Case of Lois Eva Fletcher versus the City of Big Spring for damages was to go to a 70th district court jury Friday afternoon.

Mrs. Fletcher charged that she was injured in a fall due to a fault in a local downtown sidewalk. The case was started Thursday morning and continued to noon when Judge Cecil Collings recessed until Friday morning.

Friday afternoon the case of Whittle Hudson, charged with burglary, was to be taken up. Court is to continue active through Saturday.

City of Big Spring was given title to a small tract of airport land in a title suit against Mrs. Thelma McGee, and in turn Mrs. McGee was given \$350 credit on cross action against Florence Peyton.

### British Raiders Use U.S. Planes

LONDON, Nov. 22 (AP)—American-made Lockheed-Hudson bombers pounded the German airfield at Stavanger, Norway, this morning in a destructive attack which was "as slick as it was heavy," the air ministry announced today.

Amplifying the air ministry's brief announcement of the Stavanger raid by Hudson bombers of the coastal command, its news service said:

"The first aircraft to arrive scattered the airfield and its buildings with incendiaries and those which followed added greatly to the destruction with a variety of bombs."

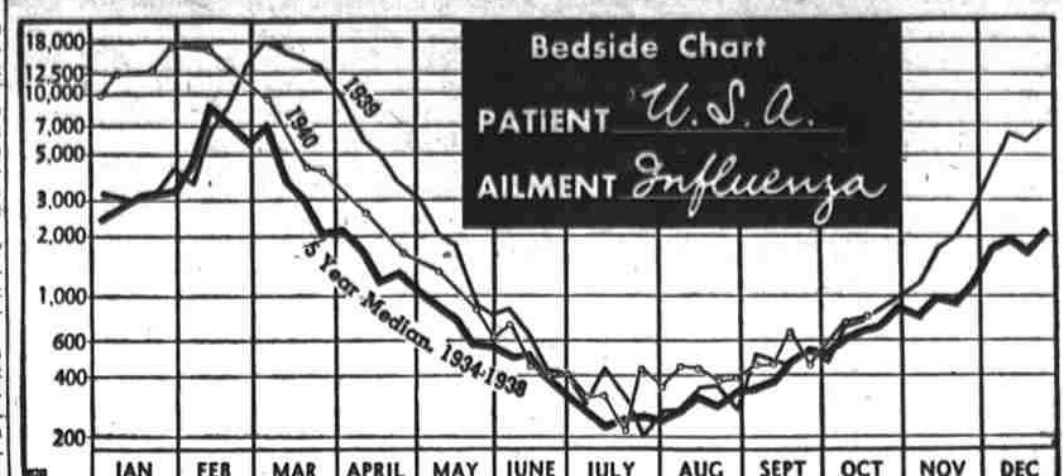

### BOMB DAMAGES CAFE IN PHILADELPHIA

PHILADELPHIA, Nov. 22 (AP)—A bomb explosion ripped out the revolving doors to a midtown restaurant early today, shattered the windows up and down Chestnut street but left intact a huge plate glass window fronting the establishment.

There were no injuries and little damage was done to the interior. The restaurant had closed at midnight.

## Sneeze, Cough, Ache And Chill Mean Flu Is On Rampage Again

This chart shows the number of new cases of flu reported weekly to the Public Health Service. There were 856 during the week ending October 26 this year compared with an average of 756 for the 1934-1938 period. If the flu curve climbs as high as it did last winter, as many as 17,000 new cases will be reported in one week.

By ALEXANDER R. GEORGE  
AP Feature Service Writer  
WASHINGTON — The Public Health Service is watching sharply a rising curve on the nation's influenza chart.

New cases of flu are being reported at a rate of 13 per cent higher than average—856 new cases for the week ending October 26 compared with a 756 median for the corresponding week over the last five years.

Officials say there is no cause as yet for national alarm but that the situation calls for close observation, particularly during November, usually the epidemic-indicator month. In the 1928-1929 epidemic, the curve of new cases rose almost vertically in November.

Watch New Vaccine  
Health authorities have been heartened by the development of a prospective new weapon in the fight on the sneeze-chill-ache malady. A vaccine, reported to have shown experimentally a high degree of protection against influenza, recently was produced in the laboratories of the Rockefeller foundation.

