NO REVOLUTION IN CHIHUAHUA; MEXICANS SAY

Zone Commander Knows Activity and Whereabouts of Reported Rebels.

EL PASO, Feb. 17.—That there is no revolutionary activity in Chihuahua and no unusual movement of troops contemplated, was the assertion made today by General Eugenio Martinez, zone commander of Chihuahua, who arrived at the border to receive horses for the Mexican army.

General Rosalio Hernandez, formerly vice commander, who is reported at Santa Rosalia with a small band, will be overtaken and punished for purely local disturbances, Martinez declared. General Jose M. Amaya, who is reported to command a revolutionary band, went to the state capital in Chihuahua to protest against such reports, Martinez said. Other reports that General Miguel Gutierrez had rebelled in Chihuahua lacked confirmation. Martinez said this officer had merely gone there to visit his mining property.

"EMERGENCY" PASSES.

KIDNAPPING PLOT?

SAN ANTONIO, Feb. 17.—Guards have been placed about the farm of General Francisco Murguia, five miles south of San Antonio, following the report by a stranger in San Antonio of a plot to kidnap the former Carranza leader, take him across the Mexican border and have him shot. The plan, according to the informant, was for one of the three men, posing as officers, to approach Murguia at his home with a bogus warrant for his arrest. He was then to be taken to the border at Laredo and turned over to a supposed Mexican colonel.

TWO STATES AFFECTED.

EASTLAND COP ON TRIAL FOR MAN'S SLAYING

EASTLAND, Feb. 17.—The selection of a jury to try Night Policeman John Hennessy for the killing of W. S. Simmons last fall was in progress this morning. Five jurors had been selected from a panel of 100 before noon.

The killing of Simmons took place on Saturday night as the officer was searching his buggy for liquor in the Mexican quarter of the town. It is alleged that Simmons ordered the officer away from his buggy and on the latter's refusal drew his gun. Hennessy is said to have then drawn his revolver and Simmons to have attempted to take it away from him. In the struggle, the gun is said to have been discharged, killing Simmons.

The conference was called by Benjamin C. Marsh, managing director of the Farmers' National council, who arrived here today.

TWO CHARGES FILED AFTER LIQUOR RAID

Charges of moonshining were filed in Eastland yesterday against Joe Naples, 53, and Peter Ferro, two of the three men captured by county officers in the raid on a still Wednesday night on the Allen ranch near Straw. A still and over twenty gallons of grappa was captured with the men at the time of the raids. Both, in Public Letters, Affirm Innocence of Charges and Court Investigation.

Special to the Times.

EASTLAND, Feb. 17.—It became known last night that two men here have received communications purporting to be from the Ku Klux Klan, warning them to leave town within forty-eight hours "for the protection of womanhood." Ed Ransom, drifter, one of the men warned, has replied through the local newspaper protesting his innocence and claiming that the information furnished against him to the Klan was the work of some enemy. Henry Engle, the second man, who is at present unemployed, replied to the statement courting the fullest investigation of his past and present life and inviting the Klan to make public anything that they find against him. He also asked that if a thorough investigation reveals nothing detrimental to his character, that the Klan exonerate him publicly. Both replies are couched in respectful language.

The communication received by Engle is even more pointed than the one received by Ransom, he being warned to leave town, as the writers have all the facts concerning him and suggesting that he not make it necessary for the writers to impress the matter more forcibly on his mind. Both communications are signed by Eastland Klan No. 152.

HOWAT SHOWS STRENGTH IN MINERS' MEET

INDIANAPOLIS, Ind., Feb. 17.—The factional fight in the United Mine Workers' convention today threatened the power of President John L. Lewis and his administration. Alexander Howat and his outlawed Kansas miners showed unexpected strength in the early part of the roll call on the question of reinstating them in the union. "We are confident of the result," said Philip Murray, vice president and staunch supporter of Lewis. "The vote is just about as we anticipated." Five union districts generally considered Lewis strongholds voted only 736 to 540 against taking Howat back into the organization.

The youngster, a Belgian, came as one of seven stowaways on the United States liner Potomac. The lad was found on the third day out from Bremen, hidden in a lifeboat, by Dr. William Ford, the ship's surgeon. Four times previously Krupp pleaded with the ship's officers, he had tried to come into the United States, but each time he had been found out. However, he declared with emphasis: "Mike Gilhooly got into the country on his sixth effort. Maybe I'll be more successful next time."

LAND GRANTS AND INSURANCE MAY PAY BONUS

Congress Wavers Over Sales Tax, Which Will Be Bitterly Opposed.

WASHINGTON, Feb. 17.—Congress was torn today between legalizing the sales tax to pay the bonus demands or dropping the cash bonus altogether and substituting paid up insurance or land grants.

This was the situation resulting from President Harding's letter suggesting a sales tax or abandonment altogether as the only alternatives for the bonus.

Work on Solution. Members of the House ways and means committee met this morning to sound out sentiment on the two propositions. But if the committee decides on advocating the sales tax, just how to put it through is the rub, as there is just as much opposition to such a tax now as at any time since congress convened.

