## GHOSTS MUSTA TAKEN ALCOHOL FROM HOSPITAL

### Barrel Disappears From Behind Locked Doors and Vanishes From Sixth Floor.

A whole barrel of drinking alcohol disappeared some time last night or early this morning from the Clinical hospital on the sixth floor of the Guaranty bank building. How the barrel, containing some seven or eight gallons, and comprising the whole of the hospital's alcohol supply, passed through the locked door of the storeroom and down the six flights of stairs to the street, is the mystery that the police were called in this morning to solve.

Hospital authorities state that the alcohol was in the storeroom late yesterday afternoon, and was not missed until this morning and they are unable to offer any theory on the manner of its departure.

## NEW SHALLOW POOL IS FOUND NORTH OF LAKE

Special to the Times.

EASTLAND, March 24.—A new oil sand has been picked up by Root, Rhodes and Sikes on the H. L. Gibson tract north of Lake Eastland. There was a good showing of oil with considerable gas pressure struck at 1,675 and after testing it out it was decided to set new casing, drill a little deeper into the sand and hold the well at that depth rather than to drill deeper. The depth at which most of the wells have been producing around the lake is 3,200 feet and while there has been a showing of gas at around 1,700 feet there has not yet been a producing well at that depth.

A. L. Agate, office manager for Root, Rhodes and Sikes, states that the well seems good for seventy-five barrels per day and that they thought best to keep the well and test out the new sand rather than go deeper.

This well is about 1,000 feet north of the Brelsford No. 3 of Colonel Gordon.

## RICKARD WILL PROVE ALIBI, JURY IS TOLD

By Associated Press.

NEW YORK, March 24.—Opening the defense in the trial of Tex Rickard, charged with criminally assaulting 15-year-old Sara Shoefeld, counsel for the sport promoter told the jury that the defense would establish a perfect alibi for the night of Nov. 12, 1921, the date of the alleged crime.

## SIXTY-FIVE CERTAIN TO VOTE TREATY PASSAGE

By United Press.

WASHINGTON, March 24.—The senate will ratify the four-power Pacific treaty today unless a sudden and wholly unexpected shift occurs.

The lineup shows sixty-five for the treaty at the lowest estimate and twenty-eight against. Three probably will not vote. Of the sixty-five for the treaty, eleven are Democrats and fifty-four are Republicans. Of the twenty-eight against, twenty-four are Democrats and four are Republicans.

A long succession of proposed amendments and reservations to the four-power Pacific treaty was voted down one by one today as the senate approached final roll call for ratification. For the most part the majorities were overwhelming. Only a handful of Democrats stood by their leader, Senator Underwood of Alabama, in his fight for the treaty, the others joining the group of Republican irreconcilables opposed to the leadership of Lodge.

## RESERVE OFFICERS TO CONFER AT SAN ANTONIO

By Associated Press.

SAN ANTONIO, March 24.—Authority to conduct a conference of reserve officers at Fort Sam Houston from April 1 to 13 inclusive, was received here today from Washington. About sixty reserve officers from Texas, Oklahoma, Colorado and New Mexico will be detailed here for duty in connection with the course of construction.

## HERE'S YOUR CRIME

### FATAL GUN BATTLE IN OKMULGEE YARDS

By United Press.

OKMULGEE, Okla., March 24.—"White" Conrad is dead and M. A. Coleman is seriously wounded as a result of a gun battle with L. H. Dawson and Bush Rayburn, Frisco railroad special agents, in the railroad yards here last night. The officers say they caught Conrad and Coleman in the act of stealing provisions from a freight car and the gun battle ensued when the men refused to submit to arrest.

### RANCHER ROBBED AND SLUGGED AT SAN ANTONIO

SAN ANTONIO, March 24.—Police are seeking two highwaymen who assaulted Eduardo Baldo, 50, a ranchman of Monterey, Mexico, and robbed him of \$2,320 in cash here late last night. Baldo was painfully injured when one of the bandits struck him on the back of the head with brass knuckles while the other held a dagger at his breast.

Baldo came to San Antonio to buy stock for his ranch and drew the money from the bank yesterday afternoon. He recognized his assailants as the two men who had shown him some cattle. The bandits overlooked a \$400 diamond on his finger and \$22 in cash in another pocket.

### SCHOOL BOY IS HELD IN TEACHER'S SLAYING

By Associated Press.

MARLIN, Texas, March 24.—C. W. Kannenberg, principal of the McClanahanna school, near here, died this morning from injuries to his head, and a 14-year-old school boy is being held by the authorities in connection with the case. The boy is said to have been kept in after school by the principal and to have remained in a room two hours with him. Examination showed that the wounds had been inflicted by blows with an iron rod.

### OKLAHOMA OIL MAN HELD IN LOS ANGELES WOMAN'S SUICIDE

By Associated Press.

LOS ANGELES, March 24.—Arthur Bowen, Bethel, Okla., oil operator and thought to be well known in El Paso, where his wife resides, was being detained here this morning by the police pending an investigation into the supposed suicide of Mrs. Emily Brittain, who was found dead in an apartment occupied by Bowen. A marriage contract made out in the name of the dead woman was found in the room, which Bowen says Mrs. Brittain was attempting to get him to sign.

## CAPITAL STIRRED UP OVER ASSAULT ON GIRL

By United Press.

WASHINGTON, March 24.—Scores of men with bloodhounds are searching the country around Jackson Station, Va., only a few miles from Washington, for the assailant of Miss Agnes Hawkins, a government employe. There was open talk of lynching.

The girl was brutally attacked, then chained in a fainting condition in a barn behind her mother's home. She became conscious several hours later and dragged herself to a nearby house. Her condition is serious.

## WICHITA FALLS & OKLA. R. R. PLANS BRANCH LINES

By Associated Press.

WASHINGTON, March 24.—The Wichita Falls & Oklahoma railroad asked the interstate commerce commission today for permission to construct two branch lines. One of the branches the road proposed to extend from its main line to Waurika, Okla., and the other out from Byers, Texas.

## STRIKERS USE TACKS TO STOP WORKERS' CARS

PROVIDENCE, R. I., March 24.—Textile strike sympathizers in Pawtucket have obtained a new weapon. Streets leading to the Jake Dunlop plant of the United States Finishing company in that city were strewn with tacks.

Workers from East Providence and other places have been conveyed to the plant daily in trucks and touring cars. When the cars struck the tack entanglements the tire casualties were heavy. The tacks had been placed on the street during the night.

## KANSAS CLOUDBURST DROWNS 5, DOES MILLION-DOLLAR DAMAGE

## WHIPPERS' TRAIL NOW SOUGHT AT CROSS PLAINS

### Dallas Probers, "Against Stone Wall," Seek Additional Witnesses.

By United Press.

DALLAS, March 24.—Many high officials of the Texas Ku Klux Klan are reported to have gathered here yesterday to probe the recent night riding cases here. The Klan has denied all responsibility for the recent whipping of F. H. Etheridge and the local chapter of the organization has offered a reward of \$1,000 for the arrest and conviction of the guilty parties.

District Attorney Maury Hughes and other representatives of the police department have left the city to "question a witness." It is believed on good authority that they have gone to Cross Plains, where they will question Monroe Ingram, 21, who was a victim of the floggers several weeks ago. Two other victims of the night riders were questioned by authorities this morning.

A new development in the case which has resulted in the discharge of one police officer and the suspension of two others is that four handcuffs were used by the men who kidnapped Etheridge. Handcuffs also were used when Rothblum was whipped. Handcuffs are not sold at local hardware stores and the authorities are trying to check up on the handcuffs used by police and county authorities.

It is rumored here that a prominent business man is to be arrested in connection with the whipping of Philip Rothblum and Etheridge. However, no further arrests had been made today and authorities state that they are up against a stone wall unless other witnesses come forward. An appeal has been made through the press for any citizen having any evidence in the occurrences to give it to the district attorney's office.

Life Is Threatened.

Five threatening telephone calls have been received by Etheridge and his daughters, according to statements of Mayor Aldridge today. The mayor said the speaker was a man and told Etheridge he would be killed. Four officers are guarding Etheridge, two during the day and two at night.

Search for the mysterious queen of the night riders whom authorities believe could clear up the mystery also has been begun on information that Etheridge received telephone calls from some woman previous to the flogging.

The trial of Policeman J. J. Crawford, who was discharged from the police force yesterday and then charged with aggravated assault and false imprisonment growing out of the Rothblum flogging, will be held next week.

## CAN'T LOCATE JUDGE GUILTY OF PERJURY

CLEVELAND, Ohio, March 24.—William M. McGannon, former chief justice of municipal court here, has eluded deputy sheriffs armed with a capias issued for his arrest following the decision of the fourth district court of appeals upholding his conviction for perjury.

McGannon has not been seen at his home for two days, searching officers reported.

Under the decision McGannon must serve a sentence of from one to ten years in the penitentiary, unless his case is carried to the supreme court.

William H. Boyd, his attorney, announced tonight that he had not communicated with any members of the McGannon family and was unable to state whether such an appeal would be filed.

The perjury charge developed from testimony given by McGannon at his two trials as the slayer of Harold C. Kagy, of which he finally was acquitted.

## HOOVER'S NEPHEW DROWNS.

PALO ALTO, Cal., March 24.—Walter Parge, seven-year-old nephew of Herbert Hoover, secretary of commerce, was drowned here Thursday in a reservoir at the Hoover home during a reunion of the Hoover family. He came here with his parents from Salinas to attend the affair. As a result of the accident, it was announced, Mr. Hoover has canceled his engagements to speak in San Francisco today and Saturday.

## Wall of Water Five Feet High Rushes Through Burlington, Wrecking Buildings in Its Path; Telephone Girls Are Heroines.

By United Press.

BURLINGTON, Kan., March 24.—Four persons are dead and \$1,000,000 property damage is the toll of a cloudburst that last night sent a five-foot wall of water, which increased to ten feet, through the principal business district of Burlington. Rain that literally fell in sheets, totaling ten inches in all, inundated practically all the business section. The wall of water came down Rock creek, a so-called "dry stream," swept away twenty-five or more dwellings at the end of Neosho and nearby streets and carrying the wreckage, small buildings, automobiles and livestock on its crest, poured into the business district. Scores of business houses were inundated, their fronts smashed in and the merchandise washed out into the streets. Walls of several buildings caved in. The light plant was put out of commission at the first rush of waters, and throughout the night residents were forced to cling to their places of refuge in total darkness.