Army and Navy medical officers are keenly interested in the new vaccine consisting of flu viruses and strains of diphtheria. In the 1918 epidemic nearly half a million persons, including thousands of men in the military service, died of flu and flu-induced pneumonia.

This year's cases in the states, as well as 100,000 last summer in Puerto Rico and 7,000 in Hawaii, have been of a comparatively mild type. Health authorities warn, however, that all cases should be regarded as potentially serious, because of the danger of complications.

Persons who try to keep on their feet and "atletik it out" with the flu contribute the greatest number to the death rolls, because they are walking storehouses of infection and frequently succumb after unwarranted exertion.

Protective Measures  
The Public Health Service recommends these general protective measures for the individual:

1. Avoid needless contact with others. Walking to and from work, if practicable, is good exercise and keeps one from overcrowded street cars and buses.
2. Avoid chilling, but take advantage of as much open air and sunshine as you can.
3. Keep up your health by using plenty of clean water internally and externally; by eating clean wholesome food, and by sleeping at least 7 hours out of each 24.
4. Avoid persons who are coughing, sneezing or sniffing. Do not cough or sneeze yourself without using a handkerchief.

WASHINGTON, Nov. 22 (AP)—Chairman Jones (D-Texas) of the house agriculture committee resigned today as a member of the house. Aldes said he took the oath of office as a judge of the court of claims Wednesday night and left yesterday on a brief vacation trip.

### Adopted Son Kills Father

DES ARC, Ark., Nov. 22 (AP)—A 20-year-old youth who was adopted from an orphanage at the age of four was held for an attack which brought death to his foster father and serious injuries to his mother.

Sheriff F. L. Grady said Alfred Vincent had signed a statement that he shot to death his foster father, A. N. Vincent, 48, and beat Mrs. Vincent with a hammer in a quarrel started yesterday when the woman reprimanded her foster son for excessive drinking.

### Unofficial Returns Give Ratner Victory

TOPEKA, Kas., Nov. 22 (AP)—Gov. Payne H. Ratner, republican candidate for reelection, emerged with a 427-vote lead in the complete unofficial returns from the November 5 election, the closest race for the governorship since Harry H. Woodring won by 251 votes 10 years ago.

Ratner trailed his democratic opponent, William H. Burks for 13 days—once by almost 3,000 votes—but steadily out into his lead and finally passed him as absentee ballots were tabulated.

# The Dry Vote Is Never Wrong

The wets have put out certain propaganda to influence your vote, and as usual their reports are false. Let us notice some of the real facts in the case. And note too that their circulars are unsigned, contain no name of any LOCAL PRINTER, and bear no label of any UNION PRINTER. The facts below are backed by signatures of men you know and all our printing bears the LOCAL PRINTER'S NAME and the UNION LABEL. Our funds don't come from people who are ashamed to admit their sources, nor do our printed bills come from those who are ashamed to own their work. Now let's examine the facts.

**1 HURTS BUSINESS** is the claim they make. You and all of us know that all the money that goes to this business hurts legitimate business. A large percent goes not to HOWARD COUNTY but to St. Louis, Milwaukee and San Antonio to the brewers. This business took more than 69,000,000 quarts of milk from children last year. It put ONE MILLION milk cows out of business in the year since prohibition. This put many a workman out of business that was really decent and profitable, IF LIQUOR HELPS BUSINESS, why is HOWARD COUNTY IN THE EXACT CENTER OF THE WORST BUSINESS AREA OF THE SOUTHWEST, in the maps shown for both October and November in "Nation's Business?"

**2 OLD AGE PENSIONS** They have said they are paying 48% of Texas share of old age assistance. If the old folks just got what the taxes from liquor afforded they would get \$2.81 each per month. Your governor says the vote in Howard County will not in any way affect old age pensions of anyone.

SAMPLE BALLOT  
**HOW TO VOTE DRY**  
FOR prohibiting sale of all alcoholic beverages  
AGAINST prohibiting sale of all alcoholic beverages

If the wets love the old folks so much why do so many of them try to beat their taxes? If we would for all time separate the old age pension from liquor we would soon pay the old folks what they deserve.

