

That Sweetwater!

Many people in this section, where the fee system has not been so universally abused as in other parts of the state, probably wonder why so much stir has been raised over it in the past two years.

Pink Parrish, who, a few of his constituents in Howard county know, is the state senator from this district, is due much of the praise for starting the fee system investigation. Pink drew a four-year term when he was elected and has not been seen around here in that time and a lot of folks haven't realized he was their senator. But he was right when he got after the fee system.

The theory that a man must be stimulated by the "commission system" to be a valuable servant of the people is unsound. Any employer will tell you he wouldn't have much confidence in a salesman who would not do his best on a fixed salary but would bow his back if he were placed on a commission.

The same goes for elected officers. If a man is not willing to serve as best he can from day to day for a fixed sum he ought not to ask the people to hire him.

As aforesaid, abuse of the fee system has not been noticeable in West Texas.

But whether it has been abused or not does not alter the fact that it is unjust to the Ninth degree. It is a blemish upon the state. It ought to be—and eventually it will be—abolished entirely.

Take it away and many counties where men have grown wealthy off the people because they had the fee system to operate on will find a better type of men seeking their public offices.

An idea of what the fee system can lead to is given by the Rockdale, Texas, Reporter. Seventy-two charges and indictments were placed against a disabled World War veteran on embezzlement counts, all growing out of the same transaction. The man was committed to a hospital by a court in another county. Now the district clerk will draw \$720 from the state treasury when he writes the word "dismissed" seventy-two times, on his dockets across the cases against the man. Total fees in the cases, all payable by the state, were estimated by one attorney as probably exceeding \$2,000, although the accused man was out of reach of trial on any of the charges. Among other fees authorized and fixed by law was the sum of \$3 in each case to be paid the officer who made the arrest of the man seventy-two times all at once. All of the phases of the multiple-charge indictments were handled according to the exact terms of the fee law. No question is involved that any officer exceeded his lawful authority, even though the case set the record, so far as was known, in compounding complaints against a single individual.

Harvey Rix was notified early this afternoon by his lawyer, Wallace, in Lubbock, that his father, B. W. Rix, who is 86 years of age, had suffered an attack of angina pectoris and was in a serious condition. Harvey and members of his family were preparing to go to the bedside.

He Dreams! Full Game Played In Sleep By Steer Fan; Home Boys Lose 13 To 12.

Before a crowd of 5,000 rabid fans the Sweetwater Mustangs downed the Big Spring Steers in one of the most thrilling gridiron contests ever seen in West Texas by the count of 13 to 12.

Receiving the opening kickoff from the toe of Tack Dennis, Red Sheridan, raced back to the Steer's 35 yard line before he was downed by Dyer. On the first play Baugh passed to Jones over the goal line for a score. Wood added the extra point.

Sweetwater kicked and Tack Dennis demonstrated that when it came to kicking the extra point, Wood failed as he returned the kick off 25 yards through the entire Sweetwater team for a score. The try foot failed.

The teams battled on even terms until the third period when another pass, Baugh to Jones, gave the Ponies another counter. Wood failed to annex the extra point. With two minutes to play Bill Flowers on a triple pass got loose for a 30-yard run to cross the Pony goal. Dennis failed to kick goal.

Japan Sends More Troops To Manchuria

CHANCES OF SETTLEMENT BY NOVEMBER 16 ARE MORE REMOTE

TOKYO, Nov. 5 (AP)—The war office announced today that a mixed brigade of 4,000 troops had been sent from Japan to reinforce the detachment at the Nonni river bridge in Manchuria where fifteen were killed and many wounded during the fighting with the Chinese under the leadership of General Mah yesterday. Desultory fighting continued today.

It was believed that the battle ended all hope that China and Japan might settle their troubles by November 16, the date set by the League of Nations for the withdrawal of the Japanese. The war office claimed that the Chinese had attacked after Mah had agreed to permit the Japanese to repair the bridge. Mah had previously dynamited it to prevent an advance by Chinese rebels.

