'GET TOGETHER!' HARDING TELLS MINE FACTIONS

Sixty Operators and Union Officials Gather to Plan End of Strike.

By Associated Press.

WASHINGTON, July 1.—President Harding in convening the conference of coal operators and mine workers' officials at the White House today to develop means of settling the nationwide coal strike, called on both parties to arrange with promptness at an understanding "for your mutual good and your country's common good."

The President, addressing about thirty operators, the same number of union officials and Secretaries Hoover, Davis and Fall, declared the present no time "for militant stands of radicals" and reminded the conferees that "tolerance, fairness, the spirit of give and take, and finally the good of the larger obligation to the public should dominate the contentions of both sides."

With his appeal, the President uttered what was regarded as a warning when he said if the operators could not get together "in frank recognition of your interests," then the government must take whatever steps are necessary in the public interest.

Lewis Stands Pat.

President Lewis of the mine workers made an address during the session and Secretary Hoover intervened in the discussion.

Lewis' demand is understood to be for a reconstruction of the joint conference between the union heads and operators in the central field. Chairman Ogell made some remarks but the attitude of the operators had not been made clear when temporary adjournment was taken at 2 o'clock.

SPEEDUP JUDGE AGAIN SEEKING PLACE ON BENCH

EL PASO, July 1.—A. J. Harper, of this city, former judge of the court of criminal appeals is again a candidate for that office. During his former term of office Judge Harper succeeded in cutting down the length of time required to dispose of an appeal from one year to thirty or sixty days, and his re-election is sought by many of the Texas bar to remedy the situation again.

Judge Harper was born in Mississippi, but came to Texas in his childhood, and grew to manhood in Limestone county. He worked as a printer and then publisher of the old Mexia Ledger.

While yet a young man he took up the study of law and was admitted to the bar in 1890. He opened his law office at Mexia and after practicing a short time he became a member of the firm of Gibson, Doyle & Harper.

He was elected county judge and served three consecutive terms, when he was elected state senator by this district, which he served for three terms. During his last term as state senator he was elected judge of the court of criminal appeals, which position he filled for six years.

Clears Docket.

When he was elected judge of the court of criminal appeals that court was far behind with its docket and there was talk of creating another court to aid it in its work, by establishing a commission of appeals, as has been done to aid the supreme court. But Judge Harper soon caught up with the docket and the necessity of creating a commission of appeals for that court was avoided. To do this Judge Harper had to do and was willing to do the principal part of the work, writing 48 per cent of the opinions handed down by the court during his six-year term. The other two members writing only 52 per cent or 26 per cent each.

Since Judge Harper's retirement the court has again gotten behind with its work and there are cases now on appeal that have been pending from six to eight months.

TUXPAM CAMP SEIZED BY MEXICAN BANDITS

By Associated Press.

BURGLARS SHOP CAREFULLY IN RAID ON MAIN STREET ARMY STORE

"The next ones that come in, won't go out again," M. T. Star, proprietor of the Army store on Main street, promised this morning as he surveyed the hole in one of the side windows where burglars had entered last night and dressed themselves in their exact sizes from B. V. D.'s to neckties.

"Tell them that they are taking their lives in their hands if they ever come again," Mr. Star reiterated.

Entrance to the Army store was effected through breaking a

side window opening on an alley, some distance from the ground. A dry goods box was used by the thieves in reaching the windows. Although no check-up had been made this morning, the proprietor reported that several suits of clothing were missing, together with several pairs of shoes, shirts, underwear, etc. From the manner in which the clothing had been scattered around the store it was evident that the thieves spent some time in searching for their exact sizes.

CANVASSING IN CITY ELECTION STARTS LONG BEFORE DAYBREAK

Voters Maintain Rate of One a Minute All During Morning, With Heavier Flow Expected in Afternoon; Both Factions Circularize Town, Operate Cars.

At noon today Ranger was voting at a rate faster than one a minute in the special election called to fill the vacancy in the office of fire and police commissioner. The voters began arriving closer together as the noon hour approached and a rush on the polls is expected during the late afternoon and early part of the evening until they are closed. Many of those voting this morning were women, but the greater part of the women's vote is expected late this afternoon, when household duties have been completed.

The polls at the Central fire station on Elm street opened at 8 o'clock this morning and will close at 7 o'clock. The election officials are O. D. Dillingham, presiding judge; T. E. Baker, judge; Dr. A. L. Duffer, judge; Jake Friedman, and Ollie Ballard, clerks.

Interest Runs High.

Over the business section and residential districts the interest in the election was running high and supporters of H. S. Cole and A. R. Right were hard at work to corral votes. The entire residence section of the city was canvassed before daybreak this morning by the men whom Cole led in the war against the bootleggers and an "Election Extra," published

by the Citizens' committee was left on every doorstep or in every mail box. A crew of boys were also sent into the residence section carrying hand-bills advocating the election of Right.

The Cole supporters early this morning opened Cole headquarters in front of the First National bank on Main street with a special telephone installed. Cars bearing the banners and cards of both candidates were in constant use.