**3 BOOTLEGGING** They say that we are trying to bring back bootleggers. Do you think churches have any axe to grind by leaguing up with any wet element? On the other hand YOU KNOW the wets have an axe to grind. They know and you know it's easier to bootleg in wet territory than in dry. The bootlegger never has stopped working. Did you know that several hundred dollars in fines and costs were paid in the last few weeks by LEGALIZED LIQUOR DEALERS in Big Spring? That was for BOOTLEGGING. Forty two licenses were surrendered or revoked by the Liquor Control Board in Howard county. Is that law observance?

**4 LUBBOCK MINISTERS,** were quoted in their sheet as being opposed to the prohibition set-up in Lubbock because of drug stores violating the law. Here is the answer, which came from Lubbock. Read it for yourself and see how wets will deceive:

"BEER BREWERS HAVE MISREPRESENTED US." Signed, H. G. Gantz, President, Lubbock Pastors' Association. His name is on the list the wets put out.

**5 "Citizens Tax Payers League"** signature. That's the only thing to identify this false propaganda the wets have put out. We ask "WHAT CITIZENS? WHAT TAX PAYERS" Why don't you see the name of someone on their paper? Why not a label of some local printer, the UNION LABEL that we have on ours? Why not sign up for whoever is responsible? WE DO, and HERE WE ARE.

*Don't Trade Strict Control of Alcoholic Beverages For . . .*

**BOOTLEGGERS, SUNDAY SALES, SPEAKEASIES, CORRUPT POLITICS, TAX EVASIONS, WHISKEY DRUG STORES, MOONSHINERS, INCREASED DRUNKENNESS, SALE TO MINORS, Etc.**

Every voter who has the best interest of the community at heart will study the answers to these questions before he goes to vote in Saturday's prohibition election in Howard County.

### WHAT ABOUT TAXES PAID ON THE SALE OF ALCOHOLIC BEVERAGES?

Forty-eight per cent of the State's share of Old Age Pensions comes from taxes and license fees collected from the legal sale of alcoholic beverages. Since repeal this figure has amounted to \$31,389,106.00. This figure is in addition to the license fees collected by counties and cities and in addition to the Federal tax which is four times as great as the State tax.

On July 1, the Federal tax on beer was increased from \$5 per barrel to \$6 per barrel for our National Defense program. The tax on whiskey was increased from \$2.25 per gallon to \$3.00 per gallon. This means an addition of over ONE-HALF MILLION DOLLARS PER DAY which will be collected from this LEGAL business to properly prepare our nation to defend itself.

**Remember this! The Bootlegger pays no Taxes or License Fees!**

He is subject to no restrictions as to hours or to whom he sells. He is not interested in the age of his customers or their conduct before or after they consume his poisonous tax-free products. His only interest is "CASH ON THE BARREL HEAD!"

In spite of this enormous amount of money the Texas Old Age Pension fund is in worse shape than ever before. Many old persons in Howard County have had their pensions reduced because the state has not had the money to pay with.

Every county in the state that votes dry, deprives the Old Age Assistance Fund of revenue so badly needed at this time. Every county that goes dry brings a greater need of increasing taxes upon everybody!

One-fourth of these State taxes goes to the State School Fund. This fund, too, needs more at this time to continue paying the costs of our school system.

A careful study shows that the Federal Government, State of Texas, Howard County and the City of Big Spring derived in taxes and license fees, during the year 1939, a total of \$182,758.64 from the legal sale of alcoholic beverages. (These figures are taken from sworn reports made by wholesale dealers to the Texas Liquor Control Board, and can be verified by any interested person.)

### HOW WILL BUSINESS BE AFFECTED?

312 people in our County depend upon the retail sale of alcoholic beverages for their livelihood. Many people are coming here to do their trading because of the fact that prohibition is not in effect in Howard County. In the event prohibition is permitted to carry many people will be thrown out of work and many business houses vacated.

We would see many of our own people going to other counties to do their trading.

We would certainly be doing ourselves an injustice in a business way if we attempted to enforce prohibition in our County and return to the days of the bootleggers.

### DOES PROHIBITION PROHIBIT?

We think that every informed person will agree that prohibition was a miserable failure in Howard County as well as in other sections of Texas. Bootlegging was carried on throughout the period of State-wide prohibition.

The Texas Liquor Control Law has very strict provisions regarding the retail sale of alcoholic beverages and the conduct of those who are licensed to sell them. Any objectionable conditions can be corrected by strict enforcement of the law.

