Irish Leader Loses Control Of Parliament

Election Defeat Is Accomplished By Slim Margin

DUBLIN, Feb. 6. (AP) — Thomas L. Mullins, secretary of the Fianna Fail (government party), said today Prime Minister Eamon De Valera lost his Dail (Parliament) majority by a slim margin in Wednesday's general election.

But Mullins said the prime minister would be able to form a new government with the support of labor and independents.

Complete returns from three quarters of Eire's 40 constituencies showed De Valera's Fianna Fail could not hope to obtain the 74 seats needed for a clear majority in the 147-member Dail.

The latest official returns issued by the government information bureau gave the Fianna Fail 53 of the 106 seats thus far determined.

The Fianna Fail led the old Dail, dissolved last fall, with 75 of the 142 seats.

During the campaign De Valera said he wanted no part of a coalition government.

Sean Mac Bride's year-old Clann Na Poblachta (Republican party) slipped into fifth place from a tie for fourth on the basis of the new returns. This party formed the general election by taking two by-elections last fall.

Mac Bride had predicted it would win 40 seats. Today it was sure of six.

Gen. Richard Mulcahy's fine Gael (United Ireland party), main opposition, was second with 21 seats. The normally small labor party stood third with 11.

Youth Problems Will Be Aired

AUSTIN, Feb. 6. (AP)—The problems confronting experts on juvenile delinquency, child health, use of leisure time, education, child care and protection and related questions will get a going over next week.

The Texas Committee for children and Youth—a clearing house for ideas on all aspects of child and youth activities—will hold its annual open session. The meeting begins Thursday.

Miss Katharine Lenroot will report on the National Commission for Children and Youth. She is chief of the U. S. children's bureau.

Mrs. Richard Turrentine, chairman of the state board of public welfare, will discuss the state's responsibility for children.

The State Training School Code commission, which is studying the problem of juvenile delinquency and its correction, will sit in on a number of sessions.

Harold P. Steck, who has headed the American Legion post here for the past 18 months, resigned as post commander Thursday evening.

D. L. Burnette, Jr., first vice-commander, was elevated to temporary commander with Dewey Martin, second-vice commander, in position to assume his duties.

Steck said his health had not been too strong and that in view of completion of the hut project, he felt it was time to retire.

Rolly McCullough was named sergeant-at-arms at the meeting, which attracted around 100 Legionnaires for signing of the permanent charter.

All who were members as of May 27, 1947 are entitled to sign the charter.

Having succeeded Alvin Thigpen, first commander of the reactivated post, Steck served out one full term as post head and accepted re-nomination in order to follow through on efforts to secure a club house for the post.

Since then, the hut, former officers club, has been secured from the City of Big Spring, has been improved and cleared of indebtedness. It is valued at around \$30,000, said Steck.

Membership in the organization has increased from around 140 to about 600, the retiring post commander reported.

Charges 'Gestapo' Planned For South

Solon Says Move Made By Truman

WHEAT PIT AS MARKET PLUNGES — Traders use hand signals on the floor of the wheat pit at the Chicago Board of Trade as wheat prices dropped 10 cents a bushel in wheat and the limit fluctuation in price downward for a single day's trading was reached.

WASHINGTON, Feb. 6. (AP)—The bitter Democratic feud over civil rights hit a new pitch today. Senator Russell (D-Ga.) contended that President Truman is planning an FBI "gestapo" to break down race segregation in the South.

Russell told a reporter the South's revolt against the President's call for new measures to knock down racial barriers "is more serious than any I have seen in my lifetime."

This is true, the Georgian said, because southern Democrats have interpreted the President's demand for an end to Jim Crow laws on trains and buses at the opening wedge in a fight to halt all race segregation.

That could mean, he said, Negroes and whites would attend the same schools, swim in the same pools, eat together and eventually, intermarry.

"The President has ordered the Federal Bureau of Investigation to work with the department of justice civil rights division and says it is giving specialized training to its agents. This is nothing more or less than an FBI Gestapo to break down race segregation in the South."

Russell's charge highlighted these other developments: 1. Chairman Taft (R-Ohio) called the Senate Republican policy committee together to pick a spot on the legislative schedule for an expected battle with filibustering southerners over one or more civil rights measures.

2. Senator Ball (R-Minn.) predicted that Congress will pass no anti-job discrimination bill with enforcement provisions. Ball voted "no" when the Senate Labor committee approved such a measure yesterday, seven to five.

3. Reports spread that Gov. Fielding L. Wright of Mississippi would move to a Tallahassee, Fla., meeting of southern governors today to have them issue a call for an "independent" Democratic convention to split away from Mr. Truman.

4. A Democratic official said the party's national committee will "sit tight" to see what happens before it charts its course.

Taft, who voted in committee against a bill to set up a fair employment practice commission with enforcement power, told reporters it will be up to the GOP policy group and the conference of all Republican senators to decide when or any similar measures should be brought up.

The Ohioan, a GOP presidential candidate, said he opposed the committee-approved FEPC bill because he believes it would be better to set up a commission which would seek to end job discrimination by voluntary means.

The committee bill is sponsored by Senator Ives (R-N.Y.), who is supporting Gov. Thomas E. Dewey of New York for the nomination. Patterned after a New York law, the measure would require that voluntary means be exhausted before legal penalties were used.

Although Republicans generally support such measures, GOP members split on this one, as did their Democratic colleagues.

Ball and Senator Donnell (R-Mo.) joined Taft in voting "No." Senators Hill of Alabama and Ellender of Louisiana represented the Democratic opposition.

Foster Oil Deal Is Reported

Tobe Foster of Lubbock is reported to have sold 45 producing oil wells, along with some scattered undeveloped leases in four West Texas counties, for a total consideration of \$3 million.

The sale was made to Louis Cherry and associates of Little Rock, Ark. It was learned that a part of the purchase price is to be paid in cash, and the remainder to be paid out of oil. The deal is effective as of Feb. 1.

Properties involved are in Mitchell, Howard, Dawson and Andrews counties.

It was reported that 30 of the wells sold had been owned by Foster on a 100-per cent basis. Of the other 15 wells, seven producers in the Welch field in northwest Dawson county were owned jointly by Foster and Riley Costa of Lubbock.

