

4 Texans Named In PWA Fraud Indictment

News Behind The News

THE NATIONAL Whirligig

Written by a group of the best informed newspapermen of Washington and New York...

WASHINGTON By George Duran

Heat— Perhaps consumers of bituminous coal should start storing up against a hard summer.

The big fellows controlling what are known as "captive mines" are doing it. That might reasonably indicate to the public the probability of a general walkout in the soft coal fields on April 1.

"Strike" is an ugly word which has been used many times before by coal men, wage-and-hour schemers out of the mine bosses. Disinterested observers believe the threat will be made good this time in an effort to force Congress to act favorably on at least one of two pending bills which would benefit organized labor immeasurably.

John L. Lewis—president of the United Mine Workers of America—would especially like to see the Guffey bill become law. This one would nationalize coal production by setting future production quotas, prohibiting the opening of new mines and broadly protecting labor.

More important to the entire American Federation of Labor is the Wagner bill—which would effectively outlaw company unions, perpetuate the National Labor Relations Board as a separate entity and reaffirm incisively the collective bargaining rights of labor.

The word in Washington is that labor strategists figure a tie-up of the bituminous coal fields next month may put sufficient pressure on Senate and House to get at least one of these bills across. Plenty heat has been turned on.

Squeeze— But there's a funny angle to all this. It's intimated by insiders that some of the biggest operators in the so-called central competitive field—which includes Western Pennsylvania, Illinois, Ohio and Indiana—would just as soon see a break-off of labor relations the first of next month. The idea is that they would benefit from the provisions of the Guffey bill allocating future production and shutting off new competition.

Opinion is growing that Senator Guffey's measure will get a vote even if Senator Wagner's doesn't. Government representatives of the consumer don't care much for this bill. They foresee that it would squeeze the consumer between the operator and the miner.

Care— If the miners walk out it will be a "suspension"—not a "strike."

This is a technical difference that means a lot to the United Mine Workers. During a strike, strike benefits have to be paid out of the union treasury. When a wage contract expires and the men don't report for work, that is something else again.

This doesn't mean that John Lewis won't take care of his well-earned brood. But there is a difference between care and strike payments.

Track— It is amazing how gossip persists in Capitol Hill that President Roosevelt will choose a new running mate to supplant Vice President John Nance Garner next year.

The rumors keep coming direct from Senatorial offices which frequently know what they are talking about.

The story goes that Senator Bob LaFollette of Wisconsin—head of the resurrected Progressive Party will get the call. This belief is based on the assumption that the New Deal has lost a lot of support among the working classes recently and something must be done to build it up.

This correspondent still thinks John Garner has the inside track.

Choice— More gossip from Congressional office buildings has Jim Farley resigning as Postmaster General as soon as Huey Long stops shooting. Senators and Representatives alike have figured it out that Farley will devote his time to the chairmanship of the Democratic National Committee after retiring from the cabinet. They foresee him helping to spend that \$4,880,000,000 of work-relief money judiciously.

White House sources say just the opposite is true—that Farley will finally adhere to the Roosevelt rule of one job only and resign the national chairmanship. If Big Jim has additional personal political ambitions, this would seem to be the more reasonable choice.

Cuba— White in White House, the Senate and the American Federation

DALLAS RELIEF STRIKERS IN 'SITTING MARATHON'

A section of the crowd of nearly 1,000 Dallas indigents as they completed the third day of their "sitting marathon" in the city hall. They munched buns and sipped coffee, listened to radio and speeches, as they prepared to "sit" until more nearly adequate aid comes from congress or the Texas legislature. (Associated Press Photo)

SAN ANGELO GETS NEXT DRUG MEET

LATE NEWS

WASHINGTON (AP)—The senate Thursday rejected the LaFollette amendment to add \$5,000,000 for public works to the \$4,880,000,000 relief bill.

WASHINGTON (AP)—Increase of 200,000 workers in industrial employment from January to February was reported by the Labor Department Thursday.

WASHINGTON (AP)—A proposal that the bonus issue be disposed of through a compromise was made to President Roosevelt Thursday by Senator Buckley, Ohio, but the President was reported still against immediate payment.

YORKTON, Saskatchewan (AP)—A farmer went wild with a revolver in a Roman Catholic mission fold Thursday, killing one priest and seriously wounding another, then shooting and wounding himself.

LONGVIEW (AP)—The East Texas Chamber of Commerce Thursday telegraphed President Roosevelt urging assistance of emergency seed loans before it's too late to plant spring crop.

-NEWS-BRIEFS

NAT PORTER HERE FROM EL PASO

W. Nat Porter, manager of Hotel Hussman, El Paso, was in Big Spring Thursday afternoon, having driven here from that city by automobile. He came here in the interest of securing the druggists convention for El Paso in 1936.

ATENDS DRUG MEETING HERE

M. A. Withers, vice-president and sales manager of Globe Laboratories, manufacturers of animal serums, Fort Worth, was in Big Spring for the West Texas Druggists' convention.

RETURNS TO HOME AFTER CONVENTION

R. C. Day, district representative, and L. E. Dunagan, sales representative of Glenmore Distilleries company, of Dallas, have returned to their home after attending the drug convention in this city.

MERRELL COMPANY REPRESENTATIVE HERE

G. E. Bowden of the Wm. S. Merrell company, of Cincinnati, Ohio, was in attendance of the drug convention and has returned to his home.

Association Commends City For Treatment

San Angelo was named next host to the West Texas Druggists' association as its thirteenth annual session ended here Thursday afternoon.

Only one other convention in the organization's history had more registrations than did the three-day affair which attracted more than 250 druggists here.

The executive board of the association adopted resolutions commending local druggists and Big Spring people in promoting "one of the best conventions in the history of the association."

San Angelo won out in a spirited contest with Mineral Wells, Amarillo and Plainview for the next convention.

Officers of the organization will not be elected until the August meeting.

Thursday morning gavel of native mesquite, the gift of Shine Phillips, were presented to thirteen ex-presidents of the association by A. H. Seeley, Fort Stockton, president of the state association. He was assisted by Walter Adams, Forney, secretary of the association.

Druggists were officially welcomed here by Garland A. Woodward, Roy Poole, Amarillo, association vice president, responded.

Jack Woodside, president of the Western company, Chicago, sketched briefly the NRA drug code and said despite some flagrant violations, the code had been generally and rigidly observed. Especially was this true of the larger business centers, he said.

Texas led the nation in percentage of business increase for his company, he disclosed, this state showing 80 per cent more business with his firm.

"A new merchandising era is now on the horizon," declared Woodside. He added that the buying public is rapidly shifting to a trend which demands quality merchandise rather than price, the prevailing factor in retail drug business for many years.

Necessity of diversified and attractive advertising, both from a local and national standpoint, the establishment of modern and attractive stores were stressed by Woodside as means for increasing demands for drug products.

He alluded to innovation of air conditioning which cost druggists in larger centers nearly seven million dollars.

Anderson Asks For New Radio Permit In City

WASHINGTON (AP)—The federal communications commission received an application Thursday for a construction permit for a new radio broadcasting station from Vernon Taylor Anderson, manager of A. B. C. Broadcasting Company, Big Spring, with 100 watts power daytime operation.

This is the third permit to be filed with the federal communications commission from Big Spring in recent weeks. The applications of E. F. Houser and Clyde Miller and The Big Spring Herald, Inc., were placed with the commission some time ago. When action will be taken on these applications was not divulged by commission, although a hearing was granted to Messrs. Houser and Miller on March 18th. Mr. Houser is in Washington at the present time in the interest of his permit.

McDowell Cores Crinoidal Lime

John I. Moore and others' No. 1 L. S. McDowell, northwest central Glascock county unit wildcat seeking Ordovician production, drilled ahead Wednesday at 9,550 feet after coring a section from 9,329-40 feet that was termed a black Crinoidal shaly lime and bore a strong odor of high gravity oil. Only one or one half feet of the 11-foot core was recovered.

Opinion differed as to whether or not the Crinoidal lime corresponds to that which immediately overlies the Simpson, middle Ordovician, in the deep producers in the Big Lake field in Reagan county. It is the Ellenburg, lower Ordovician, that produces there at depths ranging from 8,334 to 9,020 feet. The Crinoidal in the Big Lake deep wells ranges in thickness up to 150 feet, being missing in some of the wells. Between it and the Ellenburger is the Simpson with a thickness up to 350 feet, but also absent in some of the wells.

The Crinoidal is a Strawn member of the Pennsylvania series. Next in the normal geologic scale is the Bend, basal Pennsylvanian, but in the Big Lake deep wells the Bend is not found. No. 1 McDowell has an elevation of 2,534 feet and topped the Permian lime at 2,137 feet. In a lime entered at 9,471 feet it showed high gravity oil and gas through rotary fluid in drilling to 9,520 feet, which caused the operators to run and cement 7-5-3 in casing at 9,480 feet. When plugs were drilled late last week only a small amount of oil and gas showed.

No. 1 McDowell is about 54 miles north and slightly east of the Big Lake field and at the southwest end of the chain of Permian lime pools in Glascock and Howard counties. Location is 1,980 feet from the south line and 660 feet from the east line of section 22, block 24, township 2 south, T. & P. Ry. Co. survey.

A half mile east of the deep test, Moore and others' No. 1 McDowell, lease 2, seeking Permian lime pay, had drilled to 1,855 feet in red sandy shale and quartzite. It is in the southeast quarter of section 21, block 24, a south offset to World Oil Co.'s No. 3-C McDowell producer.

