## **General Attack** On Jews Feared In Palestine

#### Armed Arabs Are Being Moved Into Damascus

DAMACUS, Syria, Feb. 3. (AP)-Truckloads of armed Arabs rolling into Damacus led many observers to believe today that a general attack on Palestine Jews may be approaching.

Some believe such an attack has been set for Feb. 15. Fawzi Bey Al Kaukji, leader of the Arab forces, told newsmen that "The Middle East's finest army is moving in."

He said he expects to move his headquarters to Palestine "soon." and that he will assume personal direction of operations.

"When we strike it will be with confidence of complete victory.'

Ahmed Sharabati, Syrian defense minister, said in an interview Jan. 13 that an offensive, to sweep Zionism from Palestine, would be launched this month.

The exiled Mufti of Jerusalem, Haj Amin Al Husseini, is in Damascus meeting with members of the Arab higher executive. Sources considered reliable said they discussed coordinatiion of Arab volunteer tactics in Jerusalem.

At least four truck convoys of cheering, rifle-firing Arabs arrived in Damascus last night. Observers estimated the convoys carried about 1,000 men. A Syrian army officer said they had been trained in several Syrian camps.

Foreign military observers looked on the army as one composed of "smart," tough and mature fighting men." Some of the volunteers were believed to be former soldiers.

## On Civil Rights Creates Storm Plan Discussed Of Withholding

Truman's Talk

## **Electoral Votes** WASHINGTON, Feb. 3.

(AP) - Southern Democrats talked bluntly today of calling a Dixie convention to split away from President Truman on the civil rights

One Deep South senator who asked not to be quoted by name told a reporter present plans are to ask the Conference of Southern Governors to call an all-Southern

convention. Such a political gathering could pick its own candidate for president. But the main objective would be to work out some way to withhold at least part of the South's electoral votes from Mr. Truman. The governors will meet at Tallahassee, Fla., Friday. They are certain to take up Mr. Truman's message yesterday urging Congress to act on a 10-point civil rights program.

The Southerners are boiling mad over four of those points. They call for (1) a federal anti-lynching law, (2) a permanent fair employment practice commission, (3) an end to Jim Crow rules in transportation and (4) outlawing state poll taxes.

While the system in Howard county might be best described as hybred, there is constant and imminent danger that our road functions may revert to the pure precinct basis. With the primaries in the offing, this would be a tempting moment for such reversion. Bearing in mind that we do not have an exact parallel but that we might, as any county might, we call attention to some rather pungent remarks by Lynn Landrum in the Dallas News.

"The modern road isn't a 20-year road. It begins to wear out long before the bonds wear out. What we need to do is to survey our average annual necessity for road outlay-both new construction and maintenance - and then adjust our taxation, administration and economies accordingly.

"The State of Texas does not borrow money every time it wants to build or rebuild a highway. Why should we. The whole bonded debt practice of Texas counties is out of date, costly and wrong.

"Dallas county now wastes money on road repair and maintenance because Dallas county has . . . four road administrations and no road policy at all. "If Commissioner Elijah J. Quagmire

decides that he will spend a large part of his one-fourth of the road money on a road that will benefit chiefly Constituent Noggins Bilk, there is not one word that Commissioners Wheef, Ginbustle and Hollup can say about it. For each of them has a little something on the stove in his own

The Nation Today—James Marlow

"Brother Quagmire naturally has to have his own road gang so that, come election, the gang can spread out over the Quagmire district and pass candidate cards and tell the dear voters what a great man Citizen Quagmire is. And with Brothers Wheef, Ginbustle and Hollup, it is not otherwise. Politics is politics, from the Panhandle to the Sabine. And politics is merely human nature in office, you know-or out of office and hankering to

get in.
"There is no telling how much money in Texas is thrown away-not in graft, but in sheer loose management and political inefficiency—by Commissioners Courts that have Brother Quagmire, who tickles Brother Wheef, who scratches Brother Ginsbustle's back so that Brother Ginsbustle will be moved to 'co-operate' with Brother Quagmire . . . Sometimes it is five-way, if County Judge Hikkups is a forceful man of pleasing and pliant personality . . . Dead-end county roads, 'im-provements' that run square into bottlenecks, contracts that turn out to be uneconomical and imprudent—these are the natural outcome of four-way management."

