## FAVORITE SONS TIE UP THE CONVENTION

### LOSS OF LIFE HEAVY IN OHIO TORNADO, BUT PROBABLY MUCH LESS THAN FIRST REPORTED

Lorain Heaviest Sufferer, But Sandusky and Other Places Are Also Hard Hit—Property Damage Will Run Into the Millions.

**LORAIN, Ohio, June 30.**—Amidst the shattered wrecks of her cities and villages, Ohio today sought to learn the full death toll in the tornado which devastated Lorain, Sandusky and other places late Saturday night. It is believed that approximately 80 lives were lost in the storm.

Bayonets of national guardsmen gleamed today among the ruins here, visible evidences of martial law to check vandalism and threatened spread of disease. Just as though thousands of artillery shells at Flanders had swept over the lawn, trees were uprooted, houses wrecked, roads made impassable because of the mass of debris piled up in them and church steeples toppled over. Through the avenues of destruction many survivors, escorted and aided by armed soldiers, still sought pitifully for missing members of their families.

Lorain appears to have borne the brunt of the tornado, which struck there after passing over Sandusky, and then went on to spend its fury at West Rover and Avon. Estimates early today of loss of life and property include the following:

At Lorain, 59 dead, property damage about \$15,000,000.  
At Sandusky, 3 dead, property damage about \$1,000,000.  
At Mantua, 3 killed in the collapse of a barn.  
At Avon (near Lorain), 3 dead.  
At Cleveland, 2 killed.  
At Akron, 1 dead.  
At Medina, 2 swept from a flooded bridge and drowned.

#### FERTILE EGGS BARRED DURING SUMMER AT DECATUR

**DECATUR.**—Meeting under call of the Chamber of Commerce and the county extension farm officers, the produce men and grocers unanimously signed an agreement that shall inhibit, beginning with a fixed date one month off, their buying anything but infertile eggs from the producers of this territory. The agreement reads as follows:

"We, the grocers and produce men of Decatur find from experience that it is no longer profitable to us or to the egg producers of our territory to handle fertile eggs during the summer months.  
"We find, too, that infertile eggs command a much better price when personally guaranteed by the use of a stamp bearing the producer's name and address and the word infertile. We, the undersigned, therefore, agree that after three weeks from publication of this notice we will not buy any eggs other than infertile eggs which are personally guaranteed as above specified. This agreement to be in effect until Sept. 15, 1924."

#### CALLING FOR REFORM TO LOWER MEAT PRICES

**ROCHESTER, N. Y.**—When your butcher charges you 74 cents a pound for a combined piece of meat and his hand on the scale, don't blame it on the butcher, the packer or the stock-raiser. Blame it on the kitchenette, or rather the ladies that have them, who might be called kitchenettes. This was the meaning of a speech by John A. Kotal, national secretary of the United Master Butchers association, to New York state butchers.

As Kotal explained it, the kitchenettes are small and there isn't room to cook a big piece of meat. So the kitchenettes buy a small bit. She doesn't like to tough, so she buys the best. After 100 or so kitchenettes finish with the butcher, he has huge quantities of dog and cat meat, but no customers for it. Many dogs and cats would be willing consumers but were unable to pay in anything but barks and meows.

The secretary didn't suggest any very definite process of solving the problem, but some of the delegates discussed the desirability of meeting the situation by passing a constitutional amendment, compelling kitchenettes to either be vegetarians or to eat in restaurants, where they could take the tough with the tender.

**FRAIL WOMAN SEEKS WORK  
HARVESTING IN WHEAT FIELD**  
**FORT WORTH.**—A frail little woman walked into the U. S. Farm Labor bureau office here with three children trailing her and asked for a job as harvest hand in the Oklahoma wheat field. "I've got to go," she said.

"I've tracked through this town for days and can't find anything to do. These kids are hungry and that's bad when they're this age."  
The men in the bureau made up a purse to send her to her father's home in Oklahoma.

### RANGER GOLFERS PLAY AT STRAWN WINNING MATCH

Win 5 Out of 8 Matches; Secretary Urges Continued Hard Practice.

The golf team of the Ranger Country club is picking up and coming back to life. They went to Strawn yesterday and trimmed the Strawn team in a scheduled Oil Belt association meet by taking 5 out of 8 matches.

A little practice will accomplish wonders, as was sufficiently demonstrated yesterday by the scores turned in by the Ranger team. The members of the team have been practicing steadily for the last week and Herbert Mendenhall, secretary of the team, requests that every man who can possibly do so be on the course every day this week. Eastland will come to Ranger next Sunday and as they will have approximately 25 in their team it behooves the Ranger men to get out and practice if they hope to take the Eastland aggregation into camp.

The Ranger team finished the course yesterday in the following order:

Ranger—Strawn	Point.	R. S.
Milliken-Cousins	3-2	1 0
Clegg-Watson	0-1	0 1
Smith-Flynn	3-2	1 0
Pond-Cooper	8-7	1 0
Craig-Phillips	817	1 0
Rector-Higgins	7-6	1 0
Cogle-Tucker	3-4	0 1
Dyar-Humberson	1-2	0 1
		5 3

### OFFICIAL VOTE ON THE ANTI-KLAN RESOLUTION

**NEW YORK, June 30.**—The vote in the democratic convention early Sunday morning came on the adoption of the minority report of the committee on resolutions favoring a plank in which the Ku Klux Klan was denounced by name. Following was the ballot:

