

# Gotham Rally Roars McCarthy Support

NEW YORK (AP)—A rally in Madison Square Garden roared its support for Sen. Joseph R. McCarthy (R-Wis.) last night and strongly protested the Senate motion to censure him.

The wildly enthusiastic crowd, estimated at 13,000, applauded speaker after speaker who praised the senator and condemned his critics. Some of the loudest acclaim was won by the senator's wife Jean and Roy M. Cohn, former counsel to McCarthy's investigating committee.

"If the Senate votes to censure, it will have been committing the blackest act in its entire history," declared Cohn, who was spotted in the audience and brought to the speakers platform by cries of "speech" and "we want Roy."

The rally was sponsored by a group called "10 Million Americans Mobilizing for Justice" and climaxed that organization's drive for 10 million signatures on a petition protesting censure of McCarthy.

Rear Adm. John G. Crommelin (ret.), who directed the signature drive, announced that 1,150,238 names had already been counted and there were piles of petitions yet to be tabulated. "I don't see how we can fail to go way over the top," he said.

The Senate is scheduled to start voting on the censure motion tomorrow.

Attendance at the rally, estimated at 13,000 by the Garden manager, was well below the 22,000 capacity. The sponsors, who spent \$5,000 to rent the Garden and another \$5,000 on radio and telephone charges, had predicted an overflow crowd.

The list of speakers, some of whom talked from distant cities via closed circuit radio, was studied with retired military men.

Roman Catholic Bishop Cuthbert O'Garra, who spent two years as a prisoner of the Chinese Reds, gave the invocation.

"The loyal defenders of our cherished traditions," said the bishop, are arrayed against "powerful influences operating in subtle and devious ways—the slanted press, the slanted radio, the slanted television."

Oh, Well . . .

Another old water well was "discovered" Monday in the courthouse yard, but it attracted little attention. It was the third old well uncovered since workmen started grading the square for landscaping. R. O. Smith, a bulldozer operator, knocked the concrete cap off the well yesterday, but he didn't know it until he stepped off his tractor, almost into the hole. The well was about 40 feet deep and contained several feet of water. It requires about 150 cubic yards of dirt to fill the shaft. It is located at the east entrance to the courthouse. Other old wells were found on the southeast and northwest corners of the square.

## Japanese Count Toll

TOKYO (AP)—Japan today counted a toll of at least six dead and 23 missing in a violent wind and rain storm which struck Sunday with unexpected fury. Hundreds of homes were flattened and 23 fishing boats were sunk.

## Turns 103, Then Dies

SPRINGFIELD, Maine (AP)—Mrs. Nora Coffin smiled happily at her 103rd birthday cake in a Lincoln Hospital room yesterday, then slipped away in death. She had been hospitalized recently with infirmities of age.

## TOP EVENT SINCE SHAMROCK OPENING

# Celebrities Stream Into Dallas For Republic Bank Dedication

By CLAYTON HICKERSON  
DALLAS (AP)—Much of Dallas was agog today over formal dedication tomorrow of the city's new 40-story Republic National Bank Building, tallest in these parts.

About 4,800 visiting "celebrities," the bank's press agents said, would be in town for Texas' biggest shindig since Glenn McCarthy opened his swank Shamrock Hotel in Houston.

But where the Shamrock's domination color was green, the color here is gold—money gold, if you please.

Some of the same old cast from the Shamrock whittling was expected back, even Bob Hope who was almost sure to have a crack about choking on 20-dollar gold pieces. Hope is known around the Petroleum Club here as an oilman who picks up cigar money doing little skits on the radio.

And his crack on choking on coin of the realm may not be too far off. Dessert at the dinner tonight

in the huge Fair Park Automobile Building will be gold-colored ice cream in replica of the 20-dollar pieces. Drinks at three bars, stretching a city block, will be on the house.

Out at the city's airport, Love Field, the terminal building was crowded with what a Dallas newspaper called "dignitaries and even motion picture stars."

"So many celebrities were arriving at one time that no one could count them all," a reporter said.

The big building, costing 25 million dollars, was plagued during construction by eleven destructive fires with estimated damage of about a half million. Recently, since completion, a water main broke on the 17th floor and flooded five stories.

Pre-dedication viewers of the big, aluminum-sheathed giant compared it with New York's United Nations Building and with Washington's famed Pentagon.

But a gravel-voiced East Texas hog farmer opined that "it sure would make a fine silo"

"Could get enough corn and cottonseed meal in that there thing," he said, "to feed all the hogs in Texas, with them old Oklahoma hogs thrown in."

There were wisecracks, too, about the "almost half-billion candlepower" revolving beacon supported by a 150-foot ornamental tower atop the 448-foot building.

"Old Fred's (Fred F. Florence, bank president) looking for depositors," said admiring Texans who viewed the searchlight's swing as far away as Albesse, Tex., some 80 miles to the southeast. Press releases say that on a clear night the light will be seen a 125 miles across the Texas plains.

But it's the gold-plated lobby and escalators that really impressed the visitors, and even the Texans, yesterday.

A portly fellow in a Homburg hat approached a gold-plated water fountain, then backed away rather timidly. "Is this just plain water in here?" he asked in a plaintive voice.

## Subsidy, Cars Set For General Naguib

CAIRO, Egypt (AP)—The Egyptian government will grant former President Gen. Mohamed Naguib a monthly subsidy of \$560 and the use of three cars, an official source said last night.

However, Naguib will continue to live at Merg, the suburban house where he has been kept under heavy guard since the revolutionary regime deposed him Nov. 14. The government has charged him with plotting with the Moslem Brotherhood to upset the government.

## Citizens For Ike Committee Reports

WASHINGTON (AP)—The Citizens for Eisenhower Congressional Committee reported today that it received \$890,000 in contributions ranging from \$1 to \$100 from 10,000 contributors during the past 14 months.

"All approved bills have been paid and it is estimated that after unpaid obligations have been discharged sufficient cash will remain for terminating expenses and for the storing of committee records," the preliminary report said.

## Turkish Court Sets Sentence For Editor

ANKARA, Turkey (AP)—A Turkish court of appeals yesterday confirmed a 26-month prison sentence handed to a veteran editorial writer and former member of Parliament on charges of insulting Premier Adnan Menderes and the government in an opposition party newspaper.

The journalist, 80-year-old Husayin Cahit Yalchin, was sentenced last September for his articles in the Republican People's party official organ Halket.

# Famous Trichologist Tells Truth About Saving And Improving Hair

This new method of home treatment for saving and growing thicker hair will be demonstrated in Big Spring, Tex., Thursday ONLY, Dec. 2, 1954.

These private individual demonstrations will be held at the Settles Hotel on Thursday ONLY, Dec. 2, 2 p.m. till 9 p.m.

