## Ups and Downs Of Promotion Game Told By Rickard

BY WILLIAMS

By HENRY L. FARRELL (United Press Sports Editor)

NEW YOKK, Teb. 23.—Tex Rickard has been closer to the firing line of big professional sports for more years than any other promoter in the business and he has heard all kinds of stories and alibis.

What's the matter with those falliers?" Rickard asked.

"It's too hot in the Garden. They're all passing out," he was told.

"I don't know much about hock and I just thought that are long as and alibis.

chance?" Rickard asked.

"No I didn't, Mr. Rickard," he answered. "I didn't throw you down. The cops threw me down. I was speedin' down to the Garden in a taxi. Comin' through Marlem, the driver hit an old man and knocked him a little bit. The cops pinched up and gave us a good beatin' and the judge give me ninety days and here I am just out."

Fickard hired a team of timber wolves to rive exhibitions of mushing in his new Garden and the trip involved considerable expense. When they came out on the ice to do their stuff, they all sat down and refused to move. When they tried to drag the animals off the ice and a snarling fight resulted and proceedings were delayed for 15 minutes.

"What alls them dogs?" Rickard asked the musher.

"The keeper didn't give 'em a drink all day and when they got out here

There was the colored boxer who failed to show up for a rather important fight and Rick didn't hear of him for months. Finally he showed up and asked for another fight.

"Out of here with you. Didn't you throw me down when I gave you a chance?" Rickard asked.

"No I didn't Mr. Pickard" how the spectators were warm it would be enough. Turn off the heat quick and see if they start winning," he ord ed.

Stephen A. Lillard Jr., a Ranger banker, has a plan that looks feasible. Let the city dads refund the bonds now out with longer standing ones at 5 per cent, and then she will have money to do some real improvement work that is necessary.

The city and citizens of Ranger have got to do something to make the town attractive. Ranger is far behind other towns in the belt in sidewalks, paving and street lights in the residential section.

You have got to attract home buyers who are coming here to develop our glass sand beds, our brick shale, and our agriculture. The newcomers like to see plenty of lights, pretty flower gardens, good sidewalks, a town free of antedeluvian awnings and signs on the main street.

Let's get busy and do these things. Talk is cheap, but necessary. It is the purpose of the Ranger Times to hammer at these propositions until something is done. The Ranger Times wants to see the natural resources surrounding here developed. It will take newcomers and outside capital to develop them. We want to see the capitalist who proposes to develop the resources live in Ranger. By making Ranger attractive and putting in the necessary improvements, they can be

induced to live here. The climate of this section cannot be excelled. The ozone fairly makes one bubble over with energy. It puts pep into all. You have to have sidewalks, paved and graveled streets, lights and good schools and churches to attract new blood. Ranger has the schools and churches, but no lights in the residential section and comparatively few sidewalks, and few graveled and paved streets. The

want enough firm, plump flesh on my bones to fill out my figure."

Of course you do. You want a figure that, you can drape your clothes on—not just hang them on! What's the use of having pretty clothes, if they just hang on you?

And what would you say if you were told you could have the figure you want? A graceful, well rounded body—firm, solid flesh—just enough—just your right weight? You'd be mighty happy, wouldn't you?

Well, then, be happy—because you can have it! Put plenty of red cells in your blood and watch your weight go up to where you want it! That's what's the matter with you! Your blood is impoverished. You need more blood is impoverished. You need more rich, red blood. S. S. S. is the thing to put red blood in your system. S. S. helps Nature build red blood cells by the millions.
You just try S. S. S. and watch how

Nobody knows better than the boy or girl who has been slighted time and again by their supposed "best friend," how humiliating it is to have to stand for such "cutting" things when they know they can expect nothing more as long as they don't look attractive on account of a pimply, blotchy or rough skin.

But such heartaches don't have to be put up with. Any boy or girl who is troubled with these skin blemishes can get rid of them if they will just use Black and White Ointment and the Soap. The fact that they sell at the remendous rate of more than two nillion packages, a year shows how popular they are. They are economically priced, in liberal packages. Any dealer can supply you with both the Ointment and the Soap. The 50c size Ointment contains three times as much as the 25s size.—Adv.