Alabama, 24 ayes.
Arizona, 1 aye, 5 noes.
Arkansas, 18 noes.
California, 7 ayes, 19 noes.
Colorado, 5 ayes, 6 noes.
Connecticut, 13 ayes, 1 no.
Delaware, 6 ayes.
Florida, 1 aye, 11 noes.
Georgia, 1 aye, 22 noes.
Idaho, 8 noes.
Illinois, 45 ayes, 13 noes.
Indiana, 5 ayes, 25 noes.
Iowa, 13 ayes, 12 ayes.
Kansas, 20 noes.
Kentucky, 9 ayes, 16 ayes.
Louisiana, 20 noes.
Maine, 8 ayes, 4 noes.
Maryland, 16 ayes.
Massachusetts, 35 ayes, 1/2 no.
Michigan, 12 ayes, 16 ayes.
Minnesota, 17 ayes, 7 noes.
Mississippi, 20 noes.
Missouri, 10 ayes, 25 ayes.
Montana, 1 aye, 7 noes.
Nevada, 6 noes.
New Hampshire, 2 1/2 ayes, 5 1/2 noes.
New Jersey, 28 ayes.
New Mexico, 1 aye, 5 noes.
New York, 90 ayes.
North Carolina, 3 85-100 ayes, 20 15-100 noes.
North Dakota, 9 ayes, 1 no.
Ohio, 32 ayes, 16 noes.
Oklahoma, 20 noes.
Oregon, 10 noes.
Pennsylvania, 49 1/2 ayes, 24 1/2 noes.
Rhode Island, 10 ayes.
South Carolina, 18 noes.
South Dakota, 6 ayes, 4 noes.
Tennessee, 3 ayes, 21 noes.
Texas, 40 noes.
Utah, 4 ayes, 4 noes.
Vermont, 8 ayes.
Virginia, 2 1/2 ayes, 21 1/2 noes.
Washington, 14 noes.
West Virginia, 7 ayes, 3 noes.
Wisconsin, 25 ayes, 1 no.
Wyoming, 2 ayes, 4 noes.
Alaska, 6 ayes.
District of Columbia, 6 ayes.
Hawaii, 4 ayes, 2 noes.
Philippines, 2 ayes, 2 noes.

#### NORTH CAROLINA TOWN HAS 200TH BIRTHDAY

**BATH, N. C.**—Bath has just celebrated the 200th anniversary of its incorporation. A memorial was unveiled and patriotic societies took part in the ceremonies. The town was founded in 1706, but not incorporated until June 19, 1924.  
At one time it was a bustling town and was the first capital of North Carolina. The notorious pirate, "Blackbeard," made his headquarters here. "Blackbeard" was killed by a British naval officer in a battle at the eastern end of Pamlico sound.  
Tradition says one of the first preachers to locate in the place became so incensed at the conduct of the early settlers that he "shook the dust of the village from his feet" upon departing, and pledged that it should never prosper. The present population is 274.  
The oldest church in the state, St. Thomas' Episcopal, is located here.

#### DOG'S OWNER THINKS IT FORESAW AN EVIL HOUR

**EL PASO.**—W. J. Wile is convinced that his pet bulldog has premonitions of evil to befall its master. The dog for one whole day followed Wile about whining piteously. Then it went to Wile's wife with more whines. That evening Wile fell and broke his arm.

### SCENES AT THE DEMOCRATIC CONVENTION

### McAdoo Wins Vote Of Missouri Which Instructed For Him

**CONVENTION HALL, NEW YORK, June 30.**—The Missouri delegates had to be polled on the first ballot, when objection was made by one of the delegates to casting the Missouri vote under the unit rule and giving McAdoo a total of 36 votes. The poll of the delegation showed: McAdoo 25, John W. Davis 3 and 8 present not voting. The chair then allowed Joseph Shannon of Kansas City the floor. It was Shannon who had protested against casting the delegation vote under the unit rule. He was permitted five minutes to argue his point.

Shannon contended that the instructions to vote as a unit for McAdoo were given the delegation by a "trick." He declared that money had been sent into Missouri to win the McAdoo delegation for McAdoo, when, as a matter of fact, a great majority of the delegates to the Missouri state convention, which instructed the delegates, were for Senator Jim Reed. He argued that when a delegate voted "present and not voting" it could not be held that he had cast his vote with the majority. He claimed that the majority had been bought and that "we decline to be delivered even if we were sold." With this statement he closed, while many of the McAdoo delegates in the Missouri and neighboring delegations hissed him.

Frank H. Ferris of Rolla answered Shannon and declared that every Missouri delegate for McAdoo was publicly committed for McAdoo before the state convention met. "We were all elected by the regularly constituted democratic state convention and by an overwhelming majority," Ferris said. He read from the rules of the Missouri state convention to prove that the whole Missouri delegation was committed to vote as a unit.

Chairman Walsh said the chairman would have to decide on the basis of the instructions from the state convention and repeated the instructions. He ruled that the unit rule would prevail and the Missouri vote was then recorded in compliance with the wishes of a majority of the delegates, McAdoo thereby receiving 36 votes.

#### CHICAGO, June 30.

An entire family of five—Mr. and Mrs. Otto Eder and their three small boys—were found beaten to death in their suburban home near here early today. The heads of the victims apparently had been battered with a blunt instrument.

Immediately after finding the bodies by neighbors, search was started for an acknowledged imbecile who had been living with the Eder family. The man's name was not known. The half-wit, according to neighbors, had not been seen since Friday. The victims apparently had been dead more than a day when the bodies were found.

#### WEST TEXAS WHEAT CROP REPORTED SATISFACTORY

**ABILENE.**—With the grain harvest in full blast, a bumper crop is being threshed in the Abilene territory, according to reports from various parts of this section. Wheat is yielding from 20 to 50 bushels to the acre and is testing from 60 to 64 pounds. One farmer is reported to have made 53 bushels to the acre. George Preston threshed 1,500 bushels of barley from 14 acres of land, a yield of 107 bushels to the acre.

### McADOO LEADS CANDIDATES ON FIRST BALLOT

Polls 431 1-2 Out of 1,096  
Total, Smith Being Next  
With 241 Votes.

**MADISON SQUARE GARDEN, NEW YORK, June 30.**—William G. McAdoo led the field on the first ballot on the democratic national convention today with a vote of 431 1/2 against 241 for Governor Al Smith, his closest competitor. But the ballot did not mean much more than a warming up.

Votes were cast for 18 different candidates, covering the entire field of favorite sons. The vote did not come up to the mark that the McAdoo managers have been claiming—that is, a vote of between 500 and 600 in the convention get-away, but it is entirely likely that McAdoo will show a slight increase in strength in succeeding ballots before reaching his maximum vote and before reaching a deadlock with Smith.

