SENATE CONDEMNS JIM'S "INTERFERENCE"

CLAIM MOVE IS RETALIATION IN FREE PASS VETO

Solons Declare Former Executive "Governor In Fact."—Ask Passes Returned

AUSTIN, March 16.—Censure for former Governor James E. Ferguson, based upon his close connection with the present administration, and naming him "governor in fact" of the State of Texas, was laid before the house of representatives today as a flare-back from the woman governor's recent veto of the legislative free pass bill.

Open criticism of the impeached executive, who has been retained as attorney by certain state railroad interests, was voiced in a resolution offered by Representative Hall of Houston, who called upon the former governor to abstain from usage of his attorney's pass.

Representative Rawlins of Dallas sent up an amendment to the resolution, naming Ferguson "governor in fact," and the speaker overruled points of order raised against the motion.

Further consideration of the resolution was postponed until Tuesday with dozens of members on the floor demanding recognition. The legislative pass bill vetoed by the woman governor would have allowed members of the legislature and their families free transportation over the state's railroads.

Ft. Worth Man Pays \$400 For Auto Ride

ATLANTA, Ga., March 16.—Pooper by \$400, T. N. Johnson of Fort Worth, vowed he would never take another ride with two young women when he had that much money in his pocket.

Prison Relocation To Come Up Tuesday

AUSTIN, March 16.—The house bill providing for the relocation of the prison system will be considered Tuesday by the senate. Numerous amendments to it were offered Monday by Senators Bowers, Lewis and Wood.

FLASHES

FRANK MEANS DIES. BRECKENRIDGE, March 16.—Frank B. Means, 50, owner of the Bakersfield hotel building, died suddenly here late Saturday night. Death was said by the physicians to be due to acute dilation of the heart. He had been indisposed for several days. He was formerly an active oil operator and was well known in oil circles. His widow survives him.

Three New Oil Wells Brought In Saturday

Three new oil wells were brought in Saturday to the north and northwest of Ranger, all being small but high grade producers. Price Russell & Co. brought in a 400-barrel well on the Mac Bruce survey, two miles east of Frankell. The Sims Oil company brought in a well good for 50 to 60 barrels daily, this hole being on the Beckley survey, 2 miles northwest of Frankell.

SINCLAIR WINS FIRST OIL BOUT

CHENNE, Wyo., March 16.—The government received a set-back in the Teapot Dome suit today when Federal Judge T. Blake Kennedy ruled that records and statements showing the financial affairs of Fall were not admissible as evidence. Judge Kennedy sustained the defense objections against admission of the records on the ground this testimony was "hearsay" and had no connection with the government suit to break the lease of Mammoth Oil company on the naval oil reserve.

SHEPHERD FACES INDICTMENT NOW

CHICAGO, March 16.—State's Attorney Robert E. Crowe today summoned four witnesses to testify before the county grand jury in an attempt to indict William D. Shepherd on charges that he was responsible for the death of William McClintock, the "millionaire orphan."

RUSSIAN REDS START BATTLE IN CHICAGO

CHICAGO, March 16.—More than a score of men and women today nursed injuries received in a riot staged yesterday in a local theater by advocates of soviet Russia and followers of the Russian social democratic party.

NO PASSENGERS HURT BADLY IN T. & P. CRASH

DALLAS, March 16.—Although nearly a score of persons were injured, none were seriously hurt when eastbound Texas & Pacific passenger train No. 6 ran into an open switch near Grand Prairie and crashed into a gravel train standing on a siding, Saturday night, it was stated today.

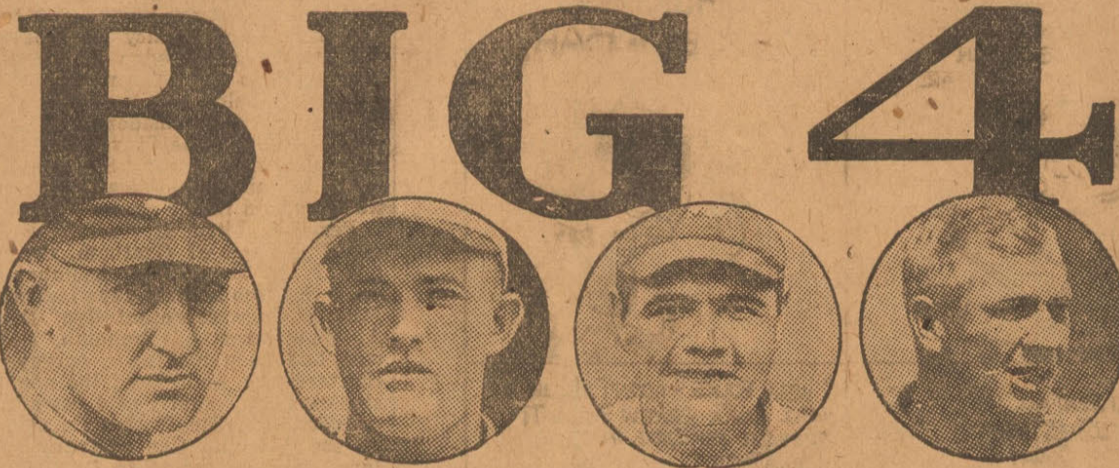

The concussion threw passengers from their seats, broke windows and damaged vestibules. Engineer H. G. Hansen and Fireman D. C. Dean, both of Marshall, stayed at their posts and only jumped as the engine turned on its side. They escaped unhurt.

Those most severely injured include J. S. Keene, Pres Corley Jr., and Deputy Sheriff Robert Alcorn of Dallas, bruised about head and body; Conductor S. E. Nicholas of Fort Worth, J. Crone of Lindale and John L. Boswell of Plainview, bruises on head and body.

The engineer is said to have had a clear signal, but saw the open switch and tried to stop the train, having the engine wheels locked when the crash came.

FORT WORTH, March 16.—The Guaranty State bank, one of the oldest in this city, closed its doors this morning and its affairs were placed in the hands of the state banking commission. Officials of the bank refused to comment on the closing.