## LEGAL BATTLE OVER KIDNAPPED HOOSEGOW TO WAX VERY WARM

By United Press.

HALE CENTER, Texas, March 24.—Charges that he stole the town hoosegow have been placed against Joe Lee Ferguson, a local farmer.

The pick of the legal talent of this district has been mustered by both sides and a hot legal battle is in prospect when the trial comes up next week.

The "state" is all riled up and has blood in its eye. It charges that Ferguson wilfully, maliciously and wantonly spirited the town calaboose away and was oppressive in the act. Damages of \$200 are asked. The "state" charges that Ferguson is using the jail for a granary.

Juvenile citizens, who used the jail as a backdrop for sandlot baseball, describe the building as an inoffensive structure, 8x10 feet in size. Built fifteen years ago, it has housed half a dozen drunks.

## NERVOUSNESS IN MAKING BILL OF SALE CAUSES PIPE THEFT CHARGE

By Associated Press.

Charges of theft were filed this morning by Justice of the Peace McFatter against H. I. O'Neal alias J. D. Johnson C. F. House and Oscar Dyal, charged with stealing sixteen joints of six-inch casing from G. W. Friend, former drilling contractor of Ranger. The arrest of the trio resulted from the suspicious actions and subsequent confession of O'Neal alias Johnson, when he appeared before Justice McFatter yesterday afternoon to make out a bill of sale for the pipe to the Ranger Iron & Metal company. O'Neal was taken to the jail at Eastland this morning in default of bond. House is held at police headquarters here until his bondsmen qualify, and Dyal has already made bond.

O'Neal soon after his arrest, is said to have implicated House as the man who approached him with a proposition to make out a bill of sale for the pipe, explaining that he himself was too well known here to be able to give a fictitious name. House was then arrested by the police and in turn implicated Dyal, the owner of considerable property in the Rice addition here, police say. Both House and his wife stated that Dyal had come to their home yesterday morning with the information that the pipe was lying unprotected in front of the drilling contractor's home, now rented to another party, and that Dyal had engineered the deal to take the pipe.

## FIRE STATION WILL BE MADE BEAUTY SPOT

Plans for the beautification of the fire station grounds on Elm street were started yesterday under the supervision of Chief Murphy. A large triangular flower box has been placed between the two doors of the entrance and roses and other flowers and shrubbery are being set out around the side of the station and around the old American Legion band stand, next door, where the Ranger band has been giving its concerts.

Chief Murphy stated that the old sanitary company building on the lot would be moved and that the entire grounds from the fire station to the corner of Marston street would be plowed, leveled and otherwise made attractive.

The work is being done by the firemen in their spare moments and a number of bulbs and slips have been donated by local residents who have noticed the work in passing.

## WOMAN NEAR MUSKOGEE KILLS BABY AND HERSELF

By Associated Press.

MUSKOGEE, Okla., March 24.—Mrs. Claude Hastings, wife of a farmer living at Webers Falls, this county, killed herself at her home by slashing her throat with a razor after killing her three-weeks-old baby girl with the weapon. She was 25 years old.

The tragedy was discovered by Hastings' mother, who lived with the family. On the floor beside the bed where the mother and child lay a note bore the words: "I am tired of living." Hastings was planting potatoes not far from the house when the bodies were found.

## RUM TO BE ISSUE IN OHIO ELECTION

By United Press.

CLEVELAND, March 24.—The Ohio gubernatorial race is to be determined solely on the issue of beer and light wines. This is forecast as political aspirants announce their candidacy on a straight wet and dry platform, omitting all reference to national questions such as the soldier bonus, the tariff and the Washington conference treaties.

## LONG SLUMBER ON SHELF AWAITS BONUS IN SENATE

### But Democrats May Upset Program by Making Political Thunder of Delay.

By Associated Press.

WASHINGTON, March 24.—Passed by the house late yesterday by a vote of 333 to 70, the soldier bonus bill was made ready today for the senate. What would happen to it there was regarded as problematical, but the house proponents of the measure propose to use every effort to prevent it being shelved, as was the original bonus bill. In the long debate which preceded the passage of the measure in the house, some speakers predicted that the senate would kill the bill, while others apparently were not over-optimistic that it would be passed in its present form.

It is probable that unless some pressure is brought to bear, the measure will slumber for quite a while at the other end of the capitol, where the calendar is already overcrowded with the various arms conference treaties, the annual supply bills with the permanent tariff bill yet to be reported.

However, the bill must have quick action in the upper house or the Democrats will try embarrassing tactics. Arrival of the bill in the senate will be the signal for starting action. The Republicans will be asked some pertinent questions by Senator Harrison of Mississippi, Democrat.

## LEGION APPROVES BILL.

By Associated Press.

WASHINGTON, March 24.—Confidence that the house bonus bill would meet with the general approval of ex-service men, was expressed today by Hanford McNider, national commander of the American Legion.

## FT. WORTH JURY GIVES HIJACKER LIFE SENTENCE

Special to the Times.

FORT WORTH, March 24.—John Cornish Miller, ex-convict, accused by his 17-year-old son of leading the series of holdups here on the night of Feb. 17 which culminated in the death of his companion, Arthur Bell, and the shooting of Motorcycle Officer Ab Mitchell, was convicted of robbery with firearms in criminal district court yesterday afternoon and sentenced to ninety-nine years in the penitentiary.

Miller was convicted on the specific charge of holding up the Pennsylvania Avenue pharmacy. He did not take the stand, presumably to prevent his status of an ex-convict being brought before the jury.

"Father forced me to do it," Johnny Miller, 17 years old, declared when placed on the stand by the state. Cross-examination failed to shake his testimony. "He had a pistol and told me I had to take part in the hijacking and I was afraid not to," the son continued while the father looked steadily at him and shook his head in disapproval of his testimony.

The boy claimed that his father had locked him in a room at a hotel the afternoon of the robbery and that he was forced to rifle the cash drawer at the drug store while his father held a pistol on the clerk. Young Miller denied that he had been promised immunity by the police or that he had put the blame on his father, believing him dead, and "was having to stick to his first statements regarding the robbery and shooting."

## TREMORS AT LOS ANGELES.

By United Press.

LOS ANGELES, Cal., March 24.—Four earthquake shocks were felt in the southern portion of Los Angeles last night. People stirred from their houses into the streets. No damage was reported.

## HARDING ASKED TO FORCE MEET ON COAL WAGES

### Atlanta Business Men Say He Should Seize Mines of Stubborn Operators.

By Associated Press.

WASHINGTON, March 24.—President Harding and his cabinet are urged in a telegram taken to the White House today by Representative Upshaw of Georgia, Democrat, to take action to compel the mine operators to meet the miners in a wage conference before the present contract expires on March 31, or in the event of refusal of the operators to do so, for the government to take over the mines and operate them till the operators agree to such a conference.

The telegram is signed by E. L. Quinn, secretary of the Atlanta Federation of Trade, and Upshaw requested that the matter be brought before the cabinet at the meeting today.

## LOWER SCALE DEMANDED BY OKLAHOMA OPERATOR

By Associated Press.

McALESTER, Okla., March 24.—Oklahoma coal mines will be closed April 1 unless wage scales are reduced, Secretary Wilson of the Oklahoma Coal Operators' association said this morning upon return from Wilburton, where he went yesterday with members of the association after an all-day executive session at McAlester.

Competition with non-union mined coal from Alabama, Colorado and New Mexico and the increasing use of cheap crude oil from Texas as fuel were given as some of the reasons why the coal operators could not meet the demands of the union miners, in a lengthy statement today by D. C. MacAppin, president of the operators' association.

## ILLINOIS MINERS WILL STICK, PRESIDENT SAYS

CLEVELAND, Ohio, March 24.—The United Mine Workers' war council of 116 members met here today to lay plans for the national coal strike to be called April 1. Answering the summons from President John L. Lewis, national and district officers, composing the miners' policy committee, will lay plans for the "greatest strike in history," in which approximately 600,000 workers in both bituminous and anthracite fields will be involved.

"We are going to strike April 1 and we are going to keep on striking till some of the others holler," said Frank Farrington, president of the Illinois miners. Farrington thus expelled the fear of international officers that the Illinois miners would break with the main body and continue at work. The Illinois chief executive also denied the report that the Illinois miners had come to any kind of agreement with the operators. He said there had been no agreement made and charged that the reports were circulated in an attempt to cause a break among the miners.

Farrington and President Lewis, however, were expected to cross swords on the floor of the convention over the general policy of conducting the strike. Feeling between them is said to be bitter.

## NEGRO CONFESSES TO MURDER OF YOUNG BOY

By Associated Press.

WACO, March 24.—The state today produced a confession made by Bennie Young, negro, charged with the murder of Homer Turk, 13-year-old boy, at Concord, made to the district attorney by Young while in jail at Waxahachie. Young confessed to killing the boy at the time W. H. Barker and his wife were murdered. The confession was substantiated by considerable evidence.

## CONGRESS WON'T DEMAND RETURN OF U. S. TROOPS

By Associated Press.

WASHINGTON, March 24.—The provision of the army appropriation bill which would have necessitated the return of troops stationed in China, Hawaii, Panama and Germany by July 1 was stricken out of the measure today in the house. The action was taken on the motion of Representative Rogers, Republican, of Massachusetts.

## WATER CONFERENCE CALLED.

By Associated Press.

FORT WORTH, March 24.—A meeting to discuss the development of the Texas water supplies will be held in Austin on April 1, it was announced here today by the West Texas Chamber of Commerce. The tentative irrigation plans agreed upon at the conference here in February will be gone into more fully at the meeting, it is stated.

GIRL DROWNED WHEN FAMILY IS MAROONED ON AUTOMOBILE TOP

SEYMOUR, Ind., March 24.—Edna Simon, 16 years old, drowned and her father, mother and sister narrowly escaped death when their automobile ran off a road here, plunged into the high waters of White River and was carried fifty feet down stream before being submerged.

