## PEG-LEGGED COWHAND DEFIES BIG POSSE

### C. L. GARRETT RESIGNS CITY MANAGERSHIP

Eastland City Commission Appoint J. H. Cheatham to Succeed at Slightly Lower Pay.

The Eastland city commission meeting last night, the first meeting of the board since the newly elected commissioners took the oath of office, accepted the resignation of City Manager C. L. Garrett, which had been on file with the board for some time.

J. H. Cheatham was appointed city manager of Eastland, his salary to be \$200 a month. Garrett has been receiving \$250. No other change was made in the staff of city employees.

The organization of the board stands as heretofore with the exception that Commissioner Sherrill was made treasurer, succeeding R. L. Perkins, whose term as commissioner expired with the recent election when his successor was elected.

Quite a number of people who owe the city taxes applied to the board to be permitted to pay them on the installment plan. No action was taken on this, however, except to refer the parties to the attorneys who are handling the delinquent taxes.

Another meeting of the board will be held within a short time, it is understood.

### RAILWAY DINING CAR PATRONS GET SERVICE

CHICAGO, April 23.—A cow which could drink from the Gulf of Mexico and switch icicles from the north pole could be made from the amount of beef used annually on the sixty railroads of the country that maintain dining car service. Or, to say it with figures, as does the bureau of railway economics, 8,000,000 pounds of beef are used yearly to feed United States dining car patrons.

Going still further, the bureau says that 2,000,000 pounds of ham, 1,750,000 pounds of lamb chops and 4,500,000 pounds of other meats are eaten on the dining cars. The meat bill would amount to \$7,000,000 and then wouldn't include 4,500,000 pounds of fish.

Then, to call on that cow again, she would have to give 6,000,000 quarts of milk in a year to fill the demand for the raw product and enough more to supply material for the 2,500,000 pounds of butter used. And up to now, she has been asked for no contributions to make the 300,000 quarts of ice cream.

The bureau of economics also brought out the fact that 2,500,000 loaves of bread and 60,000,000 rolls are used in the service. The wheat needed could be grown on 150,000 acres of land. The potato bill has also been footed, to show that 16,000,000 pounds, or the average yield of 6,000 acres, are consumed. Over 2,000,000 pounds of coffee and 500,000 pounds of tea are used annually, also 900,000 pounds of sugar and the fruit bill for dining cars in 12 months is \$1,500,000. The bureau states it would keep a flock of 165,000 hens busy for a whole year to supply the 25,000,000 eggs needed to satisfy traveling appetites.

The bureau states that the dining cars aren't a paying proposition which will be a surprise to dining car eaters. The dining cars cost \$50,000 each and there is a yearly running cost of \$3,000. The laundry bill for every person patronizing the car is 4 cents; the crew costs 40 cents for every person and there is 5 cents for fuel and ice for each.