Just to Remind You That Foot, Hand, Basket and Other Balls Are Fading Out, We Present

Sunday morning you read of Ranger and Mineral Wells opening the Oil Belt Hi baseball season, also that Thurber had arranged to play the Ranger Magnolias Sunday, March 29. Above the photographs of the "Big Four" are showing their fighting faces for the baseball season. The sport section of this newspaper will soon be telling you day by day what they are doing in the real, the "great American game," along with other national, southern, state and local scores. Gee! Methodist Unification Plan Favored by Vast Majority Minister Says

Unification of the two branches of the Methodist church has been endorsed unanimously by the northern branch and has received endorsement of a large majority of the southern church, Rev. Dr. C. C. Selecman, president of the Southern Methodist university at Dallas, told his hearers at the Ranger Methodist church Sunday night.

While declaring that unification was a subject he never discussed except upon invitation, Dr. Selecman told his hearers that he "heartily believes in the proposed combining of the North and South Methodist churches, adding that a large majority endorsement of the plan was being held up by a "small southern minority."

Dr. Selecman spoke to an audience that filled the Ranger church many coming from Eastland, Cisco, and other places to hear him. He also spoke in Eastland Sunday morning.

SENATE RESUMES 'RAZZING' DAWES

WASHINGTON, March 16.—While Vice President Charles G. Dawes sat in the chair today, the senate argued about the number of men to whom his job had been offered before he accepted it. During the debate over Warren's nomination, Senator Robinson, democratic leader, challenged the statement of Senator Gillette, republican, Massachusetts, that the opposition to Warren's nomination was based on partisan motives.

"Look at Senator Borah of Idaho, who was offered the vice presidency by Mr. Coolidge," said Robinson. "He is voting against Warren."

"Well, I don't see how he was ever accused of enthusiastic support of the administration," Gillette replied. "The senator from Idaho refused the nomination."

"And so did nearly everybody else to whom it was offered," said Robinson. The crowd turned to Dawes, who blushed and grinned. The galleries were permitted to laugh for two minutes before being called to order.

Real Reform Measure Is Passed by House

AUSTIN, March 16.—A new law providing for indeterminate sentences was acted on favorably by the house today over opposition by Cox of Ellis county and Wilson of Houston. The bill, by Representative Irwin, was voted final passage.

Wilson offered an amendment providing the jury should say in each case whether the terms of the law should apply. It was defeated. Final passage was by a vote of 80 to 21.

Wilson and Scott declared the law would rob juries of all discretion in fixing punishment. Irwin and Kirtrell, of Houston, pronounced it a measure to give convicts some hope.

Judge Geo. L. Davenport of the 91st district court, this morning at 10 o'clock, took up such criminal cases as were on his docket and had been prepared for trial by the county attorney's department. The entire week, the seventh of the term, will be devoted to the trial of criminal cases, if necessary.

Still in Game YOUTHFUL AUTO THIEVES JAILED

Harold Miller and J. D. Echols, two Eastland youths, aged 16 and 14, respectively, are repenting at leisure—Miller from behind the iron bars at the county jail and Echols under a \$500 bond—for acts committed in haste Wednesday night when they took an Overland touring car belonging to J. H. Cowan of Eastland without his knowledge or consent and started on a tour Oklahoma way. Both boys, according to Assistant County Attorney Gilvie Hubbard, have signed confessions of theft of the car.

Geographically Groggy. Besides learning from the school of experience that crookdom's alluring and fanciful pleasures vanish immediately upon one's entering its realm, Miller and Echols also learned that Oklahoma lies to the north of Texas and not to the west where they sought in vain to find it.

After stealing the car, the boys, it is alleged, drove out to a dairy on the Stubbsfield farm southwest of town and stole two milk cans in which they carried gasoline—alleged to have been stolen by them from a "drip" on a nearby lease—to their car.

Burn Out Bearing. Miller and Echols started to Oklahoma, according to the officers. They went west and made their first stop at Sweetwater. From Sweetwater they went to Hamlin and then to a small place west of Hamlin, where they burned a bearing out of (Continued on Page 2)

Married and Divorced, Decree Nilled, Tailor Bonded for Desertion

To be married, divorced and then having the decree granting the divorce set aside and charges of wife desertion filed against him all within a period of a few months, is the experience of C. H. Kennedy, formerly of Eastland but now residing at Breckenridge.

Kennedy, who is about 24 years old and a tailor by trade, was married to Miss Zenabell Henderson of Eastland about one year ago. In July of last year Kennedy filed suit for divorce, alleging among other things that she was cruel to him and unjustly accused him of being intimate with other women. Judge Elco Been of the Eighty-eighth district court granted the decree on March 2.

On March 12, 10 days later, Mrs. Kennedy, through her attorneys, filed a motion in Judge Been's court asking that the decree of divorce be set aside on the ground that her attorneys had not been notified of the setting of the case and that she did not know of the hearing. Judge Been, after hearing the motion, entered an order setting the decree aside.

Kennedy is now under bond to answer charges of wife desertion filed against him in the Eastland county courts. His wife has also filed a suit against him for divorce in which she asks for alimony and the custody of their unborn child.

LOW FARES ANNOUNCED FOR S. C. CONVENTION

The Texas Passenger Agents' association has authorized low round-trip rates for the seventh annual convention of the West Texas Chamber of Commerce, Mineral Wells, May 4-5-6. These tickets will go on sale May 2, with return limit, May 8. The basis of the rate is a fare and one-half for the round trip. Certificates will not be necessary, according to Porter A. Whaley, manager of the West Texas association.

STATE TO URGE COLLIER'S DEATH

WICHITA FALLS, March 16.—Former Mayor Frank Collier was placed on trial today charged with slaying Elzie Robertson, his 17-year-old son-in-law. The prosecution said it would ask for the death penalty; the defense will contend for the right of a man to protect his home circle, defense lawyers said. A special venire of 300 men from which to select the jury had been summoned.

