

West Texas—Sunday generally fair and continued warm weather.

SENTENCE SERMON.

When real nobleness accompanies that imaginary one of birth, the imaginary seems to mix with real, and become real, too.—Lord Greville.

ONE MISSTEP PROVES BANDIT'S UNDOING

Preparation of Ballots for Democratic Primaries is Next

ROTARIANS OF TWO CITIES AT HAPPY REUNION

Mineral Wells Club Entertains Comrades From Ranger at Enjoyable Dinner.

Rotarians of Mineral Wells entertained the Ranger Rotarians and their ladies very delightfully at dinner in Mineral Wells Friday night. It was one of those occasions when business cares forgotten, Rotarian met Rotarian without the formality of "Mister" and John and Joe, Bob, Harry, Gus, Ray and other dignitaries met like boys, just comrades, entertaining and being entertained.

The Ranger Rotarians went prepared to entertain their hosts and the Mineral Wells Rotarians had made ready to do some of the entertaining themselves, so between the two line-ups there was no dull moment. So desirous were the Ranger "gang" of making a good appearance that immediately after arriving at their destination they went into secret caucus and rehearsed their parts again and again until they were letter perfect.

Gus Makes Presentations. Because of indisposition, Dr. L. C. G. Buchanan, president of the Ranger Rotarians, was unable to go with the party and it devolved on Gus Coleman, former president and now secretary of the Ranger Rotary club to introduce the guests from Ranger. This he did in very commendable style, but the style did not please Raymond Teal and he refused to be introduced, although when Mineral Wells later insisted that he be properly presented, Raymond did it himself very nicely.

Because of the late appearance of the Ranger singers, due to their protracted rehearsal, was unusual, they had gone to hear a candidate for congress who was making an address in Mineral Wells to present his candidacy. Ray Teal, Fred Yonker, Bill McDonald, Bob Coyle, Gus Coleman, Matt Hagaman and Bill Johnson were among the choristers.

Mineral Wells knows one song and sings it well. It is "It Ain't Gonna Rain No More." They sang it once, and were cheered so lustily they sang it again. They invited the Ranger singers to sing it with them. Whenever there was a slight lull in the proceedings they sang it once more. It is a pretty song and the visitors were delighted with it. They may sing it at one of the Ranger luncheons.

Ranger Rotarians Exposed. An interesting feature of the entertainment provided by Mineral Wells was a seer from Asia, visiting that city, who told the fortunes, hopes and ambitions of many of the Ranger gang. He must be a very wise man for he knew a lot about the Ranger Rotarians.

Bill Richardson of Austin, a former district governor of the Rotarians, was a guest at the dinner address. He is one all Rotarians like and honor and it added much to the dinner that he was present.

Raymond Teal also spoke. He promised that the next time Ranger and Mineral Wells had a contest, that Mineral Wells would be the winner, as Ranger would much prefer to do the entertaining rather than travel the rough detours necessary to get to Mineral Wells.

The dinner was the outcome of an attendance contest between the two clubs and Mineral Wells, which previously had defeated Weatherford, lost the contest. Gus Coleman explained that Ranger had won because whenever a Rotarian had missed a luncheon in Ranger he would make it up by attending a luncheon at Eastland or Cisco, both of which cities might easily be reached over the brick highway.

Although it was a very delightful affair, the dinner was very good, the talks were brief and witty, the journey to and from Mineral Wells was not so bad, except on the tires, and the hearty welcome given by the Mineral Wells Rotarians was best of all.

In the party from Ranger were: Messrs. and Mmes. Abe Davis, Wil-

President Finds Money To Get Work On Bonus Started

WASHINGTON, June 14.—The bonus paying machinery was being whipped into shape today with money for extra clerks provided by other means than by appropriation through orders of the president. The clerks will be hired on a temporary basis. President Coolidge conferred with Director Lord of the budget and others and found a solution to the problem caused by the failure of congress to provide funds through deficiency warrants that will be taken up by a deficiency appropriation to be made when congress meets next December.

PERMISSION TO BURN GRASS IS NEEDED IN CITY

Fire Chief Asks He Be Notified So May Send Guard and Save Runs.

"Keep Your Heads" is the warning issued to the people by Fire Chief Murphy of the Ranger fire department. This is very simple but sometimes hard to do whenever there is a fire, and the tendency is to turn in an alarm and just simply state for instance, "fire on Bladde street," and then hang up without giving the exact location, which means that the fire department has to hunt for the fire and may go far out of its way. This entails the loss of precious minutes locating the fire and when a street runs north and south or east and west from both sides of town, it is just simply a lucky guess that will enable the fire department to reach the fire in time to get it under control in time to prevent loss.

Whenever a citizen has a collection of grass or trash he wishes to burn, Chief Murphy asks that a phone message be sent to him, phone 36, and he will send a hose wagon with a fireman to be on guard while the grass or trash is burning, thus saving the danger of the fire spreading and saving the fire company from answering to an alarm. Four such alarms were sent in Saturday and while the runs may have been necessary to put out the grass fires, the alarms would not have been needed if the fire department had been notified in advance of the intention to burn grass so preventive measures could have been taken. It is contrary to city ordinance to burn grass in the city without permission.

Every time the fire department answers an alarm of fire, a record must be kept of it and this is sent to the state fire insurance commission and, if such alarms be frequent, they affect the city's insurance key rate adversely. "Rather than to have to make a call in a hurry not knowing what we are going to and then find that it is only a minor blaze, I will gladly send a truck and men with chemicals to watch the blaze whenever the people want to burn trash or burn dry grass that will start a considerable blaze if not kept under control," the chief said. "If the people will only call No. 36 and notify us of their intentions."

GREATER GOVERNMENTAL CONTROL OF RAILROADS URGED FOR RIGHT RATES

WASHINGTON, June 14.—A powerful argument for greater government regulation of railroads has been advanced from an unexpected quarter, the interstate commerce commission, it was disclosed today in a report to the congress on the inability to enforce honest and effective rate making. A minority of the commission declares it cannot be done and that honest rate making cannot be assured without wider control by the government.

Ilan N. McDonald, J. C. Smith, S. P. Boom, M. R. Newham, J. A. Pitcock, F. G. Yonker, Arthur G. Jury, Robert M. Coyle, Rev. and Mrs. W. H. Johnson; Misses Louise Pitcock and Virginia Norton; Messrs. M. H. Hagaman, Raymond Teal, John W. Thurman, Gus L. Coleman, Albert Joseph, J. M. Dodson and Charles G. Norton.

Flag Day To Be Properly Celebrated By Elks Of the Oil Belt Territory

The Elks lodges of Ranger, Breckenridge, Cisco and Eastland will combine and hold their flag day exercises in Ranger at 3:30 this afternoon, on the vacant lot next to the fire station on Elm street. June 14 is the official day set by the Elks to be celebrated with simple services all over the world wherever there is an Elks organization. Inability to attend the services by the majority of the members, because of the fact that it is next to impossible for most of them to leave their places of business Saturday afternoon, caused the Oil Belt lodges to combine and hold the services Sunday afternoon.

The Gorman 35-piece band will give a musical concert starting at 3:30, followed by Joe Fry who will deliver an address on the history of the American flag. Approximately 500 people will come from each of the three towns. They will be the guests of Ranger for the afternoon.

Board Of Inquiry Seeks To Unravel Battleship Tragedy

SAN PEDRO, Cal., June 14.—The formal board of inquiry met today aboard the U. S. S. Mississippi to hear details of the story of traditional heroism shown by men of the navy when death threatened. Officers and men were questioned and from each was heard nothing but terms of highest praise for the 48 members of the dreadnaught's complement who went to their death in the explosion that occurred in gun turret No. 2.

Among those who gave their testimony was the commander of the Mississippi, Capt. W. D. Brotherton, who said: "I have no blame to attach to anyone or anything. I have nothing but the greatest praise for all. They did their duty to the best of their ability—everyone of them, and the captain's voice choked. The exact cause of the tragedy is still more or less of a mystery and may remain so. Lieutenant Commander Reinert, chief gunnery officer of the Mississippi, told the board it was his first impression that the explosion was caused by foul bore, in spite of the fact that this was a practice drill by a well instructed crew and under the direction of an experienced and most reliable gun captain, whose duty it was to see that the bore was kept clean."

Survivors of the crew who manned the ill-fated turret No. 2 took the witness stand and told what they recalled of the incidents preceding and after the blast. The board saw a possible partial explanation of the blast in the statement of Casimir F. Magesawki, a clerk man on the gun at which the explosion occurred. His duty it was to turn on the air pressure that closed the breach after the gun was loaded. Magesawki testified that he had noticed the air was low all morning, the register barely reaching 90 pounds whereas it was ordinarily above 100 pounds. He said that he had not reported the difficulty as it would have necessitated stopping firing and he did not want anything to interfere with the crew's chances of winning. He said that the day before a piece of burning silk from one bag containing powder had fallen from the gun board to the gun pit. Quick action however, had prevented disaster then, he said.

FUNERAL SERVICES TUESDAY

WASHINGTON, June 14.—Joint funeral services for all the 49 officers and men killed in the explosion on the battleship Mississippi are to be held Tuesday, the navy department was advised today by Vice Admiral Wiley, commanding the Pacific fleet.

NEW TRAFFIC LAW IN DALLAS. DALLAS, June 14.—The new traffic ordinance, requiring all automobiles to stop before coming on to boulevards from side streets, is in force and police have orders to arrest violators of the law.

CANDIDATES FOR OFFICE NOW LAUNCHED

Several Unexpected Names Appear In the Eleventh Hour For Office.

Candidates for the democratic nomination for office at the July primaries who failed to file with the state and county executive committees will be out of the race this year, for midnight last night was the final time for filing. Last minute filings brought out new and unexpected candidates for district and Eastland county representative in the legislature and added a few more candidates in other contests. The list, as published herewith is now complete. The Eastland county democratic executive committee will meet in Eastland at 2 o'clock Monday to arrange the ticket, fix the assessments and make other preparations for the primaries. The candidates whose names will appear on the ballot in Eastland county are:

For United States Senator—Morris Sheppard of Bowie county; John F. Maddox of Harris county; Fred C. Davis of Travis county. For Governor—Felix D. Robinson of Dallas county; George W. Dixon, Harris county; W. E. Pope, Nueces county; Joe Burkett, Eastland county; Miriam M. Ferguson, Bell county; Lynch Davidson, Harris county; V. A. Collins, Dallas county; T. W. (White) Davidson, Harrison county; Thomas D. Barton, Potter county.