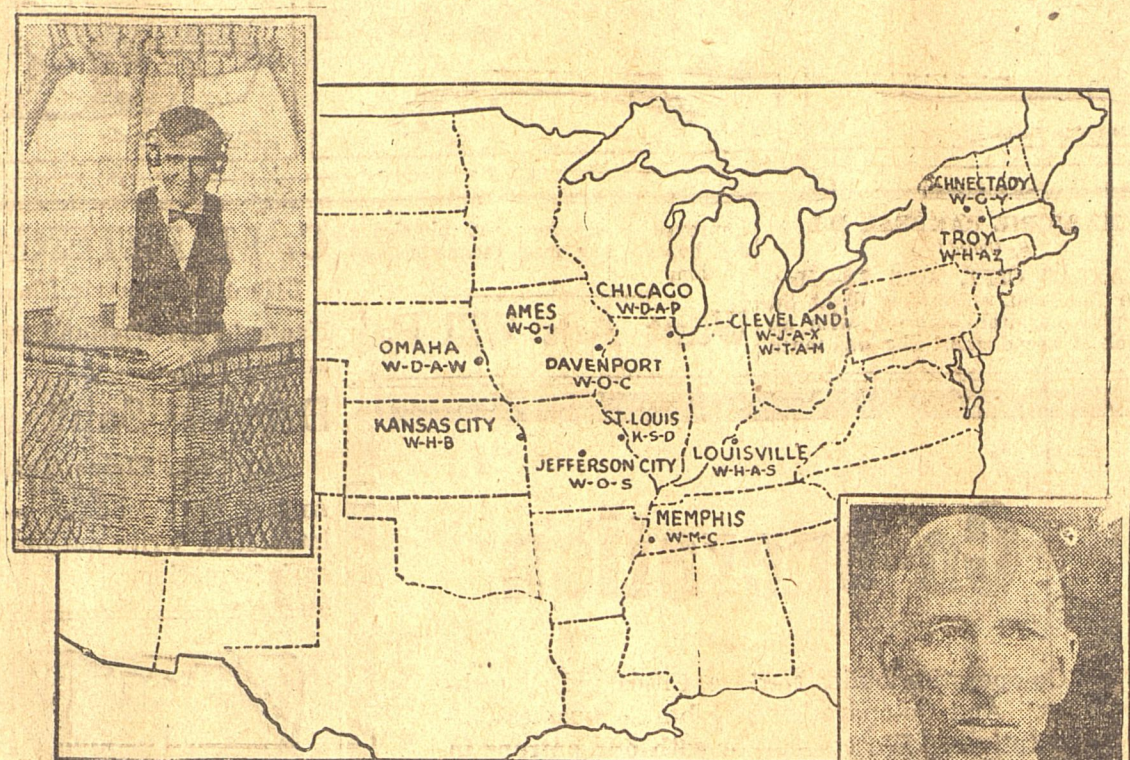

**LIGHTNING IS WORTH A DOLLAR A BOLT**

Electrical experts have been able to determine the market value of a first class bolt of lightning.

The prodigious power of a brilliant flash of lightning is actually worth about one dollar. Recently scientific calculations estimate the voltage of a lightning bolt at about 50 million and there is assumed to be an ampere of 1,000. These give a total of 50 million kilowatts. But the lightning flash lasts for less than one one-hundredth of one second. On this basis the total amount of electrical energy developed would be about 10 kilowatt hours or approximately one dollar's worth, if the rate were as low as 10 cents.

The five largest electric signs on Broadway in New York city use 36,000 incandescent lamps or more than were in use in the entire United States in 1881, two years after Edison brought out his incandescent lamp. These signs, however, only consume 890 kilowatts of electricity or one-quarter of that required for all the lamps of 1881 and they are estimated to give as much light.

### Probable Route Of National Balloon Race Which Starts From San Antonio, Texas, Today

Ward T. Van Orman, pilot of the Goodyear III, is shown in the upper left hand corner. E. H. Emery, veteran Cleveland weather expert, appears in the lower right hand corner. The balloon is equipped to receive wireless messages, and will obtain weather reports from all parts of the country to aid the pilot. Other balloons also provided with radio outfits and will share in the use of the weather reports.

### SEVEN RACING BALLOONS IN BIG NATIONAL BALLOON RACE

AKRON, Ohio, April 23.—Ward T. Van Orman, veteran pilot and C. K. Wollam, his aide, who will navigate the "Goodyear III", one of seven racing balloons in the National Balloon race starting from San Antonio, Texas, today, will be taking in on more than a dozen broadcasting stations along their line of flight during their probable three or four days in the air.

Their quest will not be the adventure of Little Willie Weasel, or the high notes of radio sopranos, jazz bands or lectures.

The balloons which may be anywhere in the air from 5,000 to 25,000 feet up will want to know about the weather.

For radio broadcasting of weather reports and forecasts on a large scale from the principal stations along the probable routes of travel will play an important part in the national race for the first time in the history of ballooning.

To Watch the Weather. On the assumption that prevailing winds are usually from the south-west, indicating a course in a general way toward the Great Lakes, the Goodyear Radio club of Akron, has completed arrangements with 12 leading stations along the route to supply information almost hourly as to weather conditions along the course.

Local weather bureaus in each city will co-operate with the broadcasting stations.

The weather forecasts will consist of advice regarding low pressure or storm areas, high pressure fair weather spots, signs of shifting, wind speeds and directions.

E. H. Emery, veteran government weather observer at Cleveland, who has long been a student of meteorological conditions with reference to aerial navigation, aided the Radio club men in plans for charting the weather along the course.

"The receipt of full weather information by radio will be of incalculable value to the balloonists," says Emery.

Stations which have agreed to co-operate in this experimental undertaking which will be of really tremendous importance to both radio and aerial navigation, according to well known authorities, are: WMC, Memphis; WOAW, Omaha; KSD, St. Louis; WDAP, Chicago; WHAZ, Troy; WOC, Davenport; WJAX and WATM, Cleveland; WHAS, Louisville; WBB, Kansas City; WOS, Jefferson City, Mo.; YOL, Ames, Iowa; and WGY, Schenectady.

Listeners-in for these stations will be asked to scan the skies during the race and report any of the seven balloons sighted. They will be requested to note color, marking, time sighted and approximate location and notify the nearest newspapers and stations which will in turn relay the information to the balloonists.

Owners of receiving sets in the wave length of any of the stations listed will be able to follow the race accurately by marking the balloon locations on the map as reported.

