## TERRIFIC TORNADO RAGES OVER KANSAS

### POULTRY WILL BE PLACED ON PAYING BASIS

**Bankhead Poultry Producers Completing Plans for Marketing Association.**

Plans for perfecting the organization of the Bankhead Poultry Producers' association were made at the Eastland County Poultry Raisers' annual barbecue held here Saturday. An organization committee composed of Tom Shepard of Cisco, A. H. Johnson, Eastland; B. S. Dudley, Ranger; W. C. Blackmon, Breckenridge; W. A. Palmer, Caddo; and such others as may be added thereto by the above named, was appointed and will complete the organization as rapidly as possible.

The chambers of commerce and various other organizations of the counties included in the marketing association, have agreed to put up sufficient funds to defray the operating expenses for a time, which will give the new organization an opportunity to put money in its treasury with which to pay its overhead expenses. A small per cent of sales will be charged as a commission for the purpose of creating a fund for operating purposes.

Just as soon as the organization is completed a manager will be employed whose duty it will be to look after the business of the organization, see that all poultry and eggs are properly graded and handled. It will be the purpose of the organization to sell its products first to the retail merchants, who in turn will sell to the retail trade. All surplus will be shipped to foreign markets. The association will endeavor to build up such a reputation for its products that they will have a ready sale on any market.

The organization's contract and agreement calls for a minimum of 25,000 hens that must be signed up before the organization begins functioning. One-fifth of this number have already been signed, according to Mr. Briggs of the Eastland Chamber of Commerce, and a drive is now on to secure the remaining 20,000.

The program rendered at the Eastland County Poultry Raisers' association meeting here Saturday, was a very interesting one and was said by many of those present to be the best yet given in this section. It did much to create interest in the poultry industry in this section.

### COUPLE PARTLY SUCCESSFUL IN SUICIDE PACT

**John Kendrick of Houston Dead and His Wife, Lena, Near Death's Door**

HOUSTON, July 14.—John Kendrick, 28, is dead, and his wife, Lena, dangerously wounded as the result of a suicide pact carried out in Hermann park late Sunday afternoon. The couple were returning to the links by parties returning to the clubhouse. Kendrick had a bullet through his head and the woman, lying beside him, had a wound below her heart. Nearby was a small revolver with two empty chambers.

Two notes, one written by the man and one by the woman, were also found. The woman's note was addressed to Mrs. W. J. Kitch, her mother, living at Tora Hall, Texas. The other was addressed to Kendrick's father, J. J. Kendrick of Belleville, Texas.

Justice of the Peace Campbell Overstreet returned a verdict of pre-meditated suicide on the part of both Kendrick and his wife. Physicians said Mrs. Kendrick might recover, although her chance appears slight.

### SINCLAIR MUST REPLY TO QUESTIONS ASKED COURT OPINION HOLDS

WASHINGTON, D. C., July 14.—Justice Hoehling of the District of Columbia supreme court today upheld the indictment of Harry F. Sinclair, who leased the teapot dome for contempt of court.

In refusing to grant the motion of Sinclair's attorneys to quash the indictment, he said that if congress could force the citizens only to answer questions they wished to answer, investigations made in the interest of the public would be useless, and that congress should have the power to call witnesses and ask them whatever questions were deemed necessary.

### PRIZE WINNERS IN CONTESTS OF BOYS AND GIRLS

**Annual Encampment at Eastland Varied in Character and Very Enjoyable.**

The Eastland County club boys and girls closed a three days' session of their annual encampment Saturday afternoon. The program was interesting and instructive and was thoroughly enjoyed by those attending. Eastland merchants were liberal donors of prizes for the various contests.

During the business session Friday the organization of the Boys and Girls' federation was completed. A feature of the program was an address by Carl Foster of Flatwoods in response to the welcoming address, which was delivered by Secretary George W. Briggs of the Eastland Chamber of Commerce. County Judge Ed S. Pritchard, Mrs. W. E. Jackson, Miss Helen Swift and others delivered addresses at one time or another during the session. A part of the program attracting a great deal of attention was that dealing with the poultry judging, button hole and patch contests. The following were winners in the various contests:

### Shallow Oil Sand In Young County Southeast of Olney

OLNEY, Texas, July 14.—Shallow oil sand has been found in a wildcat well of the E. E. Peter and others drilled on the Simms farm, survey 629, about 12 miles southeast of Olney and one mile west of Jean. This test encountered a shallow sand while drilling with a hole full of water at 715 feet. At the time the sand was entered 200 feet of the hole was uncased and considerable trouble was had before the casing was seated and the water cut off. Shortly after the water had been bailed out the oil rose 75 feet in the hole, but owing to the water soaked condition of the sand, which had been entered several feet before the strike was discovered, no accurate estimate of production can be had, but conservative estimates place it between 25 and 35 barrels. Tubing is being run preparatory to placing the well on the pump.