The official first ballot was as follows:

Total number of votes cast, 1,096.
Underwood, 42 1/2.
Cox, 59.
Davis (W. Va.), 39.
McAdoo, 431 1/2.
Ralston, 30.
Robinson, 21.
Smith, 241.
Houston, 43 1/2.
Thompson, 1.
Brown, 17.
Saulsbury, 7.
Ritchie, 22 1/2.
Bryan, 18.
Silzer, 38.
Davis (Kan.), 20.
Ferris, 30.
Sweet, 12.
Kendrick, 6.

### Family Of Five In Illinois Killed By Imbecile Is Claim

**CHICAGO, June 30.**—An entire family of five—Mr. and Mrs. Otto Eder and their three small boys—were found beaten to death in their suburban home near here early today. The heads of the victims apparently had been battered with a blunt instrument.

Immediately after finding the bodies by neighbors, search was started for an acknowledged imbecile who had been living with the Eder family. The man's name was not known. The half-wit, according to neighbors, had not been seen since Friday. The victims apparently had been dead more than a day when the bodies were found.

#### TEACHERS TAKING SUMMER STUDIES IN MEXICO CITY

**SAN ANTONIO.**—Headed by Prof. G. H. Patison, formerly of the William and Mary in Virginia, a party of 55 high school and university teachers, have gone to the city of Mexico. The teachers, who come from 18 states, will enroll in the summer courses at the Universidad Nacional and will spend two months in Mexico.

### Convention Leaders For McAdoo Plan To Nominate Today

**MADOO HEADQUARTERS, VANDERBILT HOTEL, NEW YORK, June 30.**—McAdoo leaders decided in a series of conferences that were concluded at an early hour this morning, to attempt a coup at the democratic convention for their candidate before the session adjourns today.

Their plan calls for the nomination of McAdoo between the eighth and tenth ballot. Group leaders informed the Californian that his maximum strength could be conservatively estimated at 553 votes. In the first ballot it was estimated he would get 428 votes (he got a few more than that number). On the third ballot, it was expected a break would be made towards McAdoo and by the sixth ballot about 125 votes would have been picked up, group leaders claimed.

In view of this line-up leaders argued that if McAdoo was to be put over it must be done today or tonight and agreed they would try to hold the convention in session until at least 10 ballots had been taken.

#### 'CARPON FISHERMAN GIVES EXHIBITION IN NATATORIUM

**HOUSTON.**—C. L. Bering, armed with a tarpon fishing outfit, "played" several human swimmers at a natatorium here and "landed" all but two of them in an exhibition. Each swimmer was allowed to swim half way across the pool before Bering started hauling them in.

#### POLICEMAN BALKS WHEN ASKED TO CHASE A SNAKE

**SAN ANTONIO.**—Snake chasing has been added to the list of a policeman's duties here. Patrolman Davis responded to a hurry call and a frightened woman demanded that he crawl under her house and root a reptile that had hid in from the nest. However, since the snake had made the intrusion three days earlier, Davis figured it would do no harm under the house.

#### CATTLE DIPPING IN TEXAS MORE ACTIVE THAN EVER

**FORT WORTH.**—Cattle dipping in Texas to eradicate fever ticks was more active during May than it has been in several months, according to J. E. Boog-Scott, chairman of the live stock sanitary commission. The work is being done jointly by the commission and the bureau of animal industry.

#### DRINKING PARTY NEARLY TRAGIC IN ITS CLIMAX

**HOUSTON.**—A combination of bad liquor, an argument, and an eight-foot hole dug for a telephone pole brought a near-tragedy to a Mexican here.

He had been drinking with three companions all evening. The argument was a purely "friendly" affair, but it soon waxed hot and developed into a fight—three on one side and one on the other.  
The lone fighter fled, but was quickly recaptured. Then the gaping telephone pole hole caught the eye of one of the three. Shouting to his allies, he pointed to the hole.  
With admirable aim, considering their condition, the three up-ended the solitary victim and thrust him head first into the hole. Fortunately, the bottom of the hole was dry, and after an hour of agonized struggling he managed to extricate himself.  
Police are searching for the three, although they are inclined to lay most of the blame on the all too handy cavity.

### FOUR CONNECTED WITH OIL DEALS ARE INDICTED

Fall, Sinclair and Two Doheny's, Father and Son, Are Charged With Conspiracy

**WASHINGTON, June 30.**—Albert B. Fall, Harry F. Sinclair, Ed L. Doheny and his son Edward Jr., were indicted here today by a special grand jury which has been investigating the oil leases granted by Fall when he was secretary of interior. Fall and Doheny, father and son, are all charged in one count with conspiracy to defraud the United States, and in a second count Fall is charged with accepting a bribe and in a third count Doheny with offering bribes.

Fall and Sinclair are charged with conspiracy to defraud the government.

### Democrats Adopt Resolution Honoring Warren G. Harding

**MADISON SQUARE GARDEN, NEW YORK, June 30.**—The democratic convention today adopted the following resolutions in memory of the late President Harding:

"In the political campaigns the American people are divided into opposing parties. After election they are as one man in allegiance to the government and loyalty to the nation's chief executive. As democrats we stand uncovered beside the grave of the late Warren G. Harding, late president of the United States, vying with his friends in expressions of regret and sympathy for his family."

#### N. Y. PROPOSES TO SPEND MILLIONS ON CANAL

**ALBANY, N. Y.**—It will cost the state of New York \$25,200,000 to deepen the barge canal from 12 to 14 feet and to widen it from 75 to 110 feet, according to estimates made by state engineers and surveyors. The legislature will be called on to pass on the project after which the electors will have to vote favorably before the bonds can be issued.

#### DRINKING PARTY NEARLY TRAGIC IN ITS CLIMAX

**HOUSTON.**—A combination of bad liquor, an argument, and an eight-foot hole dug for a telephone pole brought a near-tragedy to a Mexican here.  
He had been drinking with three companions all evening. The argument was a purely "friendly" affair, but it soon waxed hot and developed into a fight—three on one side and one on the other.  
The lone fighter fled, but was quickly recaptured. Then the gaping telephone pole hole caught the eye of one of the three. Shouting to his allies, he pointed to the hole.  
With admirable aim, considering their condition, the three up-ended the solitary victim and thrust him head first into the hole. Fortunately, the bottom of the hole was dry, and after an hour of agonized struggling he managed to extricate himself.  
Police are searching for the three, although they are inclined to lay most of the blame on the all too handy cavity.