Although the automobile was submerged, the family managed to get on top of it and call for help. Edna drowned when she attempted to reach safety by following a rope that had been thrown to the marooned family by a farmer, who had been attracted by their cries.

Later attempts at rescue made in a boat resulted in it being twice capsized, once after the family had been taken from the top of their machine. Marie, the younger daughter, swam to safety, but for thirty minutes it was thought that the father and mother had been lost. Mr. Simon's cries, however, attracted rescuers, who found him standing in water to his chin, holding his unconscious wife above his head.

MECHANIC ALLEGED TO HAVE BOMBARDED SWEETHEART'S HOME

CHEYENNE, Wyo., March 24.—John Lusk, a mechanic, is held by the police on a charge of bombarding the home of his sweetheart, Mrs. Mary Gilbert, with a rifle and stones. Mrs. Gilbert and her mother, Mrs. Alice Fleming, covered in the house, someone rode around and around it on a horse, fired shots through the windows with a small rifle, and then, dismounting, completed the work of window glass destruction with stones. The women allege that they recognized the attacker as Lusk.

Lusk, when arrested an hour after the attack, was in bed and asserted he had been in bed for more than an hour. His horse was found to be sweating, however, and in his room was a small rifle smelling of freshly burned powder.

Lusk has been attentive to Mrs. Gilbert, who is not living with her husband, but, according to the stories of the two women, recently was ordered by both to keep away from the residence which he is alleged to have bombarded.

SAYS WIVES' DEMAND FOR DOLLARS STEERS HUSBANDS INTO JAIL

NEW YORK, March 24.—"Great for diamonds and furs is the curse of the times," Judge Louis D. Gibbs, of Bronx county court, declared when suspending sentence on Saul Zukor, millinery dealer, who pleaded guilty of having received stolen goods.

"Modern women, yes, a great majority of them," he said, "are using the dollar mark to steer their husbands into jail. Just as long as the men of the family bring home the money no questions are asked."

Judge Gibbs' condemnation of modern tendencies was delivered after Mrs. Zukor, the prisoner's wife, attired in an expensive fur coat and her fingers covered with rings, had been called to the stand.

She denied that she had knowledge of her husband's crime, though admitting that she had charge of her husband's store. Judge Gibbs accused her of having been in league with her husband and ordered her from the court room. He explained that sentence was suspended because the prisoner had four small children to support.

PROWLER REMOVES SCREEN AND CUTS OFF GIRL'S HAIR

NAPLES, Texas, March 24.—While Ollie Mae, 16-year-old daughter of Mrs. Nettie Wallace, lay close to a window asleep Wednesday night, some one removed a screen and cut off her hair.

Dogs were brought here from Shreveport and after a chase of about an hour an arrest was made.

Senator Reed told the senate that the Washington conference was a farce. And if anybody does not know what a farce is, let him study Reed's speech. It is an almost perfect example.—Detroit Free Press.

IRISH LEADERS HERE FOR SPEAKING TOUR OF AMERICAN CITIES

Austen Stack, James J. O'Kelly

James O'Mara, Piaras Beaslai, Sean MacCaville

Intent upon presenting their views to the American people, five Irish leaders, representing two political factions of that country, have arrived in the United States and will make a speaking tour of the principal cities. Austen Stack and James J. O'Kelly, at top, are here in behalf of the Irish Republic, proposed by Eamonn de Valera. James O'Mara, Piaras Beaslai and Sean MacCaville will represent the present provisional government of Ireland.

OHIO OFFICERS WOULD SLAY CRIMINAL INSANE

COLUMBUS, Ohio, March 24.—Ohio officials are planning to open a fight to legalize the execution of criminally insane persons, it was learned today. Dr. H. S. Macayal, state director of public welfare, is said, will advocate such a law at the next general session. It is indicated that the fight will be carried on in other states.

PRETTY GIRL ELOPES WITH BILLIARD CHAMPION

Helen Outerbridge

Edgar Appleby

After publicly announcing that they had broken their engagement, made in December, Miss Helen Outerbridge of New York, and Edgar T. Appleby, amateur billiard champion, eloped and have been married. The wedding came as a distinct surprise to relatives of both parties.

ERUDITE BUGHUNTER WON'T TURN ASIDE TO SEEK SOUTH SEA GOLD

en doubloons. There are vessels of gold that may one time have done TOWA CITY, Ia., March 24.—While Prof. Homen Dill, of the University of Iowa, insists that his proposed cruise to the South Seas is solely for the purpose of obtaining material for museum uses, reports of the buried treasure, amounting to more than \$6,000,000, on one of the island group continue to pour in with his daily mail.

Tempting offers had been made. Prof. Dill indicates, by Frederick W. Mason, of Maine, to divert him from his main purpose that the trip may result in a search for gold a century old or older.

100 Tons of Gold.

The widow of Captain James Brown, of Augusta, Maine, is reported to have maps and charts of places where more than 100 tons of gold and millions of dollars in silver were found by her husband and others of the schooner Sea Foam, who in the early fifties removed part of it from the island whither it had been taken from Cocos island by an adventurer who had participated in early insurrections in Peru.

These maps and charts have been offered to Prof. Dill by Mr. Mason, who desires to accompany him on the sea voyage.

The gold, according to the tale told by Captain Brown before his death, is in bars, nuggets, dust and great gold-

service in churches in Peru, and gold rings, bracelets and ornaments. There are chests of silver, silver pieces and caskets of diamonds and other brilliants, all found twenty feet underground by sailors, who, with the exception of Captain Brown, never came home, but, through the trickery of their captain, Henry Smith, master of the Sea Foam, are said to have gone down to Davy Jones' locker that things that they knew never might benefit them. All this is according to the tale recounted by Mr. Mason.

Poisoned Whale Crew.

Captain Henry Smith, so the story goes, poisoned all his men, except Brown, who was first mate. Captain Smith is said to have taken pains to silence Brown. He took away his cartridges, but the wily Brown found lead to reload others, and when he found himself to be facing death before the pistol of the ship's master, fired his gun and sent Smith down into the depths to join his men.

Single-handed Brown worked a long boat loaded with a portion of the treasure back to Culchal Bay, West Australia, where he wrecked the boat and buried more than \$1,000,000 of the original cache.

Captain Brown later made several trips to the west coast of Australia. If he recovered any of the million he buried there the fact never has become known, but it is said that he spent large sums of money later cruising the South Seas.

GAS AND ELECTRICITY RATES TO BE ISSUE IN OKLAHOMA ELECTION

OKLAHOMA CITY, March 24.—Gas and electric rates promise to become political issues in the coming state and municipal elections.

Within the last month consumers' organizations seeking a reduction in the price of these commodities have been formed in a number of cities and towns in the state. At Muskogee consumers at a mass meeting demanded that electric and gas rates be lowered or the plant sold to the city. Their demand has not yet been acted upon.

Consumers' organizations have been formed in Tulsa, Oklahoma City and Shawnee.

Gas and electric rates in the state have doubled and trebled in the last year. Officials of these utilities claim the increased rates were necessary to equalize increased cost of production.

FEEBLE-MINDED FURNISH FEW CRIMINALS, TESTS SHOW

By Associated Press. CHICAGO, March 24.—The importance of feeble-mindedness as a source of crime has been overrated, according to the committee on origin of crime of the Chicago crime commission. Intelligence tests similar to those used in the army are declared by the committee to indicate that the level of intelligence among first offenders is not greatly different from that which prevailed among drafted men during the World war.

BATH A DAY FOR NINETY DAYS, IS VAG'S SENTENCE

MINNEAPOLIS, Minn. March 24.—George Zinco, charged with vagrancy in municipal court here said he had not had a bath in a year. The court sent him to the workhouse for ninety days and prescribed a bath for each day.

'BILLIE' BURKE IS PAPA!

A daughter was born yesterday to Mr. and Mrs. W. E. Burke, formerly of Ranger at the home of Mrs. Burke's mother in Stephenville, friends here have been advised. It is their first child. "Billie" formerly was manager here for the Norvill-Wilder Hardware company and was transferred to Mexia last fall.

PRISONER CHARGES U. S. \$860 FOR HOTEL BATH AND GIRLS' DINNERS

NEW YORK, March 24.—Irfred E. Farrell, former teller and cashier of the New Utrecht branch of the Irving National bank, has filed a bill for \$860 for expenses of himself and two keepers from the federal penitentiary at Atlanta.

Farrell was convicted of embezzlement of the funds of the bank, about \$120,000 having been taken. He was sentenced to serve nine years in the federal prison and to pay a fine of \$10,000.

Brought back to Brooklyn on a writ of habeas corpus as a witness, Farrell testified against men alleged to have assisted him in the bootlegging business. As a result of his testimony John T. Vannata was in-

dicted. His trial is set for April. While here in that case, Farrell engaged a suite with private bath for himself and two keepers, at \$60 a week. He enjoyed the freedom of the city and was frequently seen with his keepers at well known restaurants and hotels, often with women who inclined to bobbed hair and sport clothes.

OIL OPERATOR DIES SUDDENLY AT CISCO

CISCO, March 24.—J. E. Keough, well known oil operator throughout the Texas fields, died here this morning of heart disease.

Clothes That Help You Look Your Best. Easter Comes April 16th. \$25, \$30, \$35, \$40, \$45. NATURE blossoms forth in Spring—and man follows. That's the best reason why you should look your best this Spring—and our Clothes go a long way in helping you. ### NEAR COLLAPSE, SHE SAYS WOMAN NOT GOOD JUROR

TRENTON, N. J., March 24.—Pleading that she was on the verge of nervous collapse as a result of service as a petit juror, being locked up all night twice with men jurors, Mrs. Anna Cunningham of this city, has been excused from additional services by County Judge Marshall. Her husband told the court that her illness was the first of her married life.

"My selection was unsolicited, and I accepted only after hesitation," Mrs. Cunningham declared.

"My first night away from home confirmed the half-formed opinion that I had made a mistake.

**Children Left Alone.**  
"My husband is employed at night. My five children were alone at home. The second experience was enough to convince me that a woman's place is not in court, especially if she is married and a mother."

