

THE GORMAN PROGRESS, Eastland Co., TEXAS, July 4, 1957

business man with a good repu-

tation. He likes the town and lo-

the next few weeks.

Vol. 57 - 5c per copy

If you are planning a vacation and have never been to San Antonio, please consider going there. You can go by way of Buchanan Dam, which is a sight worth seeing . . . to Burnett and visit the

Longhorn Caverns . . . on into San Antonio where there are so many points of interest, historical and modern, that it would take several days to visit them

First, there is the Alamo. I was told on good authority that this is not the real name of this famous spot but I did not debate the matter because I doubt if it will ever be known by any other name.

Then you have the Missions, the Spanish Governor's Palace, and the Espada Dam which is over 200 years old - a marvel of engineering the water from this dam flows onto the aqueduct by gravity. The aqueduct was built by the San Francisco Friars in 1731 and was used to carry water from the San Antonio River to irrigate lands in the vicinity of

Mr. and Mrs. Bruce Laminack Funeral services for Mr. and were killed Monday night in a Eison, 21, and Mrs. Eison's oneyear-old son, Ronnie.

Number Fifteen

All of the injured were carried to a Granbury hospital. Little Ronnie was transferred to Harris Hospital in Ft Worth on Tuesday morning for treatment of a skull fracture he received in the wreck. A Fort Worth neurologist reported Tuesday night that Ronnie was responding to treatment. Mary Evelyn suffered fractures of both legs, a fractured pelvis, broken ribs, and concussion. Glenda Lou received broken ribs, possible fracture of the right ankle, and a concussion. Vance received a concussion and lacerations.

Donald, the eldest Laminack son, had remained at home to tend to some chores on the family farm.

Mary Evelyn was returning

My sincerest thanks to all the Baptist Church at the age of 12 and had lived a concecrated doctors and nurses for the wonderful care that I received in the Christian life.

Pallbearers were Rob Kinser, James Kinser, Ardys Porter, J. friends for the cards and remem-E. Lawrence, Dean Bennett, and Connie Yarbrough.

Burial was in the New Carbon Cemetery.

it would be gone watching drivers, from my office window, weaving in and out, double parking and making U turns, seemingly oblivious of anybody or anything. Why is it that normal, sane people suddenly become maniacs when they take hold of a steering wheel and place their foot on an accelerator? Double parking is dangerous any time, but when you watch people double park with plenty of parking room at the curb, it makes you wonder.

So far we have had only near misses on our main street - - eventually the law of averages will catch up with us and - - saying I'M SORRY, will not erase the blood stains from our street, bring back life or heal maimed bodies.

Someone has suggested that we print special stickers for traffic violators, maybe like the following:

I want to thank each and every one that ministered to us in any way in the illness and death of hospital. Many thanks to all my our dear husband and father. May the richest blessings rest berances that I have received. on each of you.

The George Echols Family

Mrs. Floyd Gilbert

THIRTY-SIX B-47 BOMBERS can be repaired simultaneously inside the new \$14,000,000 aircraft maintenance hangar at Kelly Air Force Base, San Antonio. The building is 200 feet long, 300 feet wide and 92 feet high and will accomodate the biggest of modern aircraft. It is believed to be the largest of its type ever built in that there are no pillars or posts inside the huge structure. I am a privileged character.

I can violate all traffic laws, any time. YOU look out for yourself ...

My hobby is U Turns in the middle of the block, double parking, pulling around cars that are backing out because I am in a hurry to get nowhere, etc. etc.

#### PETTY THIEVING

Of late there has been a good bit of petty thieving in Gorman. Most of this is going on late at night. Do you know where your children are and what they are doing? This may not sound important to you, but petty thieving could lead to grand theft, which in turn could send your boy or girl to reform school or the penitentary. Harsh words, but many parents have awakened too late and then cried, "If I had only known." Better check up before somebody is locked up.

Summer heat is gradually causing high weeds and grass to become fire hazards. If you contemplate burning off any lots please contact some member of the Fire Department first, or call the City Office.