The "Goodyear III" will carry a specially constructed radio receiving set which has tested 3,000 miles. Pilot Van Orman expects to be able to keep in touch with all the stations

with whom arrangements for broadcasting have been made. Static may prevent picking up some of the more distant stations at first but there will be no obstacle to getting through to stations immediately ahead.

Weather maps will be plotted twice daily by the balloonists from the reports given out at 8 a. m. and 8 p. m. From three to four hours sleep a night will be all the two members of the crew can risk. Sleeping hours will be between 11 p. m. and 5 a. m., one man sleeping while the other stands guard. From 5 o'clock in the morning till 11 at night both will be alert, taking advantage of every favorable wind to make distance.

**Broken Records Expected.** Pilots in this year's national race have an excellent chance to break all existing distance records for balloon racing. The location of the start at San Antonio will permit to travel into Canada on the north and as far east as Maine. It is predicted that more than one balloon will break records this year.

Meteorologists are agreed that few dangerous areas will be encountered. Never before has everything seemed so notably propitious for a successful flight.

"Of great advantage too will be the reports of balloon landings. In former events pilots once they left the ground had no means of knowing how they were standing in the race in relation to the other contestants. It will be a real stimulus to the best possible performance to know how the others are coming along."

The balloonists will acknowledge receipt of the messages by means of telegrams thrown over the side. Listeners-in are asked to look out for these telegrams and forward them to the nearest daily newspaper.

By means of a special device it will be possible for the balloonists to communicate with receiving sets within a radius of one mile. This will be done in case of emergency only.

### "We'll Face the Music," Says Girl Bandit, Defiant

NEW YORK, April 23.—Celia Cooney, Yorklyn bob haired bandit, pleaded guilty to robbery in the first degree today, when arraigned in court. Her husband, Edward Cooney, who accompanied the girl robber in all of her exploits, entered the same plea.

They will be sentenced Monday. Both face prison terms of from 10 to 20 years. The bob-haired bandit held her head high as she looked Judge Martin squarely in the eye.

"We'll face the music," she said still defiant but with a sadness in her eyes reminiscent of the loss of the baby for which she said she "went wrong." The child died at birth before she was captured.

The Cooneys are just an average looking couple from the Brooklyn streets. They took trips to Coney Island and enjoyed the pleasure of dance halls and ward socials.

### WHITE SLAVERY AND BIGAMY GET SOMEWHAT TANGLED IN THIS CASE

DALLAS, April 23.—Paul C. Greene, a Dallas attorney, was cited for contempt of the federal court today in connection with a Mann white slave act indictment involving a client, Sylvan Chemene.

Green, it is charged, caused Chemene to marry Grace Brown this morning, after his client had been indicted by the grand jury on a charge of illegally transporting her to Dallas from Kansas City.

According to the federal district attorney, Chemene had been warned against marrying Miss Brown, it being alleged he has a wife in Houston whose petition for divorce from him was being heard there today.

### TRYING TO TEACH PUBLIC TO DESIRE BETTER PICTURES

AUSTIN, April 23.—Mrs. J. C. Moore, acting head of the visual instruction division of the University of Texas, who has been appointed chairman of the better film committee in the seventh district of the Parent-Teacher association, is supervising the efforts of the association in co-operating with theatre managers and heads of the public schools in creating a public demand for better pictures.

It is Mrs. Moore's opinion that good pictures cannot be forced upon the public simply through a process of censorship, but through co-operative measures with producers and theatre managers to educate the public to a demand for better films.

### British Urging Yet Further Limitation Of War Armaments

LONDON, April 23.—President Coolidge's suggestion for a new conference on limitation of armament, and his endorsement of the Dawes report as a basis for the settlement of the reparations problem were receiving approval by the British public.

In view of the labor party platform which urges limitation of air, submarine and land forces, and Premier MacDonald's insistence that such limitation is vital to the preservation of world peace, it is considered a foregone conclusion that Great Britain, as was the case at the Washington peace conference, will be the first nation to express official approval of Mr. Coolidge's suggestion.

### TENNESSEE PUBLISHER DROPS DEAD AFTER SPEECH

MAXWELL, Tenn., April 23.—George Forté Milton, editor and publisher of the Chattanooga News and manager in Tennessee for William Gibbs McAdoo's candidacy for president, dropped dead early today at Murfreesboro in the hotel lobby. He had just finished an address to the Rotary club. Milton was formerly publisher of the Maxwell Sentinel.

### NEW MEMBERS ENROLLING.

Central Baptist church was filled last night to the limit of the seating capacity, and many standing. There have been 15 additions since Sunday making 52 in all since the revival service started. Daily services are largely attended by both men and women.