Women Appealed to.

The "Election Extra" put out by the Citizens' committee stressed the importance of the law-abiding element lining up for Cole and contained a special appeal to the wives and mothers of the city. Cole's platform and his record were also set forth. The extra was prepared in newspaper style and printed on a single sheet.

A big mass meeting of women was called yesterday for this afternoon at 3 o'clock at the Majestic theatre, and all interested in the city election were urged to attend. The self-appointed committee of Ranger women making the call announced that a spicy program has been prepared, consisting of election speeches and entertainment features.

HAIRCUTS AND SHAVES DOWN

Effective today, the union barber shops of the city reduced their prices for haircuts and shaves from 65 and 35 cents respectively to 50 and 25 cents. The cut was announced by the barbers last night following a conference with the employees.

It was explained that the journeymen barbers had voted to make the price reduction at a meeting last Monday but had been waiting until several of the proprietors, who were away, had returned and could be called into conference.

I. C. C. SAYS COTTON RATES ARE DISCRIMINATORY

WASHINGTON, July 1.—The entire fabric of the new rate schedules on cotton from Mississippi valley to consumption points through seaboard points and northern cities, ordered last fall, was set aside today by the interstate commerce commission. A revised system of new rates was requested, to "carry out the spirit of the long and short haul clause" of the commission's regulations. The proposed schedules gave lower rates for water outlet points which were lower than those for a shorter distance on the same lines and consequently were considered discriminatory against inland points.

PASTOR TO FORM FLOCK FAR FROM CORRUPT WORLD

WINCHESTER, Va., July 1.—Convinced that modern life is corrupting and spiritually demoralizing, and that church members themselves are not living up to the right standards, the Rev. M. Allen Stickley, until recently pastor of a group of churches of the Deciples of Christ, announced Sunday plans to set up a "real Christian community" in Patrick county. Those who join in the movement, he said, intend to dwell together according to their conception of the manner in which the scriptures require Christians to live.

The leaders of the movement have acquired a tract of land in Patrick county, it is said, and the colony will start with about fifty members from Georgia, Virginia, Ohio, Pennsylvania and West Virginia.

CHILD STAR WITNESS AS FATHER IS TRIED FOR SLAYING MOTHER

CHICAGO, July 1.—Lillian Condon, 14 years old, from whose otherwise childish face the smiles have been driven by the horror of what she saw, will be the star witness against Michael Condon, her father, who is on trial for the murder of her mother.

The girl was the sole witness to the crime and her testimony may hang her father. Lillian says her father had been beating her mother for a long time. On the evening of Jan. 6 Mrs. Condon prepared supper at the usual hour but her husband, who was with a drinking party, came home an hour later. When he found the supper had cooled he cursed and beat his wife and left the house in a rage.

Returning at 10 o'clock he gave his wife another beating, Lillian and the other children being awakened by her screams. Condon ordered them to get back to bed and close their door, but Lillian, peering from behind the living room door, saw her father stab her mother to death.

The defense will be that Mrs. Condon was attempting to stab her husband and that she was accidentally cut as he struggled with her for the knife.

TROOPS RUSHED TO TAMPICO TO STOP BANDITS

By FREDERICK G. NEUMEIER.

Copyright by the United Press.

TAMPICO, July 1.—Federal troops were rushed to the Tampico oil fields today to hold off the rebel Gorozave, who has threatened to return tomorrow to levy tribute on American oil companies. Three hundred and fifty cavalrymen arrived from the south. A detachment of 150 infantrymen was sent from Tampico. It is reported that 1,000 additional soldiers have landed after being transported by boat from Vera Cruz.

Leaders of the federal troops here believe they have the situation well in hand.

Returns Tomorrow.

Gorozave, who held fifty Americans prisoner at the Cortez Oil company's Aguadale camp and later held eighty-five prisoners at the Pecaro camp of the La Corona Oil company, is commanding the revolutionists in this district. He has announced that he will return Sunday to collect 15,000 pesos at each camp, or will seize the property. It is believed, however, he will not make good his boast because of the presence of the federal troops. Gorozave explains that he is collecting the funds for a new revolutionary movement which has as its object the restoration of the constitution of 1857.

Mr. Neumeier is manager of the Dallas bureau of the United Press and was sent to Tampico several days ago to report on the situation there.

Speakers declared that members of other railroad organizations which have not ordered a strike would voluntarily quit work in sympathy with the shopmen. They predicted a complete tieup of the nation's railroads if the strike continues as long as one week.

JOBS FOR BANDMEN.
The Merchants' Association band, organized only a few months ago, under the direction of Pop Endicott has rapidly become a community asset. It is now pleasing large crowds twice a week with its concerts, and as time passes will contribute even more to community enjoyment, as the beginners improve in efficiency.

One thing about a band, however, is that its members must be of a permanent character, especially for certain essential instruments around which the organization is built. Permanence requires positions, and those employers who enjoy the band and want to help it, can help in this way. Small towns do it successfully, and Ranger can as well, by filling positions with men who can play in the band. There are three band members and who need work. One is employed, but is working twelve hours a day, which makes horn tooting rather arduous.