OVER NINE AIRCRAFT ENGINES a day are assembled nurses for making my stay in the in the maintenance shops at Kelly Air Force Base, San Antonio. hospital as comfortable as possi-These R-4360 engines, which power the B-36 bomber and C-124 ble. DON'T BUY ANY CAR BEFORE YOU DRIVE A CHEVY . . . ITS BEST SHOWROOM IS THE ROAD.

Beauty in motion-Chevrolet Bel Air Sport Sedan with Body by Fisher.

## Here's why Chevy's best showroom is the road!

Because Chevrolet's sleek good looks, its advanced features, are only part of the story. The big bonus is its remarkable roadability, the crisp precision handling that has posted an entirely new standard for cars in every price class. There are reasons for this, of course: Chevrolet's balanced weight distribution that takes

excessive loads off the front wheels, the wide stance of outrigger rear springs, Ball-Race steering, spherical-joint front suspension. Sure, you can admire the sculptured lines in the showroom. But Chevy's a car specifically designed for beautiful motion-you have to travel in this one to know just how terrific it is. Try it, this week!

## It Wasn't Your Fault -

.... that the party to whom you are dealing to buy real estate did not get an abstract but it will be your fault if you trade with him without an abstract. What about title? One authority on titles puts it this way: "Titles were good yesterday, only fair today, but worse tomorrow". Better get an abstract when you buy real estate of any kind. It's safer, more business-like and a sure sign of good judgment.

# PRIMER FOR AMERICANS

Tou live in the United States of America. You are an American.

Real Americans like their country. They are proud of it. They think it is a good place to live. And they want to keep it good-to keep it getting better all the time.

Why is America the way it is? What makes it a good place to live? The answer is simply this:

Throughout our history most Americans have be-

lieved that every person has certain rights and duties and responsibilities.

Americans have believed that there are certain things people should do, and things they should not do. They have also believed in certain things that people are, and are not.

These things that people believe are called principles. This book is an attempt to state the Principles of America in simple, primer fashion so that you can understand them, learn them, and remember them.

This is important. It was because earlier Americans believed in these principles and guided their lives by them, that America has grown to be the good place it is. If ali of us learn and remember these principles-if we also guide our lives by them-then we can help to keep America growing better, and better, and better.

And if we follow these Principles of America, we can help make the world a better place to live in, too.

#### The Principles of America are these ...

1. Each Person is of Importance and Value as an Individual.

This is the cornerstone . . . the foundation of all our other beliefs in a person's right to live his own life, to speak for himself, to choose and change his leaders.

From it comes our hatred of those "isms" under which the individual has no value or importance as a person, but is only one of many unimportant people who have to live the way their leaders tell them to.

Coming directly from that first principle are two others that are also part of the foundation of Americanism.

- 2. We Believe that All Men should Enjoy Personal Freedom.
- 3. We Believe that All Men are Created Equal.

It is worth noting that the Declaration of Independence expressed the belief that "all men are created equal." It did not state or imply a belief that men develop equally or have equal ability, or that they should ever be forced to an exact equality of thought, speech or material possessions.

That would be equality without freedom. Americans have always believed the two should go together.

In our Constitution, and in other laws of our land, there are set down principles to protect the rights and freedoms and equality of individuals.

4. The Right to Freedom of Speech.

This includes freedom of the press, of radio, of motion pic-tures, of every means by which man may express his thoughts.

5. The Right to Freedom of Assembly.

As we believe in the right of individual action, so we believe that individuals should be free to act together.

6. The Right to Freedom of Worship.

Not only is the individual free to worship as he will, but religions themselves are free and equal.

- 7. The Right to Security of Person and Property. Not just one, but three Amendments to the Constitution (4th, 5th and 14th) protect against illegal search and seizure, or loss of life, liberty, or property, without "due process of law."
- 8. The Right to Equal Protection before the Law. As individuals are equally important, so laws must apply equally to all, without special privileges for any group.

