BIBLE THOUGHT. GOD'S KINDNESS.—For the mountains shall depart, and the hills be removed; but my kindness shall not depart from thee, neither shall the covenant of my peace be removed, saith the Lord that hath mercy on thee.—Isaiah 54: 10.

BUY "MADE AT HOME PRODUCTS" Because many of the grocery stores in Ranger are bringing in and urging customers to buy bread made elsewhere, bakers have been finding it unprofitable to operate bakeries in Ranger. There were three bakeries in the city a year ago. One of these moved away the latter part of last year and a second has just closed its doors and the owner has shipped his machinery to California.

Every resident of a town, property owner, trader or worker, or a member of a family of one of these—receives something from others in the town and owes a duty to do something in return. One of these duties is to encourage local trade and the consumption of local products.

Some grocery stores claim their customers ask for the outside-baked bread. Of course, merchants wish to please their customers, but it is claimed by a number of customers that the merchants frequently try to persuade them to buy bread baked elsewhere in preference to the Ranger product?

What is true of bakery products is equally true of all local manufacturers and trade, not only in Ranger but in any town. The people owe it to their neighbors, their fellow workers, their fellow merchants and fellow property owners to buy whatever they need, so far as it may be possible, from local manufacturers and traders.

Whenever money is circulated locally it helps keep up local trade and industry, but when it is sent away the progress of the whole community is retarded. One such dereliction leads to another, and then to others, and before long they are returning like boomerangs to smite the first offenders.

by a narrow margin, having presented a request for a recount. It was decided to withhold declaring the result in this race until the chairman should get an opinion from the attorney general as to whether or not the executive committee had the authority to make a recount.

then declared as shown by the returns. The question of paying the judges and clerks for holding the election came up. It was found that there would probably not be sufficient funds to pay the statements rendered some of them being in excess of \$100 for one precinct, and have sufficient funds to pay for holding the run-off. In view of the fact that no additional assessment could be made, it was decided that no accounts would be paid until after the run-off and that the expenses of both elections would then be paid if there were sufficient funds and in case there were not sufficient funds for both elections to prorata what there was on hand.

Speeches Are Made. When the business of the convention had been finished, Senator W. J. Rodgers made a short talk in which he said that, although the Oil Belt News had said that he voted for James E. Ferguson in the impeachment proceedings against him when he was impeached as governor, such was not the case. He said that while it was true Ferguson was impeached, Mrs. Ferguson was not impeached and that he had confidence in her and would vote for her for governor in preference to Felix Robertson, the klan candidate.

C. U. Connelley, on the request of the convention, made a short talk. He said that he attended the first Democratic convention ever held in Eastland county and that at that convention Truman Conner, brother of Earl Conner, and present chief justice of the court of civil appeals at Fort Worth, was elected as a delegate to the state convention.

Senator H. P. Brelsford paid a tribute to Mrs. Ferguson and Mr. Ferguson. He said that there was something good in a man and something to admire about a man that would make the fight for vindication that James E. Ferguson had made in Texas.

Mrs. Phillip Pettit of Cisco, said that she had been a Democrat for a long time before she had the right of the ballot, that she was against the klan and believed it to be unconstitutional.

Senator Joe Burkett told of a recent visit to Mr. and Mrs. Ferguson at Temple. He said that he was going to attempt the organization of his senatorial district for Mrs. Ferguson and asked that his friends support her. He said that the klan had already started the report that Mrs. Ferguson was a Catholic, but that it was untrue. He told his hearers that they may listen for most any kind of lies to be told on Mrs. Ferguson in the coming campaign as "that is the way the Ku Klux Klan fights."

Resolutions Adopted. The committee on resolutions was composed of: O. F. Chastain, J. Frank Dean, Lanham Brown, F. A. Brown, O. C. Funderburk, Mrs. R. Q. Lee, Mrs. O. F. Chastain and Mrs. M. H. Hagaman. The resolutions reported by this committee were adopted unanimously.

This committee brought in a resolution in which the principles of Democracy as advocated by Thomas Jefferson were endorsed for renewed allegiance, religious tests for public office or public trust condemned, the fostering of racial or religious prejudices declared un-Christian, un-American and un-Democratic, and further reciting:

"Every American citizen is entitled to an equal share and participation in the solution of all questions affecting the common welfare, and it is his right and duty to cast a free and untrammelled ballot, and to secretly control and dictate how and for whom its members shall vote, if permitted to succeed to any extent in such practice, become a menace to the continuance of a Democratic form of government in this country."

