NEW WAGE AGREEMENT ENDS COAL STRIKE

Marooned Passengers Rescued

LICENSE FEES MUST BE PAID, CITY WARNS

All persons operating service cars, drays and express wagons, peddlers and huckster wagons must secure city licenses this week, as required under the law, or will be subject to prosecution, E. A. Ringold, city tax assessor and collector, announced this morning. Saturday is the last day to obtain these licenses, as the police will be instructed to make arrests Monday in cases where the licenses have not been obtained.

Special licenses are also due from cigarette dealers, house movers, master plumbers and electricians, Mr. Ringold declared, and must also be paid this week. All special licenses were due on March 1, he explained, and the persons affected cannot be allowed any longer time to secure them.

In the case of service cars, the annual license was reduced several weeks ago by the city commission from \$50 to \$25 and at the same time maximum rates were fixed. The city license due from cigarette dealers is \$5, the state law providing a total license fee of \$20, \$10 of which goes to the state, \$5 to the county and \$5 to the city. The city tax collector is empowered to collect the city's portion.

DOGS' RUSH CAUSES WOMAN'S FATAL FALL

WICHITA FALLS, Aug. 15.—Plunging 15 feet from the second story of the Lake-Wichita pavilion, Mrs. Patricia Bryant was instantly killed Sunday, her skull being crushed.

Mrs. Bryant had gone to the pavilion trying to find a valuable pin she had lost Saturday night. There were no attendants and it was necessary to climb over the high gate that barred the entrance at the head of the stairway. She had just gotten over the gate when she was rushed by two bull dogs inside. Trying to climb back over the gate to escape the dogs, she lost her hold and fell to the rocks along the water's edge.

OVERCOME BY FRIGHT WOMAN STRUCK BY TRAIN

HAMMOND, Ind., Aug. 15.—Frightened by screams of pedestrians who attempted to warn her of the approach of a Monon passenger train, Mrs. Emma Campbell, 65 years old, stood as if paralyzed in the middle of the track and was run down by the train. She will die, physicians say.

TEXAS FOURTH IN P. O.'s

WASHINGTON, Aug. 15.—Texas has 2,288 postoffices and is the fourth largest state in the union in this respect, according to compilation made by the postoffice department. The largest number of postoffices is found in Pennsylvania with 2,987 in that state. Kentucky is second and New York is third.

MURDERER SLAYS OKLAHOMA SHERIFF AND TWO POSSEMEN

IDABEL, Okla., Aug. 15.—Three men, including Sheriff S. W. A. (Bud) Felker of McCurtain county, and an unidentified boy about 16, are dead; and one man fatally wounded, are the net results of a shooting affair which started Sunday evening at Wright City, 30 miles northwest of here, and ended at an early hour Monday on the outskirts of the village of Oral.

Clayton Thompson, who lives near Oral, killed the three men and the boy. He in turn was shot and probably fatally injured by Deputy Sheriff Jones, after he had killed the sheriff and shot a deputy.

Thompson killed two of the men and the boy on the main street of Wright City when he suddenly became mentally deranged and running amuck, fired promiscuously in any direction that struck his fancy.

He killed Sheriff Felker this morning when the latter, in company with Deputy Jones and Deputy Cleve Christian sought to arrest him at his home. It was then that Jones shot Thompson twice, inflicting wounds which it is said may cause his death before morning.

The dead are: Sheriff S. W. A.

Fruit Situation Still Serious in Northwest; Conditions Better in South California.

ENGINEERS ORDERED BACK

CHICAGO, Aug. 15.—Warren M. Stone, president of the Brotherhood of Engineers, notified members of his union in the Far West that unless men who had walked out on the Santa Fe without authorization, returned to work immediately their places will be filled, according to a statement made public today by A. G. Wells, vice president of the Santa Fe.