For Lieutenant Governor—Will C. Edwards, Denton county; Wallace Malone, Tarrant county; John D. McCall, Jefferson county; Barry Miller, Dallas county. For Attorney General—J. M. Melson, Hopkins county; Edward B. Ward, Nueces county; Dan Moody, Williamson county; John C. Wall, Grayson county. For Comptroller—O. D. Baker, Milam county; Pat Moulden, Collin county; Don F. Smith, Galveston county; S. H. Terrell, McLennan county; A. J. Smith, Haskell county; Tom Bell, Bowie county.

For State Treasurer—C. V. Terrell, Wise county. For State Superintendent of Public Instruction—S. M. N. Marrs of Travis county. For Commissioner of Agriculture—Robert E. Sparkman, Ellis county; George B. Terrell, Cherokee county. For Land Commissioner—J. T. Robinson, Morris county; Will L. Sargent, Tarrant county; J. E. Binkley, Young county.

For Railroad Commissioner (regular six-year term)—Clarence E. Gilmore, Van Zandt county; J. C. Mason, Taylor county; Ed E. Weaver, Bowie county. For Railroad Commissioner (four-year unexpired term)—Walter M. W. Spawna, Bell county. For Chief Justice Supreme Court—William Clayton Wear, Hill county; R. H. Buck, Tarrant county; C. M. Cureton, Bosque county.

For Associate Justice Court of Criminals Appeals—O. S. Lattimore, Travis county. District and County. Senator Twenty-eighth Senatorial District—Jesse R. Smith, Harry Tom King, B. L. Russell. Representative One Hundred and Sixth District—M. H. Hagaman, D. J. Neill, A. E. Firmin. Representative One Hundred and Seventh District—Frank Sparks, J. J. Brown.

District Judge Ninety-first District—G. L. Davenport, Joe H. Jones. District Judge Eighty-eighth District Court—W. H. Sewell, Elzo Been. District Attorney—Frank Judkins, W. J. Barnes. Sheriff—R. W. (Bob) Edwards, J. D. Barton, M. H. Smith, C. S. Jamison.

District Clerk—Wilbourne B. Collier, Eva Leverage. Tax Assessor—George Bryant, W. J. Herrington. Tax Collector—F. O. Rosenquest, John S. Hart. County Clerk—Ernest E. Woods, Ernest Jones. County Treasurer—J. T. Sue. County School Superintendent—Beulah Speer.

County Judge of Commissioners' Court—Ed S. Pritchard, L. H. Flewelling, J. T. Hankins. Judge County Court-at-Law—Gilvye Hubbard, Tom J. Cunningham, Clyde L. Garrett. Commissioner of Precinct No. 1—Lee Williams, V. V. Cooper. Commissioner of Precinct No. 2—W. M. Burns. (Continued on page four)

Barney Carter Well North Of Ranger Is Increasing In Flow

Barney Carter's W. J. Lanford No. 1, located on the W. J. Lanford farm, seven miles north of Ranger, which came in the first part of the week and has been flowing about 250 barrels by heads through 200 feet of open hole is now making approximately 450 barrels, flowing naturally. Six-inch casing was run to within 20 feet of the top of the pay and there stopped.

Top of the pay was struck at 3,570 and, according to the reports, from oil authorities, the well has the looks of a remarkably good one.

Reports are that Carter intends to let the W. J. Lanford well flow naturally for the time being. He has made another location about one mile west from the present location.

DEMOCRATS ARE SEEKING MAN TO MATCH DAWES

Fight for Smith to Beat McAdoo Fading Before Vice Presidential Selection.

CHICAGO, June 14.—The nomination of Charles Dawes by the republican party for vice president has resulted in a complete re-canvassing of the democratic situation by democratic leaders. They are strongly of the opinion that whoever is nominated to lead the ticket, the vice presidential nominee should be a man commanding the confidence of organized labor and, preferably, a man from the middle west, with strong backing.

George Brennan, Illinois, democratic chief, already has conferred with Tom Taggart, of Indiana, on what shift in the party's convention plans are necessary as a result of Dawes being on the republican ticket. Tuesday, Brennan leaves for New York to be on hand early. Brennan, of course is for Smith, but the first ballot will find the Illinois vote distributed among the different candidates. McAdoo will get 9 of the Illinois delegates throughout, but the balance will go to Senator Kailston of Indiana, Governor Smith of New York, and possibly John W. Davis, of West Virginia, and Governor Silzer of New Jersey.

Brennan is saying nothing, but those in his following say that as things now stand Smith's chances for nomination are losing ground and those of McAdoo are gaining steadily. There are many reasons to believe that a compromise may well be effected on Davis.

The present intention of so-called bosses is to let the presidential race at New York be a free for all. The importance of the vice presidency has assumed large proportions since the nomination of Dawes, which has started political leaders in search of a strong candidate to match the general. First hand, they say organized labor will slaughter Dawes at the polls if the democrats put up a man friendly to labor.

Furthermore, if McAdoo is nominated, as appear likely, the ticket will need a running mate for him that appeals to the business interests. The reports are that several such men are in mind, but it is too early to discuss their relative potentialities until Brennan has completed his canvass of the situation.

GOVERNOR NEFF MAY ATTEND THE DEMOCRATIC NATIONAL CONVENTION

AUSTIN, June 14.—Governor Neff admitted today that he was considering seriously attending the national convention in New York, June 24, and if he decided to go he would leave Austin next week. The governor was offered a place by the recent state convention at Waco, but declined, he having advocated an uninstructed delegation, while the convention instructed for McAdoo.

DAWES SHOWS PLEASURE OVER HIS NOMINATION

CHICAGO, June 14.—Smiling warmly, but with "nothing to say," Gen. Charles G. Dawes, republican nominee for vice presidency, received a hearty welcome from his friends and admirers upon his return home today. "I will have nothing to say until formally advised of my nomination," he said when asked for a statement. He was in splendid spirits. Heavy wreaths of smoke poured from his famous "upside-down" pipe. Dawes was accompanied by his wife and two classmates from Marietta college, H. C. Butler of Dallas and R. R. Lloyd of Chicago, both of whom graduated with him in the class of 1884.

ROBBER SHOT BY COMPANION EASILY TRAILED

Police Holding Man, Nearly Dead, and Two Others As Train Bandit Suspects.

CHICAGO, June 14.—The entire band of robbers that held up the Chicago, Milwaukee & St. Paul mail train Friday morning and escaped with cash and securities valued at about \$3,000,000 will be under arrest by midnight Sunday, Chief of Police Collins of Chicago, predicted tonight. He said, too, that the loot would be recovered.

J. H. Wayne, who was reported tonight to be near death from a bullet wound, was positively identified, Collins said, by two of the mail guards from whom the pouches were stolen. One man, believed to be Wayne, was shot during the robbery.

Three others—Paul Wade of Tulsa, J. H. Mahoney and Walter McComb, both of Chicago, were partially identified by the guards as members of the robber band. Wade, when arrested today, had a \$1,000 and a \$500 bill in his pocket. Both of them are similar to those stolen, and are claimed to be blood splattered.

A. E. Germer, chief postal inspector, announced this afternoon that he had definite information that the amount of loot would total \$3,000,000. Of this amount \$100,000 was in cash and much of the balance in negotiable securities. The First National bank of Chicago had \$175,000 and the Federal Reserve bank \$172,000 in negotiable securities in the stolen mail pouches, he said.

One of the losers in the mail train robbery is the bank of Charles G. Dawes, republican vice presidential nominee, the Central Trust company of Illinois. The bank made a shipment of \$28,000 to a bank at Roundup Mont. One of the bandit leaders who have been examined and several are understood to be under surveillance. The bandits knew so much about the mail train that the detectives believe some persons in the employ of the government are involved. The 70 odd clerks and guards on the train have been examined and several are understood to be under surveillance.

Fugitive Suspected. Tommy O'Connor, a noted gunman, who killed a policeman and, two years ago, broke jail two days before he was to be executed, is thought by the police to have had a hand in the affair. He has been leading the police a chase, being daring in his frequent defiant challenges to "come and get him," but the police have not been able to apprehend him. In addition to the careful net that has been drawn over Chicago's underworld, large posses are searching the territory between Chicago and Milwaukee in the belief some of the band may be hiding in one of the numerous lake resorts.

WHEAT FARMERS FACE PROSPEROUS YEAR AS GRAIN IS HARVESTED

KANSAS CITY, Kan., June 14.—Greatly improved conditions in the southwest as soon as the wheat crop is harvested is predicted by Kansas City bankers. Farmers who have been hard hit financially during the last five years, due to low prices and poor crops, will be able to liquidate a large portion of their debts as a result of a heavy yield and a quick sale, in the opinion of A. B. Abernathy, vice president of the First National bank here. Business conditions in the southwest will show an improvement as a result of the increased prosperity of the farmers, W. S. McNealus, president of the Commercial Trust company, said.

An army of harvest hands sweeping the wheat fields clean before them will finish in Oklahoma this week and prepare to sweep northward through Kansas. The 40,000 men needed to take care of the harvest will be at its crest by the middle of next week.

FORD TO GIVE HOLIDAYS IN LIEU OF VACATIONS

DETROIT, Mich., June 14.—Ford's new plan of working his 23,000 office and clerical employees only five days a week as a substitute for the usual two-week summer vacation went into effect today. From now on the clerks and other salaried employees will get Saturday off for at least three months in order to make up for their lost vacations.

ALLEN HURON DROWNS IN VICTORY LAKE NEAR TYLER.

TYLER, June 14.—While swimming in Victory Lake near here, Allen Huron, 23, was seized with cramps and drowned. The body was recovered two hours later.

**BIBLE THOUGHT.**

**A SURE SUPPORT.**—The eternal God is thy refuge, and underneath are the everlasting arms.—Deuteronomy 33:27.

**PRAYER.**—Teach us, we pray Thee, O Lord, to cast all our care upon Thee, for Thou carest for us.

**THE EXTREME PENALTY**

Since the dawn of history the crime of murder has been punished according to heathen system, but it has never been effective. In fact, Warden Lawes, of Sing Sing prison, in a series of instructive papers on the subject, shows conclusively that the infliction of the extreme penalty does not act as a deterrent of crime, but, strangely enough, as an incentive to crime. In states where the extreme penalty has been abolished the number of crimes is less than in states where the death penalty is imposed—based on per centage of population. The theory that the unfeeling infliction of the heavier penalty would tend to prevent, through fear of punishment, the commission of capital crimes has been proved an error, and it has not insisted that the abolition of the extreme penalty would operate as a complete preventative of capital crimes. But if it is the purpose of the law to punish, that purpose is in some measure defeated by the revulsion which a resort to cruel and inhuman practices arouses in the thoughts of those who, as peers, sit in judgment upon their fellow men.

