DEMOCRATIC BANNER MUST WAVE ON TOP

ARMY PLAN FOR DEFENSE TESTS HAS OBJECTORS

Secretary Weeks Will Carry Out Program, However, Despite the Protests.

WASHINGTON, D. C., July 16.—Despite protests against army "defense tests" scheduled for September 12, the war department made known today that the proposed plans for a national exhibition of America's mobilization facilities will be carried through.

Letters from churches and other organizations and private citizens have made a vigorous campaign against the war department carrying out the defense tests. Secretary Weeks answered all letters and explained the detailed plans and insisted that they will be carried out.

TEN NATIONS JOIN IN CONFERENCE IN LONDON ON REPARATIONS PLAN

LONDON, Eng., July 16.—The 15th important international conference since the Versailles treaty opened this morning in the office of Premier Ramsey MacDonald at the foreign office, where the statement of ten nations gathered about the table for another discussion of reparations. In eighteen months since the last fatal conference at Paris, in January, 1923, the French and Belgians have invaded the Ruhr and Germany has ceased payments. More recently Europe took heart over the experts' reports as a basis of settlement and to find ways and means to carry out this report was the cause of the present conference.

FIRST CENSUS RECORD OF OREGON IS FOUND

SALEM, Ore., July 16.—Tucked safely away in the archives of the state of Oregon for more than three-quarters of a century, the first census of Oregon, one of the most interesting volumes in the keep of the state, has been brought to light.

The volume was taken from an obscure corner by State Treasurer Jefferson Myers in his search for data bearing on early history of Oregon.

The volume was compiled by Joseph Meek, United States marshal and a relative of President Polk, in 1845. That was just two years after the organization of the provisional government of Oregon at Champeop in 1843.

PURCHASE OF BIG GRAIN INTERESTS NOT YET FINAL

CHICAGO, Ill., July 16.—Announcement by the Rosenbaum Grain corporation of the sale of five grain companies to the farmers' cooperative bureau of the country was premature, the American Farm Bureau federation said today in a formal statement. Confirmation of the deal must await the sanction of the federation and other farm organizations, the bureau stated. Definitive steps were taken, however, in incorporating for grain marketing purposes under the laws of Illinois.

INCIPENT REVOLUTION IN PERU REPORTED PUT DOWN

LIMA, Peru, July 16.—A revolutionary attempt at Arequipa ended in a fiasco the night of July 14 when the Seventh cavalry attacked the Santa Marta barracks, which had been garrisoned by the rebellious Fifth cavalry, it was announced today. The barracks were captured and the rebels subdued after four hours of fighting, in which the loyal forces lost three officers and four soldiers killed and wounded.

SINCLAIR OIL CO. PASSES ITS QUARTERLY DIVIDEND

NEW YORK, July 16.—The Sinclair Oil corporation has passed its quarterly dividend of 50 cents a share due at this time on common stock.

Two Women Go to Jail Seeking Cure For Morphine Habit

SAN ANTONIO, Texas, July 16. Mrs. Elizabeth Kyle, 30, and Miss Dorothy Griffith, 25, were charged with vagrancy at their own request today, pleaded guilty and were fined \$200 each or 70 days in jail. They went to jail to try the iron cure for the morphine habit.

ARMY OFFICER WHO DISAPPEARS BELIEVED DEAD

After Missing Two Weeks, Search Has Developed No Trace of Him.

RALEIGH, N. C., July 16.—Search for Major Samuel H. McLeary, U. S. army officer who has been missing for two weeks, continued today, with fast waning hope that he would be found alive. Reports that he was seen this week in the vicinity of Winston Salem have failed to materialize, as has every other one of a dozen clues to his whereabouts.

A new theory that Major McLeary had been murdered and his body concealed near Enfield, N. C., was scouted today by searchers and friends, who point out that the artillery officer was on route from Raleigh to Charleston, S. C., when he disappeared and that Enfield is far out of the line of this route.

SAUNDERS ENJOINED FROM REORGANIZING ON PIGGLY WIGGLY LINES

COLUMBUS, Ohio, July 16.—Clarence Saunders, whose sensational success and subsequent collapse as organizer and head of the Piggly Wiggly chain grocery system attracted universal attention, is now definitely restrained from regaining his lost millions through another such enterprise.

The United States court of circuit appeals today sustained the federal court in Tennessee, which granted an injunction to the Piggly Wiggly corporation restraining Saunders from organizing a chain of stores similar to the Piggly Wiggly. The court held that to do so would be an infringement on the patent rights of the parent organization.

DAVIS-BRYAN CLUB IS ORGANIZED IN SAN ANTONIO

SAN ANTONIO, July 16.—Within a few hours of the adjournment of the democratic convention in New York, what is believed to be the first Davis-Bryan club was organized with Robert L. Ball as president and George D. Armistead as secretary. Ball was one of the Davis "original boosters" and Armistead, former postmaster, helped carry the state for McAdoo.

LOUD SPEAKER GETS BULLETS INTENDED FOR BURGLAR

DALLAS, July 16.—Jesse Compton of Vickery, is a man of action. He shoots first and asks questions afterwards.

The other night Jesse heard a rasping voice in the darkness of his room. Seizing his pistol, he cut loose a volley in the general direction of the sound, called the police, and turned on the light.

