FIGHT TO STEM NEW FIRE AT PORT

FARMS TO BE GIVEN FREE OF RENT HERE

Idle Lands Near Ranger to Be Given to Tenants for Cultivation.

All available farms that have no tenants will be put in cultivation next year rent-free, if a movement started yesterday, gains momentum. Several public spirited men who have farms that have been idle for the past two years have agreed to furnish the farms rent free to bona fide tenants. Their offers were made to the Chamber of Commerce, which will in turn get in touch with all owners of idle farms and have some uniform agreement reached whereby all the farms can be tenanted under the same plan.

Fertile fields such as those lying in the valleys around Ranger, in addition to the free rent, will be a strong inducement to farmers to take the places.

The majority of the farms, if not all, have comfortable homes on them, together with wells that furnish ample water. On these places, before oil came, an abundance of cotton, peanuts, oats, forage crops, livestock and poultry were raised, earning their owners a comfortable living in spite of the romance that has been built by newspapers and magazine writers around "the struggling few who fought desperately for a living from a stinky soil."

Directly from these farms and ranches several thousand persons received a livelihood before the oil boom.

Through the help of public spirited men, who have become independent, the Chamber of Commerce will make an effort to restore this condition.

Along this line the organization has been assured that with the proper number of acres of land planted in cotton a gin will be built, and when the peanut crop is of sufficient magnitude that its yield will justify such action, a peanut mill may be expected.

The Chamber of Commerce will make an effort to get in touch with every landowner who has idle land.

WOMAN BANDIT HOLDS UP MAN, JABS HIS RIBS

Garage Worker Said She Had Sweet Voice, but Firm Demeanor.

DENVER, Oct. 2.—A woman bandit has made her debut in Denver. When Dan Cullard, a garage employe, prepared to step into a car at Twenty-first and Stout streets early Friday, he found himself staring into the business end of a pistol, while a sweet, but firm feminine voice demanded his money.

"Stick up your hands and be quick about it!" the robber maid commanded, emphasizing her wishes with two or three prods with the pistol end in Cullard's midsection.

Then while the dumbfounded victim stood at bay, she searched his pockets thoroughly, relieving him of \$5 in cash. "Now turn around. Start walking. Don't look back or make a break, or I'll blow you off your feet."

Cullard walked and did not attempt to look around, he told the police. The female Jesse James vanished, and when Cullard returned with several policemen, no trace of her could be found.

HOUSING PROBLEM AT COLORADO WILL BE SOLVED SOON

COLORADO, Tex., Oct. 2.—Relief in the housing situation will be undertaken at once by local citizens, Joe Ruddy, Harry Landers and F. B. Whippy are among those contemplating new residences. Colorado is enjoying prosperity and progress similar to those of her early days, when the city was the cynosure of all the state.

Efforts are likewise being put forth for the erection here of a community warehouse for the large cotton crops being raised annually. The warehouse facilities at present accommodate about 800 bales. Farmers and local citizens have expressed themselves as desirous of cooperating financially. Local bankers are willing to make loans on cotton stored in warehouses upon presentation of storage receipts.

SOME RAISE!

BOSTON, Oct. 2.—The four divers assigned to duty at the Charleston navy yard received a pleasant surprise when word came from Washington that their pay had been increased.

Under the old order the pay of a diver was \$15.72 per day.

Hereafter he will receive \$15.76 per day.

BOY KILLED WHEN THROWN FROM HORSE

Youngster's Neck Broken Near Necessity While Herding Cows.

With his neck broken, a 10-year-old boy was found by his parents, Mr. and Mrs. L. D. Head, near their home at Necessity, late Thursday afternoon. The supposition is that the boy was coming from school on horseback and his horse fell with him, causing his neck to be broken.

It was the boy's custom, when returning home from school in the afternoon, to go by a pasture and drive some milk cows home. Thursday afternoon he failed to appear and his parents went in search of him. They found his horse first and later found the boy in a ditch nearby, dead. The trampled condition of the ground gave evidence that the boy was running the horse when he reached the depression and fell.

