R. C. OLIVER lo Johnson Street

Roy Weatherly, Warren, Hits All Kinds Of Throwing

If Roy Weatherly, Cleveland's sensational rookie outfielder, hopes to continue hitting at the pace he set the first two weeks with the Indians he will have to overcome tendency to go after bad balls. Still, if a batter can pound the ball at a .370 average, what matter if he does reach for a few stray ones? Weatherly defends himself against the charge that he is overanxious at the plate. True, he does go after a ball that is a bit wide now and then but that is only because he learned from bitter experience that the umpires in the Southern association are prone to give the pitchers the benefit of any loubt and unless a batter swings a

Now convinced that umpiring in the American league is far superior to the minor league grade, he is not Second Straight that last season, with New Orleans, he walked only 13 times Roy thinks is sufficient evidence to show that it is a case of swing or sit down.

came with only two years of professiona experience. He was born in Warren Texas, 20 years ago and learned his baseball on Warren sandlots He was an all-around player in those days, taking a fling at out fielding, infielding and going ba-hind the plate. He made his bow in professional ranks in 1934, when he got a job in the Evangeline league, Last year he was with New Cincinnati45 Orleans, where he set the Southern

North Carolina's 18 Counties Selling Liquor Profit \$628,756

RALEIGH, N. C., July 29. (UP) Carolina, where 18 of the state's 100 counties are permitted to sell all forms of alcoholic beverages legally, has been successful both from the standpoint of financial profits to the countles and from the standpoint of law enforcement,

United Press survey reveals. Gross sales of the 64 county-oper ated stores for the fiscal year ending July 1, 1936, totaled \$3,100,463.72, unofficial figures show, and of this a net profit of \$638,756.81 went di-rectly into transuries of the 18 countles and the numerous cities which the stores are operated. Five per cent of the net profit was turned over to law enforcement agencies to combat bootlegging and three per cent of gross sales, or \$93,312.91, went to the state of North Carolina in the form of sales

The county option system was inaugurated a year ago under an act passed by the 1935 General Assembly, with each county sole judge own liquor sales. There is no state

Just as Dr. Compton suggested hunting an insect spray, recently discovered a remedy for certain human ailments. They made the discovery in whether the spray had a dangerus effect on buman beings.

Dr. Compton was afraid congress would get pretty impatient if it appropriated millions to conduct research to find one thing and some thing else turned up, or perhaps nothing turned up quite as soon as

congress thought it should. He had another reason for suggesting use of federal money to industrial plants. He thought it would be pretty hard to persuade congress to pay enough to retain scientists of "real genius" in government bureaus.

Private industrial organizations, he said, "have done practically everything that has been done to develop new outlets for farm prod-

Legislative Proposal Expected For that reason he suggested ongress "directly or otherwise" ongress oster such research, perhaps under the general direction of the department of agriculture advised by a committee selected from agri-

culture, industry and science. But while those interested in the proposal predicted the early ar-rival of a bill incorporating the idea, they predicted no prompt approval of it. Imagine, it was suggested in one quarter, just how eagerly a new deal congress would approve a grant to the laboratories of some industry headed by "economic royalists."

Piled high on a certain promi-nent senator's desk one day was a sheaf of letters, together with some impressively thick documents. Atop that was a little pink sheet upon which the senator had scribbled, obviously by telephone

dictation: "Butter, eggs, bread, celery."

FARM MORTGAGING DROPS ONE-THIRD IN TWELVE MONTHS

WASHINGTON, July 29.—Total farm mortgage loans recorded throughout the United States by all institutions and individuals during the year ending May 31 last amounted to \$900,000,000, compared to \$1,440,000,000 during the previous one year period, as announced by the Farm Credit administration in Washington, representing a decline of one-third in 12 months. Most farm mortgage loans continue to represent the refinancing on better terms of existing indebtedness, thus proving that farmers are not going further into debt.

Although the federal land banks and land bank commissioner loans continue to rank first among the various classes of creditors, with \$313,000,000 of the total advanced to farmers during the 12-month period, trere has been a marked increase in farm loans by commer cial banks and insurance com-panies. Farm mortgages records by commercial banks amounted to

THE UNIVERSITY'S FINANCES

The fact that the University of Texas is asking for the unprecedented sum of \$2,500,000 for each of the next fiscal years directs attention to the unusual position which that whole field of wheat into a charinstitution occupies in regard to its finances.

It is popularly regarded as one of the richest of American universities, due to the oil wealth which it has. Its con-trying to stamp this fire out with dition is roughly comparable to that of a family which has a magnificent home, but whose income is not sufficient to hire servants or pay the utility bills. So far as its physical The woman is grateful and asks plant is concerned, the university is in splendid shape. But me into the house for a glass of it is below the standard of institutions of like enrollment water.

and importance in such things as the number of teachers and the salaries paid them. What it is undertaking to do farm, does the planting and the in asking for a much larger appropriation than it has here-tofore received is to attain the same standard in its person-al that has been reached in its physical plant al that has been reached in its physical plant.

Under the constitution, the legislature may not ap-raised on a farm in Kansas about propriate money with which to erect university buildings. Dakotas with her husband. They The revenue from the university lands must be used for that purpose, if the university does any building. Fortunately, for 20 years, and for the last 10 the discovery of oil underneath the university's lands pro- years Mrs. Moen has been managvided funds which enabled the institution to replace its ing the farm. She votes regularly Roosevelt Cabinet wooden shacks with modern structures. But the money for "I think Pres'dent Roosevelt's professor's salaries and for maintenance must come from mighty fine man and I b'lieve he's appropriations.

The remarkable growth of the university's student body got is stopping everything he tries has made it necessary to appropriate more and more for its to do. It's the people between him maintenance. The current request is made in anticipation and us that most of the farmers of an enrollment of over 10,000 at Austin by 1940. It also is object to. based on a desire to restore faculty salaries to the pre-de- hasn't been so much around here pression figures.

The question which the university's growth presents is men out shovelin' and diggin' that one that Texas must face squarely. This state cannot have a great university—great in the cultural as well as in the nothin' the matter with them, and physical sense—unless it is prepared to give it adequate yet there's some people starvin' support. The current request is in keeping with the hope and not able to get any relief.

There's so much graft and misfor a truly great university.—(Wichita Times).

WCTU Resolutions Adopted At Recent Annual Convention

The following were among the resolutions adopted at the 62nd annual convention of the Womens Christian Temperance Union, held

recently in Oklanoma: Total Abstinence—Science proves alcohol to be a poisonous, habit-forming drug which affects first the highest faculties of the brain, self-control, judgment, will and moral sense, through which we moral sense, through wittouch the Divine nature. Therere, we reaffirm our stand for to tal abstinence from alcoholic bev-

"Moderate" drinking is injurious and leads to excess; therefore we oppose it. Beer, even of low sloolie content, la not a 'temperance drink and it cannot be safely used even in moderation.

Prohibition-Repeal has strength ened our belief as to the soundness of National Prohibition and the necessity for its re-enactment. Prohibition decreased the amount of liquor consumed, destroyed property rights in liquor and made li-quor investments unsafe and unrofitable, thus destroying the profit motive. The theory of governnent monopoly, as a means of detroying the profit motive and thus olving the liquor problem, faile o take into consideration the habt-forming nature of alcohol and the accessibility and respectability "temperance" program. which such a system would pro-

In June than in May, Without adjustment either for the number of working days or for seasonal influences, June sales were three per cent greater.

All of the kinds of business represented registered gains from last year. The greatest increases were three per known by lumber and building materials dealers, with a 63 per cent