Located six miles from the nearest production, which is in the Benson pool to the north, and being in territory that has heretofore been untouched by the drill, the discovery bids fair to open up a new shallow producing area and acreage in the immediate vicinity is in demand. The well and a large block of acreage around it is owned by E. E. Peter of Chicago and E. G. Christie, R. A. Barton, J. J. Eagan, Henry Craig and Paul Hassold of Olney.

Three miles west of the Peter discovery, L. J. Brian et al. of Caddo are rigging up for a Star test on the J. H. Miller land, survey 207, abstract 544, and expect to spud in Wednesday. Location is 1,150 feet east of the west line and 329 feet north of the south line of survey.

### Brazil Sends Big Reinforcements to Put Down Rebellion

RIO DE JANEIRO, Brazil, July 14.—The situation in Sao Paulo, where Brazilian federal troops are attempting to put down the military rebellion which started more than a week ago, appeared to have settled down to a stubborn siege today, with indications that the government will be successful in restoring order. Heavy additional reinforcements have been sent to the scene of operations, both by rail and water. Traffic over the Central Brazil railroad was reopened yesterday, thus enabling troops to proceed by rail to the rebel zone of prisoners and some wounded have arrived here.

### ONE-TIME FAVORITE, LATER HATED FRENCHMAN RETURNING TO POWER

PARIS, July 14.—The 'Caillaux case, replete with espionage, intrigue, murder and degradation, may have for its sequel the return to political power of a cabinet post of France's one-time most famous and hated statesmen, former Premier Joseph Caillaux. A wanderer in Europe for the last four years, deprived of his political rights and forbidden to enter the larger cities of his native land, Caillaux, who once justly escaped a firing squad for treason, has been granted restoration of his political rights.

Louis Malvey, who was once known as the 'top of Caillaux,' also received political abolition and is entitled to sit in the chamber of deputies. The vote in the chamber of deputies on the clauses in the amnesty bill referring to these two came at 4:30 o'clock Sunday morning. The action was anticipated following the success of the radical socialists in the national elections.

### SEARCH PUSHED FOR MISSING ARMY OFFICER

**Major McLeary's Blood-Stained Cap and Abandoned Auto Found, Indicating Tragedy.**

ASHEVILLE, N. C., July 14.—The mountainous sections around Asheville were being scoured today by volunteer searchers for Major Samuel H. McLeary, U. S. army, who has been missing since July 2, when he left Raleigh for Fort Moultrie, S. C.

The search was organized by Maj. F. M. Williams, when a blood-stained army cap and an abandoned automobile, identified as Major McLeary's, were found near Canton. Word also reached here that farmers near Canton told of seeing two men in an army officer's car, and one of them asked for water with which to wash away some blood stains. Authorities believe Major McLeary was murdered and his body concealed, but have been unable to find any motive for the act.

Major McLeary was transferred recently from Fort Leavenworth, Kansas to Fort Moultrie. He had driven with his wife in their automobile to Raleigh and left there alone on his last lap for Fort Moultrie, where his wife was to join him later. He disappeared after leaving Raleigh, two weeks ago.

### American Flyers Leave Vienna on Flight to Paris

VIENNA, Austria, July 14.—The American round-the-world airplanes took off from Vienna for Paris, 650 miles distant, at 5:40 o'clock today. They expected to reach the French capital at 2 p. m. Vienna time. The airmen had intended, upon their arrival at Paris, to circle over the Arch of Triumph, Principe and drop a floral wreath upon the grave of the 'unknown soldier,' but the flowers they ordered failed to arrive in time. The airmen were seen on the horizon before the automobile from the florist's dashed up to the air-dome.

'We are glad to see white faces again and to hear our language spoken,' Lieutenant Smith, flight commander, said. 'We are enjoying this business of working our way around the world, but we certainly do long for the United States.'

The flyers arrived safely at Strassbourg, 400 miles from here, according to reports received in Vienna, and after a brief halt took the air again for Paris.

### AIRMEN ARRIVE IN PARIS VERY TIRED BY TRIP

**Show Effects of Hot Sun and Cold Winds. Are Well, But Desire Sleep.**

PARIS, July 14.—Three weary and sun-burned American flyers who are wending their way around the world piloted their airplanes into Paris today. They have flown more than two-thirds of the way around the world.