The Jones-Cox Undertaking company conducted the funeral at Necessity yesterday afternoon.

ALLIES BLOCK GERMAN PLANS FOR TRANS-OCEAN FLIGHTS IN ZEPPELINS

WASHINGTON, Oct. 2.—Germany, through the Zeppelin Airship company, has requested permission of the Inter-Allied commission on air control in Germany to construct two giant ships for use in international trade between the United States and Germany. According to advices received here in official circles the request was temporarily refused.

Negotiations with the commission included an effort to obtain sanction for Germany to retain a certain proportion of her airplane, seaplane and airship stations for use in international and interstate traffic. Lists of all air stations were prepared by the German air officials. There are said to be approximately 600 public and private stations of which the Germans hoped to retain 20 per cent.

German airship authorities are convinced of the future international commercial possibilities of giant airships and are making every effort to save as many as possible for German use. Some members of the inter-Allied air commission were said to favor establishment in Germany of a few stations for the use of international aircraft. Commercial airship industries in France and Great Britain, however, were described as anxious to delay for several years the recovery of the giant airship industry in Germany.

COUNTRY DOCTORS SCARCE

COLUMBUS, Ohio, Oct. 2.—That state medicine is inevitable "if physicians persist in their individualistic relationship between physician and patient," is the claim made by State Health Commissioner A. W. Freeman, addressing members of the Columbus Academy of Medicine.

He said the tendency to specialize had resulted in a serious lack of physicians in rural districts, young doctors going to the cities, where they believe their chances for professional and financial success are greater. Dr. Freeman said that the physician has lost personal touch with his patients, although medicine has advanced greatly in the past score of years.

Beauty and the Beast, Foaming Fangs, Torn Clothing—Camera, Please!

A lobo wolf attacked Miss Helen Clifton last night in the Palo Pinto creek directly after she and a party of friends arrived there for a midnight supper. Miss Clifton, having separated herself from the party, unintentionally cornered the wolf between two stones, and before she could protect herself it sprang, knocking her down, its foaming fangs ripping the clothing from her shoulder, and disappeared into the underbrush.

BASE BALL TO BE RIDDEN OF ALL CROOKERY

History of Game May Be Scanned for Last Ten Years.

CHICAGO, Oct. 2.—The Cook county grand jury, which has been conducting an investigation of the alleged "fixing" of the 1919 world's series baseball games, today is to be made a special body to continue its search for crookedness within the national game. The regular session of the grand jury ended yesterday.

On Tuesday, John J. McGraw, manager of the New York Giants; Fred Toney, Giant pitcher, and Benny Kauff, former outfielder for the New York club, will take the stand to conclude the evidence relative to Heinie Zimmerman, Hal Chase and Ira McGee, all National League players, who are alleged to have conspired to "throw" games during the 1919 playing season. Kauff and Toney, it is understood, will testify that Zimmerman offered them \$500 and \$200 respectively to throw games. They refused, it is understood they will testify. It is probable that before the exposure is over the investigation will be projected back into the history of baseball for a decade.

BROOKLYN'S SLATE CLEAN

NEW YORK, Oct. 2.—District Attorney Lewis of Kings county today issued a statement declaring that investigation by his office of an alleged plan to "fix" the 1920 world's series failed to disclose any evidence to this end. He notified that all members of the Brooklyn Nationals are cleared by the probings of his office.

LAVENDER PAJAMAS SCARE PASSENGERS IN RAILWAY STATION

OAKLAND, Cal., Oct. 2.—Attired in pale lavender pajamas, wearing a straw hat and carrying a bamboo cane in one hand and a collar and tie in the other, a passenger left the train at the Sixteenth street station here, dashed widely through the station out to a taxicab and was speeded away. Today the unconventional traveler had been identified.