"We expect to show Collier shot Robertson to prevent his daughter entering a life of shame," W. F. Weeks, chief counsel for the defense, said. The character of Mrs. Hattie Robertson, mother of the dead boy, was to be attacked, it was indicated.

The state is understood to have obtained the arrest at Iowa Park of a witness during the preliminary hearing, following an investigation of statements made during the cross examination by the district attorney, after which Collier was released on bond of \$2,500.

Earl Harte Hearing In Appellate Court

The case of the State of Texas vs. Earl Hart, charged with shooting and killing Lige Steward in Cisco on May 23, 1922, and which is now before the court of appeals, will be argued before that body Wednesday, according to Judge Frank Judkins of Eastland, who leaves today for Austin.

Hart was tried in the Ninety-first district court here in July, 1922, on a charge of murder and was convicted of manslaughter and sentenced to two years in the penitentiary. The case was appealed and was reversed and remanded by the higher court. He was again tried, being convicted and given a five-year prison sentence.

Gorman Golfers Going

GORMAN, March 16.—Golf enthusiasts in this city are organizing a golf club and as soon as a sufficient number of players have been signed up the selection of one of several sites now being considered will be made and the course put in condition for early use.

State Commissioner Says County Loses \$150,000 Road Fund

The allotment of \$150,000 made to Eastland county by the state highway commission for surfacing roads, is to be withdrawn because the commissioners' court declined to provide the balance necessary to complete the project, as was provided for in making the allotment, according to former Senator Joe Burkett of Eastland, now a member of the highway commission. The order designating the Rising Star to Carbon and Eastland to Stephenville roads as state highways may also be cancelled, Senator Burkett said. Should this be done the cost of maintaining these roads will again fall upon the county.

The allotment to Eastland county was originally for \$120,000, but Senator Burkett was instructed by the commission to raise the amount to \$150,000. The allotment was made with the provision, as stated above, that the county commission should provide a sufficient amount to complete the project, which, according to Senator Burkett would have been \$190,000.

The roads designated to be surfaced under the allotment order were those for Rising Star to Carbon, Eastland to Desdemona, Ranger, through Pleasant Grove, to a connection with the Eastland-Breckenridge highway and Cisco, north, totaling 50 miles.

Judge Ek S. Prichard stated this morning that the commissioners' court did not have the money and that there was nothing they could do towards meeting the provisions made by the department in order for the county to secure the \$150,000.

OIL WORKER'S SKULL CRUSHED

Two Sought In Deadly Assault on Driller Wynne. Ralph Wynne, about 28, an oil well driller, had his skull fractured and is in the Clinical hospital, Ranger, suffering with concussion of the brain, following a fracas late Sunday afternoon near the Sinclair camp, in which Bill Byrd and Ross Ballard of Gorman were engaged. Wynne was brought to the hospital in Ranger and attended by Dr. T. L. Lauderdale, who said this morning he had partly recovered consciousness and had a fair chance for recovery, but might lose the sight of one eye.

Bill Byrd and Clyde Ballard of Gorman are being held in the county jail at Eastland on charges of assault with intent to murder growing out of the attack on Wynne. County Attorney W. J. Barnes was in Ranger this morning and made an investigation of the facts, which resulted in the charges being filed against Byrd and Ballard.

Byrd, Ballard and Wynne are said to have previously engaged in a three-cornered argument, but had patched up their difficulty and shaken hands, and Wynne was standing by the side of the car in which the three had been riding when he was suddenly hit with a piece of gas pipe on the forehead just above the left eye. He dropped like a log.

Others in the party are said to have brought him to the hospital and reported the affair to the Ranger police, but Byrd and Ballard had started for Gorman, so Assistant Chief of Police Davenport notified the sheriff's department.

LOVE FOR SWEETHEART PROMPTS SURRENDER

ELDORADO, Kan., March 16.—"Big Bill" Laprasse, notorious bandit and lawbreaker extraordinary, was a prisoner here today because he could not run away from Butler county officers and leave Hazel Henderson, his first and only sweetheart.

In a battle with officers Saturday, in which Claude Henderson was killed, Laprasse, D. J. Hodge, Hazei Henderson, Mrs. Latonia Henderson and Virginia Henderson, the 2-year-old daughter of Mrs. Henderson, were captured.

"Big Bill" was afraid his sweetheart would be injured if he fought and he would not desert her, so he put up his pistol and surrendered.

ATKINSON, SANDERSON BUY PRAIRIE LEASES

BRECKENRIDGE, March 16.—Oil and gas leases covering about 1,000 acres eight miles southeast of here have been purchased from the Pierce Oil corporation of Tulsa, Okla., by Charles J. Atkinson and J. D. Sanderson Jr., the consideration being between \$75,000 and \$100,000 cash. The purchase includes warehouses, material, camps, etc., on the Glenn and Smith farms and at the Wiles station, between Ranger and Strawn on the Texas & Pacific railway.

Eleven producing wells are on the property, having been drilled in 1919. Other wells will be drilled, it was said.

Warren Fight Develops Into Move For Control of National Executives

SOLONS EQUALLY FIRM Battle To Finish On Political Appointments Wages.

WASHINGTON, March 16.—The senate today once more rejected the nomination of Charles Beecher Warren as attorney general, 39 for and 46 against, throwing back upon the white house for the second time within the week the president's personal choice of a member of his own cabinet. The senate's action is a repetition of its rejection of Warren last Tuesday, throwing down a challenge to the president to fulfill its threat to give Warren a recess appointment in defiance of the senate.

WASHINGTON, March 16.—The president and the senate were in a grapple today to determine the right of the executive to appoint Charles Beecher Warren as attorney general. A final vote on the Warren nomination was scheduled for 2:30 p. m. today. Every preliminary roll, including those by republican leaders, forecast a second defeat for Warren, this time by a margin of at least four votes.

But the real decision is to come after the vote. President Coolidge has served notice, he will give Warren a recess appointment if he is not confirmed. After the vote the senate will ask the president for further communications and the battle will not be won until the president sends another name for confirmation or the senate adjourns.

