GEORGE MURPHY TO BE REPLACED AS FIRE CHIEF

Commission Gives Cole Power to Make Change But Will Pass on His Successor.

By a unanimous vote of the four city commissioners yesterday afternoon, H. S. Cole, fire and police commissioner, was given authority by the board to use his own judgment in the discharge of Fire Chief George Murphy. The motion, put by Commissioner Terrell and voted for by Commissioners Cole, Hodges and Teal, did not, however, empower the fire and police commissioner to select a new fire chief without the approval of the commission.

Under the plan announced by Commissioner Cole in bringing the matter before the commission, Assistant Fire Chief Jake Friedman, who was characterized by Commissioner Cole as "the only practical fire fighter" available for the job, would be placed in temporary charge of the department with a chance to make good. The mayor, who votes only in case of tie was not called upon to vote on the motion.

Crowd at Meeting.

Reports had been current over the city for the last few days that Police Commissioner Cole had called upon Police Chief McDowell to resign his office and that the matter would be brought up at the commission yesterday afternoon. As a result the meeting was crowded with spectators, including Chief McDowell and four of the five members of his force, Deputy Sheriff John Barnes and former Police Commissioner A. Davenport. Supporters of Commissioner Cole and supporters of the present police department were also present.

In presenting the matter of the fire department, Commissioner Cole declared that he did not believe that the present chief was a practical fire fighter and that it was wise to make a change. Mayor John M. Gholson expressed the opinion that the chief had "done pretty well." Commissioner Terrell commented on the fact that there had not been many fires lately "to judge by," but moved that the matter be left up to the judgment of the police and fire commissioner. Major Cole stated that he did not shrink from any responsibility but would like for the commission to vote on the matter of discharging the chief.

Commissioner Teal, speaking in favor of Chief Murphy declared that he had always been sober and that his men had always been sober. Several months ago the commission "had Murphy up," he said when someone was trying to get his job, but that nothing had been found against him. On being asked who he had in mind for the place, Commissioner Cole explained that he had no one in mind for the place and that it was his idea to put Friedman in charge as temporary chief and give him a chance to prove himself.

Vote Is Unanimous.

The motion of Commissioner Terrell was again put, leaving the discharge of the fire chief up to the police and fire commissioner and passed, all four commissioners voting in favor, first orally and then by the raising of hands.

Before acting on the matter of fire chief, the commission approved a tentative order given by Commissioner Cole for 1,000 foot of fire hose, the commissioner explaining that upon investigation he had found that the available hose on hand was less than that needed for the proper handling of fires.

On disposing of the fire department matter the commission adjourned until this afternoon at 2 o'clock to take up the matter of disposing of \$70,000 in city warrants.

HARDING MAN WINS IN OHIO PRIMARY

COLUMBUS, Ohio, Aug. 9.—Carmi A. Thompson, Harding administration candidate, was swept into the Republican nomination for governor in the Ohio primary election yesterday with 60,000 votes over his closest rival, Congressman C. L. Knight, unofficial returns from 5,000 of the state's 8,167 precincts indicate today. Thompson's lead continued to grow as reports poured in from tardy counties.

Vick Donahay, Democratic candidate, was nominated for governor by 12,000 votes more than his opponent, T. J. Duffy and Judge James J. Johnson, returns from the same number of precincts indicated.

TARIFF BILL ADDS TWO BILLION DOLLARS TO U. S. COST OF LIVING

By KENNETH W. CLARK, (United Press Correspondent.)—WASHINGTON, Aug. 9.—America's cost of living bill will be increased approximately \$970,000,000 as a result of the duties levied on importation of cotton, wool and sugar in the McCumber tariff bill, Senator Gerry, Rhode Island, Democratic "whip," charged in a statement today.

This figure, Gerry indicated, probably would be doubled if the other duties in the bill affecting food and clothing were tabulated. The added cost to the consumer because of the \$1.84 per hundredweight duty on Cuban sugar is \$210,000,000; the wool clothing increase is \$550,000,000, and the cotton bill is \$110,000,000, the senator declared.

EASTLAND CITIZENS RAID STILLS WITHIN THREE MILES OF RANGER

Special to the Times.