This And That

By Mark

The program put out at the Mustang-Badger game last week contained among other things a full length cut of the powerful Mike Hicks and the following hokum: "Fans at today's game will be disappointed to know that Mike is suffering from a leg injury and will probably be used very little against the Badgers. Mike is being saved for the Armistice Day game against the Big Spring Steers and he may be counted on to make full use of 190 pounds in a duel against the Steers' highly touted Tack Dennis. Mike is one of the outstanding backfield men in District 4 and if his injury is fully recovered by November 11 he will show Big Spring visitors such scrapping as they have never seen before. Mike, together with Red Sheridan, Sam Baugh, Spike Wood, Buddy Belt, and Tom Allison make up West Texas' outstanding high school backfield."

We are not counting on Tack beating the Mustangs single handed. He will have the full help of 10 other Steers and they will be scrapping not as individuals but as a unit to turn back the greatest team in the history of Sweetwater. A powerful line which has turned back every scoring threat offered by opponents thus far will be on its toes to break through and smear the Ponies before they can break loose into a run. We have yet to see a more powerful line in this section than that of the local aggregation.

We do not know just how the Nolan county News reached the conclusion that the Pony backfield is the most powerful in West Texas, but we can say one thing and that is they certainly took the wrong path. We doubt seriously if as a unit any team in West Texas ever had a more powerful set of backs than have the Steers this year. Seldom is any club so fortunate as to have four men who can perform as the Steer backfield can and at the same time play such a powerful defensive game when it becomes necessary.

We look for the Mustangs to start Baugh, Hicks, Sheridan and Wood against the Steers next Wednesday. Hicks in all probability will not last the game for any one inflicted with a charley horse will have a whole drove before the Steers get through with them. Belt or Allison will replace the Rambler when he leaves the game.

This Allison by the way was rated as one of the three best players in the Fort Worth city schools last year. He may get honorable mention in District 4, but no more than that. All of which would make it seem that the Cowtown does not boast such high powered teams after all. We would not trade the Steer backfield for a cow pen full of men like Allison.

Our friend Millard Cope over at Sweetwater informs us that the Mustang fans are making every preparation to insure the Big Spring delegation of a grand and glorious time next Wednesday. Buck Johnson is chairman of the entertainment committee and will have cars at the depot to meet the special and convey the Steer rooters to the park. Many thanks, Buck.

The Board of City Development will have a delegation of Sweetwater fans meet the special at Roscoe and ride on over with visitors. This splendid spirit should make the Armistice Day affair one long to be remembered by Big Spring. The Sweetwater fans are a dead game sports and will extend every courtesy to the visitors and then take their licking like real men.

Bill Parker, Associated Press Sports writer, is beginning to sit up and take notice of the accomplishments of the locals according to his dispatch received today which reads: "Hurricane" Yost, who liked his football aggregations to score fast and often, would be in football heaven this season at Big Spring where the Bovines have almost worn out the goal line from constantly crossing it. The Bovines not only lead their District 4 race with three victories and no defeats, but are pacing the entire Class A division of the Texas Interscholastic League football marathon in points scored with 398. This huge mountain of points has been accumulated against A and B competition in eight games. Just to prove that a powerful offense is a strong defense the Bovines boast an uncrossed goal line."

The locals will have a real obstacle to hurdle next week when they encounter the Mustangs. Successful mounting of the Ponies will establish the Steers as big favorites to go places in the title race this year. To date it has been just a bit hard for the sports writers over the state to really consider as dangerous a team in the newly created District 4. The Oil Belt has ruled West Texas football so long that it is taking time for the idea to penetrate

The First Church of Christ, Scientist, in Boston

Growth of the Christian Science movement throughout the world as indicated by formation during the past year of 79 new branch church organizations, was reported at the annual meeting of the Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts, recently. Six thousand members from many nations gathered beneath the lofty church dome to hear of new publications and wider charitable and healing work.

