DEATH THEORY JOINS COCACOLA WITH ASPIRIN

Neither Inquest Nor Autopsy Held in Eddie McLean Case.

Three aspirin tablets, a glass of coca-cola and a weak heart may have caused the death of Eddie McLean...

But neither an autopsy nor an inquest has been held over the body. Man Not Drinking.

Buster Tile, who was with McLean all day Monday up until the time he became ill Monday night, and who later went to the rooming house at the request of Goldie Majors...

Other persons who saw McLean during the hours immediately preceding his death were also of the belief that the man had been drinking.

Tile stated that at 9 o'clock he and McLean went into a drug store and that McLean drank a glass of coca-cola and swallowed an aspirin tablet.

Former Fighter. The fact that the dead man had a very weak heart was brought out by Tile, who said that McLean had been a prize fighter and had to quit the ring on that account.

When questioned for an opinion, several physicians declared that the three tablets of aspirin, together with the coca-cola, could have caused the death under the conditions which it occurred.

Mr. Milford said that the stomach was very hard like it had been cooked and when an incision was made for the purpose of embalming very little gas escaped.

Dr. Rowe enters upon the duties of director general of the union with an intimate knowledge of Latin-American affairs, having served as head of the state department's division of Latin-American affairs for some time and previous to that having been a member of various commissions for the study of Latin-American subjects.

GERMAN WIRELESS, SUNK IN SEA OFF MALTA, WAS CLEVERLY CONCEALED

MALTA, Sept. 1.—A complete wireless apparatus was anchored in 20 fathoms of water off Melhba Bay, with the mast and working parts below the surface to a depth of about eight fathoms, has been discovered by a party of Maltese fishermen.

The apparatus, which was subsequently removed by the dockyard authorities for an examination, is of German construction and is complete in every detail.

Undoubtedly signalling went on regularly during the war with submarines lying in wait for British vessels, it being quite possible to sink the mast before the operations could be detected.

Goldie Majors, Buster Tile and several others were positive, however, the dead man had not drunk anything during the evening except the glass of coca-cola.

Justice of the Peace J. N. McFatter said that an inquest was not held because "he had not been invited to hold one; that he was not notified until the body had been embalmed and that the county commissioner did not want to pay for an inquest."

To hold an autopsy it would have been necessary for the undertaking company to bear the expense unless otherwise provided for and due to the heavy cost the company did not feel justified in taking the step.

McLean's people live in Butte, Mont., and have notified the Milford company to send the body to that place.

Former State Challenger. Tile said that he knew McLean both in Ranger and at his former home in Butte, Mont. Before his heart became weakened, he said McLean was a prize fighter and at one time was a contender for the welterweight title of Montana.

However, he said, if the dead man had ever had an engagement to appear in vaudeville he did not know it. It had, however, been McLean's ambition to enter vaudeville.

SHIP BOARD TO SETTLE DOCK LABOR TROUBLE

WASHINGTON, Sept. 1.—Dates for three conferences to be held by steamship interests, longshoremen and shipping board representatives are announced in order that new working agreement covering wages and working conditions of longshoremen on the Atlantic and Gulf coasts may be completed as soon as possible.

U. S. Citizen Believed Dead at Zamora's Hands

MEXICO CITY, Sept. 1.—Complete lack of information relative to the whereabouts of Sandy Gardiner, United States citizen, and W. B. Johnson, British subject, both of whom were kidnaped more than a week ago by the bandit Zamora, gives rise to fears that both may have been executed.

The Mexican secretary of war with government troops is in pursuit of the outlaws.

CORBETT MAY REFEREE DEMPSEY-MISKE BOUT

BENTON HARBOR, Mich., Sept. 1.—With the championship contest between Jack Dempsey, champion, and Billy Miske, the challenger, only six days away, the question of a referee for the title match receives serious consideration in the camps of both men today.

Half a dozen men prominent in ring affairs are under consideration. Among them are James J. Corbett, former heavyweight champion; Jim Griffin, San Francisco referee; and Jim Dougherty of Philadelphia.

Emerson Dickerson of Grand Rapids, Mich., president of the Central league, has been selected as referee for the preliminary contests, the first of which will be started at 3 o'clock daylight saving time.

SHE LOVED FINERY, STEALS LIFE-LONG SAVINGS OF FATHER

SAN FRANCISCO, Sept. 1.—Love of finery and determination to retain hold of her 19-year-old lover, led pretty Ella Nichols, 19 years old, 380 Lilly avenue, to steal \$1,100, her father's life-long savings, according to her confession made last night following her arrest by detectives.

Ella kept house for her father and brother. She was entrusted with a key to the safety deposit box in which the father kept his savings. Recently the money was missing. Ella disappeared for three days. She told police she spent most of the money for clothing, hats, jewelry, manicures and other vanities.

RIVETER STARTS AND STOPS WALK-OUT OF WORKERS IN AN HOUR

VANCOUVER, B. C., Sept. 1.—Mickel Gabb, a non-union riveter, started and stopped a strike of 2,000 boilermakers in the Stanford shipyards here the other day, all in one hour. When Gabb learned that the union men had walked out when told that his employers would not discharge him, he resigned, thereby removing the cause of the dissension.

TWO AVIATORS KILLED IN MAIL PLANE CRASH

MORRISTOWN, N. J., Sept. 1.—Two unidentified men were burned to death in a government mail plane which went down here today.

WASHINGTON, Sept. 1.—The only mail plane known to have been in the vicinity of Morristown by postal officials was one engaged on the New York-Cleveland-Chicago run, scheduled to leave New York early today. The plane was driven by Max Miller, one of the most experienced pilots, assisted by Mechanician Richardson.

To Tell Why Folks Should Buy In Ranger

Definite plans for the launching of the fall style show of the Ranger Retail Merchants' association Sept. 21 were made last night at a meeting of the executive committee of the association with business and professional men of Ranger.

It was decided to assess each member of the association one cent on every dollar sale for publicity and exploitation purposes. Each member will be asked to make an initial purchase of the coupons which will be used to tally the assessments immediately.

The show is planned on a pretentious scale. Besides large cash prizes which will be awarded in different kinds of contests and drawings to be decided on later, several automobiles will be given away.

Word of the style show will be dispatched to all the towns and communities within the Ranger trade territory. It is expected that the show will attract attendance from points within a radius of 100 miles.

That the merchants of Ranger can sell goods at a lesser price than even the merchants at Dallas and Fort Worth, is the claim of association members. This is explained by the fact that large stocks of goods now in Ranger, through shrewd buying comprise the best assortment in West Texas and may be sold at a discount on Dallas and Fort Worth prices and still leave a profit for Ranger merchant.

The active support of every business man and concern in the city has been pledged to the style show project.

MEXICO FALLS IN LINE WITH RAIL RATE BOOST

HOUSTON, Sept. 1.—The national railroads of Mexico today inaugurated a 25 per cent increase in freight rates. The foreign trade committee of the Houston Chamber of Commerce was advised of that action by Trade Commissioner T. L. Channingham.

As the increase will not affect foreign goods consigned to Mexico City via Vera Cruz, it is expected much traffic that has been going into Mexico City through border points will be diverted to gulf ports. Shipments to Mexico City via Vera Cruz, Pachuca, and Puebla are exempted from the increased rates by government order.

With procurement of a good share for Houston of the traffic expected to be diverted from border points in mind, the Chamber of Commerce has invited the Mexican trade excursionists who will attend the Dallas fair in October to stop over here as their guests on their return trip to Mexico. The Mexican party numbers fifty merchants.

MACHINE GUNS TURNED ON WEST VIRGINIA MINERS

WILLIAMSTOWN, W. Va., Sept. 1.—Two skirmishes between United States infantry and mobs, during which thousands of rounds of ammunition are said to have been fired and machine guns used by the soldiers, characterized the disturbed industrial situation in the coal fields near here.

A strike at Ponderick, Ky., has been declared for next Monday.

FINANCIAL CONDITION OF STATE UNUSUALLY GOOD

AUSTIN, Sept. 1.—Texas begins a new fiscal year today in the best financial condition in its history, according to M. L. Wiginton, state comptroller. He estimated that there is \$10,000,000 credited to the general revenue fund, or enough to meet the \$4,000,000 appropriation for schools and pay the expenses of the state governmental machinery for three months.

AUTHOR OF "EVERYBODY WORKS BUT FATHER" KILLED BY AUTO

COTTON CROP OUTLOOK SHOWS MORE PROMISE

WASHINGTON, Sept. 1.—Continued improvement in the cotton crop during August, amounting to an increase of more than a quarter million bales, is announced by the department of agriculture. The department forecasts a total production of 12,783,000 bales, based on August 25 condition.

A remarkable growth took place during August, officials said, but the crop is from two to three weeks late and a late fall will be necessary for a favorable termination of the crop. Boll weevil damage is greater than usual.

The condition in Texas on Aug. 25 was 67 per cent.