SAN FRANCISCO, Aug. 15.—

The Pacific coast today continued to feel the pinch of the railroad tieup. Passengers marooned in desert towns have been brought to places of greater comfort but little or nothing has been done, or apparently done, for the relief of fruit growers in northern California, Oregon and Washington, while but little more is being done for those of the San Joaquin valley, further south.

A tense situation exists in Las Vegas, Nev., where 150 persons replacing shoppens and armed guards protecting the employees are virtually prisoners in the railroad enclosure.

The tie-up in southern California was breaking today. Announcement that a settlement was reached at San Bernardino, Cal., with Union Pacific employees was made by the railroad. The Southern Pacific also reported that brotherhood members at Reseville, Cal., were returning to work. "This clears all our minds," the Southern Pacific declared as it announced lifting of the embargo on perishable freight.

100 RAIL EMPLOYEES RETURN TO WORK ON SOUTHERN PACIFIC

SACRAMENTO, Cal., Aug. 15.—Approximately 100 engineers, trainmen and switchmen returned to work today at the Southern Pacific shops at Roseville and began moving fruit cars in the yards, in accordance with a working agreement decided on early today, the company announced.

FRISCO REMOVES GUARDS

FORT WORTH, Aug. 15.—All armed guards on the Frisco railroad property in Fort Worth were removed today, and the situation left exclusively in the hands of the United States marshal. No further necessity for them, was the reason given by the railroad for the step in taking off the private guards. Other rail unions expressed pleasure at the action.

MISSOURI PACIFIC SEEKS TO AVERT FIREMEN'S STRIKE

VAN BUREN, Ark., Aug. 15.—Efforts to avert a threatened walk-out of Missouri Pacific firemen here were renewed this morning when General Superintendent Brooks went into conference with J. M. Brickhouse, representing the firemen's union. The firemen are protesting

FARMER HELD ON LIQUOR CHARGE AFTER SEARCH

Headed by Justice of the Peace Roger Fenlaw and P. P. Palmer, candidate for constable in the coming run-off primary, a party of Ranger citizens late yesterday afternoon raided the pasture of E. L. Carter, seven miles south of the city on the Desdemona road, and destroyed a barrel of mash, all that could be found of alleged moonshining activities. Carter was brought to the city on a possession charge and later released under bond of \$500 for his appearance before the grand jury.

Fire pits were found in the pasture, and empty barrels, bottles and jars smelling of whisky were found in the barn and smokehouse, the raiders state, but no still could be located. The barrel of mash, which was found in a thicket, was destroyed after a sample had been taken. Carter was found working in a corn field.

The raid is the second that has been made recently against the supposed source of the Ranger booze supply, the first having been made last week by Eastland citizens, accompanied by county officers, three miles northeast of this city. In the first raid two copper stills were located and destroyed.

Bandit, Disguised as Flapper, Robs Homes in Chicago

CHICAGO, Aug. 15.—The police department has sent out a warning of a new type of burglar who has become active within the last week. A man disguised as a "boulevard vamp," lipstick and rouged, in short skirts and with bobbed false hair, has called at several homes, and complaining of illness, gained entrance. Then he would draw a revolver and ransack the place.

"Flapper" burglar called at the home of Mrs. Frank Creighton, Mrs. Creighton, suspicious of all strangers, informed the burglar that she could not aid "her" and attempted to close the door.

Mrs. Creighton informed the bandit that her husband was at home. "You're a liar," boomed a heavy male voice from the red lips, and the disguised man tried to block the closing of the door. Mrs. Creighton's screams frightened him away.

EUROPE STILL HOPES FOR AMERICA'S AID

LONDON, Eng. Aug. 15.—The allied premiers, split over the German reparations question, went home today.

"We have agreed on a misunderstanding," said Premier Poincare, as he left for the continent with Finance Minister Schanzer of Italy. Premier Theunis and Finance Minister Jasper of Belgium also left.

The allied conference broke up because of Lloyd George's opposition to Poincare's program of taking over Germany's forest and mines as a guarantee that reparations would be paid. Sentiment among the premiers and finance ministers was to postpone further conferences on the inter-allied debt and reparation until after the allied debt funding commission returns from Washington later in the year.

