BLANTON TELLS RANGER VOTERS OF GRAFT FIGHT

His Efforts Have Prevented Waste of Millions, He Says in Address.

How Thomas L. Blanton, congressional candidate, had saved huge sums of government funds by unceasing vigilance over the treasury and "single-handed" rights "against graft, from the petty items that benefit congressmen to the \$800,000,000 grafted by the shipping board" was recounted to a Ranger audience last night at the Christian tabernacle by the candidate himself.

Mr. Blanton's entrance into Ranger was inconspicuous and consequently his crowd was small. Except for an announcement of his speaking dates in this section sent out some time ago, his coming was unheralded.

"If I am put out, these abuses will continue," Blanton declared after detailing numerous victories over the "money spending leaders." His speech in part follows:

Stands on Record.

"Solely upon my record and ability to serve I now seek re-election. I have faithfully kept every promise. Without exception I have vigorously advocated and helped to make law every constructive measure passed by congress during my tenure. And I have uncompromisingly fought every proposed waste, extravagance and graft."

"Until recently, when the Washington press reporters kept back from the public the real situation, thus forcing me to carry a personal message to the people, no other member had been in more constant attendance upon the house proceedings, or given more active and painstaking attention than I had to all business."

"We still have in our army 8,720 more officers and 23,560 more men, and we still have in our navy 3,923 more officers and 40,920 more men, than we had when the war began in 1917; notwithstanding that since the war we have discharged and put back into private life 174,025 officers and 3,343,213 men from the army and 23,787 officers and 40,920 men from the navy, all seasoned and well trained, upon whom this country could safely rely, if trouble comes."

"Blocks Private Claims."

"By investigating, filing minority reports, and fighting them, I have blocked the passage of numerous private claims, aggregating over \$1,000,000. My fight killed the merger bill, saving a million each year. My fight stopped the proposed \$375,000 inaugural ceremonies. My fight in the fall of 1920 stopped the navy department from sending our two huge fleets, embracing 200 fighting ships, around the globe."

My investigation showing that the government was employing 1,128 shifts of guards to watch 376 scattered liquor warehouses, caused the present proposed move to concentrate and save millions."

"I have fought all graft from the petty items that benefit congressmen, to the \$800,000,000 grafted by the shipping board; against our bachelor members drawing \$2,191.44 mileage each congress, and against the stationery allowance of \$375 per congress being spent for all purposes. This has displeased the money-spending leaders whose yoke I won't wear. They have tried to discredit me. If I am put out, some of these abuses will continue. But if the people will only stand behind me, my fights will ultimately win, for other members will take courage and help me."

Senator McCumber, G. O. P. Warhorse, Is Defeated, Results Indicate.

The vote which McCumber was obtaining from the cities was believed insufficient to overcome the farmer vote which is being cast against him.

Obregon Denies Americans Held for Ransom at Tampico

The Times Is for Cole---and Why!

For the first time since the Times was established, more than three years ago, it today takes its stand in support of a candidate for political office. In its initial issue, the Times stated that it would stay out of political cliques but would fight fearlessly for principles and against lawlessness.

Today, BECAUSE IT IS AGAINST LAWLESSNESS, it advocates the election of H. S. COLE as commissioner of fire and police in Saturday's election. It takes this stand because it believes that for once a particular man is vital, if the campaign against an organized vice traffic is to be successfully concluded.

For three years this campaign has been waged spasmodically—and ineffectively. Yet in three days, H. S. COLE so rallied and directed the ef-

forts of the responsible citizenry of Ranger, that more was accomplished than in all the years that had gone before. That performance stamps H. S. COLE as the man of the hour in Ranger—the man who has shown by past performances what he can and will do in the future.

MR. COLE is not seeking this office as a personal honor. He is seeking it only after the earnest urging of his associates in the liquor raids. THEY feel and THE TIMES feels, that only through MR. COLE'S election can Ranger be assured a continuance of the unrelenting war on illicit liquor and liquor sellers.

