fambrough on Wed. 22nd.

I hope everyone had a safe and fun spring break this past week. My three girls had a lot of fun staying with their grandparents and going to their cousins to play. I got to take the week off and go with my husband on the truck to Seattle, Washington. We got to see Texas, New Mexico, Colorado, Utah, Idaho, Oregon, Washington, Oklahoma and Wyoming. We had a wonderful time seeing all the mountains and snow. We also "enjoyed" a little storm beginning in Laramie, Wyoming all the way to Denver, Colorado where we stayed that night. I told Tony before we left that I wanted to see a lot of snow and maybe even a little storm. Well I sure did get my wish. It was beautiful though and I enjoyed every minute of it. Of course I wasn't having to drive up those mountains and in the storm either.

Everyone at Carbon Community Baptist Church would like to congratulate Tony and Krystal Forbus on the birth of their daughter. She was born Monday March 20th. Weighing in at 9lbs 9oz. Mother, daughter and daddy are all healthy and happy.

Store up for yourselves treasures in heaven, where moth and rust do not destroy, and where thieves do not break in and steal. Matthew 6:20

Have a good week and God Bless.

Oakland Cemetery Vandalized

To all who are a part of the Oakland Cemetery in any way, we would like to let you know what happened there.

Vandals hit the Cemetery Sunday night and did a lot of damage.

There are thirty six monuments turned over. Some are broken very badly and all will need a great deal of work. They are very heavy and can only be done by machinery.

We are asking everyone to be patient with us as the Comanche Co. Sheriff's Department and Comanche Crime Stoppers are busy on it right now.

Also, we need to get an estimate as to what it will all cost.

We say to everyone who can help in any way toward the cost of this to please, do so now. Any amount will be greatly appreciated.

Thanks to all who have helped in the past. Now we need everyone again. s/Opal Burton, Sec. of Association, Rt. 3 Box 159A, Gorman, Texas 76464

John Rueter Joins American Angus

John Rueter, Carbon Texas, is a new member of the American Angus Association, reports Dick Spader, executive vice president of the national organization with headquarters in St. Joseph, Missouri.

The American Angus Association, with more than 34,000 active adult and junior members, is the largest beef cattle registry association in the world. Its computerized records include detailed information on over 13 million registered Angus.

The Association records ancestral information and keeps records of production on individual animals for its members. These permanent records help members select and mate the individual animals for its members.

These permanent records help members select and mate the best animals in their herds to produce high quality, efficient breeding cattle which are then recorded with the American Angus Association. Most of these registered Angus are used by U.S. farmers and ranchers who raise high quality beef for U.S. consumption.
