Brazilian Policemen **Battle Communists**

-Police fought today with communists attempting to publish an edition of their newspaper in the wake of congressional action withdrawing the last vestige of legality from the Brazilian communist party.

Four communists were wounded. Police broke into the printing plant, using tear gas bombs and machineguns, when workers refused to halt presses printing an edition covering the action by the Chamber of Deputies last night stripping Brazilian communists, the largest communist party in the Western Hemisphere, of all elective posts.

The edition was being printed in the plant formerly used by the communist newspaper Tribuna Popular, which was sus-

White Will Become 10th **Baylor Head**

Leader To Assume Post February 1

WACO, Jan. 8. (AP)-Dr. William Richardson White, Southern Baptist leader and pastor, on Feb. 1 will become the 10th president of 103year-old Baylor University at Waco.

He succeeds former Texas Governor Pat M. Neff, who retired

Dr. White, now pastor of the First Baptist Church at Austin, was unanimously elected to succeed Neff Saturday at a meeting of 29 of the Baylor Board's 36 members. He accepted the presidency in a telegram yesterday to Dr. W. W. Melton, president of the Baylor board.

"I feel so unworthy of such an honor and sacred trust," the 56year-old educator and minister said in his reply to the board's offer. "To carry such a responsibility, to succeed such a group of notable administrators as cluster about the name of Baylor University will necessitate the usual cooperation of trustees, faculty, student body and administration. "In happy anticipation of that

reality and having been led as I believe by our common Lord, I now accept the presidency of Baylor University to become effective Feb. 1, 1948." After the board announced tha

DISCOVERY ANNOUNCED ON NEW keeper for a San Angelo tank con-struction company. PETROLEUM FIELD IN WEST TEXAS

PITTSBURGH, Jan. 8. (AP)- Walter S. Hallanan, president of the Plymouth Oil Co., announced through his offices here today the discovery of a new oil field in West Texas said to be the greatest in that state in 15 years.

About 800 acres immediately surrounding the well are jointly owned by Plymouth and the Slick-Urschel Oil Co., of San Antonio. Plymouth also controls 8,000 acres in the immediate vicinity, Slick-Urschel controls another 4,000 acres.

The present well, located in Upton County, has been drilled to 1.222 feet, is producing an allowable 500 barrels a day. The new field, Hallanan said, contains an estimated minimum of 200,090.00 (million) barrels recoverable. Petroleum engineers predicted the field, already proven at least 1,000 feet thick, has another 700 feet to drill into, all of oil-producing Ellenburger lime.

Aid Rejected By Diplomat

Appears Before Senate Foreign Affairs Group

WASHINGTON, Jan. 8. (AP) - Secretary of State Marshall appealed to Congress today for an adequate, prompt and effectively administered European aid program and bluntly challenged the lawmakers:

"Either undertake to meet the requirements of the problem or don't undertake it at all."

At the same time the soldierturned-diplomat rejected outright the Republican backed proposal to create a new government corporation to administer the projected air program. He called for a single administrator responsible to the President and working in harmony with the secretary of state on foreign policy questions. "There cannot be two secretaries

of state." Marshall asserted. The man whose name designates the "Marshall Plan" for European recovery appeared before the Senate Foreign Relations committee as the first of more than a dozen high officials assigned to present the Democratic Administration's case to the Republican Congress for a four-year multi-billion dollar program of assistance to west-

Aid in the full amount, Marshall declared, is required "to initiate a program of genuine recover and to take both Europe and this nation out of the blind alley of mere continuing relief."

As for the whole undertaking, the Secretary reiterated earlier estimates that the cost might range between \$15,100,000,000 and \$17,800.-000,000. But he said "the overall cost is not capable of precise determination so far in advance." "Three principles," Marshall

Thad's Feet Hurt

After a long, hard day's work on the farm, Thad's idea of how to spend an evening is to take off his shoes, and relax with a mellow glass of beer.

But his missus has other ideas. After being in the house all day, she's all for walking to the village, if it's only for a soda. Likes to see people, catch the latest gossip. But Thad says, no, his feet hurt! Began to cause unpleasantness in hurting too! Thad's home.

Then Bill Webster comes up with an idea. If Thad takes the missus to

Andy's Garden Tavern, Thad san relax with his glass of beer, and the missus can also chat with all the neighbors there. Each gots his (or her) own way.