OKLAHOMA CITY, Nov. 29 — In an interview here today D. Russell Collins, internationally famous trichologist and director of the Collins Hair and Scalp Experts, Inc., said "There are 15 different scalp disorders that cause most men and women to lose hair. Using common sense, a person must realize no one tonic or so-called cure-all could correct all the disorders," he explained.

**GUARANTEED**

"The Collins firm, recognizing that most people are skeptical of claims that hair can be grown on balding heads, offers a guarantee," Collins said.

Once a person avails themselves to the Collins treatment his skepticism immediately disappears. To insure this, we offer this guarantee. "If you are not completely satisfied with your hair progress in the very first 30 days your money will be returned."

**HOPELESS CASES DISCOURAGED**

First the Collins specialists are quick to tell hopeless cases that they cannot be helped. But the "hopeless" cases are few. Only if a man is completely, shiny bald is he in this lost category.

If there is fuzz, no matter how light, thin, or colorless, the Collins firm can perform wonders.

Everyone is given a complete, private examination to determine the condition of his scalp, and cause for his hair trouble.

**FREE EXAMINATIONS**

This examination is very thorough and highly technical. It requires 20 to 30 minutes. There is no charge for this examination

and no appointment is necessary. After the examination he is told the required length of treatment and how much it will cost.

After starting treatment he makes regular reports to the Collins firm in Oklahoma City, and a trichologist will return to check his progress periodically.

To spread the opportunity of normal, healthy hair to the thousands who are desperately looking for help, the Collins firm is sending specialists to various cities throughout the United States to conduct examinations and start home treatment.

**NO CURE-ALL**

"We have no cure-all for slick, shiny baldness," Collins emphasizes. "If there is fuzz, the root is still capable of creating hair and we can perform what seems to be a miracle."

"There is one thing Collins wants to be certain every man and woman knows. If a recession appears at the temples or a spot begins to show up on the crown of the head, there is something wrong and it should be given immediate attention."

**HAIR FOR LIFETIME**

"If clients follow our directions during treatment and after they finish the course, there is no reason why they will not have hair all the rest of their lives," Collins said. "Our firm is definitely behind this treatment, it all depends on the individual client's faithful observation of a few simple rules."

**HOW'S YOUR HAIR?**

If it worries you call Trichologist Lynn Jones at the Settles Hotel in Big Spring, Texas on Thursday ONLY, Dec. 2, 2 p.m. till 9 p.m. The public is invited. You do not need an appointment. The examinations are private and you will not be embarrassed or obligated in any way.

## Public Relations Firm Hired For Oil Operation Plan

SANTA FE, N.M. (AP)—An official for a group planning a multi-million dollar oil operation in New Mexico, Arizona, Wyoming and Texas has made arrangements for a public relations firm to serve the group.

Bert Clardy of Dallas, representing the group, was here yesterday, arranging for the reactivation of the public relations firm of Whitehead and Bynon to serve his group as local spokesman.

News stories last August said the companies' planned projects for pipelines and refineries ran to about 72 million dollars.

The participating companies and their plans have been listed as Ar-Mex Pipeline Co., pipeline from Wyoming to Albuquerque and Phoenix; Navajo Refineries, Albuquerque refinery; Standard Pipeline Co., pipeline from Wink, Tex., to Albuquerque; and Thunderbird Refineries, Inc., refinery at Coolidge, Ariz.

# Queen's Speech Opens Session Of Parliament

By TOM OCHILTREE  
LONDON, (U)—Queen Elizabeth II opened the new session of Parliament today with a declaration that world survival depends on the continued intimate association of Britain and the United States.

The young monarch delivered her speech from the throne in the red and gold splendor of the House of Lords chamber. She spoke the words prepared for her in accordance with parliamentary tradition by Prime Minister Sir Winston Churchill, today celebrating his 80th birthday.

Robed peers crowding the benches and members of the House of Commons ranged along the walls heard the Queen say:

"My government attach the highest importance to maintaining and strengthening close and friendly relations with the United States of America. It is upon this intimate association that world survival depends."

She said that in the session ahead, a short meeting ending Dec. 23, her ministers "will strive unremittingly to promote the well-being of my people and the peace of the world."

"My government are convinced a strong and united Commonwealth can take a leading part in the councils of nations," she declared.

The Queen's speech represents the basic policy Churchill's Conservative government will follow. During the next few days it will be analyzed and debated in Parliament.

# Three Killed In Plains Crashes

LUBBOCK (U)—Three persons were killed and two others injured on South Plains highways last night when they were involved in two collisions of cars and pickup trucks.

Police sought a hit-and-run driver in the first accident and held a 50-year-old man for questioning in the second.

Mrs. Bonnie Tipton, 22, of Levelland, and her 6-month-old son, Rinky, died in the first accident when their car plunged off the highway after colliding with a pickup truck.

Police said the truck did not stop after the accident, which took place about 7:30 p.m. on the Lubbock-Levelland highway.

Arlis Tipton, 20, husband of the dead woman, was hospitalized in Levelland with internal injuries.

A third person—Miss Lillian Bundick, 30, of Spade, Tex.—died about an hour and a half later when the car in which she was riding struck another pickup truck which officers said was parked on the highway. A sister, Miss Ethel Bundick, 25, suffered broken ribs and other injuries in the crash.

The 50-year-old driver of the truck was not injured. Police held him for questioning.

Police set up roadblocks throughout the South Plains area in an attempt to halt the truck involved in the earlier accident.

# Leonard Hazelwood, Westbrook, Dies Of Heart Attack

COLORADO CITY — Leonard Hazelwood, 67, Westbrook farmer, died at 10:30 a.m. Monday in Colorado City of a heart attack.

He was born Dec. 26, 1886, in Craighead County, Ark. and married Frances Pearl Garrett March 21, 1908, in Arkadelphia, Ark. He had lived near Westbrook since 1915 and was a member of the Masonic Lodge and the Westbrook Baptist Church.

Survivors include his wife; two sons, Clarence Hazelwood of Oakland, Calif., and P. L. Hazelwood of Houston; and three daughters, Mrs. Leslie McCara of Westbrook, Mrs. Nell Wilson and Mrs. Edna Ames both of Houston.

Funeral services will be held from the Westbrook Baptist Church, with burial in the Westbrook Cemetery, with time for the services to be announced by Kiker and Son of Colorado City.

# Investigator For DA's Office Takes Up Duties Today

Bobby West, formerly deputy sheriff, took up duties today as special investigator for the district attorney.

District Attorney Guilford Jones said West's time will be devoted exclusively to the investigation of criminal cases with the objective of compiling evidence that can be presented to a grand jury or trial jury in a minimum of time.