The Mother church now has 2515 branch churches and societies in addition to 40 college and university organizations. For the first time Poland has a branch church. Another has been added to those already in Africa and Asia, four more to those in Australia, two more in South America, 43 more in North America and 25 additional in Europe outside of Poland.

Christian Science lecturers addressed total combined audiences of about 3,300,000 during the past 12 months, it was reported. In addition to the 3732 regular lectures, a number were broadcast in the Philippine Islands, China, Japan and the West Indies, more natives than ever before are stated to have attended lectures.

Robert E. Buffum, L.L.B., of Belmont, Massachusetts, was elected president of the Mother Church for the ensuing year. In his address, the new president sketched the work Christian Scientists may do to alleviate world unrest.

"Today all mankind needs the help which Christian Science can give for its ills and troubles," he declared. "The various theories entertained by the world with respect to health, happiness, employment, property and prosperity are experiencing radical changes, and with that a real team can come from west of Abilene."

Referring to "Hurricane" Yost we can name several Southwestern football mentors who would be in football heaven if their machines were chalking up points in the planer of the Steers. Without much thought we would mention Schmidt at T. C. U., Littlefield at Texas, Morrison at S. M. U., Bell down at Aggie, Meagher at Rice and Thompson at Arkansas and Jennings who is struggling along with the Bears at Waco.

Biondy Cross can't let a week go by without making a foolish remark. He says now that this department is taking seriously the hokum printed in the program at the Mustang-Badger game last week. Now we don't know where he got such an idea but we would like to inform him immediately that he is all wet. We think no more of the Bologna dished out by the writer on said occasion than we would had the Concho scribe himself penned the words.

We are indeed glad to note, and hope we can depend on same, that Biondy is going to accept our little wager concerning the ground gained by Harrison of the Bobcats and Dennis of the Steers. We will enjoy

these shifting beliefs have arisen many doubts, fears and anxieties. "The questions which today buffet individuals and nations and which seem so peculiar to this age are really the common problems of the human race. The solution of these problems is the same now as it always has been. The way was pointed out and fully demonstrated by Christ Jesus more than nineteen centuries ago as he taught the truth of being healed many of their sins and diseases."

Roland R. Harrison, manager of The Christian Science Publishing society, traced the progress of the society from its small, temporary quarters in 1885 to the present. Up to 1908, the society had 10 distinct domiciles, he reported. At that time the present publishing house was built and employees numbered 78.

"Today," Mr. Harrison continued, "we have 919 actual employees, and over 3000 other individuals actively connected with the society—advertisers, monitor contributors, periodical writers and so forth."

Mr. Harrison added that Christian Science periodicals are now distributed in 81 countries outside of the United States, and that the recently announced new publishing house is necessitated by the growth in volume of publications. He contrasted the present publishing house, built in 1908 at a cost of \$300,000 and later enlarged, with the new one, estimated to cost over \$3,000,000.

Coincident with these reports came word from the Shawmut Realty Trust, in charge of properties bought in the vicinity of the church, that these properties, totaling approximately 263,000 square feet, or a little more than six acres of land, are now entirely free of debt. The final \$970,000 was paid off during the past year. On a part of this land the new publishing house will be located.

Mr. Palmer, clerk, in his statement regarding relief activities of The Mother Church, said that aid had been given through governmental officials in Santo Domingo at the time of the hurricane there; through representatives of the church in New Zealand at the time of the earthquake in North Island, and in Java following volcanic eruption. Other relief was administered in Italy, Germany, China and several other countries. Drought areas in the lower Mississippi valley were visited by experienced relief workers, he added.

Editors are becoming increasingly friendly towards Christian Science and are opening their columns more freely to statements correcting misconceptions of the subject, it was reported by C. Augustus Norwood, manager of committees on publication.