Fraud Alleged In Irrigation Texas Project

Special District Of Columbia Grand Jury Returns Seven Indictments

WASHINGTON (AP)—Seven men, including two former PWA engineers, were indicted Thursday for conspiracy to defraud the government in a \$4,853,000 Texas irrigation project.

The indictment, returned by a special District of Columbia grand jury, resulted from three months inquiry by PWA investigators under Louis Glavis.

It was charged that the seven conspired to force use of redwood lumber pipes in the project and to obtain a \$400,000 profit.

The indictment included Charles R. Olberg and Perry A. Welty, Austin, former PWA employees; William A. Harding, Raymondville; Frank P. McElwraith, Corsicana.

District Attorney Leslie Garrett, Washington, said warrants would be issued immediately and an attempt will be made to bring them to Washington for trial before the District of Columbia Supreme Court.

Conviction would bring a penalty of not more than two years imprisonment or fine of not more than \$10,000 or both.

Labor Urges Extension Of NRA 2 Years

WASHINGTON (AP)—Early enactment of legislation to extend NRA another two years was urged Thursday by organized labor representatives in conference with President Roosevelt.

William Green, federation president, reported after a conference with the president that he was insistent upon continuation of the fundamental principles of the recovery act.

Search For Gypsy Band

Wanted For Questioning In Slaying Of Oklahoma Man Wednesday

DURANT, Okla. (AP)—An intensive search was launched in Northern Texas and Southern Oklahoma Thursday for a band of twenty gypsies wanted for questioning in the slaying of B. D. Wood, 27, at a gypsy camp near Bennington, Oklahoma, Wednesday.

The gypsies, travelling in a caravan of five automobiles, were last seen near Denton, Texas.

Indians May Trap Pheasants

LANDER, Wyo. (UP)—The hunting prowess of the Wind River Indians may soon be placed to test. Dr. Robert A. Hocker, state game commissioner, is negotiating with Indians on the Wind River reservation near her to trap 200 pheasants to be placed on various game preserves in the state for propagation purposes.

PRESIDENT GETS VETERANS' POPPY

Mrs. A. C. Carlson, national president of the American Legion auxiliary, is shown at the White House as she presented a poppy made by a world war veteran to President Roosevelt. (Associated Press Photo)

HELD FOR SLAYING 'REVENOOR'

Thomas Quisenberry, grizzled mountain moonshiner, was captured after an intensive campaign by a squad of coast guard revenue men following the slaying of a revenue agent. He is shown above in the Leesburg, Va., jail as he inspected his rifle and visited with his dog. Charged with the killing, he is held without bail. (Associated Press Photo)

House Turns Down Recommendation To Raise Oil Tax

Local Bar Wins First Skirmish On Senate Bill

AUSTIN (AP)—The House Wednesday again overturned recommendation of the revenue and taxation committee and voted 81 to 84 to print on the minority report a bill increasing the oil production tax to 6 per cent per barrel.

The bill would provide no increase on a daily per well production less than ten barrels, and would levy a four cent tax on production between 10 and 25 barrels, six cents on production over 25 barrels.

The measure would reduce the number of weeks of district court in Howard county to 17 while cutting Midland two, adding two to Ector, and maintaining the present terms in Martin and Glascock counties.

After the senate judiciary committee had conducted a hearing on the measure Tuesday evening, Senator Arthur P. Duggan moved for a ye and nay vote from the committee.

Senator Reagan hastily proposed a substitute motion that the Big Spring bar and Judge Charles Klapproth of the 70th district court confer to effect a compromise bill. The local bar was represented in the committee hearing by James E. Little.

Big Spring now has 21 weeks of district court, Midland 14, Odessa 7, Stanton 5, and Garden City 2.

U.S. Ready To Sell Gold To Other Nations

WASHINGTON (AP)—Secretary Morgenthau said Thursday the government is prepared to sell gold to foreign countries that can offer an attractive proposition.

To Deepen Dawson Test

Further exploration in the Dawson county wildcat, Ray Albright No. 1 Robinson was assured Wednesday when parties interested in the test agreed to support drilling below the original contract depth of 4,500 feet which was reached Sunday.

With the true nature of the lime section debatable many are of the opinion that a few hundred feet of additional drilling will definitely establish the structural position of the well. The Robinson test was started in 1933, and was taken over at 3,300 feet for deepening by Harry Adams Corporation and Fred Turner, present operators. Deepening is on a day to day drilling cost basis.

Palmer Files For Rehearing

AUSTIN (AP)—Joe Palmer filed a motion Thursday for a rehearing on his appeal from a death verdict assessed for murder of Major Crowson, prison farm guard, in a break early last year.

Rearmament Protests Ignored

Germany Declines To Consider French And Italian Protests

(By the Associated Press) Germany added fire to the turbulent European situation Thursday by firmly declining to entertain French and Italian protests against rearment.

While French and Italian ambassadors handed protests against violations of the military sections of the Versailles treaty to Germany's foreign minister, France simultaneously told the League of Nations that Germany's decision to reararm "threatened to disturb the peace of Europe."

League observers expressed the opinion the body faces the gravest crisis of its history.

France requested an extraordinary session of the council be held and the Secretary General consulted members on setting a date.

Tuberculosis Pictures Shown To Kiwanians

The opening gun in the Howard County Tuberculosis association's campaign to examine all school children was fired Thursday noon at the Kiwanis Club with the announcement of the campaign by Dr. Lee Rogers, president of the association and the showing of motion picture films depicting the various stages of the disease and its cure.

Dr. Rogers stated that all school children in the city were to be examined and given tests by their own family doctor. Parents will be requested to cooperate with the drive through the P.T.A. and other organizations. Twelve children, in one school where the tests were made last year, were found to have childhood tuberculosis, and were sent to Sanatorium where a cure was effected in each case.

Dr. P. W. Malone, who showed the pictures to the club, made a few explanatory remarks and requested the cooperation of the club in this movement.

A trio composed of Miss Ruby Bell, Mrs. Willard Reed and Mrs. R. E. Blount and accompanied at the piano by Miss Helen Duley, sang two numbers which were well received.

C. A. Burrus and Joe Baldrick, members of the Lubbock club, were guests. Other guests present included A. S. Darby, Rev. J. C. Thomas, Dr. James Rayburn and Robert Rayburn.

John Whitmire had charge of the program for the day.

Columbus' Star Hood Found

SEVILLE, Spain (UP)—Professor H. Zinner of the Bamberg, Germany, observatory, has announced the discovery of the astronomical tables used by Christopher Columbus on the voyage which led to the discovery of America. The tables were those of Johann Muller, a Koenigsberg scientist, and were entitled "Regiomontanus."

The Weather

Big Spring and vicinity—Partly cloudy tonight and Friday. Not much change in temperature. West Texas—Partly cloudy tonight and Friday. Warmer in the Panhandle tonight. East Texas—Cloudy tonight and Friday, probably local showers in the south portion.

New Mexico—Unsettled tonight and Friday. Probably rain or snow in the northwest portion Friday. Warmer in extreme northwest portion tonight. Colder Friday.

TEMPERATURES table with columns for location and temperature.

Highest yesterday 72. Lowest last night 57. Sun sets today 6:58 a. m. Light rises Friday 6:41 a. m. Light rains near Ackerly.

## MAY BE IN BIG CHASE

FORT WORTH (Spl.)—"If our pitchers come through, we'll be right up there in the conference race."

This is the prediction of Coach Raymond E. "Bear" Wolf of Texas Christian University, who is making his first appearance this season as baseball coach of the Horned Frogs.

Sixteen men are reporting for the daily practice sessions, and the competition for regular berths is such that no "first" team can yet be named, although the opening date for the conference season—April 5—is near at hand.

**Jacks Heads Candidates**  
Capt. Jimmy Jacks, Fort Worth, southpaw hurler and first baseman, heads the list of candidates. Other pitchers are Dan Harrison, Dallas, another left-hander; Darrell Lester, Jacksboro, Bill Hudson, Newark; and Boaz Hoskins, Fort Worth.

Jimmy Lawrence, Harlingen, appears to have the first-string catching job sewed up. He lettered in the outfield last season but is performing in line style in the backstop position. Relief catchers are Elmer Seybold, Fort Worth, and Aubrey Linne, La Vernia. Linne, a sophomore, is also an outfielder and a good hitter.

At first base, Capt. Jacks will be seen as regular. Just who will replace him when he takes his turn on the mound has not yet been determined. L. D. Meyer, Waco, appears to have second base pretty well in hand, while Sam Baugh, Sweetwater, will probably get the call at the third sack. Taldon Manton, Fort Worth, will probably be regular shortstop.

In the outfield, Coach Wolf has Frank Lozo, Fort Worth, letterman; Harold Fulenwider, Waldo, Ark.; Vic Montgomery, Ozona; Will Walls, Little Rock, Ark.; Joe Brown, Fort Worth; in addition to Harrison, who will see service in

Many leading stables, now at the Alamo Downs, will send entries to Arlington Downs at the close of the racing season at Houston.

# MILING THROUGH

### THE STORY OF GLENN CUNNINGHAM

#### VI. Completing The Conquest

By CHARLES GRUMICH

(Associated Press Sports Writer) Statistically the Cunningham-Bonthron foot-racing feud of '34 was about a standoff—Glenn had set world indoor 1,500-meter and outdoor mile marks and beaten Bonny 40 yards in the latter effort; but Bonny had won three of the five races and gained a world outdoor 1,500-meter record in the finale.