"I may be called old fashioned, but to those who deem it to be a woman's duty to insist upon all her recently acquired rights I say only that they should consider all the responsibilities."

"The majority of women are unfitted temperamentally to pass judgment upon others. I have found many to be addicted to preconceived verdicts that argument or logic failed to change. Sympathy doubtless was a factor with a few. With others it admitted that they might have been wrong in their first view."

"In a sense, I also consider that jury duty is an attack upon woman's natural modesty, refinement and reserve. Numerous cases that she is called upon to consider are of so delicate a nature that she shrinks from frank discussion of the evidence, and a just verdict thus is impossible."

### WOMAN KILLS WOMAN ON STREET AT TULSA

TULSA, Okla., March 24.—Hanna Novak, about 20 years old, was shot to death while sitting in an automobile in the downtown district here Thursday.

Mrs. Harry Sherrill was immediately arrested by the police in connection with the shooting. According to officers she shot five times. Miss Novak died almost instantly.

Mrs. Sherrill, who was taken to the police station, was quoted by the police as saying that the dead woman was trying to break up her home. According to eye-witnesses, Mrs. Sherrill left her apartments in a hotel and walked directly across the street to where the automobile was parked, opened fire on Miss Novak, who fell forward in her seat fatally wounded.

### WELL FLOWS BY HEADS SOUTH OF CROSS PLAINS

CROSS PLAINS, Texas, March 24.—Teetsworth and associates, drilling on the A. J. Williams farm, twelve miles southeast of Cross Plains in Brown county, drilled into the pay Thursday afternoon at a depth of 2,400 feet. The well is flowing by heads every fifteen minutes and is conservatively estimated at 250 barrels natural.

### MISSISSIPPI RISING; WARNING IS ISSUED

MEMPHIS, Tenn., March 24.—Persons living on unprotected land were warned to move to places of safety immediately, in a special river forecast by J. H. Scott of the United States weather bureau, today. A Mississippi river stage of forty-two feet or more was predicted at Memphis before March 30 and fifty-two feet at Helena, Ark., the first week of April.

### Prosecutor Pleads for Thief Who Was His Buddy in France

NEW YORK, March 24.—Two convicts today were arraigned before Judge Crain, charged with having stolen an automobile here before going to Orange county and breaking into a grocery, for which they served fifteen months in Sing Sing.

One of the convicts was James E. Taylor, who went to war and fought valiantly.

The other was Herbert Conklin, who stayed at home.

Assistant District Attorney J. L. McDonnell, who fought side by side with Taylor, begged clemency for his buddy and got it. Conklin listening, with tears in his eyes, to the eulogy of his former pal, told the judge he didn't "count alongside of Jim" and not to bother with him, for anyway he had escaped from jail in Raleigh, N. C. He was held for North Carolina authorities.

"This man was a buddy of mine," said McDonnell in pleading clemency for Taylor. "He fought in all the engagements his regiment was in. This included seven major operations in Belgium, Flanders and France."

"He helped to smash the Hindenburg line. He returned to this country covered with glory. He married, but later lost his position, and then came his downfall."

"There is a job waiting for him. I respectfully ask you that you throw into the balance the service of this man to his country when you pass judgment."

In suspending sentence Judge Crain said:

"The district attorney has forcefully made a plea on the fact of your service to your country."

### INVENTS 'COLD LIGHT' BY FOUR YEARS' WORK

LOS ANGELES, March 24.—"Cold Light" was demonstrated here before a group of scientists by M. J. Ritterath, Los Angeles inventor, who told his hearers his invention was the result of four years' work.

"Cold Light" is said to be pure white and so free from heat that highly explosive photographic film may be subjected to it for hours without burning, it is said.

It is declared the discovery will be of great value in the projection of motion pictures.

### TEST FRONT WHEELS.

After a run of every two or three thousand miles, it is advisable to have the front wheels tested with an aligning gauge. The wheels, when not properly aligned, will cause excessive wear on the tires and destroy the tread in a short time.

### ARDMORE T. AND O. CLUB PICKS NAME "PRODUCERS"

ARDMORE, Okla., March 24.—Producers is the name which has been chosen to designate the members of the Ardmore club of the Texas-Oklahoma Baseball league. Officials of the organization selected the moniker from a list submitted by more than 100 who were striving to win the season pass offered as a reward. The name is a tribute to the oil men of Ardmore, located in the heart of the oil fields of southern Oklahoma.

The locals will play their first exhibition games here on March 25 and 26, when they meet the Fort Worth Dixie champions.

Seventeen men are now in training under direction of Manager Jimmy Maloney, working out two periods daily.

### WETTEST SPOT IN HAWAII IS JUST TEN MILES FROM DRYEST

HONOLULU, March 24.—The wettest and driest spots atmospherically speaking—in the territory of Hawaii during 1921 were only ten miles apart, on the island of Maui, according to the annual report of the United States weather bureau. The heaviest rainfall was at Puu Kukui, Maui, with 402 inches during the year, while Olowalu, ten miles away, had the least, 7.54 inches.

### WORK ORDERED RESUMED ON BATTLESHIP WEST VIRGINIA

WASHINGTON, March 24.—Secretary Denby has ordered work on completion of the battleship West Virginia, building in the yards of the Newport News Shipbuilding and Dry Dock company, resumed, the vessel having been selected for completion instead of the battleship Washington under the terms of the naval limitations treaty.

## How Firestone Has Reduced the Cost of Tire Service

Size	Jan. 1921 Prices	Jan. 1922 Prices	Reduction
30 x 3 Fabric	\$18.75	\$ 9.85	47%
30 x 3½ "	22.50	11.65	48%
30 x 3½ Cord	35.75	17.50	51%
32 x 4 "	56.55	32.40	43%
33 x 4½ "	67.00	42.85	36%
33 x 5 "	81.50	52.15	36%

**HOW** the cost of building quality tires has been brought down to the lowest level in history was explained by H. S. Firestone, President of the Company, to the stockholders at the annual meeting on December 15, 1921.

- All inventories and commitments at or below the market.
- Increased manufacturing efficiency and volume production reduced factory overhead 58%.
- Selling costs reduced 38%.

Mr. Firestone stated, "This reduction in prices is made possible by our unusually advantageous buying facilities, and the enthusiasm, loyalty and determination of our 100% stockholding organization."

"Due credit must be given to Firestone dealers who are selling Firestone tires on a smaller margin of profit. This brings every Firestone saving direct to the car-owner."

The saving through first cost plus the saving through high mileage doubles Firestone economy and is daily adding new fame to the Firestone principle of service—

FREE SEEDS, ET AL.

Free seeds to "the constituents"  
cost the United States \$300,000 a  
year, says the Cincinnati Inquirer,  
in lamenting the fact that not much  
of the promised retrenchment is to be  
expected this year. That alone may  
be a minor item in the several bil-  
lions that the government is spend-  
ing yearly, but it, with other items  
of a similar sort, make an imposing  
total. There also is merit in Con-  
gressman Blanton's opposition to the  
house barber shop, dining room and  
other perquisites conducted at gov-  
ernment expense for the enjoyment  
of office holders. All these things  
are undignified, and have the ap-  
pearance of petty graft, to which one  
elected to high honors in the nation  
should not stoop. America could  
save money on congress by cutting  
its membership in half and raising  
the salary limit to a point where leg-  
islators could make a living without  
sneaking pennies from the public's  
pockets. And the legislation would  
be equally as good and perhaps  
better.

But concerning free seeds, which  
is a case in point, the Inquirer says:  
"Not much stern retrenchment is  
to be expected of this congress.  
This view of the situation was fixed  
when the house of representatives  
put to the individual test, refused to  
strike from the huge agricultural ap-  
propriation bill the allowance for free  
seeds, amounting to more than  
\$300,000.

"For decades this petty picking  
has been derided, denounced and  
preached against by the public, but  
the congressional heart is wedded to  
perquisites and so the imposition up-  
on the taxpayers always has stood the  
fire of its opponents. Through the  
recent vote it will remain two years  
longer.

"Thus each member will have  
about \$1,000 worth of vegetable and  
flower seeds to send to constituents  
as a compliment, a return favor or a  
reminder of candidacy for renomina-  
tion. There is no more reason as a  
matter of fairness why these seeds  
should be redistributed than the same  
amount of safety razor blades should  
be passed around among the men and  
supplies of lip-sticks and powder  
puffs among the women.

"If the seeds are for the purpose  
of propagating flowers and increas-  
ing the supply of vegetables, then the  
distribution should be made through  
the state agricultural departments.  
One of the at once humorous and  
saddening sights at Washington is to  
witness the congressmen from the  
large centers of population trading  
off their supplies of seeds for extra  
allowances of public documents and  
pamphlets with colleagues from the  
rural and small municipality sec-  
tions.

"To add fresh burdens to the tax-  
payers these emoluments are sent  
free through the mails and the par-  
cels post, thus increasing the general  
bill of costs. As indicated at the  
outset, this typical action does not  
carry much encouragement to those  
who have been hoping that taxation  
was nearing realization."

# LOVE DOESN'T ALWAYS INSURE HAPPY MARRIAGE THESE DAYS

(Lauretta Joy in Cleveland Plain Dealer.)

He was very angry. The Man. He had a good position, good family, good taste in shows, pictures, music and imported sardines; his tout ensemble of wavy blond hair, brown eyes, and stalwart frame was not at all displeasing. He believed that his conversation was upon the whole as sprightly and superficial as that of the mass. But—  
The Girl had turned him down; flat, cold, so decidedly that she never even said, "I'll be a sister to you."

The Man stood for a moment before the open fireplace in The Girl's apartment. The Girl bought cases of perfumed incense which she sprinkled over the gas logs and which sent out rainbow-colored gleams. The Man fixed his eyes upon a spurt of lemon and violet. Suddenly he turned to The Girl who could afford this cheery place, and said:

**Called Them Bachelor Girls.**  
"Be an old maid if you want to, then. You cocky bachelor girls will wake up some day!" And he was gone.

"I am afraid of marriage. I see what it has given other girls. Their security and independence are gone. They try to fool themselves and the rest that they are happy. They're hungry for the old days when life was so sure and uncomplex."  
As things stand now, any utterly independent girl who marries is a fool.