### REPUBLICANS YET LISTEN TO CALL OF GOLD

In Pennsylvania Turn Down Their Governor in Favor of Millionaire as Delegate.

HARRISBURG, Pa., April 23.—Governor Pinchot and his issue of liquor law enforcement were snowed under in the Pennsylvania primaries. Pinchot was defeated for a place on the list of seven republican delegates at large by Ralph Beaver Strassburger, millionaire owner of the Norristown Herald, who, two days before the election, received the full support of the republican organizations in Philadelphia, Allegheny and other large counties.

President Calvin Coolidge is assured of the solid delegation of 79 votes from the Keystone state at the Cleveland convention. For the first time in the memory of the oldest elector, Pennsylvania has failed to send its governor to the national convention of the party whose politics he embraced.

### Oil Belt Ford Dealers Organize Into Association

Oil Belt Ford Dealers' association was formed last night at the Gholson hotel, Ranger, at a meeting of representatives of 13 Ford Motor company sales and service agencies.

The new organization has for its chief purpose the rapid promotion of sales and better service to the car owner. The association will meet here again on Tuesday, May 6. Thereafter the members will gather together once a month in the home towns of the various members.

The feeling was voiced by several speakers at the banquet last night that this is the age of co-operation and that this spirit could be applied to Ford sales and service in the oil belt to the mutual benefit of both the car buyer and sales agency.

Agencies in the following communities will be represented in the membership of the new association and were represented here last night: Breckenridge, Cisco, Eastland, Gordon, Strawn, Desdemona, Mineral Wells, Albany, Graham, Ellisville, Rising Star and Cross Plains.

### MORE WITNESSES ARE SUMMONED IN S. M. U. SCANDAL PARTY PROBE

DALLAS, April 23.—Fourteen additional witnesses were summoned today in the grand jury investigation of "The Dinky" and Southern Methodist university students' famous "wilderness party." A fresh batch of subpoenas were issued shortly before noon today, following the testimony of several students alleged to have contributed to the campus "scandal sheet," and to have participated in the gay bacchanal at Savage lake.

The mother of a "hound dog" alleged to have figured in a wilderness aftermath of the gay party was among those summoned. One of the girls is said to have left town to avoid testifying. She is said to have promised the federal prosecutor that she would tell the grand jury shocking details of an asserted drunken party in an automobile ride after the lake party, in which she was mistreated by students and forced to walk home.

### PAT MARRS GUILTY, SAYS JURY AFTER LONG FEDERAL COURT TRIAL

TEXARKANA, April 23.—Pat Marrs, Eldorado's oil promoter, was found guilty by a jury in the federal court today of mail frauds. The verdict came after 16 hours deliberation.

W. L. Ernest, George White, W. F. Eakins and Hy Garland, co-defendants and associates of Marrs in oil promotion, were acquitted.

Sentence of Marrs will probably be pronounced tomorrow. His conviction climaxed a long trial during which about 50 alleged "suckers" who had invested in the promoter's stock projects were heard. The government presented voluminous testimony tending to show that Marrs had collected hundreds of thousands of dollars by mail order sales through misrepresenting values.

### Dirigible, Alarmed By Storm In Texas, Flies Back Home

BELLEVIDE, Ill., April 23.—The army dirigible, TC-3, returned to the Scott flying field today at 7 a. m. The flyers ran into a severe electrical storm in North Texas, after leaving Muskogee late yesterday, and flew home instead of continuing the journey to San Antonio. The flight to San Antonio may be made later, it was said.

### WIFE SLAYERS SAY STOMACHS SEEK REVENGE

Claim Their Crimes Due to Late and Poor Breakfasts Served to Them.

CHICAGO, April 23.—James DeJoy, 27, who confessed to killing his wife, leaped from a window on the third floor of the detectives' bureau early today, landing headfirst on the cement paving. His skull was crushed and he died on the way to the hospital. He was being posed for a photograph, when he broke away from the officer holding him and dived headlong out of the window, taking a part of the casement with him.

Dr. Joy and Fred Potenza, both confessed wife slayers, admitted to the police that displeasure over the breakfasts served to them played a large part in both murders. After an all-night examination, DeJoy blurted out to Capt. William Schoemaker, "Yes, she wouldn't get up in the morning and cook my breakfast and so I cut her throat." He added that the breakfasts were poor when he got them and there was much bickering between his wife and himself.

Potenza, who shot his wife yesterday in the street near where they lived, and almost shot and killed his sister-in-law, told the police that the poor breakfasts he got was one of the chief reasons for his act.