The other nine of these 15 wells are in Howard county and are owned jointly by Foster and G. H. Hayward of Big Spring.

Oklahoma To Stand Pat On Segregation

OKLAHOMA CITY, Feb. 6. (AP)—Oklahoma will stand pat on segregation of whites and negroes in schools—falling a contrary ruling by the United States Supreme Court.

The decision was made at a meeting of high state legislative and administrative officials which ended shortly after midnight today.

Greek Ships Are Ordered To Sink Subs

ATHENS, Feb. 6. (AP)—The Greek Navy ministry today ordered its warships to attack and sink all unidentified submarines in Greek territorial waters.

The order followed the reported appearance of two strange submarines.

One was reported between the Peloponnese and Crete, and another off the coast of Preveza, in the Ionian Sea. Preveza is primarily a supply port for Epirus.

Troop and supply ships now are being escorted by destroyers and corvettes equipped with depth charges.

Official sources said the submarine reported seen between Peloponnese and Crete was said to have attempted to make contact with a Caille and approached her, but submerged before reaching the vessel.

The ministry on public order, said a guerrilla band of eighty to 100 fighters clashed with gendarmerie units of Pylis village on Mount Parnes, only 11 miles from Athens. The mountain is clearly visible from Athens.

The ministry said the guerrilla unit was part of a band from Mount Parnosos which has been moving southward for several days.

Guerrillas reportedly attacked the gendarmerie station at Pyle and three of the 15 defenders were listed as missing after a battle which continued until early this morning.

ACTRESS IS GIVEN AWARD

WASHINGTON, Feb. 6. (AP)—Actress Madeleine Carroll today received the Cillian Medal of Freedom for her wartime work in France.

The blonde screen player was cited for her services as a hospital worker and ambassador of good will between the American soldiers and the French people.

Water Disrupts City Hall Phones

Telephone service to the city hall was erratic this morning because of a water leak which developed in the building, officials said.

The leak occurred in a water line serving a dressing room in the Municipal auditorium, releasing water on the telephone terminal box.

Most incoming calls reached the information desk, but for some two hours employees were forced to serve as messengers to notify staff members in various departments of calls for their respective offices, when the inter-office dial system was disrupted.

Students To Face Federal Charges

SAN ANTONIO, Feb. 6. (AP)—Federal officials joined state officers here yesterday in filing criminal charges against two A. & I. College students of Kingsville in connection with two alleged safe robberies in a theater at Kingsville.

The two students are Horace W. Cumbee, 26, of Scranton, Pa., and James C. Axtell, 21, of Clinton.

Charles A. Ellis, agent in charge of the U. S. secret service office here, filed a complaint before U. S. Commissioner P. A. Lockhart charging the students with the "forgery and negotiations of four war savings bonds cashed in San Antonio on Dec. 26."

British Market Drops

LONDON, Feb. 6. (AP)—British government bonds were firm today but other securities on the London exchange broke sharply, following the trend of prices on American stock and commodity markets.

FLASH IN PAN OR DECISIVE TURN?

Significance Of Tumbling Prices May Be Determined In The Next Few Days

By The Associated Press

Tumbling commodity prices for two days running raised high hopes today that a break in the high cost of living was finally in the cards.

Whether the housewife eventually would pay less for a loaf of bread or a cotton dress depended on one prime factor: Whether the break in prices is a flash in the pan or a decisive turn in the inflation road.

The answer may come in the next few days.

Wheat, considered a cornerstone in the national price structure, crashed the permissible maximum drop of 10 cents a bushel on Wednesday and Thursday in Chicago, Minneapolis and Kansas City. Corn, in which acute

weakness first developed, followed suit with the eight-cent maximum fall each day.

Cotton in the New York futures market dropped as much as \$3.55 a bale Wednesday and tacked on a fresh decline of 50 cents to \$1.95 Thursday.

In wholesale food and raw material markets lower prices were posted for such key items as flour, lard, hogs, cattle, lamb, grains, sugar, rubber and linseed oil.

The Associated Press average of 35 such commodities dropped to a low since Nov. 6. Less than a month ago the index had soared to a record high. Today's figure of 197.5 (1926 equals 100) compared with the 1941 high of 95 reached soon after Pearl Harbor.

Stock prices slumped Wednesday, but stiffened a bit yesterday although continuing the decline. On the average the stock market was at its lowest level since last June.

Experts pondered what the whole movement added up to. Many observers saw a basic cause in top heavy grain prices, swollen out of proportion of supply and demand. Weakness in the sensitive Chicago grain pit spread like burning oil to their exchanges, to the stock market, to wholesale commodity markets.

Reports from all over the nation have mentioned the skittish attitude of investors, speculators and businessmen. They have watched prices climb, have figured a break had to come sooner or later. The crack of the past two days might be the tip-off. Selling orders flooded markets, buyers stood aloof.

Underlying factors affecting prices have not changed in two days, many comments emphasized. While the experts have called for an early "readjustment of prices"—perhaps in a mood of wishful thinking—there are still to be considered such factors as: A huge money supply and a record high national income, the rising level of wages, high taxes, high industrial production, government monetary policies, the foreign aid program.

As one Washington official put it: "One swallow does not make a summer."

Those attending were Mrs. C. Williamson, Mrs. Dub Hale, Mrs. Bailey, Mrs. Aubrey White, Mrs. J. L. Wright and Mrs. W. A. Carter.

NINE SILVER DOLLARS Original Dr. IQ Teams With Pianist In AAUW Quiz Program Today

"Give the gentleman nine silver dollars!"

The original Dr. I. Q., who made such a phrase famous a few years ago on a popular national radio quiz program, will be giving prizes for correct answers once more in a program set for 8 p. m. today in the city auditorium.

This time, however, Dr. I. Q., who in reality is the Rev. James W. McClain of Eastland, will be giving away merchandise prizes totalling \$300 and ranging in value from \$2.50 to \$50 — plus silver dollars to those who miff their chance.

It's all part of the program sponsored by the Association of American University Women for the benefit of its scholarship fund.