#### RESULTS OF THE FIFTH BALLOT

Results of the fifth ballot:  
Total vote, 1,098. McAdoo 441 1-10, Cox 59, Davis 34 1/2, Glass 25, Ralston 30, Robinson 19, Underwood 42 1/2, Silzer 28, Bryan 19, Ritchie 32 9-10, Jonathan Davis 28, Brown 8 1/2, Pat Harrison 20 1/2, Saulsbury 6, Ferris 30, Thompson 1, Walsh 1.  
(Continued on page two.)

### SEVEN BALLOTS FAIL TO BRING NOMINATION

McAdoo and Smith Make Slight Gains; Recess Probably Until Tonight.

**MADISON SQUARE GARDEN, NEW YORK, June 30.**—The deadlock on the presidential nomination in the democratic national convention continued hard and fast up to and after the seventh ballot this afternoon. It was understood at 3:25 o'clock that the plan at this time was to continue until 10 ballots had been taken. This was expected to take the session up to about 5 o'clock when it was proposed to take a recess until 8 o'clock if no nomination had been made.

During the three hours intermission there will be a series of conferences and marked changes, with elimination of several favorite sons, is anticipated when the convention meets again at 8 o'clock. The seventh ballot showed for neither McAdoo or Smith any marked increase of strength as had been claimed by their managers. The seventh ballot showed:

Total vote cast 1,098. McAdoo 442 3-5, Smith 261 1/2, Cox 50, John W. Davis 55, Glass 25, Ralston 30, Robinson 19, Underwood 42 1/2, Silzer 28, Bryan 18, Ritchie 20 9-10, Jonathan Davis 30, Brown 8, Pat Harrison 20, Saulsbury 6, Ferris 30, Thompson 1, Walsh 1.

#### Second Ballot.

**MADISON SQUARE GARDEN, NEW YORK, June 30.**—William G. McAdoo continued to lead the field on the second ballot in the democratic national convention this afternoon, but failed to show the increase of strength that had been claimed for him by his managers. His total of 431 on the second ballot, as a matter of fact, was one-half a vote less than he polled on the first ballot. Governor Al Smith scored a gain of 10 1-2 votes on the second ballot as compared with the first ballot. Votes for 19 candidates were cast on the second ballot, Senator Walsh of Montana, being a new entry. The second ballot:

Total vote cast, 1,098. McAdoo 431, Smith 251 1-2, Cox 61, John W. Davis 32, Glass 25, Ralston 20, Robinson 41, Underwood 42, Silzer 30, Bryan 18, Ritchie 21 1-2, Jonathan Davis 23, Brown 12 1-2, Saulsbury 6, Walsh 1, Sweet 12, Pat Harrison 23 1-2, Ferris 30, Kendrick 6, Thompson 1.

#### Third Ballot.

Three ballots in the convention failed to bring about any nomination for the president or even to indicate the drift that would break the deadlock between McAdoo and Smith. McAdoo lost a few votes after the first ballot, but not enough to indicate any weakness and, with 18 candidates being voted it was apparent most of these favoring some "favorite son" must be shaken off before any tangible indication of victory for any could be determined. The third ballot:

Total votes cast 1,098. McAdoo 437, Smith 255 1-2, John W. Davis 34, Glass 29, Ralston 30, Robinson 42, Underwood 42, Saulsbury 28, Bryan 19, Ritchie 22 1-2, Jonathan Davis 20, Brown 12 1-2, Pat Harrison 23 1-2, Sweet 6, Kendrick 6, Ferris 30, Thompson 1, Walsh 1.

#### Fourth Ballot.

No nomination having been made after the fourth ballot in the democratic convention leaders were discussing a recess after a few more ballots this afternoon until tonight when the real scrap between McAdoo and Smith would be staged. Both McAdoo and Smith showed small gains on the fourth ballot, the total vote being 1,098.

Smith 260, McAdoo, 443 2-3, Cox 59, Ralston 30, Robinson 19, Underwood 41 1/2, Silzer 28, Bryan 19, Ritchie 21 1/2, John W. Davis 34, Governor Jonathan Davis 29, Brown 9 9-10, Pat Harrison 20 1/2, Saulsbury 6, Ferris 30, Thompson 1, Walsh 1, Glass 45.

#### Fifth Ballot.

The fifth ballot for president in the democratic convention this afternoon failed to bring McAdoo the gains that his managers claimed would materialize on that trial. McAdoo polled 441 1-10 against 261 for Smith. There were no marked changes in the votes cast for the long list of candidates and McAdoo and Smith managers conferred on a recess for the rest of the day. It was decided to continue balloting until 3, when another conference would be held to determine if to continue to 6 or 7 o'clock or take a recess at 4 until 8 p. m.

**SAFETY OF THE PERFECT**  
Behold, God will not cast away a perfect man, neither will He help the evil doers.—Job 8:20.  
**PRAYER**—O God, Thou dost move in a mysterious way Thy wonders to perform. But we have seen These work wonders, and we trust Thee.

**THE FOURTH OF JULY**

One hundred and forty eight years ago a small group of men met in Philadelphia and discussed the proposition to rebel against the king, and risk their lives in an effort to throw off the British yoke. On the fourth day of July, 1776, the Declaration of Independence was drawn and adopted by conference, and it was signed on that day by John Hancock, the president of the convention and Charles Thompson, secretary. The actual signing of the document by representatives of states did not actually occur until some months later and when it was done the men knew they were outlaws with a price on their heads, because it was red revolution. It meant something to sign that document. It took courage; a willingness to die if necessary, for conscience and for country. That document meant this: "King George, we do not want you any longer as our ruler. England, we will pay you no more tribute. From this day forward we will be an independent power in the world, and we defy you and all the rest of the world to prevent our being what we wish to be!" This was democracy born in the world.