"Newspaper men throughout the world," he said, "are now giving our committees weekly space in their respective papers for the publication of excerpts from our lessons, sermons. It is estimated that the number of such excerpts now published in the course of a year approaches 50,000 and much good will towards our religion is being developed through this activity."

William W. Davis, executive supervisor of the two Christian Science sanatoriums and of the Pleasant home at Concord, N. H., reported as to the successful management of these three charitable institutions, representing an investment of over \$4,000,000 are also entirely free of debt.

Incident with these reports came word from the Shawmut Realty Trust, in charge of properties bought in the vicinity of the church, that these properties, totaling approximately 263,000 square feet, or a little more than six acres of land, are now entirely free of debt.

Next Tuesday night at the Ritz theatre the management will give a benefit show for the Steers. The show will start at 11 p. m. and the proceeds will be given the Steer management to purchase fleece lined sweat coats for the players. This article of clothing is very essential, especially when the cold days draw nigh, when the boys come perspiring from a game. This department will be right there to help swell the revenue and we hope to see a full house. Such a step by the theatre management should meet with a hearty response from the citizenship of Big Spring.

Arkansas Halfback To Play At Chicago

FAYETTEVILLE, Ark., Nov. 5 (UP)—Winton (Cowboy) Kyle, star halfback of the University of Arkansas football team, today was de-

clared eligible to play in the inter-sectional game with the University of Chicago Saturday.

Scholastic difficulties had threatened to keep the gridiron star out of Saturday's lineup.

Official ruling holding illegal a play which Morrison said had been used this season by Rice Institute and other Southwestern football teams.

In a telegram to E. K. Hall, New York, chairman of the national football rules committee, Morrison asked for a ruling on the play which he described as follows: "Quarterback reaches under center, takes ball and while he is slowly pulling it back, center, still in position in front of quarterback, reaches back and takes ball from quarterback's hands and carries ball forward."

Hall, in his reply, said the play was illegal. Morrison said he would turn the ruling over to Joe Utav, head of the Southwestern board of football officials.

Rice Play Is Ruled Illegal For S.M.U.

Around The Sports Horn

BY BILL PARKER Associated Press Sports Writer BEDFORD'S VIEW

Southwest conference football will recall Gene Bedford, former Southern Methodist player, as one of the greatest ends to catch a pass in the conference. Gene's chief claim to current fame is in all the times he has carried the ten yard chain for the Mustangs they have lost only one game—that to Notre Dame.

Gene was on one end of the chain Saturday during the Southern Methodist and Texas game. His sideline view of the game is interesting. Discussing the game, he said: "Southern Methodist several times played rather dumb football by employing the wrong play when in scoring position. Twice on the four yard stripe, the Mustangs tried power plays when lateral passes would have been more effective. If not passes, they should have tried at least an end run or two."

"In my opinion, Koontz, S. M. U. wing who played a defensive back and offensive end, turned in the best game of his career. Tate and Jamison were outstanding linemen. Tate is probably one of the best line stars in the conference. He gets very little credit for his work. "Southern Methodist should not be criticized for failure to beat Texas by a larger score. The Texas game is always the hardest to win. And remember that most of the second half was played with S. M. U. reserves in the lineup."

"The triple pass play that scored Texas a touchdown also worked against Harvard. It is a thriller, but worked only once in numerous attempts."

"I expect to see the Mustangs develop more power as they go along. Bert Baxter of S. M. U. will eventually win recognition as one of the finest running backs in the conference."

Gene plans to arrive at College Station next Saturday in time to carry one end of the ten yard chain.

A HARD BLOW The Texas Christian Frogs were dealt a severe blow on the fourth play Saturday against Arkansas. Ben Bowwell, last year all-Southwest conference tackle, went out of the game with an injured knee. An examination at Fort Worth Monday revealed torn ligaments to the extent that Bowwell was piffed on crutches and will be definitely out of the lineup for two weeks or more.