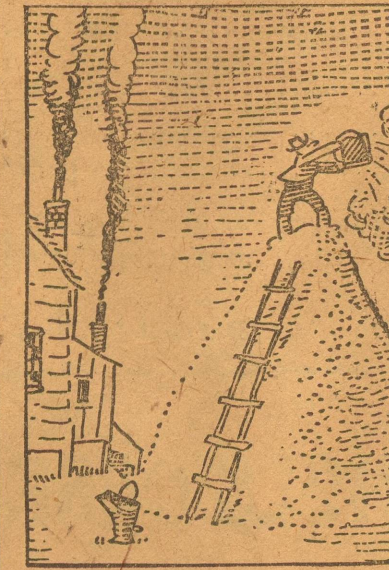

"There's nothing in it for them."  
"Marriage is all a trick of nature," they say. "And we won't fall for the trick. We won't give up the sure things which we know life can give us as single girls for the unsure things that it may or may not give us as married ones."

**Dreams of Bliss.**  
Selfish? Perhaps. But, all ye complacent wives and husbands who condemn these girls as selfish, why did you choose your lot of matrimony? Did you say—  
"It's my civic duty. I owe it to society to establish another family unit?"

You did not. You, husband-reader, popped the question because you thought it was the route to bliss, and you, wife-reader, answered "Yes," because you expected that little answer to be an open sesame to happiness ever after.

## DOG HILL PARAGRAPHS

By GEORGE BINGHAM

In discussing the weather this morning Tobe Moseley said a sure way to find out whether there had been a hard winter or not was to look at the size of the ash piles.

The Excelsior Fiddling Band for some reason or another shows great improvement in its music during the past week. Some are of the opinion that Ellick Helwanger is the cause of it, as he got mad and cut loose from the band last week.

Slim Pickens reports he caught the Old Miser on last Friday greasing his money so that it will not rust during the damp weather.

Not long ago a judge who handles thousands of divorce cases a year, made this remark:

"American homes are menaced because the right sort of women are not in those homes. A girl with real brains and a vigorous personality will not give up the opportunities which the single life gives her for the uncertainties and worries which marriage can give her only at best."

**Blame the Men.**  
Don't blame the girls. Blame the men. They refuse to wake up and see that marriage which satisfied mothers and grandmothers, who made no especial sacrifice in order to take it, cannot satisfy a girl who must sacrifice the very things that make a man's life worth while, in order to take it.

Human nature in youth is the same in college graduates and professional folks as it is in clerks and typists.

The cause of any woman who marries is and must be her husband. If it is not, she does not love him enough for marriage.  
I wonder. Isn't the fact something like this? In the old days, when a girl married, she did not give up a thousand fascinating interests which were part of her daily job. She simply carried over into a home and married life of her own the work and interests of her girlhood days. It was not love for her husband so much which made her content, as it was love for her own job.

**Love Has Competition.**  
The whole point is that love for a man used to be a woman's all just because it had no competition. But

today it must run hand in hand with the other things. It's not enough alone.

Isn't that about it—a choosing of which end of life shall be the easier. And at the bottom of it all, this crying demand of the age. Marriage and man's interpretation of it for the educated, professional girl must change if it wants these girls.

## TEXAS STUDENTS GOING TO MEXICO FOR SUMMER

AUSTIN, March 24.—Several students of the University of Texas are planning to attend the summer sessions of the National University of Mexico in Mexico City. It is stated that the widespread published announcement that was made recently of the arrangements which have been made for taking care of American students who may attend the National University this summer has caused several hundred students of colleges and universities of this country to decide to take advantage of the opportunity that is offered them to visit Mexico and at the same time broaden their education.

## LEFT 287 DESCENDANTS.

COLUMBUS, March 24. — Mrs. Sarah Sherman, who is dead at the age of 93, left 278 living descendants.

Mrs. Sherman, who was married when she was 16, had fifteen children, nine of whom are alive.

Besides the nine children, ninety grandchildren, 165 great-grandchildren and fourteen great-great-grandchildren survive.

## BOSS-BEGGAR CAUGHT

NEW YORK, March 24.—After police had a talk with John Stefan, Brooklyn, who pleaded guilty of vagrancy, they said he confessed he had a man, two women and a boy, all cripples, working for him as beggars and that he paid them \$3 a day, with all the whisky and beer they wished.

When Stefan was arrested as he was placing John Schlachter, a blind, armless and almost noseless man, near a subway entrance he had in his pockets \$63.2 in small coins, \$11 in bills, two bank books showing large deposits and a bottle.

Schlachter had \$11.54, the collec-

tions of a few hours. The two were sent to jail pending investigation.

## Goodbye Boils!

S. S. S. Will Rid You of Boils, Pimples, Blackheads and Skin Eruptions.

A boil is a volcano—your blood is so chock full of poisons that these "boil" out into a boil. They'll keep "boiling up" until you destroy them completely by the use of S. S. S., one of the most powerful blood-cleansers known to science. S. S. S. has stood the test of time. The power of its ingredients is acknowledged by authorities. Its medicinal ingredients are guaranteed to be purely vegetable. Right off, it clears the skin of pimples, boils, blotches, blackheads, acne, eczema, rash and other skin eruptions, and does it thoroughly. It drives out of the blood impurities which cause rheumatism, makes the blood rich and pure builds up lost flesh. It helps to manufacture new blood cells—that's one of its secrets. S. S. S. is sold at all drug stores, in two sizes. The larger size is the more economical.

Are you "up to the neck" in blood impurities? S. S. S. is one of the greatest blood-purifiers known. Try it.

### 2000 Ice Dealers Organize to Protect the Public

TWO thousand of the most responsible ice dealers in this country have formed a nation-wide association to standardize the quality of ice, to guard against short weight, to bring all ice delivery service up to the highest standard. They realize that the effective way to improve and build up the ice business is to see to it that all members give a high-grade service to the public.

**The Emblem Is Your Protection**

It is the sign to look for in buying ice. When you see it on a wagon, it means that the dealer is a member in good standing of the National Association of Ice Industries, whose members are pledged to give you

**Pure Ice • Full Weight • Good Service**

The standards of the Association require that ice be made from pure water, in a sanitary plant, or cut from ice fields of unquestioned quality.

That its members take every reasonable precaution to insure to customers full weight.

That they employ drivers who are honest, courteous and careful.

You, as an ice user, can help this Association maintain the ice business on a high level of service by buying your ice from dealers whose wagons bear the Association's emblem. They are responsible business men with invested capital, permanently located in your community. They serve you the year 'round.

The National Association of Ice Industries is distinctly a service organization which seeks in a scientific and practical way to improve the quality of ice, to help the consumer make better and more economical use of ice in the household, to increase the efficiency of ice boxes, to insure full weight and to protect the consumer against unreliable service. Co-operation by the ice consuming public will result in its getting first-class ice service at a fair price.

## Have You Read This Ad—

in the current issue of  
The Saturday  
Evening Post?

It tells its own story. Is it the first of a series of statements in The Saturday Evening Post to tell people about the ice business, about the proper cooling of food to preserve quality and flavor, about ways and means of ice and of using it in the home.

We are members of the National Association, pledged to live up to its high standards of service in every particular. Our drivers are careful, courteous men, as proud of the Association emblem as we are ourselves.

## SURFACE GEOLOGY HEREABOUTS IS POOR CLEW TO OIL POOLS, SAYS U. S. BUREAU OF MINES BULLETIN

(Silliman Evans in Fort Worth Star-Telegram.)

WASHINGTON, March 23.—In announcing the publication by the bureau of mines of the result of a preliminary survey of the "Lacasa area, Ranger district, North Central Texas," by Clarence S. Ross, a formal bulletin of the bureau delivers a lecture on the failure in the Breckenridge and North Texas fields. It is designed primarily to advise the public of the danger of wildcat investments.

The bulletin is an unusual one and is likely to create a stir in geological circles. The bureau of mines is a branch of the department of interior, and has for its purpose the making of various surveys of mineral resources and the gathering and dissemination of data that are of interest to people interested in mineral development. It is this department that issues the monthly oil and coal reports, and several days ago it issued a statement in which the virtual prediction was made that oil will be in much greater demand should the coal strike materialize. This statement was in regular issue by the department as was yesterday's resume of the Stephens and Eastland county fields.

"The wildcat" says "oil is where you find it," the bureau's circular issued to every newspaper correspondent in Washington begins, "and he points to the oil fields in Stephens and Eastland counties to prove that he is right. Certainly many wells whose locations were chosen at random in those counties either without or against geologic advice have struck oil, and many whose locations were carefully selected by enthusiastic geologists were so dry that they sizzled when the drilling water was put in."

After employing the press agent style as quoted above, the bureau continues: "Geology of the common garden variety, planted in the region between Ranger and Breckenridge has not produced a flourishing crop of dividends. On the other hand, there can be no doubt that geology properly applied by able men can greatly reduce the prospect of stupendous losses, such as have crippled or killed many of the companies that have essayed to develop oil in this rich field.

"Unlike the Healdton, Cushing, Garber, Burbank and other famous oil pools in Oklahoma, to the north, most of the pools in these counties in Texas are not indicated by well marked domes or arches (anticlines) in the beds of rocks at the surface above them. To be sure, the beds that contain the oil which lies deep beneath the surface, are sharply arched into anticlines and domes, and the oil, following the general rule, tends to gather at the crests of other deeply buried arches, but at some places the surface beds extend smoothly over the oil bonanzas not suggesting by even the slightest bump or buckle the fortunes that lie far beneath them. More commonly the surface rocks are gently folded, but the folds are not of the same shape as the anticlines that hold the oil, nor do they lie vertically above them. The task of the geologist and through him that of the oil operator, is to discover the oil between the folds at the surface and those that his drill must strike at a depth of 3,000 feet or more in his search for oil. He may find that the anticlines in the oil sands generally lie north of gentle anticlines on the surface or he may find that they lie east, south, or west of them. He may find that some of the anticlines in the oil sands lie below places where the surface are so commonly associated with the anticlines in the oil sands that it is advisable to drill near them.