Both at the white house and in the capitol, the issue has come to mean more than the mere confirmation or rejection of Warren. The president is determined to assert his right to select his own cabinet and the senate is insistent that its right of confirmation must be respected.

Today's vote in the sensationally bitter personal controversy between Mr. Coolidge and his new senate over the right of the chief executive to select his own cabinet without interference came in the manner expected.

Senator LaFollette of Wisconsin recent candidate for the presidency and leader of the four independent republican senators barred by the republicans from party caucuses and demoted from their places in senate committees, strolled into the senate chamber after the roll call started. A murmur of applause started to be quickly stilled as the roll call went on.

PARKING AT POSTOFFICE.

Traffic laws apparently were not made for the postoffice block in Ranger, at least not for that portion immediately in front of the federal lease. The traffic officers may hesitate to interfere so close to Uncle Sam's exclusive reserve or they may have a kindly feeling for persons going after their mail. Whatever be the reason, there is certainly no respect for the traffic law and little concern for the rights of others among many who park their cars in front of the Ranger postoffice.

Where else in Ranger or in any other city would a driver pull up in the middle of the street and leave his car standing three to five minutes, perhaps with the motor running? Where else would other cars pull up alongside the car in the center of the street, some facing one way and some another, until the street is so solidly filled with automobiles that the street becomes blocked? Where else is there such an evident dislike of motor drivers to get their cars close to the curb? If an alarm of fire brought the trucks along Elm street in front of the postoffice during one of these blockades confusion would result. Either the fire trucks would have to circle three sides of the block or there would be a crash. This is, perhaps, the chief objection to the manner of parking cars in front of the Ranger postoffice, aside from the fact that the traffic law is disregarded and the rights of motorists desiring to pass along that block are retarded.

ELECTRICITY IN HOMES.

A recent survey of the United States made by an electrical publication shows that more than half of the 26,219,100 homes of the country or 50.5 per cent are lighted by electricity. Pacific coast states lead all sections with 85.7 per cent. The six New England states are second with 67.4 per cent of the homes. In the three middle Atlantic states, Pennsylvania, New Jersey and New York 53.3 per cent of the homes are wired, and 26.9 per cent in the nine south Atlantic states. Five east north central states show 64.3 per cent, and the west north central states 49 per cent. The four east south central states, Kentucky, Tennessee, Alabama and Mississippi have 22.2 per cent of the homes wired, and 33.3 per cent of the homes of the west south central states electricity is used.

The survey shows the states of the country which rank the first 10 in percentages of homes using electricity are: Utah, 98.2 per cent; California, 96.5 per cent; Connecticut, 78.8 per cent; Illinois, 73.2; Michigan, 72.5; Washington, 68.8; Massachusetts, 67.6; Maine, 66.8; Vermont, 66.3, and New Jersey, 65.8 per cent.

Nearly 80 years ago Abraham Lincoln wrote that to secure to the laborer the whole product of his labor, or as nearly as possible, was a worthy object of any good government. He also declared, "Labor is prior to and independent of capital. Capital is only the fruit of labor, could never have existed if labor had not first existed. Labor is the superior of capital, and deserves much higher consideration." If Lincoln or any other man advanced that theory today he would be branded as a "radical," a "bolshevik" or even an anarchist—but Lincoln's ideals were beyond the ken of the average political party.

MRS. NOBLETT IS HOSTESS.

The evening following the Music club meeting with Mrs. Noblett, she was hostess to a number of friends. Three tables were arranged and the guests enjoyed several games of forty-two. Those present were: Mr. and Mrs. D. D. Hampton, Mr. and Mrs. Frank Lovett, Mr. and Mrs. Clarence Parker, Mr. and Mrs. E. C. Satterwhite and Mr. and Mrs. S. E. Hitson of Cisco, Miss Audrey Collins, and Curtis Kimbrell. The same decorations and appointments in the living and dining rooms were used in the afternoon and a similar refreshment course was served.

IRISH CROSSWORD PUZZLE CONTEST.

Music club of Eastland met with Mrs. S. S. Noblett, States Oil corporation residence Saturday afternoon at 2:30 o'clock. This was a social meeting of the club. An Irish crossword puzzle contest arranged by Mrs. Noblett was enjoyed. Mrs. E. A. Hill received the favor, two green and white hand-made handkerchiefs. A second favor for the same contest, one green and white handkerchief, was awarded Miss Gretchen Overton. Mrs. B. A. Butler gave two piano solos. Mrs. Leonard sang "Lullaby from Jocelyn," and as an encore an Indian song, "Lieurance." Mrs. D. B. Hampton gave a reading, "The Old Sweetheart of Mine," and as an encore gave "To a Fan," written by Mrs. G. K. Taggart. The Noblett home was beautifully decorated with peach blossoms and the dining room table was centered with lilacs. The hostess served green pineapple on a lettuce leaf, topped with whipped cream and a green cherry; cottage cheese and olive sandwiches, pickles, ice tea with lemon, and orange and green and white mints. Each plate was adorned with a shamrock tied with white satin ribbon. The guests were: Mrs. Barnard, Mrs. Bobby Bates, Mrs. Davisson, Mrs. Dragoon, Mrs. Hoffman, Mrs. B. D. Hampton, Mrs. Jep Little, Miss Gretchen Overton, Mrs. Grady Pinkin, Mrs. B. A. Butler, Mrs. J. B. Leonard, Mrs. E. A. Hill, Mrs. H. O. Satterwhite, and Mrs. I. E. Hitson of Cisco.

PERSONALS.

Mrs. Frank Williamson, who has been visiting her sister, Mrs. W. B. Wallace of New Orleans for the past few weeks, returned Sunday. During Mrs. Williamson's absence, Mr. Williamson moved into their new home, 1313 South Seaman street. Miss Wilkie Belle Williamson and Miss Gertrude Harwood spent Sunday in Breckenridge visiting friends. Stanley Bird left for Dallas Sunday to spend a few days with his wife who is ill there.