But Cunningham was a natural runner who loved it. Bonthron was a "made" miler who professed not to have real love for the sport. Hence it was probably inevitable that the Kansas should prove a longer-lived champion—as he lost no time in doing once the 1935 indoor season in the east got under way.

When the three met again in the A. A. U. indoor title meet Cunningham removed any lingering doubts of his pre-eminence as he again left Bonny 40 yards arrear and set a new world indoor 1,500-meter mark of 3:50.5. Venke was third. Lack of competition at the mile and metric mile, now that he has so thoroughly beaten off all challengers, may force Cunningham to other distances, probably longer ones, in search of new conquests.

"The American two-mile record is one that needs reducing more than any that I know of," suggested Coach Bill Hargis. "I am sure Glenn could step in there and bring our native mark down under 9 minutes, where it belongs and in fact he might worry Paavo Nurmi's 8:58.2 record."

**Look Out, Signor Becalli!**  
But Glenn's most definite goals now are that long-sought 4:04 mile and another Olympic meeting with Luigi Becalli, 1,500-meter champion of 1932.

Back in the United States, Glenn found the University of Iowa grad, like course in physical education more suitable to his aims for a master's degree than that of his alma mater, so enrolled there and arranged his winter's commuting schedule from Iowa City.

In the summer of 1934 Glenn married Margaret Spin, a K. U. classmate and took his bride on a running honeymoon to the Orient, where they were acclaimed by multitudes as Glenn had been greeted in Europe the previous summer.

Transfers To Iowa  
Back in the United States, Glenn found the University of Iowa grad, like course in physical education more suitable to his aims for a master's degree than that of his alma mater, so enrolled there and arranged his winter's commuting schedule from Iowa City.

After a couple tune-up races he easily won the Wanamaker mile in 4:11 to even the score at three-all with Business-Man Bonthron, who slipped to third place, behind Venke. Two weeks later Glenn whipped his rivals in the same order in the Baxter mile with a 4:09.8 clocking.

When the three met again in the A. A. U. indoor title meet Cunningham removed any lingering doubts of his pre-eminence as he again left Bonny 40 yards arrear and set a new world indoor 1,500-meter mark of 3:50.5. Venke was third. Lack of competition at the mile and metric mile, now that he has so thoroughly beaten off all challengers, may force Cunningham to other distances, probably longer ones, in search of new conquests.

"The American two-mile record is one that needs reducing more than any that I know of," suggested Coach Bill Hargis. "I am sure Glenn could step in there and bring our native mark down under 9 minutes, where it belongs and in fact he might worry Paavo Nurmi's 8:58.2 record."

**Look Out, Signor Becalli!**  
But Glenn's most definite goals now are that long-sought 4:04 mile and another Olympic meeting with Luigi Becalli, 1,500-meter champion of 1932.

## Frogs Enter Sprint Relay

### Relay Team To Be Outstanding Feature T.C.U. Track Squad

FORT WORTH, (Spl.)—A sprint relay team, the exact personnel of which is yet to be decided, will probably be the outstanding feature of Texas Christian University's track squad this season, according to Coach Mack Clark.

The sprint relay team will be named from a list of six candidates, headed by Capt. Louis Trainer, Sonora, and including George Kline, Gregory; Herman Pittman, Haskell; Bob Jordan and Bob Harrell, Fort Worth; and Mitchell McGraw, Mineola.

Lettermen on the 1935 track squad include George Kline in the hurdles; Dick Simpson, San Angelo, in the middle distances; Tony Vargas, San Antonio, in the distances; and Judy Truelson, Dallas, and Paul Hill, Newark, in the

That 4:04 mile, as figured out by Glenn and Hargis early in 1934, depends on running four 61-second quarters.

"If everything goes right," Hargis has said, "I see no reason why such a uniform pace could not be maintained. Glenn has the stamina and the uncanny accurate judgment of pace to do it, if anyone has."

Although Glenn has moved his school-books to Iowa and his parents have removed to Idaho, the state of Kansas still regards this master miler as "a true son of Kansas," whose Latin motto: "ad aspera" means "to the stars through difficulties."

## Daniel's Grid Men Training

Ben Daniel's Devils will begin their annual spring training grid Friday when they start practice in Washington Place.

Daniel's '35 prospects appear stronger than the team he coached last year, with practically the same material with which to work. There will also be several sparkling prospects up from the Bronco.

Training will continue for about two weeks.

Others on the squad include Buck Roberson and Ed Pritchard, Fort Worth, hurdles; Glenn Roberts, Fort Worth, middle distances; John Durrett, Elwood Maple and Ray Lipscomb, Fort Worth, distances; Sid Lightfoot, Chicago, Ill., and George Magoffin, Fort Worth, pole vault; and Wilbur Harrison, Temple, weights.

## Hoyt Develops Spring Racing Track System

### University Of Michigan Keeps Close Check On Weight Chart

ANN ARBOR, Mich. (AP)—Coach Chuck Hoyt's system of developing "artificial" athletes by keeping close tabs on the weight chart has given the University of Michigan its second successive Western conference indoor track championship and made the Wolverines favorites to sweep through the Big Ten again in outdoor competition this spring.

Hoyt's track pupils are termed "artificial" because few of them had established great reputations in prep school. They have been "made" by a training course in which the weight chart plays an important part. The younger boys are required to gain weight constantly. Hoyt being convinced that added poundage means added speed and endurance in a healthy individual.

If an athlete's weight record shows signs of leveling off or declining, the amount of exercise is decreased and rest on a different type of exercise prescribed. The prerequisites for a track athlete are that he likes the sport, be physically sound and have the heart of a competitor. The rest is training.

In the Big Ten indoor meet 15 Wolverines took part in scoring 49 1-2 points, an all-time high for the meet, and they placed in nine of the 10 events.

This display of team balance was in striking contrast to the Michigan showings of the last two years when Willis Ward, the "one-man track team," was doing the bulk of the point-getting.

Ward, nursing an injured heel, scored only four points but is expected to do better outdoors. With the negro star partially incapacitated, the lesser lights rose to the occasion.

Clayton Brelford, a sophomore, won the mile run, with two other Wolverines among the first five. Bob Osgood, another sophomore, took over Ward's title in the high hurdles, and Konrad Mioso, a Ward understudy, won the high jump.

Howard Davidson, a strictly Hoyt-made half-miler, took second place in his event. Michigan's all sophomore quartet of Fred Stiles, Frank Aikens, Osgood and Stan Brieson won the mile relay. Sam Stoller, also sophomore, placed second in the 60-yard dash.

Michigan's outdoor track campaign this year will include a trip to the coast for a dual meet with the University of California, the Drake relay, dual meets with Illinois, Ohio State and Minnesota, the Big Ten outdoor championships in Ann Arbor, and another trip to the coast for the National Collegiate Athletic association meet.

## Arlington Downs Track Plans Many Attractive Purses

DALLAS, (UP)—Entries from prominent stables throughout the country are arriving here for the opening of the Spring meeting at Arlington Downs, March 28.

Opening event is the Inaugural Handicap for three-year-olds and to be run over the Waggoner course, 150 feet less than six furlongs. The stake is \$2,000 added.

The meeting is to continue for 21 days and will end April 29 in the colorful Texas Derby over a mile and a furlong course for \$13,000 added stake. The event is for three-year-olds.

Other outstanding events of the Spring meeting are the Fort Worth Handicap for three-year-olds and upward for a \$5,000 purse over a mile and a sixteenth course; the Dallas Handicap for \$5,000 added, a mile and a furlong race for three-year-olds and upward, and the Three D's Handicap for three-year-olds and upward over a mile and a sixteenth course for \$5,000 added.

Added Purses  
Three more races for \$2,000 added purses are the Juvenile Stakes for two-year-olds over four and a half furlongs, the Blue Bonnet Handicap for three-year-olds and up over a six furlong course and the Arlington Handicap for three-year-olds over a six furlong course.

Blue-Flame Valve-in-Head Engine with Pressure-Stream Oiling... Weatherproof Cable-Controlled Brakes... Shock-Proof Steering.

# CHOOSE CHEVROLET FOR QUALITY AT LOW COST

## CARTER CHEVROLET COMPANY

Third and Johnson Sts. Big Spring, Texas.

WORD COMES THAT JAKE Pickle won the 145-pound wrestling division at the University of Texas. Pickle said he was deadly with the scissor hold.

DICK FARRINGTON OF THE Sporting News says these Deans are wonders:—"Jack Dean, the young pitcher from Big Spring, who is working out with the St. Louis Browns, ordered tomato juice, a T-bone steak, two pieces of pie, strawberries and cream and two cups of coffee for breakfast one morning at West Palm Beach. This, naturally, was more than the law allowed. Rog Hornsby was tipped off to the young man's appetite and asked him if he had signed the check. "Sure, Rog," he said, "and it's O. K. because I went over it to make sure." Dean is now on regulation rations.

IT IS ALSO NOTED IN THE Sporting News that Lawrence Brummett, the semi-pro right-hander from Big Spring is still working with the Beaumont club.

FIFTY-SEVEN ASPIRANTS TO play on the Houston club reported to Manager Ira Smith last week. Jimmy Sanders, west manager of the Jacksonville West Dixie League club, is assisting Smith in the work and will pick out a number of the players for his team.

