Increased War-Time Use Of Mineral Oil Cited As Serious

Increased war-time use of mineral oil in salad dressings, salted

HOW TO "KNOW" ASPIRIN
Just be sure to ask for St. Joseph Aspirin. There's none faster, none stronger. Why pay more? World's largest seller at 10¢. Demand St. Joseph Aspirin.

nuts, potato chips and doughnuts may have serious nutritional consequences. This concern is expressed by Haze Phipps of the A. and M. College Extension Service who cites nutrition research at state experiment stations which have shown that mineral oil robs the body of at least two of the fat-soluble vitamins necessary to health and also of two important

minerals, calcium and phosphorus. The American Medical Association also has issued a recent warning against indiscriminate use of mineral oil. Miss Phipps says. The AMA statement says prolonged use of mineral oil can interfere seriously with the absorption of vitamins A, D and K by the body.

Chickens To Crowd Market With Supply Heaviest In July

REBEA MERLE BOYLES
County Home Demonstration Agent

Old hens and spring chickens will crowd markets near places where they are raised during the next six months. The supply of chickens for sale will be heaviest in July, August and September. Reasons:

Shortage of feed will cause many farmers to cull their flocks sharply to get rid of looser hens and even some layers. Limited facilities will make difficulties in shipping many of these birds far, so local markets will get most of them. Scarcity of storage space for the heavy supply of chickens will mean that chickens must be canned or frozen for next winter's use—or eaten now to prevent waste.

For the homemaker who has a savory chicken supper in mind, home economists suggests these rules for cooking poultry:

1. Know a young chicken from an old, and cook according to the right method for the age of the bird. Marks of youth in chickens are: flexible cartilage on rear end of breastbone, tender skin, soft meat, few hairs, and soft smooth feet. Broil, fry, or open pan roast young, tender, well-fatted birds. Braise in a covered casserole or covered roaster lean young birds or hens past their prime for roasting. Cook very old birds long and slowly in water or steam. Then strip meat from the bone and use as a base for dishes cold or hot, such as chicken salad, chicken à la king, chicken loaf, croquettes or soufflé.

2. Cook birds of any age at moderate heat so the meat will be juicy, tender, and evenly done to the bone with little shrinkage. This way of cooking is economical of fuel and fuel.

3. When poultry, either raw or cooked, must be stored a day or two, keep it cold. After it is cooked, if it is not to be eaten immediately, chill it quickly.

Colorado City Show Nets \$81,000 Bonds

COLORADO CITY, June 20—Gate receipts at the million dollar bond show presented by the entertainers from Abilene Army Air Base in Colorado City Monday night totaled \$10,000 in bonds, Senator Pat Bullock, Fifth War Loan drive chairman said. Admission to the show was a bond bought since June 12 and the \$10,000 sales were realized at the gates. Total series E sales recorded for the show reached \$81,000, Bullock reported.

Two thousand persons attended the bond show which was staged at the picturesque rock amphitheater in Ruddle park with the audience seated on grass terraces.

Machinery And Men Needed To Harvest Crop

An "S.O.S." for farm machines and men has been received by Howard county's neighbors to the northward, where a record wheat crop is ready to be harvested.

O. P. Griffin, county agent, received an appeal from D. A. Adam, farm labor field assistant at Plainview, who said the Plains need 450 more combines and 1,050 more trucks than agents show to be available over the entire state and also need 1,000 tractor drivers, more than 800 hands such as scoopers and more than 700 combine operators.

He listed prevailing wages as considerably higher than normal, as follows: Ordinary farm labor, 70 cents per hour; combining, \$3 per acre up to 20 bushels, plus 10 cents per bushel over 20; tractor drivers, \$8 to \$10, and combine operators, \$10 and \$12.

Griffin estimated many farmers will catch up with their work on Howard county farms in the next week and might be interested in harvest work. If they are interested, they may obtain any later information received at the county agent's office. Also, that office will telephone Plainview to learn where men should go.

Adam's letter said if crops on the Plains can be saved, district 1 will produce more than 40 million bushels, or two-thirds of the entire Texas wheat crop. Harvest was to open today in Hansford and Ochiltree counties on the North Plains and Hale county on the South Plains and in both cases progress toward Amarillo and vicinity by July 1-5. All counties need help, but Lipscomb, Ochiltree, Hansford, Sherman, Dallam, Moore and Hutchinson are more critically in need of help, he wrote.

Harris Scores Neutral Record

C. L. Harris, candidate for congress from the 19th district said today that it "is time for the people to get back to that form of self government and of free American enterprise which made this nation great."

Congress should rule the nation, said Harris. "Congress is composed of the directly elected representatives of the people and these are the men who should do the talking and the doing in Washington."

"A frequent change of public officials makes for a strong democracy and this district certainly needs a change. "In the ten years that the present congressman has been in Washington he has never raised his voice for or against any issue which was vital to the farmers, the cowmen or the oil industry of this district. These are the three basic industries of our district and they must have the intelligent attention of our congressman."

Harris said he proposed "that my district shall come first and that I shall look after the interests of the business men, whether they be farmers, cowmen, oilmen or whatever."