MYSTERIOUS ACT AT LAMB THEATRE TODAY

The Lamb theatre does not, as a rule, depart from its policy of showing pictures exclusively, but it is offering a special attraction today that is said to be extraordinary. Zell Hunt, master of mental mystery, will put on his big-time vaudeville at 8:30 o'clock tonight. He does accurate telepathy, scientific hypnotism and answers questions. Local folks saw Zell Hunt in Fort Worth during fat stock show week arranged for him to put on his sensational psychic experiments at the Lamb theatre today.

There will be no advance in prices, the picture program including Will

(Continued from page one) The car had to stop for repairs. Attempt Trade. They resumed their trip west, but did not go very far until they decided that the Overland, comparatively new car, was too much of a wreck to ever get to Oklahoma in, and decided that they would come back to the place where they had the bearing put in and trade the Overland for a Ford. Being unable to make a trade, they again started west to Oklahoma, but by this time were tired and sick of their deal and decided to come back to Eastland. Return to Eastland. Turning the hard driven and badly abused Overland toward Eastland, Miller and Echols arrived here sometime Thursday night and left the car concealed in the brush near Cowan's home. Officers had little difficulty in getting evidence as to who the thieves were and soon after Miller's and Echols' arrival in Eastland Justice of the Peace Sam Day arrested Miller and other officers brought Echols in. Both of the boys belong to good families and it is stated that this is the first time either of them have ever violated the law. A hearing on the charges filed against them will be given at once.

WAVES UNDERMINE SEA FISHERS COAST VILLAGE

GIBRALTAR, Spain, March 16.—Terrific seas ripping around the rock of Gibraltar have undermined the fishing village along Catalan bay, east of here, and villagers have taken refuge in the admiralty tunnel. Extensive property damage has been done. Roads have been flooded, and many huts razed. Another small village north of Gibraltar is reported to have been flooded, the villagers fleeing to the hills to escape the seas. Few vessels have left port in the last 24 hours. A Spanish schooner and several skiffs are ashore near here.

MORAN SHALLOW LEASES CLOSED FOR \$75,000

CISCO, March 14.—Leases in the shallow oil district north of Moran, in Shackelford county just beyond the northwestern edge of Eastland county, have been acquired for the Union Development company of Baltimore, the consideration being about \$75,000. The Stovall and Dabney property, near Sedwick, on which are about 100 small producers, was included in the deal.

Perry A. Little of Buffalo, N. Y., Mr. Patterson of Chatham, Ontario, and T. L. Driscoll of Indianapolis, were in Cisco several days last week, joining their representative, Dr. J. A. They recently sold gas and oil properties in the Panhandle country to the Amarillo Gas company for a large sum, according to Dr. Waterhouse, who said they would soon begin the development of their holdings.

General Mitchell does not believe that the navy is a sacred thing, or that an army is the "whole cheese." MOTHERHOOD!

Waco, Texas.—I am well pleased with the benefits which I received from the use of Dr. Pierce's Favorite Prescription. "My baby is now thirteen months old and I can truthfully say that I took the 'Favorite Prescription' during pregnancy and that it was a very great benefit to me. I also took it after I became a mother and it built me up in strength and helped me in every way. My baby is stout and healthy, too."—Mrs. H. E. Billy Evans Says

PINCH-HITTERS WHEN the New York Americans, after winning three pennants, failed in their attempt to set a new record by making it four in a row, the experts charged it to a slump in the five-star pitching staff.

No doubt some of the star twirlers of the Yanks proved a bit of a disappointment last season, yet it is my opinion that there was another reason just as costly.

The Yankees lacked a high-class, right-handed pinch-hitter. Miller Huggins believed he handed such a person when "Shag" Horan, demon hitter of the minors, was bought. However, "Shag" was quite tame in the big show.

I venture to say that the Yankees dropped a dozen games last season because of the lack of a competent right-handed batter, who could be used in pinches.

It is the unusual for a three-time pennant winner to use a pinch-hitter as pitcher. That was the Yankee situation last season, Pitcher Joe Bush playing that role.

GLARING FAULT ON the New York bench last season, playing substitute roles were: Infielder, Ernie Johnson and Outfielders, Earl Combs and Harvey Hendricks.

All three are capable batsmen, but unfortunately they hit from the left side of the plate. With a southpaw working and Huggins needing a pinch-hitter, the mite manager of the Yanks was decidedly up against it.

When Joe Bush was sent to St. Louis in a trade for Pitcher Urban Shooker, the Yankees lost their only capable right-handed batter who could be used as pinch-hitter. It was up to Huggins to find a successor.

Of the new material secured, his scouts all reported favorably on Henry Cullop. In the Western Association he was regarded as the right-handed "Babe Ruth" of that organization.

Last season he made 40 home runs in the Western Association, which is no "biker" circuit. When not hitting homers he contented himself with doubles and triples. Cullop frowns on singles.

Cullop may be the one athlete much needed by the Yankees in an effort to do a comeback as American League champions.

Silver Lace Is Used Here

SILVER lace is arranged over a foundation of beige crepe to make this very distinctive frock. A circular flounce gives the graceful flare at the feet and a large crimson, poppy lends a brilliant dash of color. This is a typically Parisian frock, the sort one sees for dinner and theater wear.

COLLEGE GIRLS DRESS CHEAPLY

DENTON.—The freshman at the College of Industrial Arts, state college for women, spends approximately \$85 for clothing when she enters C. I. A., and this wardrobe, with a few minor additions, lasts throughout the four years of college. This information was made public following a recent survey conducted by college authorities.

The C. I. A. girl is never shabbily dressed nor does she lavish excessive attention upon the articles which comprise her wardrobe, it is pointed out here. Strict adherence to uniform requirements is demanded of every student.

College authorities estimate that the average girl will spend from one and one-half to three times as much for clothing if she remains at home for a year. In addition, it is estimated that she will spend from four to five times as much for clothing if she attends any other college of the country where there are no uniform requirements.

MOTOR TRUCKS HORSE'S FRIEND

Based upon information released by the United States department of agriculture, the press of the country has given considerable attention recently to the matter of the decrease in the number of horses in the United States and especially to the fact that during the period from 1910 to 1920 horses in cities and towns were reduced from 3,183,000 to 1,706,000.