ONE HUNDRED AND TWENTY-eight, the largest number ever to answer the spring training bell at the Steer Stadium, reported last week for trials with the Dallas team. Some of them belong to the Rayne club of the Evangeline league.

DON SANDERS AND CHESTER Goebel, a pair of young right-handers who have done all their hurling in semi-pro circles, have impressed Manager Johnny Levo of the Fort Worth club with their work in camp, according to a training camp scribe.

BILL KILPEL, FORMER manager of the St. Louis Browns, has been named advisory manager of the baseball coaching staff of the West Chester State Teachers' College at West Chester, Pa. He will aid Head Coach Glenn Killinger in developing the college's battersmen this spring.

RAY H. ZIMMERMAN, YOUNG outfielder, who attracted the attention of the Houston club, following his showing with Lincoln in 1933, but was released last fall by the Buffs to Huntington of the Middle Atlantic League, has arranged to graduate from the high school he has been attending in Lincoln, on April 8, so that his studies will not interfere with his trial with Huntington. Zimmerman, who starred at football and basketball in school, is 19 years of age.

## C.C.C. Boys May Play On Friday

An unofficial report here Thursday morning said that the Big Spring C.C.C. basketball team, West Texas champions, would play Lubbock, winner of the East Texas district, in a series at Temple Friday and Saturday.

Camp officers here were attempting to verify the report Thursday morning.

## Spike's Oilers Defeat Lab, 8-3

Henninger's Cooden softball team defeated the Cooden Lab, 8 to 3, in an eight-inning softball game on the city park, diamond Wednesday night.

Lab grabbed the lead with a run in the first, but the Henningers started connecting in the third to pull out front.

The field was smooth but almost too hard to play on.

A new athletic stadium for Atchison, Kas., will have a football playing field, practice field, running track, baseball diamond and parking space for 1,500 motor cars.

### Ground Broken For Entrance Scenic Park

Ground was broken Tuesday for the entrance to the Scenic Mountain State Park.

Task of raising the huge rock entrance structure will get under way within a few days.

Fencing of the park property is being rushed to completion. The entire fence on the east and north sides is up and barbed wire has been strung on the south side. Wolf proof fencing will be stretched along that side Wednesday and Thursday. A crew is blasting fence post holes on the West side.

The septic tank was completed this week and half of the roughing in on the latrine has been done. All plumbing fixtures for the building are ready to be installed.

Wednesday a survey crew was staking out the water distribution system and excavation work was to begin Thursday. Two thousand feet of pipe are on the ground ready to be installed.

Completion of the native rock pavilion topping the mountain on the northeast point is expected by the end of the month. The concession building is up to the window sills now and foremen anticipate more rapid progress henceforth.

Bids have been asked for a storage tank to be located inside a stone tower atop the concession building. The tank will furnish pressure for the entire park property.

The rock crusher which will furnish an aggregate base for the many miles of scenic mountain drive is turning out 50 yards of material per day and is adding to the supply of 400 yards already on hand.

### ANOTHER MDIVANI PRINCESS QUITS

Once more the "marrying Mdivanis," with their penchant for wed-ding American girls, are in the limelight. Barbara Hutton, Woolworth heiress, shown (above, left) with her husband, Prince Alexis Mdivani, announced in London she would seek a divorce. David and Serge (left, below), Alexis' brothers, are also known to our divorce courts. David once was the husband of Mae Murray (right, center), while Serge was married to Pola Negri (right, above), and then to Mary McCormack (right, below), opera singer. (Associated Press Photos)

### Howe's Condition Extremely Critical

WASHINGTON, D.C. — Condition of Louis M. Howe, secretary and intimate friend of President Roosevelt, was reported as "extremely critical" Wednesday.

Mrs. Houston Page of Westbrook was a visitor in Big Spring Wednesday.

Earthquake As Doubt

FALLS CITY, Neb. (UP)—Mrs. Elizabeth Hitchcock recalled, following the recent earthquake here how she "harnessed" a trembler to pull a tooth for her. Living in Atchison county, Missouri, at the time. When the quake started she was wiggling a loose tooth which her mother told her must be pulled. After the quake stopped it was noticed her face was covered with blood, she recalled, and it was believed she had been injured until the tooth was found in her hand.

Slab on the bridge spanning the arroyo near the park entrance was poured Tuesday. Park officials predicted that within a month's time traffic would be routed over the bridge and the descending drive. For months traffic down the mountain has been diverted over the old trail.

What those in charge believe will become one of the most beautiful portions of the entire park is the section in the south flat of the mountain.

Already 500 trees, shrubs and plants have been put into this space and plans call for at least 1,000 trees to go into the space.

Michigan State college, true to Coach Ben Van Alstyne's pre-season promise of higher scores, achieved a higher per game average in its 1934-35 basketball scores, but also allowed its opponents higher totals. The Spartans won 14 out of 18 games.

### Overpass Bids To Be Received

Highway Department Advertises For Overpass West Of Here

Sealed proposals for construction of .927 miles of overpass and roadway approaches to be constructed over the T. & P. railway four miles west of here will be received until and opened on March 20 at Austin.

These bids must be submitted to the State Highway Department. Recently the highway commission made an appropriation for the overpass, which with one east of Coahoma, will reduce the number of grade crossings in Howard county to one.

Prevailing hourly wage scale for the project will be \$1 for skilled, 50 cents for intermediate grade and 40c for unskilled labor. The contractor shall obtain employment list from an approved local employment agency.

Plans and specifications for the construction are available at the office of W. A. French, division engineer in Abilene.

### Motion Pictures Made Of Rabbit Drive On Ranch

Motion pictures of a rabbit drive held last week on the Guitlar ranch have been developed and will be spliced into the film. Dr. P. W. Malone is preparing for the Game and Fish Protective association of Texas.

Titles for the pictures of the live raven shot, started here the first week end in March have been received and placed into the film.

J. Frank Elder, Waco, president of the state association, will use the film for educational purposes.

By far the best-looking couch we have ever offered at this price. Carved base with pastel decoration. Comfortable innerspring mattress and 3 big pillows. Green, brown, or rust covering.

## Behind the scenes with THE TELEPHONE LICENSE CONTRACT

How the staff services we got under it have helped us give good telephone service at fair cost to you.

Last year we spent almost a million dollars to find better methods of giving you good telephone service.

We paid it to the American Telephone & Telegraph Co., parent company of the Bell System. For it we received, as one of the 24 associated companies of that System, the services of A. T. & T.'s great staff of telephone experts and engineers.

**Staff Services...at Cost** The A. T. & T. has provided substantially at cost the many services this staff performs. In fact, in the last few years it has taken an actual

loss on the work it has done for the operating companies.

The yearly fee we pay is equivalent to about 3/10 of one per cent of our investment in telephone plant. Stated another way... less than a cent and a half of every dollar we receive from telephone customers.

Yet without it, telephone service as fast, as clear and as low in cost as you now receive would be quite unlikely.

We have passed on to the telephone user in the Southwest the benefits and savings of this staff work, in the belief that in an undertaking planned for the long run, like the telephone service, such a policy will in the end bring us the sounder, more enduring success.

### 'Reds' Win In Contest

#### Firemen Ladies To Be Entertained By Losers On Wednesday

The "reds" won in the attendance contest just concluded by the Ladies Society of the Brotherhood of Locomotive Firemen and Engine-men. The purple and white teams will give a party Wednesday afternoon at the Woodman Hall at 3 o'clock honoring the red team.

The contest was so interesting that the members decided to hold it over again for three more months. Captains will be appointed at the next meeting.

Mrs. Dora Sholtz presided. Others attending were: Meses. Susie Wilson, Annie Wilson, Martha Wade, Ada Arnold, Myrtle Orr, Minnie Barber, Gladys Slusser, Alice Mims, Mrs. Smith, Florence Ross, Martha Moody, Cora Rudd, Anne Smith, Birdie Adams, Lucy Simmons, Greta Schultz, Francis Deason, Ida

### WATCH KIDNEYS SAME AS BOWELS

#### Wash Out Your 75,200 Feet of Kidney Tubes

Your bowels contain only 37 feet of intestine, yet the kidneys contain nearly 10 million tiny tubes or filters which would measure 75,200 feet if laid end to end. Therefore, it is just as important to watch the kidneys as the bowels. Kidneys are working all the time and are one of Nature's chief ways of taking the acids and poisons out of the blood.

Healthy persons pass thru the bladder 3 pints a day and get rid of more than 3 pounds of waste matter. If you pass less than this, your 75,200 feet of kidney tubes may be clogged with poisonous waste. This is a danger signal and may be the beginning of nagging backache, leg pains, loss of pep and energy, getting up nights, swollen feet and ankles, rheumatic pains and dizziness.

Kidneys should be watched closely and need cleaning out the same as bowels. Ask your druggist for DOAN'S PILLS, an old prescription which has been used by millions of kidney sufferers for over 40 years. They give happy relief and will help wash out your 75,200 feet of kidney tubes. Get Doan's Pills at your druggist. © 1934, Foster-Milburn Co.

### Recent Bride Is Complimented By Surprise Shower

Mrs. Pat Boatler was hostess for a lovely bridal shower honoring Mrs. Jesse Hall at the home of Mrs. Jack King Wednesday afternoon. Before her marriage Mrs. Hall was Miss Arise Everitt.

Mrs. Leslie Bugg led several clever and jolly games before the gifts were presented. Finally, the bride was seated in a chair beside a door and the gifts showered upon her. The warm esteem in which this young couple is held was attested by the many lovely and useful presents and the hearty good wishes that accompanied them.