### Score Killed In Collision Of Two Switzerland Trains

GENEVA, Switzerland, April 23.—Twenty-five persons are dead as a result of a railway wreck near Bellinzona, east of the canton of Ticino, according to word received here today. Two trains running at high speed crashed into each other in the darkness and many of the passenger cars were smashed completely. The dead included the engineers of both trains. Many passengers were injured.

BASLE, Switzerland, April 23.—At least 17 are dead as a result of the disastrous railway wreck near Bellinzona last night. Reports received here say that two cars of one train caught fire when tanks of gas used to illuminate the train exploded and many of those pinned beneath the wreckage were burned to death.

Four Americans are reported among the passengers, most of whom were Italians and Germans. One car containing passengers for Berlin was completely wrecked, and only one person in it escaped.

### LIVELY CONTEST IS ON TO ELECT PRESIDENT OF WEST TEXAS CHAMBER

BROWNWOOD, April 23.—A lively contest is on for the election of a president of the West Texas Chamber of Commerce to succeed A. B. Spencer of Crosbyton.

So far three men are in the race, R. Q. Lee of Cisco, W. R. Rix of Big Spring, and C. C. Walsh of San Angelo.

The election of the next president and selection of the next convention city comes on May 15, the last day of the convention.

### BANKERS TESTIFY IN TRIAL OF INDIANA'S GOVERNOR

INDIANAPOLIS, April 23.—Methods used by Governor Warren T. McCray in discounting cattle paper with Indiana bankers were told today in federal court in the trial of McCray on an indictment charging him with fraudulent use of the mails.

Another long list of bank president projects were heard. The government presented voluminous testimony tending to show that McCray had collected hundreds of thousands of dollars by mail order sales through misrepresenting values.

### THREE HUNDRED MEN ARE HELD AT BAY BY ONE

Two Shot by Entrenched Man, Alleged Slayer of West Texas Ranchman.

TAKOHA, Texas, April 23.—Two members of a sheriff's posse were shot and wounded by Will Ward, peg-legged cowhand, when they sought to capture him in the woods between Takoha and Brownfield today on a charge of murdering Dr. S. H. Windham, wealthy ranchman of Brownfield.

Ward had entrenched himself in a large concrete vat in a cow pasture and has successfully resisted the efforts of a posse of 300 men to get him. Driven to cover by the posse which had been pursuing him since the shooting of Dr. Windham last Monday, Ward, carrying a large quantity of ammunition, two revolvers and a rifle, had a dugout fortress of the cattle vat and defied his pursuers to take him.

Two members of the posse, according to word reaching here, were shot down when they tried to enter the narrow entrance to the vat.

### Mrs. Wheat Sues Railroad, Asking \$100,000 Damages

Damages for \$100,000 are sought by Mrs. Aquilla Wheat, and her three minor children of Ranger for the death of her husband Joe Wheat, in a suit filed today in the Ninety-first district court in Eastland.

Wheat, an oil driller, was killed Jan. 30, of this year by a fast passenger train of the Texas & Pacific railroad at a crossing two and one-half miles west of Cisco while returning to his Ranger home.

Wheat, 27 years of age, was driving his car with his curtains up. Before the big locomotive struck his auto he jumped from his seat only to strike the engine and be hurled with great force against the ground. He died almost instantly, it was said by eye-witnesses.

The three minor children of Mrs. Wheat were 8 and 6 years and six months old at the time of their father's death.

### WAR VETERANS WILL BE TAXED TO PAY THEIR SCANDAL PARTY PROBE

WASHINGTON, April 23.—War veterans will have to pay their bonus in taxes, Senator Oscar Underwood, democratic candidate for president, declared in the senate today in an attack on the insurance policy bill. "As the cost will be on corporations, farming, and gainful occupations, the entire scheme will work against the ex-soldiers," he said. "This bonus bill adds only another burden on an over-taxed people and the soldiers will have to pay it."

### TRAIN PASSENGERS OUT OF CALIFORNIA ALSO WILL BE FUMIGATED

PHOENIX, Ariz., April 23.—Arizona authorities speeded up today on plans for fumigation stations at points where railroads enter this state. Beginning Monday all persons who purchase tickets for Arizona points will be fumigated at Yuma, Kingman and Wickenburg where the Southern Pacific and Santa Fe railroads cross the interstate bridges. Through passengers must not dismount at any point in the state, the governor ordered.

### AIRPLANE CRASHES 200 FEET TO EARTH AND TWO HURT.

MOUNDSVILLE, W. Va., April 23.—Amos Elbro, aviator, and Raymond Lemasters, passenger, were seriously hurt today when an airplane, piloted by Elbro, crashed to the earth 200 feet.