His proved performance and his known ability INSURE future performance. Election of his opponent is at best a GAMBLE.

NO FOUNDATION FOR REPORT, HE WIRES TO PRESS

American Captives Have Been Released, Consul Notifies State Department.

NEW YORK, June 29.—President Obregon in a message to the United Press today stated that investigation by General Sanchez, in charge of the district in which Americans at the Cortez Oil company camp are alleged to have been held for ransom, proved the report was without foundation.

"Answering your cable yesterday, the reports to which you refer are absolutely false and have been put in circulation by those materially interested, which are working to assail this country," Obregon declares.

CORTEZ COMPANY CAMP EVACUATED BY REBELS

WASHINGTON, June 29.—The Mexican rebels who seized the Aguda camp of the Cortez Oil company, in the Tampico region, Sunday, holding forty American employes for 15,000 pesos ransom, withdrew Monday without damage or injury to the employes but with threats to return. Consul Shaw today advised the state department. The dispatch did not indicate whether the ransom for the Aguda camp was paid.

The department later received a second message stating that the bandits yesterday seized a camp of the La Corona Oil company, a Dutch-Belgian concern, in the same vicinity and were holding eighty-five employes, including about six Americans.

On the strength of the second message the state department directed the embassy at Mexico City to make a new demand that the Mexican government protect American employes of the Dutch-British company.

Letters of instruction regarding the conduct of the strike are being prepared at general headquarters here today and were to be mailed out tonight.

"The issue is clean-cut, with no strings attached to it," said B. M. Jewell, president of the railway section of the American Federation of Labor.

DEFINITE PLAN PROPOSED FOR RUSSIAN PACT

THE HAGUE, June 29.—Sir Phillip Lloyd Greime today urged the consideration of a definite proposition in disposing of the foreign property seized by the Russian government.

Sir Phillip suggested that all property be divided into two classes, the first to the large industrial and commercial holdings, which largely affect American interests. This group would contain the property of the International Harvester company, the branches of the National City bank, the Westinghouse Electric company plant, the Singer plant and the oil properties of the Standard Oil company.

ANOTHER GOOD WELL IN SOUTHWEST OF EASTLAND

EASTLAND, June 29.—Another gusher was added to the list of producers in the Eastland field Tuesday night when the Eastland Oil company drilled in their Henry No. 1 for 2,000 barrels. This well is situated a few hundred feet west of their Martin No. 2 and the pay was struck at the usual depth of 3,333 feet.

This makes the second producer in the Eastland field this week, the other, the Ardizzone-Shinbolt well, which also came in Tuesday for 2,000 barrels, extending the Lake Eastland pool one mile west. This test will cause considerable drilling in the immediate vicinity.

CONTRACT WORK MEN'S PRINCIPAL GRIEVANCE, BOTH SIDES ADMIT; CONFERENCE CALLED.

CHICAGO, June 29.—Settlement of the railroad dispute which threatens to result in a strike of shop workers Saturday was in prospect today, according to high officials in railroad circles. Predictions were freely made that the strike would not materialize.

The United States railroad labor board has summoned the union heads and executives to appear before it Friday afternoon in an effort to settle the disagreement and prevent a strike.

CONTRACT WORK MAIN ISSUE.

The general belief in both union and railroad executive circles was that the railroad managers would officially inform the board of a decision to abide by the rulings forbidding contract labor and with this promise, the unions would either call off or delay the walkout. Several union heads pointed out that a large percentage of the workers voted in favor of a strike because of opposition to the contract system.

BANDIT DRILLED 60,000-BARREL WELL, COULDN'T CASH IT

MEXICO CITY, June 29.—Stealing an oil rig and holding the drilling site against a company of Mexican soldiers until he had brought in a 60,000-barrel well was just one of the incidents that make up the everyday life of Monte Michaels, Texan, and notorious oilfield bandit, who was killed near here recently.