Now if an employer has a place to fill, and these men can fill it, why not get together with Pop and have them sent around? They are helping make Ranger a better town and this would be one way of expressing appreciation that would cost nothing. Also, when it is necessary to send out of town for an employee, why not say, "Pop, what kind of a saxophone player do you need now?" Then an effort can be made to get a man who will fill both bills.

Small towns which boast prize bands do that. But there is no reason why larger towns should not follow their example.

FOUR COMPLETIONS IN STEPHENS DURING WEEK

BRECKENRIDGE, July 1.—The last week gave Stephens county field four completions, with a total initial production of 3,735 barrels daily. The Magnolia people got a little better than one-third of this, that company bringing in two wells with a total daily flow of 1,135 barrels.

The largest single well of the four was brought in by the Texas company on its J. W. Parks lease. It is making 2,100 barrels at a depth of 3,138 feet.

The Magnolia company announces two new locations made during the week and rigs will be erected immediately. New locations announced are Rush No. 11 and Guest No. 5. Good wells were brought in this week on both of these properties. The Rush lease is in the Curry pool southwest and the Guest lease is five miles east of this city.

Pierce No. 1 was boxed up Thursday preparatory to bringing in the well. This well is located in block 27, Breckenridge, just across the street from the postoffice, and is the only well drilling in the townsite. There is some conjecture as to what this well may do, some thinking that the pool in the city limits has been drained by the many wells that have been brought in. The Y. M. C. A. well, one block from the Pierce No. 1, is said to be making about forty barrels daily. This well came in more than two years ago. The Pierce No. 1 was taken over recently by the Revere Oil company.

Last week eight new rigs were built near Eliasville and two new locations made. Four new rigs were erected on the Adkins and Hill leases by the Mid-Kansas company. The Prairie company has two new rigs and the Gulf company has put up one new rig on Kloth No. 3 location. One new rig has been placed on the Katy Bell.

DOG HILL PARAGRAPHS

By GEORGE BINGHAM

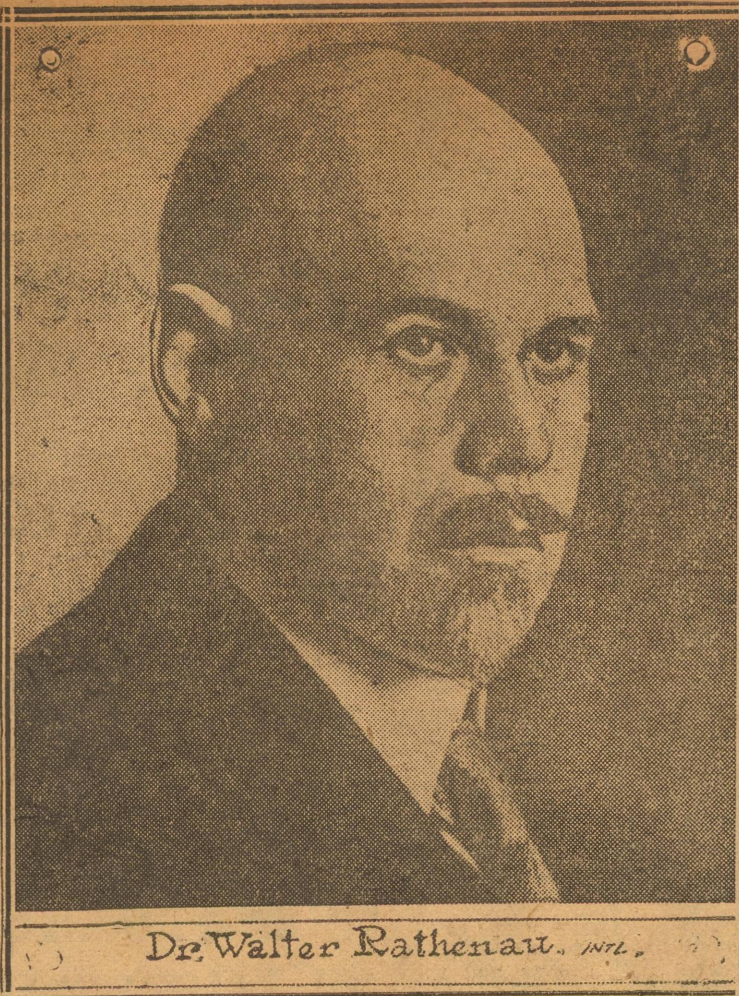

That strange noise which some mistook for a hound dog howling and which issued from the stable Tuesday afternoon, turned out to be none other than our highly esteemed vocalist, Sidney Hocks, who is trying to learn to sing.

This morning Washington Hocks recalled the contest when a prizewas given at the school house to the person who could keep a feather in the air the longest by blowing at it. Poke Eazley says a feather accidentally got directly over one of his wife's conversations once and didn't light for an hour.