EASTLAND, Aug. 9.—The series of liquor raids started by Eastland citizens recently was brought to within the outskirts of Ranger yesterday afternoon when five Eastland citizens, Assistant County Attorney Green Hazel and Deputies Porter Hearn and Pat Kilborne swooped down on a farm three miles northwest of Ranger, seized two copper stills of approximately 70 gallons each and arrested D. K. Self on a charge of moonshining.

Self was brought back to Eastland and lodged in jail on charge of manufacturing liquor. He was released this morning on bond of \$750

allowed by Special Judge Chastain of the Ninety-first district court. The bond is said to have been signed by Ranger parties. According to the officers making the raid, the farm was the property of J. E. Barnes of Ranger.

The party left Eastland at 1:30 yesterday afternoon for the farm but did not take the direct route through Ranger. The two 70-gallon stills are said by the officers to have been complete in every detail and to have given every indication of being used recently. Twenty-five empty barrels and 24 one-gallon buckets smelling of mash are said to have been found in the woods.

DRIVE TO SELL BAND CONCERT TICKETS IS ON

Tomorrow, two teams of band supporters will work the city, with the intention of selling all of the 2,000 tickets to the band concert to be given next Sunday evening at the ball park. To date, about 500 of these tickets have been sold.

The band is practicing for several hours each night, in order to render an unusually meritorious program at the first pay concert it has attempted. Although it has played regular concerts for several months and has participated in many civic functions, the organization has heretofore made no charge.

Proceeds of next Sunday's concert are relied on to provide uniforms and special horns for the band, in order that it may become a real asset to Ranger. Citizens who appreciate the value of a band are urged to buy several tickets, in order to help the cause along.

Indications in other state races with very few exceptions show a regular vote landslide went to klan candidates. Returns from 2,147 of the state's 4,217 precincts gave McRae 91,167 votes and Toney 17,196 votes.

By Associated Press.

WASHINGTON, Aug. 9.—Because the New Orleans, Texas and Mexico railroad proposed to pay \$225,000 for \$225,000 in par value stock which constitutes control of the Dayton and Goose Creek railway in Texas, the interstate commerce commission today refused to authorize the transaction. The price proposed for the Dayton line, the commission stated, was "greatly in excess of its valuation of the property" and while the larger railroad accepted the terrific charge, the deal was held to be disadvantageous to general transportation interests.

CITY PLANS TO CONSOLIDATE \$70,000 DEBTS

A total of \$70,000 in notes and warrants carried forward since 1919 were consolidated into a new issue of warrants of the same amount yesterday afternoon at the meeting of the city commission as a means of centralizing the city's obligations and to prevent suit being filed by the holders of scattered obligations.

The city has delinquent taxes and paving certificates against city property which practically offset the amount of the issue, City Secretary George Hemmington explained following the meeting.

M. H. Smith, representing the Brown-Crummer bond house of Wichita, Kan., was present at the meeting. Bids for the warrant issue will be discussed and probably passed upon at today's meeting.

POLICE CHIEF TAKES CRACK AT TWO RANGER CITIZENS IN ONE DAY

Two assaults by Police Chief Shell McDowell yesterday on citizens of Ranger were reported last night to Commissioners Cole, Terrell and Hodges and may be acted on by the city commission at a session this afternoon.

One of these attacks was on Ed Dixon, local barber shop proprietor, and the other on H. E. Bozeman, editor of the Times. In the Dixon affair, McDowell is said to have struck at Dixon in an argument over an unpaid fine for speeding, assessed against Dixon's brother, which he claimed Dixon was responsible for.

Bozeman, while in the Fountain, immediately after the city commission meeting, was surrounded by five members of the police department and slapped by Police Chief McDowell, with the invitation to do something about it. Preferring insult to insult with an aftermath, indicated by McDowell's hand on his black-jack, Bozeman did nothing.

The drink stand was crowded when Bozeman entered with Ed Ma-

BIG FOUR ACT.

CLEVELAND, Aug. 9.—Chief executives of the Big Four transportation brotherhoods have taken action regarding endangering the lives of brotherhood members through alleged acts of armed guards in connection with the shopmen's strike and have telegraphed their men to remain away from company property if their lives are endangered. Warren S. Stone, president of the Brotherhood of Locomotive Engineers, when told that 1,300 brotherhood men quit at Joliet, Ill., last night, told the Associated Press that there would be reports of 100 more similar cases soon if the working conditions in railroad shops and yards are not changed.