County commissioners authorized the position of special investigator several weeks ago. West will be carried on the county payroll as a sheriff's deputy, but he will work exclusively for the district attorney.

Milton Cox, who moved to Big Spring from Garden City, has succeeded West in the sheriff's department.

# UNCLE RAY'S CORNER

Roman men during the time of Julius Caesar.

Today I shall give answers to several questions about Roman clothing.

Q. What was the original meaning of the word "toga"?

A. As nearly as can be told, the early meaning of "toga" was "covering." Roman togas are remembered in our modern word "toga," meaning "clothes." People sometimes speak of their riding togas or golf togas.

Q. What was a toga like?

A. It was an outer garment, made of a single piece of woolen cloth, of a single piece of woolen cloth, usually cut in the shape of a half-circle.

At least one servant helped a well-to-do Roman to put on his toga. Three servants were used, at times, to drape an extra-large toga. The large togas contained from 10 to 20 square yards of cloth.

The lower edge of a toga was likely to touch a man's ankles, and might even reach the ground. It was the rule for the toga to be thrown over the left shoulder.

The togas usually were dull white, light gray or buff. Some men, especially candidates for public office, had the cloth bleached to make it "extra white."

Army generals sometimes wore red or purple togas, embroidered with gold thread. Certain high offi-

cers of the nation had white togas with red or purple borders.

Q. What was the Roman tunic?

A. This was a loose-fitting garment which reached to the knees, or a little below. It was common for a Roman to wear a tunic while inside his home, and to cover the tunic with a toga when he went outdoors.

Q. Did all free Romans wear togas while they were outdoors?

A. No. Many a Roman felt that there was too much trouble about putting a toga in place. Roman farmers worked in the fields without togas over their tunics. Some farmers wore togas only when they paid a visit to the city of Rome.

Tomorrow: Styles of Women.

# Red Sex Scandal Figure Surrenders

ROME (U)—Communist Giuseppe Sotgiu, central figure in Italy's newest sex scandal, has come out of two weeks hiding and reported to Rome's public prosecutor.

Sotgiu, 50, who a few months ago was lecturing Italy on public morals, is charged with "contributing to the corruption of minors."

He and his wife Liliana, a 42-year-old artist, went into hiding Nov. 15 after the scandal broke.

At the same time Sotgiu quit as president of the Rome Provincial Council and was suspended by the Communist party.

The Sotgius were accused of participating in orgies in an unlicensed brothel with teen-agers. Neither was held by police.

# Mrs. Luce In Hospital

ROME (U)—U.S. Ambassador Clare Boothe Luce is flying to Naples today to enter a U.S. Navy hospital for treatment of a sinus condition.

# Frenchman Sees Americans Adopting European Pattern

By PRESTON GROVER  
PARIS, (U)—A Frenchman's book just published here comes up with the conclusion that Americans are practically normal.

"The overwork of Americans is greatly exaggerated," says Raymond Cartier, a correspondent of the magazine Paris-Match. He spends much of his time in America.

A lot of Americans may die of heart disease and cancer, says Cartier, "but all the other causes of death are becoming increasingly so rare that heart disease and cancer tend more and more to become the only killers."

He observes in his book "The 48 Americas" that Americans don't find escape in alcohol any more than Europeans. And Europeans go astray in believing American family life is breaking up. He explains:

"The immense majority of the divorces of both sexes are not seeking to break up the home but simply to change it. The large part of divorces are undertaken with the remarriage already in sight—and the partner already chosen."

Unlike Europeans who take lovers and mistresses, he says, Americans prefer to break up the marriage rather than sully it.

"The hard truth," he says, "is that America is coming to resemble Europe more and more. Everything is growing in that direction, increasing bureaucracy, mounting socialism, and obligatory military service in time of peace."

Cartier notes that many European observers find America too mechanized, half of the population rushing to bars at 7 p.m. to quiet their nerves, or passing hours on a psychoanalyst's couch "talking of love instead of making it."

"The misunderstanding is that this 'American way of life' doesn't exist," Cartier writes. "The bases of the life of an individual —

spiritual, cultural, social and in his family — are approximately the same in West Europe and in the United States."

# Urge Speedup in Aid

GUATEMALA (U)—Two representatives of President Carlos Castillo Armas' government flew to Washington yesterday to urge the United States to speed up the availability of over six million dollars in economic aid it has earmarked for Guatemala.

Tuberculosis can be prevented and can be cured, yet TB attacks about 110,000 people every year in the United States.

# Do FALSE TEETH Rock, Slide or Slip?

PARTITEE, an improved powder to be sprinkled on upper or lower plates, holds false teeth more firmly in place. Do not slide, slip or rock. No gummy, sticky, pasty taste or feeling. PARTITEE is alkaline (non-acid). Does not sour. Checks "plate odor" (denture breath). Get PARTITEE at any drug counter.

To Run Big Spring VA Hospital

I. G. Sims, new manager of the Veterans Administration Hospital here, arrived in Big Spring yesterday. He is shown (left) at his desk, with Dr. Jackson H. Friedlander, chief of professional services. Sims comes here from Alexandria, La., where he was assistant manager of the VA Hospital for the past six years. He replaced Willis O. Underwood, who was transferred to Sunmount, N.Y. Sims has been with the Veterans Administration for the past 35 years and has served in every major division of the organization. He is married and has two children.

35 YEARS WITH ORGANIZATION

VA Hospital's New Manager Arrives, Pleased By Facilities

By CLIFTON LAWHORNE I. G. Sims has been with the Veterans Administration for the past 35 years, and he has served in all of the organization's major divisions. Most of his many undertakings have been routine for Sims. But when he arrived in Big Spring on Monday, he was confronted with an entirely new experience. That experience was becoming a hospital manager. It was the first time in his long years of service that Sims had taken over the helm of a VA installation. He is the new manager of the Big Spring Veterans Administration Hospital.

Important to Sims, for it was here that he met and married the former Sara Elizabeth Stanley, whose father was the chief medical officer at the VA hospital—and Sims' boss. In February, 1923, the Sims family was transferred to Tuskegee, Ala., where he was made VA property custodian. Then in August, 1923, he was sent to Greenville, S. C., as personnel officer of the VA hospital.

Coming to Big Spring marks the final step in Sims' progress to date. From a personal outlook, Big Spring is conveniently located for Sims. His son, Glen Stanley, is stationed at Ft. Bliss, near El Paso, and can visit his parents more often here. When and if Sims' daughter, Betsy Ann, transfers colleges, everyone will be close. Though he doesn't look it, Sims is 57 years of age. He was born Oct. 11, 1897, in Shelbyville, Illinois, and attended Sparks College and Conservatory from 1915 to 1916. He entered the Navy in World War I.