His new loud speaker set was riddled with bullets. He had gone to sleep leaving the radio connected. His only comfort is that his aim was good.

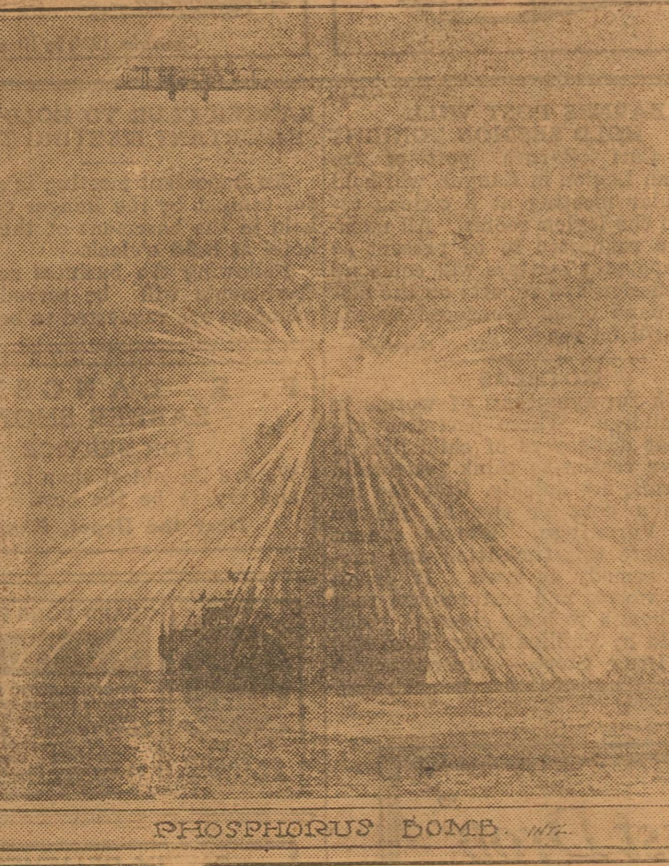

'TIS A SMART MAN WHO CAN GET WORK DONE FOR HIM

EL PASO, July 16.—"The river's rising. Come with help," Miguel Salada telephoned Bob Oliver, county commissioner. Oliver called out his force of men and sped to the scene in a motor truck. They found the river low but out in the mud a big mule was stuck fast. Salada explained to Oliver that the owner of the mule, despairing of saving the animal, told him he could have the mule if Salada could rescue it. So Oliver and his men pulled the mule to shore and the new owner proudly rode him off.

MULTILATED BODY OF AN INFANT GIRL IS FOUND

SAN ANTONIO, July 16.—The mutilated body of a baby girl about one day old was found by a group of boys swimming in the river, in a suburb of the city today. The police are investigating.

SECRET TESTS WITH PHOSPHOROUS BOMBS.

This picture, made months ago, has been kept as a closely guarded secret by the U. S. Army Air Service, and has just been released for publication. When the army airmen bombed old ships that were scrapped under the disarmament treaty they used a new and deadly form of bomb—a 1,000 pound missile loaded with phosphorus, with its devastating effects. Nothing could be more illuminating as a test on the value of the airplane during war than this picture, showing a direct hit on the fire control platform of the old battleship. No one could have lived aboard the vessel.

STARR COUNTY MAY GO UNDER QUARANTINE

Health Officer Claims Disease Claimed to Be Typhoid Is Really Typhus Fever.

AUSTIN, Texas, July 16.—Quarantine against Starr county on account of typhus fever was being considered today by the state health department. While no official statement has been issued by State Health Officer Malone Duggan, it is known that he has threatened to establish quarantine against the infected county unless local authorities cooperate with the state health department in its efforts to prevent the further spread of the disease.

Starr county authorities claim the disease is typhoid fever instead of typhus fever, but Dr. Duggan, who made a personal investigation of the situation, diagnosed the disease as typhus and issued an official statement to that effect. He claimed to have found 15 typhus cases in Rio Grande City.

Dr. Duggan today discussed with the governor's office the advisability of placing a quarantine against Starr county, but so far has taken no action.

MURDER TRIAL AT KOUNTZE NEARING ITS CONCLUSION

KOUNTZE, Texas, July 16.—The case of Bob Robinson, Houston youth, charged with the murder of Mrs. Millie Dudley will probably go to the jury late this afternoon. Judge Combs was to charge the jury at the opening session of court today. It is believed he will follow the customary procedure on such cases. Each side is allowed three hours for argument.

FIVE EXCELLENT RADIO FEATURES FOR WEDNESDAY

KDKA, Pittsburgh, (326 m) 8 p. m. EST—Musical program, soprano, tenor, violin solos.
WOC, Davenport, (484 m) 8 p. m. CST—Organ recital by Irwin Swindell.
KYW, Chicago, (536 m) 7 to 11:30 p. m. CST—Musical program of the "Midnight Revue."
WJZ, New York (455 m) 7:30 p. m. EST—New York Philharmonic orchestra concert.
KHJ, Los Angeles (395 m) 8 to 10 p. m. PCST—De Luxe musical program.

COOLIDGE OFFERS FEDERAL AID TO FIGHT FOREST FIRES

WASHINGTON, July 16.—President Coolidge today offered federal aid to cope with the forest fire situation in California, sending the following telegram to Governor Richardson.
"Have noticed with deep concern reports of growing destruction from forest fires in your state. I trust you will advise me if effective aid can be extended by the federal government."