The allies, it is believed, will still hope that America will abandon her policy of non-interference in European affairs.

SLAYS HUSBAND WITH HAMMER, SLASHES THROAT

SAN ANTONIO, Aug. 15.—Admitting that she had killed her husband by knocking him unconscious with a hammer and then cutting his throat with a hunting knife, Mrs. Carlotta Herrera Rames, wife of a laborer employed by the water works company, surrendered to the police Monday morning.

KIRBY RESIGNS PLACE ON BRAZILIAN COMMISSION

WASHINGTON, Aug. 15.—John H. Kirby of Houston, Texas, today tendered his resignation to President Harding as a member of the Brazilian centennial commission. Mr. Kirby said that his business affairs would prevent his going to Rio de Janeiro.

STANDARD OIL TO BE PROBED

PROHIBITION IS BITTER ISSUE IN AUSTRALIA

WASHINGTON, Aug. 15.—Investigation of the Standard Oil company will be made by the special senate committee probing the prevailing high gasoline prices, it was announced today by Senator McNary, Oregon, acting chairman.

In a letter to McNary, W. C. Keagle, head of the Standard Oil company of New Jersey, stated that he would be glad to appear before the committee when hearings are resumed this week.

PROHIBITION IS BITTER ISSUE IN AUSTRALIA

SYDNEY, N. S. W., July 12.—(Correspondence of the Associated Press.)—The question of prohibition has come to the fore in several Australian states recently, one of the pledges of the newly elected nationalist government in New South Wales being that the matter would be submitted to the people in the form of a referendum "as early as possible."

Announcement later said, however, that there was no likelihood of such a bill being introduced before next year. It is probable that the referendum will not come before the end of 1923. The liquor interests are taking advantage of the delay to carry out an extensive propaganda campaign.

The Queensland prohibitionists were startled somewhat by the decisions of the recent Anglican conference in Brisbane. Canon Gradwell announced in an address that he believed prohibition was not the right way to solve the liquor problem. He said that he was sure that half the trouble about liquor was due to the temperance drinks provided, and expressed the opinion that if the brewery and distillery industries would "buy a few" and send out cheap and light ales, it would prove a solution of the matter, and until they found what was a reasonable drink, the trouble would not be settled.

Canon Batty declared that one of the most dangerous arguments in favor of prohibition was that it made for industrial efficiency. He said that prohibition really was a "very drastic interference with social habits."

The conference decided that, in view of conflicting opinions, a more determined attempt must be made to find a solution of the liquor problem on the lines of a restriction of the hours of sale.

In Perth, west Australia, Archbishop Riley of the Anglican church stated before the licensing commission that if the strength of whisky were reduced and the same price charged for it, men would drink it "neat."

CASTOR OIL SOOTHES LOCOMOTIVE'S TUMMY

ALEXANDRIA, Ind., Aug. 15.—Passengers on an eastbound train on the Lake Erie & Western railroad were delayed when the locomotive was stopped between Alexandria and Elmwood, and the engineer telephoned to the Alexandria station that the water in the boiler was foaming. The engineer requested that Robert Franks, agent there, buy a 10-cent bottle of castor oil and have it on hand when the train arrived. After the oil had been emptied in the boiler the foaming ceased and the train proceeded to Muncie.

CONVICTS RAISE PURSE FOR FARMER WITH BROKEN LEG
CHICAGO, Aug. 15.—James Barber, a farmer, catching for the Tullahoma, baseball team, broke a leg sliding home in a game with the North Dakota penitentiary team at Bismarck recently.

The accident unnerved the prison team and the Tullahoma players, overcoming a lead, won the game.

Recently the members of the prison team learned that Barber had considerable land in ex-prison would not be able to care for it. Realizing the expense of harvesting the tract, they raised a purse of \$200 from their leader savings, and presented it to Barber.