Criminally Insane Riot In New Jersey Institution

By JAMES P. HACKETT TRENTON, N.J. (AP)—Insane criminals staged a two-hour riot at the New Jersey State Hospital yesterday, wrecking their dining hall and causing injuries to several attendants. Twenty-three of the 371 inmates were involved, actively or passively.

Hospital officials said that among passive participants was Howard Unruh, 33-year-old ex-GI who in 1949 shot and killed 13 persons at Camden in the bloodiest street slaughter in the nation's history. Unruh, who is suffering from deterioration of the brain cells, an incurable disease, surrendered meekly with the others when they apparently were satisfied they could not resist for long. Dr. F. Lovell Bixby, acting commissioner of institutions, asked if any action would be taken against

the 23, said, "The law specifies you cannot punish an insane man; the courts can't punish them, so how can we?" Dr. Howard E. Magee, hospital director, said a "hard core" of five inmates led the frenzied crowd in the dining hall. Forty inmates leaped with 10 attendants through broken windows, dropping 12 feet to the courtyard. Another attendant, Earl Hubbard, was seized by two of the rioters and beaten about the head. Many inmates squeezed out through the door.

Those that went through the windows suffered cuts. One attendant suffered a possible broken ankle. Some of the 23 rioters still in the dining hall went on a vandalic spree—smashing windows, tables, benches, lights and dishes and starting a fire, which was put out quickly. Bixby began to talk to the rioters, and the five ringleaders told him they wanted to arbitrate. They said a fellow inmate had been unjustly convicted and committed to the state hospital. When assured that the inmate's case would be investigated, the ringleaders agreed to surrender.

Fort Worth Airport Offer Nixed By Dallas

DALLAS (AP)—Fort Worth got a polite refusal yesterday on its offer to sell Dallas a half-interest in the Fort Worth airport for more than \$4 million dollars.

Dallas, presently in the midst of a multi-million-dollar expansion of its own airports—Love Field and Redbird, turned the offer down officially through a letter written by Mayor R. L. Thornton and unanimously approved by the city council.

Nixons End Vacation

NASSAU, Bahamas (AP)—Vice President Richard M. Nixon and Mrs. Nixon, who have been vacationing here for 10 days, leave today to return to Washington, flying by way of Miami.

Lone Star Brewing Pays Extra Dividend

SAN ANTONIO—A quarterly dividend of 25 cents per share on 525,000 shares of common stock, plus an extra year-end dividend of an additional 25 cents a share, was announced today by the board of directors of the Lone Star Brewing Co. The dividend is payable January 2, 1955, to shareholders of record as of Dec. 15, 1954.

Today's declaration brings to \$1.25 the total dividends paid per share for the year ending Nov. 30. The money aggregate is \$653,750. During the year two 25-cent dividends were declared on 420,000 shares of common stock, and three 25-cent dividends were declared on 525,000 shares. The increase in common stock was the result of a 25 per cent stock dividend made last June.

Churchill Off Guard

"Churchill likes to know when he's in danger. It simply delights him—so we never tell him." Here are dozens of new "inside" anecdotes about one of the world's most important personalities told by the Scotland Yard Inspector who was his devoted bodyguard for twenty years. Read it in the December Ladies' Home Journal. Out today—on all newsstands.

End To Insults

TOKYO, (AP)—Seven milk delivery boys at a small dairy store here formed a union and handed their

employer a list of demands for better pay, food, shorter hours and a promise to stop calling them "bakayaro" (stupid fools). The employer agreed to all demands.

A SWITCH OF THE PITCH -AND AWAY YOU GO!

The biggest sensation in years is what "variable pitch propellers" have done for Dynaflo Drive

It happens like this. You need pickup—and pronto. So you get it. You get it by pushing the accelerator pedal of a 1955 Buick all the way to the floor board. Then—without jerk or lag or lurch or pause—you get action! You get action whether you're just starting off—or asking for a safety-surge of power out on the highway. There's nothing like it in past experience—because there has never been anything like it in an automobile before. This is action that comes from the principle of variable pitch propellers used on modern planes. Their propeller blades change "pitch" for take-off—and out hundreds of feet off the time required to lift a plane from a runway. And the amazing fact is—in a 1955 Buick Dynaflo Drive there are 20 little propeller-like blades that also change their pitch, just like the propeller blades of a plane. This is a transmission engineer's dream of heaven. A build-up of momentum as smooth as flowing oil—and almost as quick as lightning—plus better gas mileage in cruising range. It's what the whole automobile industry has been shooting for—and Buick has it. So there's only one thing for you to do. Try out a 1955 Buick, and soon. Try it out for quick and thrilling action, as we've mentioned. Try it out for room and comfort and ride. And by all means, cast an admiring eye on its style—for it beats the high-fashion Buicks which set the pattern in the successful year just ended. We're waiting and eager to hear from you soon. So drop in—or give us a call. We promise you a thrill that no other car can deliver.

\$5,000 Judgment Asked In Damage Suit On Injuries

Peggy Jones asks judgment for \$5,000 in a suit for damages filed in 118th District Court today against Joe Liebson and others. The \$5,000 is asked as a result of injuries received by Charles Albert Jones Jr., five-month-old son of the plaintiff. Mrs. Jones' petition alleges the child received brain concussion which has resulted in meningitis as a result of a car wreck on West Third Street Nov. 8. The plaintiff says that while she was in the hospital and unable to care for her child on Nov. 8, her husband allowed Mary Rooney to take care of the baby. While Mary Rooney was driving a car owned by Liebson, it was in collision with a truck parked at 1502 W. 3rd, causing the child's injury, she claims. Mrs. Jones alleges that negligence on the part of Mary Rooney and the owner of the truck, Elgin Lester Rogers, contributed to causes of the wreck.

A Bible Thought For Today—

To escape dilemmas we should follow a way well defined and proven. There is such a way. "The last state of that man is worse than the first." — Matt. 12:45.

Matter Of Descent Is Interesting And Important For Every Family

Few of us know, or care, who our ancestors were beyond two or three generations to rearward, but there are enough people who do care to make the business of tracing lineage a pretty prosperous business.

also has a bit of American Indian blood in his veins. Through his mother, Jennie Jerome, daughter of an American sportsman, he inherited some Iroquois blood.

Note To Shoppers: 20 Days Is Short Time For Doing The Job

There's more than a gala affair wrapped up in Wednesday's pre-Christmas parade. It's a reminder to shoppers that they will then have only 20 business days in which to satisfy gift lists.

You may expect that the tempo will become increasingly heavy nearer the time, for this year's Yule shopping time is relatively short.