It was he who secured the consent of France to permit part of the indemnity to be paid in goods instead of gold.

DEADLY GERMS MENACE CAMPUS AFTER U. C. FIRE

BERKELEY, Cal., July 1.—Scientists are attempting to recapture the numerous millions of microscopic monsters called germs which escaped to the unoffending campus of the University of California here when Hearst Hall burned. Not only were bottles filled with the most deadly of known germs broken and washed hither and yon by the streams of water, but goats, rats, rabbits and guinea pigs, inoculated with other germs, were released. Many of the animals still are at large and an effort is being made to round them up. A professor of bacteriology said he did not think the germs would harm anyone.

On the seventh day the party will visit the Perry monument at Yokohama and the American-Japan Friendship Relations committee will give a dinner.

KENTUCKIAN HELD FOR SWEETHEART'S MURDER

FREEPORT, N. Y., July 1.—In an impromptu court held just before daylight, in a room adjoining that in which Edythe Lavoy, 22-year-old school teacher of Tupper Falls, N. Y., died by a bullet, William Creasey, 30, of Covington, Ky., was arraigned on a charge of murder in the first degree. Creasey pleaded not guilty and was held for the grand jury. He was taken to the Mineola jail to await trial.

One of the most important elements in the case against Creasey will be an attempt by the prosecution to prove that he changed the position of the body of the victim so as to lend credence to his statement that Miss Lavoy had taken her own life.

An address book containing names of about twenty women in various parts of the state was found on the Kentuckian.

STEPHENS STARTS WORK ON SURFACING HIGHWAY

BERLIN DEATH CAR DRIVER CONFESSES

BERLIN, July 1.—With his mother sitting beside him, pleading with him to tell the truth, Werner Teschow broke down and confessed to the police that he drove the death car from which Dr. Walter Rathneau was assassinated a week ago.

Teschow's mother is a proud old-school Pan-German, but she told him, as they sat with Police Chief Richter, that despite her views about the German republic, she could not approve of anyone taking affairs into their own hands as the slayers of Rathneau had done. She begged him to confess whether he had had any part in the murder.

GASSER AT EASTLAND
EASTLAND, July 1.—The Lake Eastland field was extended two miles southwest Friday when the Lod Mosco well being drilled by Rambeau company three miles west of here, struck the sand at 3,200 feet and came in a 5,000,000-foot gasser. It is situated just one mile south of the Kinnebrew which struck the same sand and made a 6,000,000-foot gasser.

WOMAN, 36, NOMINATED FOR SENATOR

Mrs. Anna Dickie Olesen. U.S.O.

To the country she may be Anna Dickie Olesen, but to the 8,000 inhabitants of Cloquet, Minn., she will always be Mrs. Peter Olesen, though even her husband, superintendent of schools, insists that "Anna Dickie" be substituted for "Mrs. Peter" when she is referred to in the newspapers.

For this charming little 36-year-old woman, the mother of a 14-year-old daughter, Mary, has won the Democratic nomination for the U. S. senate, with only \$500 campaign expenses. She is the first woman to win the nomination from a major political party. Opposing her in the November election will be Frank E. Kellogg, Minnesota's junior senator, who won the Republican nomination.

WOMAN BADLY BURNED IN DALLAS EXPLOSION

DALLAS, July 1.—Mrs. Jennie Walker, 25 years old, was seriously injured by an explosion which wrecked the photographic studio of Walter Conoughton, south side of Elm street near Ervay, at 6 o'clock Friday evening.

Chemicals exploded, throwing flames about the face and body of Mrs. Walker. Heroic work by Mrs. Willie E. Clawson, a dressmaker on the same floor, probably saved the life of Mrs. Walker. The explosion's force jarred Mrs. Clawson's door open, and, as she dashed into the hall, she saw Mrs. Walker running about the studio, her clothing burning.

Mrs. Clawson threw Mrs. Walker to the floor and extinguished the flames before firemen arrived.

CASSADAY WELL AT DESDEMONA DUE IN

Cave Man Stuff

BACK near the beginning of things, our prehistoric forebears would have perished from the earth if they had not understood the science of reading advertising.

The cavemen didn't know much about underwear, hair tonic or phonographs, but they did have to eat. The one who could follow the tracks of the game he hunted, or read the meaning of a twisted leaf or broken twig, was best off in life.

