Local Dairy Queen Restaurant Salutes the Red, White and Blue

In a show of patriotism and gratitude for our nation's military and veteran, the Dairy Queen restaurant, located at 419 W. Lubbock in Gorman, is proclaiming Saturday, July 6, as "American Legion/Military Day." On that day, members of the American Legion Family, military personnel and veterans showing proper membership of military identification cards will receive a free five-ounce sundae. The special event also provides an opportunity to support America's hospitalized kids.

"We wanted to say 'thank you' to those who have made and continue to make tremendous sacrifices for our Country," says Doris Richeson, Owner. "At the same time, we wanted to raise money for our charity of choice. Children's Miracle Network (CMN)."

The one day event is just one element in the Dairy Queen system's Red, White & Blue promotion which runs throughout the month of July. During the promotion, the Dairy Queen system is partnering with the American Legion Family to celebrate America, honor our nation's military and veterans, and raise \$1 million for Children's Miracle Network hospitals.

The promotion is anchored by the introduction of the limited time All-American Blizzard Flavor Treat, featuring Red, White and Blue M&Ms Candies. As a related activity, paper Miracle Flag icons and Red, White and Blue Antenna Toppers will be sold for a \$1 donation and spare change will also be collected for Children's Miracle Network, all monies collected will be donated to the local Children's Miracle Network Hospital, Hendrick Medical Center.

International Dairy Queen, which is headquartered in Minneapolis, Minn., develops, licenses and services a system of more than 5,700 Dairy Queen restaurants in the United States, Canada and other foreign countries, offering frozen dairy desserts, hamburgers, hotdogs and beverages.

Children's Miracle Network is a non-profit organization dedicated to helping kids by raising funds and awareness for 170 children's hospitals throughout North America. The Dairy Queen system has been a National sponsor of CMN since 1984, raising more than \$44 million during that time.

Vera Will be 100 on July 11, 2002

Vera Henderson's children, grandchildren, and great-grandchildren are gathering at Gorman Heritage Manor Nursing Home on Saturday, July 6 from 2:30-4:30 p.m. to celebrate Vera's 100th birthday.

We would love to see you there but we are fully aware of your time and Vera's limited energy to visit. So even if you cannot join us, we ask that you please mail her a birthday greeting on this special day.

A card shower would be something she could enjoy over and over in the days that follow. Please mail your greeting to: Vera, C/O E.G. Henderson, 3665 Hwy 2461, Eastland, Texas 76448.

We are planning to honor Vera in a very low key way. She really does not want us to make a big fuss. She says that large groups make her nervous so we are trying to go along with her wishes. We hope to visit with her 2-3 people at a time in a small family room. We have a larger, separate room reserved for family and friends to gather at the end of the hall. We will enjoy her cake and drinks there.

Vera's family requests greetings only. Please no gifts.
(shhhhhhh---it is a surprise)

Kokomo News By Zelda Jordan

The Vacation Bible School held last week at the Kokomo Baptist Church ended on Friday night with a program for the parents, grandparents and other visitors to see what the children had learned throughout the week. The 3, 4 and 5 year olds presented a musical program directed by Helen Browning, and then those in first through sixth grade presented their musical program directed by Jill Little and Crystal Snider. The pastor, Bro. Clarence Wilson then presented certificates to all who attended the school during the week. Following the program everyone was invited to the rooms where the memory verses, bible stories and handwork the children had done was displayed. Then it was time to go to the community center for refreshments and fellowship where the table and chairs were set up under the trees. What a wonderful way to end the week. Leona Wilson was the director of the Bible School and other workers were Helen Browning, Belinda Segura, Dianne Snider, Mandy Underwood, Jill Little, Crystal Snider, Cecilia Hirst, Aletha Burgess, Norma Webb and Dale and Kathy Collum of Huckabay who came and helped with the recreation. Zelda Jordan served as secretary and Kay Snider was in charge of refreshments each day. Bro. Clarence Wilson, Marge Hudson and Aline Garrett were also helpers.

Our thanks and appreciation to each one who had a part in the bible school and to the parents, grandparents and friends who brought the children each day.

"Happy Birthday" was sung to Leona Wilson in the Sunday morning service at the Kokomo Baptist Church on June 23. Helen and Woodrow Browning, with Daryl Hirst at the piano, rendered the special music. Visitors were Cindy, Kyle and Kayla Jordan of Lubbock.

Our congratulations to Joe and Glynda Bond who have a little granddaughter, Raegan L'nae Bond who was born on Thursday, June 21. Haley and Chelsea Buckley of Desdemona spent several days last

2001 Drinking Water Quality Report

(Consumer Confidence Report)
(254) 734-2317 -- CITY OF GORMAN

Our Drinking Water Meets or Exceeds All Federal (EPA) Drinking Water Requirements

This report is a summary of the quality of the water we provide our customers. The analysis was made by using the data from the most recent U. S. Environmental Protection Agency (EPA) required tests and is presented in the attached pages. We hope this information helps you become more knowledgeable about what's in your drinking water.

En Espanol

Este reporte incluye informacion importante sobre el agua para tomar. Si tiene preguntas o discusiones sobre este reporte en espanol, favor de llamar al tel. (254) 734-2317 para hablar con una persona bilingue en espanol.

Where do we get our drinking water? Our drinking water is obtained from Ground and Surface water sources. It comes from the following Lake/River/Reservoir/Aquifer: UPPER LEON MWD. TNRCC will be reviewing all of Texas' drinking water sources. The source water assessment process will be completed within three years. It is important to protect your drinking water by protecting your water source.

All drinking water may contain contaminants.

When drinking water meets federal standards there may not be any health based benefits to purchasing bottled water or point of use devices.

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline (800-426-4791).

About The Following Pages

The pages that follow list all of the federally regulated or monitored constituents which have been found in your drinking water. U.S. EPA requires water systems to test up to 97 constituents

Secondary Constituents

Many constituents (such as calcium, sodium, or iron) which are often found in drinking water, can cause taste, color or odor problems. The taste and odor constituents are called secondary constituents and are regulated by the State of Texas, not EPA. These constituents are not causes for health concerns. Therefore, secondaries are not required to be reported in this document but they may greatly affect the appearance and taste of your water.

Treatment Technique (TT)

A required process intended to reduce the level of a contaminant in drinking water

Action Level (AL)

The concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.

NTU-Nephelometric Turbidity Units

MFL-million fibers per liter (a measure of asbestos)

pCi/l-picocuries per liter (a measure of radioactivity)

ppm-parts per million, or milligrams per liter (mg/l)

ppb-parts per billion, or micrograms per liter (ug/l)

ppt-parts per trillion, or nanograms per liter

ppq-parts per quadrillion, or picograms per liter

Special Notice for the ELDERLY, INFANTS, CANCER PATIENTS, people with HIV/AIDS or other immune problems:

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/Centers for Disease Control and Prevention (CDC) guidelines on appropriate means to lessen the risk of infection by *Cryptosporidium* and other microbial contaminants are available from the Safe Drinking Water Hotline (800-426-4791).