18. The Right to Manage his Own Affairs. 19. The Right to Make a Profit or to Fail,

depending on his Own Ability. There are other, similar rights of individual action which are Principles of America, but all of these individual

rights may be combined in these two broad principles ... 20. Every Man is entitled to Freedom and Equal-

ity of Opportunity.

21. Every Man may Earn his Living When, Where, and How he wants to.

There are also Limiting Principles . . .

Principles of individual freedom sometimes clash with those of individual equality. Therefore our rights as individuals must be limited, and those limitations are themselves principles.

22. The Rights of any Individual shall not Interfere with those of Other Individuals. Your right to swing your arms stops where the other fellow's nose starts.

23. The Rights of any Individual shall not In-

terfere with the Welfare of the People. Freedom of speech does not give the individual the right to shout "fire" in a crowded theatre.

24. Every Individual owes Obedience to the Laws under which he Lives.

The individual has the right to talk against a law, to work and vote to change that law, but NOT to disobey that law.

Principles that are Patterns of Behavior . . .

Many of our principles of individual freedom and equality are guaranteed to us by law. But we have other beliefs, other general rules of action and conduct that have grown to the status of principles. And these too, are foundations of Americanism.

25. A Man shall be Judged by his Own Record.

A man's family background, his race or his religion, is not as important as what that man himself can do, for Americans believe a man must stand on his own feet.

26. A Man is Free to Achieve as much as he can.

We believe that where any boy may become President, where any man may achieve greatness, there is the greatest incentive for every man to do his best.

27. To Achieve anything, a Man should be Willing to Work.

Americans have always known that "you don't get something for nothing," that to get anything takes a willingness to work.

28. Achievement also Depends upon the Ability to do a Good Job.

31. When an Individual cannot Provide his own Security, the Responsibility should be Assumed by Others.

We believe that no one should starve, or be without adequate clothing and shelter, so those who have more than their basic needs share the responsibility of providing the essentials of security for those who need help.

32. Each Individual must Deal Fairly with others.

Honesty, fairness, and personal integrity are virtues that help free and independent individuals get along with each other without losing their independence.

33. Fair and Free Competition is a Good Thing.

Americans have always believed that competition among in-dividuals or groups encourages greater effort which in turn brings greater benefits to all.

34. Cooperation among Individuals is Vital.

PRESIDENT EISENHOWER has said: "The freedom to compete vigorously accompanied by a readiness to cooperate wholeheartedly for the performance of community and national functions, together make our system the most productive on earth."

Principles of Individual Responsibility ...

Freedom for individuals carries with it an equal responsibility to use that freedom wisely. If we wish to remain free, we must faithfully fulfill this responsibility.

35. The Individual is Responsible for himself and his Family.

He must protect them and provide for their present and future well-being.

36. The Individual has Responsibilities to the Groups of which he is a Part.

He must give of his best to his community, his church, his employer, his union, and to every group in which individuals cooperate for their mutual benefit.

37. The Individual has Responsibilities to his Country.

He must be an active citizen, interesting himself in local, state, and national government, voting wisely, thinking and speaking and acting to preserve and strengthen freedom, equality and opportunity for every individual.

38. The Individual has Responsibilities to the World.

Man's horizons have expanded. What happens in the world affects him, and his actions can affect the world. Today, therefore, each man has a responsibility to act—and to encourage his country to act—so that freedom and cooperation will be encouraged among the people and the nations of the world.

For America's Future

Most of us have faith in our country's ability to move forward, to improve, to grow, to provide more and more individuals with more and more of everything they want and need in life ...

#### Earl Bender & Company TEXAS EASTLAND,

Bring your film rolls (black and white or color) here for fast, top-quality processing. They'll be ready right on the dot of our promise. You'll like the results we get . . . also our modest prices.

> **Mehaffey Drug** Gorman Phone 55

9. The Right to Freedom from Slavery.

This includes "the right to quit," for no individual may be forced to work for another.