We of the civilized world have been taught, and have hoisted, the salvation of the race, of society, and of civilization itself, lies in gaining, by some process or by experience, a better understanding of ourselves and of our relationship one to another. As a rule crime is unquestionably the result of mental deficiency, a disease, and any penalizing process should include the opportunity for reformation and regeneration.

**SHALL LAW BE FLOUTED.**

In a democracy, absolute liberty is impossible, for to grant it to one is necessarily to deny it to others. The ideal of democracy is to establish such an equality of opportunity for all as is reasonably consonant with the continuance of those circumstances of life which develop the self-control of the individual—without which the government must reduce itself to a despotism—and with the giving of due rewards for ambition and industry, which are necessary to spur selfish human nature on to the goal of individual success. From the earliest times it has been recognized that society in the United States of America could not brook an unrestrained liberty in any man to deal in or use intoxicating liquors and many restrictive laws were passed.

Whether we believe in the power of law or not, we today confront an issue that comes home to every man, woman or child who loves the United States, has faith in its ideals and hope for its service to humanity. The prohibition amendment stands as the law of the land. Beyond question, it represents the will of the people of the country over. It was adopted in full accord with methods established by our fathers and recognized by everyone in respect to every other change in government, as sound and controlling.

We face today the most direct and persuasive attack ever made upon government as we know it, not from the ignorant and uninstructed, but the educated; the so-called good citizen, openly declining to obey the laws of his country and becoming a party to their breach; and this is not as a rare occurrence but as an everyday matter. Never was an issue more sharply drawn or more

**BARNEY GOOGLE AND SPARK PLUG—**

Copyright, 1924, by King Features Syndicate, Inc.

comprehensible. The issue is purely one of respect for and obedience to law on the one hand, of disregard and breach of it on the other. In these times of peace hardly less than in the times of war just past, the country needs the help and support of law abiding men and women.

**FLEWELLEN IN RACE FOR JUDGE OF COUNTY COMMISSIONERS' COURT**

L. H. Flewellen of Ranger has come out as a candidate for county judge of the commissioners' court. He is an experienced lawyer and not without experience on the bench, having served with distinction as judge of the Ranger municipal court. Having been a resident of Eastland county for a number of years and always active in civic and political affairs, he has a knowledge of conditions throughout the county that will stand him in good stead as county judge.

Judge Flewellen has strong backing and even though he is an eleventh hour candidate, having filed for a place on the democratic primaries ballot on the last day for filing, he has a splendid chance of leading in the race when the ballots are all in.

**FRENCH PRESS EXPRESS APPROVAL OF GEN DAWES.**

PARIS, June 14.—The Paris press today generally expressed approval of the selection of Gen. Charles G. Dawes as the republican candidate for vice president of the United States.

"France welcomes the candidacy of General Dawes," says the L'Nation, adding that the French people have not forgotten that Dawes and Owen Young performed a great step towards post-war peace in their investigation of report on German reparation.

**CHIEF JUSTICE FLY FLAYS SAN ANTONIO, June 14.—**

Provisional granting of divorces was flayed in an opinion handed down by Chief Justice Fly of the fourth court of civil appeals in a divorce suit here. At the same time, the jurist declared the law permitting granting of divorces on the uncorroborated testimony of one party should be repealed.

**FORREST NAMED PRINCIPAL OF RANGER HIGH**

**John Pickett, D. O. Marshall and Mrs. Kilpatrick Re-elected by School Board.**

L. E. Forrest, of Thurber, was elected principal of the Ranger high school at a called meeting of the board of trustees of the Ranger independent school district Saturday afternoon at 2 o'clock.

Mr. Forrest comes to Ranger highly recommended by the business men of Thurber as an excellent teacher and competent principal. Forrest has been principal of the Thurber high school for the last three years and has made a remarkably good record. He is a graduate of Trinity University and also took post graduate work at Texas University and Texas A. & M. College.

D. O. Marshall, Mrs. Kilpatrick and John Pickett were all re-elected to their former positions and the board decided to postpone further election of teachers until next meeting.

The contract that has been customary for the teachers to sign came up for discussion and the board decided to revise it cutting out several clauses that had created considerable discussion and unfavorable comment on the part of a number of people.

L. L. Neal and J. M. Gholson were appointed as a committee of two to devise means whereby the old ally running between Elm and Pine streets at the rear of the high school that belongs to the school district and which is being used as a driveway, be closed by the most effective method.

At an executive meeting held after the regular meeting one of the members of the board reported that a committee consisting of J. M. Gholson, L. L. Neal and E. H. Mills had been appointed to investigate and report to the tax assessor the names of delinquent school tax payers. Suits to the amount of the taxes will then be instituted against all names turned in to the assessor.

The Texas & Pacific railroad has just completed the work of hard surfacing the street along side of their track and freight depot in Eastland from North Lamar to Daugherty ave., a distance of two blocks. Considerable time and expense has been spent on the job.

**Eastland Looking Forward To Coming Community Picnic**

There's going to be some time at the community picnic Tuesday night, according to the committee, headed by Dick Caldwell. The plans they have laid out will make a good time for everyone. There will be bathing, games, stunts, music, and a good time in every way. And after three hours of good fun, those who still wish to linger, can go into the clubhouse for still more fun. The picnic supper will be arranged so that each group will eat their own, what they bring, but at the same time all will be a part of the picnic, together.

The idea of the community picnic seems to have taken hold of everyone. Those who attended the large picnic went away feeling that the effort was worth while.

**GOVERNMENT FIELD EMPLOYEES TO GET INCREASED PAY.**

WASHINGTON, June 14.—President Coolidge today moved to provide 480,000 field employes of the government outside of Washington with the pay increases voted by congress in a bill which failed to become a law in the final legislative jam for lack of certain signatures. He ordered, that beginning July 1, all departments pay increases, which average \$240 a year, appropriating applications to the money available.

**AMARILLO WANTS ALL TO GET FULL MEASURE OF ICE**

AMARILLO, June 14.—With the hot weather season in full blast, strict enforcement of an ice weighing ordinance, providing that ice be weighed at the time and place delivered and the weight recorded on a tag at the owner's ice box, has been ordered. The ordinance claims to protect the consumer and assure full weight and a standard price.

**Want Ads Will Pay**

**Featherston Goes To Wichita Falls Instead Of Olden**

Solon R. Featherstone of Eastland, who was recently elected superintendent of the Olden public school, has resigned that position to accept a place with the R. F. Finance corporation at Wichita Falls.

Mr. Featherstone will leave today and his family will follow about July 1.

**TAX ON WIRE MESSAGES IS TAKEN OFF BY CONGRESS**

The Postal Telegraph company announces to the public that, under the revenue law signed by President Coolidge, June 2, 1924, the tax on telegrams, cablegrams and long distance telephone calls, heretofore levied, is repealed, effective July 2, 1924.

**POST-REVIVAL SERVICE AT METHODIST CHURCH.**

Messrs. Powell and Christianson, who have done such splendid work in the Crim meeting in Eastland, musically and as young people's workers, will be at the Eastland Methodist church Sunday morning, at the Sunday school hour, and will conduct a great revival.

All those who have given their names for church membership, especially children, are requested to be present to be received into the church. It is expected that this will be a great evangelistic service.

**WHAT SAN ANTONIO AND NEW YORK WILL NOT DO IS ASKED OF EL PASO**

EL PASO, June 14.—Permission to establish classes in nude dancing here has been asked of Mayor Dudley by Miss Louise Elliott of New York. She was refused the request both in New York and San Antonio, she said. The council has taken no action, pending arrival of Miss Elliott.

**DR. BOLTON DEFERS ANSWER TO UNIVERSITY REGENTS**

AUSTIN, June 14.—Dr. Herbert E. Bolton, president of the University of Texas, who has been in Austin for a conference with the university regents, will return to his home in Berkeley, Calif., without having made any definite answer as to his acceptance of the presidency. He will give a definite answer after reaching home and conferring with his wife. All indications point to his declination.

"If Dr. Bolton was pressed for a statement at this time, his answer would be 'no,'" said Prof. Eugene Barker, professor of history and a close personal friend. "There is a possibility of his accepting the presidency but it is rather slim."

**ALIENISTS EXAMINING IRCH YOUNG MURDERERS**

CHICAGO, June 14.—Nathan Leopold and Richard Loeb, youthful killers of Robert Franks, 14-year-old school boy, hopped, skipped and went through other motions in the prison laboratory today under the eyes of noted alienists.

Dr. Bowman and Dr. Hulbert, famous psychiatrists and other physicians noted for work on mental disorder, have been retained by the defense to prove that the millionaire youths were irresponsible when they committed the crime. Physicians are trying to detect mental and physical defects of a nature to indicate that they do not know right from wrong. At the same time the prosecution is working to establish the fact that the youths are sane.

**MOTHER WINS FIGHT FOR SON SHE CLAIMS IS HER OWN**

ST. LOUIS, June 14.—Fannie Lockwood, the pretty 18-year-old unwed mother, today won her fight to obtain a founding she claims to be her illegitimate son. She had not seen the baby until recently since last December, when, then only 2 weeks of age, it was taken away from her.

**SOUTHWEST SWELTERS IN HOTTEST DAY OF THE YEAR**

KANSAS CITY, Kan., June 14.—The southwest sweltered tonight in the warmest weather of the season. The mercury stood at 90 with humid breezes blowing. The gulf states report 100 degrees. The United States weather bureau say that they could prophesy no immediate relief.

**MAY CONSUMPTION OF COTTON**

WASHINGTON, June 14.—Cotton consumed during the month of May, exclusive oflinters totaled 413,649 bales, compared with 620,854 bales in May of last year, the census bureau reported today. Cotton consumed in cotton growing states totaled 289,897 bales in May of last year.

## OIL CITIES ELECTRIC CO. TO MAKE ICE

Installs Plant in Eastland Modeled on Lines of Cleanliness and Sanitation.

Do you ever stop to think, as you lift your goblet of iced tea or orangeade, as you listen to the tinkle of the ice in the glass, that this crystal clear, frozen product represents one of the greatest industries of this country?