PURE-BLOOD HAWAIIANS DECREASE IN NUMBERS

HONOLULU, T. H., Sept. 1.—Hawaii's native race will be extinct in seventy-five years if the ratio of births and deaths set by the official figures for the fiscal year 1919-20 is maintained. This is indicated by the report of Dr. F. E. Trotter, president of the territorial board of health, which shows that during the year the deaths of pure-blooded Hawaiians totaled 1,009, while there were 676 births.

There are approximately 25,000 pure-blooded Hawaiians living on the Hawaiian Islands, according to the estimates. Reports for the past year shows decreases in their numbers.

In marked contrast with the evidence that the Hawaiians are members of a "dying race" are the vital statistics dealing with those who represent mixtures of Hawaiian with Caucasian and Asiatic blood.

Of the Caucasian-Hawaiian, 249 died during the last fiscal year, while there were 690 births in that section of the territory's population. The Asiatic-Hawaiian strain, principally Chinese-Hawaiian, recorded 103 deaths and 491 births.

The natural increase in the Japanese population of the territory during the year was 3,306. During the year there were 4,963 births and 1,597 deaths among the Japanese.

MANHATTAN BIRTH RATE HIGHER DESPITE H. C. L.

NEW YORK, Sept. 1.—Despite the high cost of living, shortage of housing and the scarcity of domestic servants, the actual birth rate in New York City is going up at a rapid rate, according to health authorities issued here today.

The figures show that the birth rate per thousand for the first seven months of 1920 was 22.34, against the rate of 21.90 in the same period last year.

While the birth rate is on an increase the health departments statistic show, that the death rate of children in the city is on the decline. The rate infant mortality for the past year on each 1,000 births was 83, while the preceding years a much higher figure is on the records.

The decline in death rate is attributed by the authorities to the laws of sanitation and healthful living, which are now understood by the mass of the people.

'BRITISH AID' FOR COX IS MERE CONJECTURE

Britten Had no Facts to Back His Contention; "His Own Idea."

CHICAGO, Sept. 1.—After two days spent in investigating Republican campaign expenses, with only an occasional query directed at Democratic contributions, the senate committee today turned its attention to Democratic finances.

George White, chairman of the Democratic national committee, and Wilbur Marsh, national treasurer, were the chief witnesses.

Congressman Britten of Illinois, when placed on the stand last night to prove his charges of British aid for the Cox campaign, failed to sustain his allegations. On a cross-examination he admitted it was his own personal idea, and he had no facts on which to base it.

Chairman White told the committee that he had no evidence to sustain any one of the charges made by Governor Cox about the Republican campaign funds and quotas or the alleged desire of Republican contributors to have the bayonets of their puppet in office back of them in industrial centers.

Senator Spencer, Republican, chairman of the senate committee, brought out that headquarters of the Democratic national committee is in New York, with branches in Chicago, San Francisco and Washington.

M'SWEENEY RELEASE WOULD CAUSE CRISIS

LONDON, Sept. 1.—That the king would create a grave ministerial crisis at a time of special stress and anxiety if he ordered the release of Terence MacSwineey, lord mayor of Cork, was asserted today by his majesty's secretary. It is understood that the king will take no action in the case.

MacSwineey suffered a change for the worse last night. A complete numbness of his limbs has developed and he can no longer speak because of weakness. He has not taken nourishment since Aug. 12.

OPERATORS RESPONSIBLE FOR RISING FUEL COST

FORT WORTH, Sept. 1.—United States District Attorney Taylor, investigating coal prices in the Northern Texas district on orders from Attorney General Palmer, said today that the evidence thus far showed the mines are responsible for the mounting price of fuel.

PENNSYLVANIA MINERS WILL ACCEPT WAGE AWARD

HAZELTON, Pa., Sept. 1.—The full scale committee of the United Mine Workers of three anthracite districts met here today to decide on a policy regarding the appliance of the coal commission's award approved by President Wilson Monday.

Despite expressions of dissatisfaction, leaders believe the award will be accepted and efforts will be made to have new demands presented to the operators.

POLAND WILL NOT HEED AMERICAN ADMONITION

POLICE TOLD TO CLOSE UP OPEN GAMES

Pine Street House Mildly Raided; Six Are Arrested.

Instructions were issued yesterday by Mayor M. H. Hagan that all gambling houses and all poker games being operated in rooming houses and elsewhere be closed up and that those caught gambling be arrested and fined.

Mr. DeFebach agreed with instructions given and stated that he believed that the other commissioners were of the same mind. The conference was held at 5 o'clock. Last night six arrests were made over the Bryant garage on Pine street on charges of gambling.

In introducing the subject Mayor Hagan said that he had heard rumors that an open gambling house was running on Pine street. He declared that he did not know if the rumor was true but if it was, he expected the police to close it.

In the matter of games running in hotels he instructed the chief of police to arrest them wherever found but to do it as quietly as possible in order that the guests in the hotels would not be disturbed.

Tennessee is in Doubt on Legal Status of Suffrage

NASHVILLE, Sept. 1.—Views held by leaders of legislation on the probable passage of the Tennessee constitution yesterday in its journal all record of the federal suffrage amendment not to concur with the ratification of the amendment. Some expressed the opinion that the constitution as certified by Governor Roberts to the states instead of the house's action.

Governor Roberts declined to certify the constitution to the states. Attorney General Thompson pressed his belief that reconstruction impossible after the resolution had adopted by both Senate and House certified by Secretary of State Colby.

OUTLAW RENDEZVOUS MADE IRRIGATED FARM

WATONGA, Okla., Sept. 1.—What was the rendezvous for notorious outlaws on the side of a hill, a dog-out from the sight of the passing once the headquarters of the James and Younger bands, is shown by the larger number of the bill at numerous places which pour their streams from the hill at numerous places made the basis of a profitable system. Dams have been constructed in the area and the canal had to Fairview, the county or county, to furnish water for the irrigation to all parts of the ponds have been built and supported and many other modern fish and many other modern fish made.

The Dalton case sought the return of a revolver and the command reservation post furnished by the pursuers, according to old set.

The only profession that was not practiced in Delaware is the practice of law.

John Barrett Retires as Head of Pan-American Union; Successor Has Confidence of Latin Nations

WASHINGTON, Sept. 1.—Dr. L. S. Rowe today assumed the directorship of the Pan-American Union, succeeding John Barrett, who retired after fifteen years' service as directing head of the union. The transfer of directorship took place in the presence of members of the Latin-American diplomatic corps, Secretary of State Colby and other high officials of the United States government.

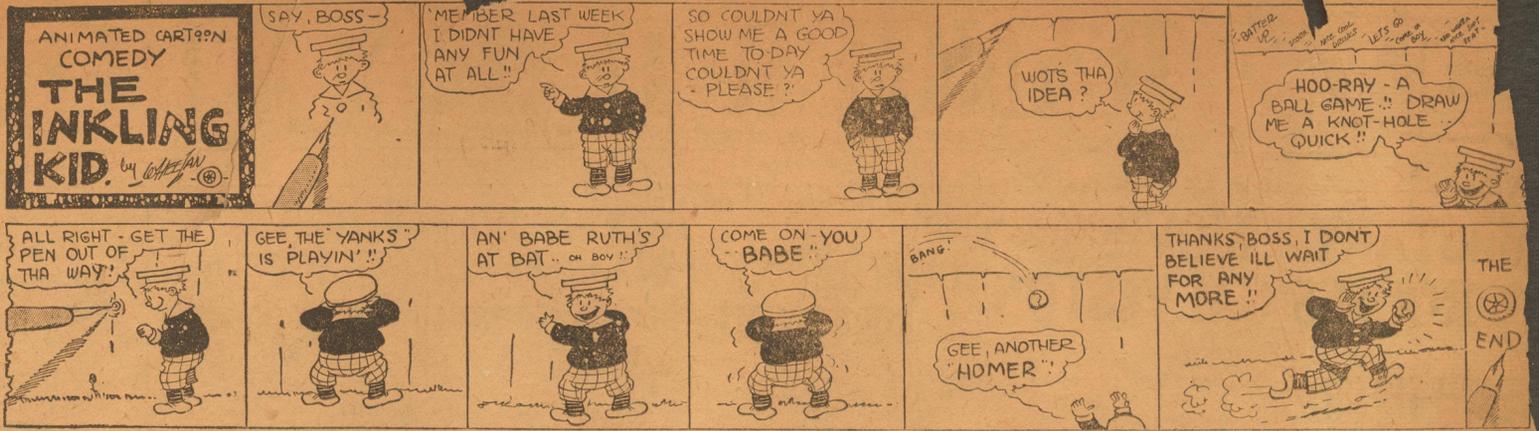

The new director in formally accepting the office declared that his policy would be to foster "a smoothly operating international organization that makes for mutual confidence, good will and above all the maintenance of peace."