Tumultuous welcome was given them in Paris, the people being in holiday garb, and the rejoicing of their countrymen here was music in their ears, but what they wanted to do most was to go to bed and rest their heads on pillows.

Lieutenants Smith, Nelson and Wade, who flew here today from Vienna, appeared nearly exhausted by their efforts. They show the hardships they have encountered, the burning heat of India and the biting blizzards of the North Pacific.

'We feel fine except for the loss of sleep,' Lieutenant Smith said. 'We are going right to bed.'

Two blazes in the Cimarron national forest have spread rapidly since Saturday, and hundreds of men are now battling the fires.

Several sections in the vicinity of Deadwood in the Kahoe forest are threatened, and a summer resort and a number of ranch houses have been destroyed in the Sista national forest.

**BIBLE THOUGHT.**  
OF A TRUTH I perceive that God is no respecter of persons: but in every nation he that feareth him, and worketh righteousness, is accepted with him.—Acts 10:34, 35.

**SWINDLERS GET THE MONEY.**  
Justice is blind, too often too blind. This is particularly true in relation to the thousands of fake stock swindlers who beat the law and 'get away' with the money. A few, very few, are punished, but fewer still are compelled to disgorge or restore the money stolen from widows and weak-minded individuals with the assistance of lurid literature distributed through the United States mails.

An isolated case that ought to be an example for the other courts is that of G. F. Redmond & Company, Inc., whose treasurer admitted in open court that he had amassed a fortune of more than \$2,000,000 since 1920. It is admitted that he has some \$300,000 hidden away, and the receiver demands that it be produced. He has been sent to jail in "close confinement" until he obeys the court order to turn over these assets.

Throughout the United States there are millions of men and women who have contributed funds—perhaps the savings of years—to profits similarly piled up by promoters of fraudulent enterprises. The history of the bankruptcy courts, if it could be written in all its hideousness, would reveal a disgraceful chapter of perjury and misapplication of assets rightfully the property of creditors and investors. In uncounted instances their money has never been invested at all, but has been used in promoting other fraudulent enterprises or simply appropriated. The difficulty with enacting a remedy seems to lie in the fact that most astute attorneys are unable to draw a distinctive line between the open-shop, "bucket-shop" and the more or less halod stock juggling and gambling concerns who pose as exponents of purity and protection and belong to the union.

**ELECTRICITY ON THE FARMS**  
Electrical engineers, going to almost every conceivable sort of industrial establishment in the country, have succeeded in putting electrical energy to work in place of human power. They turn now to the farm with the same end in view. Use of electricity on the farm is by no means a new idea. Scarcely an electrical exhibition in the last decade has failed to show how the farmer may lighten his burdens by the simple installation of an electrical generator. But these developments have meant electricity only for farms of a specialized class—those prepared to pay, and to pay dearly, at that. It costs as much to reach three customers in the country as to reach fifty in the city. Then, too, the farmer has proved a poor customer, with his eyes on minimum bills rather than on maximum service. In order to make the installation of electric power on the farm pay, the farmers must use ten times as much current as the average consumption of the farms now served by rural lines because the fixed charges cannot be reduced except through quantity of service.

**Smith, Milliken, Conley and Rector Make the Scores That Count.**

Prizes for the golf tournament of the Ranger Country club golf team, held yesterday afternoon, were won by W. A. Smith, Charles Milliken, Charles Conley and L. L. Rector. The tournament was for determining definitely the ladder positions of the team members and every member was required to take part or go to the foot of the ladder. Consequently several of the good players who failed to participate are now at the foot.

The prizes were as follows:  
Low Medal Score—First prize, W. A. Smith, score 79; second prize, Charles Milliken, score 84.

Ladder positions as a result of the tournament are changed considerably, and the following men now head the list with their respective scores made yesterday afternoon in the tournament. The secretary of the club, J. M. Ralston, also reported that every stroke was counted which accounted for some of the score being a little high as the course of the country club is more difficult than the majority of courses in the state.

**Situation in Sao Paulo Embarrassing To the Government**

RIO DE JANEIRO, Brazil, July 14. Rebels are apparently in control of Sao Paulo and are defending their position stubbornly. Federal cavalry which penetrated to the center of Sao Paulo Friday have been expelled and the revolutionists have pressed their advantages so that the federal forces are well outside of the city. A federal ring of troops, however, is maintained and the rebels are cut off from communication with the outside.

**BUENOS AIRES, Argentina, July 14.**—Roundabout reports here described the situation in the Brazilian state of Sao Paulo where sections of the state army are in revolt against the state and federal government as extremely chaotic. Strong government reinforcements arrived near Sao Paulo but the federal troops are making little headway against Sao Paulo state troops, which have been increased by civilian volunteers.