Walking, Talking Little Girl Delights The Boyles

NEW YORK (AP)—When you have a new baby in the house, the veteran parents among your friends are always warning: "Yes, they're wonderful when they're helpless and completely dependent on you. But wait until they learn to walk. Then you'll never know a moment's peace. They just become little terrorists."

Well, Tracy Ann, who came to our house to live when she was five weeks old, has now passed her 17th month birthday. She walks and climbs like crazy, trying each hour to explore and absorb all the wonders and knowledge in the whole wide world.

to as "The Snake Pit." "No! No! No! No!" she says, striding about like a Hollywood producer. And like a Hollywood producer she often says "no" when she really means "yes."

GRIN AND BEAR IT

The only thing she is afraid of is the vacuum cleaner. When Frances is doing the rug, Tracy has the idea that the cleaner is some kind of dragon attacking her mother.

Around The Rim—The Herald Staff

Uncle Billy Kingston, Aged 95, Remembers Area's Early Days

The opinions contained in this and other articles in this column are solely those of the writers who sign them. They are not to be interpreted as necessarily reflecting the opinions of The Herald. — Editor's Note.

The oldest and most colorful of the pioneers attending the recent centennial celebration at old Fort Davis was, without much argument, Uncle Billy Kingston, who was born in Mason County in 1829, and who will be 96 years old next April 23.

Southwest peace officer, related how, as a boy from a poor family, he hunted the camels on the Arizona desert and jerked their meat and sold it for beef in Phoenix.

He is also the only man yet living in West Texas who can recall having seen some of the camels that Jefferson Davis, then Secretary of War, had imported and sent into the desert country as a means of military transportation in West Texas, Arizona and New Mexico.

He says his roughest experience on the range was a blizzard in 1887 when they were trying to run cattle out of the brush. He was wearing a cap but when he pulled the flaps down over his ears he couldn't hear the cattle running.

Washington Calling—Marquis Childs

Ike Facing Strongest Test In Charting Of U. S. Foreign Policy

WASHINGTON — The lines are being drawn for a struggle over control of the direction of foreign policy that promises to put the Eisenhower Administration to severest test it has yet encountered.

will take their seats when the new Congress convenes. One is Clifford Case, Senator-elect from New Jersey and the other is Gordon Allott, who in an upset victory in Colorado defeated the Democratic candidate, John Carroll, the odds-on favorite to win.

For this goal there is a remarkable degree of unity among Senate Republicans, ranging from the extremists such as Senators Joseph R. McCarthy of Wisconsin and William E. Jenner of Indiana through the political spectrum to Knowland and Senator Styles Bridges of New Hampshire.

President Eisenhower has several times pointed out that under the Constitution the Executive is charged with responsibility for foreign policy. But those who have surveyed the alignment of the forces in opposition believe it will not be enough for Mr. Eisenhower to stand on his constitutional prerogatives.

POTOMAC FEVER

WASHINGTON — Senator Fulbright says the public should demand a Senate show-down vote on Joe McCarthy. Sample letter to your Senator: "Don't be a coward. Vote against Joe McCarthy... P. S. Please burn this letter at once."

Washington arithmetic: The new Congress will be divided. The new deficit won't. In case of a storm next Saturday, safest city in the land will be New Orleans. Twelve Democratic governors will attend a victory dinner there — and each one is bringing his own lightning rod.

W. T. (Tom) Barber Named To HCJC Board Of Trustees

W. T. (Tom) Barber, 45, of Coahoma has been named to the Howard County Junior College board of trustees.

Dr. P. W. Malone, board president, announced Barber's election by the board and his acceptance here Tuesday morning.

Barber's appointment brings representation of the eastern part of the county to the board.

A native of Athens, Texas, where he was reared and was graduated from high school, Barber attended Texas Tech before coming to Howard County in 1948.

Barber has been active in civic affairs in the Coahoma area. He and Mrs. Barber, the former Marion Hutto, have one child, Barber is a member of the Presbyterian Church.

Weeg Is Named Scout Chairman

Charles A. Weeg, administrator for the Howard County Hospital Foundation, was elected Monday evening to be district chairman for Boy Scout work.

He will succeed Dr. G. F. Dillon as head of the Lone Star District, which is one of seven in the Buffalo Trails Council and serves Howard, Martin, Glascock and Sterling counties.

Other officers named were Raymond River, vice chairman; and Allen Orr, district commissioner. Jack Alexander is due to continue as district Cubbing commissioner.

Dr. Dillon announced at the meeting in the Chamber of Commerce offices that Big Spring would be host for the annual council meeting Jan. 21 at the Settles Hotel. Bill Murray, member of the Texas Railroad Commission, is to be the principal speaker for the occasion according to Dan Krause, district commissioner.

Frank Tate Jr., Explorer Scout from Forsan, was chosen to represent the Lone Star district in the annual "report to the nation" ceremony. From the district representatives will be chosen an Explorer to represent the council in ceremonies in Austin. From the 22 councils of the region will be named an Explorer to represent the region in the report to the President in Washington.

The district committee also voted to sponsor another Scout Clinic during Boy Scout Week. The first one attempted last year was an outstanding success.

### Former Showgirl Has 83rd Birthday

PASADENA, Calif. (U)—Trixie Frigans has been bedridden for years because of arthritis and now her eyesight is falling but on her 83rd birthday anniversary she said: "When anyone has lived as many happy years as I have, there's a lot to be thankful for, believe me."

The former showgirl, known as the "Champagne Girl" in the 1920s, has lived in retirement since 1939 at the Sacred Heart Academy. The Dominican sisters had a birthday cake for her yesterday and helped her open many cards and birthday presents.

### Les Paul Child Dies

NEW YORK (U)—The 4-day-old premature daughter of Les Paul and Mary Ford, recording artists, died early today at St. Vincent's Hospital after an operation. She was their first child.

### Rock Slide Traps Man In Mine Shaft

ST. CLAIR, Pa. (U)—Mine crews are working around the clock to remove tons of rock and earth covering Frank Pesavage at the bottom of a 290-foot mine shaft near here. They said it would take several days.

The 37-year-old father of two children was trapped yesterday by a rock slide. Rescuers held little hope that he could be saved.

Two other miners working with Pesavage scrambled to safety up the 80-degree slope as the rock slid into the shaft.

### Protest U.N. Act

DAMASCUS, Syria (U)—Ten thousand demonstrators marched through Damascus yesterday in an anniversary protest against the 1947 U.N. resolution partitioning Palestine. They shouted slogans denouncing the Western Powers, Turkey, Israel and the United Nations.

### Riding

## THE GRUB LINE

With Franklin Reynolds

Baker Abu Kiekh, a 26-year-old agricultural specialist from Jaffa, Israel, arrived here this morning where he was met by Martin Vavra of the Stanton Soil Conservation Service unit and taken to Martin County where the visitor will study West Texas agricultural methods and practices through Friday.