10. The Right to Petition the Government.

The right of the individual to "petition the government for redress of grievances" is evidence of the American belief that government is the servant, not the master, of the people.

11. The Right to Vote for people of your choice.

This is the individual's most potent weapon in the protection of his rights and freedoms . . . a weapon that to be effective must be constantly and wisely used.

Other Principles hold that every man has . . . 12. The Right to a Good Education. 13. The Right to Live where he pleases. 14. The Right to Work where he wants to. 15. The Right to Belong to an Organization. 16. The Right to Own Property. 17. The Right to Start his Own Business.

Add to "willingness to work" the ability to produce results and the combination is the basis for most individual achievement in our country.

29. Every Man has the Right to a Fair Share of the Results of his Work and his Ability.

Because of this belief, America has not only produced more goods, but they have been more fairly and more widely shared by more people than in any other country.

30. Security is the Ability of a Man to Provide for himself.

The only true security for any individual is the opportunity, the ability, and the determination to work and plan and save for his own present and future. Self-reliance is vital to individual independence and personal freedom. No man can be "proud and free" who depends on others for his security.

Printed as a Public Service by COPYRIGHT 1950. SIGURD S. LARMON

Primer for Americans was conceived and developed by Sigurd S. Larmon, President of Young & Rubicam, Inc., and his associate, Thomas W. Lapham. Copies in illustrated booklet form may be obtained from Primer Dept., Young & Rubicam, Inc., 285 Madison Ave., N.Y. 17. Price 10¢ per copy, postpaid.

If we, the people of the United States, want to have more material benefits, we must believe in and follow these two principles:

39. The only way we can Have More is to Produce More; and

40. As we Produce More, we must make it possible for More and More People to Enjoy that which we Produce.

If we, the people of the United States, want to have a better life, spiritually as well as materially ...

41. We must stand firmly for our Beliefs, our Rights, our Principles.

There are those who would chip away our confidence so that their special brand of tyranny might creep into America. They must not succeed. So, let us ask of every plan, or act, or idea ...

Is it With or Against the Principles of America?

Competing against some of the toughest motor oils on the market, Havoline demonstrated its vast superiority. Havoline-lubricated engines showed more power, greater pickup, added gasoline mileage. Independent road tests proved it. You can prove it yourself! Come in and change to the best motor oil your money can buy-Advanced Custom-Made Havoline. You'll be mighty glad you did.

We have some Fertilizer left. In order that we might show our appreciation of your business and cooperation through our seasonal Fertilizer and Field Seeds Opening we are going to Clean House. All our Fertilizer will go at a 9 Percent Discount.

See Us before you side-dress your peanuts.

#### WITH COODE CENTRAL AIR CONDITIONING

The completely air-conditioned home is not only delightfully cool in every room . . . it's cleaner, quieter, more healthful, and cooled more efficiently.

If you're getting ready to build or remodel, consider electric central air conditioning in your plans . . . for installation now or later. Then you'll be ready to enjoy the comfort of air conditioning that keeps your entire home mountain-resort cool in the hottest summer weather.

Electric central air-conditioning systems are available in two, three and five ton units, compactly designed for small and medium-sized homes; in larger sizes for larger homes.

Your air conditioning contractor will gladly give you the full story about electric central air conditioning's many advantages and make specific recommendations for your home . . . or your place of business.

## FRONT LINE OF FREEDOM

#### JUST a Newsstand? No.

It is a battleground.

In this tiny territory rival publications fight for the attention of the public. From left to right you can find all shades of political and social opinion, freely expressed. And because of this a newsstand is more than just a convenience in the life of an American town.

#### It is a front line.

There is another battle going on around a newsstand, more far-reaching than the com-

petitive rivalry of paper against paper, magazine against magazine. For there are always people-yes, even here-who dislike to see opinions freely expressed...and who attempt to bring all sorts of restraining pressures on those who champion the Press's freedom.