Texas Christian needs all power possible with Rice, Texas, Baylor and Southern Methodist scheduled in order.

HIS CHANCE Jacy Frye, brilliant running Rice halfback, is being touted as an all-conference possibility. Jack is one of the leading scorers with five touchdowns for thirty points. He scored a pair of touchdowns against Southern Methodist and followed with two against the University of Arizona.

Saturday at Fort Worth, this Frye boy will have a further chance to make himself a serious bidder for an all-conference position against the Texas Christian line, one of the heaviest and strongest in the conference.

This mighty front wall stopped the rushes of "Frenchy" Domingue, flashy Texas A. & M. halfback. It halted the touchdown march of Homer Ledbetter, powerful running Arkansas fullback who had scored five touchdowns and was tied for the conference lead until he bumper into the T. C. U. line. If Frye can plow, run or weave his way through the T. C. U. line for a touchdown he will have accomplished something.

THE WHIRLPOOL Previous attendance records at Southern Methodist were erased when approximately twenty-four thousand saw the Mustangs score a safety to beat Texas.

A new attendance mark is expected at Fort Worth Saturday when T. C. U. and Rice play. Welton Mason, speedy S. M. U. halfback, will vouch for the fact that Ernest Koy, Texas University fullback, can tackle. Mason left the game with an injured side Saturday when Koy tackled him in the second period.

S. M. U. has scored 72 points in three conference games. "Baldy" Oliver has scored 36 of the 72 points.

Survey of Program of T.F.W.C. Convention To Be Held In Lubbock

Program to Commence Monday Morning and Conclude With Historical Pageant Thursday Evening; Many Interesting Features Planned

Monday morning, at 9 o'clock, the 34th annual convention of Texas Federation of Women's Clubs begins in Lubbock with a meeting of the board of directors in the Chimayo Room of the Hilton Hotel.

The features of that day will be a luncheon for delegates at the Hilton Hotel given by the Lubbock Chamber of Commerce and a tea in the afternoon at the home of Dr. and Mrs. P. W. Horn, president of Texas Technological College.

Monday evening's program at the Hilton will be a welcoming program of talks and musical numbers.

The convention will formally open Tuesday morning at the Hilton, which will be its headquarters. The program will consist of reports and addresses. Many of the women on the program are those of the Sixth district whom Big Spring women met here this spring, such as Mrs. H. Hageman, Mrs. Greenleaf Bask, Mrs. W. R. Potter, Mrs. John Perry, Mrs. J. L. Young.

The Monday luncheon will be the junior membership luncheon.

In the afternoon the reports of the districts will be concluded. "Rural Club Women"

Mrs. Phoebe K. Warner will give an address on "The Rural Club Woman."

The Pioneer dinner will be held in the evening at the Hotel Lubbock, honoring past presidents, life members of the Board and all pioneer members.

The evening program will be the arts program, with Mrs. J. J. Young presiding. The divisions of music, art and literature will present numbers and the award will be made for the best year book. Miss Rebecca Smith of TCU will give an address on "Literature of the Southwest."

Wednesday

On Wednesday morning, the special committees will begin their reports. This offers an opportunity for club women who are particularly interested in certain phases of activities, to learn what is being accomplished by other clubs throughout the state. The reports cover community service, farm relief, motion picture, radio program, war veterans, health, public instruction, physical instruction, state educational institutions, literary conversation of natural resources, parks, etc.

There will be short morning addresses by R. J. Murray, general manager of the Texas Cotton Cooperative Association, Dallas; Dr. H. W. Morelock, president of Sul Ross State Teachers' College, Alpine; H. W. Stanley, director of Trade Extension Division of Dallas Chamber of Commerce on "The Mile Stones of Public Health in America."

On Wednesday noon there will be the Thanksgiving luncheon at the Hilton Hotel.

"The Adolescent Girl"

The chief afternoon address will be given by Dr. Jessie L. Herrick, resident physician of the Texas State College for Women, on "The Adolescent Girl."