"Perhaps he may find the surface anticlines which trend in a certain direction are reliable guides and that others are false guides, luring the operator to disaster. Any one of a great number of relations may be found, but the essential thing to keep in mind is that there is a relation that it can be found and that if it is found and generally applied it will save the oil men millions of dollars.

"Many forlorn investors in the oil fields in Stephens and Eastland counties will testify to the desirability and the magnitude of the possible saving, for although these fields have been remarkable for their rapid development and for their many productive wells, they are no less remarkable for the high cost of drilling and operation, for the short lives of a large number of the wells and for a multitude of dry holes.

"A few companies have been conspicuously successful, but many more have either barely paid expenses or have failed miserably, failed even to recover their original investment. Some of these failures are due to poor methods of operation, and the bull-like, shut-eye policy of many of the large companies that shouldered into the field sublimely indifferent to the repeated sickening jolts dealt them by extortionate lease holders, by the supply companies and by outrageously high operating expenses. Many companies that held productive leases and put hundreds of thousands of bar-

**A CHANGE.**  
"What's for breakfast? Hope it's not ham and eggs again!"  
"No sir, not this morning."  
"Thank goodness! What is it?"  
"Ham."—London Mail.

The danger of blood pressure lies in the weakening of the arteries due usually to age.

## BRECK BOY KILLED IN FALL FROM TRUCK

BRECKENRIDGE, March 24.—Carl Glenn Zoda, 16, died here following an accident sustained when he fell from a truck last Thursday. Young Zoda was riding on a truck with other workmen employed at the Snowden McSweeney camp when he was jarred from the machine, a rear wheel passing over his body. The first his companions knew of it was when they noticed the bumping made when the machine hit their fellow workman. His body was shipped to Warren, Ind.

## Denver Woman Is Electrocutted by 'Health Garment'

DENVER, March 24.—Mrs. Elizabeth Tipton, 68 years old, was electrocuted by an electric "health garment" in her apartment at 1721 Franklin street, according to a coroner's verdict.

Her lifeless body was discovered by her son-in-law, Lewin Solomon, when he entered the apartment. Deputy Coroner George Bostwick said death was due to electrocution. The current into the health garment, which is a garment containing a network of electric wires, was still on when Mrs. Tipton's body was found. Bostwick expressed the opinion that Mrs. Tipton fell asleep while using the electric treatment and that too much of the current entered her body.

Mrs. Tipton occupied an apartment while her son-in-law and daughter lived in another apartment in the same house.

The silkworm moth has been cultivated for more than 4,000 years.

## REPUBLICANS GO TO EASTLAND MONDAY NIGHT

A large delegation of local Republicans will attend the meeting of the Eastland Republican club Monday night. Under plans announced at the meeting of the Ranger Republican club last week, the members will meet in front of the Chamber of Commerce promptly at 7 o'clock and go to Eastland in a body. The meeting of the Eastland club will be held in the basement of the First State Bank building there and all voters who have a leaning toward Republicanism are cordially invited. Dr. H. B. Tanner, president of the club, states. The chairman of the Republican county committee; members of the executive committee and precinct chairmen will be in attendance at the meeting.

The women have been invited to attend the meeting by Mrs. W. T. Homesly, chairman of the women's

committee, and delegations from Cisco, Gorman and other towns and communities are expected to be present.

The program includes several musical numbers, in which Mrs. R. D. Gordon will sing and Mrs. Foster will give a violin solo.

# POOR FLAPPER'S STYLE CRAMPED BY N. Y. BOSSES

NEW YORK, March 24.—Flappers, girls who dress in extreme fashion and have bobbed hair, are out of luck in the maddening daily whirl of New York's big business institutions.

Officials of a score of the biggest business and banking establishments in the city today expressed their aversion to the flapperish type and outlined how they keep her out of their business and how they handle her, if by some near miracle she slips between the closely set employment bars.

**They Can't "Fluff It Up."**  
Bobbed hair is not so bad, they said, but—

At the Federal Reserve bank none of the 1,700 girls who may have the bobbed tresses is permitted in business hours to "fluff it up" with a comb secreted somewhere in her desk. The ideal arrangement, officials said, is for her to wear a net.

There are no set rules at banks, officials said, but there is an investigating committee of the older girls of the establishment and they investigate individual cases where a girl goes to the extreme in any way. The particular girl is gently remonstrated with and in ninety-nine cases out of one hundred she conforms to the bank's standards. If she doesn't, she seeks other employment.

**Wanamaker Prescribes Colors.**

Rules as to how girls shall dress are not new at the John Wanamaker stores; in fact, they are twenty years old and 50,000 are affected. Here are some of the rules:

In winter, dresses shall be blue or black.

In summer the "costume" may be varied by a white waist.

At all times the stockings and shoes shall be black.

The dress must be "not too low" at the neck and "not too high" at the bottom.

The bobbed hair question has not come up. Only three or four girls in the institution wear it that way.

**Scrutinized Before Employing.**

At almost every other institution where girls are employed in large numbers, at hotels and railroad offices, as well as in the banks and department stores, the dress and conduct of the girls is closely scrutinized before they are employed, obviating close supervision afterwards.

At no place, however, are the regulations very specific. They do not specify length and breadth by inches and the statutes are not ironclad. Much is left to the girl's own judgment. But her judgment is supervised.

# STILL RUNS ENGINE HE RODE INTO RIVER

DENVER, March 24.—Engineer George Fouts is back at the throttle on No. 2534, Burlington locomotive that carried him into the flooded waters of the Platte river near Union, Col., last June.

Fouts, on 2534, carefully piloted a long train of Pullmans through a rain storm from Alliance, Neb., into Colorado during the storms of last June that caused the disastrous Pueblo flood. Nearing the Platte river bridge at Union, Fouts slowed down his train until it was barely creeping. Out on the bridge crept the huge locomotive. There was a crash. The engine was precipitated into the stream. The broken air brake connection on the cars applied the brakes that stopped the train and saved hundreds from drowning when the bridge collapsed.

Fouts and his fireman, Elmer Sneider, went down with the locomotive. The engineer clung to a log and was rescued half a mile down the river.

Six months later, the locomotive was brought up from the river. Today it is pulling its regular trains from Alliance to Denver. And Engineer Fouts is in the cab.

Switzerland is electrifying her railroads to save importing coal.

# Hired 'Stiller' Thinks 'Boss' Should Serve Term in His Place

DENVER, March 24.—Joe Bronstein, alias Brown, alias Silver, charged with operating a still in North Denver, wanted to bring in his three bosses when Deputy City Attorney A. L. Betke haled him before Judge George A. Luxford.

Bronstein admitted he was running the still, but he said he wasn't boss of the establishment and he could not understand why as a mere journeyman bootlegger, the wrath of the law should fall on his shoulders.

The court explained to Bronstein that no charges had been filed against his "bosses," and the fact that he was hired to run a still did not make his offense any the less in the eyes of the law.

Judge Luxford asked Bronstein if he had ever been arrested before. He admitted he had been arrested twice before on the same charge, but he said "the bosses" were the ones who should have been arrested.

"You will serve ninety days in the county jail and pay a fine of \$200," announced the court.

# 'BOY 'BOMBS' SOLD TO CHILDREN ARE SEIZED

NEW YORK, March 24.—A tiny toy "bomb" selling for a penny was the latest plaything of Brooklyn school children until today when a policeman seized 1,600 of them in the store patronized by the children.

Teachers complained of the noise the glass tubes made when popped during recess and reported the exploding chemicals caused the children's eyes to smart.

It was said the little tubes were used by overseas troops during the war to purify drinking water.

NEW YORK, March 23.—Baptist women in the farm districts of Iowa have been asked to contribute all the eggs laid by their hens on Sundays until the end of April to help finance home and foreign missions, the Northern Baptist convention announces. A statement issued by the convention here stated that such contributions would add \$75,000 to the fund.

# BAPTISM OF DOG CAUSES OUSTING OF PREACHER

"Presbyterian Distress"

Ruster, owned by Mrs. Melbourne Porter, of Brookline, Mass., probably is the only dog ever "baptized," in accordance with the rites of the Presbyterian church. The baptism, said by Mrs. Porter to have been performed by Rev. Edwin Curtis, resulted in the expulsion of Dr. Curtis as pastor of the First Presbyterian church at Brookline.

# TEAR GAS IS USED IN THIRD DEGREE, CHICAGO PRISONERS CHARGE

CHICAGO, March 24.—Charges that the Chicago police are using tear gas in their efforts to wring confessions from suspects are made by prisoners and ex-prisoners.

Beatings have come into such common use in obtaining confessions, and with a view to getting them that it is a daily occurrence, according to some of the victims. The new "third degree" method has been put into effect within the last three weeks. Prisoners now in the county jail and others out on bond tell of being subjected to the tear gas.

Clarence Taton, arrested as a suspect in a robbery case, told how he had had a session with the gas. "For days I was held at the South Clark police station," he said. "Finally I was taken to the detective bureau. After beating me with their fists the detectives took me to the cellar room in the basement. Harry E. Hunter, who was under arrest as a suspected robber, was with me. We were told to go into a small room. Shortly after being put into this small room I noticed some vapor coming through a crack. There was a sound outside as though some one was pumping the vapor through. Then my nose, eyes and lungs began to smart. After we had become so weak we could stand no longer we were taken out."

# AMERICAN GIRL WHO MARRIED DUKE NOW WOMAN WITHOUT A COUNTRY

NEW YORK, March 24.—The recent decision of the French courts denying the right to French citizenship and to ownership of a magnificent estate in Northern France makes the duchess of Croy, the former Miss Nancy Leishman and one of the most notable of the rich and beautiful American heiresses who have become the wives of foreign noblemen, a woman without a country.

Her plight is singularly like that of the character in Edward Everett Hale's story, "The Man Without a Country." But the former Nancy Leishman is even worse off than this character of fiction.

**She's "Condemned to Poverty."**  
Besides declaring that it does not want her or her husband or any of his brothers as citizens, the French government condemns her to poverty through its refusal to surrender the valuable estate which it seized shortly after the war began.