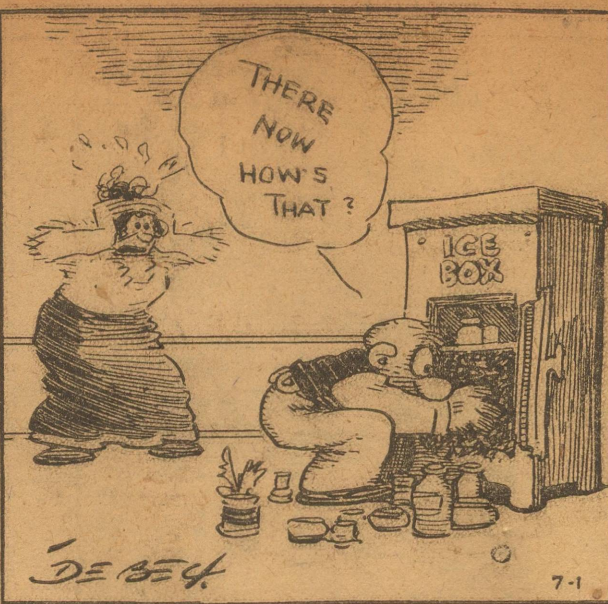

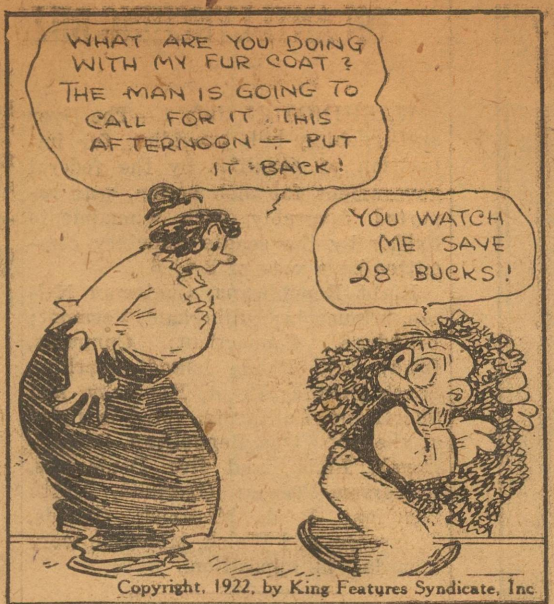

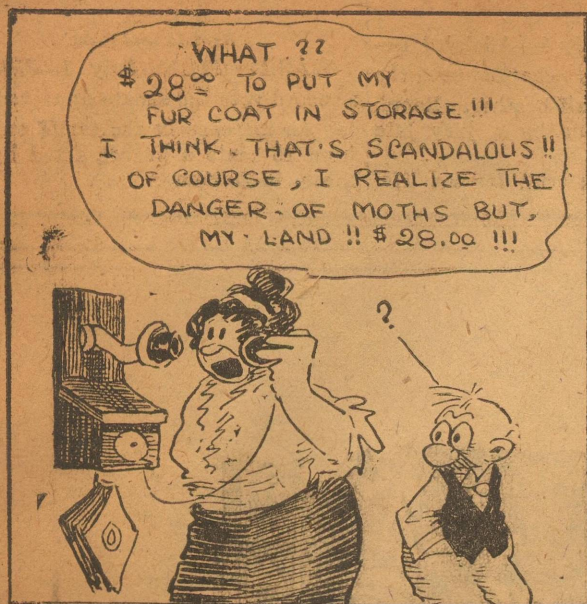

Then as now, the most consistent reader of advertising was best dressed, best fed and most contented. There has been something of an evolution in advertising in the last few thousands of years, but the principle is just the same.

The consistent reader of the advertisements is invariably best informed on what to eat and where to get it; what to wear and how much to pay for it; what to do and how to do it. He's up on the most important things in life. Consequently he gets most from life.

Throughout the ages, advertising has done much to make life livable and pleasant. We owe it much.

Let's make the most of it.

DOCKERY'S TRIPLE IN NINTH DRIVES TWO RUNS ACROSS, WINS 6-5 GAME

Thurber Stars Assist Nitros in Ferociously Fought Ball Game.

When Speck Dockery smeared the green paint of the club house with a terrific smash in the second game of the Lubbock series, he won a ball game for the Nitros, 6 to 5. It was the crowning contribution to a wonderful session of baseball, in which both teams flailed ferociously and fielded flashily.

Two men were on the bags when Dockery made his long range shot, and the Nitros were one behind. Ed Ammons, batting for Zapalac, had led off with a single to left. Dude Craig on a mixture of hit and run and sacrifice play, laid the ball down toward second base and beat it out, as Battle had moved over to cover the base. Jimmy Flagg's attempted sacrifice went wrong, as Cantrell gobbled up the ball and heaved to third in time to force Lybrand, who was running for Ammons, at third. Then came Speck's pinch poke.

Thurberites Help Out.

The Nitros were considerably strengthened yesterday through the services of Bob McKinnon and Gus Leedy of Thurber's fast semi-pro team. With this assistance, they were rounded out, and battled from start to finish, furnishing a galaxy of fancy spots and throws that downed the Hubbers' attack except in one inning. Bob and Gus won't be with us again, but their coming had a wonderful effect on the nine, as they proved the oft-made assertion that a couple more players would make the Nitros a real ball team.

That the gang had the old pepper was demonstrated in the opening round, when steady infield plays by McKinnon and Flagg prevented Hubber scoring in spite of two hits. They also hit twice in the third but were balked when Zapalac cut a runner at second on an attempted sacrifice, and Pyle's steel arm nipped Speegle at the plate.