He was Julius Landsburger, wealthy president of the Hunt Brothers Canning company, and he was returning from a trip to Exeter, Tulare county, where he had been inspecting one of the company's plants. He brought back a fine report, but nothing else besides his pajamas. The embarrassment of the bystanders in the station was equalled only by his own.

Landsburger found that he was attireless when he woke up on the way to Oakland. Hence the dash to the taxicab. When he reported the theft to the police, on his way home, he had to remain in the taxicab while the desk sergeant came out of the station.

He also telegraphed Senator Johnson, Republican, California, another League of Nations irreconcilable, and is awaiting a reply.

MEXICAN CAUGHT AT EL PASO, HELD FOR HORSE THEFT

B. Armande, a Mexican, was returned here last night by John H. Moore of the police department.

It is alleged that the Mexican is wanted for horse theft.

SECOND FIRE NOW RAGING AT GALVESTON

Combustion Thought to Have Started New Conflagration at Pier.

GALVESTON, Oct. 2.—Fire broke out in section A, at the south of pier forty-one, this morning shortly after 9 o'clock. A general alarm followed and 200 national guardsmen were rushed to the scene.

The flames for a time endangered four ships at anchor nearby. The fire, which originated at the lower part of section A, filled with sisal, is thought to have been caused by spontaneous combustion. The first warning of the fire came when a mild explosion blew out windows and doors. One hour after the fire started it was still confined to section A, although it was burning heavily. Firemen are using gas masks in fighting the fire.

MINE HEAD CERTAIN OF AGREEMENT

WILKINSON SAYS OPERATORS AND TEXAS MINERS WILL SETTLE DISPUTE.

MUSKOGEE, Okla., Oct. 2.—Confidence in the settlement of the impending strike of 1,500 Texas coal miners was expressed here last night by J. N. Wilkinson, president of district 21, United Mine Workers of America, before his departure for Fort Worth to confer with coal operators there today. The Texas miners are demanding a flat increase of sixty cents a ton. The mine owners have refused to negotiate until the men return to work. The operators have offered an increase of 16.23 cents a ton on screened coal.

ENGLISH MINERS RECEDE

LONDON, Oct. 2.—A general belief prevails that the strike of coal miners will be avoided as a result of the decision made today to call for a re-ballot among miners on the question of ceasing work. Owners of mines offered an advance of two shillings per shift when the output reached 248,000,000 of tons yearly.

STATE FILES SUIT TO RECOVER CIRCUS TAXES

AUSTIN, Oct. 2.—Alleged invasion by circuses of occupation taxes has been responsible for the filing of several suits by the state comptroller in an effort to collect the taxes.

"All circuses travelling through the state advertising themselves as such and operating as circuses, are liable for a state tax of \$25," the comptroller said, "provided the admission fee and reserved seat fee combined amount to seventy-five cents or more. One-fourth of these occupation taxes go to the available school fund and three-fourths to the state revenue. Each county is entitled to levy one-half the amount of the state tax as a county tax."

The comptroller is prepared to show that in a number of instances the tax collectors of different counties have only collected a state tax of \$10 and it is the balance of the tax, \$15 a day for each day the circus operated, that these suits are being brought.

BEATING THE MUD.
 The clearest autumn weather which
 has favored Ranger for the last week
 or so will not last forever; after it,
 in the nature of weather and its hankering
 after variety, will come a period of rain
 and mud. The mud would make side-
 walks very much appreciated by travelers
 who have left their rubber boots at
 home. The time to build sidewalks is
 now, while conditions are favorable.

Particularly would this seem to be a
 good time to build the walk connecting
 the Hamon-Kell station with the business
 district. This stretch on Lamar street
 is traversed by hundreds of persons each
 day, and the mud thereon, when rain
 falls, is of the best quality imaginable.
 It was announced several weeks ago
 that all property owners along this thor-
 oughfare had agreed to build this walk.
 Then why wait? The time to build is
 now, while the sunshine is propitious. If
 it is built on the principle of the Arkan-
 sas man who couldn't mend his roof
 while it was raining and didn't need it
 when it was not, the walk will never be
 built. Why shouldn't the Chamber of
 Commerce sidewalk committee or the in-
 dividual citizens who obtained the con-
 sent of property owners to the improve-
 ment, devote a little time to getting the
 work under way, in order that it may be
 completed before it is badly needed?