"In entering upon the duties of director general of the Pan-American Union," said Dr. Rowe, "I desire to avail myself of the earliest opportunity to say that my major purpose will be to subserve the same great international purposes that have guided my distinguished predecessors. During the last fifteen years Barrett has performed such a conspicuous service to the cause of continental solidarity that the Pan-American Union has come to occupy a high place in the estimation of all the nations of America. Through his efforts, the unity and purpose of the peoples of America have been strengthened and they all owe him a very real debt of gratitude.

Dr. Rowe enters upon the duties of director general of the union with an intimate knowledge of Latin-American affairs, having served as head of the state department's division of Latin-American affairs for some time and previous to that having been a member of various commissions for the study of Latin-American subjects. During the world war, Dr. Rowe was an assistant secretary of the Treasury. He was secretary of the second Pan-American financial conference, which met in 1915 and of the international high commission, an organization of Latin-American republics. Dr. Rowe has received degrees from a number of South American universities.

Dr. Rowe enters upon the duties of director general of the union with an intimate knowledge of Latin-American affairs, having served as head of the state department's division of Latin-American affairs for some time and previous to that having been a member of various commissions for the study of Latin-American subjects.

MINUTE MOVIES

Wait Till Oct. 1,
West Texas Tells
Cottonpickers

Special to the Times.
STAMFORD, Tex., Sept. 1.—The power of the press as a mighty force in employment work is manifested in the free employment service of the West Texas Chamber of Commerce. Recently the statement went out from this organization to the press that not less than 50,000 cotton pickers would be required in West Texas by Sept. 15.
From ten to twenty persons are daily applying at the West Texas Chamber of Commerce for cotton picking work despite the fact that the news items showed that such labor would not be needed before Sept. 15. Most of those who have come looking for work are from other sections of the state where the boll and worm has been getting in his work.
Not less than 100,000 pickers will be needed in West Texas about Oct. 1, but at the present time there is not enough employment for the hundreds who are already pouring in. Those who anticipate coming to West Texas should wait until the cotton opens. It is late about four weeks, due to the heavy rains. In a few sections in the southern part of West Texas the boll weevil is getting in his work, but in the highlands he has not made his appearance in menacing numbers.

'SO THIS IS PARADISE!'
GERMAN GREETING TO
DUTCH HAM SANDWICH

OLDENZAAL, Netherlands, Sept. 1.—The food situation in central Holland has a good opportunity to obtain a long continuation at this place, which is the Holland soil after leaving territory on the main routes and Amsterdam.
The first opportunity for lost calmen minutes ride to the east here is meager, here it is daily jammed with crowds whose capacity for work is amazing. White bread sandwiches from a score of points—luxury in Germany. The serves as a preliminary to an even more plentiful train.
The associated press correspondent of the operations, a German company with a contract to Holland was making a vigorous attack on the luncheon counter. Profession in Germany is in a bad way. Prices are low and living is correspondingly precarious. Competition among touring companies in Holland is keen.
Their delight in facing a square meal pathetic. One, holding aloft a ham which of generous proportions, declared: "Beautiful, beautiful Holland! I sold the ham in the sandwiches is packed in luxuriant festoons, far surpassing in beauty and fragrance the roses in the gardens of Semiramis."
A woman sat with folded hands in contemplation of a chunk of fresh ham of a brick. "This is truly gorged."

BANK CLERK'S BENEFACTIONS
LEAD HIM INTO THE TOMBS

James Clark Opened Pocketbook to Tuberculosis Sufferers but the Money Was Stolen, Employers Allege.

NEW YORK, Sept. 1.—James Clark, a Hoboken bank clerk, wandered moodily in City Hall Park Monday evening, waiting to divide his last stolen dollars with some interesting vagabond.
After a while he observed two individuals who looked lonesome. He decided to cheer them up with some sprightly conversation. Does not adventure stalk through the byways of a great city?
The lonesome individuals were city detectives. When they had enjoyed Clark's Haroun Al Raschid reminiscences until his stories began to bore them, they arrested him.
Magistrate George W. Simpson in the Tombs Court this morning held him for examination without bail on a charge of embezzling \$800 in cash and \$750 in checks deposited by a client of the Second National Bank of Hoboken, where he was employed.
Clark admitted the theft but pleaded he had done good with the money—more than it would have accomplished if it had been left in the bank to draw interest for its owner, the proprietor of a moving picture house. He appeared crestfallen when the magistrate treated his explanation lightly.
He had been ill he said. He made figures with a pen in a ledger but he dreamed of the Catskills. He felt all of his fifty-seven years.
He was lonesome too. He had to keep the place open for late customers after his boss Eugene Dody, had gone up stairs to his apartment. Pretty soon a lot of movie folks would be bringing money around. They could go to the Catskills if they pleased.
Then the depositor came in with the checks and cash. It was the clerk's duty to notify Mr. Dody. He picked up the private telephone to call the apartment. The phone wouldn't work.
Clark put it down. After thinking it over for three hours he got out his hat and coat put the money in his pocket, walked out and caught a trolley.
In a few days he was in the Catskills. He found a sanitarium there and a lot of tuberculosis sufferers. They needed extra milk and eggs and things. He divided his money. He gave two men \$100 each and smaller amounts to others.
Then he grew better. His old energy returned. Besides, the money was running out. He came back to town, registered at a Chatham Square hotel, went for a stroll in City Hall Park and then he was arrested.

KARL JONES HOST
IN HONOR OF HIS
WIFE'S BIRTHDAY

Karl Jones entertained a number of his friends in honor of Mrs. Jones' birthday with a party last night at their home on Marson street in Burger addition. A big cake celebrated the anniversary. Dancing concluded the evening. Among the guests were: Captain and Mrs. H. F. McFarland, Mrs. William Clegg, Gifford Clegg, the Rev. and Mrs. C. M. Collins and the Misses Margaret and Charline Collins, Mrs. Moffett, Jerry Moffett, Mr. and Mrs. Buden, Mr. and Mrs. Roy Smith and Dr. and Mrs. T. L. Lauderdale.

H. A. Agey, with Mrs. Agey and their two sons, left for West Virginia, where Mrs. Agey will remain with the boys through the coming school year.

DAILY TIMES SPORT NEWS

The Times baseball flag, on top of the Guaranty Bank building, flies when the Nitros play at home and grounds are in good shape.

The Times baseball flag, on top of the Guaranty Bank building, flies when the Nitros play at home and grounds are in good shape.

Nitros Climb up by Victory as Rivals Take Beatings

It's too early to take up pennant hopes as they were checked Sunday, when the Nitros lost a game at Eastland that no one expected them to drop. But it's not too early, in view of the gladsome turn of events yesterday, to state to the world that the Nitros' chances at the present writing are much brighter than they were yesterday, or the day before.

Leaving Mineral Wells with an even break in that series, and two games behind the leaders, and one game behind Abilene, the Nitros are now tied with Abilene and one game from the top. In games, they have a half game edge on the Eagles, but their standings in the percentage column are the same.

How It Happened. How come? The Nitros won a top-sided victory at Eastland yesterday while the Scouts were drubbing Mineral Wells for the second time and while the lowly Sweetwater Symps were taking a pair from the Eagles. This last is the surprising turn, giving the Nitros a gain of a game and a half on the Eagles in a day.

Ranger goes to Sweetwater for a three-game series and the other contenders, Abilene and Mineral Wells, are in a three-game set-to, at Abilene. If the Nitros continue to win, the matching of Abilene and Mineral Wells will do no harm. One of these two may be eliminated in the series.

If Abilene wins today they will have a point advantage over the Nitros again, the standings being, Abilene, won 33, lost 24, .579; while Ranger, with a win, would be, won 37, lost 27, .578. The Resorters will be won 36, lost 26, .581. Thus, three points will cover all three leaders, if Ranger and Abilene win. Ranger will go to third again, but only by that slender margin.

If Mineral Wells and Ranger win, Abilene will drop to third, with .561, and Mineral Wells will still be a game ahead of the Nitros, with .597.

Possibilities. If Ranger wins all three games at Sweetwater, the possibilities are: Win Lose Win Lose Clubs— Two Two Three Three RANGER591591 Mineral Wells594593 Abilene576593542

Lefty Adkins, who always was a bear against the Sweetwater swatters, probably is first out, with Billings, Harding, Hill and Boyer to call on in the other two games.

Then back home again. DUCK SOUP. EASTLAND, Sept. 1.—Ranger took the last of the series here Tuesday, 14 to 3, in the most ragged game ever played on the grounds. The Eastland players went entirely up in the air and kicked the ball to all corners of the lot. The Eastland team made eight errors. Matthews pitched the whole game for Eastland and was nipped for fifteen hits. Carter, pitching for Ranger, had everything and allowed only two hits up until the eighth, when he loosened up and allowed two more hits and three runs.

HOW THEY STAND

WEST TEXAS LEAGUE

RICHARD NORRIS WILLIAMS 2ND

HOLDER OF THE NATIONAL SINGLES IN 1914 AND 1916 - WHO WILL BE A HARD MAN TO DOWN IN THE CHAMPIONSHIPS AT FOREST HILLS

WILLIAMS WAS ONE OF THE FOUR MEMBERS OF OUR VICTORIOUS DAVIS CUP TEAM

HE'S STREAKY, FANS BUT WHEN 'AT BOY IS ON HIS GAME HE'S SHIFTY MEN, HE'S SHIFTY !!