History moves in mysterious cycles, and the man who has learned his best lessons in the harsh school of experience is not averse to profiting from the experience of others. We of 1920 can profit from that of the shrewd patriots of 1776, who sought and gained political independence and bequeathed it to us.

Once the movement for a new America was started, a wise old leader advised the factions that they had their choice of hanging together or hanging separately. It was, and is, good advice. This must continue to be a government of and by the people whatever results may be—else no man can foretell what may happen. Almost every system and condition in life has changed since our forebears gave up their lives for a theory—an experiment, then considered the "reddest" thing in the history of the world. And yet in no other land and in no other time has the individual enjoyed such blessings as he enjoys today in America.

We need, not more independence but more realization of interdependence. We can develop calmly, smoothly, rationally, or we can exterminate each other so that no one will benefit. The first course is easier and the results are more pleasing. Let us stick to the original principles, and this Fourth of July, renew our allegiance to the Declaration of Independence.

The governor of Nebraska is determined to have gasoline at what he believes to be a fair price—15 cents per gallon, and has authorized municipal stations for this purpose. Meanwhile the attorney general has instituted proceedings against fifteen oil companies on a charge of price fixing and conspiracy to drive competitors out of business. They are cited into court on July 1.

During the first 15 days of May the Canadians sent through the Panama Canal 682,528 tons of wheat. The price of this wheat is fixed in Liverpool and the price of American wheat is fixed at the same place.

The New York Times is responsible for the statement that Madison Square Garden is now holding the greatest dark horse show in its history.

**Convention**

(Continued from page one)  
**Sixth Ballot.**  
Governor Smith was showing a slight but consistent gain through the sixth ballot, rising from 241 votes on the first ballot to 261½ votes in the sixth ballot. There being no nomination at the end of the sixth ballot, preparations were at once made to take a seventh ballot. The sixth ballot showed a total of 1,098 votes cast for the following: McAadoo 443 1-10, Smith 261½, Cox 59, John W. Davis 55½, Glass 25, Ralston 30, Robinson 19, Underwood 42½, Silver 28, Bryan 18, Ritchie 22 9-10, Jonathan D. Davis 27, Pat Harrison 20½, Salsbury 6, Ferris 30, Thompson 1, Walsh 1.

**MARRIAGE LICENSES.**

Pedro Lopez and Alexandra Peres, Cisco.  
S. P. Gilbert and Miss Hattie Travis, Ranger.  
Thomas M. Rich and Miss Mary E. Gilgore, Cisco.  
Sam A. Moore and Miss Agnes Phillips.  
W. E. Crawford and Miss Florence Jones, Cisco.  
J. L. Higdon and Miss Ruby Kate Richardson, Abilene.

**ALL DUE TO PROHIBITION**

"There are thousands of homes in Arkansas where a greater measure of domestic happiness exists, where less privation and want are to be found, all due to our prohibition laws, state and national. Business men, such as merchants, sawmill operators, construction contractors, and manufacturers, tell us that labor conditions have been more satisfactory under prohibition than before. There is greater thrift, less suffering, and more domestic community tranquility than during the days of the open saloon."—Governor Thomas McRae, Arkansas.

**TORONTO, Ont.—Mathematicians**

from all parts of the globe will attend the seventh international mathematical congress, which is taking place here in August, concurrently with the meetings of the British Association for the Advancement of Science.

**MEN AND WOMEN IN DAY'S NEWS.**

Above: GANNA WALSKA & JAMES A. REED  
Below: JAMES A. LOGAN, JR. & FRANK O. KELLOGG

Ganna Walska hysterically refused to confirm or deny in Paris the report that Harold P. McCormick, Chicago harvester king, intended to sue for divorce because of alleged extravagances. U. S. Senator James Reed, of Missouri, is seriously ill in a Kansas City, Mo., hotel. Frank B. Kellogg, Ambassador to Great Britain, and Colonel James A. Logan, Jr., unofficial observer on the Reparations Commission, will represent America at the allied conference to put the Dawes plan in operation.

**HOW CITY PEOPLE GET ABOUT.**

An official count was made recently in one section of Chicago between 6:30 a. m. and 6:30 p. m. on a normal week day to discover the number of people carried by various vehicles.  
It was found that 31,680 commercial vehicles carried 31,700 occupants. Passenger automobiles to the number of 42,130 carried 84,300 occupants. Electric street cars to the number of 8,300 carried 330,000 passengers. These street cars carried nearly 75 per cent of all the people.

**\$700,000,000 KITCHEN WASTE**

**CHICAGO.**—The press agent of the National Association of Ice Industries arises from his swivel chair to remark that the annual waste of the American (meaning U. S.) kitchen has reached \$700,000,000. It is understood that no specific criticism of the June bride is intended and the press agent is merely in a good word for manufacturers of refrigerators, who feel that they must live.

**ALL AUTO OWNERS INVITED TO JOIN THE NEW CLUB GALVESTON, June 24.**

"This car stops at all grade crossings," is the neat, little black and white insignia of members of the "Stop, Look and Listen Club" here.  
John S. Douglas, general agent of the Santa Fe, is organizing similar clubs throughout Texas. It is the Santa Fe's way of co-operating with the careful crossing campaign conducted by the American Railway association. The first 10,000 signs were to be distributed within the next few days.

**SURGEON'S SHOP RAIDED**

**ABILENE, June 27.**—Burglars, with an unusual taste for stolen goods, broke into the office of Dr. M. A. Swan here and made off with \$1,600 worth of surgical instruments and equipment.

**MISS CONNERLY BECOMES UNIVERSITY LAW LIBRARIAN**

**AUSTIN, June 30.**—Miss Doris Connerly, of Austin, who received her L.L.B. degree from the University of Texas, has begun her duties as law librarian in the University of Texas law school. Miss Connerly has been in the office of Baker, Botts, Parker and Garwood, of Houston, since receiving her degree.

