News this week of temporary designation, by the state highway commission, of a highway route from Lamesa to Brownfield should serve as a reminder for Big Spring not to relax efforts for a direct road to northern Martin and Andrews counties.

The Lamesa-Brownfield project was advanced as a highway giving direct outlet from the south to the Yoakum and Hockley county oil fields. Oil development in that northern area is going at a brisk pace, and the road is needed. It will help the oil fields, and it will help the towns given direct connection with the oil fields.

The road should be welcomed by Big Spring. We still have the western route into Andrews county to perfect, however. Let's keep after it.

Can you read comfortably in your favorite chair? Is one end of your davenport in a gloomy shadow? Does the whole family have to crowd around a single lamp when they try to read or study?

Too often the answers to these questions are wrong-too often there are not nearly enough lamps of the right kind to go around. So we would like to suggest that you consider seriously the lighting in YOUR home -you can have all the light you need wherever and whenever you want it for a few pennies a day invested in cheap electricity.