The difficulties in which the former Miss Leishman finds herself are due to the fact that the family into which she married is one that has branches in several European countries—France, Germany, Belgium, Hungary and Spain. It has the blood of at least five nations flowing in its veins as a result of generations of intermarrying.

In the German Army.  
When the war broke out the duchess's husband, Charles Rudolph of Croy, and his two brothers were living in Germany. They entered the German army. This led the French government to regard them as alien enemies. The duke of Croy and his fellow princes declared they had been forced to enter the German army under penalty of death, and insisted they had always been loyal to France. But

**The Marriage in Geneva.**  
The duke was eager for an immediate wedding, but the bitter opposi-

tion of his family made this impossible. He was obliged to wait until he attained his full majority and came into possession of his large family estates in Westphalia. This happened on his twenty-fourth birthday, and on that very day he and Miss Leishman were married in Geneva.

The duke felt sure that once he had made Nancy Leishman his bride the opposition to his marriage would fade away and its validity be recognized. But in this he was disappointed. He was given to understand that in Germany and Austria, at any rate, his wife had no right to the title of duchess, and that any sons she might have would be debarred from inheriting any of their father's honors, titles and entailed property.

Because the validity of their marriage was not admitted, she was denied presentation at the court of Berlin and at all other monarchical courts in Germany. She also was refused the honor of being presented at the courts of Belgium, Austria and Hungary.

The motion picture industry ought sooner or later to reciprocate by supplying some United States cabinet talent.

# NEWS PROPAGANDA PUT BULGARIA IN WAR ON GERMANY'S SIDE

By Associated Press.

SOFIA, Bulgaria, March 24.—The trial of former Prime Minister Radoslavoff and his ministers brings to light every day fresh details of the sinister influences that brought Bulgaria into the war on the side of the Central Empires.

Witnesses state that the Germans began systematically buying up the Bulgarian newspapers, working through a consortium of German financiers, among them the Mannesmann Brothers. A propaganda service was organized under a certain Captain Englehardt, and soon only German news appeared to the exclusion of all other.

Englehardt also lavished money on the postal and telegraph employes as well as on police and customs house officials to facilitate the passage of munitions through Bulgaria to Turkey. A witness at the trial testified that 45,000,000 marks had been set aside for this propaganda work.

# ---and we are a healthy, happy family now

—Louis Gingras

TINGLING with abundant energy, appetites hearty, nerves strong and steady and their faces radiant with the glow of perfect health, the entire family of Louis Gingras, 9 Harrison Ave., Providence, R. I., are an eloquent tribute to the powers of Tanlac, the greatest family medicine the world has ever known.

"I've put Tanlac to the test four times right in my own family and it hasn't failed me once," declared Mr. Gingras. "My wife, my son and my daughter, as well as myself, have all been built up from a half-sick, run-down, worn-out set of people into a healthy, happy family brimful of new life and energy."

And the experience of this family is only typical of thousands of others whose statements are on file in the Tanlac offices. Hardly a day passes that does not bring scores of such messages of praise from every part of the United States and Canada from families where mother, father, son and daughter have all found health, contentment and the joys of living through simply taking a course of Tanlac.

Take, for instance, the case of John Widner, 1571 Roosevelt ave., Los Angeles, Calif., who says: "My wife, myself and little boy are now as healthy, happy family as you will ever see—and it's all due to Tanlac." Or that of Mrs. John Marquis and her family of sixteen living in Manchester, N. H., at 292 Belmont St. She says: "Tanlac has been the only medicine used in our house for two years and it has kept every one of the sixteen here in the best of health."

In Chicago, Frank R. Richards of 441 South Wood St., writes: "We will never be without Tanlac in our house after the remarkable way it has built up my wife, my son and myself to where we are the very picture of health."

Representative of New York is the case of Chas. E. Van Col's family, residing at 129 Fourth Ave., Albany. He says: "Every member of our family is enthusiastic over Tanlac. It's certainly a medicine for all the family."

From far-away Canada comes this message: "My little girl, my son and myself are all enjoying splendid health now and Tanlac brought it all about." Mrs. Bert Hewer, 193 East Avenue, Toronto, Ontario.

"We call Tanlac 'The Family Medicine' here in our Virginia home, because it restored my mother and sister to perfect health, just the same as it has done me," is the enthusiastic statement of Mrs. J. P. Robertson, Danville, Va.

And on through the list, men, women and children from every state in the Union and every province of Canada unhesitatingly come with sincerity of the wonderful benefits of health and happiness that Tanlac has brought into their homes that were formerly darkened by the gloom of sickness, suffering and despair.

And should yours be one of those homes where any member of the family is thin, run down and weakened from loss of appetite, caused by indigestion and stomach troubles, you have at your very door the means that will no doubt bring the sunshine of vigorous health back into their lives and yours, just as it has done in so many thousands of other cases. Do not delay. Get a bottle of Tanlac from your druggist today.

## 88-Year-Old Man Dies Ward of County After Spending Fortune on Grave Lot

LOS ANGELES, March 24.—Abel Bennington Crawford, who died in the Los Angeles county hospital, 88 years old, a ward of the county, will be buried Saturday in the shadow of a tombstone for which he paid \$2,000 eleven years ago.

In 1911 Crawford purchased in Rosedale cemetery here a lot valued at \$135 and erected upon it an imposing granite monument, fifteen feet high, with a marble base five feet square. He paid \$10 to have a marble worker cut his name upon it. It constituted one of the most expensive and graceful monuments in the cemetery.

Once each month, since then, he has visited the cemetery and inspected the monument. For hours he would sit in its shadow and read. Sometimes he polished it.

When his plans enlarged. He went to an undertaker and bought a costly casket, with instructions it be held for his body.

Next he had a steel vault embedded beside the monument in what was to be his grave.

Then he drew up agreements with the cemetery officials and the under-

taker arranging for his burial. On March 8 he became ill. His money was gone. He was taken to the county hospital. Knowing he was to die, he told where his agreements with the undertaker and cemetery officials were.

According to Crawford's wishes, there will be no funeral services. His body, in the casket he bought so long ago, will be lowered into the steel vault beside the granite pillar where he used to sit and dream.

## KLAN MEMBERSHIP TO BE MADE FELONY, STATE SENATOR SAYS

DALLAS, March 24.—"The Texas legislature, at its next session, is going to take steps toward declaring every man who is a member of the Ku Klux Klan a felon," Senator H. L. Darwin of Lamar county said Thursday. "We are rapidly drifting into a state of anarchy and this business of mob violence has to be stopped. I am against the Ku Klux Klan as much as any man can be against it. I, for one, intend to vote against the confirmation of any state official who can not assure the legislature that he is not a member of the Klan. I don't care how high he may be in office or how prominent in the state. And the people of Texas can rest assured that every appointee whose name comes before the senate for confirmation at its next session is going to be quizzed as to whether he is a member of the Invisible Empire or not."

"I want to say, too, that although a governor in this state is mighty hard to beat for a second term, nevertheless that candidate who will get out against Mr. Neff on a platform against the Ku Klux Klan will give the present governor an awful tussle. The people are tired of floggings and mob violence. They are thoroughly aroused and they can not understand why their governor has never taken a positive stand in the matter."

## BRECK WALKER'S NEPHEW FATALLY HURT IN MEXICO

BRECKENRIDGE, March 24.—Funeral services for John Line, age 20, who was killed by accident at Tampico, Mexico, several days ago, were held from the residence of Breck S. Walker, here Wednesday, the Rev. LeRoy Anderson officiating.

## PLAY LEADING ROLES IN THREATENED STRIKE OF COAL MINERS

Unionized coal mines throughout the country will be closed and about 735,000 miners will quit work on April 1 unless the operators and union officials meet in the meantime and sign a new wage scale and working conditions agreement. Here are grouped the leaders of the operators, miners and the government. The American Federation of Labor will back the miners if they strike, Samuel Gompers, president, has announced. Secretary of Labor Davis is endeavoring to have the operators and union leaders "get together." The strike is certain, declares John L. Lewis, president of the United Mine Workers, unless the operators agree to new terms. Lewis is backed by William Green, secretary-treasurer of the organization. President J. D. A. Morrow, of the National Coal association, leader of the situation for the operators, denies that the mines have earned excessive profits.

Walker, here Wednesday, the Rev. LeRoy Anderson officiating. Deceased was employed by the Gulf company in the Tampico oil field and his death was caused when a caterpillar truck fell on him, according to reports received here. He was a nephew of Breck S. Walker and is also survived by his mother, Mrs. Myrtle Line of Fort Worth, and by a sister, Mrs. James Thompson of Fort Worth.

## WHY SOME MEN are WELL DRESSED

They buy all-wool quality, select the right style, get a good fit. That's the whole story. We give them all to you in

The new Easter Fashions are here—double breasted suits, Norfolks, 3-button single breasted styles, sport models; all very clever ideas. Everybody thinks they're great; so will you. Order yours now.

## THE GLOBE

220 MAIN STREET

## GIRL STUDENT FOUND

CHICAGO, March 24.—Miss Edna Taylor, 21-year-old University of Chicago student, missing since last Thursday, when she started for New York to visit her parents, has been found.

Miss Taylor explained her absence by saying that she had lost her purse containing \$50 when on her way to a railway station and conceived the idea of working to obtain enough money to visit her home.

The girl said her disappearance and decision to earn her own living was just a "lark." She was found in a rooming house, where she was staying while working in a broker's office for \$18 a week.

## HOLINESS PEOPLE WILL HOLD REVIVAL

The Rev. Bluford Hudson, evangelist of Fannin county, will open a series of meetings here tonight under the auspices of the Independent Holiness People, at 411 South Rusk street. The meetings will start at 7:30 p. m. and will continue for ten or twelve days. There will be no daytime services.

**OIL OFFICES BURNED.**  
By Associated Press.  
ENID, Okla., March 24.—Offices and warehouse of the Pierce Oil company here were destroyed by fire early today with a loss estimated by company officials at approximately \$80,000.

Conducted By  
MRS. R. E. CAMPBELL  
Telephone 418

### SATURDAY.

Bake sale at the Phillips drug store. Saturday Evening Bridge at Mr. and Mrs. L. L. Rector's.

