Forty Miners Reported Killed in Attack on Machine Gun Nest; Thousands Gather on Both Sides and Federal Intervention Appears Only Peace Measure.

By United Press MADISON, W. Va., Sept. 1. Miner reinforcements are passing through Boone county on their way to the Logan border, today. It is believed at least 5,000 will mass on the border.

Miners refused to disclose their casualty list. It is said, however, they estimate the dead at about thirty.

A detachment attacked a machine gun nest near Clothier early today, a miner returning from the front said. Forty or more were killed or wounded, it was declared.

The miners established a field hospital at Clothier. Train service has been suspended except where miners commandeer trains. Logan forces, expecting an at-

tack, early today swept the ridge near Blair to Mills creek with machine gun and rifle fire. The miners did not reply until the barrage ceased. They reopened mile fighting sector.

DERAIL TRAIN.

A special train of reinforce-ments was reported derailed near Logan today.

Logan county sent a constant stream of men and supplies into the mountain passes throughout the morning. Fear was expressed in the streets that the miners would make renewed attempts to advance before federal troops are sent. Two hundred armed men from Bluefield came to the aid of Logan county.

Presence of women scouts among the miners was reported today. Sheriff Chafin said he was advised one woman on duty in the war zone gained informa-tion which enabled miners to flank the deputies and capture Blair mountain yesterday. hill was later retaken.

With fighting between miners and defenders reported in progress near Ethel, West Virginia, this morning, orders were received at Camp Sher-man, Ohio, from the war department, for the Nineteenth infantry to hold tself in readiness to entrain for the trouble zone at noon today. Secretary Weeks declared today that a squadron of airplanes had been dispatched to the scene. It was believed at Washington that armed intervention by the federal government appeared certain as reports from the mine fields indicated the miners are continuing to defy Pres. Hard-ing's command that they disperse. The President and Secretary Weeks are determined that force will be the next step if the miners fail to obey the

next step if the miners fail to obey the President's proclamation by noon.

Mine leaders told the United Press at Madison, W. Va., today, that the miners' object in moving on Logan county was to force federal intervention. The fighting will cease when the troops arrive, but not before the imposition of martial law, they declared. They said that federal intervention would be victory for them.