MEN RESUME WORK WITHIN TWO DAYS

Agreement Is Victory for Unionists, as They Retain Old Wage Scale and Check Off, Bones of Contention.

NEW LAWS NECESSARY TO CURB PROFITEERING

CLEVELAND, Ohio, Aug. 15.—Miners of the nation's coal fields "sliced up their tools" today as mine union leaders and coal operators from six states met to ratify a tentative wage agreement reached here soon after midnight today.

The miners in the six states, Ohio, Central and Western Pennsylvania, West Virginia, Indiana, Michigan and Illinois, will enter the pit tomorrow or Thursday, it was intimated.

Armed with the wage scale agreed on, the union leaders will go to all coal operators of the country and offer to sign up. It is expected that a large majority of the operators will sign, thereby ending the nation-wide coal strike effective since April 1.

Operators of the central competitive field and miners' representatives today ratified the agreement, which was the first step toward ending of the nation-wide bituminous coal strike.

The proposal as ratified by the policy committee of both sides will be placed before the entire conference at 2:30 p. m. for final acceptance.

The agreement provides for acceptance of the 1921 wage scale, continuance of the "check off" system, no renewal clauses.

Anthracite Meet Delayed

The Philadelphia conference of miners with anthracite operators set for tomorrow will probably be delayed until Thursday, it being expected that Mr. Lewis and other officials will be required to remain here to complete details of the soft coal agreement.

Under the agreement a supplemental contract between the miners' district organization and operators will be executed. Frank Farrington, president of the Illinois miners, and President Hessler of the Indiana miners, announced they would advise operators of those states to meet the union representatives in a conference on Friday. The Illinois meeting probably will be at Chicago and the Indianapolis meeting at Terre Haute.

Reformer's Nervousness Reveals Hidden Pistol After Husband Is 'Killed by Burglar'

LAKEHURST, N. J., Aug. 15.—Betrayed by herself into disclosing the hiding place of a revolver with which her husband, who was shot in his sleep yesterday, is believed to have been slain, Mrs. Iva Gibson, prominent reformer and prohibitionist, was under arrest today. A New York man, from whom hundreds of love letters to the supposed model wife, an ardent churchgoer, were found, is sought by the police.

Gibson was shot through the back of the head as he lay asleep yesterday morning and his wife, who summoned aid by telephone with her

wrists and ankles bound, declared burglars had shot him. Her story was unquestioned until detectives investigating the case noticed Mrs. Gibson making repeated trips to a spot in the back yard, shaking with nervousness. They dug in some rubbish, found a revolver, and placed the reformer under arrest.

Mrs. Gibson is 38. Her husband had a monopoly on the taxi service at Lakehurst, where she is a prominent member of the Methodist Episcopal church. She took arrest calmly and named a friend of the family as attorney.

CONGRESSMEN FAVOR SEIZURE OF ROADS BY U. S.

House Reconvenes, Ready to Act With President in Meeting Emergency.

WASHINGTON, Aug. 15.—

Congress today was ready to help President Harding fight for a termination of the rail and coal strike which now stands out as comprising the most critical industrial situation in the last decade. The house reconvened after a month's recess, with members just back from their home districts, demanding prompt action to meet the situation, and pledged their support to any movement the President might make to meet the emergency.

Sentiment among many of the returning members, particularly those from the districts which have been hard hit by the strike, was that the federal government must soon seize the railroads to protect the public interests, unless the present crippled state of the nation's transportation system can be relieved.

The President will go before congress on Thursday, addressing a joint session of both houses.

GOVERNMENT HELPLESS TO BRING RAIL PEACE

WASHINGTON, Aug. 15.—President Harding having abandoned all efforts for mediation of the rail strike, was declared today by his advisers to have virtually decided to inform the railroad executives of the country that the operation of trains will be given the full protection and aid of the government.