Worked, too! In fact, now the missus likes an occasional temperate glass of beer herself. And Thad finds it's pleasanter to enjoy his beer with good companions, rather than alone. In fact, his feet stopped

LONDON, Jan. 8. @ - Richard was one of the greatest interpret Tauber, 56, noted singer, composer ers of Mozart, and was frequently and conductor, died at a London heard at Mozart festivals in Munich and Salzburg.

He was born in Linz, Austria, in 1892, and made his debut in 1913, scoring an immediate success Within a few days he was given a five-year contract at the Dresden opera house, where he sang all the leading lyrical tenor roles.

In 1915, he appeared for the first time at the Berlin opera house and by the end of 1919 was widely known throughout the Germanspeaking world. From about 1925 on he began appearing in lighter operettas, such as those of Franz Lehar, and it was in these roles that he made his greatest name with the general public.

He became a British subject in 1940. His wife, the former Diana Napier, one-time film actress, was

at his bedside when he died. Tauber made his first appear ance in the United States in 1931, singing at New York's town hall He also scored successes in Vi-

enna and in Australia and Africa. He also composed symphonic music and lieder and conducted orchestras on four continents. He made several motion pictures in

TEXAS COCA-COLA BOTTLING COMPANY Big Spring, Texas

@ 1947 The C.C Co.

The lines are now drawn on the federal taxation issue, and the country is headed for bitter controversy over the methods of juggling income tax, thanks to President Truman's proposals before congress Wednesday.

This new turn of events was unnecessary, in The Herald's view, and one must come to the opinion that the only cause for it is the fact that this is election year. Mr. Truman, who exhibited some courage last year in putting a veto on, and successfully resisting, two tax reduction bills, now apparently has succumbed to the lure of the

This is not to argue the relative merit of taxation of individuals and corporations. Mr. Truman makes out a very attractive case for the \$40-per-person reduction in individual taxes, particularly with the point that inflation has rocked the small salaried man back on his heels. From the other side of the fence, it might be argued that corporate concerns, faced with new increase in taxes, would be required forthwith to raise their prices to meet these taexs, and thus nullify what Mr. Truman hopes to gain in balancing the little man's budget.

The nation's principle of taxation always has been on a proportionate basis and a flat \$40 reduction might, upon closer examination, be found to fall short of solving the problems Mr. Truman proposes to solve. The Republican idea has been all along to give percentage cuts to individual taxpayers and leave the corporation schedule unchanged.

Last year the president found objections to this. We agreed with the president at the time. Our position was, and is, that in time of high economic levels, the tax revenues - also high - should be left at such a level as to reduce the tremendous governmental debt. The government then is in position to reduce taxation when timer are not so good, and certainly when even t e little man has a harder time pay-

The country is in for a good scrap, and it is regrettable that the awesome federal debt should get lost in the argument over who should pay less and who should pay

Clean Streets Never Hurt Anyone

The city is going to be tighter with its ordinances pertaining to clean streets, says the commission, and almost everybody in town will say "go to it, boys."

One of the ordinances prohibits sweeping of dirt and trash from stores and sidewalks into the gutters, and certainly this can be stopped without undue hardship on any person or firm. This practice has largely disappeared over the years, and

ought to disappear altogether. Another ordinance applies to restrictions on overnight parking of cars on downtown streets, and has long been a disputed one, in other towns as well as in Big Spring. Hotel operators, for one group, have caught the brunt of complaints made by travelers who are incensed, the morning after, to find a ticket for having parked at the curb the night before. So strong are such protests at times that some groups ask for the ordinance to be lifted. The argument is that an out-of-towner, here as a theoretical "guest" overnight, should be treated more courteously, and that persistent fining of traveling men results in damage to goodwill toward the

There is something in this argument, and certainly visitors in the city should be accorded due courtesies. The problem could largely be solved by additional downtown parking space, but here again is something not so easily met.

As for goodwill toward the town, a town also commands some respect from visitors if it is a clean one. The impression of downtown streets is strong upon passersby, and if they are confronted with trash and unsightliness they conclude that some civic pride is lacking.

A good clean street never hurt anybody.