WOOD COWAN

R. Norris Williams, the 2nd, is a Bostonbred tennis player from where a good many of our greatest players have hailed. Even today, Boston holds her share of top notchers; more especially is that true among the fair sex.

Back in 1914, McLoughlin, after having beaten Norman E. Brooks, then British champion, and the late Anthony F. Wilding in the international single matches, fell before Williams in the final round of the American championship at Newport. It was the only match that he had lost that season. In defeating McLoughlin, Williams had accomplished what many at that time considered the im-

possible, for "The California Comet," as he was then called because of his speed, was at the top of his game and even in defeat was given a rating higher than Williams.

After falling in the championship tournament of 1915, Williams came back and won the 1916 title. He did not play in 1917 and very little the following year; but in 1919 he began to display his old-time brilliancy and this season his game is even better than when he won the championship. Williams is a great player but will not do his best unless in the mood which, his opponents think, is often enough. Son of Duane Williams, a great man, he seems undecided wheth-

er or not to go on being a great lawn tennis player. He learned his game with Major Kingscote, in Switzerland, and it was Major E. B. Harran who taught the boy that clean drive, superior to your top spin or cut, as all players of tennis know. Williams is a perfect all around player, just now a trifle less speedy than before the war.

But even American speed must slow down some time. This summer in England, paired with Charles Garland of Pittsburg, he won the English doubles championship as a member of our Davis cup team. Williams' playing is apt to be very streaky, with flashes of brilliancy. He is not as steady as Johnson or Tilden, but he can be depended on to be well up with the leaders at Forest Hills.

NATIONAL NET MEET TO BE ALL-AMERICAN; SHOULD FURNISH SOME WONDERFUL PLAY

Left to right, above: Williams and Tilden. Below: Garland, Johnston.

For the first time in many seasons there are no star foreign players entered in the U. S. national tennis tourney which starts Aug. 30 at the West Side Tennis Club in New York. The meeting will be an all-American affair, so to speak. The four leading contestants in the tourney are shown above.

Young Girl Found Captive In Den of Opium

LURED FROM HOME, DOPED AND

DENVER, Aug. 31.—By battering their way through the massive woodwork of a heavily barred door to an opium den at 2023 Market street, police last night rescued a young and pretty white girl who was found lying on a couch in a state of semi-stupor. An opium smoking lay-out was found near her elbow.

All other habits of the place fled at her approach of the police. The girl said her name was Hazel Foster. She became hysterical when approached by the police and declared that she had been spirited to the place by Sam Wing, the proprietor.

"I have been a prisoner here for two weeks," she said. She told the police

that she had worked as a waitress in Seattle. About three weeks ago she was approached by a young white man who claimed to be the proprietor of eating places in Denver. She accepted a job as cashier, she said.

"After we arrived here," the girl said between sobs, "I remember entering a chop suey restaurant, drinking some tea. I did not eat two whole days. I found myself in this place."

Her face was the transparent of a person long imprisoned and doomed to the use of drugs.

LOWLY SWEETWATERS SWATS THE SOARING EAGLES TWO IN ONE

SWEETWATER, Texas, Sept. 1.—The locals captured both ends of a double-header from Abilene Tuesday, 12 to 0 and 2 to 1. Monahan worked both games for Sweetwater, allowing six hits in the first game and five in the second. He pitched superbly and was complete master of the situation throughout. The second affair soon developed into a pitchers' battle, but Monahan was not to be downed, keeping his hits widely scattered.

Aside from his masterly hurling the features were two scintillating catches by Center Fielder Gressett and the throwing of Catcher Shaffer. Milam and Taylor also fielded well. Score, first game—R. H. E. Abilene000 000 000—0 6 5 Sweetwater 520 000 005—12 15 1 Batteries: Crowson, Gaines and Shaffer; Monahan and Whitney.

Second game—R. H. E. Abilene000 010 00—1 5 1 Sweetwater001 100 00—2 7 2 Batteries: Phillips and Shaffer; Monahan and Whitney.

TOTED MAJOR'S SWORD

International News Service. HUTCHINSON, Kan., Aug. 31.—Who is a sword with his name engraved on it is in the hands of the management of the Bisonte Hotel here, part of the "munitions of war" held for the board bill of "Lieutenant" Ball. Ball is being sought by the police for a bad check.

When the army officer disappeared following the non-payment of his board bill at the hotel and the bad check, his effects were seized. The sword was among them. The authorities want to know how he came into possession of the major's sword.

JOHNSON REPEATS AGAINST RESORTERS MAKING TWO IN RO

Special to The Times. MINERAL WELLS, Aug. 31.—Johnson for Cisco pitched his second straight victory today, 6 to 2, allowing only thirteen hits. Knight and Briscoe, third and Johnson for the resorters was touched for ten hits. Knight and Briscoe, third and short, were both out of the game today. Cisco outplayed the locals. The score:

The Economy of Using Goodyear Small Car Tires

So-called bargain tires, made up for sensational sales and offered at ridiculously low prices, do not attract careful buyers.

They are far more concerned with what they get than with what they pay because they know that in the end it is performance and not price that delivers actual tire economy.

The popularity of Goodyear Tires, of the 30x3, 30x3 1/2 and 31x4-inch sizes, is based on the fact that they deliver exceptional mileage at exceedingly low cost.

If you own a Ford, Chevrolet, Dort, Maxwell or other car taking these sizes, go to your nearest Service Station for Goodyear Tires and Goodyear Heavy Tourist Tubes.

30 x 3 1/2 Goodyear Double-Cure Fabric, All-Weather Tread \$23.50

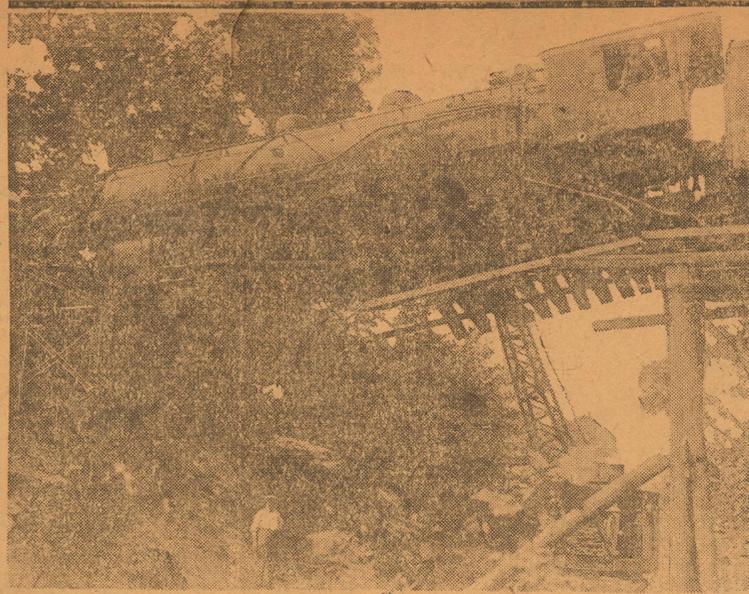

30 x 3 1/2 Goodyear Single-Cure Fabric, Anti-Skid Tread \$21.50

Goodyear Heavy Tourist Tubes cost no more than the price you are asked to pay for tubes of less merit—why risk costly casings when such sure protection is available? 30 x 3 1/2 size \$4.50 in waterproof bag

MONSTER LOCOMOTIVE IN PERILOUS FLIGHT

The locomotive on the broken bridge.

The collapse of a bridge at Greencastle, Ind., under a battleship type of locomotive has developed an unusual problem for the wrecking crew, which is trying to rescue the engine before it crashes to the ground. Although the bridge was new and had been approved by engineers, the engine had hardly brought its full weight on it before it sank with a crash, the center falling twenty-five feet to the

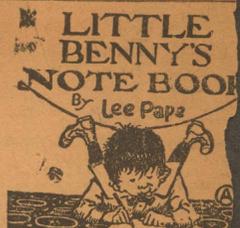

"Come Fight With Us--- and Bring Your Lunch"

STREETER'S INVITATION TO AMERICAN LEGION

"Streeterville," on Chicago's "Gold Coast," Has Been the Scene of Many Encounters Between Police And Aged Fireater.

By Associated Press
 CHICAGO, Sept. 1.—"Streeterville," in the "Deestriet of Lake Michigan," a part of Chicago's "Gold Coast" is about to be the scene of the thousand and first battle in its history, according to notice served on United States Marshall Bradley by Captain George Wellington Street, eighty year old claimant to a \$50,000, 000 portion of the exclusive Lake Shore Drive section.
 "Cap" Street and William H. Niles, one time "military governor" and commanding general of the army of the "deestriet" having notified the federal authorities that they are about to again try to enforce their claim that Streeterville is not in any state in the union, have invited the American Legion to assist them and set the date for the opening of hostilities as Sept. 6. A letter to the legion posts, a copy of which was also sent to Marshall Bradley, invites former soldiers to meet me at the foot of Superior street in uniform, armed and carrying a flag and help to end by force of arms the treasonable acts of judges or stand up against a wall before a firing squad. A postscript invites the legionnaires to bring their lunch.