The sales tax will have hard sledding. That is certain, from the utterance of both friend and foe, although a few members, bitterly opposed to it on principle have begun to waver and say:

"Well, I might favor the sales tax for purposes of providing funds for the bonus, but I would not vote for it for any other reason."

LEGION WON'T COMPROMISE.

WASHINGTON, Feb. 17.—The soldier bonus bill will be reported to a Republican caucus within the next ten days and "A Republican house will pass it," Chairman Fordney, of the ways and means committee, stated in the house today following a warm discussion.

The house was thrown into an uproar upon objections raised by Representative Garner of Texas, ranking Democratic member of the ways and means committee, to the action of the Republicans in calling in a representative of the American Legion to advise with them at a secret meeting from which Democrats were excluded. Representatives of the legion refused to accept President Harding's veiled suggestion in a letter to congress yesterday that the cash bonus might be dropped from the adjusted compensation bill. The American Legion still favors the four-fold plan of cash, paid-up insurance, home or farm aid or vocational training, spokesmen for the ex-service men told the house ways and means committee.

SALES TAX OPPOSED.

CHICAGO, Feb. 17.—The American Farm Bureau federation today went on record against financing the proposed soldiers' bonus by any form of sales or consumption taxes. It recommended an excess profits tax instead.

GENE REYNOLDS IS CANDIDATE FOR SHERIFF

Ranger's Veteran Police Official Hurls Stetson in Ring Today.

E. F. (Gene) Reynolds, assistant chief of the Ranger police department, has announced for sheriff. Reynolds has been a member of the department for the last four years, serving as chief under the Hagaman administration and at various other times has served as acting chief for long periods when called upon to serve in this capacity by the city commission in times of emergency. From acting chief he was made assistant chief last fall on the election of Luther Davenport as chief. During practically the entire time of his service in the department he has been in charge of the collection and handling of funds. He is a member of the National Police Conference.

Reynolds came to Ranger four years ago from Austin, after receiving his discharge as a lieutenant in the Third Cavalry. He formerly served as a deputy sheriff in Lampasas county, where his father, J. M. Reynolds, was formerly connected with the sheriff's office there and engaged in the stock business.

JAKE SALES AT BRECKENRIDGE ARE ENJOINED

BRECKENRIDGE, Feb. 17.—Injunctions restraining five drug stores of the city from selling Jamaica ginger or "jake" were granted here yesterday by Judge C. O. Hamlin of the Ninetieth district court, upon application of the district attorney and county attorney. The injunctions are temporary, lasting only until the March session of the district court. Officials will then ask that the stores be permanently enjoined against such sales, it is stated.

The drug stores effected are: Leeland Oates, Red Front drug store; M. J. Wheeler, Wheeler Drug company; A. Akers, Akers Drug store; E. K. Burge, Palace Drug company; Oscar Olsen, Swede's Drug store. Those violating the injunction are subject to a \$500 fine and six months imprisonment, it is said. The injunctions were issued following the conviction of a number of men for selling jake in local drug stores.

Some time ago a larger log was brought here but no mill would tackle it and it was placed in a Hoquaim park for exhibition purposes.

HELD GUILTY OF FREEING MEN BEFORE TIME

Not Worthy of Law Enforcement of Laws, Jury Holds; Hightnight Tried Monday.

ARDMORE, Okla., Feb. 17.—Buck Garrett, sheriff of Carter county, was found guilty by a jury in district court here today on the fifth count of the ouster charges, alleging misconduct in office, and his suspension from office was made permanent.

The fifth count charged that he permitted prisoners to be liberated from jail before their sentences had expired.

Garrett was found not guilty of counts one, two, four and six of the misconduct charges, and the third count was dismissed during the trial. These counts related to non-enforcement of gambling, liquor and vice statutes, and aiding the defense in one case.

The case against Chief of Police Lem Bates of Healdton, set for trial at this term of court, will be dismissed, following Bates' resignation last night. Similar proceedings against Mayor Jack Langston of Healdton were dropped when his resignation was received Wednesday.

The trial of Chief of Police W. R. Hightnight of Ardmore is set for next Monday.

BIGGEST KLAN PARADE IS HELD AT FORT WORTH

FORT WORTH, Feb. 17.—With searchlights from skyscrapers playing upon the dark roofs of other buildings, apparently to prevent sniping, several thousand klansmen paraded the streets here last night in full regalia before other thousands who lined the sidewalks to see the first public march of the Klan in Fort Worth.

The Fort Worth Klan is reported to have been augmented by several thousand members from the Dallas, Corsicana and other klans. Street cars were barred from the streets during the parade, which took an hour to pass a given point. Traffic officers, stationed at every corner of the downtown section, held back automobiles seeking to cross the streets on which the parade was held. A further safeguard was thrown around the marchers by the Klan in placing a number of members in civilian clothes at strategic points along the line of march. Unofficial reports that a parade would be held by the klansmen brought crowds to the downtown section yesterday before dark.

Shortly after dark the Klan began to gather in the Athletic park on Railroad avenue, a short distance from the business section. The park was closely guarded by masked men. A horseman bearing a fiery cross composed of tiny electric lights, and two other horsemen bearing huge American flags took the lead as the parade moved out. Following the horseman came the marshal of the parade. Then came a human cross composed of marchers in a cross formation. Next in line was a drum corps.