FOREST FIRES CONTINUE FURY ALONG PACIFIC

Northern California and Idaho and British Columbia Fighting Devastating Flames.

SAN FRANCISCO, July 16.—Fires in the Pacific coast forests today centered their fury in Northern California and Northern Idaho, with at least 24 persons missing and two known to have been injured. Fires in Northern Idaho have destroyed 250 homes in the Pink Creek canyon country, razed buildings of the Nabob mine with a loss of \$500,000 and were reported threatening the Constitution mine.

Twenty employes of the Nabob mine are reported to have fled back into the hills for safety and their present whereabouts are unknown. Several families in the fire zone fought their way through the belt of fire yesterday to safety. Four persons in the Doukhouer Colony, on Porcupine creek near Nelson, B. C., were still missing today after fire had raged between them and several villages in which others had sought refuge. Vast timber tracts there have been destroyed with two mills owned by the colony, and the fire was advancing towards Clearwater, B. C., today.

In Northern California, the Climax national forest was the scene of the most serious fire today.

CARPENTIER'S LAST CHANCE TO COME BACK

By FRANK GETTY (United Press Staff Correspondent)
NEW YORK, July 16.—When a boxer has been as consistent a ring performer as Georges Carpentier, it is unusual to speak of his "coming back."

But that is just the way we must look at the Frenchman in the light of his forthcoming bout with Gene Tunney, American light heavyweight champion. The two are scheduled to meet July 24.

Carpentier has never seemed a second-rate fighter. He is of the stuff whereof champions are made. His workmanlike manner in knocking over the best of Europe entitles him to consideration on those grounds.

When Carpentier was beaten by Dempsey, he did not lose caste. But when he was knocked out by Battling Siki, the bad boy from Senegal, then definitely did Georges' career hit the gutter. From that lowly state to which he took a dive in losing to the black.

Georges started to the top via his favorite route, knocking out Joe Beckett in jig-time. He did one or two other more or less easy stunts of that sort, and then came over for a match with Tommy Gibbons.

That young man, to our way of thinking, definitely put a crimp in Carpentier's career as a champion boxer. When Georges made such a miserable showing against the St. Paul terror, he finished himself as a real top-notch drawing card.

But this bout with Gene Tunney opens the door again—just a crack. It—and it doesn't seem likely—Georges could polish off the American champion—not win by a lucky looping right-hand punch, but really whip Tunney decisively—then there might be something more doing for the Frenchman. But that's the only way there ever will be.

Carpentier wasn't made to be a good second-rate. It isn't his forte. His is the gallery play, the elaborate training quarters, the fancy dressing rooms and interviews and lovely ladies calling upon him while he shadows boxes.

However, the promoters of the Tunney bout are putting out propaganda to the effect that they are well pleased with the advance gate.

"I believe it will be the greatest spectacle we ever had in New York," said Jimmy Johnston. "Shouldn't be surprised if we were sold out."

The Frenchman trained for the bout at Jack Curley's place, down in Great Neck, Long Island, while Tunney prepared to defend his title by hammering sparing partners about a barn at Fair Haven, N. J.

The bout will be at the Polo Grounds, and the promoters say it never rains on Thursdays. Tickets are \$1 to \$10.

REPUBLICANS ESTABLISH HEADQUARTERS IN NEW YORK

NEW YORK, July 16.—Eastern headquarters of the republican national committee will be established this week at No. 7 West 42nd street, New York city, William M. Butler, President Coolidge's campaign manager, announced today. General headquarters already have been opened in Chicago.

American Round the World Airmen Given Welcome in England

CROYDON, Eng., July 16.—Circling down to the level plains of Croydon, where an immense crowd, held in check by cordons of police, had gathered to welcome them, the American world flyers brought their planes to a halt at the airrome here this afternoon, after having flown from Paris in less than three hours. The stars and stripes were waving at many points in the 150-acre airrome and British air officials, including General Brooker, the air commander, extended welcome.

BIG CROPS ARE FORERUNNER OF BETTER TIMES

Conditions Throughout Northwest Indicate the Return of Prosperous Conditions.

ST. PAUL, Minn., July 16.—The northwest, first to suffer in the agricultural chaos a year ago, is riding back to prosperity on the wave of high grain prices. E. G. Quanne, president of the Federal Land bank of St. Paul, said today in an interview with the United Press.

"The northwest is producing the greatest crop in 10 years," he said. "In Northern Dakota we have two crops in a year. Minnesota, Wisconsin, Michigan, South Dakota and Montana will have the best crops since 1914 and the biggest yields since the great production year of 1919."

Wholesalers told the United Press that business has been moving better since July 1 than in the last four years. "We are extremely fortunate in the northwest in having every prospect for a big crop at good prices," Quanne said, and he is recognized as an accurate agricultural statistician.

POLICE ON TRAIL OF SNEAK THIEVES WHO ROB TELEPHONE CASH BOXES

Sneak thieves last night twisted the lock off the cash boxes of two toll phones of the Southwestern Bell Telephone company booths located at the McCleskey hotel, Ranger, and obtained about \$5 in cash.

On Monday night an attempt was made to open the safe at the hotel, but the so-called burglar only succeeded in jamming the combination. Police think that the same parties did both jobs and arrests are expected before night.