"Landed" in 1886
 Captain Street has been fighting since 1886 to establish his claim to one of the most valuable sections of Chicago's lake front. In that year his steamer, the Reutan, stranded on the beach during a storm. Captain Streeter built a breakwater about the stranded boat, 450 feet long and made it his home. The rapidly shifting sands filled in the space between the boat and shore and added 193 acres to the city's area. To this Captain Streeter laid claim, and in the next quarter of a century battles by the hundreds were fought in an effort to oust him.
 On one occasion 500 policemen besieged Streeterville. "General" Niles proclaimed himself "military governor of the district of Lake Michigan" and with fifty men of his "escort" erected breastworks surmounted by barbed wire and stood off the police for several days before desertions in the ranks so weakened the defending forces that a lone policeman finally executed a flank attack and carried the fort.
 The courts in 1915 ruled that Streeter had no title to the property and his brick castle, which had succeeded the steamboat wrecked by deputy sheriffs and then burned.
 In 1902 Streeter and two friends were convicted of manslaughter in connection with the death of John S. Kirke, killed in one of the frequent assaults on the castle. All were sentenced to life imprisonment, but after a few months were released.
 Double Titles
 The site of the "deestriet" is now covered by more than a dozen skyscraper apartment buildings and hotels. The land is valued at more than \$50,000,000. Many of the present owners have purchased deeds from Streeter as well as the state in order that their occupancy may not be interfered with by the eighty-year-old fire eating veteran.
 Streeter's claim is based on the contention that the act creating the state of Illinois fixed the "meander line" of the lake as the boundary, and that therefore his "deestriet" was outside the state and owed allegiance to not one except the United States. The courts held, however, that Illinois extended to the center of Lake Michigan, that all land created by natural secretions of the lake belonged to the adjoining property owners; and that all land created artificially belonged to the state. The stranding of Streeter's steamship created land artificially, it was held.

LITTLE BENNY'S NOTE BOOK

My cuzzin Artie was around suppr yestiday, and after suppr went back in the kitchen to get drink and there was a raw egg on the kitchen table and Artie sez tell you lets wat, lets play hide and egg.
 Wich we started to do, and the 3rd time I hid it in the pocket of pps coat hanging over a dining room chair, and jest then the fellows yelled outside and we ran out, me forgetting all about the egg in pps coat pocket till this morning, thinking, Holy Smoaks, gosh, G, I wonder if he found it. And this afternoon I was setting on the front steps and pop turned around the corner looking like a man that had found an egg in his pocket, and I quick went in the house and up in my room, and pritty soon I herd pop saying, Wares that devilish kid? Benny, Benny.
 Me not ansering, and I herd ma say, Wy, Willyum, wat do you wunt him for? and pop sed, I'll show him wat I want him for, look at this pocket but dont put your hand in it, wares that boy, he's in the house swunare, I saw him go in, Benny, Benny, Me not ansering, and he called about 4 more times and then I called down, Did you call me, pop?
 No, you must of bin dreaming, come down heer, sed pop. Wich I did, and pop sed, Did you put that confounded miserible thing in my pocket?
 Sir? No sir, I meen I didnt put it there, I jest hid it there and forgot it, wy, pop, did it brake? I sed, and pop sed, No, you silly faced imp of Satan, it meery exploded, and I sed, Well gosh, G pop, if I only of remembered to take it out agen it would of bin all rite, did it brake mutch, pop?
 Follo me, said pop. Wich I did, up to the setting room, and he gave me about 10 fearse kracks some place with his slipper, being pritty panefill but Ive felt werse.

SANITARY INSULTS.

Our friends the watermelon shippers and vendors are with us again. On the team track, at the head of Lamar, Right where everyone going from the Hamou-Kell depot to the main business district must pass. Not only are they there, but their presence is advertised. Advertiser plentifully, but not pleasantly. Not by signs, oh, no—by perfuming the air with the aroma of fruit in various stages of decomposition. More than once before it has been called to the attention of the sanitary authorities that this practice of eating melons by the wayside and leaving the rinds to be "policed" by the summer breezes is nauseous to passers-by and serves no good purpose.

Why not, if not already on the city statute books, promulgate an ordinance slapping a fine on these itinerant fruit speculators who have no personal interest in disposing of the refuse created by business in this city? Why not the general sanitary laws force them to abate a nuisance of their own creating which makes it unpleasant to pass one of the main street intersections of the city?

MERCURIAL PILSUDSKI.

Pilsudski, Polish president, is an optimist. He rises quickly from the depths of despair to the heights of daring. A few months ago he was all for Polish self-determination, not only for the Poles but for the Russians. Then came the Soviet onslaught and the general was generous with his pleas for aid to the invaded country.
 When the military skies have cleared and General Pilsudski's heart is for deeds of "deering-do." Having shipped the Russians on the home front, he has decided he can do it on the road, and he appears to resent the advice of the allies to prevent further invasion of Russia. He desires to "conquer the march forward and so completely crush the Bolsheviks that they will speak to Poland in another tone."
 If General Pilsudski is allowed to continue his march forward he will "so completely crush the Bolsheviks" that Poland will again become a Russian province. This people appear to need the protection of a mandate fully as much as does Armenia.

The Lloyds announcement that the United States is in second place in shipping is a source of gratification to students of economics who recognize that a merchant marine is one of the great sources of a nation's strength. The total tonnage indicates that our merchant marine has had a tremendous growth, perhaps the greatest of any nation. But we had a poor start, since the American flag before the war was comparatively small, and compared with Great Britain, we are about as near the lead as the runner in this year's Texas league pen race.

The "wet" issue has bobbed into national campaign. True, it was only a transient whiff of liquor, and was quickly snuffed away when Governor Cox closed the bottle with an emphatic denial of any wet support. Likker, it appears, will not make entrance into this year's campaign. It's voice may be heard off-stage, but it doesn't seem essential to the plot that it should have a place in the spotlight. Nor will any calls from "us brewers and distillers" give this ex-star a chance to shine.

Last midnight marked the end of the period during which the government was guarantee the earnings of the railroads. This guarantee cost the taxpayer \$100,000,000 monthly, which in a year runs to quite a tidy total. The government is now paying this guar-

With extreme tact and diplomacy a young man who lives in Nashville, and whose name we must withhold, addressed the following remark to a girl friend by phone: "I called Mary and Edith, but both had dates for tomorrow night, so I thought I would call you and see if you are dated." Rumor has it that the reply melted the wire and burned out the phones at both ends.—Nashville Tennessean.

It has been suggested to the elevator boy in one of our larger cities, who complained that the girls employed in the building are too slow in getting out of his car, that he remove the mirrors from it.

EFFICIENT HOUSEKEEPING

MORE PICKLING RECIPES.

Sweet Watermelon Pickles.—For sweet pickled rind, cut the rind into small pieces and soak it for three or four hours, then weigh it and to 5 pounds of rind allow 3 pounds of granulated sugar and 3 pints of vinegar. Put the sugar and vinegar into a saucepan and bring it to a boil, skim well and add a spice bag containing nutmeg, stick cinnamon, mace and whole cloves, then let it cook for 4 minutes and then pour it boiling hot over the rind. Allow to stand all night and next morning drain the sirup from the rind, boil it up once more with the spice bag, and again pour it over the rinds. Repeat this process twice, after which put the entire mass—rind and all—into a preserving kettle and let it boil for 3 minutes; add the juice of four lemons well strained and cook for three minutes more. Then seal boiling hot, in hot, sterilized ruit jars.

Sliced Cucumber Pickles.—Four quarts sliced cucumbers, 3 cups brown sugar, 1 1/2 teaspoons mixed spices, 4 large sliced onions, 4 tablespoons salt, and vinegar enough to cover the vegetables. Put the sliced cucumbers and onions in a jar and sprinkle salt over them, allowing them to stand overnight. In the morning "rain" place in a granite kettle and add the other ingredients; cover with vinegar, bring to the boiling point and then pack in jars (while still hot).

Cauliflower Pickles—Two cauliflowers, two cups small onions, three red peppers, one cup salt, two quarts vinegar, four teaspoons mustard and one-half teaspoon turmeric. Cut the cauliflower and peppers into small pieces and put them in a crock with the onions. Dissolve the salt in enough water to cover the vegetables and pour this brine over them. Let stand over night; in the morning drain, add mustard to the vinegar and bring the vinegar to the boiling point, then add the vegetables and boil all together until the cauliflower is tender (about 15 minutes).