**CITATION BY PUBLICATION.**  
THE STATE OF TEXAS,  
To the Sheriff or any Constable of Eastland County—Greeting:  
You are hereby commanded to summon Joe Higgins by making publication of this citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published thereat, if not, then in any newspaper published in the judicial district; but if there be no newspaper published in said judicial district, then in a newspaper published in the nearest district to said judicial district to appear at the next regular term of the county court-at-law of Eastland county, to be holden at the courthouse thereof, in Eastland, Texas, on the 2nd Monday in July, A. D. 1924, the same being the 14th day of July, A. D. 1924, then and there to answer a petition filed in said court on the 13th day of June, A. D. 1924, in a suit, numbered on the docket of said court as No. 4023, wherein C. H. Mosley is plaintiff, and Joe Higgins is defendant, and said petition alleges that hereunto to-wit, and on or about the fifth day of April, 1924, and each day thereafter, until the 15th day of April, 1924, that this plaintiff at the instance and request of the said defendant, labored and performed services as a driller upon an oil and gas well, for the said defendant, and that this plaintiff used a No. 4 Clipper drilling machine, or rig, together with the bits, ropes, sockets, and other property in the drilling of a well on the Ryan lease 2½ miles east and north of Carbon, Texas, in Eastland county, upon which a well was then and there being drilled, and upon which said oil well machinery above described is now being located. That the defendant agreed to pay plaintiff \$10.00 per day for said labor and services performed and that defendant is now indebted to plaintiff in the sum of \$110.00 with interest thereon from said date at the rate of six per cent per annum. That thereafter on the 14th day of May, 1924, in Vol. 6, page —, deed records Eastland county, Texas, plaintiff caused to be filed a laborer's lien upon said well drilling machine, valued at \$200.00, and that this plaintiff is entitled to a foreclosure of his laborer's lien by reason of the fact that the said \$110.00 or no part thereof has been paid to the plaintiff. That the said labor and services were performed under an oral contract by plaintiff.  
Wherefore plaintiff prays the court that defendant be cited to appear and answer this petition, that he have judgment for his debt, interest and costs of suit, and for the foreclosure of his laborer's lien on the above described well machine, and that the same be decreed to be sold according to law that the sheriff, or other officer executing said order of sale, shall place the said purchaser of the said property sold under said order of sale in possession thereof, as required by law, and for other and further relief, special and general in law and in equity, that he may be justly entitled to, etc.  
At its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same, shall be paid to me. Given under my hand and the seal of said court, at office in Eastland, Texas, this 28th day of June, A. D. 1924.  
(Seal)

U. S. TO SEND TEAM TO ENTER IRISH GAMES

By FRANK GETTY. United Press Staff Correspondent. NEW YORK, June 30.—Ireland has invited her sons and daughters home for athletic games next August—games antedating even the Olympics.

The Irish games are named in honor of Queen Taittea, and have their foundation back in the days when Irishmen lived together in peace—if you believe the histories.

The American Tailteann council is under the presidency of Murray Halbert, president of the board of aldermen of New York and vice president of the Amateur Athletic union of the United States.

More than one-half of the men and women swimmers, boxers and wrestlers who have been selected for the American Olympic team are eligible for, and are expected to compete in the Tailteann games in Ireland.

The Tailteann games, which are a revival of famous games held in Ireland for two thousand years, but which lapsed 700 years ago, have aroused great enthusiasm in athletic circles throughout the world.

It is hoped that the American group will be of outstanding strength and will comprise full teams in track and field athletics, swimming, diving, cycling, boxing, hurling, football, rounders (the present game of baseball), handball, Irish dancing, etc.

In addition to the athletic pursuits the games will comprise competition in music, literature, arts and crafts industry, etc.

RANGER PILES UP RUNS IN THE EIGHTH INNING

Nitros Defeats the Breckenridge Dynamios in Fast and Exciting Game.

Playing with their old-time form the Ranger Nitros gave the Breckenridge Dynamios the air yesterday in a thrilling hard fought game to the tune of 9 to 1.

The Nitros started off in the first inning by grabbing two runs when Lory walked. Dinsmore grounded out, McElearth singled, Weatherford grounded out, Hensley singled, and McCasland grounded out.

The Dynamios perked up in their half and Robinson stepped into one of Weatherford's fast ones and scored when Griggs and Williams singled. Weatherford settled down and struck the next two men out. Breckenridge never seriously threatened for the remainder of the game although displaying a very belligerent attitude at times.

The Nitros were effectively stopped by Blankenship until the memorable eighth inning, although he was touched up for a hit in every inning.

In the eighth the entire team, seeking revenge for the lost game of the day before, lit into the offerings of Blankenship as if they were pie and seven runs were scored before the nightmare ended for the Dynamios.

The box score: Ranger— AB. R. H. PO. A. E. Lory, 3b . . . . . 4 2 3 1 0 0 Dinsmore, ss . . . . . 3 1 1 3 3 1 McElearth, ss . . . . . 5 2 2 1 0 0 Weatherford, p . . . . . 5 1 1 0 3 0 Hensley, c . . . . . 5 0 2 11 1 0 McCasland, rf . . . . . 4 1 0 0 0 0 Maupin, 2b . . . . . 5 1 1 4 4 1 Shires, 1b . . . . . 3 0 0 6 0 0 Guydas, rf . . . . . 3 0 1 1 0 0 Ridings, . . . . . 1 1 0 0 0 0 Totals . . . . . 38 9 12 27 11 4

Summary—Sacrifice hits, Dinsmore, Tabor, McCasland; two-base hit, McElearth; stolen bases, Williams, Lory; innings pitched, by Blankenship 7-2-3, by Scrolley 1-3-7; struck out, by Weatherford 8, by Blankenship 1, by Scrolley 2; hit: off pitcher, off Blankenship 12, off Scrolley 0; bases on balls, off Weatherford, 4; hit by pitcher, Robinson, Dinsmore; passed ball, Schmidt; double play, McArdle to Ruth to Williams; Dinsmore to Maupin to Shires; first on errors, Breckenridge 2, Ranger 1; umpires, Brusard and Price; time of game, 1:45.

MAGNOLIAS WIN THRILLING GAME FROM TEXACOS

Score 8 to 7 for Olden Leaves Parks Camp With Slight Margin in Lead.