Ice may be manufactured either from distilled or fresh water, but in the most modern plants the fresh or so called raw water system is used. This process has the advantage that the raw water can be frozen into beautiful transparent blocks free from all impurities, and yet avoiding the flat, unpleasant taste, which is characteristic of all distilled water.

The Oil Cities Electric company of Eastland has just completed an installation of the most modern and up to date equipment for the manufacture of raw water ice, and from this time on will supply the people of Eastland with crystal clear, absolutely pure ice, manufactured in a plant where the highest standards of cleanliness and sanitation are rigidly adhered to. A brief description of the different steps necessary in the making of a block of ice may be of interest to the reader.

**Making the Ice**  
Refrigeration is based upon the fundamental law that heat will flow from a substance of a higher temperature to a substance of a lower temperature, in an effort to equalize the temperature of both substances. While this fundamental law sounds simple enough, the actual process of ice making is a complicated one, requiring the use of a great deal of expensive machinery, and the exercising of much care on the part of the operators.

To begin with, the water, supplied by the city mains, is run into a large container, known as the treating or sedimentation tank. Here, by the addition of certain chemicals in the proper proportions, the water is softened, that is, chemical reactions take place, which cause the impurities in the water to gather into insoluble particles, which settle to the bottom of the tank and pass out to the drainage system. From the treating tank the water passes through filters, where the last traces of impurities are removed, and then is pumped to the precooler. The latter is a large tank containing coils of pipes through which ammonia is circulated. The ammonia in these coils is at a low temperature, and therefore absorbs much of the heat of the water, which is thus cooled to about 40 degrees.

**Freezing the Water.**  
From the precooler the water passes to the can filler and thence directly into the freezing cans. The latter are of metal, and each can is provided with an individual cover to exclude dirt and impurities. As fast as the cans are filled, they are submerged in a large tank filled with brine, which is held at a temperature of about 18 degrees, and is circulated around the cans by motor driven pumps. Freezing starts at the outer walls of the cans, and progresses gradually towards the center, the time required for the completion of the freezing being about three days and nights. While the water is freezing, dehydrated air under pressure is blown into the cans, which keeps the water agitated, driving all the impurities, if any are present, to the center. Thus the water is kept absolutely pure as it freezes, which accounts for the clarity and transparency of raw water ice.

When each can is almost solid, only a small amount of water remains at the center of the cake, into which all the foreign matter has been driven. This water is called the core, and it and the foreign matter it contains is pumped out by a piece of apparatus, known as a core sucker. The core is then refilled with clean water and the cake is frozen solid.

This results in a block of ice perfectly transparent, except for opaque spot called the flower at the top of the block, which is the result of

trapped compressed air used in agitation.

**Ready for Consumption.**  
After the freezing process is completed, the cans are lifted out of the brine vat by an overhead traveling crane, and dipped into a tank of warm water, which loosens the ice from the can. The finished cakes of ice are now sent into the storage vault, which is kept at a temperature below freezing.

Finally, an ingenious apparatus, known as a scoring machine, by means of small saws cuts narrow grooves in the block, marking it into exact 25 and 50 pound cakes, which are the sizes generally needed in the average home. The ice is now ready to be delivered to the consumer.

It will be seen from the foregoing that all possible care is taken to preserve the purity of the water and the cleanliness of the ice made from it during the entire complicated process of refrigeration, and that a block of clear artificial ice is not merely a chunk of frozen water; but is the result of the intelligent application of scientific knowledge through the medium of costly and intricate machinery.

# RANGER LOSES BALL GAME TO PARKS CAMP

### Errors Plentiful in Loosely Played Contest, Score Being 17 to 12

Ranger and Parks Camp tangled horns at Breckenridge Saturday afternoon in one of the most hectic swiftest of the season. When the score keeper found breath to count up the runs on an adding machine Ranger came out at the small end of the hole to the tune of 17 to 12. Errors were plentiful, neither team being able to hold the ball when faultless playing might have told a

Connecticut's Prettiest Bud Elops and Weds.

MRS. THOMAS LEAMAN, JR.

Two weeks ago, before a jazz dance at the Norwalk, Conn., Country Club, she was Miss Juliet Hoyt, but today she is Mrs. Thomas Leaman, Jr. and her husband, aged twenty, will go to work as a ship builder rather than start to college. She is the daughter-in-law of Thomas Leaman, marine architect and yachtsman.

different story in the final count. Ridings started the game but was knocked from the box in the fourth when Parks got to him for seven runs. Weatherford relieved him and did not fare any better being sent to the showers in the seventh, with Ridings doing the flinging the rest of the game and holding them to one run. Steadman and Lefty Coop did the flinging for Parks with Johnson on the receiving end.

The two teams will play in Parks today at 3:30 p. m. Weatherford will start the game with Hensley on the receiving end.

### TREASURY CERTIFICATES ISSUE OVERSUBSCRIBED

WASHINGTON, June 14.—Despite the lowest rate of interest borne by any government securities at any time in the last 10 years, the new issue of treasury 2 1/2 per cent certificates of indebtedness has been oversubscribed, it was said at the treasury department today. The subscriptions total \$609,192,500 for an aggregate issue of \$193,065,500, or an excess of more than three times the amount of the issue.

HOUSTON — The Southwestern Bell Telephone Company has between sixty and seventy major construction projects under way in this city, the total cost which will exceed a million dollars, according to W. G. Winters, division commercial superintendent.

# MAGNOLIAS OF OLDEN DEFEAT THURBER NINE

### It Is Pitchers' Battle With Good Fielding, Olden Winning in Pinches.

The Magnolias of Olden turned back Thurber Saturday afternoon in a hotly contested game at Olden, score 8 to 5. Scott, T. C. U. ace, attempted the hurling job for the Miners and it's hard to see how a man could get so wild with just one day's sojourn at the mining town. He walked an even dozen batters, hit one and was guilty of two wild pitches. The Olden gang took advantage of the Thurber wild man at all stages and by mixing in a little opportune hitting was able to cop the bacon. Scott had too much stuff and when he did get the ball over there wasn't much doing. He got six strikeouts and allowed only six hits.

It was anybody's game until the eighth with Thurber holding tenaciously to a one-run lead, but in this frame Lane walked, Koch attempting to sacrifice struck out. Flagg walked. Tuck hit to Currin who tagged Flagg out on the lines and then threw wild to first, Lane scoring. Josephon walked for the third time and Neely double to right, scoring Tuck and Josephon. Thurber sent up Hudspeh in the ninth to hit for Dalmasso in a last forlorn attempt to tie up or win. He smacked the pellet on a line to left and Josephon took the ball on the dead run. Neely made a nice catch of White's smash to center for a final put-out.

The box score: Magnolia— AB. R. H. PO. A. E. Flagg, rf . . . . . 2 0 0 3 0 0 Tuck, ss . . . . . 4 2 0 1 2 0 Josephon, rf . . . . . 1 2 1 1 0 0 Neely, cf . . . . . 2 2 1 3 0 0 Rainey, 1b . . . . . 5 1 3 9 1 0 Fuller, 2b . . . . . 5 0 1 2 1 2 Supina, 3b . . . . . 3 0 0 0 0 0 Lane, c . . . . . 3 1 0 7 2 0 Koch, p . . . . . 3 0 0 0 4 0 Totals . . . . . 28 8 6 27 10 2

Score by innings: Magnolias . . . . . 003 001 04x— Thurber . . . . . 021 200 00x— Summary—Two-base hits, Rainey, Neely; sacrifice hits, Adkins, Dalmasso, Tuck, Flagg; hit by pitcher, Supina; wild pitch, Scott 2; bases on balls, off Scott 12, off Koch 2; struck out, by Scott 6, by Koch 6; double play, Tuck to Fuller to Rainey; left on bases, Magnolias 10, Thurber 4; time of game, 2 hours; umpires, Price and Elliott.

### CISCO BATHING BEACH TO BE READY JULY FOURTH.

Special. CISCO, June 14.—At a special meeting of the Cisco city commission, June 12th, a bathing concession was awarded to E. E. Harrell at Cisco, with the provision that he start at once to erect a suitable bathing beach at Lake Cisco. And the commission was given the assurance that this beach would be ready for the public not later than July 4th.

The structure will be an innovation in the way of bathing beaches, as a huge plank platform will be constructed about 150 by 300 feet, the end projecting out into the deep water and it will be anchored down so that the maximum depth will not be more than four or five feet. A fence will be constructed around the entire platform, thus making it absolutely safe for bathing and especially for children and those who cannot swim. The diving tower and spring boards will be constructed out in the deep water for the convenience of those who are good swimmers. Modern bath houses will be constructed and there will be plenty of benches and seats for the spectators.

Mr. Harrell was also awarded the boat concession and will have a supply of boats on the water within a short time.

# WILLS FINDS MADDEN A GAME FIGHTER.

WILLS SHOWS CLASS, FIGHTING MADDEN

Some sport writers were not satisfied with the "class" which Harry Wills, negro heavyweight boxer, showed in his bout with Bartley Madden. The opinion is Wills will have to win a decisive victory over Luis Firpo, the Argentine scrapper, in order to get promoters sufficiently excited to go through with any match in the future with Jack Dempsey, the title holder.

### STARS TO SHINE AT ST. LOUIS TENNIS MEET

By United Press. ST. LOUIS, June 14.—The National Clay Court Tennis championships, to be staged here beginning July 5, promise to draw many of the strongest tennis players in the United States.

Among the stars entered are: William T. Tilden II, holder of the national and clay court singles championships.

Brian I. C. Norton, sensational young Englishman who was born and reared in South Africa, and who, with Tilden, holds the national doubles championship. He fought his way to the finals in the world's championship at Wimbledon three years ago, being defeated only by Tilden.

Howard and Robert Kinsey, former St. Louisians, now residing in California, holders of the clay court doubles championship.

Clarence J. "Peck" Griffin, of San Francisco, a former clay court singles champion, and a former national doubles champion, with William M. Johnston.

Joe Armstrong of St. Paul, former intercollegiate champion and first 10 player.

"Sandy" Weiner, protege and doubles partner of Tilden, who is considered a coming champion, although only 16 years old, is also entered.

# Blasting Through Hell Gate MARINE DEATH TRAP

## Over 50,000 Cubic Yards of Granite Ripped Out by Explosives Which Were Shot Below the Water Line

WHEN WORK IS COMPLETED, A CHANNEL 35 FT. DEEP AT MEAN LOW WATER WILL BE AVAILABLE FOR SHIPPING.