A dealer's license can be cancelled for any of the following reasons:

1. Sales to minors.
2. Sales to persons visibly intoxicated.
3. Purchase or sale of liquor on beer premises.
4. Unsanitary conditions.
5. Permitting disturbances to occur on the premises.

There are many other rules and regulations too numerous to mention which control a licensed dealer. The bootlegger is subject to none of these regulations and has no license to protect.

We are glad to say that we are getting much better enforcement of the liquor laws in Howard County at this time than ever before. If the public will continue to support the law enforcement officials, we can assure you of retail conditions to which no one will object.

### Abraham Lincoln Said:

"Prohibition will work a great injury to the cause of temperance. It is a species of intemperance within itself, for it goes beyond the bounds of reason in that it attempts to control a man's appetite by legislation, and in making crimes out of things that are not crimes. A prohibition law strikes at the very principles on which government is founded. I have always been found laboring to protect the weaker classes from the stronger, and I can never give my consent to such a law as you propose to enact.

"Until my tongue shall be silenced by death, I shall continue to fight for the rights of man."

-From a speech made Dec. 19, 1844, opposing the Murphy Prohibition Bill in the Illinois Legislature.

### Roosevelt's Attitude:

A vote for prohibition is a slap at the entire program of President Franklin D. Roosevelt. We can all recall the great part that President Roosevelt took frankly and openly advocating the repeal of national prohibition and in advocating the legalization of alcoholic beverages when he was convinced of the miserable failure of prohibition throughout the country.

The government spent untold sums trying to enforce prohibition, and the bootleggers got the profits, as you well know, and there was as much drinking as ever. Close to Six Billion (\$6,000,000,000.00) Dollars have been paid in taxes by alcoholic beverages in the United States since repeal of prohibition. The Old Age Pension Fund of Texas alone has received \$21,923,783.96 as of November 15, 1940.

Editorial Consider The Aftermath

Nathan Straus, administrator of the Federal Housing Administration, said something in a speech in the American Federation of Labor convention at New Orleans that is worthy of thought. After the defense boom is over, he pointed out, there is danger of a sudden slump in employment. He predicted that 5,000,000 men would rather suddenly find themselves out of a job. American people have a tendency to ride high just before a fall. It isn't unlikely that many of us are doing that now. We speak of the prosperity brought about by huge defense orders, and think of the return of 1928 income. But defense orders are like any other artificial stimulant—they last only so long. When the effect wears off, we are as bad off as ever; and in this case, when the stimulant's power is gone, we'll still have a high tax rate because of defense debts. During the past eight years, the federal government has done considerable pump-priming in effort to get wealth flowing again. Success of these efforts is debatable. Insofar as its effect on economic conditions is concerned, spending for

The Herald's Serial Story Who Killed Aunt Maggie? By Medora Field

Chapter Two WARNING No doubt she had gone to Roswell with Beattie and Andrew. After all, it was rather spooky to be at Wisteria Hall alone, even in the daytime, as I myself had just discovered. As I turned to leave the desk caught my eye. It was propped against the inkwell and, yielding to impulse, I picked it up, though I was usually bored with items which so often excited Aunt Maggie. The writing was in a fine, flowing script, probably that of my great-great-grandfather, but the text seemed palpably absurd when associated with the portrait of that austere old gentleman. It was a sort of jingle about steps and hands and feet and what not, and though I did not examine it very carefully, it seemed to make no sense whatever. I placed the paper back as I found it, mystified as to why Aunt Maggie should have singled it out unless perhaps as a curiosity to show that our ancestor had been a riddle addict. Descending to the stair landing, I brought my bag up to the big bedroom on the second floor which I was to share with Bill. Here again I was arrested by an unexpected bit of paper, this time lying on the old mahogany bureau. Thinking it only a scrap of paper left there inadvertently by Beattie or Andrew as they put the house in order, I came near tossing it into the wastebasket without looking at it, for it was a bit of green wrapping paper of the sort used by one of Atlanta's largest department stores. Any housewife in the city would recognize it anywhere. But no housewife ever regarded a stranger message on more familiar paper, for upon it was printed in pencil: "Leave this place at once. Your life is in danger."