The election of officers will be held on Wednesday afternoon from 4 to 6 in the anteroom of the Methodist church.

The chuck wagon dinner will be given at 6 o'clock on the campus of Texas Tech by the courtesy of the Lubbock Chamber of Commerce. After the dinner the evening program will include a Washington Bicentennial; Celebration and an address on Washington by Dr. P. W. Horn.

Thursday—Last Day

On Thursday morning the departments of press and publicity and of public welfare will have charge of the program and give reports on their various objectives. Mrs. Walter McNab Miller will give an address on "New Ways to Solve Old Problems."

The Thursday luncheon will be the Friendship Luncheon.

In the afternoon the department of American Home will give its reports, with an address by Mrs. W. S. Pritchard, director of the department of the National Association of Life Underwriters of New York on the subject, "So That Women May Know." Officers for the coming year will be installed.

The convention will be concluded by the Texas Dinner at the Hilton at which Mrs. Ruth Pirtle, of the department of Speech at Texas Tech, will present an original historical pageant, "Texas Under Six Flags." At this time the jury will award the \$500 cash purchase prize for the best oil painting. The paintings will be exhibited during the convention.

WIVES ARE MEMBERS

The names of Mrs. D. R. Lindley and Mrs. Ed Pritchard were unintentionally omitted from the list of T. C. U. ex-students who attended the meeting Tuesday evening. Both their husbands are officers of the organizations, but both the wives are also members.

A PLEASING SCHOOL FROCK

7302. Check woolen in brown and red tones was used for this pleasing frock. Graceful fullness is created by means of panel insets, each with plait extensions at the seams. A neat collar and tie trim the neck edge. The sleeve is full below the elbow, and is gathered to a band cuff. A narrow belt holds the fullness of the dress at the waistline.

Designed in 4 Sizes: 6, 8, 10, and 12 years. To make the Dress as shown in the large view will require 2 1/2 yards 35 inches wide for a 10 year size. Collar, tie, cuffs and belt in contrasting material will require 1-2 yard. The tie of ribbon will require 1 yard.

Pattern mailed to any address on receipt of 15c in silver or stamps by The Herald.

Send 15c in silver or stamps for our UP-TO-DATE BOOK OF FASHIONS, FALL 1931.

Benefit Bridge Party To Be At Crawford

The Altar Society of the St. Thomas Catholic church will give a benefit bridge party Monday evening in the ballroom of the Crawford Hotel. Mrs. Max Boyd and Mrs. Mary O'Neal will be the hostesses for the evening.

Four attractive prizes will be given, according to the announcement. They will be for high and low for both men and women.

The public is invited.

RECITAL TONIGHT AT 7

Mrs. Lee Weathers and Mrs. E. F. Houser, who will give a joint recital, presenting their pupils in music and expression tonight at the ballroom of the Crawford hotel, have announced that the hour has been changed to 7 o'clock, instead of 7:30. This has been done to make it possible for the audience to attend the Womanless Wedding at the High School auditorium at 8 o'clock.

BEWARE THE COUGH OR COLD THAT HANGS ON

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified crocotein that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, crocotein is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to crocotein, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the crocotein goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold, no matter how long standing, is not relieved after taking according to directions. Ask your druggist. (adv.)

News Notes From The County Clubs

Pauline Skinner, wardrobe demonstrator of the Luther club, found out this year she could save money by making her clothes, rather than buying them ready made, and by carefully planning before she bought articles she could not make. By using her foundation pattern she made six wash dresses, suitable to wear to the club and to town, saving \$9 over the cost of ready made ones. She saved \$1.75 by making part of her underwear, \$12.50 by carefully selecting her shoes, and \$2.50 by watching for values on hats, and by wearing a tam.

This demonstration has saved her a total of \$25.25 this year. She plans to start making wool and silk dresses next year. She won first in the dress contest in June.