Motorization of delivery equipment, gas trucks on long hauls and electric trucks for economical frequent-stop delivery service, is a very definite aid to the horse in that it is speeding up his retirement from city streets, where present-day conditions are against his best welfare.

Anyone who has seen a horse floundering in the snow, fall on slippery pavements, suffering from summer heat or zero winter weather, who has seen his driver laying on the whip to keep him in place in city traffic, will agree that Dobbin's place is no longer on city streets.

He has long ago erected a monument to himself for his faithful service in this field, and every lover of horses must favor the retirement of Dobbin to the country. Certain-

ly the Horse Association of America and the Society for the Prevention of Cruelty to Animals concur in this regard.

It is a rather unusual fact that few stars in the world of sport are satisfied with their athletic status.

While delighted to be at the head of their profession, rated champions, still most of them aspire to shine in some other sport. If not in some other sport, at some position other than the one they won fame at.

Take the case of Hoppe for instance. Every time I chat with the billiard marvel he expresses regret that he didn't take up a baseball career.

Recently, after upsetting the dope by defeating Bob Cannofax, three-cushion champion, Hoppe laughingly remarked that he still had something to shoot at, a big league baseball berth.

Hoppe, as a youngster, showed great proficiency at the game, but was even more brilliant at billiards. Since sensitive fingers, the touch, is everything in billiards, Hoppe was forced to give up his baseball aspirations. It is his one regret in life.

Despite the fact that an injury to one of his fingers, due to being struck by a ball might ruin his career, it is not unusual for Hoppe to be seen working out with some

big league club in practice before the game.

"CANNON-BALL" MARTIN, bantam champion, is strong for baseball. Up until he won the title he was considered an even better ball player than fighter.

Martin, small of stature, was a great admirer of "Rabbit" Maranville. To Martin, the brilliance of Maranville was proof there was a real chance for the midget to make good in the majors.

Ty Cobb would have much preferred to have won fame as a pitcher rather than outfielder. Even to this day, after 20 years in the majors, warning up to a catcher is more interesting to Cobb than chasing fly balls.

In the days when the spitball was the outstanding delivery, Cobb developed a good one and during batting practice often did the pitching to his teammates.

In those days the Tigers were real sluggers and nothing afforded Cobb more pleasure than making one of the star hitters miss a couple in a row.

There is no explaining this peculiarity of most stars in not being satisfied with their station in life, unless it's artistic temperament.

CHAMBER OF COMMERCE MEETS TUESDAY NIGHT

The Eastland Retail Merchants' association will hold its regular monthly meeting at the Chamber of Commerce rooms in the basement of the Texas State bank building Tuesday night. Plans for the association's annual meeting will be submitted to the membership.

Many matters, other than the plans for the annual meeting, are to come up for discussion and all members that can possibly do so are urged to attend.

ANY WOMAN, any man, can now have a well-developed face and form. The whole, simple secret of a well-developed form is in the number of blood-cells in your body. You can now forget all the theoretical talk about diet, exercise, fad treatments, food-fats and fat-foods. Nothing is of any use, after all, except blood-cells!

Thin, run-down men and women, with bony necks, sunken cheeks, bony shoulders—all these are suffering from one thing—too few blood-cells. Science has proved that S.S.S. helps to make the rich red-blood-cells, which you need. Your blood is starving for these new blood-cells! Give your blood the blood-cells it needs—take S.S.S. the great scientific blood-cell maker. S.S.S. has done marvels, too, in making beautiful complexions, clearing the skin, making lips rosy red, the cheeks full and plump—because it rids the blood of impurities which cause pimples, blackheads, acne, blotches, eczema, tetter, rash and rheumatism, too. As the medicinal ingredients of S.S.S. are purely vegetable, it may be taken with perfect safety. This is why S.S.S. since 1826, has meant to thousands of underweight men and women a plus in their strength. Start taking S.S.S. today and your great problem, that of your personal appearance, can be solved.

S. S. S. is sold at all good drug stores in two sizes. The larger size is more economical. S.S.S. The World's Best Blood Medicine

JUNIORS AFTER RELAY PRIZES

DISTRICT PUPILS NOW TOTAL 1593

AUSTIN.—Strong competition in the junior college division of the Texas relay games, to be staged in Austin March 27, is assured by the entry of Burleson college, of Greenville; North Texas A. & M. college of Arlington, and the Southwest Texas Teachers' normal of San Marcos.

Each of the three schools listed will enter relay teams in the mile, half-mile, and medley relays, featuring events of the junior college competition. A number of other junior colleges have tentatively filed entries with L. Theo. Belmont, varsity athletic director.

Burleson college, coached by Woodrow Wilson, former Texas aggie football captain, on advance dope figures to be the strongest school entered in the junior college division, since many of the men, who last season won the state junior college track and field championship for Burleson college, will be available for a competition in the Texas relay games.

Enrollment in the public schools of the Ranger independent school district totaled 1,593, according to the teachers' semi-quarterly report for the six weeks ending February 27, compiled by Superintendent E. O. McNew. The report shows 808 boys and 785 girls.

In the grammar schools the fourth grade has the largest enrollment with 212 pupils, ranging downward to the second grade with 135 pupils. At the beginning of the school year the first grade led with 248 pupils, but this has declined to 180. All grades have lost somewhat since the school year of 1924-25 opened, this being due largely, according to teachers in the school, to failures to make the grades.

The Ranger High had an enrollment of 346 students when the reports for the semi-quarter were sent in. 158 being boys and 188 girls, but some students have since dropped out. The reports showed 172 students in the freshman class, 64 in the sophomore class, 70 in the junior class and 40 in the senior class. The latter now has an enrollment of 30, the senior students who are keeping up with their studies being Margaret Watkins, Truett Weir, Roy Wilson, Marie Barrett, Elizabeth Barrett, Lucille Buchanan, Hubert Capps, Ann Duncan, Howell Gullhorn, Louis Harvey, Helen Hodges, Katherine Howard, Marie Hudson, Leola Ivy, Duncan McRae, Otho Jordan, Marie Kohn, Eva Long, Ida Mae Lonsdale, Gladys Maddocks, Verna Patton, Jennie Robison, Janie B. Rucker, Kenneth Russell, Lois Stearns, Theola Strong, Dorothea Plumley, Eugene Green, Willie Clark of Gail Borden county, and Ethel Roberts of Stephenville.