Walking four abreast, the klansmen came from the Athletic park to the Hayne triangle, in front of the Texas & Pacific depot. Here the marching men divided, two lines continuing north on Main street and two continuing north on Houston street. At Weatherford street, one mile from where the lines separated, the line moving on Houston crossed over to Main to make the return trip to the park and the other line crossed to Houston. This resulted in four lines marching on each street at the same time, two going south and two going north.

NON-FORTIFICATION IN PACIFIC MAY BE FOUGHT

WASHINGTON, Feb. 17.—Senate action on the five-power naval limitations treaty will be delayed until further information has been obtained concerning non-fortification of Pacific islands. This decision was made today at a meeting of the foreign relations committee, when a strong sentiment developed against the non-fortification clause.

BOMB PLOT SLEUTH WHO OBTAINED 'CONFESSION' SLIPS BACK INTO U. S.

NEW YORK, Feb. 17.—Adding another deep, dark mystery to the Wall street bomb plot story released some weeks ago by agents of William J. Burns, of the department of justice, in Warsaw, the New York American was informed yesterday that Dr. Paul Bernardo Altendorf has returned to this country.

Altendorf, an agent of obscure international enterprises for years, was credited with part of the work that resulted in the arrest of William Linde or Wolfe Lindenfeld, who confessed, Chief Burns alleged, to complicity in the Wall street outrage and then retracted.

Immigration Commissioner Robert E. Tod stated definitely and positively yesterday that Altendorf, a supposed "special and secret" agent of the department of justice, has returned to the United States and was admitted at the pier without passing through Ellis Island.

Confirms Return.
To which Assistant Commissioner Byron H. Uhl added:
"This man was taken from the

ship by agents of the department of justice. Our reports are definite on this point. We have no idea where Altendorf is at present."

The definite statements of the immigration officials ended a mystery that has interested the newspapers since the Polish liner Lituania docked last week at a South Brooklyn pier. Rumors at that time that Burns detectives and department of justice agents had met Altendorf and escorted him from the ship were vigorously denied.

Altendorf's movements, it is believed, were directed from Washington. E. J. Brennan, acting chief of the local bureau of investigation of the department of justice, yesterday denied all knowledge of the special agent's arrival.

Exactly what the relationship now is between Altendorf and Chief Burns, his employer, could not be learned yesterday. If Altendorf is still on the government payroll, his presence in this country is taken to mean increased activity in seeking to verify the now thoroughly discredited Linde "confession."

CO-EDS DENY THAT THEY EXPECT KISSES FROM MEN

NEW YORK, Feb. 17.—A majority of the co-eds at Columbia and New York universities Thursday denied and characterized as a libel the published contention of R. L. Ingraham, editor of the University of California "Josh" paper, "The Pelican," that "college women universally desire to be kissed and they expect every man who takes them out to attempt it." A majority of Barnard girls also cried out against the charge.

True, a rather negligible minority smiled when the matter was called to their attention, refusing to comment either in the affirmative or negative. The male undergraduates, too, were stinging with conversations, but prodigal in knowing smiles. An overpowering minority of women students, however, registered an emphatic "no." The substance of their hot denial, boiled down, was that the college girl saved her kisses—all of them—"for the man who was to be her husband."

"All college girls like to be kissed," wrote Editor Ingraham, basing his assertion on four years of apparently intensive observation. "Cave-man stuff is regarded with high favor, and college girls are disappointed with the mild and meek type of student."

As to the assertion that the college girl kisses only the man she is to marry, he said: "Yes, but every man a college girl goes out with is a prospect."

POLITE CHINESE PIRATES PAY FOR KILLING SHIP'S PASSENGER

By Associated Press.
PEKIN, Feb. 17.—A recrudescence of the activities of former Chinese pirates recently took place when the Kwang Lee, a steamer bound from Shanghai to Hong-kong was boarded by a band of thirty Chinese who came alongside in junks and demanded the surrender of the vessel. The pirates imprisoned the crew and commanded the captain to continue his course toward Hong-kong. Two of the three

junks in which the pirates had come alongside the Kwang Lee were abandoned owing to the fact that they were badly battered by the heavy sea prevailing, while the third was towed by order of the pirate chief.

The steamer proceeded toward Hong-kong reaching Taiseni bay late one night when it was stopped and the Chinese loaded their junks with plunder. Before leaving the ship they completely dismantled its engines and the pirate leader is reported to have bidden a polite good-bye to the captain of the Kwang Lee and sailed off. The steamer managed to make its port some two days later.

The plunder of the pirates amounted to some \$120,000, including five cases of silver dollars consigned to some Chinese bank in Hong-kong. One Chinese passenger was killed in the boarding of the ship by the pirates but they made up for this untoward incident by compensating the father of the killed passenger with a present of 500 gold dollars and two gold watches.

He says that he was carried to Perry, five miles further on, and that he spent the entire night hunting for his wife, who was found the next day a mile north of Topeka, where she had drowned in a small creek, nine miles from the point where she jumped from the train.