They were en route from Bowling Field, Washington, D. C., to Dayton, Ohio.

### NEW ARMAMENT PARLEY HOPED FOR BY COOLIDGE.

WASHINGTON, April 23.—President Coolidge and Secretary of State Hughes believe there is real hope in holding within the near future a new international conference to extend world disarmament when the international situation may be such for a parley to be practicable. Washington was regarded as the likely place for such a conference. Speculation when the conference may be held ranged from next autumn until the spring of 1925.

# Georges Carpentier, French Boxer, "Draws the Women," and So He Is A Most Sought-After Ring Fighter

NEW YORK, April 23.—Fortune always has been very kind to Georges Carpentier. The Frenchman has had more good breaks and less bad ones than any other boxer in the game. After having been stopped by Jack Dempsey and knocked out by the alarm Siki, Carpentier finds himself a most sought-after boxer instead of a wasted hero.

Promoters are fighting for Carpentier's contract and all of a sudden he again becomes the most talked-of boxer in the country. Carpentier still has color and glamor to him and he is still a great drawing card. Recently a smart and experienced promoter was asked to explain what

there was about Carpentier, who is only an ordinary fighter, that makes him such a card, and he replied: "He draws the women." Carpentier, it is almost certain, is coming out of retirement for the primary purpose of making money. He cannot be seeking more glory, as nothing he can do now will erase the defeats by Dempsey and Siki from his record, and he can't hope to defeat any of the American boxers whose name could restore any of his old prestige.

The Frenchman very obviously figures that he can beat Gene Tunney, the American light heavyweight champion, because he wanted to fight Tunney before he meets Tom Gibbons. Carpentier knows that he can't beat Gibbons and he wanted "big shots" here this summer to close his career.

Tunney knows that he is figured as being easy by Carpentier and he does not try to deny it.

"When Carpentier was in this country," Tunney says, "he saw me box real Sampson, and I'll agree that it was a terrible thing. It was the worst fight I ever put up. Carpentier got up about the sixth round, gave me a nasty look and walked out. He became convinced then, I suppose, that he could beat me."

Tunney was the one who blocked the deal when Floyd Fitzsimmons, Chicago promoter, offered Billy Gibson \$20,000 for the contract. The Frenchman had signed with him. Tunney refused to give up the bout and his reasons show how lucky Carpentier had been compared to some of the other fighters.

"I'm the light heavyweight champion, whatever that means, and I have not had a chance to get a thing out of it," Tunney says. "I have had only two 'shots' since I got the title and I worked both times for 12-1-2 per cent. A lot of ordinary fighters get more than that. I want to fight Carpentier because he'll draw a house and I'll get some real money for my end. If I don't get Carpentier before Gibbons does, I'll never get him. I'm smart enough to know that Carpentier will not be a card when Gibbons gets through with him."

"If Gibbons beat Carpentier and I wanted a match with Gibbons, I'd have to take his terms and it would not be more than another 12-1-2 per cent. If I beat Carpentier, I could fight Gibbons on my terms, and I think I would be entitled to it."

Eggs are very plentiful and very cheap, but hotel and restaurant men evidently refuse to read the newspapers.

## TRIPLE PLAY MADE IN BRECK-THURBER GAME

In a game at Breckenridge Monday, the Thurber team defeated the Dynamos by a score of 5 to 2, in the most interesting exhibition game played between these two teams this season. Hudspeth walked three men in the first inning, one of these passes netting a run, and Ruth drove in a run by hitting the ball for two bases. After the first inning Breckenridge failed to score.

Nothing exciting happened until the fifth when Thurber evened the score. Thurber again garnered two runs in the sixth and another in the seventh. The Thurberites obtained nine hits, Vick allowing eight and Middleton, who pitched two innings, allowing one. Hudspeth, besides getting four hits himself, pitched excellent ball, allowing the Dynamos but three hits. The real feature of the game happened in the eighth inning when it looked as though the Dynamos would rally. Breckenridge at bat. O'Keefe and Ruth both walked. McArdle knocked a low liner to Dalmasso at first who touched first and shot the ball to Curran at second for a perfectly executed triple play. Batteries—Thurber, Hudspeth and White; Breckenridge, Vick, Middleton and Schmidt.

Score by innings—  
Thurber . . . 000 022 100—5 9 2  
Breck . . . 200 030 000—2 3 3

### N. C. WILLIAMS DIES.

CISCO, April 23.—N. C. Williams, 78, died here Tuesday morning. He had lived in Cisco since 1901. He is survived by four daughters, Mrs. G. C. Snively of Cisco, Mrs. Josie Harper of Miami, Arizona; Mrs. Bertha Hatcher, Sapulpa, Okla., and Mrs. Ora Gamble of Dallas, and by one son, B. C. Williams of Phoenix, Arizona.