RURAL MAIL CARRIER FIGURES HIS MILEAGE

SAN ANTONIO, July 16.—In the 23 years that he has been a rural mail carrier, C. A. Blackwood has traveled 250,000 miles, or 10 times around the world. All this mileage has been made on his route.

COURT SHOWS WILL POWER.

PORT ARTHUR, July 16.—C. E. Booz told Judge Dycus he didn't "have enough will power" to keep from stepping on the accelerator of his car. "Too bad," said the judge. "I've got enough will power to fine you \$10 for speeding."

FRUIT COMPANY BUYS LAND FOR BANANA PLANTATION

HOUSTON, July 16.—The Caribbean Fruit company, newly organized, has purchased 3,000 acres of Nicaraguan land on which to plant bananas. The company will operate a fleet of banana boats between their plantation and Houston.

ONE KILLED IN EXPLOSION AT FIREWORKS FACTORY

MILWAUKEE, Wis., July 16.—A police inquiry started today as to the cause of the explosion of fireworks factory here yesterday, in which Joseph Cincimani, 38, owner, was killed, and Paul Cincimani, 34, and Marion Cortesi, 13, were seriously injured. Paul was hurled over a house by the force of the explosion, landing some 250 feet away from the wrecked factory.

WEALTHY YOUNG SLAYERS NOT ACTUAL MURDERERS

CHICAGO, July 16.—Nathan Leopold and Richard Loeb, confessed slayers of 14-year-old Robert Franks, world looks upon it, the defense will argue when the two young men are brought to trial Aug. 14. This was confirmed today in a statement by Clarence Darrow, chief defense counsel.

DAVIS GETTING READY TO MAKE HARD CAMPAIGN

He Severs All Legal and Business Connection, So None Will Hamper Race.

NEW YORK, July 16.—As the first step to get definitely under way his campaign for the presidency, John W. Davis, Democratic candidate, today announced the severance of all his legal business and connections. He has resigned as a partner in the law firm of Stetson, Jennings, Russell & Davis, as a director in the A. T. & S. F. railroad, as general counsel for the Associated Press and as a director in the United States Rubber company and the National Bank of Commerce.

After several days of intensive study of campaign strategy, the Democratic party leaders have laid down the following general program of action:

John W. Davis, presidential candidate, will concentrate his major efforts toward winning the territorial line east of the Mississippi.

Charles W. Bryan, vice-presidential candidate, will apply himself mainly to the middle western agricultural sections with the object of holding the territory La Follette would expect to capture.

In the eastern states, particularly in New York, New Jersey, Rhode Island and Massachusetts, Governor Al Smith will be looked to for active stamping in support of the ticket.

In the far west and the southwest, William G. McAdoo will be counted on to aid the ticket.

It is generally conceded that Davis must make strenuous efforts to win New York and New Jersey.

PROSPECTIVE BUYER TOO LONG IN BUYING CAR

HOUSTON, July 16.—A young man visited a local motor car company recently in search of a good car, which he said he wanted to buy. The salesman grew enthusiastic, and the young man looked the particular roadster over carefully.

"Can I try it out?" he asked. "Sure," said the salesman, "drive around the block. She runs like a nigger in a melon patch."

She did, too. A week later the sheriff received a telegram from Brownville, Tenn., that the car had been found there, but that the prospective customer was still running, having escaped capture.

JUDGMENT AGAINST HOUSE OF DAVID SUSTAINED

COLUMBUS, Ohio, July 16.—The United States Circuit Court of Appeals today confirmed the opinion of the trial court in awarding \$20,000 damages to Mr. and Mrs. John Hensel against the House of David, Benton Harbor, Mich., religious cult. The Hensels said that they were induced to join under an impression that the House of David was strictly religious and later found it to be a blind for immoral practice of King Benjamin and Queen Mary.

PRICES PAID FOR CRUDE OIL BY TEXAS COMPANY

The Texas company announces the following prices being paid for crude oil: Below 30 gravity, \$1.25; 30 to 32.9, \$1.45; 33 to 35.9, \$1.75; 36 and above, \$2.00.

The Texas company is limiting its purchases of crude oil to 50 per cent of production from wells connected with the Texas Pipe Line company, the remaining 50 per cent being run to storage for the account of the owner.

BASEBALL FANS REMEMBER WIDOW OF DEAD PLAYER

PALESTINE.—Over \$400 was given Mrs. Charles Taylor, wife of "Chuck" Taylor, ball player of the Groveton team, by fans of Palestine and Groveton. Taylor died as a result of injuries received in a game here July 4.

OVERALLS DISCARDED FOR REGULATION UNIFORMS

SAN ANTONIO, July 16.—Conductors and motormen of the street railway company are going to lay aside their blue overall uniforms and don the regulation blue serge and brass buttons, company officials have decided.

SHORTEST NAME OF RECORD.

SAN ANTONIO, July 16.—The shortest name in the new city directory here is that of Mr. O. Mr. O is a brick mason and his full name is Crescencia de la O.

CARRIES HEAVY WATCH.

HOUSTON, July 16.—Hans Nagel claims to have the heaviest watch in Texas. Nagel's timepiece weighs half a pound and he has had it 18 years. Hans said he had to wear a two-inch belt to carry the watch's weight.

