SEIZED BEER COULD BE DOPED, JURY VERDICT

ST. LOUIS, Sept. 14.—A jury that does not put it above peace officers to make a little beer now and then on the sly returned a verdict of "not guilty" in Justice Sturdy's court in Valley Park in the trial of three Fenton, Mo., men charged with violating the liquor laws. The contention of the jurors was that it was an easy matter for arresting officers to "dope" a beverage after they had seized it to "make a case" against their prisoners.

JURORS DECIDE FOR FIRST TIME.

It was the first jury trial to be conducted in a justice of the peace court in St. Louis county. A very superior type of courtroom vaudeville was produced as a result. Not only were the motives of the officers who made the arrests laid open to question, but their chief—Deputy Sheriff William Rosenthal—was accused of devoting entirely too much time to gauging the length of skirts among girls who frequent the Meramae river.

LIBRARY DANCE TOMORROW WILL BE BIG AFFAIR

The library benefit dance, to be given by the Library association Thursday night at the Summer Garden, has potential possibilities of being a wonderful success from a financial point of view as well as socially. Pretty girls armed with tickets to the function—many tickets—are doing Main street and the byways and are using all the feminine arts accumulated since mother Eve, in wishing them on the unsuspecting male at a buck and a half apiece. And the males, as usual, are coming across handsomely.

The dance is expected to be one of the events of the winter season; it being sponsored by the 1920 club, the Library association, and the Business Women's club. Special music has been obtained.

WOMAN WEEPS AS SHE RECEIVES BLOOD MONEY FOR SPOUSE'S ARREST

HEMPSTEAD, N. Y., Sept. 14.—Mrs. Bertha Kubal, whose husband, Lawrence Kubal, was convicted of having slain Mrs. Minnie S. Bartlett June 22, appeared before Town Supervisor H. R. Smith with her babe, born since the murder and received \$800, her share of the \$1,000 reward offered by the town for information leading to the arrest and conviction of the murderer.

The balance was paid to Mrs. Kubal's brother-in-law, who induced her to tell authorities of the crime her husband had confessed to her.

She wept as she received the money, and kissed the supervisor's hand. Kubal now is in the deathhouse at Sing Sing.

CRUDE ADVANCE AWAITS DEMAND FOR LUBRICATING AND FUEL OILS

By SAMUEL M. ROSENTHAL, International News Correspondent.

OIL CITY, Pa., Sept. 14.—Equalization in the difference of the cost of the Somerset (Ky.) grades of crude oil and that from the Mid-Continent field, according to interests close to the Standard Oil company, are largely responsible for the increase in price paid for the Somerset, which, after a period of nearly two months of unchanged crude prices, have been increased to \$1.10 for the heavy and \$1.25 for the light grades.

This increase in price still makes it possible, it is explained, for Somerset light and heavy to compete with the lower priced Mid-Continent grades at seaboard, when transportation charges are taken into consideration.

At the same time it is admitted that production of the Somerset grades has not been holding up, and they are not quite so easy to obtain.

Increase in Penn. Doubtful.

While it is generally admitted that the increase in the price of Somerset should have a stabilizing and strengthening effect upon crude markets generally, independent refiners believe that the continued scarcity of an outlet for anything but gasoline precludes the possibility of an increase in the Pennsylvania crude in the near future.

Because there is little moving in the line of refined products excepting gasoline, and that under such conditions with Oklahoma crude at \$1.25 a barrel less than Pennsylvania affords nearly as much gasoline, one refiner believes that it is likely that an increase in price will come.

Looking at the situation from the producer's side, there is ample ground for encouragement.

For sometime past independent buyers and producers of crude have been paying a premium of 10 cents a barrel above the market. It is understood that no great amount of oil has exchanged hands at this figure.

Every producer who can carry his oil is storing it, and many who are selling part with only enough to take care of current expenses. At the same time some encouragement is taken from the report that, even though it is slight, there has been a decrease in stocks in the Oklahoma field.

Competition is Keenest.

Summarizing conditions from information received through various sources, it seems as if the future is entirely speculative.

The increase in Somerset prices might stimulate buying in speculative circles interested in the Pennsylvania grade, and, however plentiful

lower priced grades may be, such a movement would inevitably result in a higher figure.

Any marked tendency toward an industrial resumption more general than is now evident, and a resultant increase in the demand for lubricating and fuel oils would have a marked effect upon the market, also as it is in this line that refiners are heavily stocked.

Once products other than gasoline find a ready demand crude prices are bound to rise.

Refiners, although more active than they have been, are still operating on a basis of rigid economy, with the fewest possible number of men, and the competition for outlets for their products is the keenest that has been experienced in the last seven years.