Washington Daybook By Jack Stinnett

WASHINGTON — The most embarrassing thing that has happened to a No. 158 that I know of happened right here in Washington—or at least just across the District line in one of the suburbs. He is 23 years old. His family is prominent in the community and comparatively well off. He was something of a football hero and just about a perfect physical specimen. He always has been quite a favorite in the neighborhood. When Secretary of War Stimson plucked 158 out of the selective service fish bowl and made him No. 1 in his district and the lad announced that he was proud and ready to go immediately, the neighborhood went into an orgy of patriotism. The young man was wine and dine. The American Legion post gave a banquet in his honor. So did the D. A. R. He made speeches at the high school and the nearby college he had attended. He spoke solemnly from the pulpit of his church. His girl gave a romantic touch to the hysteria by announcing they were engaged to be married "immediately after Johnny comes back from training." It went on for weeks. Finally the lad made a visit to his local board to find out just how soon he would be called—and discovered that 52 selectees in his district had, under the rules of selective service, been given induction numbers ahead of his. The chances are Johnny won't be called before next summer, if then—and no amount of pleading or pull can get him ahead of the boys over whom no fuss was made the boys who enlisted and were found suitable for Class 1-A and immediate call. Johnny's only chance of escaping the jibes of his pals while he waits around to be called is to enlist and get accepted—for three years' service

Man About Manhattan By George Tucker

NEW YORK—Eleanor Holm says she will never swim again professionally. The wife of Billy Rose had a dream the other night that may have influenced her decision. In it she was awakened by her maid, who said, "Your bath is ready." Still dreaming, Eleanor replied, "I am never going to get into water again." Well, we bet a necktie Eleanor changes her mind. The most sensational gal in the nation's swim pools loves the roar of the crowd too much to ignore it for good. Ever since she was a kid she has been riding the headlines. Once she was married to an orchestra leader. And once she was banned from swimming in the Olympics on a silly charge of "drinking champagne." On the west coast, in Europe, in the east, in private pools and in broad public streams, the streamlined Mrs. Billy Rose has defeated most competitors who have challenged her. Ten years ago I heard Jack Dempsey say, "Boy, I saw a girl swim in Los Angeles last week, and I swear to Heaven I never saw anything near her equal." That was Eleanor. About a year ago Miss Holm was in the headlines again. Her engagement and marriage to Billy Rose, an old headline-stealing champ himself, was a national event. Billy's adventure with

Hollywood Sights And Sounds By Robbin Coons

HOLLYWOOD—It's a pity, considering Virginia Bruce's looks, but you won't be seeing much of her in her next movie. It's "The Invisible Woman," and that's Virginia. She's a little piqued about it—not that she wants to be on the screen all the time, but because it's "too easy." John Fulton, the special effects man who hitherto has specialized in "invisible men," does most of the work for her when a double in black tights, being very firm about it. They cover the double from head to foot and are essential for the trick photography which aids in "invisibility." The story is about a scientist (John Barrymore) who has a serum which produces invisibility. John Howard is the boy who falls in love with the vanishing loveliness. Where "The Invisible Man" pictures were horror or at least macabre, this one is comedy—like the "Topper" pictures. Virginia, as an invisible star, can sit on the sidelines sewing or reading or watching "herself" act. In her completely invisible state she is supposed to shed her clothes to avoid detection and when the invisible lady smokes a cigarette or drinks a cocktail, they use fine wires to support those material objects in "natural" motions. Virginia delivers her lines to a separate " mike " outside camera range. Even on the set, Howard and Barrymore look "touched" as they talk to a girl who isn't there but is sitting on the sidelines, talking back to a "mike."

**Big Spring Rates Fourth In Accidents**

Big Spring took fourth ranking among Texas cities of 10,000 to 25,000 population in traffic fatality ratings during the first 10 months of 1940.

The city has had one traffic death for its 12,604 population, giving it a rate of 7.93 per 100,000 population. Ranking at the top for cities of similar population range were Denison, Corsicana, University Park, Pampa, Bryan and Sweetwater, with no traffic deaths for the period. Longview, Brownwood, Big Spring and Victoria each had one death, rate for Longview being 7.26 per 100,000, Brownwood 7.46 and Victoria 8.65.

Dallas lead in cities of over 100,000 with a rate of 5.10, Corpus Christi had a rate of 6.96 in the next bracket, and Tyler topped the list in cities of 25,000 to 50,000 with no deaths.

These figures were released by the Texas department of public safety. Populations are based on the 1940 census as released by the United States department of commerce.