Such popularity must be deserved

POPULARITY isn't luck. How well the big stars of baseball know this. And in merchandising as in baseball, big success is scored only by deserving it. A product, too, must "deliver the goods."

Everywhere men are turning by thousands from other cigarettes to Chesterfield. For a reason! Chesterfield has given smokers convincing proof of finer quality—for here's the quality you can taste!

**THURSDAY EVENTS.**  
Thursday Bridge club meets at 2:30 with Mrs. C. C. Craig.

**DELPHIAN SOCIETY POSTPONES MEETING.**  
The meeting of the Delphian society which usually comes on the fourth Thursday will be postponed, on account of continued church services, until the next regular meeting the second Thursday in May.

**RANGER P.-T. A. CLUBS WILL RAISE MONEY FOR FUNDS.**  
In order to raise more money for the endowment fund of the Texas Congress of Mothers, the Parent-Teacher associations of Ranger will have a bake sale at the Phillips Drug store. Donations are asked for and a liberal patronage in order that the fund may be completed.

**PERSONALS.**  
Miss Bessie Payne Inion, who underwent an operation for appendicitis at the Clinical hospital about 10 days ago, was able to be taken to her home at 1203 Spring road Tuesday afternoon.

Fred Luke returned to Weatherford Tuesday after spending the week-end with his mother, Mrs. Bess Luke.

Mrs. Karl E. Jones and children returned this morning from a visit of several days in Fort Worth.

D. O. Marshall and Charlie Mead drove to Fort Worth on Tuesday expecting to remain until Friday.

Mrs. A. E. Firmin went to Fort Worth on Tuesday for a visit of several days expecting to return the last of the week.

**AN HONEST JURYMAN.**  
"Look here," said a young jurymen after the jury had retired, "if I understand aright, the plaintiff doesn't ask damages for blighted affections or anything of that sort, but only wants his presents back."  
"That is so," agreed the foreman.  
"Well, then, I vote we don't give him a cent," said the young jurymen hastily. "If all the fun he had with that girl didn't cover the amount the presents cost him, it was his own fault. Gentlemen, I courted that girl once myself."—Mystic Worker.

## HERBERT TANNER DIES FOLLOWING LONG ILLNESS

Son of Dr. and Mrs. H. F. Tanner Is Buried Today in Eastland.

Herbert Tanner, 13-year-old son of Mr. and Mrs. H. F. Tanner of this city, died yesterday afternoon at 3:30 o'clock at the Harris sanitarium in Fort Worth where he had been taken about a week ago for an operation. The body was brought to Eastland last night and the funeral was held at the Presbyterian church this afternoon at 2:30, conducted by Rev. W. C. Kunze. Interment was in the Eastland cemetery. The Boy Scout troop, of which Herbert was a member, acted as pall bearers.

Herbert had been suffering for two years with an ailment that was recently found to be a tumor on the base of the brain. His eyesight had been failing and his condition gradually growing worse. About a week ago he was taken to the Fort Worth sanitarium where preparations were made for an operation to remove the growth from the brain, but his physical condition was such that the physicians advised against the operation, with the exception that two holes were drilled in the skull and the water extracted from the tumor.

Herbert bore his long illness heroically and kept smiling in face of his suffering. He was very popular with the younger set in Eastland as well as with all others who knew him, and will be greatly missed.

### ON THE WRONG SIDE.

Young Jack was talking to the new visitor soon after her arrival. He eyed her critically for a few moments, then looked up and said:

"You're my grandmother, are you?"  
"Yes, dear. On your father's side," remarked the old lady smiling.

"Well, you're on the wrong side; you'll find that out," replied Jack.—Practical Druggist.

## Women May Have Choice Of Several Kinds Of "Bobs"

There is that old-fashioned-looking kind of bob which, for all its newness, is familiar. You survey it curiously, particularly if it appears at dinner on a head which at breakfast wore slick coils. The bangs—the close, flat contour, just waving softly above ears which were modestly covered not so long ago—that boyish flatness at the back—"where," you ask yourself, "have I seen that head before?" Well, if you must know, in the family album of 1880 or thereabouts, tight basques, long sleeves, tie-backs and all. Only then women mostly wore French twists, with the hair tucked under. If you look at a picture of Irene Bordoni in "Little Miss Bluebeard," you'll see the type. This is very quaint, and in most cases very charming, and it's the kind of bob which has made a creature of distinction out of many an ugly duckling. For the quick, sparkling, boyish type, this shingle bob is lovely indeed, and just now it's very good. Even for mature women it has proved successful, but it takes a great deal of grooming; and your head must be very well shaped, for the reason that there is nothing in this fashion to disguise it. There is no man's place of a corrective accent here or there, nor developing a curve where nature has made a plane. If your head is beautifully sculptured, the shingle will bring it out to perfection. In any case it is very young—and that is not to be despised.