Mr. Landrum hastened to add that any resemblance of names to those of anyone living or dead is purely coincidental. Names are wholly beside the point. What he was attempting to show was the inherent weaknesses of a system with

divergent plans and policies. That is the danger that faces this and other counties and which The Herald long has contended should be avoided. Our road and bridge fund now receives enough resources to warrant a closely co-ordinated program of planning and adminis-

## Injunction Gives Labor Act Power

By Max Hall

(For James Marlow) WASHINGTON, &-The twoedged sword of the Taft-Hartley Act has come into full use. This weapon is the injunction power. It is a weapon so new and so important that people concerned with labor-management relations man board the power to order are watching it intently.

So far, ten injunctions (court orders) have been issued under the new labor law. Nine were against unions, ordering them to stop certain practices. The other was against an employer (General Motors).

The man who grasps the twoedged sword in his hand, Robert N. Denham, says the injunction power is "perhaps the most far-

He also says it won't be used often, for "it is too powerful and sharp a weapon to be weakened and dulled by indiscriminate us-

The new law says neither unions nor employers may commit unfair labor practices. It gives Denham, as general counsel of the National Labor | Relations board, the power to prosecute offenders. And it gives the five-

the practices stopped But first the board must hold a trial on the charges. And such trials take a lot of time, sometimes more than a year. So the new law, to cover ur-

gent cases, gives Denham the power to seek a court order halting an alleged unfair practice pending an NLRB verdict. The law says Federal judges may issue such an order when they

Denham can take this action when prosecuting any unfair practice. But whenever he prosecutes a union for certain kinds of practices-a secondary boycott for example-he not only can, but must, seek an injunction. He has no choice.

Most people, including Denham's office and leading members of Congress, have interpreted the Taft-Hartley Act as giving the injunction power to government officials only - and not to a union or employer.

But a Federal judge in North Carolina has ruled that the CIO Textile Workers had a legal right to ask him for an injunction to force a cotton mill company to bargain with the union. At about the same time a Federal judge at Texarkana, Ark., granted an injunction to a motor coach company. The judge or-

dered the AFL Street, Electric Railway & Motor Coach ployes not to go through with a threat to picket a bus terminal. Denham's office, amazed at those two decisions, is protesting both of them.

## Can Gandhi Spirit Check Hatred?

The frail body of Mahatma Gandhi has been consumed in the white flames of the burningghat beside the sacred Jumna river, in an awesome but impressive ceremony.

The Mahatma's body is gone -murdered by one who made the salaam of goodwill even as he fired the traitorous shots. But the spirit of this world-figure, whose last act as he sank dving to the ground was to give the sign of forgiveness to his assassin \* still lives within the hearts of the host who worshipped him.

These circumstances present the Indian sub-continent with a problem which is both momentous and unique. It is this:

Can the spirit of Gandhi, the martyr, continue to exercise the same influence over the country's inflammable millions as he has exercised in life? Can Gandhi, dead, still hold in leash the bitter, primitive hatreds which could plunge the Indian peninsula into the horror of a fratricidal strife such as the world never before has seen?

Gandhi's assassination has emphasized a complication in the Indian situation. We no longer are concerned merely with the communal warfare between the Hindus and the Moslems. There's a dangerous split among the Hindus, and they total about threequarters of the subcontinent's population

The police of New Delhi have held Narayan Vinayak Godse as the Mahatma's assassin. The authorities have identified the accused as a member of the politico-religious Hindu organization known as the Mahasabha. This is a militant body which would change India into a religious state

and revive the ancient Hindu laws and practices. It advocates India for the Hindus, and has been charged by government officials with increasing communal hatreds.

All that is utterly opposed to the code of Gandhi and his followers, including such leaders as Pandit Jawaharlal Nehru, prime minister of the dominion of In-

Speculation whether wholesale fratricidal warfare may develop is futile. There is nobody wise enough to answer that today. One

thing alone stands out clearly: Peace depends on whether the spirit of Gandhi the martyr is as powerful as was Gandhi alive. Perhaps it will be even more po- . 30. tent. In any event it is in the hearts of leaders like Nehru, who was a faithful disciple of the Mahatma.

## Law Catches Up With Santanta

tleman for whose popular composition I have a good deal of respect is David Raksin, who has labored dutifully in Hollywood

The Raksin efforts include among others, "Laura," which has all indications of becoming a "standard" pop tune, meaning it will be played again and again through a good many years. Another "Stardust," you almost could say. In fact, I'll say it. So there.

Other Raksin efforts include scores for such films as "Forever Amber," which didn't excite me out of my seat; "The Secret

"There is only one real function of film music-namely to feed the composer," carped Igor.

Raksin holds movie music in greater respect, but he admitted just the same that the feeding of movie composers has a useindeed, speaking ful purpose personally.