Crab Apple Pickle—Wash and steam crab apples until they can be pierced with a small wooden skewer. Have ready a syrup made as follows: Boil together 4 cups of cider vinegar, 1 ounce stick cinnamon and 6 cups sugar, skimming as it cooks. Place the steamed crab apples in this syrup, each apple with two whole cloves stuck into it. Cook for 5 minutes and seal in preserve jars.

Corn Relish—Fifteen ears sweet corn, 1 bunch celery, 1 small cabbage, 3 onions, 1 green pepper, 2 quarts vinegar, 2 cups brown sugar, 3/4 cup flour, 1/2 cup salt, 1 teaspoon mustard, 1 red pepper. Cut the corn from the cobs and place it in the preserving kettle. Chop the other vegetables and add these also to the kettle, covering all with one quart of the vinegar. Mix flour, salt, mustard and the remaining vinegar and add this to the vegetables; bring all to the boiling point and let simmer for 45 minutes. Seal in jars.

All inquiries addressed to Miss Kirkman in care of the "Efficient Housekeeping" department will be answered in these columns in their turn. This requires considerable time, however, owing to the great number received. So if a personal or quicker reply is desired, a stamped and self-addressed envelope must be enclosed with the question.—The Editor.

Tinker Bob Stories

by Carlisle H. Holcomb

THE COUNCIL ARRIVES.
 Now while the other creatures were away looking up the Forest Council, Tinker Bob and Mr. Musk Rat visited with the Pocket Gopher. To be sure, Mr. Gopher was not sure that this fellow was Three Legs, yet he thought there were some actions that seemed to be familiar. He went up to Mr. Musk Rat's ear and examined it, then he looked at his tail, then at the foot that had been put back in its place. As far as he could see, this fellow looked like the Mr. Musk Rat known as Three Legs—but now he had four.

Mr. Gopher sat back on his hind feet and thrust his paw into his pocket, pulling out a small potato which he began to eat. "Where do you keep your potatoes?" asked Mr. Musk Rat.
 "Oh, I keep them in my pocket," answered Mr. Gopher. Then he pulled out a few grains of wheat from the other pocket.
 "Do you have two pockets?" asked Mr. Musk Rat, somewhat surprised.

"Yes, I have a pocket on each side of my face. That's what makes my neck look so big." Then he put his paw in his pockets to show Mr. Musk Rat that he was telling the truth.
 Tinker Bob then took Mr. Gopher on his knee and examined the pockets himself. Mr. Gopher wouldn't let anyone else do such a thing as that, for his teeth are very sharp and he is very quick and if anyone else should try to do anything with him he would bite them hard. But Tinker Bob was a wonderful King and the creatures of the Forest loved him.

Now the reason that Mr. Gopher is so quick and dangerous is because Mr. Weasel and Mr. Red Fox and Mr. Badger have been trying to catch him. Mr. Weasel caught him by the tail once, but could not hold him; and then he went around to the front of Mr. Gopher's house and waited until Mr. Gopher came along. He tried to catch him from the front, but he did not know that this quick fellow could go backwards about as fast as he could go forwards.
 You see, Mr. Gopher's tail is as good a guide as his nose when he is under the ground, and in the long tunnels that he makes he sometimes has to go backwards for a long distance. And because he couldn't catch him, Mr. Weasel was angry and said he would kill him the first chance he got.
 "Listen," said the King. "I think they are coming." Mr. Gopher jumped down from the King's knee and backed into the door of his house. Tinker Bob was right, the Forest Council was coming. Ahead was Major Pole Cat, Red Fox, Jack the Rabbit, Dr. Coon and Chief Porky. Following them came other creatures of importance. Now they would decide whether this was a stranger with four feet, or the same old Three Legs with a new leg put on to make four.
 Tomorrow—The Hunter Appears.

Tinker Bob Then Took Mr. Gopher On His Knee.

Rippling Rhymes

by Walt Mason

When I'm not toiling at my lrrr, producing thrilling waves of sound, I'm busy as a house afire, in my small plot of garden ground. When I've turned out in a them sweet, designed to soothe men's troubled souls, I spade the dirt around a beet and teach my beans to grow on poles. A hard may chant an ode or two, may write perchance, some soaring screeds, but to his duty he's untrue if he neglects to pull the weeds. For what this country needs just now, when everything kerflummized stands, is not the product of the bow—it is the product of the hands. Too many blink on bed of ease, and write or sing or paint or play, when they should hoe the string less peas and pluck the fragrant bale of hay. If I were young I'd soak my 'ere, and quit this idle graft of song, and in the furrow I'd perspire, or whack up elm all day long. But I am old and full of lard, and when I've worked an hour or three, the neighbors lead me from the yard and fan me with a cedar tree. And so I toot the poet's horn, but when I've earned a sawbuck green, I strive to grow an ear of corn, a carrot or a lima bean.

JOHN-A-DREAMS

XXXX—Dreams of Torn Papers (2).

To dream that a man tears a letter written by you is a certain sign of a most unhappy affair of the heart. If a woman tears your letter you will grow to hate a friend who now is dear to you.
 If you have a vision of strange persons, men or women, tearing paper, your happiness will, to a large extent, depend upon the will and whim of others, in all probability upon people whom you know only in a casual way, such as very distant relatives.
 It is an excellent sign to dream of an old man or an old woman tearing a sheet of paper. This is a prophecy of an inheritance or large money gift. If some of the bits should be caught up by you, no matter in what way, the windfall will occur within a few weeks.
 A married woman who has her husband tear papers, signifies that she is hiding the signs of her husband's infidelity. There is a possibility that you will see him again, but you will not recognize him. You may rest assured that you will see him again.

In the next chapter I will tell you of dreams of poverty.
 In Delaware there is a total of 12,267 men engaged in gainful occupation.

Conquest Nothing New to Brusa, Ancient Capital of the Moslems

BRUSA, Turkey, Aug. 31.—When the Greeks took over Brusa and drove the Turkish nationalists eastward from the Sea of Marmora this sacred city of the Osmanlis only re-enacted the scenes of a hundred other sieges and evacuations which have marked its life in recorded and mythical history. It lies at the foot of snowcapped Mount Olympus, which has attracted adventurers from the days of the Argonauts. This mountain looms high above all others on the Anatolian shore of the Marmora and the site of Brusa, well up the base of the peak and overlooking the great, fertile valley of the Nilufer, has always tempted conquerors.

Hannibal laid out the present city, according to some historians. Others credit Prusias, the protector of Hannibal, with the creation of Brusa, which was originally called Prusia. It was the capital of the Bithynian kingdom until 75 years before Christ, when Nicomedes III left his kingdom to the Romans. During the Byzantine period, Brusa was alternately in the hands of Christians and Moslems. The Arabs took it in a famous siege in 950. It was soon recaptured by the Christians. In the eleventh century the Turks captured it and held it until the Christian Crusaders captured Nicea in 1097.

It passed into the hands of the Osmanlis in 1326 and became the residence of the sultans and the great cultural center of the Moslems, to which poets, philosophers, dervishes and holy men of all sorts flocked from Persia, Khorasana and Bokhara. The city was sacked

OYSTERS REAPPEAR, STRAW LIDS FADE, SEPTEMBER IS HERE

September, month which marks the end of straw hats, according to the style calendar, and the advent of oysters, according to the old reliable rule having to do with months containing an "R" was born today. Though the straw hat is dying gamely and slowly, the oyster has lost no time in making its fall appearance.
 On the window of one of the downtown cafes in white lettering today appears the invitation, threat or promise, however you choose to regard it: "Fresh Oysters—Just in."

KNIGHTS COLUMBUS MEET AT ELKS CLUB THURSDAY EVENING

Visiting Knights as well as members of the local chapter are invited to attend the regular meeting of the Knights of Columbus at 8 p. m. Thursday at the Elks club, 419 Main street, next to the Teal Hotel.
 The use of the club has been extended to the chapter by the Elks and regular meeting will be held hereafter.

RANGER SHRINERS MEETING TONIGHT AT MASONIC HALL

Ranger Shriners, as well as visitors, are assured that they will miss a good time if they do not attend the meeting of the Shrine Club at 8 o'clock tonight at the Masonic hall, Rusk and Elm streets. Special preparations have been made for the evening's program.

NEW HALF DOLLARS. International News Service.
 AUGUSTA, Me., Sept. 1.—According to word received by Governor Milliken from Washington 50,000 of the half dollars minted to celebrate Maine's centennial are ready for shipment. Applications for coins have poured in from sons and daughters of Maine all over New England.

COULD NOT TURN TO RIGHT.

Perspiration rolled down his brow as he desperately chewed his pencil and stared vacantly down at the blank sheet of paper before him. It was the final examination of his senior year at college. He had studied hard, but he was afraid that his whole life would be ruined. Shudders involuntarily passed through him as he realized that he was a rank failure.
 The paper of the man on his left lay invitingly before his eyes. But he did not glance at it. One could see that he was struggling valiantly against temptation, and though the effort was heartrend-

ing, he would sacrifice everything for the sake of honor.
 No, he would not copy from the man on his left. The man on his right knew more.—Houston Post

Miss Laura Bromwell, the Cincinnati aviatrix, who broke all world records for women when she succeeded in looping the loop in her machine 87 times, will shortly make an attempt to cross the Atlantic ocean in an aeroplane, and if she succeeds will be the first woman to accomplish this feat.