The President, it was stated, was determined that the only course the government now could pursue was the path it followed in the coal strike. An invitation to the employers to operate their property and the federal government with the co-operation of the states would stand by them in their efforts, so far as they are directed to the serving of the public.

Consideration is being given by the President, it was asserted, to the proposition of going before congress within the next few days with a comprehensive statement of the whole rail strike situation, including the re-buff that has met the government's attempts at settlement. This, it was stated, would include no suggestion as to legislation but would be designed to place before congress and the country the facts of the situation as viewed by the government.

The administration spokesman who made known the President's purpose declared there was no ground for the executive to stand upon in advancing any further proposals for the settlement of the railroad strike other than those already placed before the management and representatives of the workmen now striking.

The announcement came after the President had conferred on the strike situation with his cabinet and with leaders in congress and after the railroad labor organizations had made public their rejection of the President's last settlement proposal together with the statement that chiefs of the non-striking unions plan to continue their efforts at mediation of the rail controversy.

FERGUSON MAN DARES CRITIC TO JOINT RACE
TERRELL, Aug. 15.—Stung by criticisms that in espousing the cause of J. E. Ferguson for United States senator, he is misrepresenting the people of Kaufman county, who would be glad for an opportunity to eliminate him as their representative, J. Roy Harden, Democratic nominee for the legislature from Kaufman county, has challenged Herbert Young, son of ex-Congressman James Young, present county attorney and Democratic nominee for re-election to that office, to join him in resigning their nominations and offering as independent candidates for the legislature. "Thus giving the people an opportunity to dismiss me and avail themselves of Mr. Young's legislative services."

Young is yet to be heard from.

'TEXAS BUD' SNELL LOSES WIFE IN AUTO ACCIDENT

SAPULPA, Okla., Aug. 15.—Mrs. J. T. Snell, wife of J. T. ("Texas Bud") Snell, of "Wild West show" fame, was almost instantly killed, her husband seriously injured and three others were slightly hurt when an automobile in which they were riding en route from Tulsa to Bristow, suddenly left the Sapulpa-Bristow highway near Halburn and plunged down a 15-foot embankment, early last night. No reason for the accident has yet been assigned.

CROKER'S VINDICATION.

The late Richard Croker, in the days when he was boss of Tammany Hall, would have been deeply interested in the Republican senators who have been making a wool schedule for personal profit.

That is the kind of government Mr. Croker understood. On a celebrated occasion he testified that he was "working for his own pocket all the time," and if he were alive today he would feel that he had been vindicated by "the party of great moral ideals."

It is only fair to Mr. Croker, however, to say that when he was working for his own pocket all the time he was a private citizen, even though he was at the head of a powerful political machine. He did not hold office himself and he had taken no oath of office. Although he worked for his own pocket, he did not vote the money directly into his own pocket from the pockets of the taxpayers. There was a certain delicacy about his operations which is wholly absent in Washington.

It hardly needed the wool scandal to seal the fate of the Fordney-McCumber tariff, and the Republican leaders who advise that it be held in conference until after election are wise, although their wisdom has come too late.

From the day congress met, there was no public demand for this tariff or for any general revision of the existing schedule. The economic argument was against it. The general business sense of the country was against it. But the Republican organization had a theory that what the country wanted was a revival of Hannaism, and the Fordney-McCumber tariff is the choicest flower of that hypothesis.

To revive Hannaism would have been difficult enough in any circumstances, but to revive it without brains was an impossible undertaking. When representative Republican newspapers began to protest against profiteer schedules which laid extortionate taxes on the consuming public, no attention was paid to their warning in Washington. On the contrary, the McCumbers denounced them as corrupt tools of the great importers, and congress went ahead with the business of robbing Peter to pay Paul, forgetting that there were many Peters and few Pauls.

The result of it all is not only a scandal but an exhibition of general legislative incompetency which is probably without parallel.