For elongated ovals—those faces which nature has made long and mournful, or thin and gipsy-like—the right bob is a wonderful thing! And the right bob is likely to be the fluffy, even flapperish kind, with width across the ears, and curls to soften any sharpness of contour and severity of chin. And as for a high forehead—well, if you have one, dispose your long hair as you like, but cover it when you bob, for nobody, nobody should look "high-brow." It isn't done. It may be that you are one of those women whose hair grows beautifully round her face in enchanting curves and scallops and such interesting natural devices as widow's peaks. It may be that your curls are of the sort that take heart in a sea-breeze and positively flourish in a rain, while other less fortunate locks have immediately lapsed into shoe-strings. In either case you are to be congratulated—you probably

couldn't make it look ugly by any fashion of bob.

Meanwhile selection is advisable for most of us, and curling-tongs, brilliantine and hair-wavers will continue to be the order of the day.—From the Designer Magazine for April.

### COOKING HINTS

When slicing raw potatoes, hold the paring-knife in boiling water or over a gas flame for a moment before slicing each potato; they can be sliced much thinner and with more ease.

Never beat egg-whites in an aluminum pan because it is sure to darken them; use porcelain.

When making cup-cakes or drop-cookies, dip the spoon in milk; the batter will drop off and will not stick to the spoon.

When making pancakes, grease pan for first time. After that use a raw potato cut in half. No smoke occurs, and they are nicely browned.

When cutting a large onion and planning to use only a part of it, cut it so the root will be left; this will prevent it from drying up.

Before scraping new potatoes let them stand in hot water for half a minute. They can be scraped much more easily.

### EASTLAND LIONS AND ROTARIANS TO PLAY BALL

At the regular weekly luncheon of the Eastland Rotary club a challenge was made to the Lions club for a baseball game to be played by teams picked from the membership of the two organizations. The Lions, at their weekly luncheon Tuesday, accepted the challenge sent by the Rotarians and a ball game between the two teams is assured for the near future.

Judge N. N. Rosenquest was elected as a delegate to the international meeting of the Lions which is to be held in Omaha, Neb., in June. Another delegate is to be elected next week.

The Lions will meet Friday, May 1, in honor of a visit of District Governor Perry. There will be no meeting next Tuesday.

### STEALING BRASS MUST STOP, CHIEF SAYS

Boys in Eastland have been stealing brass and other metal and selling it to junk dealers, according to Chief of Police J. R. Gilbreath. Last night

the chief caught a boy who is about 15 or 16 years of age with a lot of brass that he had taken. "This practice must stop or some of the boys are going to get into serious trouble," Gilbreath said.

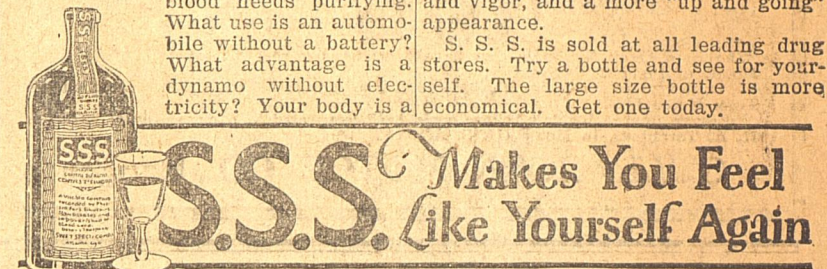

## Appetite Gone?

A tempting, delicious looking meal supply the energy which keeps your body well and fit. Weakened blood cells make you like the storage battery with dry cells—power is lacking—energy gone—productive qualities at the lowest ebb. S. S. S. supplies the red blood cells—the spark that recharges your system.

Mr. James Chaloupka, Sherman School, Chillicothe, Ohio, writes: "I feel like a new man after taking S. S. S. It gave me a better appetite and cleared my skin of pimples and blackheads."

Carefully selected, scientifically proportioned and prepared herbs and barks make up S. S. S.—the great blood purifier. Give nature a helping hand. Get back the lost appetite—the missing vitality—the keen, sparkling eyes—that look of determination. The best way to start back over the road to well being is with S. S. S. Nerves will become stronger. S. S. S. will give you more energy, vitality and vigor, and a more "up and going" appearance.

What use is an automobile without a battery? What advantage is a dynamo without electricity? Your body is a