BIBLE THOUGHT.
BLESS THE YARD, O my soul, and forget not all his benefits; who forgiveth all thine iniquities; who healeth all thy diseases; who redeemeth thy life from destruction.—Psalms 103:2-4.

New Diseases Show Up Fast as Science Conquers Old Ones

BY CLARENCE DUROSE (United Press Staff Correspondent) LONDON, July 16.—A rich British shipping magnate died the other day of sleeping sickness.

Two inventors claim to have perfected a "death ray" that can kill and destroy at almost any distance. An anti-cancer convention reported notable progress.

Experts declared leprosy cures are almost completed and that within two generations that disease will be unknown.

And a bunch of bananas from the West Indies or a bundle of Jute from India—possibly it was tea from China or rubber from Borneo—brought in some bugs that killed a man and after he died in a London hospital, physicians found his blood full of microbes that produce a disease never heard of before by modern men of medicine—a sort of cross between bubonic plague, typhus and malignant fever.

In other words, a three-cornered contest is developing upon which the fate of mankind and the future condition of the world depends.

Two sets of scientists and mysterious microscopic creatures are the participants. Chemical laboratories in London, Berlin, Paris, New York, Washington, are part of the stage. The other part is in jungle swamps of the tropics and of the Far East.

Working for Death
The scientists of one set are formulating new methods of wholesale destruction of human life, for purposes of war. Their test tubes have told them of poison gases powerful enough to kill almost instantly the population of a great city, or to deaden an army at once.

They are working on "death rays"—electric power propelled invisibly to great distances, where it will kill, burn, destroy. They have disease germs to spread in enemy cities. They have created new explosives more powerful than any known before.

Their progress toward facilitating mass slaughter seems calculated, ultimately, to do one of two things—make war mean so certainly the extermination of every country involved that everybody will be afraid to have war; or simply to mop off modern civilization in one grand free-for-all and leave a few remnants of humanity in the jungles and remote islands to start the show all over again.

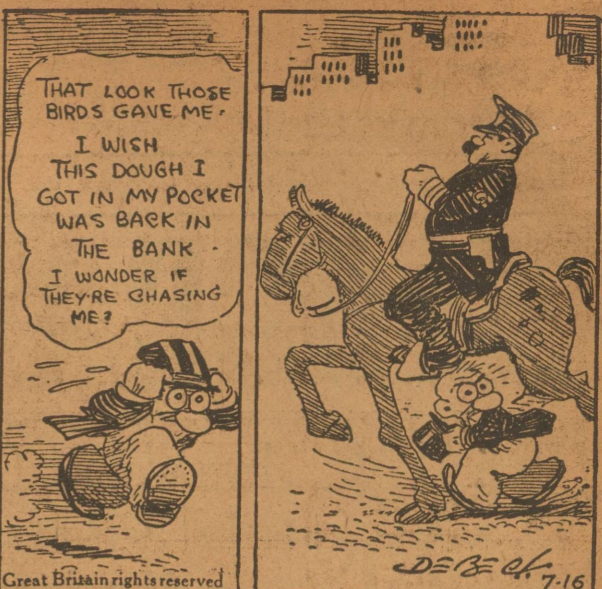

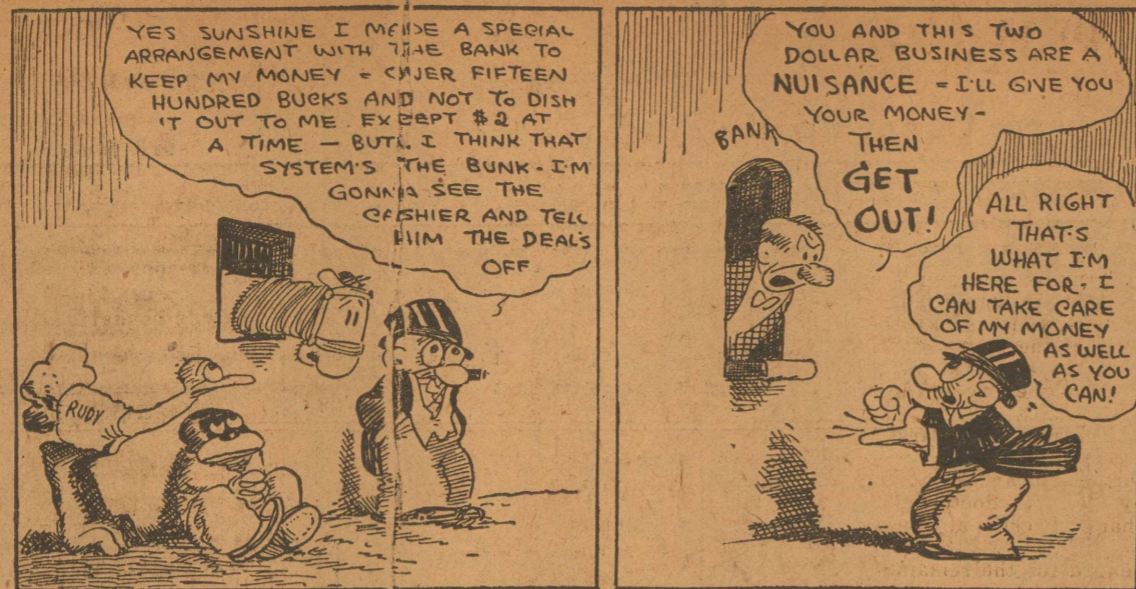

Meanwhile, scientists of the other set are constantly finding new methods of combating or preventing disease. The greatest causes of human death—tuberculosis, cancer, leprosy—will actually be outlawed from this earth before many years, experts in the schools of research predict.