Mrs. John Smith of the Hiway club has 656 containers on her pantry shelves in her cellar at present time. They are arranged so that while she is sick, her six year old boy can get a can of each kind of vegetable needed for a balanced meal, in addition to the meat, fruit, preserves, and relish. She has canned many more containers this year, but uses out-of-the-cellar daily.

Dewey Martin, of Hiway, planted a small spot, less than a half acre, of blue out cotton land in pinto beans, from which 400 quarts have been canned. These beans have a value of \$100, the cans cost \$16, making a profit of \$84.

James Underwood, 11-Year-Old Singer To Be Heard Tonight

Instead of A. E. Underwood, the singer announced for the introductory songs at the Womanless Wedding which will be held tonight at the high school auditorium will be James Underwood, 11-year-old son of W. A. Underwood. James is creating a reputation for himself with his sweet, musical voice. Mrs. R. L. Gomillion, director of the wedding, declares this should be one of the leading attractions.

The hour of the wedding is 8 o'clock. Admission is free.

Ladies' Aid Formed By Lutherans

Mrs. C. Scott Is Elected President of The Organization

Ten women of St. Paul's Lutheran church assembled in the home of the pastor, the Rev. W. G. Buchschacher Wednesday afternoon and completed the organization of a Ladies' Aid.

The following officers were elected: Mrs. C. Scott, president; Mrs. H. Carmack, vice president; Mrs. G. Oppgaard, secretary; and Mrs. E. Lange, treasurer.

Strange Disease Brings An End To Princess' Romance

Copyright 1931 By United Press PARIS, Nov. 5 (U.P.)—The engagement of Princess Beatrice, daughter of exiled King Alfonso of Spain, and Prince Alvaro De Bourbon-Orleans has been broken because she is a carrier of a disease which also blasted the romantic dreams of her younger sister, Princess Christine.

Alfonso, the "last of the Bourbons," has forbidden the marriage because of the discovery that both of his daughters are carriers of haemophilia, the hereditary scourge which has affected the Bourbon line.

Princess Beatrice, whose wedding date was first set for October and then for December, and her sister are not sufferers from the disease but they could transmit it to their children.

Haemophilia is a condition which makes the blood incapable of coagulation and the afflicted—such as the last Tsarovich of Russia or the Prince of Asturias, eldest son of Alfonso—might easily bleed to death because of a minor cut or bruise which would break the skin.

The plans for the marriage of Princess Beatrice and rumors of the engagement of Princess Christine to Prince Alvaro and his brother, Alfonso, had given the royal family's place of exile at Fontainebleau an atmosphere of romance for many weeks.

Princess Beatrice was sewing on her wedding clothes and planning to go to Switzerland with her young fiancé to permit him to complete his engineering studies at Zurich after their marriage.

Then Alfonso made a trip to London and few days later Beatrice followed him. They consulted two London specialists and were informed both daughters would be certain to transmit haemophilia to any male children.

The former monarch immediately decided he was not willing to assume responsibility for the marriage of his daughters under such circumstances.

An operation to end danger of transmission of the disease was rejected by the exiled king because of his deep religious scruples.

The princess and her fiancé were desperate and almost all members of the royal family brought pressure to bear on Alfonso in an effort to force him to change his decision. It was said they still held hope he would relent.

SHIPWRECKED ADVENTURERS SAFE

This trio of adventurers, found by a United States gunboat on lonely Coconos island in the south Pacific, are shown in their boat which existed until they were found. Left to right: Elmer J. Palliser, San Diego; Paul Stachwick, Huron, S. D. and Gordon Brawner, Spring field, Ill.

Panhandle Wheat Crop Was Above 60,000,000 Bushels, Records Show

AMARILLO, Texas, Nov. 5 (U.P.)—Figures released by the railroads indicate that the 1931 Panhandle wheat crop exceeded 60,000,000 bushels.