It is not strange that there is a strong sentiment in congress in favor of shelving the Fordney-McCumber tariff until after election, but even that desperate expedient will not keep it out of the campaign. It will inevitably be the chief issue, not only in itself but for what it represents, and every Republican candidate for representative or senator will be compelled to take a definite position for or against it. None of them will be able to dodge it on the pretext that the bill has not come out of conference committee. The country will insist on knowing whether or not the election of a Republican congress next fall is to be construed as a popular indorsement of the profiteers' Fordney-McCumber schedules.

The only way in which the Republicans can avoid the odium of the Fordney-McCumber tariff in the coming campaign is to bring the bill to a vote and defeat it. Unless they are willing to do that, they must stand by the record as it is now written.—New York World.

CHILD'S REMARK LANDS MOTHER IN PRISON CELL

BALTIMORE, Md., Aug. 15.—The chance utterance of a child and the love of a woman for an uncle were the links said to have connected Mrs. Mary Belle Pease, 27 years old, and William Carter Crommiller, 29, with the killing of J. Bernard Pattison, a young farmer, near Savage, Md., May 11. Mrs. Pease and Crommiller are under arrest in Ellicott City. Each accuse the other of having slain Pattison.

It was the remark of Maurice Pease, 5 years old, that led to the arrest of his mother, and love of Mrs. Pease for her uncle, Patrick Gavigan, is said to have caused her to confess knowledge of the murder when she learned that Gavigan had been arrested, charged with the crime.

Pattison always carried a stick or a branch from a sapling wherever he went. Detectives searched for the stick, but it could not be found.

Some one remembered that Maurice, who remained in the custody of Mrs. Pease after her husband separated from her, alleging intimacy with Crommiller, "saw mamma burn a big stick."

Maurice was interviewed. He knew Pattison and remembered the stick, he said and had seen his mother break the stick and burn it.

BLINDNESS IS LOT OF AMERICA'S FIRST 'CARMEN'

NEW YORK, Aug. 15.—Once the bright-eyed Carmen whose voice thrilled opera lovers 40 years ago, Minnie Hauk, now Baroness Hesse-Wartegg, is blind at her little home in Lucerne, Switzerland. This word was received here today by Judge Edmund J. Healey.

Only a few months ago the baroness, whose sight had been failing for seven years, submitted to an operation in Paris, hoping that her eyes would become normal.

Minnie Hauk was the first to sing the role of Carmen in the United States.

C. M. & ST. PAUL CREWS REFUSE TO WORK UNDER ARMED GUARD

GREEN BAY, Wis., Aug. 15.—All train service employes and switchmen for the Chicago, Milwaukee and St. Paul refused to go to work this morning because of the presence of armed guards and disorders last night.

Two shop employes were being stoned when guards fired a volley over the heads of the attackers. All trainmen and switchmen immediately left their places and the shift due to report this morning refused to start as long as armed guards were retained. Officials say they will drop all freight trains, but an attempt will be made to continue passenger service.

TOPEKA, Kan., Aug. 15.—"Railroads have a perfect right to protect property with armed guards if necessary," W. J. Lee, president of the Brotherhood of Railway Trainmen, has notified members on the Santa Fe coast line, according to a bulletin posted here today.

The bulletin, made public by the Santa Fe officials here, also quoted Lee as saying: "A sympathetic strike will not be tolerated," and he advises the men that complaint of unsafe equipment should be referred to the commission."

BANDITS VICTIMS' FAILURE TO YELL PUZZLES POLICE

NEW YORK, Aug. 15.—Failure of the proprietors of the Modern Jewelry company to shout for aid after they said they had been held up in their Maiden Lane office and robbed of \$18,000 in jewels, is puzzling police in their investigation of the case.

The business of the company is conducted in a small stall on the third floor of a building in Maiden Lane, the center of America's jewel industry. Joseph Mercuric and John Trapani, owners, reported that at 9 o'clock this morning three strange men entered and asked to see a ring. When the safe was opened, they said, they were covered with guns. One man then rifled the safe and the party left.

