Much Work Ahead to Complete Program of President by June 1.

By WALLACE BASSFORD
WASHINGTON, April 8.—Congress is going to get down to business. This is the only real news in Washington this week, and it is rather late in coming, for congress has been in session more than four months and only one insignificant bill has reached the president for his signature. When the lawmakers met in December it was the prediction that a big batch of legislation would be enacted and the session ended June 1, a date not less than two months away, and nothing done.

By United Press
SAN FRANCISCO, April 8.—Lieut. Ervin B. Brown, United States navy officer alleged to be \$120,000 short in his accounts, was lying this morning on a cot in an emergency hospital, either insane or feigning insanity. He was found lying in a driveway in Golden Gate park, apparently drunk. Taken to the receiving hospital, he was identified as Brown by a roll of \$1,200 in bills found in his pocket, by a picture he carried of his wife, Mrs. Daisy Brown, who restored \$75,000 of the alleged stolen money to the authorities, by a scar on one finger, and by the head of a Gibson girl tattooed on his left shoulder after the manner of the sea.

WASHINGTON, April 8.—The new tax bill, with the Mellon rates written in, was ordered favorably reported by the senate finance committee today after nearly one month's discussion. The committee's action puts the bill on the floor of the senate, where it faces a bitter fight and, apparently, inevitable and complete revision by the progressives and democrats. In preliminary remarks at the meeting of the County Constitutional club in Eastland last night, Earl Conner, chairman of the executive committee, referred to the last meeting of the club at which he stated that County Judge Ed S. Pritchard had been extended the courtesy of the floor to answer a charge that had been made against him to the effect that he was a klansman and that he had been a partner in the first and second primaries in the last election. Pritchard abused this privilege Conner said by using ugly language and then going out and making the statement that he (Conner) had lied.

BIBLE THOUGHT.
TASTE AND SEE—O taste and see that the Lord is good.—Psalms 34:8.

MEN'S DUTY TO THE BOYS
Over 80 per cent of the criminals in this country are less than 25 years of age.

A dozen years of investigation and experience have demonstrated that the vast majority of all these youthful offenders have committed crimes because they had had bad associates and were not under the proper influences in the years when their boyhood was turning into manhood—between the ages of 12 and 18.

This is the most important period in a boy's life. Then his ideals are acquired, his character formed. In those years every boy needs to be under the influence of the right kind of a man. He needs such a man's life to supply his ideals and such a man to become his hero. Every boy is a hero worshiper. The reason so many become criminals is they follow the wrong leaders.

This condition is a challenge to the manhood of our community. What are we men doing? Tens of thousands of boys are nightly on our streets looking for amusement, seeking adventure, yearning for companionship. Many of them have no fathers, and the parents of many others give little or no heed to the places their boys visit or the companions they choose.

This is a practical thing. It can be done. It has been done in a small way and with wonderful results. Why should we undertake it in a big way? We can lessen the crime in our midst by giving our attention to the youths. They need a real man's guiding hand and helpful example of a true man's life in forming their character.

This town can be made better. Whether it will be depends upon us—its men. Shall we turn our backs and ignore existing conditions or shall we accept the challenge and lend ourselves to the task?