Hunt's Washington Letter

BY HARRY B. HUNT
NEA Service Writer

WASHINGTON—As a bit of national advertising, the Coolidge inaugural exceeded all previous presidential pageants. This partly because of, partly in spite of, President Coolidge.

From an administration standpoint, the inauguration was shaped further to advertise "Coolidge economy" to the country. It was designed as a selling demonstration for horse sense and reduced expenditures.

The little two-by-four reviewing stand built in front of the White House, elimination of an elaborate "court of honor," curtailing of the parade itself and lack of lavish and expensive decorations all united to give force and effect to the idea of economy.

All this advertising of the administration's viewpoint and purpose was with the full aid and approval of the president.

The advertising that was achieved in spite of the president, however, was accomplished by the great new Mayflower Hotel, which is making its bid for the patronage of statesmen and dignitaries, and which was hurried to completion in time to cash in on the publicity opportunity presented by an inauguration.

For while an "official" inaugural ball—which would have been held in some commodious public building—was banned by the president, an "unofficial" charity ball was arranged for the main ball room of the Mayflower Hotel.

As a result of which, news stories and special articles, like this, have done more to fix the Mayflower in the public mind, as a modern up-to-date Washington hotel instead of an antiquated sailing vessel, than could have been accomplished in a year by a costly campaign of paid advertising.

HISTORICALLY, the opening of the Mayflower with an inaugural ball, even though same was unofficial, may be more

important than it seems on the surface.

It may mark the beginning of a decline in social circles of the prestige assumed by those who never forget to let the world know that their ancestors "came over on the Mayflower."

To the dowager who hereafter announces her Mayflower descent, the frivolous flapper of today may make the fitting retort that she herself danced in the Mayflower when Cal danced in the oath.

In another way, too, the Mayflower marks a step ahead in the capital's evolution. It gives to downtown Washington a hostelry that is essentially metropolitan in its aspect.

The building is an enormous pile, occupying almost an entire city block. It offers not only all the "conveniences" but all the frills, including even the wife of a former Russian czarist official as "hostesses," to give an atmosphere of distinction and class to its tea room.

WHILE on the subject of hotels, it might be said that Washington is suffering from an epidemic of hotelitis.

In the past six years the hotel capacity of the capital has more than doubled. During the war period, when a room and bath in Washington brought any price the management had the nerve to ask, the hotels then here made enormous profits.

And of course there is always the parade of politicians and the men with axes to grind and money to spend for the grinding. These are the folks who keep the hotels hot.

Visitors who sought shelter for one or two nights during the inauguration, however, were uniformly informed that in order to get quarters for one night they would have to pay for four. No reservations for less than four nights would be booked. Too much advertising!

FORT WORTH HONORS RANGER SCOUTS, WHO ARE RODEO USHERS

More than 40 delighted boys returned Sunday evening about 8 o'clock from the Boy Scout trip to Fort Worth and the fat stock show. Sponsored by Scoutmasters W. R. Pettitt and W. J. F. Bailey, the boys left Ranger at 8 o'clock Friday morning in two trucks and a touring car. They arrived at Weatherford about noon, spent an hour there for lunch which they prepared in the auto camp, then went on to Fort Worth, arriving about 2 p. m. They went all once by sea about their suits but found that the Fort Worth Boy Scouts had so depleted the stock by recent purchases that there were none left, so in spite of disappointment they settled down to the real fun of the visit.

The boys visited the Armour packing plant where a guide introduced them to all the mysteries of the plant. From the bakery they went out to Lake Worth where the Fort Worth scouts' camp was placed at their disposal. A few of the boys went boat riding and fishing under proper supervision, while others cooked a splendid supper.

An unexpected wind caused the boys to spend most of the night in trying to keep warm. After an early breakfast on Saturday, however, they moved up to the Mosque, near the camp, and found shelter.

Saturday was spent at the stock show, where not a single exhibit was missed and a load of samples of every description was acquired by each scout. To add to their enjoyment they were asked by Scout Executive Spees to assist the Fort Worth boys in ushering at the rodeo, and not only had the pleasure of seeing the rodeo but were also commended for their excellent help.

About 5:30 the boys were collected, the supply wagon well filled and all returned to the Mosque where the scouts prepared an appetizing supper. After supper the second class scouts initiated the tenderfeet and a rare hour of fun was enjoyed.

After breakfast Sunday morning the entire troop turned to and cleaned up the place, and about 1 o'clock they started for home.

Arriving at Millsap around noon they stopped for lunch, taking the rest of the trip leisurely fashion and getting home about 8 o'clock Sunday night.

The scoutmasters who accompanied them said the boys all behaved well and that the entire trip was so successful another one will be planned in the near future.

Mrs. Ida Chitwood

Mrs. Chitwood conducted the popular Times Cooking School classes last week. Below she gives four recipes for cookies that will delight the heart of any child.

Isn't one of the fondest memories of your childhood your visits to Grandmother's old stone cookie jar? Grandmother had to stand and roll and cut out cookies, but she always seemed to find time to do it.

But today we have an easier, quicker way to make cookies than Grandmother had. The cookies for which I give recipes

below call for no rolling or cutting. I'm sure that they will gladden the heart of any child or grown-up.

Save these recipes. When you see how quick and easy it is to make them you will not let your children grow up without the memories of Mother's wholesome Crisco cookies, to tell their children about.

Nut Wafer COOKIES

Sliced instead of rolled and cut. Use Crisco and see how easy it is to cream with sugar. Crisco keeps so long you can double this recipe and keep the rolls in the ice box a long time, slicing and baking as you need them.