A score of minor diseases have yielded to these men, or their fellows, within the last decade. Yellow fever once swept up from Central America and scourged Southern states each summer. It is now as rare there as the dodo bird, because scientists got on the job. In time they expect to defeat every other major disease—ignominiously, as they did Yellow Jack.

Fighting the Germs
And now for the third set of actors—the germs and microbes who breed in the filth of far-off jungles, and in the remote reaches of Asia—where most of the world's plagues have originated, as well as two-thirds of the world's half-breeds, the world's religions, and, very probably, the human race itself. These malicious little bugs in the pestholes of the earth are simply framing up new diseases for the misery of mankind and slipping them out into the rest of the world—and so far they are doing it just as fast as the scientists of the west are inventing ways to combat the old diseases.

Yellow fever is gone—but influenza has arrived. Progress has been made in combating diabetes, tuberculosis. But England has an alarming spread of sleeping sickness, there have been a few cases of beriberi, and every now and then a case of

BARNEY GOOGLE AND SPARK PLUG—

YOUNG WOMAN PLEADS NOT GUILTY AS CHARGED

CLEVELAND Ohio, July 16.—Miss Marie Perrin, 32, who struggled four years to overcome her losses in the stock market and once attempted suicide, pleaded not guilty today when arraigned on a charge of embezzling \$10,000 from the Guardian Savings & Trust company, where she was employed as teller. She waived examination and was bound over in \$10,000 bail.

Will Science Win

They wonder whether science can win or lose in the race—and, win or lose, they wonder what will happen. Throughout history, nature's excess populations have been removed by battles and diseases conquered—to say nothing of monkey-gland rejuvenation becoming general—what will be nature's counter move to check the population?

It is estimated that within a century the present unfilled areas of the earth—Australia, South America, South Africa, Canada will be thickly populated—and all the rest of the earth packed and jammed. Scientists figure the thing may break in one of three ways:

- 1. Practical extermination of civilized humanity by war.
2. A warless world and diseases restrained world, with every people situated as Japan is now—too crowded and no place to go.

HENDRICKS' TENT THEATRE CONTINUES DRAWING CROWD

"When Dreams Come True," the play given at the Hendricks' tent theatre last night, attracted a large audience. The vaudeville specialties, the music, the general air of gaiety proved delightful. The concert between the acts was enjoyable.

The company has arranged another good program for tonight and promises a complete change.

DEGREES BEING CONFERRED ...ON NOTED MUSICIANS

A growing recognition of the value of music in our life is exemplified by the awarding of honorary degrees to musicians by several colleges at their recent commencements. For instance, Yale university conferred the degree of Master of Arts upon Ossip Gabrilowitsch, conductor of the Detroit Symphony orchestra. Another conductor, Frederick Stock, of the Chicago Symphony, received the degree of Doctor of Music from the University of Michigan.

One of its former students was honored by Oberlin college when the degree of Master of Arts was conferred upon Frances Densmore, who has made valuable research into Indian music on behalf of the Smithsonian institution. Miss Densmore studied at the Conservatory of Music, which is a part of the college. During the last few months she has been active on behalf of the division of music in the National Museum at Washington.

Another expert in Indian music, Charles Wakefield Cadman, the composer, was given the degree of Doctor of Music by Wolcott Conservatory in Denver.

Lamar, Ark.—Mrs. Edith Seaman, here, recently made the following statement describing her experience in the use of Cardui:
"I had pain in my back and sides; had sick headaches and my nose would bleed. I couldn't sit up at all.
"My mother gave me Cardui. I took about a half bottle and at this . . . I was able to get up and help with the work. Next time I took it again, and now, after taking two bottles, I do not have any trouble at all at this time. I gained, my skin cleared up, I am healthy and strong.
"My mother took Cardui for a weak, run-down condition. It did her more good for weakness and nervousness than any medicine she has ever taken. She took six bottles in all. We recommend it and certainly know its worth."
The foregoing is one out of thousands of statements which have been received from users of Cardui, the woman's tonic. If you are a sufferer from womanly ailments, try Cardui. It may be just what you need. At your dealer's. NC-156

Stop that Eczema!

AMAZING results have been produced by S. S. S. in cases of eczema, pimples, blackheads and other skin eruptions. If you have been troubled with eczema, and you have used skin applications without number, make a test yourself, on yourself with a bottle of S. S. S., one of the most powerful blood cleansers known. S. S. S. makes the blood rich and pure, and when your blood is freed of impurities your stubborn eczema, rash, tetter, skin eruptions, pimples, blackheads, blotches and acne are bound to disappear. There are no unproven theories about S. S. S.; the scientific results of each of its purely vegetable medicinal ingredients are admitted by authorities. S. S. S. is sold at all good drug stores in two sizes. The larger size is more economical.

ONE IN TEN.
Neglecting a little wound, cut or abrasion of the flesh may in nine cases out of ten cause no great suffering or inconvenience, but it is the one case in ten that causes blood poisoning, lockjaw or a chronic festering sore. The cheapest, safest and best course is to disinfect the wound with liquid Borozone and apply the Borozone Powder to complete the healing process. Price (liquid) 30c, 60c and \$1.20. Powder 30c and 60c. Sold by Phillips Drug Store and Texas Drug Store.—Advertisement.