Submarine explosives have just achieved a work of the highest importance to navigation in the clearing up to a depth of 35 feet of Pot Rock Reef, one of the most serious menaces to present day deep water shipping at Hell Gate, in the East River, New York. When all the work is completed, it will be possible for battleships and merchant vessels of over 30 feet depth to pass from New York Harbor or the New York Navy Yard through Long Island Sound and into the Atlantic Ocean by another route than the old Sandy Hook Channel and it will give a new inside waterway for ships coming up or down the coast to pass through the East River without going outside around Long Island.

Hell Gate for generations has been a danger to navigation and its tides and reefs have been the cause of the loss of many lives and a great number of vessels. One sailing vessel out of every fifty, in the old days used to be seriously damaged when trying to pass through the channel between the reefs.

The importance of having the East River free from reefs at Hell Gate was long ago recognized by the Federal government and New York City authorities. As early as 1818, a survey of Hell Gate was made by navy officers who reported the necessity of making the channel safe, and suggested the destruction of some of the most dangerous rocks. A few years later a process of blasting was introduced but it was not until the modern high explosives with their great shattering power and their ability to do thorough and effective work under water, were brought into play that important progress began to be made on the project.

In the recent removal of reefs, work upon which is still going on, from fifty to sixty thousand cubic yards of granite, scow measurements were taken out and the area involved some 311,000 square feet. The contract called for the removal of the reefs and the making of a channel 500 feet wide and 35 feet deep at mean low water.

### 6 YEARS OF BLASTING

The removal of the reef was accomplished by the New Jersey Shipbuilding and Dredging Company which has been steadily at work at Hell Gate for six years. The work was under the direction of Col. J. R. Slattery, Corps of Engineers, District Engineer, 1st district, New York City. In order to accomplish its work, the com-

ROCK LADEN BARGE

pany had to design and construct special floating plants in order to drill the holes in the rock at the bottom of the harbor. 90% gelatin dynamite was used under water in shattering the material.

### 115 COLLISIONS RECORDED

Until present methods were adopted many difficulties were encountered in the work. One was in trying to find a way to drill holes in the rock at the bottom of the river because of the enormous power of the tides. The East River receives at one extremity the Sound tide and at the other the tide from off Sandy Hook. Before this was finally accomplished, several pieces of the contractors' plant had been lost and it was only after a great many experiments and changes that it was found possible to drill the holes for the explosives in a satisfactory manner.

Another great difficulty was in

holding the drill ships to the place of work and anchoring them in position. This danger is shown by the fact that from May, 1918, to February, 1924, there were no less than 115 collisions recorded. These ranged from collisions resulting in a total loss of the plant to more or less grave damage.

They included many types of boats which struck the dredging plants including large steamers, powerful towboats towing heavy car floats, others with many deck scows in tow and sailing vessels. At times lives were lost in these collisions. They took place in all kinds of weather because the dredging plant was on the job continually day and night except when ice floes prevented work at certain periods in winter.

### USED 65 FT. STEEL DRILLS

The holes in the reef at the bottom of the river were drilled by machine placed on a barge which

SPECIALLY BUILT DREDGE CLEARING SHATTERED ROCK FROM BOTTOM OF HELL GATE

also contained the necessary machines and boilers for operating the drills. The drills themselves were very large and powerful and had to be designed and built specially. Due to the depth of water it was necessary to use a drill steel 65 feet in length to obtain the necessary penetration.

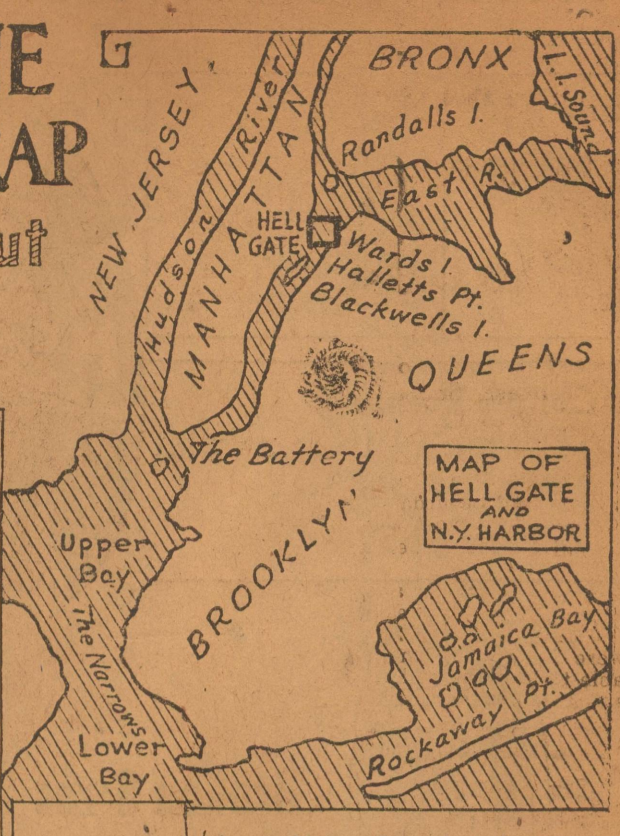

### CLEARING UP POT ROCK

Holes were drilled in the rock at the bottom of the harbor some times to a depth of twenty feet and loaded to the top with the dynamite. This was encased in a metal pipe and after it was lowered into a hole, the drill boat was moved away by means of anchor chains and when at a safe distance the shot was detonated. Three holes were shot at a time and this resulted in shattering as much as 300 square feet. Each hole was spaced on ten foot centers. The dredge used was of a type similar to an enormous steam shovel such as is employed in land excavation work, having a bucket of about ten cubic yards capacity. The dredge was brought up after a number of the holes were fired and scooped

CLEARING UP NEW YORK HARBOR

up the fragments of rocks placing them in a scow for transportation. The clearing up of Pot Rock Reef is one of the latest steps in improving Hell Gate which has been going on for generations of recent years the clearing away of under water obstructions has been done bit by bit with dynamite. The greatest blast with explosives in clearing Hell Gate channel took place October 10, 1885, when Flood Rock was removed by one blast. In accomplishing this about nine acres were tunneled and drilled. The aggregate length of the tunnels was 21,670 feet, and of the drill holes, 113,102 feet. The object sought to be gained by removing the rocks and reefs was to make a channel of the uniform

MAP OF HELL GATE AND N.Y. HARBOR

depth of 26 feet. In the blast, charges amounting to 240,000 pounds of an explosive composed of chlorate of potash and nitre benzene, and 48,000 pounds of dynamite, were used.

The government projects call for a channel which will eventually be from 900 to 1000 feet wide at this point.

### \$1,500,000 REMOVAL PLANT

Work is now nearing completion under a contract for securing a channel through Hell Gate off Halletts Point 500 feet wide and 35 feet deep at mean low water and increasing the depth over Pot Rock to 35 feet at mean low water. Work is now in progress for removing a section of the reef off Negro Point to 35 feet, and a section of Middle Ground to the same depth. A rock removal plant, estimated to cost about \$1,500,000, is now operating under the immediate supervision of Capt. J. L. Desch, Assistant Engineer. The dredge has been working in the East Channel at Blackwells Island and the drill boat is now prosecuting work of drilling and blasting. Other work in progress is the removal of boulders and small areas of ledge rock in Shell Reef by the use of a derrick boat under the supervision of H. E. Libby, Assistant Engineer. A survey of the whole of the river by sounding, sweeping and probing to rock has been practically completed under the immediate supervision of Mr. Libby. Contract has been entered into for the removal to a depth of 35 feet at mean low water of a section of Middle Reef about 1350 feet long and 180 feet to 350 feet wide.

## REVIVAL AT CHURCH OF CHRIST, EASTLAND, EVANGELIST LEDLOW PREACHING, AWAKENS INTEREST

The annual revival at the Church of Christ, in Eastland, began Friday night under the most favorable conditions. The large audience that greeted the evangelist at the initial service indicated that much interest existed.

The preacher, W. F. Ledlow, is a highly cultured man and a splendid speaker. He holds the B. A. degree from the Southern Methodist University, the M. A. degree from the University of Texas, has done special research work in the University of Chicago, and has just recently completed the work for the P. D. degree in the University of Texas. He has had much experience as an evangelist, and is well prepared to help everyone who hears him.

Friday night the speaker discussed the Four Gospels and particularly emphasized the special characteristics of each writer. The four men, taken from as many different walks of life, viewed the Savior each from his own angle.

First: Mathew was a government official. For many years he had served the Roman empire as a tax collector. His experience and contact with public affairs especially fitted him for the work assigned him. The words power, authority, and Kingdom appear in Mathew more often than in any other New Testament writer. The numerous parables in his book illustrates each some particular aspect of the new institution.

Second: Mark was trained for the priesthood, and viewed life from that peculiar standpoint. The Jews felt that sin and sickness were closely related, and that a cure was the essential work of the priest. Mark records fourteen or more miracles that Jesus performed, almost all of which concerned sick people. This young man was poor, his mother was a widow and he was naturally sympathetic. He saw the needs of his race, and spoke in terms of salvation. The commission on, as he records it, dealt with lost men, and outlined how they might be saved.

Third: Luke was a doctor, and viewed life from that peculiar standpoint. The Jews felt that sin and sickness were closely related, and that a cure was the essential work of the priest. Luke records fourteen or more miracles that Jesus performed, almost all of which concerned sick people. This young man was poor, his mother was a widow and he was naturally sympathetic. He saw the needs of his race, and spoke in terms of salvation. The commission on, as he records it, dealt with lost men, and outlined how they might be saved.

Fourth: John was a common man, taken from the common walks of life, and saw in Christ not the professional but the ordinary elements that appeal to the masses. "In him was life" and this "life was the light of men." John interpreted the Master's soul. The word "life" and the word "love" occur each more than fifty times in John's Gospel. To really live one must learn to love. In the Lord's last sermon to his disciples He used the word "love" at least twenty-five times.

The speaker closed by emphasizing the fact that "love" is the keynote to all life, and is essential to happiness and purity. The singing at the Church of Christ is purely vocal and congregational. The church extends a courteous invitation to the entire town and community to attend each service. We feel that this revival will be unusually helpful. Bro. C. H. Carr is an excellent singer and promises us an enjoyable time. We expect Sunday to be a splendid day. Plan to be with us. The speaker will have a spiritual sermon for Sunday night.