The personnel department for the women employed by a chain of drug stores in New York City is presided over by Miss Julia K. Blanchard who has more than 600 women under her in the sixty-eight stores comprising the chain. Miss Blanchard not only attends to the employing of the women, but oversees their training and helps them over difficulties they meet, once on the job.

SALE OF DALLAS BASEBALL CLUB NOW COMPLETED

DALLAS, Feb. 17.—Final consummation of the deal by which the Dallas franchise in the Texas league changes hands occurred at 4:15 o'clock yesterday, when, with the cash payment of \$95,000 and the signing of the necessary notes on the purchase price of \$155,000, J. Walter Morris and Ike Sablosky became the owners of the local club.

Since the posting of the \$10,000 to bind the signed sales agreement on Friday, Jan. 30, completion of the biggest transaction that ever involved a Class A ball club has been held up pending a careful examination of all the papers in the case by attorneys for the two sides.

Yesterday afternoon in the law offices of Gresham & Willis, the stockholders of the old Dallas Athletic association and the purchasers met and the money and papers changed hands. A small regiment of attorneys were on hand.

Plans of the new stockholders call for Ike Sablosky to act as president, Walter Morris as secretary and business manager, and Jim Galloway as field manager of the club.

RINGLING TAKES RICKARD'S PLACE IN SPORT CLUB

NEW YORK, Feb. 17.—George L. (Tex) Rickard, the famous fight promoter, indicted Thursday for alleged assaults upon two 15-year-old school girls, is automatically forced out of his position as president and directing genius of the Madison Square Garden Sporting club. At a meeting of the officers of the club on Wednesday Rickard presented his resignation with the understanding that if the grand jury, then hearing evidence, should indict him, the resignation was to become effective.

Rickard already was at liberty on bail of \$10,000 in respect of charges made at a hearing in a magistrate's court. He was brought into court again by his counsel Thursday after the two indictments were delivered and the district attorney permitted him to be liberated again on a continuation of the same bail after a plea of not guilty.

Rickard had no comment to make on any of the charges and he denied that he had resigned from the presidency of the club, which, under his direction, has promoted nine world championship fights in all classes except the featherweight, in the last two years. But it was learned on reliable authority that the indictments automatically relieved him of his position and substituted John Ringling, owner of the circus and a large backer of the garden.

It was freely reported in sporting circles that the well-known sporting and show man will soon be named as the active director of the garden's affairs. There is apparently no intention to discontinue the club as the largest and most active organization of its kind in the world. In fact, Rickard, it was learned, had nothing to do with the last two fight cards in the place, the Johnny Dundee-Joe Benjamin fight and the championship contest of last Friday night in which Benny Leonard retained his lightweight title by outpointing Rocky Kansas.

RUTH SIGNS

NEW YORK, Feb. 17.—The American drama will lose the services of its greatest left-hand ukelele player when Babe Ruth whangs out his final chord in closing his vaudeville stunt next Saturday night. The Bam has been wooed back to baseball. He will entrain for Hot Springs, Ark., next Monday to begin his preliminary training. Apparently the Bam has come to an understanding as to terms.

Ruth was reported to have signed for three years at \$25,000 a year, but considering that he received \$20,000 last season and was a gate attraction worth many thousands to the club owners all over the circuit, it is hardly likely that he has accepted a mere \$5,000 raise. In fact, the Babe is reported to have been offered \$35,000 and this may be much nearer his new price.

MEDIEVAL FEUDALISM RESTORED IN PERSIA AS RED LEADER FLEES

Quarrels Between Lieutenants and Treachery in Ranks Cause Failure of March That Might Have Made Oriental History and Changed World.

By Associated Press.
MOSCOW, Feb. 17.—Ehanulla, the chief of the red revolutionary movement of Persia, who last June made a daring raid that all but succeeded in capturing Teheran, has escaped the Shah's Cossacks and is now here.

"The people's struggle against the Shah and the feudal landlords has failed. There'll be no more," he said. His comrade leaders in the revolution were killed.

Ehanulla is rated the most picturesque figure of all the bandit and revolutionary leaders of the Middle East.

Long Fighting Record.
Educated and daring, for sixteen years he has fought the established order in Persia. His long hair and shaggy beard are known to thousands of Persian peasants.

He is known as the Karl Marx of Persia, but in many ways resembles Makno, the peasant leader of South Russia. He has never been captured, though he has taken part in every armed struggle of Persia since 1905. He might now be master of Teheran and of Persia but for quarrels between two of his associate leaders, Kutchik and Haidar.

With a peasant army strengthened by Russian Communists, he struck from Rescht to Teheran, while many of the Shah's 50,000 troops were putting down risings at Tabriz and at

Horoshan, and was within thirty-five miles of Teheran when a betrayal in his own ranks gave news of his whereabouts and forced his retreat.

Back to Feudalism.
"After the Anglo-Russian treaty, by which both nations agreed to leave Persia alone," said Ehanulla, "I realized that the Sayyid Zia-u-Din government was a reversion to the old, corrupt law of the feudalists, each of whom is a sort of a little Shah, and that the rule of the combined peasantry and educated class would go under, perhaps forever, unless I made a last desperate effort."