He will then spend the weekend in Big Spring and next Monday will go to Pecos to spend a week with the SCSS unit there.

He came here from Temple, where he has been a guest of the state headquarters of the West Texas study in an effort to acquire ideas that he can take back to his native country and put into effect there in order to improve the agricultural industry. Israel and West Texas, it is reported, have common agricultural problems and a similarity of both favorable and adverse situations.

On Tuesday, Dec. 14, the farmers of the 20 cotton growing states will vote on whether or not they are willing to accept marketing quotas on 1955 cotton.

The chances are that here in Howard County there will be but one voting place and it will be at the ASC office in the Court House. However, the county committee will meet Friday of this week, according to Gabe Hammack, office manager, to make final plans for the election in this county.

It will require a vote of two-thirds of all the cotton farmers in the United States to establish marketing quotas. Any farmer who grew cotton in 1954 is eligible to vote.

If quotas are established price supports will range from 82 and one-half per cent to 90 per cent of parity. Secretary of Agriculture Benson has indicated the support price will be near 90 per cent. If the marketing quotas are turned down the support price will only be 50 per cent of parity.

In any event acreage allotments will be in effect next year and any farmer who plants more than his allotment, if marketing quotas are voted down, will not get the benefit of price supports.

Various county committees are now at work breaking down the county acreage allotments to individual farms. These county-committee determinations are subject to approval by the state ASC committee.

Texas has an allotment of 7,613,000 acres while Kansas has an allotment of only 35 acres.

The total allotment for the 1955 crop is 18,113,000 acres which is calculated to produce 10 million bales of 500 pounds each, which will be in line with the proposed marketing quota.

At least 200 Texas bankers are expected to attend Texas A&M College's fourth annual Farm and Ranch Credit School scheduled to open Sunday evening, Dec. 5, and end the following Wednesday at noon.

This school, which is open to commercial bankers only, is the largest of its kind in the United States and is being sponsored by the Department of Agricultural Economics at A&M.

The purpose of the school, according to Dr. Tyrus R. Tinn, is to provide a forum for the exchange of ideas between bankers and farmers.

Man Drinks Cyanide While On Telephone

BURBANK, Calif. (U)—"Listen, I want you to hear me drink cyanide."

Police said Mrs. Fearless Salter told them she heard that over the telephone while talking with her business partner Paul M. Soderberg, 38, yesterday.

Then she heard a gurgling sound. Mrs. Salter called police, who found Soderberg dying, an empty glass nearby. Officers said the man apparently was despondent over business affairs and the responsibility of rearing three small boys left in his care after a recent divorce.

Insect Exterminator Convicted Of Fraud

ROCKVILLE, Md. (U)—James R. Hoover, 39, a Bethesda exterminator, has been convicted on three false pretense charges involving treatment of homes he said were about to be undermined by termites.

Asst. State's Atty. Robert C. Heaney yesterday told the Circuit Court jury that Hoover "panicked" three Bethesda home owners into taking a total of \$600 worth of antitermite work the prosecutor said was needless. Hoover awaits sentencing.

Red China Claims Archeological Find

LONDON (U)—Communist China claimed today to have unearthed remains of a primitive human roughly related to the mysteriously missing Peking Man.

Human teeth dating from about Peking Man's era (500,000 years ago) in the Paleolithic Age have been found in the southern part of Shansi province, Peiping radio said.

Held As 'Strip Bandit'

UPPER MERLBORO, Md. (U)—Police have charged Lawrence E. Hamlet, 32, of being the "Strip Bandit" of Prince Georges County, who committed robberies at tourist camps at Landover and Mukirk and forced his victims to disrobe to delay them in giving the alarm.

labor. Plenty of fresh water should always be available and there is less chance for wasted feed when the feeders are kept about half full. Whenever a hen has to go without water she stops laying. Drinking water, well protected against freezing in cold weather, is regarded as economically essential. Soil-heating cables, electric lights and commercial heating devices are among the ways the drinking water in the hen houses can be kept from turning to ice.

A hen needs approximately 14 hours of light to keep her stimulated for high production. As the days become shorter the production will drop unless artificial light is provided. One tested and proved method is to use 60-watt bulbs every 12 feet or 40-watt bulbs every 10 feet mounted seven or eight feet from the floor. Shallow dome reflectors can be used to intensify the light if dusted off occasionally.

Charles E. Fisher, superintendent of the Spur Experiment Station, who is regarded as the greatest authority on the eradication of mesquite and other brush, has gone to Cuba and Brazil as a brush eradication consultant, but is expected to return to Spur in about a month. He is traveling by plane.

In Cuba he will serve as brush eradication and control specialist for three large commercial sugar cane growers, and in Brazil will appear as a special consultant for the Ipec Research Institute, sponsored by the Rockefeller Foundation.

Fisher was the main speaker at a field day program at the Big Spring Experiment Farm more than a year ago where he discussed the problem of mesquite.

### Hasty Leap From Burning Car Fatal

SALT LAKE CITY (U)—A car carrying four teenagers along a busy artery west of here suddenly burst into flames last night.

The driver, 18-year-old Willis R. Harper, leaped from the still-moving auto and landed in the opposite lane. An oncoming car killed him outright.

The driverless car finally hit a fence and stopped. The three other youths received only minor injuries.

Big Spring (Texas) Herald, Tues., Nov. 30, 1954

### Parents Say Man Should Drive Bus

OAKLAND, Md. (U)—A group of parents in the community of Bethlehem, 10 miles south of here, think driving a school bus is no job for a woman.

At least not over a route that includes a narrow dirt road across Backbone Mountain, often covered with snow in winter.

The parents say they have nothing against Mrs. Alice Harvey, the present driver, but they ask: Would

a woman have the strength to hold a skidding bus on the treacherous road? And could she change a tire? They have told the Board of Education they want a man driver. The board will hear the issue Dec. 6.

Would You Ever Dream ...  
You Can Cook ELECTRICALLY  
For Only PENNIES Per Meal?

See your electric appliance dealer's Special Jubilee Showing of modern electric ranges NOW, and select the size and type electric range you need to save your time and energy.

JUST THREE CENTS! Yes, the average family cooks electrically for about 3c per meal. That's what literally hundreds of women tell us ... women who now are enjoying the benefits of electric cooking. And when you consider the many conveniences and advantages of cooking electrically ... you'll agree that's quite a bargain. With an electric range you get clean, concentrated heat ... less food shrinkage ... better results every time. It's no wonder with these advantages available that penny-wise homemakers by the thousands are turning to clean, cool, automatic electric cooking. Why don't you join them?