Mrs. Hall attended school in Big Spring and is a very popular young woman. Mr. Hall, who has grown to manhood here, was for years an employee of the Wacker Stores and is at present with the Whitmore Grocery.

After the presents had been viewed and admired, Mrs. Shelby Hall, mother of the groom, who had been let into the secret of the shower, served delicious refreshments of sandwiches, assorted cakes and iced tea to the following: Meses. S. J. Shettlesworth, J. A. Davidson, H. Reeves, J. E. Pond, G. H. Ward, L. R. Maxfield, P. R. Creath, M. R. McCoy, T. S. McCullough, L. L. Bugg, Leo P. Ward, Pat Boatler, Jack King, Clyde Pearce, Miss Marcella King and Mr. and Mrs. Joe Allen Davidson and the honoree.

Those sending gifts included Mrs. Jack Nall, Mrs. E. C. Boatler, Mrs. Anderson Bailey and Ulysses Hall.

### Scholarships Are Offered At Belton

BELTON (Sp.) — Scholarships amounting to \$400 in tuition and four loving cups will be offered as prizes in the various divisions of the Texas Interscholastic Music Meet at Mary Hardin-Baylor April 12 and 13. It is the thirteenth annual festival sponsored by the Fine Arts Conservatory of the college.

Three winners in the piano solo contests will receive scholarships. Smith, Flora Jones and Miss Martine Simmons.

### Made Up Lips Should Look Natural; Lip Stick Is Devised

This year it's smart to be healthy! Make-up this Spring will tend toward the golden-red and away from the harsh purple undertones, according to the latest fashion reports. "Native" is the term used to describe the new make-up trend. Colors must be clear, healthy, natural. An artificial "painted" look is taboo.

In keeping with the new trend, a leading cosmetician announced a new Terra Cotta make-up in powder, rouge and lipstick. The lipstick and rouge have the tone of a warm, mellow brick with a dash of bronze and gold mixed in. The combination gives a supremely natural and healthy look; at the same time it is utterly soft and feminine.

At a fashion show held in a leading Fifth Avenue department store in New York this week, all the models—blonde, brunette and titan—were made up in Terra Cotta. The coloring blended in perfectly with the new spring fashion colors. It was shown that Terra Cotta is just right with the new pink—when a powder with a rosy cast would be absolutely taboo! It makes the complexion radiantly healthy with navy blue. And it's perfect to wear with green, grey or any of the off-white shades.

**Natural**  
The white-haired, more mature model, made up in Terra Cotta and wearing a cameo white evening gown, received the largest ovation long clamored for just such a natural yet flattering make-up that are enthusiastic in their praise of this New Terra Cotta mode.

Terra Cotta is the perfect solution to the make-up problem of thousands of women of refined charm who prefer a subtle, natural effect in their make-up. Women of dignity, poise and culture—and even debs will go in for dignity this season!—have been far from satisfied with either the more brilliant

of \$100, \$75, and \$50. Winners in voice will receive \$75 and \$45 scholarships, and one award of \$50 will be given in the violin contest. Cups will go to first and second place winners in trio for girls' voices and chorus for girls' voices.

### Junior High P.-T.A. Heads Are Elected

Mrs. C. A. Bulot Chosen As Next President Of Organization

Mrs. C. A. Bulot was elected president of Junior High P.-T.A. for next term at the meeting held this week in the high school building. Mrs. C. C. Coffee presided.

Other officers chosen to head the organization for next year's school season were: Mrs. Howell B. Paw, first vice-president; Mrs. Shirley Robbins, second vice; Mrs. E. C. Boatler, third vice; Mrs. L. C. Taylor, secretary; and Mrs. Bernard Fisher, treasurer.

Mrs. Coffee and Mrs. Bulot were also named as delegates to the district convention.

Committees were appointed to aid in putting on the convention which will be held in Big Spring April 11, 12, 13. They were:

Homes: Meses. V. H. Flewellen, G. B. Cunningham and L. W. Croft. Tickets: Meses. R. H. Miller and H. C. Porter.

Transportation: Meses. E. C. Boatler and Ira Fuller.

Miss Lorena Huggins gave another of the classification talks by teachers that have featured the programs this year. History was her topic.

The next meeting will be devoted to installation of officers.

Mr. and Mrs. Tom Helton accompanied by Mrs. Helton's mother, Mrs. H. W. Leeper left Wednesday morning for a short stay in Dallas.

### LOLLIPOPS AND MOTHER-OF-PEARL MOONS BUTTON AFTERNOON FROCKS FRIVOLOUSLY

Navy blue crinkled taffeta woven with a white pin stripe makes this crisp tailleur which Dikusha designs for spring afternoons. It is finished with a little fluted collar and fastened at the neckline with a mother of pearl moon.

A soybean year in drought may be an exception of the mid-west is urged by the federal agricultural department to compensate for the shortage of seed for hay and pasture crops.

## YOUR NEIGHBORHOOD MAGNOLIA DEALER

# Takes a Personal Interest in Your Car!

### More than anything else, he wants to win your confidence and keep your patronage

WITH today's finer and faster automobiles, proper service is more important than ever. Parts fit tighter... motors and gears must have exactly the right quantity of the right lubricant... free-wheeling, knee-action and other improvements must have special attention.

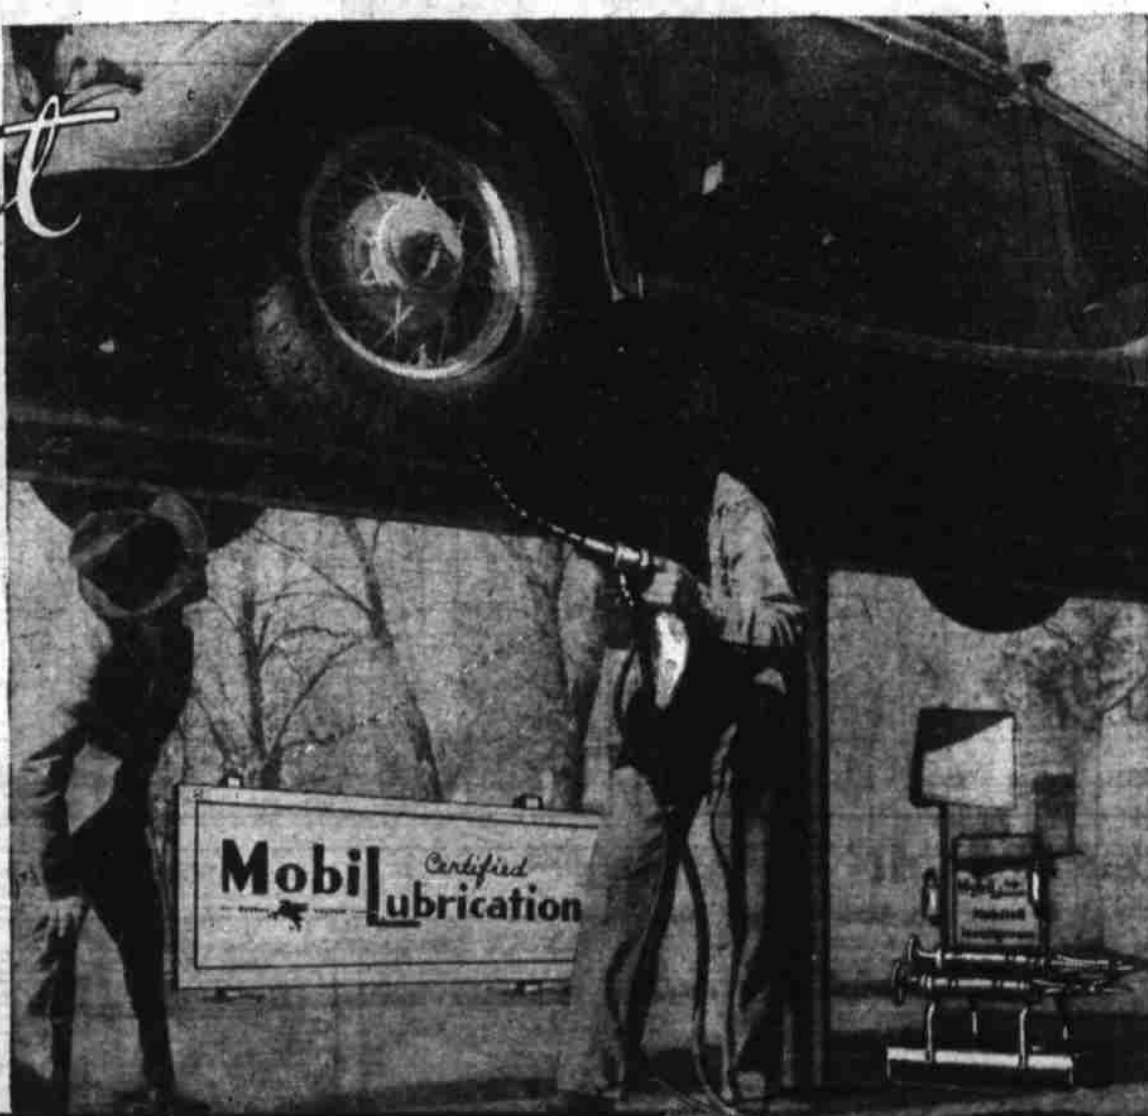

Good gasoline, motor oil and lubrication are important but equally as important is the man who services your car. At the sign of the "Red Flying Horse" you'll find a man thoroughly trained in the fine points of automobile upkeep. In most instances he is operating his own service station... striving to build a successful business of his own through better service to the motorists in his community. You'll find him responsible, careful and courteous.