"In a world where man does not live by double-fugues alone," Raksin countered, "perhaps the composer who works in films is most fortunate of all. ## Tattooer Muralist At Heart

By WILLIAM C. BARNARD Earl Brown, San Antonio tattooer, is a muralist at hearthe likes his pictures big.

While Earl will write "Mable" on your chest or draw a rattlesnake on your bicep, he would rather do a full-rigged clipper ship across your back in eight colors.

Or perhaps you'd prefer a rodeo extravaganza, with bronco intent on dislodging a cowboy against the corral fence. Or a multi-hued fireside scene show-

ing home and mother. "What would it cost a fellow to remove one of your big pictures from his back?" we asked blue-eyed, 46-year-old Brown.

"About \$1.000," he replied, but who would want to have a beautiful piece of tattoo work removed?"

tooers in the United States, there are only 27 "masters of the art of tattooing," Earl said, adding

that he is one of the 27. Those large-scale back-covering designs cost from \$150 to \$200. Earl, working with his electric needle, completes them in about

eight hours. Earl started tattooing at 17, working designs into his schoolmates. Mothers of the school chums didn't like it-one even tried to have him arrested. He has lived in Chicago, San Francisco, San Diego and Corpus Christi.

You've seen tattooed men in sideshows. During the slack winter season, Earl sometimes goes in for such extensive work.

"Mostly I do it free," he said, "to advertise my business."

## Shaw Calls Himself A Communist

Shaw, famed 91-year-old Irish wit and playwright, has written an interesting letter endorsing Henry Wallace.

However, if Wallace is not elected, Shaw says, he would prefer a Republican "because a Republican may steal a horse, where a Democrat dare not look over the hedge."

Shaw describes himself as "a communist though not a member of the so-called communist party." which according to friends means that Shaw believes in theories of community property, etc., but not the terroristic methods used by the communists to put these principles into force. Shaw's letter, written to Miss Fanny Holtzmann, New York attorney, follows:

"14th January 1948 My dear Fanny.

I am not a Cobdenist liberal, but the very opposite, a communist, though not a member of the so-called communist party. On the whole, if an up-to-date new deal European minded candidate like Wallace is defeated.

Cobdenist free trade and laisser-faire are as dead as a doornail. FIGHT OVER MARSHALL

As CIO Chief Phil Murray goes on the witness stand regarding the Marshall Plan, he faces hot rebellion in his ranks from the National Maritime Union which demands that goods shipped abroad under the Marshall Plan be carried in American ships.

In mid-December two - fisted Joe Curran, head of the unruly Maritime union, together with John Green, head of the CIO's Shipyard Workers, told Murray he should qualify his support for the Marshall Plan by stipulating that American seamen should carry Marshall Plan goods in American ships at American pay scales. They pointed out that a large part of the steel we are sending to Europe is going into ships while our own shipyards are idle, and that more than 1,400 merchant ships have been turned over to European nations during the past year while there is unemployment among American seamen.

Idignant, Murray agreed. However, Jim Carey, able CIO secretary, and prime mover within the CIO for the Marshall Plan. has insisted that the plan must have the unqualified support of the CIO. The shipping matter, he maintains, can be fixed up satisfactorily. Carey, a powerful influence in-

side the CIO, flew to Pittsburgh last week mainly to argue this point with his Boss. Meanwhile, Curran thinks that

if Murray will continue to oppose the ship transfer he can win his Maritime union over to supporting the Marshall Plan. Also his moderate policy will be strengthened in the union elections which get under way March 1. So Phil Murray, when he testi-

fies on the Marshall Plan, will be very much on the spot. Only Man Is Vile

## A Fable Of Flatbush

NEW YORK, A-Once upon a time in Flatbush there were two acorns. One was a good little acorn, and the other was a bad little acorn.

Hal Boyle's Notebook

Both had fallen from the same tree, and were talking over life and its problems, just like a couple of Vassar sophomores. "I want to be a big tree just like Dad," said the good little acorn, who was ambitious.

"I don't," said the bad little acorn. "What kind of a life is that? You just grow and growand end up in the same place." "Don't you want to feel the wind lift your leaves? Don't you want to wear a nest of robbins

in your hair?" asked little acorn G (for good). "I don't want to be no bungalow for birds-that's for sure," said little acorn B (for bad). "And what do I want leaves for? I wish Mom had married a pine tree. I'd much rather have needles."

Their conversation was interrupted by a squirrel who grabbed them and carried them into the wood.