A delightful part of the program too, will be the appearance of Joe Kreklow, whose nimble fingers and talent have won him places as pianist for the Fred Waring, Russ Morgan and Bob Grant orchestras, plus an assignment as accompanist for Hildegard.

Kreklow's interpretations on the concert grand will include three popular waltz selections, Tchaikovsky's "Concerto on B flat Minor," and finally ever popular numbers from Jerome Kern and Fritz Kreisler. His music will precede the quiz feature.

Prizes will include such items as bill folds, electric toasters, clocks, permanent waves, bedspreads, and a host of others. Those attending will be asked to retain their program until the quiz is concluded.

The Rev. McClain has been assigned by the Episcopal church as rector at Eastland since last summer when he was given his first parish upon completion of his seminary work. He wanted to settle in a small Texas town.

As a youth, he had considerable talent as a musician and vocalist but drifted off into boxing, roaming before he finally entered college. But radio fascinated him and he left his classes to become an announcer for WFAA-WAAB. Later he was special agent, announcer for the Texas Centennial, then was associated with the Texas State Network at its inception, finally taking up agency work which eventually led to his selection as "Dr. I. Q. — the Mental Banker."

Margaret Christie Is Speaker At HD Club Thursday

Margaret Christie, county home demonstration agent, gave a talk on the "General Principles of Landscaping," at the regular meeting of the Fairview Home Demonstration club in the home of Mrs. R. C. Nichols Thursday afternoon.

Miss Christie further stressed the importance of planting wind-breaks in West Texas.

Mrs. Allen Hull resigned as reporter of the club and Mrs. J. F. Skalicky was elected new reporter.

LADY SOLON WANTS LAW TO ALLOW MEN IN BEAUTY PARLOR SANCTUM

ALBANY, N. Y., Feb. 6 (P)—A lady legislator plumped today for a New York state law to make it legal for men to patronize beauty parlors.

Assemblywoman Genesta M. Strong says if men "want to go to beauty parlors for treatments, they should be able to do it within the law." "A number" of men avail themselves of beauty salon services, she adds.

A year-old state law requiring licenses for beauty parlors prohibits them from working on any but "female heads," the Nassau County Republican notes. Under the law, beauty parlors were limited even to manning "the nails of such (female) person."

Mrs. Strong, who said "no one

gave a thought to the possibility that men patronized beauty parlors," wants to amend the law.

The legislator reports that while talking to a hairdresser about scalp treatments for balding men she facetiously remarked:

"I suppose some men feel they need permanent waves too."

The hairdresser replied that was true and some men came to have their eyebrows plucked.

Mrs. Strong's amendment would permit beauty parlors to "stimulate the growth of hair of the head of any person," manicle the nails of "any person" or to do "any similar work intended to enhance the appearance of such person."

Grasshoppers Hurt Sports in Australia

ADELAIDE, Australia (P)—When clouds of grasshoppers descended on Adelaide, members of bowls clubs were mobilized by radio to save their greens from being eaten away.

They hosed the greens continuously to prevent swarms of grasshoppers from settling, and the following Saturday the game was able to go on.

The 'hopper plague also interfered with tennis matches, and players said they had difficulty in seeing the ball at times.

Some roads were carpeted with crushed bodies of grasshoppers.

In Which Direction Does Welfare Lie?

In what direction does welfare lie? This is a rather pointed question which is raised in a release compiled by the Texas State Teachers association and which is based on an analysis of records from the comptroller's department.

Here is the salient finding: Only five cents more of each tax dollar was required to educate more than a million and a half grade, high school and college students in Texas during the past fiscal year than was required to pay pensions to less than a quarter-million aged, blind adults and needy children.

Over the past 15 years, the study continued, the portion of the tax dollar to education had declined by five per cent, whereas that to welfare (pensions) had risen from three to 28 per cent.

In round sum figures, the state spent only about \$15 million more for education during the past fiscal year than it spent for highways and only \$16 more than for pensions.

Let there be some deception, it should be pointed out that the state allocation is by no means all that was expended on education in the state, for local districts have shouldered heavy loads and perhaps the total investment is twice the state's bill.

However, it does pose a serious thought—that the state ought to be putting a lot more to the welfare of youngsters, whose entire life and productiveness lies ahead, than to meeting a responsibility to the aged and unfortunate. But alas, school children can't vote.

A Decline Of Prices, But Not A Rout

Is there a recession around the corner? Some economists and experts are beginning to hint that market fluctuations indicate just that. They have a few cases in point on commodity declines within the past few days.

For instance, wheat and corn dropped the 10-cent limit on successive days. Lard went down two cents a pound and cottonseed oil two cents a pound. Locally, quotations on milo skidded 35 cents in two days.

Now these are the things which would immediately affect the most people. They represent essential commodities and sharp and continued declines would be reflected at counters.

But 20-cents off the price of wheat won't necessarily mean a cut in bread prices, nor will two cents off on lard soften the blow materially on kitchen fats. The thing will have to go a lot farther than it has before any major break is established.

It may be that we have come to a halting place and that trends are being slightly reversed. Until there is more evidence of downward pressure on prices, the recession talk is speculative. Worry about the possibility may indicate that business' conscience over prices is beginning to be pricked.

Civil Rights Problem In The Capital

WASHINGTON. — President Truman, in his message to Congress on civil rights this week, said:

"The District of Columbia should be a true symbol of American freedom and democracy... Congress runs Washington. The people whose homes are here can't vote. So the 800,000 residents can't choose their city officials."

Mr. Truman asked Congress to pass a law letting the people here vote. If they can, he said, maybe they can clear up the "inequalities" here.

What inequalities? In many ways Washington is a Jim Crow town. Jim Crow is short for stinking Negroes are kept apart from white people.

A number of the inequalities are pointed out in the report of the President's Committee on Civil Rights.

Mr. Truman appointed this committee of 15 prominent citizens more than a year ago to study the condition of civil rights in this country.

In its report made several months ago, the committee said we have made much progress in protecting civil rights but have

so far to go.

Mrs. Truman, in his message asking more laws to protect civil rights, based his ideas on what the report said needs doing.

This is what the report said in part about Washington, D. C.:

"The District of Columbia x x x is a graphic illustration of a failure of democracy. As the seat of our Federal government under the authority of Congress, the failure of the district is failure of all the people x x x."