Dealer has Mobilgas, Mobiloil and Mobilgrease... products which have won the confidence of millions of motorists and the approval of every automobile manufacturer. Look for the sign of the "Red Flying Horse." It stands as a symbol for a pleasant place to stop... a place you can trust... a place where you can always get the best in petroleum products plus intelligent personal service.

### Watch How Your Magnolia Certified Dealer Lubricates Your Car. He Knows the Fine Points of Automobile Upkeep

WATCH your Magnolia Certified Dealer when he lubricates your car. You'll see an expert at work because he has definite training in the things that keep an automobile running smoothly and economically. He knows a great deal about gasoline and motor oil; he checks your car from stem to stern and makes an inspection report of any defects he discovers.

Since its inception five years ago, the Magnolia Institute has trained thousands of Service Station Men in the refining of petroleum products, the mechanical construction of automobiles and up-to-date management methods. This training is available to all Magnolia Dealers who are ambitious to win and hold the good-will of their customers.

# Stay with MAGNOLIA and you stay Ahead!

By RITA FERRIS

PARIS (Sp)—Flower and lollipop buttons walked onto the 1935 style set as something new in frock fastenings when Dikusha (the Princess de Rohan) displayed her new collection.

Made of unbreakable glass in softly tinted primrose shapes or vivid blobs the color and shape of a luscious lollipop, they added a frivolous springtime touch to afternoon frocks. Mother of pearl buttons—as big as the one grandmother used to thrust in the top of her coil of white hair—were used to fasten the neckline of collarless coats, while mother of pearl moons buttoned dresses, raffia belts and accessories in bright multicolored effects added other colorful notes to the collection.

**Flower Trimmed Hats**  
Both black and colorful shades appeared in the afternoon mode shown with a number of little flower trimmed hats. One frock of black elasticized silk designed with the big bishop sleeves characteristic of this season, was finished with a wide crushed patent leather belt and worn with a little bellboy toque of black straw trimmed with white camellias. A rich blue wool crepe dress topped by a mauve three-quarter length cape was accompanied by a little brimmed chapeau of blue straw with rose, mauve and blue flowers massed in the front.

Sevres prints—so named because their colors suggested the rich tints of Sevres china—fashioned a number of afternoon frocks often designed with ruffled effects on the bodice. One of the most striking was a two piece model of blue green crepe splashed with cyclamen rose figures and designed with a turned up cuff hem.

**Breakfast Table Colors**  
Gingerbread brown, ginger, honey and toast were the names of hues the designer selected for the daytime color card; homespun, elasticized wools and linsens the fabrics she chose. A divided skirt of ginger wool was accompanied by a honey colored wool jacket and a ginger and honey striped wool blouse, tied with a turquoise tie. A toast colored homespun coat topped a gingerbread brown wool skirt and a pimento red blouse, while a ginger wool hat and three-quarter belted coat walked out with a toast colored wool skirt.

Golden yellow elasticized linen fashioned one striking summer ensemble. It combined a two piece frock trimmed with a multicolored raffia belt and a three-quarter length belted coat of the same fabric.

### First Step Taken Toward Organizing 7th Scout Troop

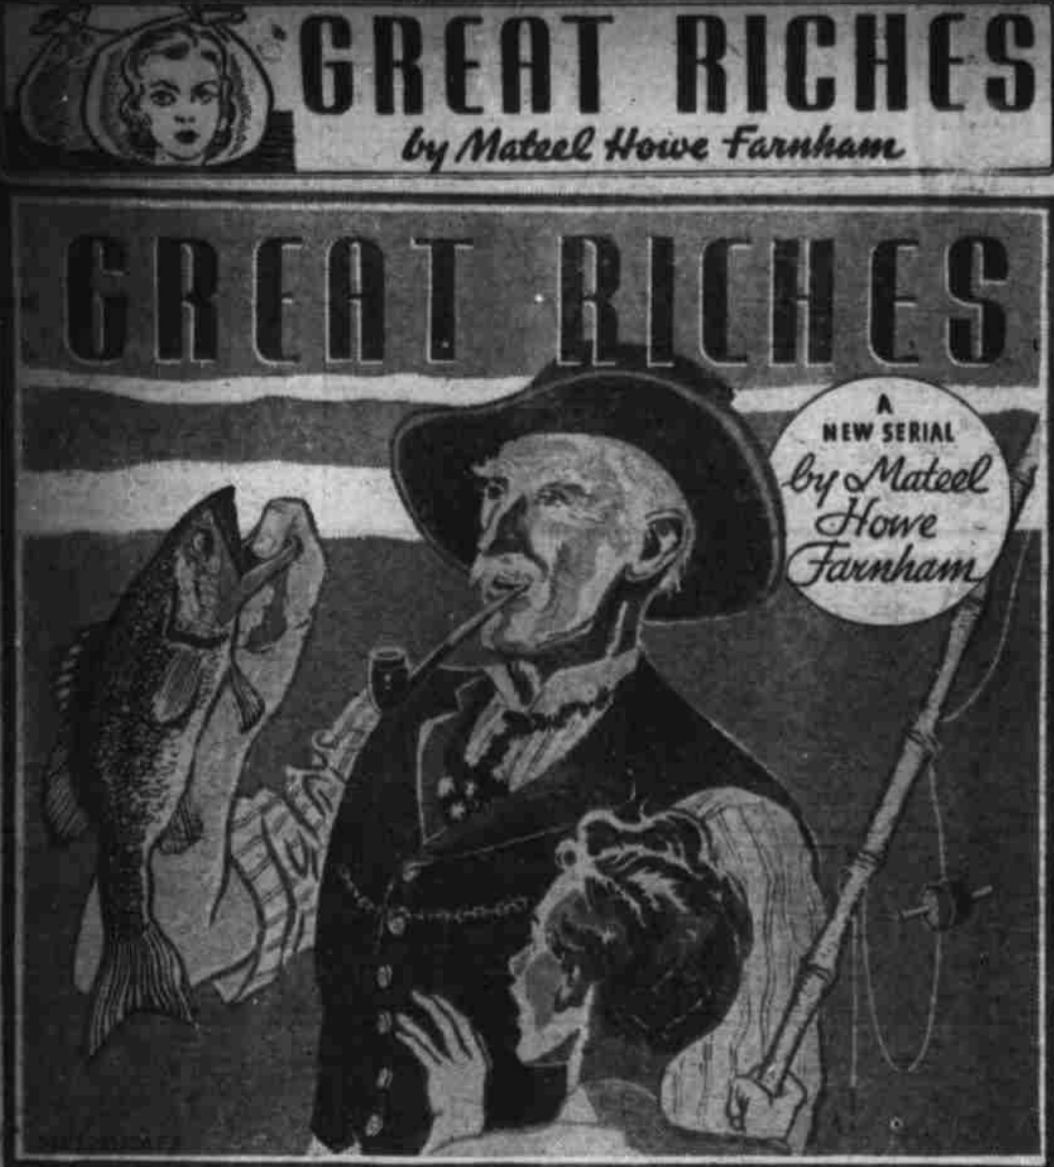

First step toward organizing a scout troop to serve the needs of the western section of Big Spring was taken Wednesday when a group of scouts, led by Area Executive A. C. Williamson conferred with members of the West Side Baptist church. Speaking for the membership of the church, Mrs. L. E. Jobe said she felt sure the church would be interested in sponsoring a troop. She said the matter would be put before a more representative group of people from the west part of the city when regular community singing night is held from the church Friday. Should the troop be organized, it will run the total number to seven in Big Spring.

### Chapter One "LITTLE JAMES"

THERE were three James Brewster Stimson. The third James had a great deal to live up to. Not only was he the grandson of New Concord's only ex-governor and most eminent citizen but, as Judge Holcomb so frequently pointed out, the son of the one entirely satisfactory husband Kansas had ever produced. The Judge usually added, "or any other state."

Everyone in New Concord suspected, and all the women knew positively, that this paragon, Dr. Jim Stimson, the second James, had refused to be vaccinated during the smallpox epidemic in 1885 because he could not bear to go on living after the death of his wife, Molly. Molly died in giving birth to the third James.

Dr. Jim at the time was not yet thirty, handsome, talented, an only son and heir to a fortune. Apparently nothing counted but Molly. He died murmuring her name and was canonized overnight. His little son was then six months old.

The women were entirely responsible for Dr. Jim's posthumous saintship. The men had liked Jim well enough living. They grew fearfully tired of him dead. Judge Holcomb, a bachelor, claimed that whenever a New Concord husband caught his wife looking at him with a peculiar gleam in her eye he knew that he was being compared to Dr. Jim and that the comparison was hideously unsatisfactory.

The women sniffed at these jokes of the judge. Like a certain royal contemporary they were not amused and made no bones about showing it. They actually seemed to feel a vicarious pride in Dr. Jim's almost deliberate death and never seemed to tire of discussing it.

Beyond irritating their husbands this would have been harmless enough, if the interest in the father had not inspired them to an interest in his son. It was the third James Stimson's great misfortune that the women of New Concord, particularly the intimates of his Aunt Sarah, maintained for more than twenty years an actively and possessively maternal concern in his development, his career, and most of all, in his marriage.