## Overson To Move Home and Office To Floyd County Seat

Judge Ove E. Overson, who has been very active in the practice of law in Ranger and Eastland county for the last five years, is preparing to move to Floydada, county seat of Floyd county, where the Texas panhandle and the plains country meet. He has formed a partnership with Judge L. G. Mathews, formerly of Coleman, and they will open an office in Floydada.

ties of cotton and wheat. There are always excellent opportunities in newly developing country. Judge Overson has many friends in Eastland county, attracted to him by his jovial and genial manner. Both he and Judge Mathews, who served as district attorney and county judge of Coleman county prior to moving to the plains country and made an excellent record, are young men and the combination should make a strong firm.

## Fund With Which To Buy Public Health Nurse Auto Growing

The collecting of funds for the nurse's automobile has brought with it many words of gratitude and commendation for the work of Miss Nixon, public health nurse of Ranger. There are few outside of the members of the Child Welfare club who know of the great good that Miss Nixon is doing in Ranger, but many a mother tells with gratitude of the life-saving services the nurse is performing for them. They tell of daily visits to prepare the baby's milk, or to give the little one a bath which the mother is not yet able to give. They tell of shopping errands done for mothers who cannot leave home, and of countless services performed which no one else thought to do, and which few nurses would bother with.

The nursing classes conducted by Miss Nixon are reaching a large number of homes in the city and will insure a high health rate as many items concerning the care of the home and ways to keep the family well as well as to care for them when sick are taught in these classes. Thoughtful citizens realize that Miss Nixon cannot care for the many patients who need her services, conduct nursing classes and perform the other duties assigned to her without some means of conveyance, so the Child Welfare club started the fund which is still growing, though slowly. Today the fund is as follows:

City Fish Market	.....\$1.00
Adams & Co.	.....\$5.00
Child Welfare club	.....\$50.00
Ranger Daily Times	.....\$5.00
W. H. B.	.....\$5.00
W. W. Housewright	.....\$5.00
The Toggery	.....\$10.00
Mrs. J. B. Haden	.....\$2.00
Jones-Cox Co.	.....\$5.00
The Fountain	.....\$2.00
E. J. & A. Davis	.....\$5.00
The Globe	.....\$5.00
Foreman Pipe Co.	.....\$5.00
Roster Store	.....\$5.00
Joseph Dry Goods Co.	.....\$5.00
J. M. White & Co.	.....\$5.00
Leah Theatre	.....\$5.00
Hold Bros.	.....\$5.00
Rotary Club	.....\$50.00
Mrs. J. B. Haden (additional)	.....\$2.00
Mrs. W. E. Woods	.....\$1.00
Total	.....\$231.00

## RANGER CHURCHES

**FIRST CHRISTIAN.**  
Main near Marston.—Rev. H. B. Johnson, pastor. Sunday school, 10 a. m. Preaching by the pastor, 11 a. m. and 8:15 p. m. Subject for morning hour, "The Divine Challenge." For evening hour, "The Unpardonable Sin and Who Can Commit It." In this sermon we will show by the Bible that only the Christian can commit this sin. Come and hear it. At the prayer meeting Wednesday evening, we will have baptizing. Now, don't stay away from the services today just because it is hot weather. Just remember that we have read of a hotter country than this. Be at your place this morning.

**FIRST METHODIST.**  
Elm near Marston.—Rev. A. W. Hall, pastor. Look over the following program and see how it appeals to you: 9:45 Sunday school; 11, the Junior church will put on its program in the basement; 11, the pastor will speak on "The Christian a Blessing"; 7:30, the Senior league meets; 8:30, the pastor will speak on "Working With God." Don't miss a single service.

**FIRST PRESBYTERIAN.**  
Marston, corner of Walnut.—Rev. G. D. Robison, pastor. Sunday school 9:45. L. J. McMillen, superintendent; 11 a. m., sermon, "What Is Man?" Sermon at 8 p. m., "The Impassable Barrier." Prayer meeting Wednesday, 8 p. m., in which the seventeenth chapter of Acts will be the study. A cordial welcome is extended to all visitors.

**CENTRAL BAPTIST.**  
Opposite T. & P. Passenger Station.—Rev. A. L. Leake, pastor. Bible school, 9:45 a. m.; a class for every man, woman and child. You are invited to visit us. The pastor will deliver a special sermon at 11 a. m. and 8 p. m. Reception of new members at both services.

**FIRST BAPTIST.**  
Walnut, near Marston.—Rev. W. H. Johnson, pastor. Sunday school, 9:45 a. m.; morning service and sermon, 11 a. m. Sunbeams meet at 3 o'clock. B. Y. P. U. 7 p. m. and evening service at 8 p. m. Special music at all services and a cordial welcome to all who attend.

**CHURCH OF CHRIST.**  
Rusk, corner of Mesquite.—Bible study, 10 a. m.; services, 11 a. m.; Bible study, Wednesday, 8 p. m. There will be no services Sunday evening on account of protracted meetings of Church of Christ at Eastland and Thurber to which every one is invited.

**EPISCOPAL.**  
Opposite Young School.—Sunday school 10 a. m. Morning prayer 11 a. m., with reading of chapter from Atwater book on Episcopal church.

**SALVATION ARMY.**  
South Austin street, near Elm.—Sunday school 2:30 p. m. Street meeting at 7:30 p. m. Meeting at hall at 8 p. m. Weekly meeting at the same hours. Ladies' Home Service league meets at hall Friday at 2:30 o'clock to sew for the needy.

## WOMEN BOOTLEGGERS MORE PLENTIFUL THAN THE MALE

Fort Worth, June 14.—According to the unofficial census, there are more women bootleggers in Fort Worth than there are male peddlers of hooch. A survey also shows that distillers are moving their plants into the city and wholesaling corn liquor at from \$7 to \$12 a gallon.

## ELEVATED WALKS SUGGESTED.

Houston, June 14.—City officials are considering elevated walks in the business district to relieve congestion.

## BUY IT AT HOME

## Prominent Quaker and Health Expert On Child Relief Mission to Germany

Henry T. Brown Heads Organization. Dr. Haven Emerson Goes To Make Survey

FEEDING starving children in Germany is the mission of Henry Tatnall Brown, a prominent Philadelphia Quaker, who recently sailed on the Majestic. Dr. Haven Emerson, professor of Public Health Administration at Columbia University who accompanied Mr. Brown went to make a child health survey in Germany.

Mr. Brown goes to Germany to take charge there of the organization of the American Quakers, who are arranging to feed 2,000,000 undernourished German children this winter with the \$10,000,000 being raised by the American Committee for Relief of German Children, with national headquarters at 19 West 44th Street, New York City and of which Major-General Henry T. Allen, formerly commander of the American Forces on the Rhine, is the chairman.

Endorsed by President Coolidge. The departure of Mr. Brown and Dr. Emerson comes immediately following President Coolidge's public endorsement of the work of General Allen's Committee to prevent wholesale starvation in Germany this winter and within a few days of Secretary Hoover's publication of the fact that 20,000,000 people, representing one-third of the entire population of Germany are suffering acute privation as a result of lack of food and that "the situation is one of rapid degeneration."

"My mission," said Mr. Brown, who is president of the Brown and Bailey Company of Philadelphia, is to relieve the suffering among Germany's undernourished children and to prevent them from starving. At present a native German organization, a non-partisan, non-sectarian general committee is feeding 500,000 children a day. To meet the distressing need we must increase it to 2,000,000 or perhaps more as quickly as possible.

Henry T. Brown, (upper left) Dr. Haven Emerson, (upper right) Maj.-Gen. Henry T. Allen (in circle).

Conferences with the German Chancellor, the Food Minister and other officials and with the district representatives of the German Committee now operating will then be held.

"There is one thing I want to make clear," Mr. Brown said. "It is that every dollar turned over to the Quakers by the American Committee for Relief of German Children will be spent for food purchased at the lowest possible prices, chiefly in the United States, to prevent starvation in Germany this winter. The American Friends Service Committee pays all the expenses and all overhead charges for our workers who go to Germany. We have assurances that the German Government will meet transportation, warehousing and insurance costs in Germany, as in the past. The German Government is now supplying all the flour and sugar used, which amounted to 47 per cent of the \$12,000,000 worth of foodstuffs we distributed in Germany since the Armistice.

"The actual work of preparing and distributing the food will be done by German civilians supplied by the German Committee without cost to our organization. But of course the work will all be done under the direct supervision of our group of American

Henry T. Brown, (upper left) Dr. Haven Emerson, (upper right) Maj.-Gen. Henry T. Allen (in circle).

Quakers. William Eves of Philadelphia will sail in two weeks to assist in this work.

Dr. Emerson's Purpose. "My purpose in going to Germany at the invitation of the American Friends Service Committee (Quakers)" said Dr. Emerson is to obtain first-hand more recent and comprehensive facts regarding the situation there than can be learned from official publications. Dr. Emerson's connection with the Quakers and the American Committee for Relief of German Children is that of a distinguished expert and student of preventive medicine. He is one of the foremost authorities in the country having made surveys of health conditions in England, St. Louis, Buffalo, Louisville, and San Francisco during the past five years following his term as Health Commissioner of New York City during the Mitchell Administration.

**Edouard Herriot Accepts Tender Of French Premiership**

By United Press.  
PARIS, June 14.—Socialist government in France became a reality today when Edouard Herriot accepted the invitation of President Doumergue to form a new cabinet. Herriot expects his list of ministers will be completed before tonight and hopes to confer with Prime Minister MacDonald of Great Britain, June 23. President Doumergue was advised by his counselors to call Herriot to form a cabinet to replace the Marsal cabinet, which resigned yesterday. France's new government of the left, swept into power after tremendous gains by the radical parties in the recent parliamentary election and consequent resignation of Millerand as president of the republic, assumed office tonight.

**CLOUDBURST INUNDATES TENNESSEE VILLAGES AND TAKES TOLL OF LIFE**

By United Press.  
ELIZABETHTON, Tenn., June 14.—Eleven are known to be dead following a cloudburst at Gordon Bluff and Hunter, 10 miles from here, Friday night. Ten others are missing. Houses, barns and trees were swept away by the race of waters. Among the dead are: Mr. and Mrs. Lum Smith and their two children, Mrs. Cecil Lewis and her four children, and a little daughter of Neal Lewis. A half dozen little villages surround Gordon Bluff and all were inundated by the flood. Hampton is said to have sustained a severe loss of life and property. Houses and log cabins were crushed or swept down stream, bridges and trestles were carried away and wire communication paralyzed. A complete list of the dead is not available.