NOTICE!

Our store will be closed all day Thursday (tomorrow), Sept. 2nd, to mark goods and make preparations for our stock unloading sale which opens Friday. Watch tomorrow's paper for low prices.

**GROCERY CO. ESTABLISHES
 CHAIN OF STORES IN WEST**

LUBBOCK, Tex., Sept. 1.—The Industrial Transportation company, owner of an immense chain of retail grocery houses in the Southwest, announced today its intention to open a branch here as soon as quarters can be secured. The company will also put in branch houses at Post, Snyder, Hamlin, Anson, Abilene, Sweetwater, Merkel, Big Spring and twelve other West Texas towns yet to be selected, according to Mr. Van Buskirk, West Texas manager. The company has its western headquarters at Stamford, where a large branch house and distributing stock will be maintained, and where a large building was recently purchased for the general offices for this section. The company is capitalized at \$2,000,000, has main offices in St. Louis, offices and packing house at Little Rock and a large warehouse at Waco. The company is operating under a federal charter, with earnings limited to 10 per cent.

**BEDOUIN MOTHER
 BRAVES HARDHIP
 TO SAVE HER CHILD**

Mother love is the same everywhere. This Bedouin woman is bringing her sick child for treatment to the North Syrian mission. Not only does she carry the child, but she has her bed and her household effects on her back as well. With this load she is making her way over the desert.

**WORLD WIDE DEMAND
 FOR AMERICAN CARS
 KEEPS FACTORIES BUSY**

WASHINGTON, Aug. 31.—The world wide demand for American automobiles is looking to the United States for its supply. Records of the Department of Commerce for the fiscal year 1920, just ended, show that automobiles and parts of automobiles valued at \$232,252,376 were shipped from this country. This was nearly nine times the total value of such exports before the war.

The number of commercial cars exported during the 12 months ended June 30 was 24,356, valued at \$41,577,684 as compared with 12,921 valued at \$33,233,485 in 1919. Passenger car shipments showed an even greater increase, the total being 115,519 valued at \$125,384,025 as compared with 41,291 valued at \$45,852,705 the year before.

The United Kingdom led in the imports of both commercial and passenger cars, taking 4,593 of the former and 17,528 of the latter. Canada was second in the matter of both types of cars taking 2,443 commercial and 9,993 passenger vehicles. Cuba imported 4,663 passenger cars and 1,526 commercial automobiles. Brazil was next behind Canada in imports of passenger cars to the total of 6,100. British India imported 8,144 passenger cars and British South Africa 5,752. Australia took 5,598, Argentina 3,343 and New Zealand 5,228 passenger cars.

The Scandinavian countries also were heavy purchasers of passenger automobiles, Norway taking 3,085 and Sweden 2,555. Spain purchased 2,714. Denmark 374. China 1,059. Uruguay Chile 619. France imported only 839 passenger vehicles, but it took 1,392 commercial cars. Japan also purchased 1,096 commercial trucks and Mexico 1,017.

American motorcycles also continued to be demanded a total of 35,041 valued at \$9,550,922 being exported during the fiscal year.

The demand for American machines brought with it a corresponding demand for equipment. The value of automobile tires exported during the fiscal year 1920 was \$39,919,777 as compared with \$22,630,200 the year before. The total of automobile engines shipped was 39,421, valued at \$6,070,449, compared with 28,445 valued at \$4,434,244 the year before.

**Plateau Offset
 Making 800 bbls;
 Despler Rig Burns**

BRECKENRIDGE, Sept. 1.—The Despler Oil company, drilling on the Rosewell addition, northwest of town, lost the derrick of the Rosenquest No. 1 last night by fire when a pocket of gas was struck at 2,400 feet. No tools were in the hole at the time. The rig will be rebuilt immediately. The Y. B. Stoker No. 2 well of the Texas company, which offsets the famous Plate U well, 500 feet to the south, came in today and is doing 800 barrels.

The pay struck at 3,040 feet, being made over a million dollars' worth of drilled in 47 feet. The Plateau has oil since May 23.

**TWO NEW WELLS OF
 SINCLAIR EXPECTED
 IN WITHIN FEW DAYS**

Two new wells are expected to complete soon by the Sinclair company. One the G. W. Thorpe No. 2, near Gun-sight, is down to 3183 feet. A few days will tell the tale with this well.

The G. W. Hill of the same company located near Elias is on the black line at 3110 and also is expected in within a short time.

**AKER WELL SWELLS
 PRODUCTION AFTER
 GOING DOWN DEEPER**

After sinking from a daily production of 3,000 barrels to 500 barrels within a short time, the W. H. Akers No. 1 in Stephens county, of the Prairie company is now flowing natural 1000 barrels, after it was drilled twenty feet deeper into the sand.

The well came in early in August and showed production close about the 3,000 barrel mark, later decreasing in flow gradually to the low ebb. The well is now 3085 feet.

Instruments Filed

Instruments filed Aug. 28 in the office of County Clerk Earl Bender:

G. B. Bryan to J. A. Underwood, deed of trust; S. 102 1/2 feet of lots 7 and 8, block 21, city of Ranger; 10.

Mrs. Elizabeth Le Vaux to Connie Davis, release D. T.; lot 1, block 25, city of Cisco.

R. M. Todd to J. E. Ingram, need of trust; lot 5, block 1, J. M. Crawford addition to Ranger, and lot 3, block 3, McCleskey addition to Ranger; 85.

J. E. Fisher to Citizens State bank, lien on machinery situated on lots 1 and 2, block 11, Gorman.

Eastland Club to W. B. Smith, deed of trust, the second floor of the brick building of the Texas Motor company, situated on north side of Commerce street on the SW corner of Commerce and Bassett streets, Eastland, Texas. \$10.

**Army Life Made Good Domestic
 Of Erstwhile Careless Husbands**

By Magie Vantini.

In pre-war days many men of moderate means practiced some money-making hobby in their leisure hours.

Recently I have heard so many who had dropped their poultry raising or market gardening, their teaching or typewriting, that I have been looking for the reason. It is, I find, neither insolence nor lack of initiative, but merely domestication.

I knew a young schoolmaster recently returned to his teaching whose duties allowed him six leisure hours a day. After school hours he used to teach the organ and had at least a dozen pupils, but as his wife smilingly informed me, he has given up the organ lessons.

"I'm very glad, too," she said, "for he learned so many things in the army that he's quite useful to me. He takes baby right off my hands when he's at home, and he does all my shopping."

"I thought of his gift for music. 'What a pity,' I began, but she at once assumed the defensive. 'I never got out when he had pupils,' she said resentfully.

The wife of another man, a clever artist who used to do black-and-white work in his leisure time, told me that her husband had given up this valuable addition to his income.

"As, later on, I enjoyed some excellent tea out of his making and marked how deftly he cleared away and occupied himself in the preparation of a savory dish for supper, I concluded, that he, too, had been domesticated! I praised discreetly.

"Yes, isn't it lucky?" said the pretty young wife. "They trained him so well that he's got really clever; he can cook anything, I can't get a maid," she continued, "but now it does not matter for he manages the work so well that I've lots of time for myself."

I was silent. "And why not?" she de-

BUSINESS DIRECTORY

Listed in alphabetical arrangement are herewith given the names of business firms and professions of Ranger. Consult this Directory for responsible and progressive citizenship. They want your business and are giving you a standing invitation to look them up—their addresses are for your guidance.

TWO BOYS HAVE BIG ADVENTURE ON MISSISSIPPI

They Start by Making a New Acquaintance, Who Is Fishing from a Skiff—Take a Short Swim.

DRIFT MERRILY A WAY WHEN PAINTER PARTS

One Lad Carries Clothes to Others' Home, Where Parents Mourn While Policemen Hunt for the Body.

Like Tom Sawyer and Huckleberry Finn, Johnnie Midkiff, nine years old, 1801 Oregon avenue, and Bobby Allen, eight, his next door neighbor, fell under the luring spell of the Mississippi river yesterday afternoon. They went to the foot of Carroll street to swim and had a remarkable series of adventures.

That mysterious force which makes wonderful things happen to boys started to work immediately. The first adventure was a new acquaintance. A boy whom they did not know was fishing from a skiff moored at the bank. He was a friendly boy and he invited Johnnie and Bobby to join him, suggesting that if they were swimmers the skiff would be a fine place from which to dive.

The invitation was accepted with alacrity. Leaving their clothes on the river bank, Johnnie and Bobby clambered into the skiff. They dived several times and then climbed back into the boat to rest and watch their new made friend catch fish.

Drifting Down the Mississippi

Suddenly there was a cry from the fisher boy: "The boat's loose!" The skiff had parted its mooring and was drifting down the river.