All measurements level
1 cup brown sugar 2 teaspoons soda
1 cup white sugar 1 teaspoon cinnamon
1 1/2 cups melted Crisco or other spices
2 cups pastry flour, sifted twice 1 cup chopped nuts (blanched almonds are best)
3 eggs, well beaten 1 teaspoon salt

Cream Crisco with sugar. Add eggs slowly mixing thoroughly. Add nuts. Then dry ingredients sifted together twice. Shape into roll about 2 1/2 to 3 inches in diameter. Put in Criscoed pan in ice box overnight. When ready to bake, slice and bake in hot oven (425 degrees Fahrenheit). Makes about 75 cookies.

Grandmother's Old Fashioned Ginger COOKIES

Made the new easy way—no tiresome rolling or cutting. Crisco is always ready for instant use and is easy to cream with the brown sugar. Grease your pans with Crisco and drop the cookies far enough apart to keep them round.

All measurements level
1 cup brown sugar 1 teaspoon ginger
1 cup molasses 1 teaspoon salt
1/2 cup Crisco 1 teaspoon soda
1 egg, beaten 1 cup sour milk
4 1/2 cups pastry flour

Cream Crisco, sugar and salt together. Add molasses and ginger, then egg. Dissolve soda in sour milk. Add, mix thoroughly. Last add flour. Drop teaspoonfuls of batter on a Criscoed baking pan and bake in a medium oven (375 degrees Fahrenheit). Makes about 50 cookies.

Chocolate Drop COOKIES

Grandmother's sugar cookies with chocolate, nuts and raisins added. Try them with afternoon tea, and iced tea in summer. Of course, make these with Crisco. Grease your pans with Crisco, too, and see your cookies come out whole.

All measurements level
1 cup sugar 1/2 cup sweet milk
1/2 cup Crisco 1/2 teaspoon vanilla
2 eggs, well beaten 3/4 cup nuts
3 squares chocolate 3/4 cup raisins
from 1/2-lb. cake 2 teaspoons baking powder
1 1/2 cups pastry flour 1/2 teaspoon salt

Cream Crisco, add sugar. Add eggs and melted chocolate. Then add milk, vanilla, nuts, raisins, mix well; then add baking powder and flour. Drop by teaspoon on hot Criscoed pan and bake in a medium oven (375 degrees Fahrenheit). Makes about 25 cookies.

Caramel or Butterscotch COOKIES

Another sliced cookie—without nuts. Crisco will keep these cookies fresh, too, both before and after baking. The flavor improves if they are kept in an air-tight container. Try empty Crisco tins and send a Crisco can of Crisco Cookies to the boy or girl away at school. Grease your pans with Crisco to keep every cookie whole.

All measurements level
4 cups dark brown sugar 1 teaspoon salt
1 cup melted Crisco 7 cups pastry flour
4 beaten eggs 3 teaspoons baking powder

Follow the method for Nut Wafer Cookies. Makes about 125 cookies.

How to make COOKIES in half the time

- 1 Lay out on your work table and measure accurately all the ingredients the recipe calls for. Get out all utensils needed.
- 2 To measure Crisco accurately, If one-half cup is needed fill cup one-half full of water, add enough Crisco to bring water to the top, drain water off. Then follow method given in the recipe you are using.
- 3 Grease pans with Crisco and stack on the table. Drop spoonfuls of the batter far enough apart to prevent running together.
- 4 When baked, remove to board to cool. Use the same pans over and over without washing. Simply shake out possible crumbs and brush over with Crisco.

MRS. MADDOCKS HONORED AT ABILENE FUNCTION.

A charming event in honor of Mrs. C. E. Maddocks of Ranger, state president of the Texas Congress of Mothers and Parent-Teacher Associations, was arranged Thursday night in Abilene. The following article from the Abilene Reporter will be of interest in Ranger: With decorations distinctive and lovely, a program of entertaining and instructive numbers and a delightful menu, the dinner given Thursday evening at the Blue Bonnet Tea Garden in compliment to that distinguished visitor, Mrs. C. E. Maddocks of Ranger, state president of the Parent-Teacher Associations, was decidedly one of the most elegant affairs of the week. The long tables were centered with an immense bowl of violets and slender vases holding a wealth of these colorful and fragrant blossoms went the entire length of the banquet tables, where the menu was served with daintiness in three courses. Mrs. Henry J. Bass, in her usual charming and clever manner presided as mistress of ceremonies and sponsored a very entertaining

talk fest, introducing each number in original manner. After a piano solo by Mrs. H. D. Carsner a welcome to the city and to the dinner was extended to Mrs. Maddocks by R. D. Green, superintendent of city schools. "The most important organization in Texas, a patriotic organization the Parent-Teacher Associations—for there is no greater task than rearing wholesome, fine children," declared Mr. Green in introducing Mrs. Maddocks. In a gracious and unassuming manner Mrs. Maddocks responded to the welcome and immediately began talking of the association, its local state and national policies. The program was a most informal and helpful one. Mrs. O. A. Hale, president of the Central Ward Mothers' club; Mrs. M. H. Brasher, president of the Lamar Mothers' club; Mrs. C. H. White, president of the College Heights club, and Mrs. J. R. McCook, president of Travis club, and Mrs. Henry Padon, president of the North Park club, a rural school club, each made three-minute talks, in which they told of their problems and joys, and questions were freely asked and answered. Beautiful and appropriate music added charm to the program hour. The McCurry college girls' quartet gave a two-number group including "Mother of Mine" and responded with an encore. Miss Annie Bess Chambers, accompanied by Miss Ruth Chambers sang Kipling's "Mother o' Mine."

Baroness "Hides" on Stage

Hunt for Baroness Meyendorff, Continental beauty, ended when the searchers attended a theater. There, on the stage, they saw the missing noblewoman playing as "Stella Arhenina" and she informed them she would continue her stage career.

After a piano solo by Mrs. H. D. Carsner a welcome to the city and to the dinner was extended to Mrs. Maddocks by R. D. Green, superintendent of city schools.