France Taking Economic Stand

A generation ago the French income-tax collectors held a conference which reached the conclusion that it was impossible to collect an income-tax in France. The most astonishing feature

of this was that it seemed to be regarded as a natural phenomenon and few folks, excepting maybe the minister of finance, were greatly worried. Those were the "good old days" when life ran sweetly, when the sidewalk cafes were full of a summer's eve and the restaurants did a thriving business at reasonable prices-in short, days when the amply cushioned Frenchman had to loosen his belt rather than tighten it Night before last a harrassed

French National Assembly adopted what is perhaps the most drastic tax measure in the history of modern France. It is a heavy surtax aimed at those already paying taxes on profitsfarmers, businessmen, doctors,

lawyers and of course all persons in the upper brackets. The tax can be escaped by investing the same amount in government bonds-a forced loan. This plan represents Premier Schuman's method of rescuing his country from the fierce economic crisis with which it is struggling.

Five times communists and other opponents of the government made efforts to amend the measure. Five times Schuman. with his own political life in his hands, dared the storm by making the vote one of confidence in his regime. And five times his supporters rallied under the pressure of the party whips and rejected the amendments. A defeat would have meant the premier's resignation with his cabi-

It was an epic exhibition of courage by the head of a shaky emergency government. So complicated is the political situation that some observers feel the

downfall of the Schuman regime might even have been followed by the collapse of the Fourth Republic itself.

However we must now wait to see whether the Schuman plan will cure the inflation and other economic ills.

It is encouraging to France's allies, though, to see that nation making this back-to-the-wall stand as the communists renew their assaults in an effort to overthrow the government. It's a display of the spirit which La Belle France has shown so often in emergencies.

We musn't mistake the present political chaos in France as typifving the stability of the nation The country is in a state of near revolution owing to the strong-arm communist efforts to overthrow the government and establish a Red regime. The Schuman plan represents a solid and courageous side of France.

Godfathers Need Help

ance experts never bother to give advice to the people who

need it most-godgathers. Their books on the care and feeding of ordinary children have more rules than a modern landlord's lease. But they are all written for parents-the people who have children. You can find therein how to burp junior, how to decide whether he has colic or cigarette cough, or how to tell him about the strok and who brings Santa Claus.

But a man will scan them in vain for the slightest hint on how to get along with his godchild. This is unfair and undemocratic and discriminates against a large and little appreciated class. Few people give much thought to the matter, but actually there are probably more godfathers in America than there

You'd think that with the adult population simply crawling with godfathers someone would write a book for them. But no! Their duties, privileges and responsibilities are usually kissed off vaguely by the proud father in this manner:

Grave Charges Below Equator

written today by the Ambassador at large. - Ed.

DIPLOMATIC NOTES FOR DREW PEARSON: A plot by the Dominican Republic to send an armed invasion against Venezuela is charged in a "white paper" circulated among Latin-American ambassadors here by the Venzeuelan embassy. Written in Spanish, the paper accuses Dictator Trujillo of harboring Venezuelan enemies and purchasing arms for them in Brazil. As proof, a photostat is attached of an intercepted letter from Trujillo's private secretary to the Dominican foreign offices around the world.

Translated, the letter declares: The honorable President Trujillo has charged me to communicate to you that it is his wish that you attend to the exiled Venezuelans; enemies of the Caracas, who are residing in or who pass through your jurisdiction. Inform them that they will find in the Dominican Republic a good refuge, hospitality and protection, personal as well as political. Do all that is possible to convince them that they should come to reside in our country. Bluntly, the white paper adds:

The Venezuelan government has concrete proof that the Dominican Republic has had under its auspices for some time an armed movement against Venezuela, composed of exiled citizens from the Venezuelan revolution. The airports serve as training camps for these Venezuelan refugees who conspire the conquest of the republic from outside. Enemy agents against our government fulfill missions in America by means of diplomatic passports of the Dominican government. In some countries, official and foreign persons of the Dominican government have bought and continue to purchase arms for an armed movement against our country."

Already Trujillo has purchased vast stores of arms in Brazil, using the presidential yacht to ship them, the paper charges. One shipment assertedly included 10,000 rifles with 30,000,000 rounds of ammunition and 800

Drew Pearson's column is machine guns. The paper conservation, \$9,000,000 The Navpoints out that this is more than is needed for Dominican defense, and warns gravely that the situation "should constitute a serious preoccupation for all the Ameri-

can governments." "Venezuela within her sovereign rights could break relations with the Dominican government," the paper goes on, "but it would be against the sympathetic feeling, the understanding and the friendship of her people towards the suffering Dominicans. . . But our government Will not lift a finger to disturb the peace of the Domini-

can Republic, nor do it in the future unless we are obliged to defend our own rights, our sovereignty and our institutions." FOLLOWS RUSSIA Word has reached me by secret code that satellite Czechoslovakia will follow in the economic footsteps of Russia and will be forced to devaluate her