"Believing that the time has come for all good Democrats to take a positive stand for the control of public affairs by the openly expressed will of a free citizenship, as opposed to domination from the Imperial Palace at Atlanta, Ga., we denounce the Ku Klux Klan and its tactics, and here now consecrate ourselves to unrelenting warfare upon that organization until it is driven from participation in all governmental activities, national, state and county."

"We deplore the unjust and unfair methods of the klan in the recent campaign in Eastland county, and avail ourselves of this opportunity to especially express our disapproval of the Oil Belt News, the official organ of the klan in this county, and the manner in which it libeled and slandered many good and honorable men who dared to openly oppose the klan. A newspaper which will resort to such a practice is not worthy of the support of the citizens of this county, and is not entitled to the consideration and respect of decent people."

Endorsing Mrs. Ferguson. A resolution offered by Joe Burkett and recommended by the committee, then adopted unanimously by the convention, is as follows: "Whereas, Mrs. Miriam A. Ferguson of Bell county, is a candidate, in the run-off primary, for the high office of governor of Texas, and, "Whereas, she is a true Democrat, a home-making, home-loving, patriotic and devoted Christian lady and mother, as well as being of southern blood, Texas-born, and Texas-raised, and a woman of high intellectual attainments and of outstanding ability, a staunch prohibitionist and against bootlegging drug stores, and, "Whereas, she is a free, open and visible government, participated in by all citizens of Texas, and is against secret political government and klan-dominated officials in Texas, "Therefore, be it resolved, by the Democrats of Eastland county, in county convention assembled, that we do most heartily approve and endorse the candidacy of the said Mrs. Miriam A. Ferguson for the high office of governor, and urge all true and liberty-loving Democrats in this county and all over Texas to actively support her in her race for governor. "Be it further resolved, that a copy of this resolution be furnished the press of the state, and that a copy also be mailed to the said Mrs. Miriam A. Ferguson, at Temple, Texas."

REED UPHOLDS PLANS TO TEST NATION'S DEFENSE By United Press. KANSAS CITY, Aug. 2.—Governor Bryan and other officials who refused to co-operate with the defense day program of the President, are making a serious blunder, Senator James A. Reed of Missouri, said tonight. "The pretense that if we make preparations to defend our borders from an attack, we will thereby create a lust for blood, is the limit of absurdity," Reed said. "The purpose is to develop the best possible plan for mobilization of our resources, so that nations will be reluctant to attack us."

GOVERNMENT SUES FOR OIL LEASE IN ELK HILL RESERVE By United Press. LOS ANGELES, Cal., Aug. 2.—Oil lands in the Elk Hill naval petroleum reserve valued at more than four million dollars, now leased to the Belridge Oil Co., will be returned to the government under the terms of a suit filed in the United States District Court by United States District Attorney Burke. The government seeks to recover 14,216 acres of the land adjacent to a lease held by the Pan-American Petroleum Co. head by Edward L. Doheny which already is subject of similar litigation.

The Belridge lease was granted by E. C. Finney, assistant secretary of the interior under Albert B. Fall. The complaint charges that the lease was granted without advertising and without competitive bidding, which makes the transaction illegal. The hearing for a receiver will be held before Federal Judge McCormick during the coming week. A temporary injunction to prevent the Belridge company from taking any more oil was asked.

The Improved COACH on the HUDSON Super-Six

For the First Time in History Closed Car Comforts at EXACTLY Open Car Cost
This Hudson Coach makes history. It is the first closed car ever to sell at exactly open car cost.
And Hudson, alone, can build it. As the largest producer of 6-cylinder closed cars in the world, Hudson exclusively holds the advantages to create this car and this price.
Greatest of All Hudson Achievements
And now full size balloon tires are standard equipment. Do not confuse with "semi-balloon" types. Hudson's are genuine, full size balloon tires—33"x6.20". Compare the difference.
Hudson has not simply "added balloon tires." Both running and steering gear have been especially designed to compensate for the radical differences balloon tires bring.
The result is the easiest steering, most comfortable and steady riding Hudson ever built. And braking efficiency is almost doubled.
More than ever, "Closed Car Comforts at Open Car Cost" is the uppermost buying issue. Note how fast the Coach is displacing open cars.
As the wanted type the Coach maintains the highest resale value against the waning desirability of the open car.

AMERICAN FLOUR IS POPULAR IN GERMANY
BERLIN.—Farmers of Pommer-

ania and Mecklenburg are struggling hard under the competition of American wheat growers who sell their products of high-class wheat at prices slightly lower than those for German rye, which, for bread-baking purposes, is of considerably inferior quality. With Hamburg for center of distribution the northern part of the country is absolutely swamped with American wheat flour, making it impossible for them to market their products, even though they sell below cost of production. Farmers fear that, the first inroad made, the firms handling American wheat will strive to extend their business all over Germany.