"If he stops in Washington, a Negro may dine like other men in the union station, but as soon as he steps out into the capital he leaves such democratic practices behind."

"With very few exceptions, he is refused service at downtown restaurants. He may not attend a downtown movie or play, and he has to go into the poorer section of the city to find a night's lodging."

"The Negro who decides to settle in the district must often find a home in an overcrowded, substandard area. He must often take a job below the level of his ability."

"He must send his children to the inferior public schools set aside for Negroes and enroll his

family's health to medical agencies which give inferior service.

"In addition, he must endure the countless daily humiliations that the system of segregation imposes upon the one-third of Washington that is Negro..."

Except where the Federal government has made a few independent advances, as in Federal employment and the use of Federal recreational facilities, racial segregation is rigid.

"It extends to ludicrous extremes. Inconsistencies are evident: 'Constitution Hall, owned by the Daughters of American Revolution, seats concert audiences without distinction of color, but allows no Negroes on its stage to give regular commercial concerts.'

"On the other hand, the commercial legitimate theater (the only theater in town showing Broadway shows) has had Negro actors on its stage but stubbornly refuses to admit Negro patrons."

"The report says Negroes are being forced into a few 'overcrowded slums' and the Negro public schools are 'inferior to white schools in almost every respect.'"

Background On Demotion Of Eccles

WASHINGTON. — The mystery of who killed "Cock Robin" Marriner Eccles slowly begins to unravel. It now looks as if big bluff, A. P. Giannini, of the West Coast banking tycoon, fired the fatal shot. In fact, friends of "A. P." say that when he got word Marriner Eccles was out as chairman of the Federal Reserve board, he put his large thumbs in the large armoles of his large vest and boasted, "Well, I did it."

The reason for Giannini's hostility to the man who kept the American banking system on an even keel all during the war is well known in banking circles. Eccles, who comes from Utah and whose father owned several banks of his own, long has opposed what he describes as the "banking octopus of the West Coast" — the Giannini chain.

To combat this "octopus," Eccles last year helped draft a new bank holding company bill which Senator Tobey of New Hampshire introduced and which was approved by the Senate banking and currency committee.

This brought storms of protest

from the Gianninis. One telegram sent by A. P. and L. M. Giannini called Eccles: "A bureaucratic despot, who is trying to suppress free institutions through the exercise of dictatorial powers masquerading as administrative discretion."

Eccles, however, was not discouraged. He accused the Gianninis of trying to monopolize West Coast banking. He told senators that 40 per cent of all banking offices and 38 per cent of all the commercial deposits in California, Arizona, Nevada, Oregon and Washington belonged to the Gianninis. He pointed to 41 banks in the Trans-America group operating the huge total of 619 banking offices, with aggregate deposits of more than 6 1/2 billion dollars. And he demanded of the senate that this financial stranglehold be broken.

Even manufacturing firms, ranches, shipping, and retail businesses on the West Coast are beholden to the Gianninis, Eccles claimed. He argued that this is too much power to put in the hands of only two men.

Eccles also has frowned on

the approval of Giannini applications for the opening of between 15 and 20 new branch banks in California, now pending before Comptroller of the Currency Preston Delano. Though Eccles has no direct jurisdiction over the applications, he has informed Delano unofficially that the Federal Reserve board feels that further Giannini expansion would be unfair to independent bank competitors.

Also, Eccles feels that the Reserve board has a stake in his latest Giannini move, since the new banks would be national bank branches, and thus automatically become part of the Federal Reserve system, if approved.

BANKERS DON'T FORGET

Naturally, this was not forgotten by the two bankers.

It also happens that these two financiers have been potent backers of the Democratic party on the West Coast. Their financial influence in party circles is not to be sneezed at. And it was the question of campaign contributions to the Democratic party which finally tilted the scales against Marriner Eccles.

Sam Husbands, ex-vice president of the Trans-America corporation, is credited with doing part of the Eccles meat-axing. Husbands, a former member of the RFC, is a close buddy of Secretary of the Treasury John Snyder.

Just how much John Snyder had to do with it isn't known. Truman swore that John was not guilty — which may have meant that John was only acting as messenger boy for the powerful Gianninis.

Note—in the end, the Gianninis won only half their battle. They didn't figure that Eccles would take the embarrassment of being demoted as chairman and still continue on the board. Actually, Eccles will still control the balance of votes on the board, so the Giannini battle is a long way from won. In fact, Senator Tobey is now more determined than ever to pass the new bank holding company bill.

MERRY GO ROUND

Strict newspaper censorship has been placed on all information about the tests of new atomic weapons on Eniwetok island. News men can't even report the dates when certain weapons were tested for fear enemy scientists will be able to figure out the new weapon by studying air masses from the Pacific bases as they pass over their own land... The U. S. A. has virtually broken relations with the military and naval attaches of all nations behind the iron curtain except one — Czechoslovakia. Representatives from Russia, Poland and Yugoslavia are still admitted to this country, but only Czechoslovakian attaches are still invited to military functions... Capital police are looking for a possible maniac who barged into Senator Taft's office and threatened Secretary Marjorie Shaddock when she refused to let him see the senator. Police have been jumpy ever since a disgruntled former employee took two shots at Taft's junior senator, John Bricker, in the capitol subway.

U. N. BACK TO GENEVA?

There is a big hole on the east side of New York City where the United Nations headquarters some day are supposed to be. Meanwhile, a mysterious delay has developed and some say it leads direct to the White House.

One White House caller even came away reporting that the president favors moving the United Nations over to Geneva—despite the prodigious efforts of Americans to bring the United Nations to the U. S. A.

Affairs Of The World—DeWitt MacKenzie

Britain's Problem Affects World

The British government's action in calling on the country for a voluntary freezing of wages, profits and prices in an effort to combat inflation is at once a warning of the gravity of England's economic crisis and an exhibition of Spartan determination to win through.

There would seem to be no question of ideology involved in this daring and drastic move by Britain's Socialist regime. It's a matter of survival, and Prime Minister Attlee himself presented the case to the House of Commons after consulting both trade unions and organized employers.