MONEY TALKS.
 With the end of the presidential cam-
 paign now only a month away, the Demo-
 cratic national committee is appealing for
 free will offerings from the Demo-
 crats of Texas for the purpose of putting
 the Democratic cause and principles be-
 fore the voters of the doubtful states.
 Literature and traveling expenses and
 other legitimate items entering into the
 cost of a campaign require much money.
 Just as other forms of education, it must
 have financial support.

The League of Nations, the Democratic
 conduct of the war and policies of the
 party are being attacked, not on their
 merits but in a spirit of partisanship.
 The propaganda of the Republicans is in-
 sidious and plausible, if it is allowed to
 work without opposition. A deliberate
 misrepresentation may sound like gospel
 truth unless attention is called to its
 fallacy. To open the eyes of voters to
 the true state of affairs, the party lead-
 ers need funds; whatever those who be-
 lieve in backing their principles with
 deeds feel like contributing.

Democrats who want to help may send
 their contributions direct to state head-
 quarters, Western Indemnity building,
 Dallas, or the Times will receive and for-
 ward any contributions.

MORE THAN TRAFFIC WILL BEAR.
 The large increases made in railroad
 passenger fares during the war had for
 one particular object discouragement of
 the use of motive power and tracks for
 civil travel to make room for their larger
 use in moving troops and munitions and
 military supplies generally. But the re-
 cent still further increase in fares, in-
 cluding a 50 per cent surcharge on Pull-
 man accommodations, was imposed only
 for increased revenue.

Whether it may not have the contrary
 effect of reducing revenue by reducing
 travel in greater proportion is yet to be
 determined. Some railroad executives op-
 posed any further advance of passenger
 rates in fear of such a consequence. Out-
 side observers are beginning to raise the
 same question. Urgent business travel
 will not be affected. Many people rarely
 before seen on the railroads have come
 into positions of war affluence where
 they will buy transportation without re-
 gard to cost, as they have been buying
 silk shirts or \$20 shoes.

But it is generally admitted that tour-
 ist travel as a whole will decline in vol-
 ume, and this has always formed a large
 percentage of American railroad passen-
 ger traffic. It has formed a very desir-
 able proportion of that traffic. It has
 heretofore been thought good public pol-
 icy to favor this travel between the var-
 ious states and sections of our far-
 flung continental domain. But to peo-
 ple of moderate and fixed incomes who
 constituted the bulk of this travel the
 rates have now been made well-nigh pro-
 hibitive.

This is a misfortune from the public
 viewpoint. It may possibly prove unfor-
 tunate from the viewpoint of railroad
 revenue.—New York World.

LITTLE BENNY'S NOTE BOOK
 By Lee Papa

In school yesterday Miss Kitty started
 to talk about poetry, asking if anybody
 knew the difference between poetry and
 prose, and Puds Simpkins raised his hand
 and sed, Poetry has more rhymes and
 less sense.
 Nonsents, poetry is the bewtiful expres-
 sion of a bewtiful thawt, thats all, sed
 Miss Kitty, and for that reason reel
 poetry must deal with a bewtiful sub-
 ject, such as flowers, for instants. Lots
 of bewtiful poetry has been written about
 lovers, and now I blevee Ill see whether
 we have any poets in this class. Who can
 make up a nice 2 line pome about flow-
 ers? Ill give you a few minits to think.
 Wich pretty soon Lew Davis raised
 his hand, Miss Kitty saying, Well, Lew
 is?