"So I got together a few thousand peasant soldiery and by secret paths and rapid marching tried to reach Teheran. The Cossacks of the Shah began to attack me and the Russian Communists with me lost heart. I fought until I was surrounded and then retreated."

"An Englishman no longer dares to go into North Persia, but this is not much satisfaction for me since they will again control in Teheran. My pity is for the poor peasants. I built schools and hospitals for them."

"There need be no fear that Persia will join the Pan-Islamic union projected by Enver Pasha. The Islamic religion has ruined the Orient and we have no desire to form a union that would again place us in subjection to the Turks."

CRIME HEART DISEASE, NOT OF HEAD, JUDGE SAYS

CHICAGO, Feb. 17.—Where the churches are full, the prisons are empty.

Judge Marcus Kavanagh epitomized his remarks with that statement.

"Crime," said the jurist, "is not a matter of the intellect, but of the disposition; not a question of the mind, but of the heart."

The contention of many well-known criminologists, such as Ferri Ellis, and Garofalo, that "crime is the result of defective intelligence," he declared has been blasted by Dr. Herman Adler, state criminologist, through various intelligence tests.

"Religion, the most potent force for good in the world, is back of all laws, necessary to all reform. Protestants, Catholics and Jews in prison are not there because of their creeds, but in defiance of them."

"Church-going countries, where the people actually go to church, as Ireland, Switzerland, Norway and Denmark, are the law-abiding countries."

"The Province of Quebec contains about as many people as the city of Chicago. In 1917 it was reported in the Canadian province that there had been but one of the graver crimes against women committed there in the last sixty years."

MRS. ANNA E. HUGHES.
Mrs. Anna E. Hughes, 22 West Elm street, Chicago, an artist who enjoys a wide and enviable reputation for skill in china painting, in relating the facts of her remarkable experience with Tanlac, says:
"I haven't enjoyed such good health or felt so well in every way in years as I do now. Before I took Tanlac I was so run down that half an hour at my work would tire me completely out and I was actually so nervous and weak that at times the brush would fall from my hands and I would have to quit work for the rest of the day. Every night I would lie awake for hours, miserable and nervous."
"My improvement after the first few doses of Tanlac was rapid and constant. I'm happy to say I'm well and strong now and feel better than in twenty years. Tanlac deserves every word of praise I can give it."
Tanlac is sold in Ranger by Phillips Bros., and in Eastland by Palaco Drug Store.—Advertisement.

OIL 2,000-BARREL WELL IN NEAR ELIASVILLE

BRECKENRIDGE, Feb. 17.—The Katie Bell No. 1 of Charles P. Roeser is reported to be flowing at 2,000 barrels a day after tapping the pay twenty-two feet in the lime at 3,255 to 3,285 feet. The well is an offset to the big producer recently brought in by the Mid-Kansas company on its Hill acreage, five miles south of Eliasville and some distance south of the Young county line.

Roeser is a local operator. The big producer on the Katie Bell tract is the second operation to be completed, the No. 2 Katie Bell having been brought in a few days ago for about 250 barrels production.

Three new locations have been made on the tract.

WHITE CORPORATION FIGURING ON MERGER

NEW YORK, Feb. 17.—Officials of the White Oil corporation and the United Gas and Electric corporation conferred yesterday on a pending \$70,000,000 merger of the two corporations when it was expected would be announced officially soon.

The United Gas and Electric corporation controls public utility companies in Pennsylvania, New Jersey and some of the Southern states. It also controls many oil and natural gas properties in the Middle West through stock ownership.

The White Oil corporation was originally formed by Patrick J. White and Thomas White, who owned or controlled extensive oil lands in the Western states. After incorporation of the company, control was obtained by the Crown Oil & Refining company, Imperial Gasoline corporation. Most of its acreage is located in Texas, Arkansas and Louisiana.

SUPPLY HOUSES GET STREETMAN LEASES

STREETMAN, Texas, Feb. 17.—The Trinity & Brazos Valley railroad has sold two leases along its right-of-way here, one to the National Supply company and the other to the Consolidated Supply company. On account of the many drilling wells in the Streetman territory, it is thought

that the supply companies will establish branch houses here. The Parkersburg Rig & Reel company has a representative here looking for a suitable location for a branch house.

REVERE TAKES OVER TWO NEW PROPERTIES

FORT WORTH, Feb. 17.—The Revere Oil company recently purchased and took charge of the properties of the Hog and Kentucky Chief Oil companies, both being located in the North and North Central Texas oil lands.

Properties of the Hog Oil companies consist of a considerable block of leases, together with some oil field equipment. The leases are located in Eastland county.

Properties of the Kentucky Chief company are located in the Northwest Burkburnett field and a considerable block of acreage in the receivership district of the Red river bottoms. Just what steps are to be taken in the development of these properties has not been announced.

MEXIA NEAR 200,000

By United Press.
MEXIA, Feb. 17.—The U. S. Texas company's Anderson No. 10 which came in late Wednesday, at 3,000 feet, was estimated today to be making 6,000 barrels.

With this addition, indications are that the week's output will establish a new record production of approximately 200,000 barrels daily.