This particularly daring coup came when the new Amatlan pool was discovered. Monte went to the new field, measured off a tract of land owned by a Mexican oil company and defied officials to oust him. When an injunction failed to remove him, troops were sent, but to no avail. They were afraid to attack Monte and his bunch of oil field cut-throats.

Monte's career came to an end in a manner that befitted the life he led when he was shot to death while attempting to rob the ranch of an American oil man near here.

BOOTLEGGING NEWSPAPERS.

Herrin, Ill., is sticking its head in the sand on the recent mine massacre there. It doesn't want to know what happened. And so the newsstands are informally ordered not to sell any papers carrying accounts of the outrage.

Herrin, Ill., is not the only town which boasts citizens of that belief. Even Ranger, democratic as it is, has had touches of it—people who thought the Times was "ruining the town" by telling the truth about conditions.

Some persons have taken this stand to be due to misguided ignorance on the part of the Times, and to a desire for sensationalism. Perhaps the following from the Dallas News—the editorial leader of southwestern newspapers—may convince those persons that the Times "ignorance" is not due to a provincial unacquaintance with life.

"One of the incidents of the Herrin, Ill., affair was the appearance of the 'newspaper bootlegger,' as the Associated Press correspondent expressed it. It appears that the newsstands of Herrin, which is a town of ten or eleven thousand, were 'informed' that if they sold out-of-town papers containing accounts of the fighting they would be 'roughly handled.'"

"But though readers of newspapers were unable to buy them from the front of the newsstands, the backdoor entrance and an extra price—as you would expect in bootlegging operations—afforded a way around the prohibition unofficially placed on news by Herrin. A package is handed out amid considerable mystery upon receipt of the newly 'adjusted' purchase price. When unwrapped and unfolded, it is the newspaper with the truth about the massacre in it.

"The embargo of Herrin on the facts of Herrin's disgrace is not so strange a thing. In every town there are those who believe that the function of newspapers is to 'boost the home town and not stir up all this trouble.' 'Stirring up all this trouble,' according to this formula, is nothing more nor less than printing the unbiased truth about unpleasant conditions that ought to be remedied. No doubt Herrin's 'leading citizens' deplore the publication of anything at all about what happened there. And in all seriousness they will attribute to the newspapers the harm which will inevitably come to Herrin, instead of attributing it to the situation which they themselves tolerated and now condone. There are other towns which have prominent citizens as short-sighted as that. Herrin isn't the only one."

FIRST PICTURES OF ILLINOIS MINE MASSACRE

Preparing for the battle.

This photograph was taken only a few hours before a mob of 5,000 striking miners attacked, captured and massacred the guards and strikebreakers at the Southwestern Coal company's mine at Herrin, Ill. Superintendent McDowell (shown by arrow) is seen directing the posting of the mine guards, who were overpowered and slain when tied. McDowell himself was the first man murdered after the surrender.

THREE CADETS FALL TO DEATH IN ARMY PLANE

SAN ANTONIO, June 29.—Three aviation cadets were killed and their bodies burned when the De Havilland-4, in which they had just risen at Brooks field, fell from a height of 200 feet Wednesday afternoon at 5 o'clock.

The dead are: Walden R. Ferrell, 24, of Philadelphia, who was piloting the machine and was killed instantly.

William C. McCoy, 22, Nashville, Tenn. George C. Thompson, West Philadelphia, Pa.

The machine rose easily from the field when the three young men started out, but after reaching a height of 200 feet the engine stopped and the machine crashed before it could be got under control. Farrell was killed instantly but the other two lived until officers and enlisted men in the vicinity reached the plane. Their cries were heard as they struggled to free themselves from the wreckage, but before they could be freed the flames from the exploded gasoline tank had overcome them.

MAN BEHEADED WHEN STEAM ENGINE EXPLODES

ENID, Okla., June 29.—John A. Johnson, 60, of Enid, and V. R. Williams, 22, of Haynesville, Ala., were killed, and two men were slightly injured when a steam engine exploded south of Breckenridge shortly before noon Tuesday.