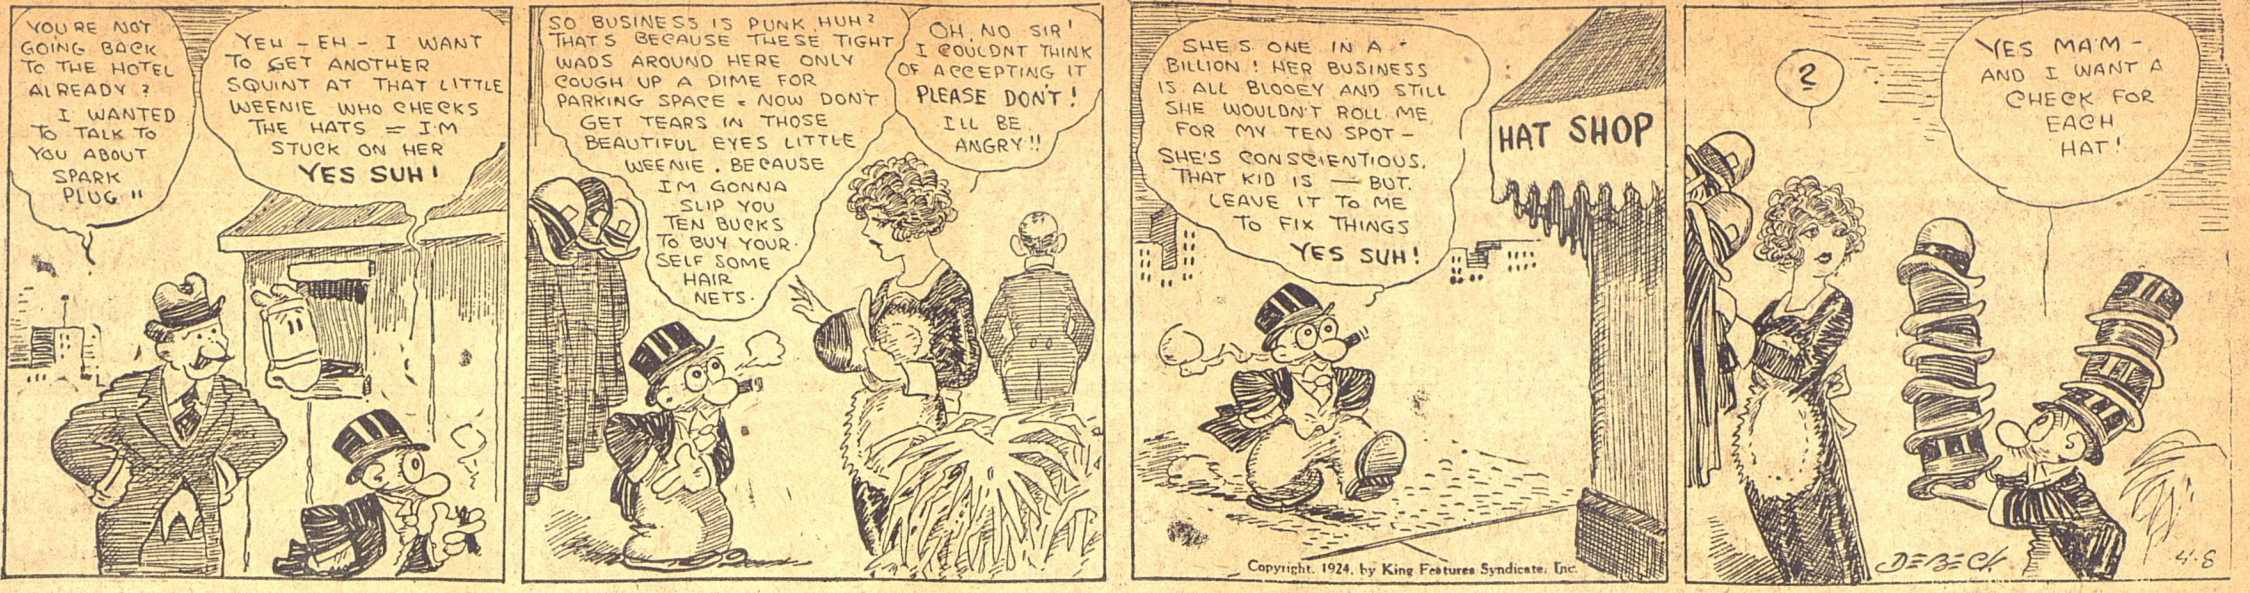

DESTITUTE GERMAN CHILDREN
The house of representatives recently passed a resolution appropriating ten millions of dollars for the purchase of food supplies for destitute women and children of Germany, and it is probable the senate will ratify that action.

In urging the appropriation, Secretary Hoover made the statement: "I can only feel one way about children," and these words undoubtedly express the sentiment of millions of Americans.

There comes a time in connection with many humanitarian projects when consideration of policy should be completely relegated to the background in view of the magnitude of the issues involved, and this problem of the German children may justifiably be reckoned as one of them at this present moment. Far more is included in the question of sending relief to these sorrowing and suffering ones than the mere meeting of a physical human need. If this call is heeded, it will mean that a fundamental of true Christianity is taking precedence over every other consideration and that a step is contemplated which should do more toward mitigating the post-war animosities between the former enemy countries than anything that has heretofore been attempted.

About one-fourth of the land area of the United States is composed of forests or denuded forest lands that has not been utilized for agricultural purposes. Over 80 million acres, east of the Mississippi, are fit for nothing except to grow trees—and that is a good investment.

Ernest H. Jones Is Seeking Re-election As County Clerk

To the voters of Eastland county: You are now entering upon the dawn of another county election in which you have the right of going to the polls and selecting the candidates who shall serve you in the various offices for the next two years and I, now wish to place my name before you as a candidate for re-election to the office of County Clerk, and in so doing I am running strictly upon my own merits.

I am not a stranger or a new comer among you as I come to you from two families being among the first to settle in this county, as my mother, who was a Hargus, came to Eastland county at an early date and located two miles east of the city of Eastland and my father moved to the Mansker Lake community about fifty years ago and it was in the lake community that I was born and reared. While there on the farm I began laying a foundation for the future and only by the help of the good people of this county have I been able to obtain the office of clerk and I wish to thank you for the aid you have rendered me.