OLDEN, June 30.—The Magnolias took a thriller from the Texaco Stars at Magnolia park, Olden, Sunday afternoon, by the score of 8 to 7, leaving the Parks Camp outfit, with a scant one game lead for Oil Belt association first half honors.

The game was a thriller with Purvis and Koch turning back the batters for four innings with startling regularity. Each team scored a run in the fourth. But in the fifth and sixth the big bat of Ox Rainey spelled the first six syllables of defeat for the league pace-setters.

Although Koch was hit freely throughout, he kept the bingles fairly well scattered until the ninth. In this stanza the Parks Camp gang broke loose and a rain of base hits after two were down rushed over four runs and left an epidemic of heart failure in Olden that bids fair to stop business for a week at least.

Both clubs fielded in good form. Flagg and Jarrett vied with Dean in the knock down and throw em out contest for first honors. Bound and Newport were the backbone of the Parks defense.

Magnolias— AB. R. H. PO. A. E. Flagg, ss . . . . . 4 2 2 2 3 0 Dean, 3b . . . . . 5 2 2 0 4 0 Rainey, 1b . . . . . 3 1 3 11 0 0 Neeley, m . . . . . 4 1 0 3 0 0 Lupina, 2b . . . . . 4 0 1 0 0 0 Jarrett, ss . . . . . 2 0 0 3 4 1 White, c . . . . . 4 1 1 0 0 0 Koch, p . . . . . 4 1 1 0 3 0 Total . . . . . 33 8 11 27 14

Texaco— AB. R. H. PO. A. E. PAUL J. RAINEY MEMORIAL DEDICATED TO THE BIRDS NEW YORK, June 23.—A region of approximately 26,000 acres of marsh lands situated in Vermillion parish, La., has been given to the National Association of Audubon societies as a bird sanctuary.

This magnificent contribution to the cause of wild life conservation has been made by Mrs. Grace Rogers, sister of the late Paul J. Rainey, world renowned hunter, photographer and explorer.

The territory will not only be carefully guarded against all hunters, but every effort will be made to render the place attractive to wild fowl, which especially in winter frequent the region in such vast numbers.

Arrangements are being made for the immediate planting of duck foods in large quantities, "and the ducks once attracted here will never be frightened away by the roar of guns," added Dr. Pearson.

It is understood that not only has Mrs. Rogers presented these famous shooting grounds to the National Association of Audubon societies for the purpose of establishing a Paul J. Rainey wild life sanctuary, but she has also given the association sufficient funds to develop and maintain the territory in perpetuity as a haven for wild bird life.

Police Complain of Lack of Respect to the Flag. PORT ARTHUR.—Local citizens are lacking in respect to Old Glory, according to police officials.

Summary: Sacrifice hits, Josefson, Flagg, Johnson; two-base hits, Dean, Sisk, Sealy, Koch; three-base hits Sealy, Ramey; home runs, Rainey, Newport; stolen bases, Bounds, Sealy, Flagg; pitchers, Josefson, Lupina; struck out, Koch 8, Pervis 2; first on balls, Pervis 4; left on bases, Texaco 9, Magnolias 7; umpires, Elliot and Box; time of game, two hours and two minutes.

**GIANT MONUMENT TO THE 'LOST CAUSE' IS TAKEN INTO COURT**

ATLANTA, Ga.—Charging a plot to "rule or ruin," a permanent injunction was sought in the DeKalb circuit court to prevent Sam H. Venable, part owner of Stone Mountain from interfering with the work of carving a gigantic memorial to the "Lost Cause" on the granite heights.  
The Stone Mountain Memorial association obtained a temporary restraining order two weeks ago against Venable and a hearing on the injunction will be held before Judge John B. Hutcheson.  
Court action was taken, Hollins Randolph, president of the Stone Mountain Memorial association, said in a statement, as a last resort and "as a matter of duty to the many thousands of patriotic men, women and children who have contributed to the memorial."  
Internal troubles arose when Venable, a member of the executive committee of the Stone Mountain Memorial association, at the annual meeting in April, "made efforts to obtain control of the entire administration of the association's affairs," Randolph's statement said. "He clearly indicated that it was his purpose to disrupt the association if he failed to gain control."  
The petition to the court for the injunction recited a long list of grievances against the owner of the mountain, the association contending he had blocked a plan to widen the highway to the project; demanding payment for tolls and equipment donated a year ago; fenced off his property; posted trespass notices; notified the superintendent of construction to get electric and air pressure lines off his property and that any worker who stepped on property which had not been donated to the memorial association would be prosecuted for trespass.  
**PAINTERS AND PAPERHANGERS HELP CIVIC IMPROVEMENT**  
PORT ARTHUR, June 24.—Giving their time without cost, members of the Port Arthur Painters and Paperhangers union completed the work of painting the bandstand, benches and pergola in Lions park here.  
The painters voted at their union meeting to do the work as a matter of civic improvement. The work was done after regular working hours were over.

**Home Burglar Alarm System Easily Made**

**BURGLAR** alarm system for the home which can be made and installed by the home owner is one of the best insurance in the world against the "breaking and entry" gentry. While the ideal way to install such a system is while the house is being built, it can, nevertheless, be put in afterwards by anybody who is at all handy with tools.  
The diagrams above practically tell the method, and they can be followed with little difficulty. The man who starts out to erect the system needs but a handful of tools. A half-inch wood chisel, a three-eighth inch gimlet about eighteen inches long, a three inch floor chisel, a compass saw, a hammer and twenty-five feet of No. 14 iron wire will be sufficient to perform the job.  
**What Is Needed**  
For installation equipment he needs sufficient No. 13 bell wire to connect with the windows and doors and return to the switch board, a continuous ringer to operate the alarm bells, a four inch alarm bell for inside the house and an eight inch bell for outside, a switch for each window and door connection, a window contact spring for each protected window and a door spring for each door, and four dry batteries.  
The wires are brought to the contact springs in the window and door by taking off the moulding and running them inside. Both upper and lower sashes in windows should be protected. The window contact spring protrudes into the sash, as shown by the sketch, a half-moon about a half inch deep and an inch and one-half long being cut out. The contact spring and its wire connections are imbedded in the window frame. Anybody who has put a lock on a door will recognize a similar job of chiseling.  
The sketches show how at the door, when it is opened, the plunger springs out, making contact and completing the circuit, and, at the window, the contact spring is forced back against the upright bar and also closes the circuit.  
**For Outside Bell**  
In the above drawing the wiring is shown for only the alarm bell inside the house. Where an outside bell is installed, the wire should not run between the points "A" and "B" but continue to the outside alarm bell and then back again.  
All doors and windows on the ground floor, doors opening upon balconies and windows overlooking porch roofs should be protected. The minute electric contact is made the alarm bells ring. The switch which, when opened, stops the ringing, will indicate the door or window where the attempt at entry has been made.