AID FOR NAVAJOS NOTES FROM THE CABINET CORRESPONDENT - Along with aid to Europe a "Marshall Plan" for the proud but poverty-stricken Navajo Indians will be demanded by the Interior department, authorizing \$80,000,000 worth of rehabilitation in our own back yard. A blueprint will be

laid at Congress' feet for a 10year recovery program. Interior has pleaded the Navajos' case upon Capitol Hill often. but this time Secretary "Cap" Krug feels that public indignation will force Congress' hand. Conditions on the parched, eroding Navajo reservation have deteriorated to such a state that President Truman the other day issued a stirring appeal for emergency relief. The House Public Lands committee promptly introduced a bill for \$2,000,000 aid. But as soon as the winter crisis has been met, Krug is ready with a complete long-range pro-

ajos live on the semi-arid, sagebrush-dotted mesas in the corner of Arizona, New Mexico and Utah. The principal crop is grass, the major industry sheep raising. The land cannot support more than 35,000 people, but today 61,000 are trying to scratch a living from it. As a result the range is dying. One way to save it is to stop . the water ! and

cious topsoil. 2. Education, \$23,510,000. Seventy-nine per cent of the Navajos, living in the heart of America, cannot speak English. Yet the Federal government pledged in 1868 to educate their children. Today, nearly 80 years later, three-fourths of the 20,000 schoolage Navajos are forced to play hookey. It is Krug's plan to build more schools, hire more teachers and send our school

wind from carrying away pre-

buses to round up the students, Health, \$3,935,000. White medicine men are doing the Navajos little more good than the chanting, magicmaking native medicine men of their past. Reason: Too few doctors, too little training. Many who are supposed to be tending the sick never got inside a medical school. The result is the Navajos are ravaged by disease-30 per cent have venereal disease, 25 per cent are suffering from tuberculosis or lung ailments, 6 per cent are blind or eyesore, 6 per cent are physically handicapped, 100 per cent are lousy. Most incredible is the infant mortality rate, 330 out of every 1,000

babies die-before they are two-If the Navajos demonstrate that they can glean enough crops from irrigated land to maintan a reclamation project, interior will recommend an additional \$60,000,000 for irrigation development. The proposed site is shiprock on the San Juan River which skirts the northern edge of the reservation.

Note-many Navajo braves, who fought for this country during the war, are crying for the right to vote. It isn't supposed to be known yet, but several of them plan to take their battle for Indian suffrage to the Arizona state courts this month.

Raiders Rally Late To Win Over HCJC Hawks, 59-42

Mustangs Trim Frogs, 62-58

The Southern Methodist Mustangs cut the ribbon on the Southwest conference basketball race last night (Wednesday) with a 62-58 defeat of the Texas Christian Horned Frogs.

That one entry in the standings will remain until Arkansas and Texas A. and M. begin in a twogame series at College Station tomorrow (Friday). Saturday Baylor will challenge SMU at Dallas.

The Methodists had to come from behind in the Southwest conference starter. Giant Roy Pugh tossed in 29 points and paced the last half drive which had the Mustangs 18 points ahead at one time.

Sharp shooting Bryan Jerrel put the Frogs back in the game late in the last period and at the finish the Christians were pushing hard. TCU led 21-18 at the half.

If the Odessans plunge into competition in the fall, one of the standouts no doubt will be "Blue Eyes" Clark, a regular on their basketball team, who used to punt and kick field goals and points after touchdown with his bare foot.

DAVE RYAN IN LINE FOR ROSCOE HIGH POST?

According to Gene Martin, the Sweetwater scribe, Dave Ryan, native of Kaufman, Texas, is in line for the head coaching job at Arnett Roscoe high school, where Al Milch recently stepped down. Ryan has been playing football with the Detroit professional Lions.

George Halas, the astute coach of the Chicago Bears of the National pro league, looked up Peppy Blount of Our Town immediately after the Sugar Bowl game in New Orleans last week and talked contract with him.

Peppy told Halas he'd be interested after the 1948 season, when he finished his football eligibility at the University of

There's still hope for the West Coast football teams in the Rose Bowl games, despite their alignment with the Big Nine conference.