Ranger Ball Fans To Have Important Meeting Tonight

Fans and business men interested in the welfare of the Ranger baseball team are requested to meet tonight at the city hall at 8 o'clock. Very important matters will come up for discussion and it is necessary that the business interests of the town be well represented.

Well Supported.
"I'm counting on the support of every honest man and woman in the city," asserted the candidate to a group of his friends.

"An" not only that," whispered Pat confidentially, "but ye'll get the vote of every Orishman in the sixth ward."

LACK OF FAIR PLAY AROUSES RANGER FANS

"Doctored" Balls in Last Sunday's Game Looked Upon As a "Frame-Up."

Business men and baseball fans of Ranger are highly indignant over the decision rendered by the representatives of the teams in the Oil Belt association at a meeting held Monday night at the city hall in regard to the use of alleged doctored balls in Sunday's game with Parks Camp, which Ranger won, 6 to 4. The game was thrown out and Weatherford, accused by Parks of doctoring the balls, the charge backed up by their supporters, Breckenridge and Cisco, suspended for the remainder of the season. The decision was rendered on purely circumstantial evidence, which conflicted from every angle, and the accused party was not summoned to the meeting so as to hear his story or give him a chance for his own defense.

Incidentally the official baseball rules of the National and American leagues, adopted by the National association of professional baseball leagues for 1924, which is being used by the Oil Belt association, specifically states that if the umpire cannot detect the violator of the rule for doctoring balls the pitcher using the balls at the time be removed from the game and automatically suspended for the league for ten days. As Pitcher Sealy for Parks Camp was using the balls at the time of the discovery of the needles and as only used balls were found with needles in them, it is apparent that the rule should apply to the Parks Camp pitcher and the Parks team, which was not done. Manager Sisk of the Parks team raised a hullabaloo about the balls, evidently forgetting the fact that his pitcher used the balls before the needles were discovered in them and this was also overlooked at the meeting, as Breckenridge and Park and Cisco used every opportunity to accuse the Ranger team of crooked work and so befuddled the new president, Madden of Eastland, that he did not know which way to turn, according to reports by men who attended the meeting. Representatives from Olden and Thurber indignantly expressed themselves as to the belief that it was a rank frame-up somewhere.

PICKERING LUMBER IMPROVES AND MOVES TO NEW LOCATION

Work on the removal of all stock, etc., of the Pickering Lumber company, Ranger, from their old location, 208 Hunt street, to the new place of business, formerly occupied by the Clem Lumber company at the east end of Main street, across the T-P tracks, is rapidly nearing completion. A. E. Echols, manager, announced that a number of improvements on the yards have been started which will cost around \$3,000.

Echols has been with the Pickering Lumber company for approximately four years in the capacity of manager of the yard here. Prior to that time he was connected with the Clem Lumber company for two years. He said that the company is permanently located in Ranger and that it is the opinion of executives of the company that Ranger has a wonderful future.

ECZEMA!

When hot weather is causing those "broken out" or inflamed places to itch so bad you want to scratch the skin off, is the best time to prove that—

BLACK AND WHITE OINTMENT AND SOAP

will heal the corrosted skin and allow the acid poisons to pass on out, instead of gathering and irritating everything.

They are sold by all dealers in liberal 25c and 50c packages. The 50c size ointment contains three times as much as the 25c size.

HUDSON has always been famous for the beauty of its closed bodies. But even among past creations, was none to rival the exquisite grace, luxury and charm of the new SEDAN.

The entire product of America's foremost custom-body builder is devoted exclusively to this one model. That not only assures the finest workmanship, but makes possible a price not equaled among luxurious cars.

PASTIME CLUB MEETS WITH MRS. GULLAHOORN.

Members of the Pastime club were delightfully entertained Tuesday evening at the home of Mr. and Mrs. J. T. Gullahorn. Quantities of roses and daisies added an air of festivity to the house and delicious refreshments were served. High scores were won by Mrs. Champion and Roy Jameson. Low scores belonged to Mrs. J. L. Thompson, and E. E. Crawford. Those present were, Dr. and Mrs. C. C. Craig, Dr. and Mrs. A. N. Harkrider, Messrs. and Mmes. E. E. Crawford, L. L. Rector, C. A. Conley, R. A. Jameson, J. F. Champion, and J. L. Thompson, Mmes. Lewis, Weeks and C. O. Terrell, and F. A. Brown.

CENTRAL BAPTIST BOYS AND GIRLS ENJOY PICNIC.

The boys and girls of the intermediate department of the Central Baptist church Sunday school enjoyed a picnic Tuesday night at Winsett springs. Those who were present with Mr. and Mrs. N. O. White, Mr. and Mrs. Jessie Dailey, and Mr. and Mrs. Ingram as chaperones. All had a fine time with plenty of refreshments.

CHILD WELFARE FANS FURTHER PUBLIC AID.

