We really had a nice birthday party on Thursday, May 28, at 2 p.m. We appreciated the Kokomo Extension Homemakers for coming and helping. It was real nice to have Georgie Welch at the piano, Jenny Newcomb with guitar playing for Orvil and Jenny to sing.

The Home gave peach flowers in white bud vases, Church of Christ gave hand lotion and Velma Bennett and the Methodist Church gave birthday cards to the honorees, Bonny McGough and Alma Vann.

Mrs. Bennett stated that Becky Simpson, Melba Frasier, Doris Kent and Shirley Crane had donated the toys for her to give to our residents. The residents loved the gifts and we appreciate those who donated so very much. Velma Bennett made a diet cake.

### Press Points

Joe Bennett, Publisher

It sure looked like we were going to be blessed with some more rain here on Tuesday, but we really didn't get but a sprinkle. It looked like it rained more to the south and east of us. I think we have already an amount equal to our annual rainfall and here it's not even July yet. I bet most folks wish we could hold a bunch of this moisture in our pockets for the dry months ahead. We will probably need the moisture bad in July and August. However, don't discourage the Good Lord from sending us rain folks, for we will take when we can get it and Express our thanks to the Good Lord for it. Amen?

The ground is sure wet. And I can touch for that, because I had to do a little "Honey Do" work during the weekend and dig a few(?) postholes to put up posts for a trellis that the better half wanted at the end of the flower bed. Ugh! the hard work nearly killed me, and the water was oozing up in the hole while I was digging them. So it is definitely wet folks.

All the rain sure has made the old lawn grow in leaps and bounds. It seems that you'll sooner get through cutting the "Back Forty" when it's time to do it again. A poor old man's work is never done! Or something like that.

The Lions Club held their installation night and ladies night on Tuesday night at K-Bob's in Stephenville. Stan McBroom of the Stephenville Lions Club did the honors of installing the new officers: Joe Bennett, president; Lonnie Bennett, 1st vice president; Lynn Aldridge, 2nd vice president; Charlie Garrett, secretary-treasurer; Herman Bennett, recording secretary; Bill Sandlin, tail twister; and Gregg Goode, Lion tamer. Also installed to the board of directors were A. L. Hunter, George Simmons and G. W. Maxfield.

The evening was a great success and the wives seemed to really enjoy the evening. The wives are always great, letting their Lion husbands spend the extra hours necessary to do the community projects that the Lions Club is connected with. We Lions thank them for their thoughtfulness.

The Lions Club will meet only on the first Tuesdays of the next two months and the first Tuesday in September we will begin the two meetings a month schedule at the school. We will meet at the Fellowship Hall of the First United Methodist Church during the time school is out.

We hope that all the pictures of the Miss Gorman and Little Miss Gorman candidates got to us in time for this weeks paper. If not, we will run the next week.

These girls will be working hard to raise funds for the Miss Gorman Title, and the little girls will be collecting money through containers at the different business places in town to secure votes for the Little Miss title. So do what you can for the candidates of your choice, because it all goes for a worthwhile cause in the community.

Things are a little tough right now for most of us, but pitch in what you can and help in the Miss Gorman and Little Miss Gorman contests.

Please remember the meeting slated for tonight, Thursday at 7 p. m. at the Senior Citizens Center for the purpose of discussing the formation of a volunteer ambulance service for Gorman. If you are interested in securing ambulance service for Gorman, you should be at this meeting.

We wish to congratulate the Panther baseball team on a great season. Their season ended on Tuesday with a loss to Gunter, who now has an 18-1 record, by the score of 3 to 1. In this game the Big Red just committed too many errors and gave Gunter too big an advantage. Teams will have bad days like this and when you are in the playoffs, just one bad day is all it takes. Anyway, we wish to give the Big Red a big pat on the back for their efforts.

And remember to smile - - because God Loves You!

#### NOTE OF THANKS

We would like to say a sincere thanks to the staff of the Canterbury Villa Nursing Home for the care and love you gave our loved one over the past years. Thanks also to Bernice Haynes for being such a good friend and roommate.

trees. Normally, if the insecticides have been on the trees for four to six hours and have dried they will not be washed off by rainfall. However, repeated rain, such as we had last week, may reduce the effectiveness of the spray.

There has been some confusion over the liquid zinc, NZN, for pecan trees. The N is the symbol for nitrogen and the Zn stands for Zinc. Some of the chemical manufacturers have added other elements such as phosphorus (P) and Sulfur (S). Therefore, you may find some liquid zinc sources with some or all of these letters such as NPZS or NZNS. These products are at least equal to NZN. Be sure to follow directions on the amount to mix with a given volume of water.

Now is a good time to control mesquite. Bountiful rainfall last fall and winter and again this month makes conditions excellent for foliar application of herbicides.

Present soil moisture conditions have resulted in good canopy development on mesquite. Data collected by the Texas Agricultural Experiment Station several years ago indicate that higher plant kills occur when rainfall exceeds the average six months before spraying. Mesquite plants have a large quantity of leaves, and excellent control can be expected if factors other than soil moisture also are favorable.

Herbicide application requires proper timing if good control is expected. Leaves of the mesquite should be fully extended and should have turned from light to dark green before the herbicide is applied. This usually happens about 40 days following bud break. Bud break on mesquite was about April 20, here in Eastland County.

There is a new foliar mesquite control herbicide on the market this year that will give a 60 to 70 percent root kill of mesquite. For more information on mesquite control contact the County Extension Office.

If you did not plant a vegetable garden or if yours got washed out you still have hope. Fresh, home grown vegetables will soon be available at the Cisco Farmers Market. The market will open at 9 a.m. Saturday, June 13, at the corner of 13th Street, and Conrad Hilton Avenue is Cisco. It will also be open on Wednesday afternoon from 2 p.m. until sold out or dark, which ever comes first.

Maybe, because of all the rain, your garden produced more than you