PIN REMOVED FROM GIRL'S LUNG AFTER FIFTH OPERATION

By Associated Press.
PHILADELPHIA, Pa., Feb. 17.—Little Louise Hoffenstein, who was brought from Wichita, Kan., to have a pin removed from her left lung, will return home in a few days a happy girl. At Jefferson hospital today the skill of a physician and the efficiency of one of the latest devices of science removed the pin, which was traveling toward the 10-year-old girl's heart. Five operations in the West had been unsuccessful.

The operation today lasted two minutes and no anesthetic was used. A bronchoscope was inserted through the mouth and a pair of forceps lowered through the tube brought out the pin. The lung was not injured, doctors said.

The child swallowed the pin on Dec. 20.

TRASH, AND VACANT LOTS.

Clean-up day is now an assured fact, the city commission having set Wednesday, March 1, as the date. Success now depends upon obtaining the active co-operation of all residents and the perfecting of arrangements, in order that all trash may be hauled away.

Another thing which certainly should and probably will be taken care of in the clean-up day plans, is vacant lots. There are many vacant lots in Ranger littered with rubbish, which has been there for months. The owners of these lots may be hard to find. They may be in some far distant place and not interested in the state of their property.

Then, when the clean-up is ended, Ranger might as well lay its plans—which always follow an annual clean-up, for keeping permanently clean. One thing, a householder suggests in this connection, is to perfect better arrangements for the hauling of trash. He says that the minimum charge for hauling trash under the sanitary ordinance is \$1, and he cannot afford to pay this every week for the service, but if there were a nominal charge, he would be glad to have it hauled away weekly.

That is a matter that should be arranged. It is conceivable that the sanitary company cannot afford to make special trips for less than \$1. But is a special trip necessary to haul a sack or box of trash? Would it not be possible for the sanitary company to establish a regular trash-hauling service, serving five to a dozen homes with one trip, and thus reduce the cost for each to a few cents? We imagine many families would be glad to have such regular service, and the sanitary company might well increase its income by offering it.

As to vacant lots, why not beautify and cultivate them? Boys and girls, by planting gardens upon them, could be employed at work both remunerative and instructive, and the appearance of the town would be benefited. It is quite possible, also, by allotting vacant lots to different

groups, and offering prizes for the best, a competitive spirit would be aroused which would make the upkeep of vacant lots just like play.

TEACHERS SAY PARENTS ARE RESPONSIBLE FOR STUDENTS' MISCONDUCT

DALLAS, Feb. 17.—High school teachers yesterday placed the blame directly upon the parents for any immorality which may exist among high school students. The teachers declare they cannot watch the students at night, after or before school hours. They declare that there is nothing wrong with the morals of the students during school hours.

The grand jury continued its investigation into charges that gross immoral conduct among high school students has been prevalent. It is charged that some high school girls attend midnight dances at questionable places, take breakfast at cafes with men and report at class work without having been home since the previous day. The district attorney believes if anything is wrong in the schools it is due to "jelly beans" and "flappers," who have decided to take short courses, and have contaminated those associated with them.

It was said that one high school boy and a high school girl were arrested on the public highways for indecent conduct lately. They are under 16 and their cases will be handled by the juvenile authorities. Several high school students were before the grand jury today. Teachers are to be called, it was said.

PLIERS USED AS PISTOL BY BOLD DAYLIGHT BANDIT

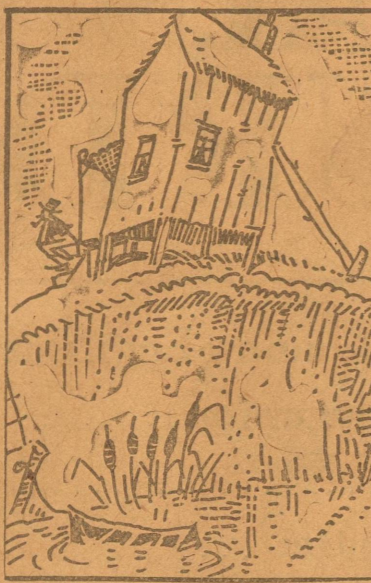

SEATTLE, Wash., Feb. 17.—Armed only with a pair of pliers, John Luttley held up two places of business here, one in broad daylight, the police charged today. He thrust the pliers forward, pistol fashion, veiling them in a pocket of his mackinaw and carried off \$310, according to the police.

He required two women clerks in a millinery store to lie face downward on the floor and while police sought him repeated the ruse in a restaurant. He was apprehended as he left the restaurant.

PINCH OF TAXES CLOSES FAMOUS BRITISH HOUSE

LONDON, Feb. 17.—High taxation has forced another British nobleman to desert a historic family seat and seek residence more in accord with his Linlithgowshire, a fine Italian mansion set in stately domain of beautiful Versailles gardens, one of the finest country estates in Scotland, and the home of the Marquis of Linlithgow, is to be closed. Seventy employees will be dismissed or transferred to other work.

The estate has been handed from father to son since 1703. Classified With Paupers. "Local and imperial taxes are too much for me," the marquis told an Edinburgh interviewer. "Like Jack Sprat and spouse, they leave nothing. A British noble lord, with no vote in such matters, is in a class with paupers and lunatics. Times are changed and we are changed with them," he philosophized.