Gentlemen:
PREVENTION OF ACCIDENTS.
Re: Premises located at 213-17 Main Street, Ranger, Texas, Insured under Policy No. R-261386.
Our Inspector, Mr. R. J. Furr, made an examination of the premises at the above location and reports as follows:
The machinery, roofs, cornices, doors, walls, stair treads, floor coverings windows and screening, outside fire escapes, plastering and lighting fixtures are in satisfactory condition.
There are no hazardous conditions in the sidewalks or alleys and the public entrances are in good condition.
The fire exits are free from obstructions and the openings to the elevator hoistway are in good conditions and safe.
As far as could be seen from a careful examination of the premises same was found in satisfactory condition except the railing around the opening over the lobby which is not substantially anchored and to prevent accidents it should be repaired.
The recommendation herein is made in the interest of ACCIDENT PREVENTION which we are certain will appeal to you, and we therefore trust that we may have your co-operation in this direction and your advice when this matter has had your attention.
Very truly yours,
K. J. FURR,

REASONS GIVEN FOR THE RULE 'BUY AT HOME'

Ranger Retail Merchants Association Gives Good Advice To Citizens.

In a communication sent out by the Ranger Retail Merchants association, a few of the many reasons why residents of Ranger should "Buy in Ranger" are set forth. The letter says:

"As Ranger is our home, the place where our interests are centered, merchants and customers should all work, boost and pull together to make it a better place in which to live.

"The entire business world today is becoming more and more conscious of the fact that to stabilize general conditions, it is necessary that every person recognize an obligation and an opportunity of supporting their home institutions. As the farmer is fast learning the lesson of making his living at home, he is also learning that it is his obligation to support the retail merchants who are doing business in his community. In fact, it is just a simple truth as well as good business to lend every support possible to every institution that has for its purpose the up-building of any particular community.

"If every person in our town and community will spend every dollar they possibly can in Ranger, each dollar so spent makes its contribution to the general public good. Naturally, the basis of our commercial life depends upon the prosperity of the individual at home. It is a well accepted fact that the prosperity of any community and the prosperity of any trade territory is dependent upon the success of all the people who live in that trade territory. Therefore, we should patronize our home merchants, who are the taxpayers and the backbone of the town and community.

"In this way, each dollar put in circulation makes a substantial contribution to every department of business and serves in this way every person residing within that territory.

"Cities are not built by hot air and windy conversation, but by real men and hearty co-operation. The citizen who devotes his energies wholly to private affairs, refusing to take part in public affairs, who prides himself in the fact that he minds his own business, is blind to the fact that his own business is made possible by the prosperity of all."

RANGER TAKES SLOW GAME FROM PARKS

Score of 13 to 9 Indicates That Each Team Was Somewhat Wild at Times.

In a slow drawn out game Ranger let Parks camp down with the small end of a 13 to 9 count. Parks camp was out fought, and out played all through the game.

The Nitro wrecking crew were on their good behavior yesterday afternoon and were satisfied with slaming two pitchers all over the lot for a total of 15 hits and 13 runs. Home runs by Dinsmore and Flynn with men on base spelled doom to the Parks camp aggregation.

Snodgrass was as wild as a cyclone in Kansas, walking nine men and presenting Parks camp with the majority of their runs. Snodgrass, whenever he could locate the plate, pitched airtight ball, as he struck out ten men, but he was also hit freely,

as 12 hits were made off of his offerings. Airtight defense saved him several times when he was in a nasty hole.

The two teams will lock horns again this afternoon at Nitro park at 3:30 o'clock. Smith will probably do the hurling for Ranger and Sealy will work for Parks camp.

OLDEN LOSES 10-INNING GAME TO THURBER

Olden and Thurber mixed it Saturday afternoon for 10 innings with Thurber coming out on the long end of a 4 to 3 score. The game was fast and hard fought and was one of the best seen on the Thurber field this year.

Olden made three errors in the 10 inning which accounted for Thurber's last and deciding tally. White reached first on an error and advanced when Ludwig muffed Dalmasso's sacrifice and both men were safe. White scored when an error was made off McKinn's line drive.

A Few of— Dunlop's Contributions To Tire Improvement During Thirty-Six Years In 1888, the first Pneumatic John Dunlop of Belfast, Ireland, made an air-filled tire for the tricycle of his invalid son. This was the world's first practical pneumatic tire. In 1890, the first "Clincher" Dunlop acquired the patent rights of the Bartlett clincher tire, perfected the idea, and gave it to the motorists of the world. In 1890, the first "Straight-side" The Dunlop-Welch tire embodied, for the first time, the principle of the wire bead. The standard straight-side tire of today is basically the same as this early Dunlop product.