Oilfield Title Stays With Sgt. Fred Dalton Now In New Guinea

ADVANCED ECHELON, 5TH AIR FORCE, Somewhere in New Guinea—Sgt. Fred Dalton, mechanic in the "Red Raiders," heavy bomber outfit of the Fifth Air Force in New Guinea, has received a promotion as a jump from private. Before joining the army, he worked for the Duncan Drilling company of Big Spring.

Sgt. Dalton is known in his organization as "Roughneck," a name the average soldier would suspect as belonging to a rough character, who is apt to throw you a right at the least provocation. But he will tell you the name comes from the oil fields where a handyman who does most anything is called a "roughneck."

Dalton is a very handy man around the place, and was jumped from private first class to sergeant because of his usefulness. When new camps are being built, he is a pipefitter, and he has had a part in several camps already. He is the driver of one of those huge gas trucks that fill the planes, and in his spare time he works around the ships.

"Roughneck" has been overseas more than 28 months, having come over via the South Atlantic and Cape Town, and he is looking forward to a trip back across the Pacific in the not too distant future.

Canal Extension Gets Congressional Okay

WASHINGTON, June 22 (AP)—Extension of the Louisiana-Texas intracoastal canal from Corpus Christi to the Brownsville-Harlingen area, received final congressional approval Wednesday with adoption by the senate of the conference report on the war department civil functions appropriations bill.

The measure provides \$1,620,000 to initiate the construction. The total cost is estimated at approximately \$5,000,000. Army engineers have testified the amount provided would finance all the work that can be done in the fiscal year beginning July 1.

BIG SPRING, TEXAS

Several rows of spectators seats are available to visitors, as well as amusement machines, nickel-odeon and soft drinks. This all adds up to a good atmosphere. Dozier has recently added to his line another bowling center in Midland and will spend part of the time there. "We can give people the type of bowling service they expect and we hope to continue through the summer," Dozier said. "The pin boy situation is very good here," he continued.

Eight lanes are available for the bowlers every night except Monday and Thursday when special matches are held and on those nights there are still four lanes open. New balls are available in small quantities now. Army restrictions

have been lifted and it is possible to get a few good balls.

Around fall Dozier expects to make a number of major improvements. For the time being there is no league play.

The bowling alley is also considered the servicemen's amusement center.

Marshall Allen Leaves Soon For Lamesa

Rounding out six years of service as manager of Big Spring Cotton Oil company, Marshall Allen will leave about July 1 for Lamesa to become manager of the Lamesa Cotton Oil company.

Allen helped construct the oil mill here in 1938 and has been its manager since that time.

He will be succeeded by W. J. Davis, who has been connected with the Lamesa mill about 10 years. Davis already is here and will take charge when Allen leaves.

The two mills are under the same ownership.

The mill is busily engaged in soybean processing, which opened in February and has been a lifesaver in providing feed for livestock. Fifty per cent of the meal and cake has been shipped elsewhere under agreement with the government and the remaining half has been sold to farmers and ranchers in this area.

The meal and cake available for sale here has been sold daily almost as quickly as processed.

The beans were secured from Illinois, Iowa and other states through the Commodity Credit corporation. During a shortage of cottonseed products, the soybean products proved invaluable to feeders and dairymen in the area. Processing of beans for the season is to be completed within a week or 10 days and preparations will be opened immediately after-

Rev. J. Frank Norris Resigns As Pastor

PORT WORTH, June 19 (AP)—

The Rev. George Norris has been voted a full pastorage of the First Baptist church here, succeeding his father, the Rev. J. Frank Norris, who resigned after serving as pastor for over 30 years.

Rev. J. Frank Norris, who resigned yesterday and was elected associate pastor to assist his son, said he would devote most of his time to developing the Fundamental Baptist Bible Institute here, and would retain his associate pastorate of Detroit, Mich., Temple Baptist church.

Rev. George Norris has been associate pastor of the local church for two and a half years.

ward at the mill for processing cottonseed from this year's crop.

Hitler's Left Ear Promised GI's Express Opinions Of Invasion

By HAL BOYLE

A BRITISH INVASION PORT, June 15 (Delayed)—American infantrymen stood in a knot alongside the vessel waiting to carry them to their combat debut in France. Here are some of the men, and how they felt individually about the assignment:

Tech. Sgt. James M. Barnett, 22, Jackson, Tenn., grocery clerk, in charge of the platoon (and described by his lieutenant as "the best damned sergeant in any division"): "I believe the hardest part is over. Combat is no harder than getting ready for it and some of us have been getting ready for almost four years. We've got confidence in our outfit; it won't be long before this thing is over."

T/5 Dale E. Stockton, 26, Kendallville, Ind., refrigerator worker: "It'll be rough, but we can handle anything the Heines can put in."

T/4 Charles Ottino, 27, New York, singer: "I'm hoping our ar-

tillery can hit the targets. It has a great record and we want to keep it up."

Sgt. Perry Minton, 25, Lewiston, N. C., printer: "I wish the people at home knew how well prepared for this we are physically and mentally. They worry more than we do. Tell them for us, not to worry." (Other soldiers in the group shouted: "Yes; tell the folks back home we're all right!")

Pvt. Basil Proc, 24, Fall River, Mass., trailer driver: "I've got a score to settle for a buddy of mine. Also, I promised my wife I would bring her Hitler's left ear. I know where he usually hangs out."