That the position of landed gentry of England and Scotland truly is difficult is evidenced by the fact that before 1916 the marquis had disposed of his pack of hounds and all his horses except two chargers for military service. Shooting rights on his estate were sold. Further reductions are said to be impossible without failure in the duty of landlord. Hopeton House is one of the treasure houses of Scotland. The grounds, dotted with giant trees and intersected by shady hedges command splendid views, taking in the whole sweep of the Firth of Forth and the Ochil hills.

SCIENTIST WHO SOUGHT TO LIVE 100 YEARS IS DEAD

LOS ANGELES, Cal., Feb. 17.—The wish of Dr. James Martin Peebles, physician, scientist and author, that he live until March 23 in order to round out 100 years of life, failed of gratification. He died at his home here Wednesday. Dr. Peebles, who was in the diplomatic service in Turkey a long time, wrote a large number of books, among which was one entitled "How to Live a Century and Grow Old Gracefully." For the last sixty years of his life he had eaten no meat.

Miss Frances Birkhead, former secretary-stenographer of Lee M. Russell, of Mississippi, who has brought suit in the United States federal court for \$100,000 damages against the governor, charging that he betrayed her. PLAYFUL BABOONS AID DRUG SMUGGLERS

SAN ANTONIO, Feb. 17.—How two playful baboons were used by sailors in smuggling narcotics at Galveston was told by Howard J. Brooks, federal narcotic inspector, who passed through the city en route to Houston. After the boat had tied up to the wharf the two pet baboons would be brought out on deck, Brooks declared, and the sailors would romp around with them. In time the two apes would jump over on the wharf and hide behind some boxes. The sailors, with their blouses loaded with cocaine and morphine, would chase the baboons behind the boxes and there hide the drugs. Later, after the vessel had been searched by federal officers, the sailors would remove the narcotics from the cache and peddle it among addicts. Brooks said an addict told him the yarn.

SIX INJURED WHEN RINGLING YACHT BURNS

BRADENTOWN, Fla., Feb. 17.—Fire resulting from an explosion on the yacht Salome, owned by John Ringling, millionaire circus man, injured six persons and destroyed the vessel, which was valued at \$50,000.

The injured, who are being cared for at Sarasota, are Mrs. John Ringling, L. C. Wallick, New York hotel man, and Mrs. Wallick; Mrs. Sanford Makeaver, Judge Ernest Heppenheimer of the New Jersey court of errors and appeals, and Mrs. Heppenheimer. All except Judge Heppenheimer were reported today as having been severely burned. The only others persons aboard the vessel were Captain C. W. Jarrott, the master, and his son, who were unhurt.

The explosion occurred about 6:30 o'clock Wednesday night when the yacht was in the gulf two miles off Cortez, a fishing village near here. It was said to have been caused by a backfire from the engine which ignited and exploded the gasoline tank. In a few moments the boat was in flames and it became necessary for those on board to leap overboard.

The accident occurred during a severe electric storm. Three small boats rowed by Captain J. W. Hunter, a Cortez fisherman, picked up the yacht's passengers and crew. They were taken to Sarasota where first aid was rendered. Four nurses were sent to the Ringling home. All of the

injured with the exception of Judge Heppenheimer, who said his injuries were not "worth mentioning," were severely burned about the face and limbs and will be confined to their beds for several days.

The members of the party were guests of Mrs. Ringling, having come here two weeks ago via the St. John's river from Sanford, to Jacksonville on the houseboat Pastime and from Jacksonville to Havana and thence to Sarasota. Ringling is said to be in New York. The four women were in the cabin, because of the storm and it was difficult to get them out. The yacht was of the auxiliary cruiser type, about forty feet long. It was burned to the water's edge and sank.

LATIN NATIONS DRIFT APART ON ECONOMIC ROCKS

PARIS, Feb. 17.—That the Latin European bloc is cracking and that at least three of its largest parts are on the verge of diverging each in its own direction, is the opinion prevailing in French official circles.

The main reason given is that for a long time jealousy against "the big sister" has existed both in Italy and Spain, where it would be hard nowadays to find somebody who would still admit France the first of the Latin nations.

"Jealousy," the French say, "because of local difficulties in those countries, of which we cannot be held responsible. Bolshevism and fanaticism in Italy, the Moroccan war and a very bad economic situation in Spain, is to blame for the discord."

Events such as the anti-French demonstrations in Turin, the denunciation of the commercial modus vivendi between France and Spain and the Franco-Spanish war of tariffs are significant.

France is making efforts to avoid friction, but most of her best intended actions are exploited against herself by German propaganda, French officials say.

Of course, the three sisters won't come to real fighting, but on the political and economic grounds, they will soon dislike each other.

RICH MEN LURED BY PRETTY AUTO 'VAMPS,' ROBBED

CHICAGO, Feb. 17.—"There are hundreds of girls along the boulevards playing the same game that I got caught at," said Mrs. Anna Rich, 19-year-old vamp, when she, her husband and two other men Thursday pleaded guilty to a charge of robbery, brought by Carter C. Blair, wealthy manufacturer.

Mrs. Rich said her "station" was at a corner of Wilson avenue and Sheridan road. Beautifully dressed, she would pose as a maiden in distress, looking appealingly at passing motorists, especially those in large cars who had a prosperous air.