An explosion followed and before the girl could jump out her dress caught on fire. She ran 180 yards with her clothing afire before she was overtaken and the flames extinguished. She was badly burned, but will recover.

Her father was burned in the side from the explosion and Judge Nicely, one of the men who tore her burning clothes off, was burned about the hands.

HOUSTON, June 29.—Houston's \$1,400,000 bond issue has been approved by Attorney General W. A. Keeling, it was learned today.

MAGNOLIA GETS NEW WELL; INCREASES FLOW ANOTHER

BRECKENRIDGE, Texas, June 29.—The Magnolia company announced one new completion and a material increase secured from an old well. The new well is J. M. Rush No. 9, in the Curry pool, at a total depth of 3,202 feet, with the bit seventeen feet in the pay. The well is making 400 barrels natural. It does not extend the pool.

STEPHENS IS GIVEN MORE HIGHWAY MONEY

BRECKENRIDGE, Texas, June 29.—The reports come from Austin that Stephens county has been granted an additional appropriation of \$100,000 state and federal aid for road building from the state highway commission. County Judge Darden said that this means that the county will be able to hard surface the highway which is now being built from Breckenridge to the Eastland county line, connecting with Eastland and Cisco, where it will also be hard surfaced.

It is not known when this appropriation will be available, but it is said it might be subject to draft early next year. County officials declare that the road south to the Eastland county line is about 75 per cent graded and has most of the concrete culverts and bridges in. Hence it is said that it should not be many months before this highway with a hard surface should be opened to traffic.

Palo Pinto county on the east was appropriated \$100,000, and Eastland on the south was allowed \$71,000 more by the state highway commission this time.

LACKLAND'S PULLETS GET AMBITION EARLY

Colonel Rufus J. Lackland returned yesterday from Stamford, where he went by invitation to speak on poultry culture at the Stamford homecoming, conducted by the Rotary and Lions clubs.

The Lackland poultry ranch has been attracting attention throughout West Texas in recent months, several county agents coming here to inspect it, and Porter Whaley of the West Texas Chamber of Commerce recently making a trip here for the same purpose.

Colonel Lackland this morning presented the Times with the first dozen eggs laid by his spring pullets, which began laying at the age of four months and ten days. This is considered a remarkable record, as the average is more than five months. Rapid increase in efficiency on the part of the new layers is shown by the gradually increasing size of the eggs.

Mr. Fears was walking along the west side of the courthouse square when his umbrella began giving forth smoke, which was followed by a burst of flame.

It was found that the blaze was caused by some one unwittingly flicking a cigarette stub or a lighted match into the umbrella.

ELKS DANCE LAST NIGHT.

Not only are the Elks the "Best People on Earth," but they are also among the bravest, being the first social organization that has braved the heat sufficiently to give a dance. The music was splendid, everybody was glad to meet together again after the long abstinence from dancing, and everybody had a good time.

OVERLY-LAVERY WEDDING.

The wedding of Miss Sarah I. Lavery and Charles Overly took place yesterday morning at 8 o'clock in St. Rita's chapel, Father Gerkin officiating. The attendants were Mr. and Mrs. O. F. McGee, sister and brother-in-law of the bride. The wedding ceremony was performed in the presence of the immediate relatives of the family and a few intimate friends. The bride was very beautifully attired in a gray Canton crepe dress, with trimmings of cut steel beads, with a French model hat in the same shade.

After the ceremony the wedding party repaired to the home of Mr. and Mrs. Arthur E. Ernst, where they were served a lovely three course breakfast. Sweet peas and wild flowers were used in profusion about the Ernst home and lent their beauty to table decorations.