The three railway lines, the Santa Fe, Fort Worth and Denver and Rock Island have handled 40,382 car loads of wheat from Texas points in the territory north of Lubbock. Figured on an average for 1930 bushels to the car, more than 57,000,000 bushels already have been shipped.

Grain men estimate that 5,000,000 bushels or more is still stored on the farms and in elevators.

It is known that some of the border towns handled wheat brought from New Mexico and the Oklahoma Panhandle, but a maximum allowance for that brought across the line would still leave more than 60,000,000 bushels for the Texas Panhandle, north of Lubbock.

It was by far the largest wheat crop ever harvested in this territory. The yield of 1930 was doubled and the former record crop of 1925 was exceeded by 18,000,000 bushels.

The acreage was estimated at 2,750,000.

NORDHEIM, Texas, Nov. 5 (U.P.)—Tax collector Fritz Poetter, opening the tax-gathering season for DeWitt county, here collected \$4,950.56 in property taxes and wrote 109 poll tax receipts. A year ago \$4,358.09 property taxes were collected and 101 poll tax receipts issued.

While this year's initial payments break the record, it is expected that there will be a heavy delinquency at the end of the season.

Franciscans Return To San Antonio Shrine After 138 Years Away

SAN ANTONIO, Texas, Nov. 5 (U.P.)—The Franciscans are back in San Antonio.

Surrounded by the adobe walls which protected their predecessors while they ministered to the sick and soothed the sorrowing 200 years ago, the Sons of St. Francis have taken possession of beautiful old Mission San Jose after an absence of the order from the shrine for 138 years.

The old mission, most beautiful of the places of instruction and worship created by the Franciscans in 1730, had fallen into disuse. The holy chapel had been thrown open to visitors as a show place.

Although the friars of two centuries ago built some of the most beautiful missions in America, they did not own or come into temporary possession of a foot of the land.

Formal presentation of the old mission to the Franciscan order was made at ceremonies here recently by the Most Rev. Arthur J. Droescaerts, archbishop of San Antonio, who licensed the cornerstone of a new monastery recently completed at a cost of \$2,000.

Three members of the order present at the ceremonies were the Very Rev. Vincent Schrepp, O. F. M., provincial of the Sacred Heart province; the Rev. Bonaventura Alering, O. F. M., superior of the San Jose mission; and the Rev. F. Emery, O. F. M.

Waco School Board To Decide Whether To Have Gym Dances

WACO, Texas, Nov. 5 (U.P.)—At its meeting two weeks hence, the Waco city school board is to act upon the recommendation of Principal E. T. Genheimer of Waco high school that school dances hereafter be permitted in the high school gymnasium.

Meanwhile, the school board is making a survey of public opinion in the matter before taking final action on Genheimer's recommendation.

Cotton Concentrated In South Plains Towns

LUBBOCK, Texas, Nov. 5 (U.P.)—More cotton has been concentrated in Lubbock and at other concentration points in the South Plains this year than ever before, local cotton men declare.

There are several contributing factors to this situation: first, concentration at ports in Texas, notably Houston, Galveston and Texas City; second, reduction of cotton freight rates; third, concentration on the part of the federal government in the collection of drought production loans.

San Antonio Honors Memory of Jurist

SAN ANTONIO, Nov. 5 (U.P.)—Flags on the court house were at half staff for the funeral of Samuel G. Newton, 75, former district judge and for 55 years an attorney here.

Judges of the district and appellate courts here were honorary pallbearers.

Survivors include his widow, Mrs. Annabel Bellknop Mackey-Newton, whom he married in 1923 as his second wife; two sons, S. G. Newton of San Antonio, and Jesse I. Newton, Cuero; a daughter, Mrs. Clinton Padgett, Waco; two sisters, Mrs. W. Cassin, San Antonio, and Mrs. E. Prige Cross, Dallas; and a brother, Tom J. Newton, San Antonio.