In nineteen hundred and twenty I made the race for county clerk and was defeated. Then in 1922 I made the race again and you responded to my call by electing me. I took office January 1, 1923, and have tried to render you the best of service that I had in me and during this time I have made a record which I wish to submit to you for consideration and if you think it has been the kind of work that should be given to the people, I ask you to vote for me for a second term.

If elected, I will do my dead level best to give you as good a service as anyone, and since I am serving my first term of office, I believe that I am entitled to the office again and that I can give you as good service and do the office work at as little expense as any other person whom you might elect.

I wish to thank you for the past favors and ask that you give me consideration as a candidate for county clerk and I will appreciate your re-electing me to the office I now hold.

Very truly yours,
ERNEST H. JONES.

CONGRESS HAS RECORD OF DO-LITTLE SESSION
(Continued from page one.)

ence, the democrats have been able to affect a compromise in the house bill which reduces below the Mellon rates the taxes to be paid by almost all classes. For this they deserve the thanks of the country. The delays in the legislation were necessary to force these reductions, but the bill will pass in ample time to give the people the reduction on their taxes for the present year. If the republicans had been willing to join the democrats in passing the resolution which the latter proposed, taxes for the year just past would have been reduced by 25 per cent.

Silence of Coolidge. Mr. Daugherty is gone. His going was accomplished by neither regrets nor flowers, from the White House or anywhere else. President Coolidge ceased himself, his administration and Mr. Daugherty down by asking the latter to step out because of his attitude in the small matter of allowing the investigating committee to examine papers from the department of justice. In this way the president side-stepped discussion of the grave and outrageous charges of mal-administration on the part of a great department of his own political household.

MIKE McTIGUE DEFENDS SELF AGAINST CRITICS

By HENRY L. FARRELL, United Press Sports Editor. NEW YORK, April 8.—"They say I am a terrible champion. They give me the ragz about ducking this fellow and that fellow. They yell that I got a title and ran away with it. But what they are saying now, in 10 or 15 years, they won't point to me and say, 'Ain't it a shame. He should have everything, and he ain't got a cent.'"

Mike McTigue, who was criticised as the worst of all the heavy-weight champions, gave these a few of his ideas about the boxing business.

"I remember, some time ago," Mike says, "when I was in the lobby of the Putnam building on Broadway, and I saw standing in the corner, an old-time fighter, who had been held up as the greatest boxer that ever lived. They said of him that he could stand on a dollar bill, that he could drop his hands at his sides and that no one could touch him."

"While he was standing there in a corner, some friends were going around, trying to touch his friends. They were trying to get some money to get him out of town and set him up where he would have a chance to get something to eat. I noticed, when the boys were going around with the piece of paper, that the fellows who had been shouting a few

minutes before about what a great fighter he was, were the first to slip out of the door.

"Well, I said to myself: 'Mike, you ought to be glad you're a lousy fighter. You wouldn't want to be the greatest boxer that ever lived and end up like that. You get out and be on the level, get the money where it is fair getting and, even if you get old and they still say that you are a lousy fighter, you will not see any cheer-leaders sneak out on you.'"

TWO AMERICAN WOMEN VISIT CAVE OF MINOTAUR

NEW YORK, April 8.—Recently two American women in search of adventure, set out from Athens on a small coasting steamer and headed for Crete. The object of their visit was to visit the Cave of the Minotaur famed in the legends of ancient Greece.

Miss Charlotte Lytle, who writes about her experiences in The Mentor for April, says that they found the natives invariably hospitable and always ready to give them food and assist them in any way. These two women traveled afoot over the island. Their baggage was carried by mule packs. In the neighborhood of Gortyn they climbed among the foothills to a cavern dug out of the side of the hill. Here they found the Labyrinth where legend claims that a Greek youth, named Theseus, slew the Minotaur, a monster, half man, half bull, who devoured every nine women seven youths and seven maidens sent as hostages from Athens.

MARKET OPINION ISSUED TO JESS TAYLOR & COMPANY

NEW ORLEANS, April 8.—H. & B. Beer wired Jess Taylor & Co. of Cisco as follows: Following last week's sharp advance, the market was reactionary, values declining as result of lower cables than due better weather in the interior and because of a plus correction in the New Orleans stock of 18-74 bales.

The recent big advance having been due mainly to unfavorable weather in the interior, it is only natural for the market to ease off with the return of better weather. If the weather remains favorable for a while, values may tend somewhat lower temporarily.