Flowers grow because they must, but
 ashes to ashes and dust to dust, sed Lew
 Davis.
 Well, that seems to be a little sad, and
 I don't think its especially bewtiful, who
 elts has a thawt of a pome, sed Miss
 Kitty.
 Wich Bill Bryant raised his hand, say-
 ing, Most flowers smell pretty but some
 smell bum. And one don't smell any, the
 krittanthemum.
 Theres nothing bewtiful about that,
 I must say. Whose next? sed Miss Kitty,
 and I raised my hand and Miss Kitty sed
 Well, Benny, lets have yours.
 Wich I did, being, Choo choo, choo
 choo, approached the train, and the daisy
 cried, Alse alack! whatever induced me
 to make up my mind to grow upon a rail-
 road track?
 I could imagine nothing less bewtiful
 sed Miss Kitty, And some more of the
 fellows raised their hands to read theirs,
 but Miss Kitty wouldnt listen to any
 more and started the joggriffy lessin.

RIPPLING RHYMES

REMORS OF WAR.
 One day the Russians hunt their holes,
 pursued by fierce, triumphant Poles; the
 next the Poles are on the run, spurred
 on by Russian sword and gun. And, as I
 dope myself for gout, I wonder what it's
 all about. There's trouble brewing every-
 where, and warlike rumors fill the air.
 I thought, when closed the three-year war,
 "Peace is the thing we're yearning for,
 the whole blamed world is sick of gore,
 and weary of the cannon's roar, and tired
 of human tears and groans, and of the
 sight of bleaching bones. The nations all
 would speed the plow and set the hen
 and milk the cow, pursue the gentle arts
 of peace, and bid the rawwing captains
 cease." But now the Pole pursues the
 Russ and makes a most unseemly fuss;
 and now the Russ pursues the Pole, and
 shoots him with a ton of coal; wherever
 men infest the map, some tribes are
 itching for a scrap.
 And as I feed myself with kraut, I
 wonder what it is all about. Why
 can't the blame fool nations meet with
 friendly hearts, in concord sweet, and
 then go home to milk the cows? Why
 does the Pole pursue the Russ, and shoot
 him with a blunder buss? Why does the
 Russian swat the Pole? He has no high-
 er, nobler goal? Why don't they meet
 with friendly grins, and shake the dice
 to see who wins.

JOHN-A-DREAMS

CLIV.—DREAMS OF FLOORS.
 The sight or sound of floors plays
 an important part in our dream-life.
 Never ignore such a dream, for it
 may mean much to you by way of
 warning, preparation or advice.
 Creaking floors are most signifi-
 cant. If you hear a floor creak and
 can assign no reason for it, someone
 will attempt to bring disquietude,
 sinful excitement or hectic unrest
 into your life and you must guard
 well against "the unbidden visitor to
 the castle of your soul."
 To hear a floor creak under the
 tread of a man, is a sign that the
 one who will lead you to the altar is
 about to declare himself. If you are
 a married woman, the dream fore-
 shadows an order, demand or re-
 quest by your husband which will
 cause you many tears. But, unhap-
 py though you may think yourself,

you will agree; and it will be for the
 best after all. Per, what better is
 there than peace in the home?
 A floor creaking under the step
 of a woman, may mean many things.
 If the noise is very light, as though
 the step were stealthy, your heart's
 happiness is being endangered, irres-
 pective of whether you are single
 or married. If the step seems firm
 enough to make the creaking loud
 and regular, you will be splendidly
 befriended by a woman not only fair-
 er than you, but also gifted with
 more common sense and general in-
 telligence than you possess. Follow
 her advice, go where she leads!
 To see a spotted floor is an indi-
 cation of much excitement over lit-
 tle things. A beautiful floor, shin-
 ing and clean, is an omen of happy
 days with friends—dances and music
 in the case of young women, cards
 chats or other friendly gatherings in
 that of older women.
 If you see a hole, crack or other
 opening in a floor, you will injure
 yourself. Be very careful! Such
 dreams have foretold broken legs
 and arms.
 An old, broken and coarse-looking
 floor means one of two things: If it
 is in your home, you will be upbraided
 and made to feel humiliated. If it is
 in another's home, you will scold and
 reproach that other and make him
 or her feel thoroughly ashamed.
 To see a floor fall means disagree-
 ments of long duration in the home
 where this happens.
 If you see workmen tear up a
 floor, you will have much good luck
 in a material sense.
 The next chapter will deal with
 dreams of Cosmetics.