THREE WIVES CLAIM AUTO CRASH VICTIM'S FORTUNE IN BONDS

BLOOMINGTON, Ill., Sept. 14.—Three wives and a fortune apparently was the heritage left by T. B. McKnight, alias Carl Johnson, who was one of four persons killed in an automobile which was struck by a train here last Sunday. Authorities are endeavoring to determine which of three women was his lawful wife and to ascertain how he came to be possessed of the fortune.

Deeds worth \$150,000 were found in McKnight's clothes.

With McKnight in the car when the accident occurred was Theda Kiezman McKnight, who declares she married him at Elk Point, S. D., on Aug. 6. She refused to tell how the \$150,000 worth of deeds came into McKnight's possession. She is the only survivor of the five who were passengers in the automobile. She admits that she knew "Johnson's real name was McKnight when they were married."

Mrs. Bessie Johnson, 19, of Kansas City, however, declares that McKnight is her missing husband, who disappeared on May 21. A third woman, Maud McKnight of Sioux City, Ia., also claims the dead man as her husband.

COLUMBUS, Ohio, Sept. 14.—Not yet 24 years old, Zona Hitzhaup has been married five times.

Husband No. 5 has entered suit for divorce because, as his petition avers, she can neither sew, cook nor do housework.

Tired of housewifery on his own part after three years of disappointing experience, he wishes the one-sided partnership dissolved.

BERLIN HAS STRIKE OVER BIGGEST FILM

By CARL D. GROAT, United Press Staff Correspondent.

BERLIN, Sept. 14.—While American unemployed are objecting to the new plan of making American films in Germany, Teutons are kicking at the low wages paid them for their "acting" in these films. Their protests led to a strike.

The gigantic film, "Pharaoh's Wife," was to be taken outside the city—in the Maerkische Schweiz. Five thousand workless were taken on barges to the show ground, where the hosts of Pharaoh were to battle. En route, the unemployed had been doctored with artificial sunburn and had been equipped with uniforms.

The "stage" was set for the battle. Many guests, including a corpse of foreign correspondents, were present to see this—one of the greatest picture making stunts yet undertaken in Germany. Then came the squeeze play against the direction—and the strike.

Suddenly the workless set up a cry—the Internationale—and demanded more money. One of their number, a communist, harangued the warriors. They were being oppressed by

the capitalists; the 60 marks offered them was insufficient for the day's "battling" in the sands of the Berlin suburban "Switzerland."

The film director, perspiring, mad, arose and offered the mob 75 marks (almost a dollar at the present exchange), but the communist speaker allowed that wasn't enough. Finally the director, evidently thinking of his outlays for staging the spectacle, wilted and offered 100 marks, which the warriors accepted.

The American companies are saving three to four dollars per head by buying German labor, even at the high rate of 100 marks per day.

CALF, STUNG BY BEES, CURED BY BUTTERMILK

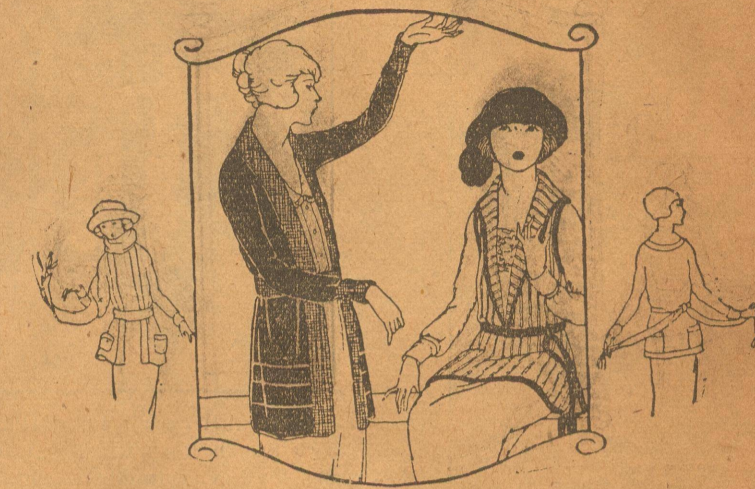

MIDDLETOWN, N. Y., Sept. 14.—A pedigreed calf five months old, grazing at rope's length, felt the urge to wander, pulled the stake and youthlike and unwisely nibbled the clover path and appetite straight up to a dozen hives of honey bees. The rope wrapped itself around the calves.

All the blue blood in his veins carcass leaped into burning lumps. They stung him from his bleating

lips to his wildly waving tail. Every time he made a new leap of agony they bored him in a new place. The calf was in a fair way to die when its owner, Melvin Parks, came along. Parks knows calves, bees and blue blood. He just got a tubful of buttermilk and gave that calf a buttermilk bath. In fifteen minutes the calf was looking for clover again.

THE HARDEST WORDS. PHILADELPHIA, Sept. 14.—"Judgment," "recommend" and "allege" are the most difficult words in daily use for the average person to spell, according to educators at the University of Pennsylvania. They say this has been determined by the study of 1,400,000 spellings in eighty-four cities.