Parson Right There.

The Parson, it might be mentioned, was a prominent citizen in the field as well as at bat. Some folk say he isn't fast, but they didn't see him go back of second yesterday and take a fly no one else could reach. And they didn't see him race over to the foul line and by a perfect throw to Flagg catch Brooks and nip a Lubbock rally in the ninth. Craig also made a long throw to third, later in the same round, that ended the inning. Both plays were full of action. The Nitros were the first to dent

the platter, they falling on Hiram Green for two runs in the fourth, on consecutive hits by Dockery, Pyle, McKinnon and Conley.

Untimely Triple.

Lubbock forged to the front in the sixth, when three fluky drives jammed the sacks with none down, and Guber cleaned them with a triple. Battle's sacrifice put Guber across with the fourth run. They added their last in the eighth, when Langford singled after his umps had called foul a drive on which Conley made a pretty play for the third out.

This time, the Nitros came right back, Dockery again leading off and Pyle's drive putting both around the circuit. Johnny King let the Parson's rap get past him and Battle heaved low in relaying the throw to third. When Conley reopened the rally with a single a Green was requested in Mr. Allen's usual gentle manner and soft voice to "Get out of there." Which he did. What happened to his successor has been told heretofore.

TEXAS LEAGUE CLUBS VOTE SPLIT SEASON

By Associated Press.

HOUSTON, July 1.—By a vote of five to three, the magnates of the Texas league voted today to split the 1922 baseball season, the second half to begin day after tomorrow. Fort Worth, Wichita Falls and Dallas, first, second and fourth in the running today, cast the dissenting votes. Beaumont, third place, voted with the clubs lower in the percentage list.

Announcement was made at the close of the meeting that a bonus of \$2,500 would be divided between the players of the pennant winning team. Fort Worth has won the first half easily, and if she wins the second, Jackie Atz's Cats will get the bonus. If another club wins the second half, the \$2,500 will go to the club winning the post-season series.

T. & P. RECEIVERSHIP BELIEVED NEAR END

DALLAS, July 1.—Reorganization of the Texas & Pacific Railway company and lifting of the receivership shortly will be perfected, it is currently reported in railroad circles here, following the return of J. L. Lancaster from New York, where he attended a meeting of the board.

While denying that his trip to the East had any connection with the matter, Lancaster said that it was his own opinion that the only stumbling block in the plans for the reorganization of the line and termination of the receivership is a suit now pending in supreme court.

The suit Lancaster referred to is one filed in 1916 by holders of \$25,000,000 worth of second mortgage bonds. The bond holders are said to claim that no interest had been paid on these bonds for years. The company contended that it had no net income to pay the interest. The company's contention was upheld in New Orleans, but the case was appealed to the supreme court, where a decision is expected at any time.

JOHNSON BOUT BARRED

By Associated Press.

HAMILTON, July 1.—The bout between Jack Johnson and Tut Jackson, scheduled for July 4 and transferred here when a court order prevented its being held at Washington courthouse, has been declared off.

Roland Miller, secretary of the boxing commission, said the fight would not be held because Johnson will not post his \$2,000 forfeit and because he demanded 33 1-3 per cent of the receipts. The local committee will recommend that the former heavyweight champion be barred from Ohio.

James Lane Allen is the only living American author whose birthday is observed in public schools of Kentucky.

Many Texas Towns Affected by Walkout; "Outlaw" Aid Threatened.

By Associated Press.

DALLAS, July 1.—The union shopmen of the Katy road walked out promptly at 10 o'clock this morning, in compliance with the strike order of the shop crafts. In addition to the large number employed at Denison, the shopmen left their work at Greenville, Fort Worth, Houston and other points along the line.

All of the union shopmen of the Texas & Pacific also quit work promptly at 10, it was announced by J. L. Lancaster, receiver for the road. About 700 men at Marshall and 1,500 at other points along the line from New Orleans to El Paso were affected.

Other points over the state where walkouts occurred included:

Amarillo, 350 men on the Santa Fe, Rock Island and Fort Worth & Denver.

Galveston, 90 men on the Santa Fe.

Palestine, 400 men in the I. & G. N. shops.

San Antonio, about 1,500 men on all roads.

Sherman, 40 men in Frisco shops.

"OUTLAW" WALKOUTS ARE PREDICTED AT HOUSTON

HOUSTON, July 1.—Strong indications that "outlaw" strikes will follow on the heels of the federated shop craft walkout were made at a meeting of railroad workers here last night. Speakers declared that members of other railroad organizations which have not ordered a strike would voluntarily quit work in sympathy with the shopmen. They predicted a complete tieup of the nation's railroads if the strike continues as long as one week.

The strike of the shop crafts took approximately 2,500 men out of Houston railroad shops when the walkout went into effect at 10 o'clock this morning.

DEAF AND DUMB YOUTH DROWNS IN LEON RIVER

GATESVILLE, Texas, July 1.—Henry, the 14-year-old deaf and dumb son of Charles Baumann of this city, drowned in the Leon river at the foot of Main street Friday. He and two other boys had a rope swing on a tree on the bank of the river and would swing out over the water and then land back on the bank.