**CANDID CAMERA** — Queen Elizabeth II has an inquiring look in this camera closeup taken during her visit to an exhibition of handicrafts by disabled ex-servicemen in London.

**IN CASE OF ENEMY ATTACK** — Chicago Civil Defense Corps workers, using all kinds of stoves from modern gas ranges to mud ovens, test available facilities in one of the nation's first big-city emergency mass feeding demonstrations.

**THAT'S HAY, SON** — A baby tapir pokes mom with a streamlined snout during hay-feeding time at the zoo in Frankfurt, Germany. Baby is a month old and mother is six years old.

**EXIT 'THE VOICE'** — Reginald Sgt. Major Ronald Brittain, known as "The Voice" at Mons Officer Cadet School, Aldershot, England, makes last parade after 37 years in Army.

**NEW ASSIGNMENT** — Gen. Maxwell D. Taylor, recently U. S. Eighth Army commander in Korea, has been named to head all ground forces in Japan, Okinawa and Korea.

**THE RIGHT CHOICE?** — Susan Schlemann, 3, picked out a collie puppy but then wasn't sure she made the right choice. Here she pauses to think it over during visit to opening of new annex of Anti-Cruelty Society, Chicago, where dogs were offered for adoption.

**OLD AND NEW** — Helmet Brig. Gen. Billy Mitchell used in World War I is shown by Mrs. Nina Lafoon of National Air Museum staff, Washington, alongside Navy jet pilot's gear.

**ON FRIENDLY THEME** — Like their owners, Tootie the pigeon atop Mary Kay Dickman's head, and Tippy the fox in arm of Gary Rosenberg are good friends in Ellsworth, Minn.

**ICE CREAM FOR ALASKANS** — Four native Eskimos from Alaska sample an ice cream cone during their visit to San Francisco, Cal., to attend the American Travel Agents convention. Left to right are: Abraham Lincoln, Forrest Solomon, Mrs. Lincoln and Mrs. Solomon.

**TOP BRIDESMAID** — Holland's Princess Beatrix is shown at the wedding of Thyse Booy and Baroness Van Randwyck, secretaries to her grandmother, Princess Wilhelmina.

**RADIO-TV PIONEERS** — Dr. Allen B. DuMont, right, and Dr. Lee de Forest examine one of first vacuum tubes latter ever made at meeting of de Forest Pioneers in New York.

**ROYAL COMPETITOR ON HER MARK** — Princess Suga-Takako, left, romped and regaled by many as the most beautiful daughter of Japan's Emperor Hirohito, competes with her class members in an obstacle course race at the Girls' Fair School in Tokyo.

**MEN'S STYLE NOTE** — Father-and-son sports shirts, featuring very short sleeves and embroidered scroll design, are modeled at a state show in Palm Springs, Cal.

**LIGHTER TREND** — Navy test pilot Lt. Cmdr. James Verdin at Douglas Aircraft plant, El Segundo, Cal., and "pupil" Louise Thomas demonstrate lighter ejection seat for A4D midget atomic bomber in background. New seat weighs only 60 pounds compared to 95 for old one at left.

# Gilliland Restores Old Furniture To Original Condition

Before you discard that old furniture and purchase a new one, it probably would pay dividends to check with the Gilliland Household Repair, at 111 Utah Road.

"In a majority of the cases," says Marvin Gilliland, owner of the firm, "upholstered furniture that has become worn and soiled to the extent that the owner is considering replacement with new furniture can still be restored to its original beauty and usefulness at approximately one third of its original cost."

Gilliland cautions, however, that the homeowner should be sure the workman who renovates the furniture knows his business.

"If the frame or the spring system needs repair and the item is re-upholstered without the necessary repairs, the furniture will soon break down or lose its shape," he warns.

"In our shop, special attention is given to needed repairs, and we are now doing work on new furniture for most of the better furniture stores in Big Spring," Gilliland adds.

"We also do upholstery and maintenance on furniture for the better hotels, motels and rooming houses."

Gilliland points out that his business is listed in the yellow pages of the telephone directory. A telephone call will bring a free estimate on all services, no matter how small or how extensive the proposed project.

A large variety of material samples will be taken to any home in order that the housewife may choose the fabric, color, etc. to fit her decorative scheme.

Free pickup and delivery is another service provided by Gilliland Household Repair. Discounts are given on materials in connection with cash transactions.

Gilliland also can set up an easy-payment plan for patrons who may prefer to spread the expense of furniture repairs and upholstery work over a period of several months.

Telephone number of the concern is 3-2338. The business is situated in the Airport Addition, just south of U. S. Highway 80 on Utah Road.

# Royal Typewriters, Office Machines Are Ideal Gifts

At a loss trying to decide what the Christmas present to give that student son or daughter?

Why not solve your problem for once and for all by purchasing a new Royal electric typewriter, sold locally by the Thomas Typewriter and Office Supply, located at 107 Main Street?

The Royal Electric boasts 27 features not found on any other make or model typewriter. The machine is the result of years of experiments carried on by the Royal manufacturers, who consulted business executives, stenographers and typists all over the country before designing the machine.

The Royal Electric is equipped with such things as a Speed-Fix keyboard, which offers a faster, smoother, lighter touch; fool-proof repeat keys, built independently of the regular keys for minimum possibility of errors; and an Automatic Vertical Spacer, which instantly rolls paper down to the desired point without need of returning the carriage to the left-hand margin.

The automatic carriage return has also been improved on the new electric model. Where before it operated with a noisy clatter, it now functions smoothly and quietly and the entire operation is completed in 1.5 seconds.

And do you sell your fingers changing ribbons on old models? The Royal Electric makes it possible to change it lightning-fast, without dirtying the hands.

The new Royal comes in several different colors so that buyers will have no trouble fitting it into the color schemes of their offices.

Thomas' is also the headquarters for such items as adding machines, cash registers, filing cabinets, office furniture and etc., any of which would make splendid Christmas gifts for the business executive.

## Source Of Douglass Steaks

Ray Parker, manager of the Douglass Coffee Shop, cuts steaks to customer specification. He is shown above with a beef side which he is preparing to slice into various steak selections. Parker maintains that by buying beef in large quantities and doing his own butchering he is able to sell to the public at a cheaper price than most places. Steaks are prepared in the establishment's charcoal broiler on request. The Douglass Coffee Shop is located in the 100 block of East Third Street and can accommodate about 80 people at one time. Fine seafoods, Mexican foods, popularly-priced lunches and dinners also are served at the establishment. Parties and other group gatherings can be accommodated in the Maverick Room. Service in the coffee shop or the Maverick Room is always efficient and courteous. The coffee shop is open from 6 a.m. to 10 p.m. daily.