The elevator man told policemen he had not seen any strangers enter the building, but that they could have used a rear staircase.

The Modern's office boy, Frank Trivolo, said he had been sent on an errand shortly before 9 o'clock, that he returned about 9:15 and that his employers were excited and weeping.

They told him they had been robbed and asked him to go into the hall and see if there was anybody to tell. Tenants in other stalls said they had heard no noise and no one had made an outcry.

Maiden Lane is posted territory so far as crooks are concerned, and always is lined with detectives. Had the men made an outcry the thieves surely would have been captured.

CHURCH IS UNDER BAN.

ATLANTA, Ga., Aug. 15.—As a result of disagreements in the Confederate Avenue Baptist church here, Judge W. D. Ellis of superior court, has prohibited any more services in the building until he can thrash out the matter. Rev. James S. Goodwin, pastor, told the court at preliminary

injunction proceedings that the trouble arose because he would not permit certain members of the congregation conduct "dances and parties."

Hundreds Saved By Indians in River

This excellent view shows Indian guides taking off the more than 400 passengers of the steamer Rapids Prince, which went on the treacherous Lachine rapids of the St. Lawrence river. Big boats could not reach the stranded vessel, and canoes and rowboats had to be used. No lives were lost.

SMALL BOY WITH ALLIGATOR SKIN ON EXHIBIT HERE

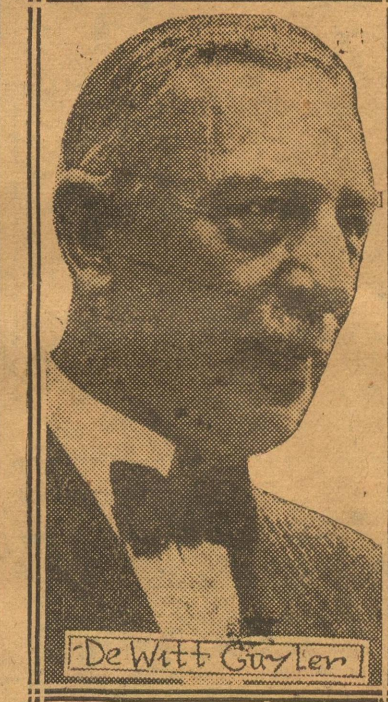

His mother's fright of a wounded alligator is held responsible for the condition of Emmett, the 5-year-old "alligator boy" of Florida, who is here on exhibition at 109 North Austin street, next door to the Texas Barber shop. The dark, scaly skin of the child is said to be a freak form of birthmark which prevents perspiration to a great extent and requires that he be soaked in water some three

or four times daily and in hot weather oftener, to keep his skin from getting hard and uncomfortable.

According to the father and signed statements from physicians, the child's case is one of maternal impression, commonly known as birthmark. The father states that he had followed alligator hunting in the swamps of Florida for a living and was known there as the "Alligator King." He was skinning an alligator one day and his wife came up to watch him, he explained, the alligator flounced and struck the wife with his tail, frightening her. The child was born in its present condition, shortly afterward.

The father stated that he had spent all he had in attempts to have the child's condition relieved but to no avail. The child is now being exhibited by his parents in an effort to raise funds for his education, and the family is accompanied by a 2-year-old daughter who is normal in every way. Except for his alligator skin, Emmett gives every indication of being a normal child.

WILD PITCH GIVES NITROS WINNING RUN

It was Abilene's last move in a giveaway game yesterday, and the Nitros evened up the series by winning, 7 to 6, in a comedy affair (since it went the way it did).

The Nitros hopped off for a legitimate win in the opening round, when a salvo of H. E. delivered by Leedy, Ammons and Pyle gave the Nitros three runs and indicated they were to have a walkaway, which performance thereafter failed to justify.

Some slight misunderstanding between White and Craig as to who was to take a high Texas leaguer paved the way for Mason and White to rap in the tying runs in the fifth inning, and in the sixth a wild throw by White and another mixup as to whose glove was most receptive enabled the Eagles to take a lead.