One suspects that the government's anxiety relates not so much to the present moment as to a dangerous period around the first of June. The experts tell us that Britain's gold and dollar re-

serves will be exhausted by about that time.

So with maybe four months to go before the monetary reserves run out, Attlee is taking time for the forelock in trying to inaugurate his startling program to protect the value of the pound sterling and prevent inflation. Should this fail, and should no assistance be forthcoming from outside, England would be reduced to the expedient of barter trade with the result that her position as a world power would deteriorate rapidly.

Such a contingency raises another problem which is of world-wide import and especially to the United States. Apropos of this the U. S. State department a couple of weeks ago presented to Congress a summary of the European political situation pre-

pared by Truman administration agencies. These analyses showed, among other things, that American foreign policy makers believe if Britain should fail to regain its world position a vacuum would be created in the many strategic areas which she has dominated through the generations—the vital Mediterranean area, for instance, the Middle East and on into the Far East.

That vacuum couldn't long exist. It would have to be filled — and there would be only two great powers from which destiny could make a choice. One would be Russia and the other would be the United States. As the signs now read, the Soviet Union would be tickled to death to supplant mighty Britain.

Thus this new battle of Britain assumes a vast importance to every nation on the globe.

It Takes Real Dough In S. America

By William C. Barnard Associated Press Staff

South America, hungry for dollars, wants American vacationers but the \$500-tourist had better stick to Mexico or Central America.

On 500 bucks you can have a great time in Mexico City, Acapulco or Guatemala. In Rio or Buenos Aires the same amount of dough would melt like snow in Texas. You'd be counting your chips every night, wondering how to get back home.

Rafael Ordorica, Latin-American trade representative from the international house, New Orleans, says Brazil and Argentina are in the forefront of countries courting American tourists.

The Brazilian government now is subsidizing some tourist bureaus and Argentina is organizing one of its own.

Ordorica, slim, dark and alert, Mexican-born, U. S. educated and an American citizen, can wax eloquent in six languages over the beauty and the attractions of South America.

"Rio," he sighs, has white sand, blue sky, and green and russet hills that come right out of the emerald ocean."

Brazil has many spas and resorts, elaborate and luxurious. He cites one especially, Pocos de Caldas, a sulphur water spa in the mining state of Minas Gerais.

And Argentina: "Two days by

train south of Buenos Aires is Bari Locha, a region of resorts on glacial lakes where the towering Andes plunge straight down into the very blue and very cold waters. And six hours south-east of Buenos Aires is Mar Del Plata with magnificent hotels, beautiful gambling casinos, a spot for millionaires."

And Chile: "This country has gorgeous scenery and resort accommodations to match, but it has not yet discovered what a gold mine American tourists can be. It is not making much effort to attract them."

In Cuzco, Peru, high in the Andes, you can find the ruins of the Inca Indian empire;

at Trujillo, Peru, you will discover 500 churches, two schools and no playgrounds. Bolivia has colorful attractions.

But this is champagne-style traveling; don't try it on a shoestring income.

Hypnosis And Bad Habits

NEW YORK. — Husbands with shrewish wives have sometimes toyed with the thought that life's treadmill would be more enjoyable if they could keep their spouses under hypnosis.

Take it from Marsh Babbitt, a professional hypnotist—that is a bad idea.

On the other hand Babbitt—no relation to Sinclair Lewis—sees quite a future for hypnosis in curing people of bad habits, such as speech defects, stage fright, fingernail biting, overeating and excessive smoking.

"We also can alleviate pain and excessive nervousness in dental patients," he observed, "so that they can have a tooth extracted without taking an ordinary anaesthetic."

Most intelligent people can learn to hypnotize themselves, Babbitt said.

"But the last thing I would want to do is teach the average person to neutralize nature's danger signal—pain. He might cure a pain in his side that would some night and die the next day of a ruptured appendix."

Babbitt once flew down North Carolina and hypnotized 24-year-old Negro out of the belief that he was dying of "heart ailment" on him by a witch doctor.

"Since then many people have come to me to be cured hexes," he smiled. "You'd be amazed by the number who believe in the evil eye."

Babbitt believes hypnotism induced by creating hyper suggestibility and confidence in the hypnotist.

"You don't need to glare at them, wave your hands or indulge in any stage business," he says.

The Svengali tradition is hard, however, and the question most people still ask him is: "Can you make a man under hypnosis commit a crime or himself?"

His answer: "If there is subconscious conscious resistance there will be no hypnosis."

"If an improper suggestion made to them either for themselves out of hypnosis merely stay in hypnosis and refuse to obey the suggestion."

Babbitt said there were no records of crimes involving hypnosis.

"And I've never heard of one that was successful."

What would happen to a person under hypnosis if the hypnotist suddenly died?

"He would pass from hypnosis into sleep and wake up when he was rested."

Bovines Seek Eighth 3AA Win In Lamesa Tonight

Baylor, Porkers Clash Tonight

The congested lead in the Southwest conference basketball race is due some relief as two of the top three teams, Baylor and Arkansas, open a two-game series tonight at Waco.

Four other conference teams also see action tonight. Southern Methodist meeting Texas A&M in College Station and Texas Christian playing Rice at Houston.

Both Baylor and Arkansas boast undefeated records in conference play. The Bears have won six straight and Arkansas four in a row.

The ganging Razorbacks have a decided advantage over Baylor in height and boast the top scorer in the conference, huge George Kok.

But the Bears have a remarkable defensive club and an all-around performer in Jackie Robinson. Texas, the other undefeated leader won a 62-32 decision from Southwest State last night in a non-conference game play for the benefit of the March of Dimes.

The rest of the conference is out of the running for the title and the only thing hanging on the outcome of tonight's games is personal satisfaction and a higher spot in the standings.

Tomorrow, Texas Christian switches over to College Station to meet Texas A & M and Southern Methodist invades Houston to meet Rice.

Either Arkansas or Baylor can go a long way toward eliminating the other by sweeping the series, while a split would make Texas the lone pace-setter.

Enemy Always Tough At Home

Johnny Malaise and his Big Spring high school basketball Steers converge upon Lamesa this evening, their eyes "wide open."