Probably no little orphan was ever more tenderly loved and cherished. The night of his father's funeral Sarah, his grandmother, said to her husband, "The tenderness of God has left us little James."

The Governor made no answer. In his heart was the bitter cry that a god capable of tenderness would have taken him and spared his son. Later when time had softened that bitterness, he remembered and was comforted.

"The tenderness of God," he would whisper, watching the child asleep in his cradle or playing by his side. Sometimes as the boy grew older he seemed both son and grandson. He was called James to distinguish him from his father. But more often than not the Governor thought of him as Jim.

The Governor was a born romantic. James was to carry on the name, continue the family tradition of service and leadership, live in the house his grandfather had built with such loving pride and care, hand it on to his children. Life would have been unbearable to both old James and old Sarah if they had not little James.

The Governor was born in Massachusetts. In the early fifties, while he was still studying law at Harvard, he had been fired with an ambition "to go West and grow up with this country." However, young Stimson had neither the ambition nor the desire to go West and grow up with the country alone, so he married pretty Sarah Stockwell almost before the ink was dry on his sheepskin.

Their honeymoon was their journey Westward. They had no definite intention when they set out of settling in Kansas. They planned vaguely to take a look at Saint Joseph, Missouri, or possibly go on to a place in the wilds of Western Kansas known as Denver.

It was by mere chance that their paddle-wheeled river steamer, on its way to Saint Joseph from Saint Louis developed engine trouble and tied up for three days at the wharf of a struggling trading post on the left bank of the Missouri River. The young homesekers relieved the tedium of the three days' stay by climbing the heavily wooded banks on the Kansas side and exploring the fertile wooded country beyond.

Thrushes and meadow larks sang their clear yearning love songs hour after hour. The young Stimsons stopped to listen hand in hand at the top of a high bluff overlooking the Missouri, just where the river began a magnificent mile-wide bend.

"We'll stay and build a home on this very spot," they decided. They stayed, but it was many years before they had their heart's desire and builded the mansion of their dreams on the river bluff.

They were at first happy years, even gay years. New Concord failed, alas, to become the metropolis of James' dreams and developed instead into a pleasant little residential city of sixteen thousand souls. James soon extended his interests beyond local affairs.

He was one of those instrumental in making Kansas into a free state. Later he fought to keep it free and lost an arm at the second Battle of Bull Run. Some years after the close of the War he was elected governor and might have gone to the United States Senate. But his health had never been good after the loss of his arm. He returned to New Concord and his law practice.

The two James Stimsons used to ride together almost every fine afternoon, the Governor astride Dan, his Kentucky pacer, and James III on Bird, his pony, named after Miss Bird Strong, one of his neighbors and closest friends.

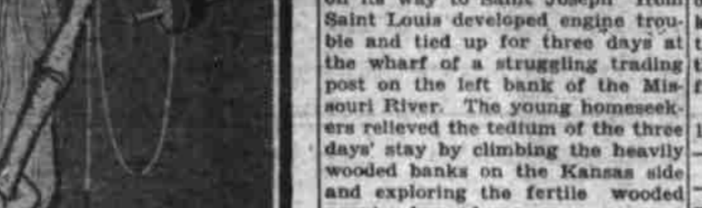

The start of their daily ride was an event in the rather dull routine of the Stimson household. Mrs. Stimson used to claim proudly as the two rode off bowing and waving that they were the two handsomest men in the entire state of Kansas—which meant, of course, in the whole world—and as far as her husband was concerned Mrs. Stimson was not far wrong.

All the countryside knew and was interested in the two James and their rides often partook of something of the nature of a triumphal progress. The Governor, as owner of several fine farms, was keenly interested in the crops and the weather and all that pertain thereto so that he and his farmer friends had a great deal to discuss.

It was small wonder then that little James preferred the River

split—
There's a private but important rift in Republican inner circles on the subject of Huey Long. Most leaders favor giving him a hand behind the scenes in the hope of busting the Democrats wide open.

A PLEA FROM YOUR LITTLE PAPER BOY

I am leaving you the paper as a sample copy. I want you to read it and call the Circulation Department office and have it started to you daily.

NOTES

There's always the shadow of European intervention whenever Cuba throws a revolutionary fit. Spanish and British interests in the islands are said to have appealed to their governments for protection against threatened burnings and bombings.

SPOT

Most New Yorkers class Robert Taft's suit to prevent the government from calling its gold clause bonds under the heading of good clean fun. Not so trustees for estates owning such bonds.

DRASTIC

The final restoration of railway wages becomes effective next month—and already rail officials are busy figuring the best approach to a fresh pay cut. Probably nothing will be done about it for several months—leaders realize that too much haste would defeat their purpose—but it's a live topic in private discussions.

RUCKUS

New York insiders were amused by reports of the cordial meeting between Governor Lehman and Secretary of Agriculture Wallace to discuss the New York milk problem. They expect fur to fly in the near future.

DETAILS OF FATAL WRECK IN MIDLAND

MIDLAND—R. A. Bagley, 38, of Brownwood, and E. Frank Ehrenheim, about 25, Chicago, are both dead as the result of a wreck when their cars crashed together about one mile west of town at four o'clock Wednesday morning.

SCOUTERS TO MAKE DRIVE FOR FINANCE

Local druggists Thursday afternoon attributed success of West Texas Druggist's convention, both as for finance and entertainment, was due mostly to efforts of the Chamber of Commerce, to Mrs. P. W. Malone and her corps of assistants who were untiring in their efforts from start to finish.

REBEKAHS, ODD FELLOWS NEARLY WIN PRIZED GAVEL

Rebekahs and Odd Fellows of Big Spring barely missed winning the prized "traveling gavel" offered at the 90th annual I. O. O. F. convention just ended in Temple.

IMMORTAL DRAMA TO BE BROADCAST SUNDAY

CHICAGO—Next on the series of "Immortal Dramas" is the story of "Ruth and Naomi" which will be presented by Montgomery Ward Sunday, March 24 over a NBC-WEAF coast-to-coast network at 2 p. m. E.S.T.

DELINQUENT SCHOOL TAXES COMING IN

Collection of delinquent taxes until March 15 for the Big Spring Independent school district amounted to \$7,135.59, the tax office announced Thursday.

WORKMEN FIND 'FAY DIRT'

LAKESIDE, Ohio (UP)—Workmen struck "pay dirt" when they tore down an old milk depot here. As they removed the floor, they found scores of nickels and dimes which had fallen through cracks during the years. A friendly scramble followed. The amount obtained was not revealed.

CHISEL FOUND IN FISH STOMACH

ABERDEEN, Wash. (UP)—A rusty six-inch chisel was found in the stomach of a 6 1/2-pound steel head trout caught here by Vivian Luce.

handle all problems within that state. In New York this would be presumed to cover interstate transactions ending here.

SERIOUS

Cotton-picking machines have been developed to the point where keen observers are beginning to get nervous about their economic consequences.

SPOT

Most New Yorkers class Robert Taft's suit to prevent the government from calling its gold clause bonds under the heading of good clean fun. Not so trustees for estates owning such bonds.

WHAT KIND DID YOU GET?

WHEN Mrs. Brown tells Mrs. Smith about the new car, Mrs. Smith is pretty sure to ask, in genuine, friendly interest, "What kind did you get?" With a new piano, a hot-water heater, or a package of pastry flour, it's likely to be the same. For names mean something to every wise woman.

THE NAME OF ANY COMMERCIAL PRODUCT IS OF INTEREST ONLY BECAUSE ITS MAKER HAS MADE IT MEAN SOMETHING . . . HAS MADE IT STAND FOR DEFINITE QUALITIES IN THE PUBLIC MIND. AND THAT VERY FACT PROVIDES ONE OF THE GREATEST HELPS TO BETTER LIVING. IF YOU'RE A REGULAR READER OF ADVERTISING, YOU KNOW WHAT YOU ARE GETTING—AND YOU GET YOUR MONEY'S WORTH.

THERE IS NO ELEMENT OF RISK IN THE PURCHASE OF ANY ARTICLE ADVERTISED IN THE COLUMNS OF THIS NEWSPAPER. SO MAKE THE ADVERTISING COLUMNS YOUR GUIDE. THEY WILL SAVE YOU TIME, MONEY AND EFFORT . . . AND BRING YOU BETTER THINGS.

Teaching Again

WINFRED MABRY

BEILTON, (Spl.)—Miss Winfred Mabry who was a member of last summer's faculty in the department of education at Mary Hardin-Baylor will return in June to teach in the same field. She will offer courses in elementary methods in education, the teaching of reading and advanced methods in elementary education.

Amarillo Oil Men Meet On April 10, 11

Panhandle Chapter API To Be Host To Big Gathering

AMARILLO (Spl.)—Much of the burden of organization and planning of the meeting in Amarillo April 10 and 11 of the American Petroleum Institute Midcontinent Petroleum Division has fallen upon the shoulders of these two men.

J. C. (Jim) Johnson of the Continental Oil Company at Borger, is chairman of the Panhandle chapter API, host to the meeting.

C. A. (Charlie) Daniels, of the Phillips Petroleum Company, Whiteburg, is chairman of the program committee.

The acceptance of an invitation to address the meeting has been received from Assistant Secretary of War, Harry H. Woodring. He will speak on the afternoon of April 11, second day of the convention, at the city auditorium in Amarillo.

His subject will be "National Defense." Mr. Woodring has no interests in his home state Kansas, and his talk will probably show something of what the oil industry's importance will be in event of war.