"Our men are not expected to work under such conditions as now prevail at many railroad terminals," Stone said. "I am telling them whenever their lives are endangered by guards to go home and stay there. They are justified in remaining away from railroad company property under existing conditions."

MARRIAGE NOT WORTH WHILE?

"Almost every girl confessed that she had no other aim in life but to get married," is a recent wall from some amateur philosopher at the State university...

It saddened the heart of the young scribe who sent out the message to the papers of the state, but he received his drooping spirits by asserting that a majority of the senior girls in Texas university "had a definite aim in life" and were preparing themselves "for some individual career."

It takes all kinds of people to make a world. Evidently the manly female or womanly male who wrote the above is one of the kinds. For our part, we fall in with the girls "whose only aim in life is to get married."

Marriage is the natural state of human society. Without marriage, there would be very little society. Without it, there would not only be a dreary present, but a hopeless future for the race. It is the bulwark of humanity against anarchy.

And when a college girl marries, she has not had her education in vain. In fact, she is giving it an opportunity to do worthwhile work. She becomes an integral part of a community, with a desire to promote its welfare and advancement.

The girls whose only aim in life is to marry have held fast to the bedrock of human advancement. We're for them.

UNIVERSITY MAY HAVE BOTANICAL GARDENS

AUSTIN, Aug. 9.—Activities toward making the dream of the late George W. Brackenridge of San Antonio, patron of the State university, for the establishment of a botanical garden and arboretum, on the university property at Lake Austin, near here, a reality, have been in evidence here recently.

John S. Kerr, well known nurseryman of Sherman, Texas, was here recently in the interest of the proposed garden and conferred with university authorities.

The plan to be submitted to regents of the university will provide for the establishment of the garden on the 500-acre university tract donated by Mr. Brackenridge. By the establishment of such a plant, flowers, and shrubbery from all over the world could be introduced into Texas.

It is pointed out that the federal government would probably join in the movement should Texas take the initiative. The exploitation of the plants would be valuable to the entire Southwest as well as Texas. It is thought that the project can be gotten under way with an appropriation of \$25,000.

CALLAHAN JUDGE DOES OWN LIQUOR SLEUTHING

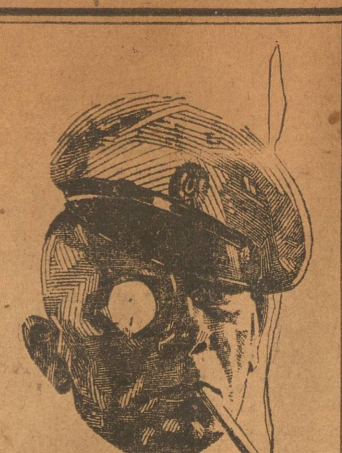

BAIRD, Aug. 9.—Judge W. R. Ely of the Forty-second judicial district, on a recent visit to look over his property in southern Callahan county, discovered that the constitutionally forbidden beverage was "easy to get" in that section, and he began a little sleuthing on his own hook. He had no difficulty in locating a bootlegger. A short distance from Cross Plains on the road to Pioneer.

The judge purchased some of the newly-stilled liquid. Accompanied by Sheriff George Houston Corn, he returned to the place later, and the bootlegger was put under arrest.

The prisoner was brought to Baird and locked up. Then Judge Ely got busy. He convened the grand jury in extraordinary session last Monday morning and summoned petit juries. Friday one of the juries convicted one man on a charge of violating the dry laws and as the grand jury had found true bills against six or seven other offenders against the eighteenth amendment and has also indicted 18 persons for gaming and six for issuing "dry checks"—it is likely that the court, which reconvenes Monday, will be kept busy for some time.

BLOW FROM IRON BAR KILLS MEXIA OIL WORKER

MEXIA, Aug. 9.—E. C. Campbell, 40, a workman on one of the T. C. Oil corporation's lease on the Hardin tract, three miles southwest of the city, was accidentally killed Tuesday while working on a well that had just been spudded in. The man was struck across the chest just over his heart with an iron bar while at work on the derrick floor. The blow was so terrific that he collapsed and was rushed to a hospital in this city and died upon arrival.