Meanwhile, the Nitros had been getting a run now and then, and Blinc evened up for any misdeeds in the latter half of the sixth by a ringing smash to center that drove in two markers for the Nitros and reknocked the count. The smack came after considerable jockeying for position on the part of the opposing nines.

All of these doings, and others better concealed in the family closet, brought the affair up to the seventh, with the score a tie and John King and Empire Price still on speaking terms, with Price doing most of the speaking. There were two down and not a cloud in the sky for Lefty Ward when Craig rapped a neat bouncer to Sain and that gent in his eagerness heaved away over Speegle's head.

Then the tall grass in the extreme right corner of the park did its bit to help the Nitros. Its clutching fingers slowed the pellet down and it died short of the fence, thus entitling Craig to all the bases he could make. He made it to third, and while roosting peacefully there, Lefty Ward suddenly uncorked his third and most devastating wild pitch of the affair.

Thereby he presented the game to the Nitros on a silver platter, for Lefty Phillips, the guardian of the Eagles' goat, was performing on the mound. The score: AB. R. H. PO. A. E. FANNING WITH FARRELL

BRAINS HELD CROWN FOR LEONARD. By HENRY L. FARRELL, United Press Sports Editor.

NEW YORK, Aug. 15.-Fast thinking and the ability to act spontaneously in a crisis are what makes a champion. The mental powers of co-ordinating quick thinking with quick action makes the real stars of the ring, the diamond, the court and the gridiron.

Benny Leonard became the champion of the lightweight class by smart headwork and he retained his championship twice because he could out-think his opponent.

When he was fighting Freddy Welch for the title, he put Welch on his knees with a glancing blow off the temple. He knew that Welch was not badly hurt and he knew that the vanity of a champion would prompt him to make light of the knockdown by coming up without taking a count. Instead of becoming rattled and being led into a trap, Leonard sailed in and knocked him out.

Not long ago when Leonard was fighting Richie Mitchell in Madison Square Garden, he was floored by Mitchell, who was out on his feet. Instead of jumping up Leonard took a long count, recovered his balance and then jumped up and knocked Mitchell out.

In the recent fight with Lew Tendler, Leonard was on the point of a knockout in the eighth round. His legs were wobbling under him and his arms were weak. He cut loose with a sarcastic line of chatter and so upset Tendler that he missed the chance.

he has been in the game long enough to develop his mental powers and if he is not able to outsmart the champion now, his chances are no better in the future.

Leonard and Tendler are sure to meet again, perhaps over the 15-round route in New York. Many critics think that Tendler will win the title next time out, but their reasoning is not clear. Leonard had a hard time finding the way to beat Tendler's southpaw style, but he solved it and there is no reason to believe he will forget it before they meet again.

Lots of the wise ones said before the fight-"They'll go to a fast draw and fight again." But after seeing the fight no one arose to chirp-"I told you so." There was no question that it was on the up-and-up.

ARRESTED ON BRIDAL EVE. NEW YORK, Aug. 15.-Benedict J. Pfanner, a Brooklyn postoffice clerk, was arrested on the eve of his wedding, for the alleged theft from the mails at San Francisco last May.

for an easy victory and went along to lose on points. Leonard proved himself a real champion against Tendler when he had the hardest fight of his life. He fought carefully until he found out how to beat Tendler's left hand style and he never once lost the poise that marks a real champion.

Against Tendler Leonard did show, however, that he is not strong at the lightweight poundage. He hit Tendler flush on the jaw several times with one of the best right-hand punches in the ring and it did little more than rock Tendler. At 135 pounds Tendler is stronger and a better puncher, but he lacks the cleverness and the brain work of the champion.

If Leonard wants to continue fighting in the lightweight class, he probably will develop into a champion of the Jack Britton type who goes his way among the best with nothing but a brain and a pair of skilled hands and feet.

Tendler is young and all that but