The squirrel halted, dug a small hole with his paws, tumbled in the two acorns, then covered them with earth. "Oh, oh, what shall we do?"

cried acorn G. Weeks later she whispered suddenly:

"Sister. Ive got roots. 1 can feel them."

"What do you think I've gotbunions?" snarled the bad acorn.

## Seabiscuit Film Set

HOLLYWOOD Am-After long egotiations, Barry Fitzgerald is finally set for "The Story of Seabiscuit.'

The deal was off because the Irish actor wanted \$250,000 for the chore and Warners couldn't see it that way. A compromise figure was reached and the picture rolls in the spring, with David Butler as director. Although no human principals will be portrayed, Fitzgerald's role parallels owner C. S. Howard. ## LOOKING 'EM OVER

With TOMMY HART

There would be no reason why Big Spring high school basketball teams couldn't net the local athletic fund more money year in and year | basketball Steers handed Andrews out than the football teams, if Our Town boasted a gymnasium big Mustangs in an exhibition game enough and comfortable enough to handle the crowds.

Alongside football, basketball is a small-budget business. Equipment comes cheaper and ten or 12 boys usually make up a basketball a soothing ointment for the wounds squad, compared to the 30 to 35 suiting out for the football team.

Basketball was a minor sport in this area in every sence of the word fered in their loss to Vernon up until a few years ago. It still isn't the big business game it is in the Payne's club in the recent Odessa mid-west but, in the eyes of the local sports fan, it is making progress. interest in the game has increased by leaps and bounds since the popular Johnny Malaise assumed the coaching reins.

If the school were equipped with a gym capable of seating 1,500 but not by so one-sided a margin. to 2,000 fans, chances are the Steers would all but fill it every time they They hammered away at the Cayuplay here. Many local supporters now do not attend the games because they know they cannot get seats.

HOUSER MAY ATTEND COLLEGE AT MALAISE'S ALMA MATER Eddie Houser, the popular captain of the local prep cagers, will them early in Round Three, probably wind up in college at North Texas State in Denton, alma mater of Malaise.

John would like nothing better, although he wants Eddie himself to make up his mind. In event Houser matriculates at Denton, John no doubt will send along his finest recommendation. Houser is a lot of toss line saved them from utter basketball player in the eyes of the mentor.

Which ever school gets the angular casaba wizard would probably take him primarily because of his ability on the hardwoods. However, the youngster should make some school a tremendous football player. Eddie is one of the most brilliant pass receivers the local school ever had, which is all that is needed to recommend him in this day of gridiron specialists.

James "Brute" Timmons, the Sweetwater boy who made the All-District 3AA grid team as a tackle, will probably enter Rice Institute next fall. Timmons should cut quite a figure in collegiate football. Jerry Marberry and Baxter Lambert, Timmons' team-mate last fall, are set to enroll at Texas Tech in September.

Carroll Holliday, a Marshall (Tex.) end who had several chances to attend Southwest Conference schools, has enrolled at Louisiana State university for the spring term. Holliday was All-District in 11AA

# Russian Loses

Ace Freeman, booked to mee Leon Kirilenko in the Big Sprin Athletic club's main event las night, was called to New York be cause of the death of his father an his departure apparently left the Mad Russian in a bad frame o

Salvador Flores spelled Freema on the card and took a pummellin until Referee Billy McEuin decided Kirilenko was playing too rough and exiled him into the wings.

In the opener, Sgt. Karl Gray, who turned out to be another villain, worked Georgie Lopez over And Eight Others and finally copped the duke.

## SMU Loses Sullivan

DALLAS, Feb. 3 (P)-Two varsity and seven freshmen football players will be ineligible to compete with Southern Methodist next season because of scholastic failure.

Among the group are Billy Ray Sullivan, who did all of the kicking off for the undefeated, twice tied Mustangs last year, and Ted Hunt, promising freshman back from Goose Creek.

Dr. Edwin D. Mouzon, faculty chairman of athletics, said the seven had failed to pass their required work.

Cecil Moseley, guard from Masonic Home, was another player who failed to pass.

## Good Business Calls For Good Accounting

A well-known economist has said: "Once a business becomes too big for one brain to handle personally, accounting takes over the job."

American business could not have grown to its present size without accounting.

Advising business, big and small, on management problems involving accounting is an important part of the work of many Certified Public Accountants. They help management keep expenses in line with income ... pay the right taxes (not too much or too little) . . . cut overall costs.

A CPA's work can help business efficiency and economy - which in turn may result in lower costs and lower prices.