HER NATIONALITY PROVES PUZZLE TO THIS JUDGE

DENVER, Oct. 2.—A knotty problem
 or an applicant for citizenship papers
 broke the dull routine of the naturaliza-
 tion court the other day, and for a time
 perplexed Judge Whitaker Thompson,
 naturalization officials and lawyers.
 The dispute arose when Miss Steph-
 anie d'Oreste Sroczyńska, a social worker
 for the society for organizing charities,
 came up for naturalization. It was dis-
 closed she was born of Austrian-Hungar-
 ian parents on Russian soil which recently
 became Polish territory. That brought
 up the question whether the applicant
 should renounce allegiance to the red gov-
 ernment of Russia, the Austro-Hungarian
 dynasty or the republic of Poland.
 Complications arose when Miss Sroczy-
 nska protested she was not a Russian
 and did not want to go on record as hav-
 ing anything to do with the reds. The
 naturalization clerk insisted that alle-
 giance be renounced to the present soviet
 government. After much thought Judge
 Thompson decided to allow the applicant
 to renounce Austria-Hungary and Poland,
 eliminating the soviet clan.—Philadelphia

BULL FIGHTS LOWER CRIME AND DISORDER IN MEXICAN CITIES

International News Service. MEXICO CITY, Oct. 2.—The resumption of bull fights, discontinued under the Carranza regime, will go far toward suppressing crime and benefitting the moral and economic condition of the poor of the capital, according to many Mexican reformers.

Far from being a debasing influence, they say, the bull fighting season marks a decided decline in drunkenness and crime and an increase in efficiency of labor. They explain their contention by pointing out that Mexican workmen, as a general rule, cannot afford both to attend the bull fight and frequent the pulque shops.

Bull fights as a general rule are held on Sundays and holidays. If an attractive corrida is scheduled, the inhabitants of the Colonia de Bolsa and other of the poorer sections work and save conscientiously throughout the week in order to attend. After the fight is over they return home and show up promptly for work Monday morning.

If no bull fight is in prospect, however, the larger part of the week's earnings is spent in the pulque shops and cantines. Police records show these idle Sundays are productive of many disorders, robberies, shooting and cutting affairs, and failure of workmen to report for work Monday.

Kodolfo Ganao, the greatest of the Mexican espadas, still is probably the most popular figure in Mexico, although he has not visited the country for years. His career in Spain is followed with the deepest interest by all classes, as are those of Belmonte, Pastor and other Spanish matadors.

"Yes," said the specialist as he stood at the bedside of the sick purchasing agent. "I can cure you."

"What will it cost?" asked the sick man faintly.

"Ninety-five dollars."

"You'll have to shave your prices a little," replied the purchasing agent. "I have a better bid from the undertaker."—Pittsburg Chronicle-Telegraph.

DISTRESSED MAID LURES COIN FROM OBLIGING STRANGER

OAKLAND, Cal., Oct. 1.—Masquerading as a damsel in distress, a beautiful young woman last night robbed David Henry, 729 Sixty-first street, of \$720 in currency and made her escape. Henry reported his loss to the police.

Henry was on his way home last night when, at Eleventh and Grove streets, he discovered the girl clinging to a pole. She said that she was ill and asked Henry to walk a few blocks with her until she recovered. Henry did so. After two blocks the girl said she had overcome her weakness and departed.

Henry discovered that instead of overcoming her weakness she had succumbed to it and that \$720 had been lured from his pocket.