### WOMANLESS WEDDING REHEARSAL TONIGHT

The secret is out. The wedding that has been hinted at so many times

in this section is going to happen at last, but it will be a "womanless" affair.

The first rehearsal will be held tonight at the old Liberty theatre at 8:30 o'clock. This wedding is put on for the benefit of the Red Cross Shop, and it promises to be a "go getter." It will be a laugh from start to finish. The personnel of the bridal party will be published in Sunday's paper.

### B. Y. P. U. ENTERTAINED.

The B. Y. P. U. was delightfully entertained last night at the home of the pastor, Rev. W. H. Johnson. Contests and games were played until a late hour and after refreshments of sandwiches, coffee and cake were served, the guests departed, carrying with them a memory of another even-

ing of pleasure, sponsored by the church.

Those present were: Misses Clara Shipp, Amelia Harris, Gladys Barnes, Bessie Burch, Olivette Cowart, Fay Pearce, Julia Owens, Mittie Morris, Milam; Messrs. Jim Dooley, J. Kenan, W. J. Harrington, Bill Denman, Byron Davis, W. B. Hale, A. L. Miller, B. H. Rhodes; Mr. and Mrs. Colson Rhodes, Clyde Spaulding.

### THURSDAY BRIDGE CLUB MEETING

The first hint of the nearness of Easter was suggested yesterday afternoon when Mrs. Garrett Bohning used Easter eggs and Easter symbols as her decoration motif when she entertained the Thursday Bridge club. Throughout the receiving suite of the Bohning home nests filled with varicolored Easter eggs were placed,

## Music Lovers Enjoy Recital by 'Ranger's Own'

One of the very smartest affairs of the season was the recital given last night at the old Liberty theatre with Mrs. Robert C. McCoy as soloist, Mrs. Vincent Wakefield, pianist, and Mr. Gus L. Coleman, flutist. Mrs. McCoy accompanied by Mrs. Wakefield gave "Caro Nome" from Rigoletto, "Ouvre Tes Yeux Bleus," (Massenet), "Serenade," (Gounod), "L' Ete" Chamlade, "The Wood Pigeon" and "The Owl," by Liza Lehmann and "De Op' Ark's A-Moverin'," by David W. Guion, a Texas composer. Mrs. McCoy's beautiful tones and wide vocal range showed to a special advantage in each of these numbers and as usual when she appears before an audience she received encore after encore.

"Sonata, Op. 7," by Greig; "Molly on the Shore," a delightful Irish composition by Percy Grainger; "March Minonne, Op. 15 No. 2," by Poldini; "Romance," by Frank LaForge; "Water Sprite," by Robert Warner, were given by Mrs. Vincent Wakefield in her usual perfect manner. Mrs. Wakefield also played accompaniments for Mrs. McCoy and Mr. Coleman with that sureness of touch and understanding that only years of study and perfect interpretation can render.

Mr. Gus Coleman as flutist, was a treat. His interpretation of "The Nightingale and the Frogs" by Rich Eilenberg, was quite a masterpiece, suggesting with each note those well known inhabitants of the woods. Mr. Coleman played the obligato when Mrs. McCoy sang "Lo, Hear the Gentle Lark," by Bishop, and they responded to the hearty encore to this number with "Way Down in Old Virginia," which captured their audience wholly.

The stage was attractively decorated for the occasion with palms, screens, and floor lamps and formed a pretty setting for the entertainers. Mrs. McCoy wore a black charmeuse with black lace over dress, and carried a blue ostrich feather fan, and wore a band of jet in her hair. Mrs. Wakefield wore an attractive black lace gown, trimmed in knots of blue, while a fancy comb added beauty to her coiffure. Mr. Coleman of course, wore the conventional black evening attire. Meses. T. L. Lauderdale, J. M. White, Walter Burden, Marvin Collier, L. L. Rector and William Conway formed the reception committee.

Ranger can well be proud of her talent. Three of her artists held an audience spellbound throughout this program and impressed their personality and their perfectness of note and touch on their hearers and in so doing made their names a synonym for perfection of technique.

## CENTRAL BASEBALL TEAM BEATS COOPER

The Central school team yesterday afternoon defeated the Cooper team on the Cooper grounds by a score of 7 to 4, thus evenly dividing baseball honors among the two schools. The opening game of the season between the two schools was won by the Cooper team. The feature of the game yesterday was the catch of Pat Pruitt of Central in centerfield.

## REPUBLICANS WIN MAINE "NATIONAL ELECTION" TEST

AUGUSTA, Maine, March 24.—John E. Nelson, Augusta, Republican, was elected to congress at the special election Monday in the Third Maine district by a majority of 6,000 over his Democratic opponent, Ernest L. McLean, also of Augusta.

Mr. Nelson carried his former home city of Waterville, which two weeks ago elected a Democratic mayor and city government, by a majority of more than 700.

## TWO OIL DRILLERS HURT.

HOUSTON, March 24.—One man was seriously and another slightly hurt when a West Columbia drilling test blew in Thursday unexpectedly heavy gasser, making a flow of 30,000,000 cubic feet. Johnny Hullen, derrick man, suffered a broken arm and leg and cuts and bruises about the head and body. J. D. Cole Jr., driller, also was injured but not seriously. The gasser still is running wild. The drill stem and derrick were smashed.

## MILE-LONG KISS ENDS CAUSES WOMAN FIGHT

CHICAGO, March 24.—Mrs. Isabelle Matteson explained to the police last night that a difficulty she had with a young woman came after she saw her rival and her husband, Gerard Matteson, connect man, in a mile-long kiss. Two detectives separated the struggling women and Matteson and the young woman with him were charged with disorderly conduct.

Mrs. Matteson saw him enter a taxicab with a young woman, she said, embrace her and kiss her, the osculation lasting while the taxicab traversed more than a mile of streets.

## FOREIGN DELEGATES AT TEXAS COTTON MEET

By Associated Press. FORT WORTH, March 24.—Delegates are present from all parts of the United States and from England and the Orient for the annual convention of the Texas Cotton association, opening here this afternoon.

## Humes' Specials for Saturday

What "Ohs" and "Ahs" will be heard when Ranger women and misses view this fascinating display of

### Spring's Newest Hats

That we are featuring Saturday at—

# \$5.00

Values as high as \$10 in the group

Discriminating dressers who demand individuality, style distinction and quality in millinery, but do not care to pay exorbitant prices, will find these Hats fulfill their every requirement. Each Hat has that individuality and style distinction that only "master" milliners and creators can produce. The materials used are the best the market affords. And while they are recognized as the equal of any, and the superior of many exclusive pattern Hats, the price is indeed exceedingly moderate.

PHONE 50 RANGER, TEXAS.

while tiny yellow chickens were used as favors.

The high score prize, a hand-painted tray, was won by Mrs. Frank Rarey, while the consolation prize, a hand-painted fruit knife, went to Mrs. Rarey's guest, Mrs. Woodson.

Refreshments of chicken salad, a fancy pudding and coffee were served to the following club members and guests: Meses. A. J. Orth, T. J. Holmsley, Woodson, Frank Brahoney, Cabe Terrell, D. M. Steele, M. H. Hagaman, C. C. Craig, Saunders Gregg, B. S. Dudley, George Bohning, Frank Rarey, Eben Finney, Miss Allayne Gholson of Fort Worth.

### AT 500.

Mrs. W. W. Edrington entertained several friends very informally at "500" Tuesday afternoon. Mrs. Gordon made high score, and received as a prize a hand-made guest towel. Mrs. Boyd received the consolation prize, a hand-made tea towel. After the game the hostess served delicious refreshments to the following ladies: Meses. A. W. Gordon, J. T. Lander, E. Deen, C. Hurt, R. A. Albright, L. C. Means, R. J. Boyd.

### FISHING PARTY.

The first fishing party of the season left Ranger yesterday afternoon for the lake near Olden and spent the afternoon and evening fishing. Fishing parties always suggest spring and no doubt this one is but a forerunner of many such happy occasions. A splendid dinner was cooked out in the open, with the fish that were caught supplying a part of the menu.

Those enjoying this outing were: Mr. and Mrs. J. J. McGloin, A. T. McKirley, Mrs. J. B. Stackable and B. W. Orr.

### PURELY PERSONAL.

Mrs. William Cunningham of Cisco, and Mrs. Earl Reid of Bartlesville, Okla., are guests of Mrs. Walter Burden, having motored over from Cisco for the recital last night.

B. W. Orr left last night for St. Louis, Mo., where he will spend some time.

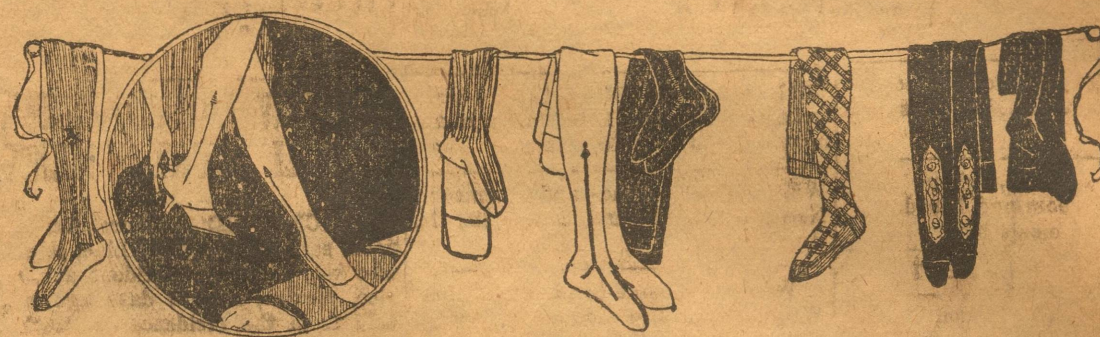

Mrs. Woodson of Pecos and Mrs. Frank Rarey of Wiles were visitors in Ranger yesterday.

N. J. Bozeman of Waco, is visiting his brother-in-law, Rufus Lackland at the Lackland poultry farm.

W. J. McCarthy, former agent of the Cooks and Waiters' union, is recovering from an operation at the Clinical hospital.

Britain is now by far the greatest meat-eating nation in the world.