It was fun at first. Drifting on the sluggish current inshore the skiff made lazy progress, but almost imperceptibly it was carried further and further into the stream, until its movement became faster and it was whirled about by eddies and counter currents.

Johnnie and Bobby dived from the skiff. The other boy stuck it out a little longer and then, though fully clothed, he also went over the side.

Fisherman Makes Rescue.

Here Providence intervened in the person of Edward Bennis, and East St. Louis fisherman, who was rowing to the St. Louis shore. He saw the three boys in the water and went to their aid. After he had rescued the fisher boy and dragged him into the boat, he looked around for the other two. They were gone.

Late in the afternoon a sorrowful little figure appeared at the Midkiff home. It was Bobby Allen. His shirt was on wrongside out and he carried Johnnie Midkiff's clothes under his arm. In a choking voice he said: "Johnnie is drowned. I saw him go down."

He told of the series of adventures on the Mississippi, saying he had reached the bank with great difficulty but had seen no further sign of Johnnie.

Johnnie's father went to Police headquarters and reported the "drowning." A special detail of policemen from the Soudard district was sent to the waterfront to search for the body; and volunteers in skirts aided them.

Policeman Inspired

It was not until after midnight that Patrolman Zeitler in the detail had an inspiration. He went to the Midkiff home and found it a house of mourning. The Midkiff and Allen families and sympathetic neighbors made a sorrowful gathering in the Midkiff parlor.

Into this circle of grief came the policeman with a suggestion which seemed futile. "Have you searched the house?" he asked.

Johnnie's father, James E. Midkiff said no search had been made. The idea, he said, was so unreasonable that he would take no part in a search. So the policeman with his flash lamp went into the cellar, while others remained to mourn.

In a corner of the cellar the policeman found what at first seemed to be a bundle of rags. Closer scrutiny showed it was Johnny, wrapped in a ragged overcoat and sleeping peacefully on a strip of carpet.

FIFTEEN YEARS OF BLACK-DRAUGHT

Black-Draught Highly Recommended by Illinois Man for Liver and Stomach Disorders.—Used It for Fifteen Years.

SILVERTON, Ill.—"For fifteen years I have used Theodor's Black-Draught, and have not as yet found anything that could take its place," writes Mr. W. F. Rister of this town. "I have used it for indigestion a number of times, and it gives relief," continues Mr. Rister.

"For sour stomach, a heavy, bloated feeling, it is splendid. And when the liver gets torpid, so that when you stoop and raise up suddenly you feel dizzy, a few doses will set you straight."

"We keep it and use for constipation and the above troubles, and find it most satisfactory. I can recommend it to others and gladly do so. For the number of years I have used Black-Draught now, I ought to know."

In its 70 years of usefulness, Theodor's Black-Draught has relieved thousands and thousands of persons suffering from the results of a disordered liver. And, like Mr. Rister, many people feel that, after using Black-Draught nothing can take its place.

PAIR HELD FOR ALLEGED FORGERY ON STRAWN FIRM

Fred W. Langdon and Arthur Wilson were arrested last night and are being held by the police in connection with two checks they attempted to pass at the famous store.

The checks are drawn on the C. E. Beavers lumber company of Strawn and are signed in the name of C. E. Beavers. The police department is of the opinion that both signatures are forgeries.

Officials at Strawn have been notified of the circumstances.

Hunting Bargains in Ranger

Bargains discovered in trips through Ranger shops and department stores are here presented briefly, for the benefit of Times readers. If any of the articles described meets your needs, you may learn the shop where it may be purchased by calling the Times, telephone 224, and giving the shopping editor the number of the paragraph which tells of your particular bargain.

A good looking hand bag does add a lot to your costume. And since people see the outside and not the inside, the woman decides she might as well spend all the inside on the outside. There is a big variety in the new ones for the season. The box style has made a hit on account of its convenient size, big mirror and roomy inside. There can be a place for everything and the poor little powder puff doesn't get so flattened that it feels not unlike a piece of leather. There are new styles and materials in these. One very handsome one is of Venetian kid in all that pre-bleeding of blues and tans. A patent leather bag with the edges laced in dull kid, a mother of pearl handle and suede lining is pretty for all occasions. The dainty gold and silver mesh bags for all occasions. The dainty gold and silver mesh bags are always good. Some attractive new ones have a row of fringe and medallions made of the tiny metal links across the bottom. The inverted opening and braided metal handle are also new features.

If you travel around a bit and make short trips about the country, you will surely appreciate one of those little over night bags. There is just room enough for your comb and brush and other necessary fixin's, a couple of handkerchiefs and your shiest nightie.

I wonder if you have all taken advantage of the wonderful shoe sales we have had. There have been some positive bargains, and you can get yet pumps or oxfords in suede or kid and white high top kid shoes for \$5.95. Also some \$16.50 pumps for \$9.25.

The overcoat was his only clothing. The policeman aroused Johnnie and took him upstairs, where he was led into the grief-stricken circle tightly grasping the overcoat about him.

Was Afraid to Tell

How many times Johnnie was kissed and hugged is not of record but when he was free to talk he told of how after a battle with the waters of the big river he had reached the bank almost exhausted and there found a discarded overcoat, which he had wrapped about him. He remained hidden in a clump of weeds until after dark, when he "sneaked" through alleys more than a mile to his home.

Afraid to tell the family that he had been swimming and had lost his clothes, he hid in the cellar and there fell into that deep slumber which is the happy climax to any day of good sport.

More Homes for Ranger

Those Wanting Better Homes Asked to Leave Names With Chamber of Commerce.

The more homes for Ranger committee of the Chamber of Commerce will soon hold a meeting for the purpose of effecting plans looking to the organization of a housing corporation whose soul purpose will be to assist in procuring more homes for Ranger. This committee was appointed by the Chamber of Commerce to investigate the situation and see if the citizens of Ranger who are living in poorly constructed houses could be assisted

to erect better and more permanent homes.

"The business district of Ranger has far exceeded the residence district," said Lytton R. Taylor, chairman of the committee, today. "The bank buildings, office buildings, hotel buildings and other business structures are modern in every respect. Our paved streets would do credit to any city. We have fine schools and many beautiful homes and yet we need many more good homes for our citizens."

The committee asks everyone who wants a better home in Ranger to leave their name at the office of the Chamber of Commerce.

Churches Should Work Seven Days a Week, Instead of Closing for Summer, Says Newport Minister

NEWPORT, R. I., Sept. 1.—Three months is too long a vacation for a minister and it behooves most of the wearers of the cloth to return to their parishes and re-open church doors, in the opinion of the Rev. William Safford Jones, pastor of the Changing Memorial Church of this city.

Mr. Jones, an advocate of the seven-day-a-week church, is proud of the record that his house of worship has set since it closed for a single Sunday since its dedication forty years ago. This summer, while he and 102 other Unitarian ministers were guests at the Harvard Summer School of Theology of the Unitarian Laymen's League, attending lectures and drills in the fine points of the campaign to tell the story of Unitarianism this fall, his church was open to the public every day, manned by volunteers from the congregation.

"The world is hungry for religion," says Mr. Jones. "Yet all over America countless numbers of churches are closed for the summer." The light of world changes churches cannot afford to do this. Instead of being closed they should all be working overtime.

Ministerial vacations of two and three months are too long. Clerks are glad to have two weeks for recreation. Some ministers may need three months. The average minister doesn't. Three months is just piling it on.

"The crying need today is to get the church in vital relation with the masses of the people. It looks now as though the church was a peculiar institution of a social group with leisure to afford lengthy vacations.

"The church to succeed, must be a democratic church, reaching wage earners as well as salaried worshippers and catering to no class.

"What is coming," says Mr. Jones "is that in both church and state we must realize that if religion is to exist as an institution or a church, then religion must be made so vital and real to all persons that they will see that they cannot live without it. The people of the United States must be made to see that it is necessary to their daily life more necessary than movies or baseball. They must be shown that the concerns of the human soul are of the greatest importance."

RANGER WOMAN PURPOSES TO RIDE A-HORSEBACK LORDSBURG TO RANGER

Riding horseback from Lordsburg, N. M., to Ranger is the feat Mrs. J. J. Sewell of this city has set herself to perform.

The distance is more than 700 miles and Mrs. Sewell expects to cover it in eighteen or twenty days. She intends to follow the Southern Pacific from Lordsburg to El Paso, and the Texas & Pacific from the border city to Ranger. Mrs. Sewell some months ago rode the horse from Phoenix, Ariz., to Lordsburg and was forced to leave the animal, a pedigree filly, not yet three years old, at that place on account of foot trouble it developed.

Mrs. Sewell looks forward with relish to what most persons would consider an arduous journey. She expects to so plan her trip as to reach a town each night, but in case she goes astray cannot be worried. She has her gun and has camped out overnight before, she said. On one occasion in Arizona she was attacked by a Gila monster while alone at night on a desert stretch. She shot the reptile, but didn't sleep any more that night, she admits.

Mrs. Sewell is the daughter of Amos Hulen of the Parkersburg Rig & Reel company.