Young Baumann swung out and without force enough to swing back to the bank fell in deep water.

All Rail Centers in East and Middle West Are Affected.

CHICAGO, July 1.—Thousands of railroad shopmen have dropped their tools today to join the nationwide strike call issued by the international presidents of the six shop crafts unions. Early reports indicated the shop mechanics and their helpers from the New England roads to the western transcontinental lines were joining in the walkout, with about 50,000 already reported to have quit work at midday.

While there was no complete check, scattered reports from Boston to Kansas City showed the strike had taken effect in the shops of nearly all important roads of the East and Middle West. Shopmen in the western states are expected to join in the movement as 10 o'clock arrived in their territory.

All shops in Chicago—largest shop center in the country—are closed. One hundred thousand men, it is estimated by union heads, went on strike here. Guards appeared as the men left work and were preparing to protect railroad property.

Walkout Is Peaceable.

The strike was carried out peacefully over the entire country except at Ivy City, Md., according to reports received at noon today.

The last-minute efforts of the railroad labor board to enter the strike yesterday afternoon failed when B. M. Jewell, head of the shopmen, refused to attend its sessions. Subpoena servers failed to locate him, although it is reported that he was closeted with the union chiefs in a room in a local hotel, in a conference which lasted until morning.

GUARDS ARE WHIPPED.

WASHINGTON, July 1.—Disorders in connection with the shop strike broke out at the B. & O. roundhouse at Ivy City, Md., near here, early today, when men said to be employees of the company drove away a detail of special guards sent to protect the property. They are said to have taken the guards for strikebreakers. A hand to hand tussle took place before the guards withdrew. No one was injured.

Extra guards are being placed around the principal railroad shops of the country because of the shopmen's strike it was learned in railroad circles here today.

ONE ROAD HOLDS MEN.

EAST ST. LOUIS, July 1.—One thousand men employed by the Toledo, St. Louis & Western railroad will not go out on strike because President Ross has refused to reduce wages. President Ross not only refused to reduce the wages of the shopmen, but of other lines of work at the present time. He gave as his reason that living costs had not returned to normal.

ELIZABETH, N. J., July 1.—Two thousand shopmen of the Central railway of New Jersey are on strike today. They took their tools and equipment with them when they left the shops last night.

ST. LOUIS, July 1.—Labor agencies here today began recruiting men to fill the places of striking railroad shopmen. The roads understood to be hiring men are the Wabash, Missouri Pacific and Illinois Central.

ONE RANGER MAN ON STRIKE

Only one railroad employee in Ranger was affected by the strike order of the shop crafts which went into effect this morning at 10 o'clock. G. F. Hall, car inspector here for the Texas & Pacific, walked out in compliance with orders of his union.

On the Hamon road none of the men employed was affected by the order it is announced, either in the shops or elsewhere, and train service on both roads is being maintained as usual.

By FREDERICK G. NEUMEIER.

Copyright by the United Press.

TAMPICO, July 1.—Federal troops were rushed to the Tampico oil fields today to hold off the rebel Gorozave, who has threatened to return tomorrow to levy tribute on American oil companies. Three hundred and fifty cavalrymen arrived from the south. A detachment of 150 infantrymen was sent from Tampico. It is reported that 1,000 additional soldiers have landed after being transported by boat from Vera Cruz.

Leaders of the federal troops here believe they have the situation well in hand.

Returns Tomorrow.

Gorozave, who held fifty Americans prisoner at the Cortez Oil company's Aguade camp and later held eighty-five prisoners at the Pecora camp of the La Corona Oil company, is commanding the revolutionists in this district. He has announced that he will return Sunday to collect 15,000 pesos at each camp, or will seize the property. It is believed, however, he will not make good his boast because of the presence of the federal troops.

Gorozave explains that he is collecting the funds for a new revolutionary movement which has as its object the restoration of the constitution of 1857.

Mr. Neumeier is manager of the Dallas bureau of the United Press and was sent to Tampico several days ago to report on the situation there.

PASTOR TO FORM FLOCK FAR FROM CORRUPT WORLD

WINCHESTER, Va., July 1.—Convinced that modern life is corrupting and spiritually demoralizing, and that church members themselves are not living up to the right standards, the Rev. M. Allen Stickley, until recently pastor of a group of churches of the Disciples of Christ, announced Sunday plans to set up a "real Christian community" in Patrick county.

Those who join in the movement, he said, intend to dwell together according to their conception of the manner "in which the scriptures require Christians to live."

The leaders of the movement have acquired a tract of land in Patrick county, it is said, and the colony will start with about fifty members from Georgia, Virginia, Ohio, Pennsylvania and West Virginia.

CHILD STAR WITNESS AS FATHER IS TRIED FOR SLAYING MOTHER

CHICAGO, July 1.—Lillian Condon, 14 years old, from whose other-wise childish face the smiles have been driven by the horror of what she saw, will be the star witness against Michael Condon, her father, who is on trial for the murder of her mother.