Through the activities of the Child Welfare club of Ranger a public health nurse was obtained last year and has been retained throughout the entire year, first as a school nurse and then as city nurse, giving her time to the needs of the city in general during the months when school is not in session. Report was made at the club session, held Tuesday morning, that the school board would pay \$50 each month toward the nurse's salary and the Child Welfare club has pledged itself to raise the additional amount needed. The committee appointed for this purpose includes, Mmes. M. H. Hagaman, A. N. Harkrider, Howard Gholson, R. H. Hodges and Miss Beulah Bowles. Money contributed by citizens of Ranger for an automobile for the nurse was sufficient to purchase the license and insurance, as well as to buy the car.

Many charity cases have been handled by the Child Welfare club since the first of January, and also several cases of delinquency, the work of the club having spread far and wide and increased in efficiency, in service to the city and to humanity since its organization. To this band of faithful women is accredited a large portion of the relief measures executed today in Ranger.

PERSONALS.

W. Paul Lacy, freight claim agent of the Hamon-Kell road, left Tuesday evening for Galveston to attend the State Freight Claim Agents' association.

Mrs. Royal Styles of Waco is visiting Mrs. W. Paul Lacy.

Aubrey Jameson, deputy organizer for the Elks, returned Tuesday from a lengthy trip through the east during which he attended several conventions and visited many large cities.

Miss Anne Alderson left today on the Sunshine for Huntington, W. Va., where she will spend the rest of the summer visiting her aunt and uncle.

Mrs. R. L. Yochem of Tiffin, a patient at the City-County hospital, is doing well after her operation.

Mrs. C. Miller, who was operated on this morning at the City-County hospital, is doing finely.

Mrs. T. N. Jenkins of Tiffin, who was operated on a few days ago at the City-County hospital was able to leave there this morning.

Miss Bertha Ely, formerly of the Alexander hospital of Abilene, has joined the nursing staff of the City-County hospital.

CARD OF THANKS.

We wish to express our heartfelt thanks and appreciation for the services rendered by the nurses and physicians and our many friends in our bereavement of our baby. Also the many floral gifts.
MR. AND MRS. J. W. HARRIS.

Poultry Raisers of Olden Neighborhood Meet Friday Night

That the poultrymen in and around Olden are interested in developing their poultry interests, is shown by the fact that they are calling a meeting of all the poultrymen of that section for Friday night at the Woodman hall to discuss the Bankhead Poultry Producers' association, the new marketing association being formed in this county. Messrs. Bush and Briggs of Eastland, will attend the meeting.

BOBBY IS A ROMANCER, WHICH PROVES NOTHING

By United Press.
HOUSTON.—Bobby Allen, 6, red-headed, never had ridden in an automobile. He took his first ride in one from the police station to his home. Bobby and his little "brother," 3, had come down town to see what they could see. Bobby wore a black striped shirt and overalls, no hat, no shoes or stockings. Little brother wore one of these sexless garments known as "rompers."

A policeman picked them up by the slack of the pants in the midst of two streams of traffic on a busy street and sent them to the station. Bobby didn't know his brother's name, he said. Mother always called him "brother." They lived "out on Milam street." Mother worked at a nearby cafe.

When the mother arrived, Bobby's story went all to pieces. "Brother" wasn't a brother at all, but was a little girl next door. The two were eloping, and Bobby was lying to save the lady's honor. The sergeant booked him for false swearing, giving an assumed name, and abduction of a woman, and then sent him home in the biggest shiniest and nicest automobile in town, with the fair one—and his mother too—as company.

ABSCONDING CASHIER SHOT TO DEATH RESISTING ARREST

ROCK SPRINGS, Wyo., July 16.—C. N. Fisher, absconding cashier of the Gunn-Quealy Coal company, alleged to have stolen the semi-monthly payroll of \$5,000, was shot to death today while resisting arrest at Gunn, Wyo. The pursuit of Fisher had been conducted by automobile, airplane and motorcycle.

SIGNS YOU CAN BELIEVE IN.

If your breath is bad and you have spells of swimming in the head, poor appetite, constipation and a general no-account feeling, it is a sign your liver is torpid. The one really dependable remedy for all disorders in the liver, stomach and bowels is Herberic. It acts powerfully on the liver, strengthens digestion, purifies the bowels and restores a fine feeling of energy, vim and cheerfulness. Price 60c. Sold by Phillips Drug Store and Texas Drug Store.—Adv.

JAMISON ARRANGES FOR DEBATE OF CANDIDATES FOR SHERIFF IN RANGER

C. S. Jamison, candidate for sheriff, has arranged for an open-air debate in Ranger to start at 8:30 o'clock next Friday night, and has invited the other candidates for the office, Sheriff J. D. Barton, who is seeking re-election, Bob Edwards and Will H. Smith to speak in Ranger on that occasion. He has offered an equal division of time with them, wishing a full and free discussion of all issues involved and desiring to give each of his rivals for the office an opportunity to present their claims to the voters.

NATIONAL DEFENSE DAY TO BE OBSERVED IN DALLAS

DALLAS, July 16.—Observance of National Defense Day will be held

in Dallas September 12 with the Dallas chapter of the Reserve Officers' association, American Legion and National Guard, Veterans of Foreign Wars, and other civic and patriotic bodies participating.
Lieut. Col. Tom Moreny, president of the Dallas chapter of the R. O. A., will take active charge of plans for the day. He recently returned from Washington with general plans for observance of the day throughout the country.
September 12 is General Pershing's 64th birthday, and the anniversary of the battle of St. Mihiel.