**BURKETT PLANS MANY SPEECHES THIS WEEK IN NORTH TEXAS TOWNS**

TWO SCORE MEN ON TRIAL FOR INCITING RIOT

EBENSBURG, Pa., June 12.—The state probe will conclude its testimony late today in the trial of 44 men, part of them members of the Ku Klux Klan, who were charged with murder and inciting riot at Lilly. The state presented 68 witnesses in attempting to prove that the 44 men caused the trouble which ended in a street riot. Some 20 other witnesses were summoned by the state, but probably will not be asked to testify.

OVERLOADED MOTORBIKE DRIVEN AT FAST CLIP

SAN ANTONIO.—Motorcycle cop Flournoy rubbed his eyes and stared some more. Then he gave chase to a motorcycle carrying four young men. The driver of the overloaded motorbike paid a \$25 fine for speeding 47 miles an hour.

CHICAGO, June 11.—Nathan Leopold and Richard Loeb, 19-year-old college graduates and sons of millionaires, today pleaded "not guilty" to charges of kidnaping and murder of Robert Franks, 14-year-old school boy and son of another Chicago millionaire.

SPRING TIME IS SALAD TIME, TONING SYSTEM

By MARY I. BARBER (Kellogg Company) Spring time is salad time—and what an interesting variety of greens this season brings forth. At the head of the list come dandelion greens. These are a real treat because they are one of the few vegetables which still have a season. They should be used before they blossom as they become bitter after that time.

Dandelion greens have a flavor which acts on the appetite as a tonic. There are several ways of serving them. In Eastern Pennsylvania, bacon is cut into cubes and the fat tried out. The fat is then mixed with flour and diluted vinegar added. This sour dressing is poured over tender greens to "wilt" them. Dandelion greens may be placed in a kettle with a little water and boiled until tender. They should then be drained, chopped coarsely and seasoned with butter, salt and pepper.

Watercress is another popular salad green. Its slightly peppery taste gives character to any food with which it is served. It is particularly good with codfish balls.

Corn flakes can easily be rolled and used instead of dried bread or crackers for crumbing. They will give codfish balls an attractive color.

Codfish Balls. 1 cup salt codfish, 4 cups sliced raw potatoes, 2 tablespoons milk, or cream, 1 egg (beaten) 2 tablespoons butter, Pepper.

Shred codfish, removing bones. Boil fish and potatoes together until soft. Drain. Mash together; add other ingredients and beat until light. Shape into balls, roll in corn flake crumbs, in egg, then in crumbs again. Fry in deep, hot fat.

Serve fish balls on a platter and garnish with small bunches of watercress and slices of lemon.

If cod-fish balls are used for luncheon, they may be accompanied by sliced cucumbers, or tomatoes, and one of the heavier vegetables, such as beets, carrots, or squash. Hot muffins, bran or wheat, and a simple dessert will round out the meal.

PROPOSES NEW ROUTE FOR WESTERN FLYERS

ARCADIA, Calif., June 9.—An air route between Ross Field here and Scott Field, Belleville, Ill., just 20 miles from St. Louis, with regularly timed trips, would be a feasible project, according to Dr. Ford Ashman Carpenter, head of the meteorological and aeronautic department of the Los Angeles Chamber of Commerce, who recently returned from a trip to the east under orders of the war department.

Dr. Carpenter says he believes it would be feasible to fly from the Scott Field Balloon and Airship school, with one stop in Oklahoma for re-fueling in the air, and at Fort Worth, Texas, to recondition the helium in the lighter-than-air ships that would be used on the route.

Fort Worth is headquarters for the production of helium, the non-inflammable gas, which would mean a big saving in the transportation of the gas to the home ports of the ships.

Further steps in the establishment of such a route as proposed by Dr. Carpenter are forthcoming, he believes.

LONDON TRAFFIC PARALYZED BY POWER HOUSE STRIKE

LONDON, June 11.—No subway trains were in operation in London during the rush hours today, between 8 and 9 a. m., due to the overloading of the stations where loyal workers have not gone out on strike. The strike of the dissatisfied power house men continues despite the opposition of the labor government to it.

AUTOMOBILE ACCIDENT PREVENTION CONTEST TO BE JUDGED BY EXPERTS

JUDGES OF CONTEST At top, right—Richard E. Enright, Police Commissioner of the City of New York; (left) Brig. Gen. Smedley D. Butler, Director of Public Safety of the City of Philadelphia, and (below) W. H. Cameron, Managing Director, National Safety Council, Chicago.

The three largest cities in the United States, New York, Chicago and Philadelphia, are represented upon a board of judges who have agreed to pass upon a prize contest, now in progress, which has for its purpose some solution of the problem of ever-increasing automobile accidents.

W. H. Cameron, of Chicago, managing director of the National Safety Council; Hon. Richard E. Enright, Police Commissioner of the City of New York, and Brig. Gen. Smedley D. Butler, Director of Public Safety of Philadelphia, have accepted the invitation of Charles H. Holland, President of the Independence Indemnity Company of Philadelphia, which as an insurance company is largely interested in the reduction of automobile accidents, to judge the suggestions in the contest for which Mr. Holland has announced \$1,750 in cash prizes.

The prizes are \$1,000, \$500 and \$250 for the three most practical suggestions, not exceeding 500 words in length, which are submitted by licensed insurance agents or brokers anywhere in the United States, for reducing the number of American automobile accidents. Among the 150,000 agents and brokers in the country Mr. Holland believes can be found a way and property incident to use of the automobile. The contest will be open until June 30, after which the judges will announce the results.

BRAZIL MAY PUT UP BARS AGAINST JAPANESE

(United Press Staff Correspondent) RIO DE JANEIRO (By mail to United Press)—Japanese may also be excluded from Brazil if plans reported from Tokyo for emigration of large numbers of Japanese to this country are put into effect.

Brazil so far has not given Japanese immigration any great degree of consideration and no restriction whatever is placed on immigration from the Orient, but with the United States excluding the Japanese, it is felt that there may be too great a rush of Japanese for Brazil.

The 1920 census revealed that there were 40,000 Japanese living in this country, largely farm laborers working on the large coffee plantations and in the rice fields of the state of Sao Paulo. During the three years since 1920 between 4,500 and 2,000 Japanese immigrants have been received at Brazilian ports, but discontented Japanese immigrants have departed from this country at an average of 60 per month during the past two years.

The discontent among these immigrants has been accredited to living conditions on Brazilian farms and devaluation of Brazilian money. The Japanese farmer is better paid for his labor in his native country than in Brazil, and he also finds fault with accommodations on Brazilian farms.

However, should Japanese start migrating to Brazil in such large numbers as has been reported by Tokyo reports they plan to do, it is believed certain that restrictive measures would be adopted by Brazil.

RAGWEED, NOT GOLDENROD, BLAMED FOR HAY FEVER

WASHINGTON, June 7.—The hay fever victims are all wrong when they blame their trouble on the goldenrod. Here is what Prof. Albert A. Hansen of Purdue University says in a statement for the American Nature association:

"There is so little truth in the frequently heard statement that the goldenrod is a hay fever plant that the accusation can almost be termed false."

The Nature association's statement then goes on to tell some of the glories of the goldenrod. There is white and gray goldenrod as well as the more familiar varieties. There is another species known as the sweet goldenrod, the crushed leaves of which give off a fragrance that suggests anise.

In making clear the goldenrod's having nothing to do with hay fever, the Nature association's statement continues:

"Hay fever pollens must necessarily be the ones that are scattered by the wind. Goldenrod is insect pollinated and the pollen grains are rarely, if ever, wind distributed. The real enemies of hay fever victims are the ugly rag weeds."

There are some 60 species of the goldenrod, and Professor Hansen calls it "the crowning glory of Nature's seasonal procession."

Goldenrod is peculiarly American. The white flowered species may be found in the open woods from Maine to Minnesota and southward to Tennessee and Georgia. The seaside goldenrod frequents marshes and beaches from Maine to Florida. Of the 60 odd species, but three are natives of Europe.

U. S. DECLARED TO BE TOO BUSY TO GROW OLD IN HAPPY MANNER

CHICAGO, June 12.—How to grow old successfully was told today by Dr. H. H. Drysdale, Cleveland, to the convention of the American Medical association here.

The "frenzied finance" habit is responsible for a lot of unsuccessful age, he declared.

"It won't allow a patient to forget his responsibilities, and he must do that if he's to prosper in health," he explained.

"The national sin of overeating is another barrier to happy old age. It's one of the heaviest burdens an elderly man can have."

But overeating may decrease because of prohibition, he added, declaring that alcohol taken before meals, had been an important cause of gluttony.

"The advent of prohibition, with the disappearance of chronic alcohol cases, will do much to lower the death rate," he declared, and he warned the physicians:

"Make no compromises with such patients or you will fail in your mission. Your duty is to appeal to such patients' reason for a sane and rational mode of life."

America is in the midst of an "epidemic of injuries," Dr. J. Howard Beard of the university of Illinois, Urbana, told the convention.

"Railroad crossing tragedies, auto accidents, exhaust gas poisonings, caused by motor cars, industrial accidents and suicides caused by the strain of modern city life are taking the place of the old time menaces to life," he said.

"When Gorgas drained yellow swamps, when Pasteur discovered

vaccines, when Lister developed aseptic, surgery, and hundreds of other doctors developed cures, the old menaces had been solved. "But now the suicide rate is about that of the whooping cough death rate. About as many people were killed in crossing accidents last year as died of scarlet fever in 1920. Fatalities resulting from auto accidents in 1923 are about the same as those from diphtheria and scarlet fever combined. Accidental deaths in industries are about equal the total of deaths from measles, whooping cough and diphtheria. There are 700,000 persons injured yearly in their occupations."

ALIEN LAND LAW STOPS SHALLOW OIL ACREAGE SALE

HOUSTON.—The alien land law of 1921, designed to prevent an alleged invasion of Texas by Japanese, is said to have blocked a land deal in Houston involving \$1,400,000. English capitalists were about to close a deal for shallow oil acreage in Zapata county along the Mexican border, when it was discovered they could not acquire title to the land under the alien law without first declaring intentions to become citizens.

STONE CUTTER BUILDS HIS HOME YEAR BY YEAR

AMARILLO.—Davis M. Chalmers, a stone cutter, has almost completed a two-story brick and stone residence on which he has spent 15 years of labor. Chalmers spent his leisure hours building the home, which will have 12 rooms when completed. Chalmers has refused \$15,000 for the lot on which the house stands although he paid only a small sum for it 15 years ago.