All too often in the past, Big Spring teams have been ambushed by underdog Lamesa teams in the Tornado gymnasium. Despite the fact that the Lamesans have won but one District 3AA game and the locals' record is unswollen, a Lamesa victory would not surprise many of those close to the situation.

The Steers defeated the Tornados in a game here last month, 41-30. That was the one in which Captain Eddie Houser roped 28 points. He expects to get plenty of help from his team mates tonight, so much that he's apt to use himself in the role of decoy and let others take the lead.

Houser has scored 228 points to date this season. The others have been coming along of late, especially big Deimar Turner. Turner has finally reached peak form after an uncertain start.

Houser and Turner will start for the locals along with Jim Bill Little, B. B. Lee and either Harold Berry or Ike Robb. Little and Robb are still favoring testy ankles.

Lamesa edged Sweetwater by a single point earlier this week but let the Ponies all the way. In fact, the Tornados boasted a 13-point edge at one time. Gerald Berry was the Big Bertha in that offensive. He roped 19 points.

Berry will be aided and abetted by Donald Hoover, who had planned to leave school at mid-term but changed his mind. Lattimore, Watson, Morris, Hawkins, Blair and others.

The Steers will be out after their eighth victory in 3AA play. They need it to insure their hold on first place in the standings.

Game time is 8 o'clock. The reserve strings of the two schools clash at 6:45 p. m. The Steer Bees won last time out, 29-23.

LOOKING 'EM OVER

With TOMMY HART

Dr. Maelyn Baker, now of South Orange, N. J., who played basketball for NYU back in the '20's, suggests that a third man be used to work the casaba games to eliminate the quick whistle and bring the officiating into line.

Baker would have one arbiter stationed under the basket just outside the court in addition to two placed on either side of the playing area, just outside the action beneath the basket.

"In this way," says Baker, "the officials would cover every angle of action, the players would be well aware that any foul they committed would be instantly caught, and they would think twice before trying to get away with a sly push, holding or a charge."

"As the play moves to the opposite end of the court, the man designated as the basket official would race to his spot and the other two would take the positions designated."

Baker's proposal perhaps would work better with four men than three — one man stationed under each basket at all times. Otherwise, in these days of race, horse style of play, the basket official — unless he were a Gil Doods or a Gunder Haegg, would burn himself out.

REDFERN, ELLIS PROBABLY BEST ARBITERS
Officiating at 3AA games here has improved after getting away to a bad start.

Perhaps the two best arbiters to appear here are Glenn Redfern and Bill Ellis, the San Angelo pair. Both boys keep on their toes and seem to understand the duties of the other quite well.

If either think his decisions have baffled the people in the stands, he takes the time to explain his reason for calling such plays.

When San Angelo's Bobcats and the Sweetwater Mustangs clashed in a 3AA cage bout last week, Angelo's R. Morris pulled a Roy Riegals by scoring two points for Sweetwater. Luckily for the Cats, they enjoyed a comfortable lead at the time.

BABB LEADS ALL JAYCEE SCORERS IN TEXAS
Pat Babb, who appeared here with the Amarillo Junior college cagers several weeks ago, is averaging 18.5 points per game, a record good enough to lead all players in the Texas Junior College Athletic conference.

Manny Iguina of Lon Morris, who appeared in action against Howard County Junior college in the recent Ranger invitational tournament, is fourth among Texas JayCees players with a 14-point average.

Local player Jay Iguina is one of the best cagers they've seen all year. He's a Puerto Rican boy. How he wound up in the Jacksonville school, no one in this section seems to know.

STITLER MAY PRODUCE CHAMP AS EARLY AS 1949
Texas A&M's football Aggies may win the Southwest conference football championship as early as 1949. Harry Stitler, the new coach at College Station, is lining up enough top flight material for three or four teams.

SAYS RIDDLE

Faraway Best Horse Sired By War Relic
By HUGH FULLERTON, Jr.
NEW YORK, Feb. 6. — Although Mr. and Mrs. Edward Moore's Relic, winner of two good races in Florida so far this season, looks like one of the year's outstanding three-year-old race horses Samuel D. Riddle won't concede that the colt is tops.

Riddle, owner of Relic's sire, War Relic, insists that his own colt, Faraway, is the best of War Relic's first crop of offspring. . . Ted Atkinson, who rode Relic to an easy triumph in the Bahamas Handicap Wednesday, has a simple explanation of success at Hialeah: "Fast horses and a hard-working agent."

Jack Sharkey, former Heavyweight champ, and Ted Williams, the heavyweight hitter, have become buddies because of their common interest in fishing. . . Sharkey, incidentally, is boasting Middleweight Pete Mead as a comer "who has everything."

Hard Words
Ray Dumont, President and gag man of the National Baseball Congress, cooked up a stunt for his speech at the Sporting Goods Dealers convention here the other day by planting a small army of stooges in the audience. . . Every few minutes a fake wire would arrive ordering large numbers of the congress year book or a guy would gallop up to get Ray's autograph. . . Finally one of the stooges presented Dumont a huge trophy saying: "This is presented for your great promotional ability. Softball has really benefited."

All Ray needed was his patented home plate duster to blow him right out of the joint.

AUSTIN, Feb. 6. — State auditor C. H. Cavness this week released an audit of Rusk state hospital books, records and accounts for the past three fiscal years. He found little fault with the hospital's operating practices. He noted that major surgery is performed by doctors of the Travis clinic of Jacksonville. He said his office knows of no similar free service extended to patients in other similar state institutions.

Mitchell Responds To March Of Dimes
COLORADO CITY, Feb. 6. — Final figures in the Mitchell county portion of the national drive to stamp out infantile paralysis show that the county just about tripled its 1947 contributions. With Harold Bennett as chairman of the drive, March of Dimes booths were opened on downtown streets and several dances and picture shows held for the benefit of the fund. Bennett now has \$1,235 to add to the amount contributed in other counties. Working with him were Eldon Mahon, Ed E. Williams, Colorado Citizens, and Ray Preston, Lorraine chairman. Civic clubs, study clubs, and schools also participated with a new, and tangible, enthusiasm. In 1947 the drive here netted \$493.