Less was heard of trade buying, the higher prices than one week ago having probably checked the demand, and spot sales in the South Saturday were much smaller than on Friday.

Secretary Heister's statement of fertilizers sold in cotton states during March and for eight months from August to March, both inclusive:

Eight months	2,261,974	2,037,512
During March	311,645	735,836

North Carolina data was not available.

It is reported that the Shelton bureau, Washington, estimates March consumption of that cotton in the United States at 47,000 bales, against 67,000 for February of this year and 62,500 for March of last year.

WORLD'S OLDEST MEDICAL BOOK BEING TRANSLATED

NEW YORK, April 8.—The Edwin Smith papyrus, the oldest medical book in the world, is in process of translation. This valuable document, now in the possession of the New York Historical society, lay for ages in the coffin of an Egyptian physician. It contains prescriptions and clinical reports and also quotes a still older book, "The Book of Surgery and External Medical."

Some of the prescriptions, says M. B. Leveck in The Mentor for April, are veterinary. Among the ingredients mentioned are the rose, the lotus, goose fat and some drugs used by pharmacists today, including magnesium and iron.

MARRIED MUTILATED HERO

BRUSSELS.—A war veteran who had lost both legs, his left forearm, three fingers of his right hand and was blind of both eyes, was wheeled to the altar at Ixelles by a school teacher from the devastated districts who fell in love with him when he was fighting for his country, then a mere boy of 20. He was mutilated in August, 1918, by the explosion of an airplane bomb. A large crowd attended the marriage ceremony.

New School Board Of Ranger District Will Organize Soon

There were few mutilated ballots cast in the school trustee election in Ranger Saturday. There was no violation of election laws at the high school precinct, at least none event to the judges, Charles Bobo, presiding judge at the high school precinct, said today. Not a single name was written in by the voters at either the Young school or high school precinct. Voters made their choice from the six names printed on the ballot.

The board will probably meet in a few days to organize. Speculation is rife as to who will be elected president of the new board which will include two new members, L. L. Neal and John M. Gholsion. M. H. Hagaman, present secretary of the board, who led Gholsion by two votes in the Saturday balloting, is slated to continue as secretary, it is said.

Hagaman has always served as secretary. Gholsion has served as president in the past. The new president will succeed V. V. Cooper, who was defeated for re-election. Neal has never served on the board.

BLUES LOSE FIRST HEAT IN LIONS CLUB CONTEST TO OPTIMISTIC REDS

H. G. Jones, captain of the Blues, says he will have a better score Thursday than last week. Bates answers this with a statement that he will have a 100 per cent attendance.

New Way to Banish Rheumatic Pains Discovered By Alessandro Volta

Rids You of Rheumatic Pain Without Drugs or Medicine.

Until recently, the real cause of rheumatism has evaded scientific inquiry. And, naturally, the old-fashioned methods of treatment with internal remedies were uncertain and sometimes dangerous.

Now it has been definitely established that rheumatic pains are caused in many cases by absorption of poisons into the blood.

Alessandro Volta, the well-known physicist, or whom the electric volt was named, has produced an entirely new and revolutionary method of treatment for Rheumatism. He discovered a scientific combination of certain ingredients that produces a fine powder which, when shaken into the shoes or stockings is intended to be immediately absorbed into the blood. This is due, no doubt, to the fact that the soles of the feet contain 10 times as many pores to the square inch as are found in other parts of the body.

He has called this powder Volta. Its use has given immediate relief, in many instances, from the terrible crippling, torturing pain even in chronic, long-standing cases.

The use of Volta powder has demonstrated such astonishing results in literally thousands of cases, of which were considered hopeless, that the American distributors have authorized local druggists to dispense Volta o rheumatic sufferers in their city with an unqualified guarantee to return the full purchase price of the first box in any rare case where the rheumatic pain are not wonderfully relieved.

All who suffer from rheumatic pains, no matter how long-standing their case may be should take immediate advantage of this liberal offer. You can get Volta from: Hartman's Drug Store, Crawford's Pharmacy, Texas Drug Co.—Advertisement.

GOING OUT TONIGHT

You can usually tell when a girl or boy is looking forward to an evening of real fun, or whether they feel that they have simply been invited to fill in, as they get ready to go to a party or dance.

The ones who have nothing to worry them about the way they look are so much more noticeable by the shrinking and backwardness of the ones who are afraid to mingle in the fun because they know how unattractive they must look on account of their pimply, blotchy or rough, eczema skin.

Their one friend is the wonderful Black and White Ointment, if they will just use it faithfully, because it will get rid of all those ugly bumps and make their skin soft, smooth and lovely. It is economically priced in liberal packages. The 50c size contains three times as much as the 25c size. All dealers have it.—Advertisement.