RANGER BLASTS HOPES OF FAST MOVING PARKS AGGREGATION FOR FIRST HALF OF SEASON

Ranger blasted the hopes of the hard-losing Parks camp aggregation in a fast game replete with thrills yesterday afternoon, 6 to 4. Manager Sisk of the Parks camp team protested the game from the first of the fifth inning, because of phonograph needles alleged to have been found in several of the balls.

In a telephone conversation with President McGarvey of the Oil Belt association, Mr. McGarvey said that although no official protest had been turned in and he did not know anything about the matter except what he had heard, he did not see how the protest could stand because the only thing they could do was to throw the balls in question out of the game, the only rule on balls being against the use of emery balls.

Parks started the fireworks when Kibbie, a Breckenridge man, slammed a screaming three-bagger into deep center and scored on Sealy's single. In the third, Parks again made the Nitro crew look foolish and the outlook very dark when Kibbie knocked the first ball pitched to him over short right field for two bases and scored on Sealy's home run.

Ranger looked like a high school aggregation until the fourth inning when the Nitros came to life and scored two runs. Hensley slammed a three bagger in the sixth and scored on the throw in of McCasland's long fly to deep center. In the eighth inning the Nitro crew came to life again and ran in three runs before Sealy regained his control.

# ATHLETES WHO MAKE RECORDS IN STUDIES

AUSTIN, July 14.—Names of athletes awarded medals by the University of Texas Athletic Council for having made the highest scholastic records in each sport have been announced by U. Theo Belmont, dean of the college of physical activities.

Horace Kibbie of Fort Worth will receive the medal for being the baseball player who made the highest grades last term. Clinton B. Burnett of Stephenville will receive the second honors for high grades among the baseball players.

In track, Dewey Youngblood, of Fort Worth, holds the highest scholastic record; Clement B. Thames of Smithville, ranks second. In tennis, Ernest Funkhouser, of Fort Worth, holds first place in scholarship, and Marshall Bell, of Austin, second.

Medals for good scholarship were awarded earlier in the year to the football player and basketball player making the highest scholastic average, and Captain Jim Marley, of McKinney, was the football player receiving that honor, and Abie Curtis, of Fort Worth excelled scholastically among the basketball players.

Winners of the freshman medals for high scholarship were the following: Among the tennis players, John T. Woodhead of Beaumont, first, and Bernard Clinton of Waco, second. In track, J. S. and W. A. Swearington of Lockhart, tied for first place scholastically, and R. B. King, of Austin, ranked third in grades. In baseball, Joe B. Bashers of Wichita Falls was first, and H. D. Montague of Rockdale was second.

The medals are of beautiful design, the front bearing an athletic figure standing between two pedestals, one of which rests the lamp of knowledge, and on the other the globe. In speaking of the medals, Mr. Belmont said: "I think these awards are the most valuable that an athlete could earn. After all, athletics should be an aid to study, not a hindrance, and the winners of the medals are typical of the athletes the university wishes to encourage."

Electrification of the Canadian Pacific railway across the Canadian Rockies from Calgary to Vancouver is being contemplated by officials of the road.

## Honeymooners Are Blamed For Failure To Win Tournaments

By FRANK GETTY, United Press Staff Correspondent. NEW YORK, July 14.—If there is a moral in what happened to two nice young American boys over in England this summer, it is: "Don't take your bride to the tournament with you."

Gene and Vinnie, to whom American golf and tennis enthusiasts point with pride, did that little thing. Both became benedicts on the eve of sailing for important championships at Hoylake and Wimbledon and, of course, the ladies went along. And look what happened!

A great disappointment to American tennis lovers was the failure of "Vinnie" Richards to come through at Wimbledon.

The youngsters had been playing great tennis, and was favored to win. He had been accorded the honor of playing the first match on the center when the all-English championships, which carry with them the world's title, opened.

Richards went out in the round before the semi-finals, beaten fairly and squarely by Jean Borotra of France, who was at the top of a brilliant game. The New York boy, who, like Sarazen, took his bride to England with him, did not appear nervous or unsteady in this match. He lacked speed and was outplayed. Time after time Borotra got home amazing back-hand drives which the American failed to return.

Most of the time, Richards was short, his drives catching the tape at the top of the net. Sometimes he overdrove. He made errors in judgment. On one occasion he committed three foot-faults in succession. He ground work was uncertain. No one could commit these faults that day and beat Borotra, whose ground work was excellent.