I. & G. N. MUST KEEP OFFICES AT PALESTINE

AUSTIN, Aug. 9.—Headquarters of the reorganized International & Great Northern Railway company will remain at Palestine, or charter of the company will not be approved by Attorney General W. A. Keeling, it is stated here.

The proposed new charter of the International & Great Northern Railway company designed Houston as the place for the headquarters, following reorganization.

HUSBAND OF PRINCESS MARY FAILS IN BUSINESS

LONDON, Aug. 9.—The first business venture of Lord Lascelles, better known as the husband of Princess Mary, has proved a failure. The Conqueror Typewriter Manufacturing company in Stourton, near Leeds, of which he was the head and principal shareholder, has just been sold.

The concern was started in 1919 with a nominal capital of half a million sterling. It was intended by the promoters to produce an all British typewriter which should compete with the best of the American machines. The erection of the factory and its equipment was undertaken at a time when prices ruled high. No expense was spared and when the works were completed they were considered the "last word" in modern mass productions.

It was hoped that the new industry would provide regular employment for 400 work people. Much experimental work was undertaken in order to justify the name of "Conqueror" and insure production on a sufficiently profitable basis. But owing to the industrial slump not a single machine has been produced for sale.

MEXICAN WILLIAM TELL KILLS WOMAN IN PLAY

EL PASO, Aug. 9.—Capt. Roberto Bravo shot and killed Mrs. Romelia De La Rosa at Santa Rosalia, Chihuahua, while playing William Tell, according to travelers who reached Juarez yesterday.

"Let's see you shoot this hat off my head," said the woman, placing the captain's cap on her head, according to the story. The captain pulled the trigger and the woman fell with a bullet in her brain. The officer was arrested, according to information.

HART WELL IS MAKING 500. MINERAL WELLS, Aug. 9.—The Little Caddo Syndicate's Hart No. 3, is making 500 barrels, following a 200-quart shot Tuesday morning.

It is located on the J. P. Hart ranch. Heavy gas and some oil is showing in the McGarr & Son well drilling one and one-half miles south of the Jack Dalton discovery well at 3,900 feet.

It is expected to be drilled in any day. If it comes in, it will prove up a large district. It has the same soil and other indications as the Dalton. These wells are 12 miles west of Mineral Wells. The Dalton came in three months ago with 1,000 barrels and is now producing 600.

FANNING WITH FARRELL

BUYING BASEBALL CHAMPIONSHIP.

By HENRY L. FARRELL, (United Press Sports Editor.) NEW YORK, Aug. 9.—Wadding up holes in the New York Yankees has developed recently into the mere process of engaging Harry Frazee in a little conversation and producing a roll of bills.

For some unknown reason, the New York club has ready access to anything that the Boston Red Sox possess in the line of a valuable ball player.

Perhaps cash is the reason. The Yankees in the past three seasons have turned over money and players to the value of at least a half million dollars to the Boston club for Babe Ruth, Carl Mays, Waite Hoyt, Joe Bush, Sam Jones, Everett Scott, Wally Schang, Joe Dugan and Elmer Smith.

The Yankees, however, rose to the top by the reckless expenditure of money. They actually bought the 1921 pennant and they are going even stronger in having cash decide the 1922 championship.

Baseball isn't on a foundation strong enough to withstand consistent attacks of commercialism and syndicate baseball.

Some advance the argument that the Giants and the Yankees are entitled to have the best teams because they draw immense crowds in New York and on the road and help all the other clubs make money.

However, making money would not seem as important a factor in preserving the prestige of baseball as in giving St. Louis, Boston, Cincinnati,

Washington and the other way points a good home team for the home town fans to look at.

Frazee apparently is only in baseball to make what he can get out of the sale of baseball players. The game itself is of little consequence to him. Since he took hold of the Red Sox he has broken up one of the greatest clubs of modern years.

He has sold off all his former stars for what must have been three-quarters of a million dollars. That he has remaining a poor misfit of a second division team seems to be of little concern to him.

Frazee should be censured more than the New York owners. Cols. Ruppert and Huston are both multimillionaires and they are in baseball for the love of the sport alone. They are both real fans and they have spent more than a million dollars for the prestige of being known as owners of a pennant winning club.