# Nabors Has All Painting Needs

Anything it takes for the painting of your home or business can be found at Nabors Paint Store, 1701 Gregg.

A. A. Cooper, manager, boasts that the establishment has a line of "accessory" items which will rival any store in town. And nothing but quality items, such as Gilliland's famous Spred Satin paint are kept in stock.

The store recently added a new line of plastic and metal wall tile to the retail shelves, and it is available to the buyer in deep tones or pastel shades. The tile is on display and can be seen at any time.

In fact, Manager Cooper solicits "looking" customers. He believes from the display available at the store that customers can find what they want.

Floor coverings of all types can be viewed as can venetian blinds. Wallpaper of various designs can be inspected, and designs not in stock can be ordered from a catalogue. Motif design rollers are also available.

These rollers can be used to apply designs which have heretofore been found only on wallpaper. Application can be effected by anyone by use of the rollers.

Industrial paints can be obtained from Nabors Paint Store in 1,000 different colors. Glidden is the main line of paints, however, and the Spred Satin is available in 27 colors. These 27 can be blended into 180 others.

The popularity of Spred Satin has increased tremendously during the past few years, especially with the housewife. For one thing, it is ready to use just as it comes, and it is easy to apply.

Cooper maintains that Spred Satin goes on twice as fast as the ordinary conventional paint. And it is not damaged by soap and water, enabling the housewife to wash it when she pleases.

The smooth paint has a hard satin-like finish and does not absorb household dirt easily, accounting for the name Spred Satin. It has a base similar to synthetic rubber and can be applied to most interior surfaces — even plaster, wallboard or porous wallboards.

## Refuses Red Plea

LONDON (AP)—Britain's lord chief justice, Lord Godard, has refused to send back to Communist Poland seven Polish authors who revolted against the master of their fishing trawler and sought asylum in this country. He ordered the seven freed.

## Englishmen Smoke Their Fags Longer

WASHINGTON (AP)—Englishmen don't smoke as many cigarettes as Americans, but because of the relatively high price in England, they smoke them longer.

Dr. Alexander G. Gilliam of the National Cancer Institute reported this in discussing the possible relationship between cigarette smoking and lung cancer.

He told the Association of Military Surgeons of the United States that recorded mortality from lung cancer in England is over twice that observed in the United States, although per capita consumption of cigarettes is "considerably greater" in this country.

### Famed Circus At Gainesville Hit By Blaze

GAINESVILLE (AP)—The big barn housing equipment of the famed Gainesville Community Circus and the newly-organized show, burned out, a professional show, burned here today.

Firemen said loss to the equipment and building, a huge wooden structure which formerly was the Camp Howze recreational building, was total.

A soldier and a sailor, hitchhiking through the town, discovered the blaze and reported it to police, who turned in the alarm about 3:45 a.m.

The only animal lost belonging to the Gainesville group was a chimpanzee which apparently burned to death. Three elephants belonging to the Ward-Bell show were led to safety.

Police said the fire apparently started near the elephant quarters and spread rapidly. They theorized that the elephants either blew or kicked straw onto a gas heater which burned near them.

The Gainesville circus, a community enterprise, has been in financial difficulties in recent months and had voted not long ago to lease its equipment to the Ward-Bell show for a tour of Hawaii.

No estimate of the damage was available immediately.

The Gainesville group carried about \$35,000 worth of insurance on its equipment, Radio Station KTAF here reported, adding that this was probably not enough to cover the loss.

### Anderson Cites Challenge To Any Aggression Try

VERNON, Tex. (AP)—The deputy secretary of defense says that "hard work and horse sense" and the greatest peacetime Army and Navy in U.S. history pose a challenge to any country that threatens this nation's freedom.

Sec. Robert B. Anderson spoke yesterday at dedicatory services for a \$72,000 National Guard armory in his home town of Vernon. He called the armory evidence of this nation's determination to bolster the political, economic and moral efforts both in this country and abroad. He is on a week's tour of Texas.

The secretary outlined the scope of the U.S. defense operation. He said the Defense Department is charged with spending 60 cents of each federal tax dollar, regulates the activities of 4 1/2 million people and controls acreage the size of the state of Louisiana. Anderson urged his audience not to be discouraged "because our goals are worth every sacrifice."

### Big Bend Park Staff Change Is Announced

WASHINGTON (AP)—David J. Jones, superintendent of the San Juan National historic site in Puerto Rico since 1949, will become assistant superintendent of the Big Bend National Park in Texas around Jan. 1.

He will replace W. Leon Evans, who will become assistant superintendent at the Hawaii National Park in Hawaii.

The changes were announced yesterday by Secretary of the Interior McKay.

In the first Christmas Seal Sale in the United States in 1907, \$3,000 was raised to aid a few needy tuberculosis patients. In 1953, the Christmas Seal Sales raised nearly 24 million dollars to fight TB through health education, medical research, case finding, and rehabilitation.

### One-Woman Sloop Almost Makes Voyage By Itself

OLD POINT COMFORT, Va. (AP)—Mrs. Ann Davison didn't quite make it all the way to Norfolk from New York in her one-woman sloop as she had planned, but she didn't miss it much.

The courageous Englishwoman, who left New York Nov. 22 expecting to sail her craft, the Felicity Ann, into Norfolk in five days at the most, needed seven before she finally reached port here last night at 10:30 p.m. A seagoing fishing trawler had to tow her the final 70 miles.

Bad weather gave both Mrs. Davison and her 22-foot sloop a buffet, throwing her badly off schedule. So when the trawler, the 300-ton Sea Hawk skippered by Capt. H. W. Gibbs, of Hampton, came along early yesterday morning and offered assistance, the lady said a reluctant "Yes."

The trawler took the Felicity Ann under tow about 30 miles off Cape Henry and tied up at the Virginia Marine Service at Phoebus 13 hours later.

Mrs. Davison, who sailed in the Felicity Ann from England to New York last year, said she was "tired and wet but otherwise all right."

"There was nothing really glamorous about the incident," she said modestly. "I am very pleased to hear people were concerned about my safety. It's nice to know someone cares."

As soon as her sloop gets a few minor repairs she plans to set out to sea again — this time to Florida and the Bahamas, and all alone again, of course.

Tuberculosis is not hereditary. It is caused by a germ, the tubercle bacillus. It can be prevented and can be cured.

### Companies Seek FPC Exemption

WASHINGTON (AP)—Representatives of the Deep South and Shell Oil Companies appeared before a Federal Power Commission examiner yesterday to ask exemption from federal jurisdiction in sales of natural gas in certain Texas fields.

The Deep South petition contended that it is not a natural gas company subject to jurisdiction under the Supreme Court ruling that the commission has authority to regulate the price of all natural gas flowing into interstate commerce.