The girl was the sole witness to the crime and her testimony may hang her father. Lillian says her father had been beating her mother for a long time. On the evening of Jan. 6 Mrs. Condon prepared supper at the usual hour but her husband, who was with a drinking party, came home an hour later. When he found the supper had cooled he cursed and beat his wife and left the house in a rage.

Returning at 10 o'clock he gave his wife another beating, Lillian and the other children being awakened by her screams. Condon ordered them to get back to bed and close their door, but Lillian, peering from behind the living room door, saw her father stab her mother to death.

The defense will be that Mrs. Condon was attempting to stab her husband and that she was accidentally cut as he struggled with her for the knife.

Effective today, the union barber shops of the city reduced their prices for haircuts and shaves from 65 and 35 cents respectively to 50 and 25 cents. The cut was announced by the barbers last night following a conference with the employees.

It was explained that the journeymen barbers had voted to make the price reduction at a meeting last Monday but had been waiting until several of the proprietors, who were away, had returned and could be called into conference.

'GET TOGETHER!' HARDING TELLS MINE FACTIONS

Sixty Operators and Union Officials Gather to Plan End of Strike.

By Associated Press.

WASHINGTON, July 1.—President Harding in convening the conference of coal operators and mine workers' officials at the White House today to develop means of settling the nationwide coal strike, called on both parties to arrange with promptness at an understanding "for your mutual good and your country's common good."

The President, addressing about thirty operators, the same number of union officials and Secretaries Hoover, Davis and Fall, declared the present no time "for militant stands of radicals" and reminded the conferees that "tolerance, fairness, the spirit of give and take, and finally the good of the larger obligation to the public should dominate the contentions of both sides."

The President called on the striking miners and coal operators of the country to resume mining operations at once and then adjust their differences in joint conferences.

With his appeal, the President uttered what was regarded as a warning when he said if the operators could not get together "in frank recognition of your interests," then the government must take whatever steps are necessary in the public interest.

Lewis Stands Pat.

President Lewis of the mine workers made an address during the session and Secretary Hoover intervened in the discussion.

Lewis' demand is understood to be for a reconstruction of the joint conference between the union heads and operators in the central field. Chairman Ogell made some remarks but the attitude of the operators had not been made clear when temporary adjournment was taken at 2 o'clock.

HEAVY VOTING GIVES HIM 362 MAJORITY; COLE 643, RIGHT 281

H. S. Cole is fire and police commissioner of Ranger. His election by 362 majority over his opponent was announced immediately following the closing of the polls by election officials and brought an end to the tension that for the entire day prevailed over the city and resulted in the heaviest vote ever polled here in a special election.

Mr. Cole received 643 votes out of 924.

Until the last vote had been cast and the returns filled out by the election officials, neither side had any absolute assurance of victory and neither side allowed over confidence to bring about a relinquishment of their efforts.

Interest in the short but intensive campaign extended to the utmost limits of the city and brought husbands and wives, mothers and daughters to the polls with a determination to have a voice in the affairs of the city. Women who had never cast a vote, women with babies in their arms and leading children, marched or drove to the poles in great numbers.

More than seventy-five church and club women of the city, following a mass meeting at the Majestic theatre, drove in a body to the polls where fifty or more of the number who had not already voted during the earlier part of the day cast their votes for Cole. As they left the theatre a group picture was made of the gathering for the Times.

Opposition to Cole became especially active during the afternoon and many voters were rushed to the polls in cars by the Right forces. A large part of the Cole strength both in the morning and afternoon was drawn directly from the residential sections of the city, many men and women taking advantage of the private cars placed at their disposal by the owners.

Over two-thirds of the total vote was cast during the heavy voting in the afternoon. Starting out briskly in the morning at the rate of one vote a minute, the voting doubled and then trebled during the afternoon and at 6 o'clock the total votes cast stood at 830, in comparison with 240 polled at noon. Under the election laws, no intimation of how the vote was going could be given out until after the polls had closed.

The new commissioner will not be able to take office until the meeting of the city commission on July 11, as the meeting on next Tuesday falls on the Fourth of July.

BURGLARS SHOP CAREFULLY IN RAID ON MAIN STREET ARMY STORE

"The next ones that come in, won't go out again," M. T. Star, proprietor of the Army store on Main street, promised this morning as he surveyed the hole in one of the side windows where burglars had entered last night and dressed themselves in their exact sizes from B. V. D.'s to neckties. "Tell them that they are taking their lives in their hands if they ever come again," Mr. Star reiterated.

Entrance to the Army store was effected through breaking a

side window opening on an alley, some distance from the ground. A dry goods box was used by the thieves in reaching the windows. Although no check-up had been made this morning, the proprietor reported that several suits of clothing were missing, together with several pairs of shoes, shirts, underwear, etc. From the manner in which the clothing had been scattered around the store it was evident that the thieves spent some time in searching for their exact sizes.
