We Like to Talk About Abstracts -

.... because making abstracts has been our job for many years. And it is an interesting subject. Most every day people come to us with their title problems. Some cases are tragic. Take the example of the couples who have spent their all for a home to find out later they have no title. But most title problems are simple and the abstract helps to make them simple. So before buying real estate better talk to us about the title.

Earl Bender & Company Texas. (Abstracts since 1923) Eastland,

Behind many "For Sale" signs there is a sad story: A family Shad Shad borrowed more than they could afford to pay for a home, or FOR SALE payments and interest rates were too high; the home had to be sold, often at a loss. This tragedy could often be avoided if the families would seek help from a home loan specialist, such as our Association. We work with you to arrange for a loan that's as easy to handle as monthly rent. FIRST FEDERAL SAVINGS & LOAN ASSOCIATION