Richards must have been having an off-day at Wimbledon, at that; because he and Mrs. Marion Zinderstein Jessup, paired in the mixed doubles that same afternoon, lost to O. G. N. Turnbull and Mrs. Craddock, England, and it wasn't Mrs. Jessup's fault, for she played her usual sound, aggressive game.

Gene Sarazen has disappointed his followers again, by his poor showing at Hoylake, and they are beginning to wonder if the former caddy has gone back. He is as unbeatable as ever at match play, however, which is some comfort.

Gene had his new bride with him at Hoylake, and one would have thought he would have been at his best, if ever, even though he does not like medal play. But there he was, taking putts on five greens—you can't do that and win a British open. And Gene had practiced, too, spending hours near and on the greens with mashie and putter.

refreshments of cake and watermelon were served. From 8 to 5 p. m. was general entertainments of songs and reminiscences, with instrumental renditions by the Butler string band from Gordon, Texas, and concluded with a serving of ice cream and cake.

But the big event of the gathering was at 7 o'clock, when the reunion dinner was spread upon tables placed in the yard at the Ashcraft home. For the first time in eleven years, Mr. and Mrs. Ashcraft sat down to dine with all their living children about them. Their faces beamed with joy as they feasted upon the good things prepared and put there by their sons and daughters and shared in joyous communion by all their seven children, 26 grandchildren, four sons-in-law, two daughters-in-law and a few close friends.

Those present throughout the afternoon were Mr. and Mrs. J. D. Ashcraft, Chas. P. F. H. and Johnne D. Ashcraft; Mrs. Salle Rogers, Mrs. Bertha Phillips of Odem, Texas; Mrs. Lurena White, Cso; Mrs. Alice Sneed, J. G. Rogers, N. F. Phillips, E. M. White, Estley Sneed; Melvin, Clyde, J. D., Thomas, Edza, Elva and Mildred Rogers; Dorothy, Floyd, Wilma Fay and Lois Opal Phillips; Thresa, Monroe, Bulah Fay and Mary Helen White; Marlin, Nathaniel, Junior Murl, Goldie and Donald Sneed; Ishmael, Alma, F. H., Eugenia Rosaline and Mrs. Ada Ashcraft; Margarett, Bernice and Mrs. Utile Ashcraft; Evans, Mrs. Nannie and Bessie Ashcraft; Mrs. J. F. Butler, Mr. and Mrs. Alysia Butler, Mr. and Mrs. Vernon Rexroat and baby Ruth, from Gordon; Grandma Shelton.

Henry Ford has electrified another of his automobile plants. This time it is his works at Iron Mountain, Mich. Here a hydro-electric plant has been constructed for Ford utilizing water from the Menominee river, which at that point divides Michigan and Wisconsin. This new hydro-electric plant has a generating capacity of 9,600 horsepower of electrical energy.

## Ice Man Was Here Left No Ice Because

NO ONE HOME ✓ DOOR FASTENED  
NO COUPONS ✓ NO MONEY ✓

Mr. Sidney Smith, care Fort Worth Star-Telegram, Fort Worth, Texas.

Dear Sidney:

It was a very unfortunate occurrence that our ice salesman did not deliver ice to Mrs. Gump's home this morning, and if she will be kind enough to look in her screen door on the back porch she will find a card like the one enclosed and the card will have a check mark showing why no ice was delivered.

The ice salesman reports that he has left ice there when no one was at home and Mrs. Gump refused to pay for it and he is not financially able to furnish the Gumps with ice. He had approached Mrs. Gump about buying a coupon book and saving this delay and trouble besides saving her money but she prefers to continue in her old time way. This will explain why she is giving her husband the threadbare alibi about the small piece of ice she got, when in reality, all the ice she has is left from yesterday.

Mr. Gump's sarcastic remarks are timely and serve to show his ignorance of the other fellow's business. Our ice is all scored before it leaves the plant, guaranteeing you full weight and uniform sized cuts, and our salesmen are courteous gentlemen who can show you how to economize on ice, but Mr. Gump's ego does not permit this.

It is easy to see that Mr. Gump is not familiar with either refrigeration or ventilation, for he has his fan set on a dresser or chiffonier and blowing hot air on him in a standing position. If he would sit down in a comfortable chair and fill a waste-basket with crushed ice and place behind the fan so that the breeze from the fan would be pre-cooled, this cool breeze combined with the hum of the fan would soon lull him to sleep and he would learn one of the real joys of life—enjoying hot weather.

Please see that this is brought to Mr. Gump's attention.

Yours very truly,  
GLC BG GUS L. COLEMAN.