**HOW THE UNITED STATES COAST AND GEODETIC SURVEY FIXES GLOBE FACE BOUNDARY LINES**

**Special.**  
BY BEN McKELOWAY  
WASHINGTON, June 30—"Hitch your wagon to a star" sounds worn from the pen of an essayist, but it is poor advice for the engineer who goes out with transit and level to make a map, according to the United States coast and geodetic survey.  
So many city, town and even state boundaries in this country have been literally "hitched to the stars" in fixing their location on the face of the globe that a regular Chinese puzzle results when an attempt is made to fit these maps together.  
The state of Kansas, for instance, was hitched to the stars and its northern boundary is 880 feet north and its southern boundary is 500 feet south of where they ought to be, while there is a whole section of perfectly good Florida real estate that was left high and dry and off the map entirely when engineers tried to fit together two maps of the southern and northern ends of the state.  
Imagine your own rage and righteous indignation should the city engineer in mapping a new subdivision leave off your lot—bought and paid for on the installment plan—when he connected his new map with the old one of the city. But such is a real possibility.  
Map making is an old art. The engineer sets up his transit and waits until the plumb bob comes to rest in a vertical line. Then he gets his location by the stars, and given one point with its relation to longitude and latitude he proceeds by triangulation—the measurement of base lines and angles—to get any other point. The trouble is that should he come back to his original position a year later and try to get its location by the stars again, he'll find he's maybe ten or fifteen feet away. Or perhaps the plumb bob won't hang in a true vertical line, they often don't. So where's your map? And if this error is repeated a thousand times in a thousand separate and distinct maps, the resulting mix-up can be easily pictured.  
**Tablet In Kansas.**  
Out in the state of Kansas is a spot which will go down to posterity as "Meade's ranch," for it comes near filling the bill as being the center of things generally. Buried a few feet beneath the soil of this ranch is a solid block of concrete which bears a metal tablet. The center of this tablet is the starting point for correct and precise map making for the United States, Canada, and Mexico. And when the work of the coast and geodetic survey is completed in years to come, this little block of concrete and the tablet it bears will have a direct effect in locating on the map your back yard, wherever you live, from the busy streets of New York city to the sunny ranches of California or the snow swept mountains of Alaska.  
The tablet on the Kansas ranch was placed there because engineers of the coast and geodetic survey knew they had to have a starting point somewhere. So they took this point and fixed its latitude and longitude as accurately as the most delicate instruments in the world and the most careful mathematical calculations could make it. Its exact location is 39 degrees, 13 minutes and 26.686 seconds longitude. And if that conveys nothing to you, dear reader, it is about ten miles north of the well known town of Lucas.  
The engineers of the survey said: "This is final." And they made it so. It is correct to the last word, inflexible and unchangeable. Errors can't change that point because it has been labeled "right" and sun and moon

**Permanent Chairman of Democratic Meet.**

United States Senator Thomas J. Walsh, of Montana, is pictured here as permanent chairman of the Democratic National Convention in New York City.

main where they are.  
New York city is an example of the necessity for correct map-making. Some years ago the city decided the maps must be corrected to one or twenty-five thousand, which, translated, means that the error could only be one inch in a half mile. Now New York is considering reducing the permissible error to one inch in a mile and a half, because, with rising property values, a foot of New York city real estate means a chunk of considerable size out of somebody's pocketbook.  
Road building and development of cities generally has resulted in increased demand upon the coast and geodetic survey to extend its triangulation arcs to make them everywhere available. City engineers realize the

necessity of making their maps coincide with the bench marks and triangulation stations of the survey, in order to avoid the necessity of re-surveying every time new water mains or new sub-divisions are to be built. Reclamation project engineers in the west look for the bench marks of the survey to avoid the loss of many thousands of dollars should errors be found in all independent calculations be allowed to creep into their maps and try to make water flow uphill when it should come down.  
The United States and Canada are now cooperating on an immense work which will directly effect the future development of Alaska. Working from Puget Sound, northern boundary triangulation which began in Kansas northward to Dixon's entrance, in Alaska, where engineers of the coast and geodetic survey take it up and work through to Lynn Canal, giving way again to Canadians to carry on through their territory to the upper waters of the Yukon and westward again to the 141st meridian, where American engineers of the survey once again will take it at the border and carry it down into Alaska.  
Alaskan maps are waiting to be made, meanwhile. Experiments already made in Alaska show the impossibility of independent surveys unless based on the arc of precise triangulation and the little metal tablet down on the Kansas ranch.

**JUNE IS ANNIVERSARY MONTH FOR THE REV. E. H. ECKEL**

FORT WORTH, June 23.—June is an anniversary month for Rev. E. H. Eckel, rector of St. Andrew's Episcopal church here.  
Thirty-eight years ago he and his wife were graduated from the University of Delaware. Thirty-eight years ago he and his wife became engaged. Thirty-five years ago this month, he was ordained and 35 years ago he was graduated from the theological seminary of the Episcopal church in New York. June 27 he will have been married 35 years. And 10 years ago this month, his son was ordained.  
In a temperance meeting at Cheltenham, England, Miss Agnes Slack declared that there had been an enormous increase of trade in America as a result of prohibition. "It is true there is still drink in New York, but it comes in handbags today where it used to come in trainloads."