**Britain Plans New Offensive**

LONDON, Nov. 22 (AP)—Embattled Britain, heartened by her king's report of increasing war aid from the United States, mapped new aerial strikes against Germany and Italy today.

King George VI in opening a new session of parliament yesterday declared munitions and supplies from the United States were arriving in "ever increasing volume"; and the Royal Air Force left little doubt that 26 powerful bombers originally ordered by the U. S. army and being made available for British purchase would be in the van of forays against the axis.

RAF officers said the big four-motored craft also might be used for the night bombing "ferret service" to Berlin and added that all the signs point to an early opening of widespread air war on Italy, with the comment that the American-made ships "are the babies to do it with."

CINCINNATI, Nov. 22 (AP)—His close friends here say one of the first moves Jimmy Wilson will make as manager of the Cubs will be to try to get Hugh Mulcahy from the Phillies... This is just one man's opinion, but personally we think Auburn has a good chance of upsetting Boston College tomorrow. (See odds below)... Fritzie Zivic has been offered four opponents by Jack Laken at Baltimore, but no acceptance yet... Michigan State has replaced Nebraska as the leading candidate for the spot left vacant in the Big Ten when Chicago went for Tom Thumb golf at Stagg field.

**Wolves Cop District Title In Tiger Tilt**

COLORADO CITY, Nov. 22 (Sp)—Colorado City's Wolves grabbed district 6-A title honors Thursday afternoon with a walling victory over the Snyder Tiger footballers at Colorado City with a 40 to 3 score. The Wolves closed out a season with no losses in the loop race, and have been set back for only 21 points throughout.

Colorado City piled up a two-touch lead in the opening frame of the affray. First tally came on a crash through the line by Royce Smith, Wolf back. The paydirt strike was lined up by Billy Wade's dash to the Snyder 7. Colorado City's Cooper fell on a Snyder fumble behind the double-stripe to rack up the second tally for the Wolves.

Snyder marked in the dying moments of the joust with a field goal.

Wade drew blood again for the Wolves in the second frame, taking a long aerial from Back Grubbs. Two second-stringers gave Colorado City the third counter, with an overhead thrust from Junior Sadler to Phynus Shurtieff. Midway point of the contest came with Colorado City holding a 26 to 0 advantage.

The last half opened with a 53-yard dash by Smith with an aerial from Grubbs to hit the jackpot.

Grubbs made the final touch for Colorado City, winding up the ball game, the district and the title race.

Colorado City accounted for five first downs to Snyder's nine.

**Mutual Network To Broadcast Opera**

James Melton, radio's leading tenor, and Marlon Claire, operatic soprano, will present Victor Herbert's "Eileen," the tale of an Irish patriot of the 1798 Irish Rebellion on the Chicago Theater of the Air over Mutual Saturday, 9 to 10 p.m. CST.

Nathaniel Shilkret, guest conductor for Henry Weber, will lead the concert orchestra and chorus. Shilkret has directed more than 8,000 shows on the air since he began his radio career in 1922, and today is ranked among the nation's outstanding conductors. He has replaced Weber as Chicago Theater of the Air conductor since the latter became occupied with his work as director of the Chicago Opera company.

**Today's Guest Star—** Burke Davis, Charlotte (N. C.) Vernon Pritchard, former Army all-American, is heading a mission to the war-zone—military observers... We suppose Dave O'Brien's first act as a G-man will be to try to see what is wrong with the Philadelphia Eagles.

**LIQUOR BOARD REPORTS FIVE YEARS OF WORK**

AUSTIN, Nov. 16 (AP)—In observance of its fifth birthday, the Texas Liquor Control Board surveyed its ledgers today and found receipts and revenues since 1935 amounted to \$33,051,933.

Allocation of the income included \$21,923,783 to old age assistance, \$6,283,903 to the available school fund and \$372,508 to the state's general fund.

Big Spring Daily Herald  
Nov. 16, 1940

We have a very capable Liquor Control Board, which is conducting itself in a commendable way, and eliminating the illegitimate operators. The School Fund is enjoying considerable revenue from the open sales and licenses of legitimately operated firms, and with the revenue received, education to this present generation could be conducted whereby they could be taught the value of temperance.

In a good many dry areas, the illegal sale of liquor is creating considerable vice.

Here in Big Spring, the unseen vice does not flourish, with the open sale of beverages and liquors.