## MRS. RECTOR HOSTESS TO PASTIME CLUB.

An enjoyable meeting of the Pastime club was held Tuesday night at the home of Mr. and Mrs. L. L. Receptor on Strawn road. Ladies' prizes were won by Mrs. E. E. Crawford and Miss Faye Nixon. Gentlemen's prizes went to Roy A. Jameson and E. E. Crawford. Those present were Mr. and Mrs. E. E. Crawford, Mr. and Mrs. Roy Jameson, Mr. and Mrs. C. A. Conley, Mr. and Mrs. Gifford Clegg, Dr. and Mrs. A. N. Harkrider, Dr. and Mrs. C. C. Craig, Dr. and Mrs. H. A. Logsdon, Mrs. L. A. Vandervoort, Mrs. John W. Thurman, Miss Faye Nixon, Mr. F. A. Brown, Mr. J. E. Matthews. Mrs. Craig will be the next hostess.

## HODGES FAMILY REUNION AT HOME OF MAYOR HODGES.

It seemed like the gathering of the clan on Friday when members of the Hodges family, about 30 in all, met at the home of Mayor and Mrs. R. H. Hodges where they had a happy reunion and a banquet. Those attending were Mrs. Scott Hodges, mother of the family; Dr. and Mrs. W. Ross Hodges of Mexia, R. A. Hodges and family of Abilene, H. V. Hodges and family, S. J. Dean and family, L. L. Neal and family.

## CENTRAL BAPTIST W. M. U. MEETING IN CIRCLES.

The weekly meeting of the Central Baptist W. M. U. will be held in circles on Monday at 3 o'clock. Circle one will meet with Mrs. McFatter in the Young addition; circle two will meet with Mrs. J. N. Poe at Merriman; circle three will meet with Mrs. Massren in the Langston apartments.

## MRS. MENDENHALL HOSTESS TO YOUNG MATRONS' CLUB.

Members of the Young Matrons' club were delightfully entertained Friday afternoon at the home of Mrs. H. J. Mendenhall. High score prize was won by Mrs. Crawford and low by Mrs. Conley. Those present were Meses. E. E. Crawford, E. L. McMillen, J. F. Champion, L. A. Vandervoort, F. T. Brahaney, John Shannon, L. L. Receptor, C. C. Craig, E. R. Maher, G. D. Chastain and J. T. Gulahorn. Mrs. Vandervoort will be the next hostess.

## CHEERFUL WORKERS HAVE FINE SOCIAL MEETING.

Members of the Cheerful Workers of the Christian church had a social meeting Wednesday afternoon at the home of Mrs. W. H. Dyer, Spring road. There were songs, Bible readings, two readings by Mattie Ben Shipp, and games, followed by delicious refreshments. Those present were Meses. Fred Brown, Carwilo, Brixey, W. D. Clay, H. B. Johnson, B. F. Bennett, C. C. Sigler, Colburn, Atkinson, Edwards, E. Lyons, E. C. Shipp, R. O. Payton, West, Rolfe, Matthews, Dyer; Sammie Gus Matthews, Mattie Ben Shipp, Junior Colburn, Lavern Snatt, Buster Brown and Junior Dyer. The Cheerful Workers will meet at the church Wednesday at 2:30 o'clock.

## COUNTRY CLUB OPENING DANCE THURSDAY NIGHT.

The opening dance of the Ranger Country club will be held Thursday night at the new clubhouse. The music will be furnished by the T. C. U. orchestra and the dance will be strictly an invitation affair. Club members from neighboring cities are expected as well as those from Ranger and a most enjoyable evening is being planned.

## MRS. BOON ENTERTAINS FOR GUEST, MRS. HODGE.

Mrs. S. P. Boon was hostess Friday at a delightful four-course luncheon honoring her guest, Mrs. F. D. Hodge of Corsicana. Sweet peas graced the table in centerpiece and place favors, the color scheme being pink and white. Guests for the occasion were Meses. E. D. Hodge, S. D. Terrell, C. D. Woods, A. C. Skillern, W. H. Carroll, M. R. Newnham, O. L. Phillips, C. E. Maddocks and L. H. Flewellen.

## PERSONALS.

Mrs. Gifford Clegg, two small sons and maid, left Saturday morning for an overland trip to Wisconsin. Mr. Clegg accompanied them as far as Dallas. They will spend the summer in Wisconsin with relatives.

A telegram received Saturday morning from Mrs. Bohning and Mrs. Luke said that they were having a wonderful trip and had reached Springfield, Mo., Friday night on their way to Chicago.

Mr. and Mrs. J. F. Smith and daughter, Oreta, leave today for an extended trip through California, Washington state and Canada.

Mrs. Roy Jameson and son, Roy Jr., leave today for a visit of several weeks with relatives in Waco. They are making the trip overland with members of the family who came after them.

Miss Bertha Fields of Houston is the guest of Mrs. B. D. Clark of Travis street.

Mrs. J. W. Fagg of Vernon is visiting Rev. and Mrs. H. B. Johnson and other friends for a few days.

Miss Ruth Hall left last week for Dallas where she will take a special course during the summer.

Rev. A. W. Hall and family will leave next week for the Methodist assembly at Sequoiah in the Ozarks. They will drive through in their new Essex car, and expect to stay until some time in July. While there they will visit Rev. Mr. Hall's brother, E. I. Hall, a teacher well known in Texas, where he was formerly superintendent of schools at Temple, Marlin and Dublin and professor of mathematics at Stamford college.

Miss Winnifred Dunkle was at home Thursday for a few hours during which time she was made vice grand of the Rebekah lodge. She returned soon after to Dallas where she is studying this summer at the Curry school of expression.

## BUSTLE OF MODERN LIFE INCREASES VOGUE OF COAT FROCK

COAT frocks are worn more and more. It is perhaps on account of the strenuous life we lead that women are so much in love with these coat dresses, made to be put on like a coat in a minute, and generally fastened on the left side, either with a single large button, or with a row of smaller ones. At the Long-champs Races, a few weeks ago, many coat frocks were seen. Henri Creange writes us from Paris, a Patou model being especially admired. The coat frock is especially charming when it is developed in lustrous Drapaca, as in the model sketched. The slight "lift" of the lapped over skirt is very smart. The dress fits snugly and is trimly buttoned part way down on the side. The rest of the buttons are left undone, which serves the double purpose of adding chic to the costume and power of locomotion to the wearer.

The severity which is sometimes too evident in the coat frock is here completely relieved by the charming femininity of a soft ruffled guimpe and collar, and ruffles on the sleeves. This lingerie trimming can be either of organdie, satin de Lyon, or flat crepe, and with two sets one may be always dainty.

The little hat is one of the sectional crown semi-sport shapes, and is quite easy to manufacture. It is also made of the Drapaca.

The vogue for simplicity continues, and fabric hats are worn by smart women for practically all daytime occasions.

CHENEY

## CALENDAR

### MONDAY.

St. Rita's Altar society meets at 2 o'clock in K. C. club rooms, Gholson hotel.

REMEMBER THE PLACE

# J. M. WHITE & CO.

RANGER, TEXAS

**HYPNOTIC INFLUENCE CLAIMED IN ATTACKING WEALTHY WOMAN'S WILL**

LIBERTY, Mo., June 14.—Efforts to break the will of Mrs. Julia Wood Davies, who left an estate of \$1,000,000 to Capt. Harry Zeiton, once an interpreter in a London police court, today revealed a story of spectacular spending by a woman in search of adventure.

Witnesses told how Mrs. Davies, seeking thrills, fell under the hypnotic influence of Zeiton. They said he encouraged her in the use of drugs and cajoled the wealthy woman to

appoint him secretary, and then while she was under the influence of drugs, to make a will leaving him all her property.

George Westling Davies, opera singer of St. Louis, the woman's fourth husband, and her two daughters, Miss Ruby and Mrs. James Kemper of Kansas City, brought suit to break the will. The trustees said the income amounted to more than \$1,000 a month. Physicians testified that she had been made insane by the use of drugs and alcohol.

The will was made in London in 1922 and Mrs. Davies died soon afterwards.

**JUDGE ROBERTSON TO SPEAK IN RANGER NEXT THURSDAY**

Judge Felix D. Robertson, Judge of

Criminal District Court No. 1, Dallas County, will outline the platform on which he seeks the Democratic gubernatorial nomination, to Ranger voters Thursday June 19. He is making a tour of the Panhandle and Plains section and after completing his campaign in West Texas on June 21 will go to the Rio Grande Valley. A native son of a native son, Judge Robertson was born in McLennan county more than a half century ago. His father was General Felix H. Robertson, who was born in Texas and served with distinction in the Civil War. His father, by the way, was born at the old town of Washington before the battle of San Jacinto. His grandfather was General Jerome B. Robertson, commander of Hood's brigade.

House of Youth THE BOSTON STORE, RANGER, TEXAS House of Youth

**A FAR - REACHING SUCCESS**

**Great Consolidation Sale**

The first two days of this sale have gone far beyond our expectations. Now we are determined to push over the top for all this week. Just six more days.

**Still Another Shipment of Dresses**

**\$5.00**

The first day of the sale brought another shipment of these wonderful frocks, and they have been placed in this \$5 group. When you have been paying \$5 for a house dress it is hard to make you realize the value, snap and style of these frocks at the same price.

Monday we offer 70 of these dresses at this extreme low price. Voiles in plain and printed patterns and embroidered designs, imported English broadcloths and ratine.

—Values up to \$12.50 for only \$5.00

**Wash Dresses**

**\$10.00**

A wonderful lot of Wash Dresses in the real summery materials. Beautiful new styles in the most wanted and desirable colors. A big range to select from at price within reach of all. **Choice \$10.00.**

**Two Groups**

**\$15.00**

An out of the ordinary group of fine Silk Dresses for every occasion at a wonderful low price. Really you will be surprised at the wonderful styles of these silk frocks. No two alike. Wanted materials, new colors. **Choice of group \$10.00.**

**Silk Dresses**

**\$25.00**

A bigger range of styles and materials in our better Silk Dresses at greatly reduced prices for our great consolidation sale. Really this group is the cream of our stock and you know the wonderful reputation of our ready-to-wear department. **See this group at \$25.00.**

**Stacy Adams Shoes and Oxfords**

**\$7.95**

**\$7.95**

We can't add anything to these well known brand of Shoes. They are known the world over for style, fit and wearing qualities. Not all sizes in each style but all sizes in some styles. All other shoes greatly reduced.

**ENTIRE STOCK IN EVERY DEPARTMENT ON SALE**

We haven't the space or time to quote all prices. We are too busy selling the goods. Everything on sale. Prices cut to the bottom. Come and see for yourself.