Production men from the fields of Kansas, Oklahoma, Arkansas, Texas and New Mexico will attend this annual spring meeting.

In addition to the address of Assistant Secretary Woodring many technical subjects will be treated by speakers well qualified on their subjects. Some of the papers are as follows: "A Job in the Petroleum Industry"; "Discovery and Early History of the Panhandle Field"; "Geology and Development of the Panhandle Field"; "Manufacture and Use of Carbon Black"; "Helium From a Scientific Curiosity to Large Scale Production"; "Panhandle Drilling and Use of Miller Method in Balancing Gas Pressure"; "Pressure Drilling"; "Bottom Hole Pressure and Its Relation to Production Control"; "The Controlled Directional Drilling"; "Drilling and Production Problems in the Development of the Pitta Pool"; "Use of Fibrous Materials in Drilling Materials."

Workmen Find 'Fay Dirt' LAKESIDE, Ohio (UP)—Workmen struck "pay dirt" when they tore down an old milk depot here. As they removed the floor, they found scores of nickels and dimes which had fallen through cracks during the years. A friendly scramble followed. The amount obtained was not revealed.

## Looking Ahead This Week

Friday  
The W.O.W. and the Woodman Circle will hold a joint meeting Friday evening at 7:30 in the W. O. W. Hall. The public is invited.

## Stanton Couple Are Married Wednesday

Buford Currie and Miss Mattie Cox, both of Stanton, were married Wednesday afternoon at the East Fourth Street Baptist parsonage. The Rev. W. S. Garnett married them.

Both young people are members of families that are old settlers in Stanton. They will make their home on the Currie farm.

A Milwaukee social center instructor almost knocked himself out when he struck his own nose with his fist while demonstrating a stunt.

## WRITER DENIES AFFAIR WITH BOXER

Adela Rogers St. Johns (insert), writer, was accused by her former husband, Richard Hylan, quondam football star, of stating that Enzo Fiermonte (above), Italian boxer, was "the greatest lover of her life." The battle in Los Angeles court over the custody of their 5-year-old son was won by the authoress, who testified Fiermonte, former husband of Madeleine Farez Actor Dick, had interested her only in getting him a screen test. (Associated Press Photo.)

## Lady Astor Ponders Retirement But Defies Foes' Hint Of Defeat

By ALBERT W. WILSON  
LONDON, (UP)—Nancy, Viscountess Astor, native daughter of Virginia and the first woman to sit in the British parliament, has decided the time has come for her to consider retiring from public life.

# GREAT RICHES

(CONTINUED FROM PAGE 8)

Road where it was lonelier and there were fewer long talks about rumors, the condition of the wheat and other uninteresting things not designed for the entertainment of small boys. James was a born chatterbox, but his grandfather was very strict about not letting him interrupt when his elders were talking.

James liked it better when his grandfather took him fishing. Dressed in their oldest clothes they would scramble down the river bank just below the Mansion and fish in a slough a mile or two further on near the Leavenworth Road. It would be impossible to explain just why James always caught a little fish and his grandfather a big one, but this seemed natural and fitting to both.

The Governor had become more and more silent as he grew older, but on these fishing trips he often talked to his grandson for hours at a time. "Did it hurt an awful lot when they cut your arm off?" James would ask anxiously as if for the first time. The Governor would reply that it had hurt pretty badly, though he spared the child the hideous details of an amputation without anesthetics.

Perhaps the story James liked best was the one about the swarms of grasshoppers which in 1882 settled over Kansas like a plague of Egypt and literally ate up every spear of grass and blade of leaf of green.

The account of the grasshoppers appearing as his grandfather said, "like a cloud between us and the sun," covering the streets and sidewalks—his mother having come from Philadelphia.

walks of New Concord to the depth of a foot and being shoveled by the citizens into enormous hogheads and dumped into the river by the ton, was to James a tale so delightfully awful that he fairly shivered with joy every time he heard it. He could not look with equanimity upon even a lone grasshopper until he was quite a big boy.

Almost, but not quite as thrilling, were the stories of the dark days after the Civil War when settlers came flocking in expecting to find a new Utopia only to face years of heart-breaking drought. But as these tales made James and the Governor cheer him up by telling of the discovery of alfalfa and dry farming in the Western portions of the state, emphasizing the stupendous strides forward Kansas had made in consequence.

"So like a bard of old the first James Brewster Stimson sang his sagas of long ago to an enthralled and enraptured audience of one. And deep in the heart of his small grandson was planted a love for his state, a reverent admiration for his grandfather and an unconscious desire to make both proud of him. This was to influence his entire life." (Copyright, 1935, Mabel H. Farnham)

More of the background of "Little James" comes out, tomorrow.

Charged with the possession of several gallons of liquor, Ten's Chairman and her son, Melvin, Chairman of Luray, Va., have been given three months in jail.

The Norfolk, Va., chapter of the Isaac Walton League is campaigning actively against the rapid draw including of water fowl in that section.

The tribal council at the Cherokee Indian reservation in North Carolina has voted to build a home for aged and infirm members of the tribe.

Housing wrecking companies at Asheville, N. C., say property owners there have demolished more than 200 buildings within two years to escape paying taxes on them.

The acting judge's beard looked rather rough, so Frank A. Tirrell, attorney of Rockland, Me., told him so. He was fined 20 cents, the price of a shave.

## Easy Pleasant Way To Lose Fat

How would you like to lose 15 pounds of fat in a month and at the same time increase your energy and improve your health?

How would you like to lose your double chin and your too prominent abdomen and at the same time make your skin so clean and clear that it will compel admiration?

Get on the scales today and see how much you weigh—then get an 85 cent bottle of Kruschen Salts which will last you four weeks. Take one half teaspoonful in a glass of hot water every morning, and when you have finished the contents of this first bottle weigh yourself again.

After that you'll want to walk around and say to your friends, "A quarter pound jar of Kruschen Salts is worth one hundred dollars of any fat person's money."

Leading druggists America over sell Kruschen Salts—You can also get it at Collins Bros., Chicago, ways get it at Collins Bros., Chicago.

## YOUR DAILY NEWS

# FOOD PRICES UP!!

FOOD PRICES REACH NEW HIGH TODAY!  
HERE'S HOW FOOD PRICES HAVE RISEN

# Mrs. Housewife, here is one of the best reasons for owning an ELECTRIC Refrigerator

The steadily rising cost of food adds another very good reason to the long list of why every housewife should own an electric refrigerator. In addition to the convenience, satisfaction and health assurance which this modern appliance has made possible is the actual dollars and cents savings it affords. Electricity to operate a refrigerator costs so little that this expenditure can more than be made up in the greater amount of saving on your weekly food bill.

See Your Electric Refrigerator Dealer

**TEXAS ELECTRIC SERVICE COMPANY**  
C. S. Blomfield, Manager

London, England—Nancy, Viscountess Astor, native daughter of Virginia and the first woman to sit in the British parliament, has decided the time has come for her to consider retiring from public life.

She has made it clear, however, to political foes who have felt the sting of her sharp lashes on the floor of the house of commons for 16 years, that she never will quit under fire.

"Whatever members may call me," she said, "I will never show cold feet."

**Lady Slams Both Sides**  
The question whether she would continue in parliament was raised during a recent debate on a socialist motion of censure on the government after public clamor had caused the hasty withdrawal of new unemployment relief measures.

Lady Astor had made a typically racy speech, directing her shafts not only against the socialists but against the government for "not showing enough fight" and for apologizing so deeply for a supposed mistake. Aneurin Bevan, a socialist leader, said:

"Judging by reports from her constituency we shall not be plagued with her very much longer in this chamber."

**Looks After Her Fences**  
The next morning Lady Astor rushed off to Plymouth, her constituency since 1919, for a stay of several days but made no comment on her mission. Her home is in Buckinghamshire.

Asked whether Lady Astor would stand for her seat at the next election, expected generally by the end of this year or early in 1936, her political secretary said:

"She certainly is in no danger of being defeated. As a matter of fact she has decided she is getting on toward the end of her work. I can't say whether she will be a candidate next time but I know she is ready to set a limit to her service."

Although a conservative herself, Lady Astor attacked the government "for getting the wind up so quickly when things went wrong."

**Jibe Arouses Socialists**  
"The government ought to give the Unemployment Assistance Board time to regulate mistakes," she continued, "instead of the minister of labor coming down in a panic and making a real scuttling speech. What is the good of being so abject?"

Her closing demand that the "government must never show the white flag, particularly to such a ragged army" roused the socialists. After remarking on her "diverting but irrelevant flippancies," Bevan said:

"No member of the house is less entitled to make the speech that she made. The noble lady is comfortably circumstanced and she is not entitled to implore the minister to allow the unemployed to starve until such a time as the board could adjust its regulations."

"I think it was an indecent exhibition of bad taste for her to come along and make a speech at all."

**Secretary Answers Bevan**  
Commenting on Bevan's criticism, Lady Astor's political secretary said:

"As Lady Astor told me herself after the session, there is all the difference in the world between immediately setting out to make adjustments case by case, as she favors and allowing the unemployed to starve until such time as the board could adjust all its regulations."

However Lady Astor comes out in her fight over the unemployment issue in Plymouth, she is in England to stay. A member of the Langhorne family of Virginia and educated in Alabama and Virginia universities, she has reared a family of four sons and a daughter in this country.

Her husband also has an Ameri-