About 39 per cent of U. S. Army personnel during World War II had been graduated from high school, but among those with high AWOL rates, only 16 per cent had been graduated from high school.

RIEGEL BUSTS PAR

Bobby Locke Appears Tops In Texas Open Links Show

SAN ANTONIO, Feb. 6. — Golf's money men slashed at Brackenridge Park's soggy three miles today in the opening round of the \$10,000 Texas Open. Not even rain and cold gave par a breathing spell.

Bobby Locke and his mighty putter got the favorite's call, but the field was bulky and brilliant and the short course enhanced the chances of the lesser lights in the 72-hole scramble.

Locke was among the almost two score players who cracked par 71 figures yesterday in a mass assault by a bulging field in the annual pro-amateur. The methodical man from South Africa chipped in with a 69.

There were 146 teeing off this morning. Elroy Marti, Houston, whose seven-under 64 led the pro-amateur field, was among the late starters.

The sizeable busters of par included National Amateur Champion Skee Riegel of Monterey, Calif., who sped in with a 66 along with five others.

More than 300 played in the pro-amateur, which was run off on two courses — Brackenridge's 6,400-yarder and Fort Sam Houston's 6,332-yard lay-out. Seven hundred dollars was distributed to the winning pros.

Marti earned \$200 being low man for the day and teaming with Jack Berry, San Antonio amateur, for a best ball of 61. Joe Brown of Des Moines, Iowa, and Johnny Bulla of Phoenix, Ariz., each got \$75 for sparking their teams to a best ball of 62.

Over at the Fort Sam Houston course professionals Sam Bates of Virginia Beach, Va.; Harry Dee of Suffern, N. Y.; and Otto Greiner of Baltimore each won \$100 for being on teams with a best ball of 66. Greiner's three-under-par 69 gave him the \$50 prize for low man on the course.

The Texas Open has its fastest field. Reuben Albaugh, tournament manager, declared. He anticipated that it would take a 266 to win, first money of \$2,000 and said he wouldn't be surprised who did it.

Eighteen holes today and a like number tomorrow will cut the field to 60 low scorers and ties for the final 36 Sunday.

Hawks already hold one victory over Clisco.

IN DENTON TONIGHT

Hawks Triumph Over Wesleyan

FORT WORTH, Feb. 6. — Howard County Junior college's basketball Jayhawks moved on to Denton today for a game with the North Texas State Teachers college Eaglets after registering a 37-35 win over Texas Wesleyan college Freshmen here Thursday night.

The Thursday contest ended in a rhubarb and the scorers were in disagreement but Coach Harold Davis of the Jayhawks said he was convinced his team finished in front.

The Hawks were severely handicapped by the early loss of Horace Rankin, exiled to the sidelines by the referee, and Don Clark, who bowed out in the third period with an injury.

Jackie Barron took up a lot of the slack caused by the departure of the two stars, flinging in 11 points, five of them on free tosses. Rankin dropped in nine points before being banished and appeared on his way to a respectable score.

TWC boasted three boys 6-foot-4 or more in height and had a distinct advantage over the Hawks.

The Hawks have their work cut out for them tonight. The Eaglets have one of the best first-year clubs in Central Texas. The SMTU Colts, unbeaten thus far, recently edged the Denton tribe, 57-52, but had to come from behind in the last two minutes to do it.

George Putnam is Denton's leading threat. Others who will see action for the Eaglets include Lutrick, McKnight, Collins, Dunway, Martin, Williamson, Chandler, Lawless, Kelly and Miller.

The Big Springers return to Clisco Saturday night for a game with that city's junior college club. The

Coahoma Meets Knott Billies
KNOTT, Feb. 6. — Coahoma's Bulldogs, shocked by a loss to the Knott quintet several days ago, move on the Knott gym this evening for a return game with the Billies.

The game will be the last home contest of the regular season for the Billies.

The Barnes brothers, Tom and Don, Delbert Harland and Max Roman led the Billies into action. Rex Shive, Clovis Phinney, Bruce Lindsey, Joe Horton and Jack Wolf are Coahoma's leading threats.

Courtney Plays Bisons Tonight

FORSAN, Feb. 6. — Courtney's Eagles come to Forsan tonight to clash with the Buffaloes in a District 21B basketball game.

Both teams are out of the running for the 21B flag, which has already been clinched by Sterling, but are due to be primed for the district tournament.

Forsan has been improving noticeably in recent games.

Louisiana-Texas Loop Won't Open

LAKE CHARLES, La., Feb. 6. —The Louisiana-Texas baseball league won't operate this year, but President E. H. Kaufman said he hopes the Class D circuit will in 1949.

Attempts to start the league this year were abandoned at a meeting here last night.

Kaufman said difficulties in building or obtaining parks at some of the member cities made it inadvisable to try operating this season.

Representatives of member clubs voted to ask the national association of professional baseball leagues to continue recognition of the circuit, but to defer play until next year.

Fenton Matched With Muscovite

Two of the toughest tin-ears to appear at the Big Spring Athletic club since it opened its doors are being tossed into the ring Monday night by Promoter Pat O'Dowdy.

They are Rod Fenton, a Montreal, Canada, veteran and the redoubtable Leon Kirilenko, whose record was spotted here until last week when he lost a decision to the referee, Billy McEuin.

Appeal Promised After Sentence For Cattle Theft

WACO, Feb. 6. —Attorneys for C. L. Tweedie today had said they would appeal the two-year prison sentence assessed him on a cattle theft charge.

A jury in 54th district court yesterday fixed sentence to end a trial highlighted by Tweedie's testimony that McLennan county sheriff's deputies beat him.

Chief Deputy Bill Harris denied the accusation and Sheriff C. G. Alexander denied threatening Tweedie.

Tweedie, a Bell county resident, was accused of taking cattle belonging to McLennan County Commissioner Desha Taylor.

During testimony, Tweedie said two deputy sheriffs beat him and Alexander cursed him and threatened to "beat his brains" out if he did not sign a statement.

Bearcats Host Sterling City

GARDEN CITY, Feb. 6. — Garden City's Bearcats host the Sterling City Eagles, 21B basketball leaders, in their last home game of the season here tonight.