DEER ANSWERS CALL OF FORESTER WHO RAISED IT

By International News Service. SAN RAPHAEL, Cal., Oct. 2.—A two-pronged buck deer answers the calls of Jerry Shine, employed by the Municipal Water District at Alpine dam near here. Long ago Shine one day came upon a dead doe in the trail of the forest and standing beside its mother was a fawn. It was miles to Shine's cabin, but he carried the fawn home with him, fed it and gave it the name of Billy. After a time Shine left the district. He returned several days ago and asked his fellow workers the whereabouts of his deer. They laughed at him; the deer had gone back to nature, they said.

Shine mounted the parapet of the dam and called for Billy. The deer, now the proud possessor of two pronged horns, bounded out of the forest. A photograph was taken of the man and animal, as the latter rested his forepaws on the shoulders of Shine.

LITTLE ROCK WOMAN GAINED 22 POUNDS

Mrs. Dickerson Had Suffered So Much and So Long She Felt Like Giving Up in Despair. "Although it has been four years since Tanlac restored my health and built me up so wonderfully, I am still feeling fine," said Mrs. Daisy W. Dickerson of 412 1/2 Center street, Little Rock, Ark.

"At the time I began taking Tanlac I had been suffering for a long while from a bad case of stomach trouble. I had no appetite at all and could not eat anything but what made me feel sick at the stomach. In fact the very sight of food nauseated me and at times I suffered from the gas on my stomach until I became so weak I could hardly stand up."

I fell off in weight from one hundred and fifty pounds to one hundred and eighteen and my nerves were badly shattered. My nights were all restless and miserable and I always got up in the mornings feeling as bad as on retiring at night.

"My first bottle of Tanlac made such a wonderful improvement in my feelings that I wanted more. My appetite soon came back, the gas stopped forming on my stomach and I began to eat hearty and fell less nervous. In a few weeks my troubles all disappeared and I found I had also gained twenty-two pounds in weight."

"Every spring and fall I take a few bottles of Tanlac and it keeps me feeling as strong and well as anyone could wish to feel. I can testify to both the immediate and lasting results one gets from Tanlac. It has certainly been a blessing to me for the past four years and I am more than glad to give this statement to be used in letting others know about it."

Tanlac is sold in Ranger by Phillips Bros., and in Eastland by Butler Drug Co.—Adv.

FIRST OIL BURNER ON BRITISH RAILROADS

LONDON, Oct. 2.—The first oil-driven express on a British railway ran from London to Birmingham today.

To the layman, the converted locomotive showed but little departure from the old coal-consuming engine. The latter used 70 pounds of coal a mile, but since its conversion it burns only about 30 pounds of oil per mile, and does not emit smoke or cinders.

SOUND ADVICE ABOUT EATING

Alabama Lady Says We Impose on Nature by Overeating, but Theodford's Black-Draught Will Make You Feel Better.

Paint Rock, Ala.—Recommending Theodford's Black-Draught to her friends and neighbors, Mrs. Mary Manning of this place says: "I never have and never expect to find a better medicine than Black-Draught. When I've had a cold and needed a laxative, I used Black-Draught. I use it for sour stomach, headache and indigestion, and it does the work."

"I believe most ills we have are caused from inactive liver. We impose on nature by over-eating, and then the liver don't act. We get lazy and no-account. It is hard for us to do our work, and we'd get real sick if we didn't take something. The best remedy I have found yet is Black-Draught. It doesn't leave you constipated, and I feel better after taking a round of it."

Made from purely vegetable ingredients, Black-Draught acts in a natural way, and is free from the bad after-effects of so many mineral drugs.

Get a package today. Be sure that it bears the word "Theodford's." Theodford's is the only genuine Black-Draught liver medicine.—Adv.

THE "AD HOUND" SAYS:

We got cussed today. A local store started advertising the other day and the store was mobbed. In letting them out the back door the steps broke down and a good Dutch lady broke her leg in the melee; someone stepped in a 5-gallon crock of butter and landed on a case of eggs; the bell on the cash register laid off and refused to work after 10 o'clock and everybody got crabby because they couldn't get wait on. The proprietor writes we are a bunch of know-nothings to have him start off half-cooked that way and not realize what was coming. Moral: He wouldn't have believed us if we had told him.