Following the breakfast, Mr. and Mrs. Overly left for a honeymoon trip to the Ozark mountains. Mrs. Overly's going away gown was a wisteria colored tweed suit, with a duvety hat in the same shade, trimmed in gold lace. The bride is a well known business woman of Ranger, being owner of the Vogue Hat shop, and has lived here several years. She is a sister of Mrs. Arthur E. Ernst and Mr. R. D. Lavery of Ranger, and a daughter of Arthur Lavery of Warren, Pa., and has many friends here

who admire and love her. Mr. Overly is with the Prairie Pipe Line company, and is well and favorably known.

NITROS BUNCH MISPLAYS, DROP HITFEST, 9 TO 7

Homers by Ammons, Pyle and Craig Enliven Final of First Half.

The crippled Nitros, battling valiantly despite their wounds, went down to defeat in the last game of the first half yesterday, 9 to 7. Their bats functioned with gusto on the offerings of the appropriately named Mr. Hit, but the Gassers whacks were numerically superior...

WEST TEXAS GAMES HUBBERS TAKE TWO.

SAN ANGELO, June 29.—Too late to do themselves any good, Sled Allen's Hubbers took both morning and afternoon games from the Broncs Wednesday, 7 to 6 and 5 to 2. With a chance to finish with a 5-0 standing, the Broncs battled for both games but were nosed out in the morning and could not hit in the afternoon. The scores: First game—R. H. E. CLOVIS TAKES FINAL.

ABILENE, June 29.—Hitting Keisler hard in the latter rounds, Clovis took the final game from Abilene yesterday, 5 to 3, making the winning runs in the last inning. A runner's stumble between third and home cost a possible tie in the last half. Score by innings—R. H. E. Clovis000 002 012—5 6 0 Abilene000 120 000—3 10 4 Vick and Erwin; Keisler and Burch.

COLONELS ARE BLANKED.

STAMFORD, June 29.—After hitting Conley for five runs in the first four innings yesterday, the Swatters gave an alleged comedy exhibition for the balance of the fray, but played errorless ball behind the emergency pitching of Johnny Frierson and blanked the Colonels. PARSON STOPS 'EM.

At this untimely development, Parson Pyle felt the pitching urge come upon him, and served notice of a reform wave by slamming three speedy shots past Maples. Very fortunately that was, too, for its sure does mess up a score book to have more than nine men bat in the same inning. The Rev. kept up his exemplary labors during the remaining two rounds, holding the Gassers hitless and striking out a total of five. The Nitros staged two comebacks, but both were shortwinded. With two down in the seventh, Dude Craig drove the ball to the left center fence and by fast sprinting turned the slam into a homer—the Nitros' third of the day. Dockery and Pyle followed with singles and Ammons was purposely walked, filling the sacks. Conley failed to hit a homer or any fraction thereof, however, and the Nitros garnered no more tallies in that round. In the ninth they took one more, on a walk to Pyle and a smack against the boards by Conley, who had failed in the seventh. Final total, Amarillo 9, Ranger 7. Ho-hum, goodaby, first half. LIQUOR ON U. S. SHIPS FAR FROM A SECRET IN N. Y. SHIPPING CIRCLES

NEW YORK, June 29.—Amazement is expressed by shipping men here that congress has officially learned that whiskeys, wine and liquors are being sold on American ships. The sale of liquors aboard ships, which is prohibited on land, has been going on far such a long time that shipping men firmly believed that congress was fully aware of the practice. It was pointed out that numerous senators and other officials of the government have travelled on American ships and must have observed the freedom with which it is sold. Members of the Anti-Saloon league, or kindred organizations, and clergymen have travelled on the ships on which liquor was dispensed. One shipping man said: "The American ships are far more popular than the foreign ships which come into New York. The George Washington went out last week with more than 1,900 passengers. No foreign ship, no matter what her size is, has taken out as many passengers this spring, as the George Washington did last week. I believe that the 'exposure' will make the American ships more popular than ever." It has been common knowledge among shipping men that the Volstead law never was enforced on American ships. At no time were the ships "dry."