The War Birds are unbeaten in 21B competition and should hurdle the Kats without trouble.

Following tonight's fracas, Garden City will be idle in league competition until the district tournament Feb. 13-14.

Airfields Taken From Inventories

DALLAS, Feb. 6. —The United States engineers office here have announced that several auxiliary Army airfields in Texas are being removed from surplus property inventories, primarily because there is no market demand for them.

Buildings and other surplus properties are being retained on War Assets Administration lists and will be sold.

Returned, or in the process of being returned to the Army were two auxiliary fields at Dalhart; Prairie Hill auxiliary field at Blackland, Waco; Maria Army airfield, Marfa; Laughlin Army airfield, Del Rio, and Aloe Auxiliary No. 10, Marfa.

Hospital May Add New Wing

COLORADO CITY, Feb. 6. — This city's hospital has sort of grown up with the community. Privately owned by the heirs of the late Dr. C. L. Root, whose name it bears, the hospital had an original capacity of eight patient beds. Today the figure is 28, and Dr. Charles Root, only son of the pioneer founder of the hospital, hopes that another wing may be added to provide 14 additional rooms.

Last year, at a cost of \$47,000, the hospital was given 14 more rooms, plus a new nursery, new central supply room, and renovated operating and delivery rooms. The exterior of the building also was refinished. It is so designed that in an emergency the basement area under the new wing could be utilized for additional patient rooms.

Open to all practicing physicians in Mitchell county, the hospital handled a total of 1,544 patients last year for 6,000 patient days. A total of 227 babies were born at the hospital. Five Colorado City doctors make use of the hospital, which now requires a staff of 20 persons.

Scouts Stop Here On Way To New Ranch

Twenty Boy Scouts, accompanied by 10 Scoutmasters and their field executive from the eastern area of the Buffalo Trail Council stopped in Big Spring briefly this morning while en route to a weekend exploration trip to the new Scout Ranch in the Davis Mountains. The trip was planned to give the Scouts and adult leaders an opportunity to gain first hand information about the ranch. Making the trip from Sweetwater were Bill Rice, Scoutmaster and A. C. Forgy, Jr. and Preston Dill, all of Troop No. 40; Wayne Jarvis, Scoutmaster, and Allen Linn and Don Roden, Troop No. 35; Andrew Ballew, Scoutmaster, and Richard Jenkins and Clarence Craft, Troop No. 41; Ralph "Buz" Boyer, Scoutmaster, and Bobby Kasham and Perry Garner, Troop No. 48; Gene Martin, Scoutmaster, and Forrest Stevenson and Billy Ray Adams, Troop No. 47. In the group from Snyder were Rowland Bell, Jr., Scoutmaster, and Wendell Aitry and Jay Fish, Troop No. 38; Phil Burns, Scoutmaster, and Dan Gibson and Kenneth Gibson, Troop No. 35; Doyle Bynum, Scoutmaster, and Franklin Wood and Lowell Bynum, Troop No. 36. Rolan was represented by Carl Lewis, Scoutmaster, and Quency Adams and Button Lewis, Troop No. 33, while the Roby delegation was composed of Dick Martin, Scoutmaster, and Jimmy Melton and Put Morgan, Troop No. 74. Jim Polk, Sweetwater, Scout field executive, was in charge of the group.

Safety Director Issues Motorist 'Call To Arms'

AUSTIN, Feb. 6. — A call to arms was issued today by George Clarke, managing director of the Texas Safety Association. The arms referred to are the kind you stick through car windows to signal your intentions to other drivers. "Hand signals are a means of self-preservation when you are driving an automobile, as well as a courtesy to the other fellow," Clarke said. Clarke offered these hand signaling tips: 1. Give signals far enough in advance to allow the other driver to adjust himself — at least 100 feet. 2. Hand signals do not justify you in making an unexpected or illegal maneuver. For example, to make a left turn, be in the left lane before you reach the corner. 3. Get both hands back on the wheel before starting to turn. 4. The Uniform Traffic Code is new in Texas, and some drivers are not familiar enough with the specified hand signals. A safe rule is to be prepared for anything when another driver holds out his hand.

Dr. P. D. O'Brien Is Speaker Of Program
Dr. P. D. O'Brien was guest speaker on the assembly program hour at Howard County Junior College Thursday.
Dr. O'Brien stressed four steps to success as "Vision," "Enthusiasm," "Courage," and "Optimism."
He completed his talk with entertaining stories.

Markets
NEW YORK, Feb. 6 (AP)—Cotton futures at noon were 25 cents to \$1.30 a bale higher than the previous close. March 33.90, May 33.71, and July 33.18.
LIVESTOCK
ST. LOUIS, Feb. 6 (AP)—CATTLE: 300 calves 100; cows, steady to weak despite very light receipts; no load lots common and medium slaughter steers and yearlings 16.00-24.00; better kinds absent; butcher cows 18.50-19.00; canners and cutters 12.00-16.00; bulls 15.00-21.00; good and choice fat calves scarce at 22.00-26.00; common and medium butcher kinds 17.00-21.00; culls 14.00-16.50; stockers and feeders in scant supply.
HOGS: 300; butchers mostly 25 cents below Thursday's prices; 500s and pigs 1.00 or more down; top 25.00 paid for good and choice 190-200 lb. hogs; good and choice 190-185 to 21.00-24.75; sows 19.50-20.00; stocker pigs 10.00-16.00.

WALL STREET
NEW YORK, Feb. 6 (AP)—Bidding for a technical comeback brought modest plus signs for individual stocks today although many market leaders exhibited notable indifference.
Professional short covering and other buying was attributed to the thought that the list had been overvalued. Numerous customers still held aloof, however.
Deals slowed after a moderately active start and quotations were a trifle uneven near midday.
Attracting support were Rock Island Railroad, Santa Fe, Southern Railway, United Air Lines, General Motors, Sears Roebuck, J. I. Case, Schenley, Douglas Aircraft, American Telephone Union, Carbide and Owens-Illinois.
On the offside at intervals were Bethlehem Steel, Studebaker, Packard Motors, International Harvester, Western Union, Consolidated Edison, Anaconda, Union Pacific and Pennsylvania Railroad.
Bonds were narrow.