But those who write and print and publish the free opinions of America, they see a threat to that freedom as a threat to all freedoms, and vigilantly hold back pressure-wielders from closing in on the newsstand.

For the newsstand is freedom's front line.

#### THE GORMAN PROGRESS, Eastland Co., TEXAS, July 4, 1957

## **Hospital Report**

the following as patients on Wed- 407 - Mrs. George Daniels, nesday morning:

202 - Mrs. C. D. Cates, Carbon 411 C. L. Courtwright, Rising Star 203 - Mrs. Nettie Rider, Gorman 414 - J. L. Smith, Comanche 206 - Mrs. Jack Lee, Eastland 207 - Mrs. T. G. Grisham, De Leon 210 - Mrs. Stella Reynolds, G'man 211 - Mrs. Bob Baggett, Brk,ridge 401 - Wesley Eads, De Leon (No Visitors) 402 - J. M. Jones, Ranger

#### BIRTHS AT BLACKWELLS

Mr. and Mrs. LeRoy Alexander have a new son, Philip LeRoy, born on June 26 weighing pounds and 1 ounce. The Alexanders are from Cisco. Mrs. Alex Grandparents are Mr. and Mrs. Irland Watson of Gorman.

Ft. Worth have a new son, David Wayne Butler, bonn on June 26 weighing 7 pounds and 14 ounces. Grandparents are Mr. and Mrs. Lynn Butler of Gorman.

Mr. and Mrs. J. A. Fox of Rt. side parks as well as state parks 2, Eastland have a new son, are indicated. The new map con-Virgil Gene Fox, born June 27, tains more detailed information weighing 7 pounds and 9 ounces. than its predecessors.

## M. Y. F. News CAROL HATCHER, Reporter

To start M.Y.F. off Carol Hat cher played the piano and Norman Jones led the singing of one song. Our program was about "Youth's Responsibility for Christian Community." Larry Grice read the scripture and Myrna Sue Brightwell, had the first part, "On the Darker Side." She said that in 1954, young people under eighteen years of age were responsible for 58 per cent of the auto thefts in our country. 49 per cent of burglaries, and 15 per cent of rapes. These things she said are not just necessarily happening in the cities, they are happening in rural areas too. Janice Day had the second part, "Light Dispels Darkness." She said that for youth, especially sometimes, it is difficult to see the relationship between the present and the future. Fred Gray had the next part, "What We Do Counts." He said that it said what we do makes a difference for all eternity. Mary Dell Thomp son had the last, "Have You Considered These?" She gave some suggestions of some things we, the M. Y. F., could do.

#### 1957 HIGHWAY TRAVEL MAP ties and industries are included | Lola Dyphine Collins in the backside information. RELEASED BY TEXAS

HIGHWAY DEPARTMENT

AUSTIN, Tex. - June 9 - The official highway travel map of Texas, completely redrawn to include 450 towns not shown in previous years, has just been repartment, D. C. Greer, State High way Engineer, announced today. 419 - Charley Simmons, Gorman as rapidly as possible to fill a Information Bureaus maintained ered with a cloth which terminatbacklog of thousands of requests, by the state."

and new requests are pouring in daily, Greer said.

Inch for inch, the map - which is possibly one of the most widely known travelogues of the state gives more travel guidance a bout the largest state in the Union ander is the former Gaye Watson. than any comparable printed mat ter of such handy size. EASTLAND, TEXAS

DROUTH AND FLOOD - Texas knows both. Here, at Possum Kingdom Reservoir, an installation of the Brazos River Authority, flood waters are pouring over the spillway. Up to May 21, Possum Kingdom released 1,773,540 acre-feet of water downstream. Meanwhile the dam was holding vast quantities of water. Just a few weeks earlier this was drouth-parched land. The U. S. Corps of Engineers estimated that, up to May 6th, the two great flood-control dams — Whitney and Belton — had prevented damage of \$23,700,000 during recent floods in the Brazos River Basin. The B.R.A. master plan calls for many more dams, for flood control and conservation, on the main Brazos and its tributaries.