Blair picked her up and offered to take her home. She directed him to a house in Western avenue and as they drew up her husband and the other two men held pistols to Mr. Blair's head while they despoiled him of his money and jewelry.

"The city is full of chumps who fall for the boulevard vamps," commented Mrs. Rich. "They get stung by the score, but most of them are afraid to make any complaint."

The woman's husband and his companions were sentenced to one to ten years in the penitentiary. Sentence was reserved in her case because of her confession.

PLANT ONE GRAIN AND REAP 322,000 IN ONE-YEAR TEST. VALLADOLID, Spain, Feb. 17.—An experiment to show the fecundity of a grain of wheat has just been concluded at the official school of agriculture here, with the result that one grain produced in a year 322,000 grains.

A simple multiplication sum shows that each of the original grains planted reproduced itself 12 by 8 by 65 by 50, making a total of 322,000 grains.

PERSIANS DRIVE OUT BOLSHEVIKI INVADERS

BAKU, Azerbaijan, Feb. 17.—The last of the Russian Communists have arrived here from Persia, fleeing before the troops of the Shah, under the general direction of the prime minister of Ghavamous Saltans, who demanded that the terms of the Anglo-Russian treaty for both nations to let Persia work out her own destiny be observed.

Rotstein, the Soviet ambassador to Teheran, has been sent home, among others. The invasion of Persia was under-

taken in 1920, the Russian Communists co-operating with three revolutionary bandit chiefs of Persia—Ehsanella, Kutchik and Haidar. The failure of the movement is attributed here to quarrels between the three bandit chiefs.

AMARILLO RANCHER IS ACQUITTED OF KILLING. VEGA, Texas, Feb. 17.—Henry C. Harding, wealthy cattelman of Amarillo, was acquitted by a jury here of the murder of D. E. Walker, who was shot and killed last May 13 on the defendant's ranch.

Harding pleaded self-defense. The jury was out but a short time.

NEW PICTURE OF MISS MABLE NORMAND, QUIZZED IN TAYLOR MURDER SENSATION

Mabel Normand & William D. Taylor

Through her presence in the house of William Desmond Taylor, the movie director, the night he was killed, Mable Normand, screen star, has become an engrossing figure in the slaying mystery. In spite of announcements that Miss Normand was suffering from a nervous breakdown, and that her physicians had advised the district attorney to delay his questioning her, she was brought before him and quizzed concerning her movements on the night of the murder.

Kansas Woman With 274 Descendants Credits Long Life to Old Fashioned Cooking

By Associated Press.
SABETHA, Kan., Feb. 17.—Mrs. Bertha Perkins, who will be 98 years old next April, found a real thrill recently when three additional great-grandchildren arrived in three Sabetha homes, within a period of forty-eight hours. They brought the number of her descendants up to 274.
Mrs. Perkins' five generations of descendants are divided as follows:
Ten children, eight of whom are living.
Seventy-five grandchildren.
One hundred and fifty-five great-grandchildren.
Twenty-five great-great-grandchildren.
Nine great-great-great-grandchildren.
Mrs. Perkins was born in Virginia, April 25, 1824; married David Perkins in Ohio, March 16, 1843. Her maiden name was Bertha Marcum. In 1848 they emigrated to Iowa, and in 1857 took a homestead in this—Nemaha county—where she has lived ever since. Mr. Perkins died in 1893.

KNICKERS, MAIN PART OF ELOPING BRIDE'S ATTIRE

NEW YORK, Feb. 17.—A wedding gown, handsomely appointed with old lace, and a bridal veil caught with orange blossoms, held no charms for Mrs. Amelia Gericke Brand, 18 years old pretty and blushing.
Knickerbockers formed the main part of her trousseau—and with reason. Knowing she was to be pursued by her mother, who was desirous of blocking the nuptials, Mrs. Brand donned a mannish garb in order that all haste in flight could be made.
After eluding her mother at various places the bride, who was Miss Amelia Gericke, was married to William J. Brand. The success of the elopement was made possible by the "knickers," the pair said today, for it was only by making great haste that they were able to elude the pursuit.

EARLY ASSYRIANS HAD STRICT MARRIAGE LAWS

BERLIN, Feb. 17.—Marriage relations among the early Assyrians were subject to strict code laws, it is now learned from a valuable cultural document made accessible to the scientific world in German translation of the cuneiform text preserved in the Asiatic division of the Berlin Ethnographical museum.

The early Assyrian lawmakers had this code inscribed on a set of clay tablets, unearthed during the excavations of the German Asiatic society in Mesopotamia.
By comparing this find with other prehistoric documents, the date of these tablets has been established around 1100 B. C., which would coincide with the reign of Tiglat-Pile-sar I.

In the United States there are approximately 712,000 women, 45 years of age or more, who never entered matrimony.

TULSA COUPLES' MOCK MARRIAGE IS REAL THING

Mock turtle soup only imitates the original, but a "mock wedding" may be the real thing.
That's what thirteen Tulsa young people learned at a valentine party at the home of Mr. and Mrs. E. R. Pitcher, 340 West Thirteenth street, Friday night. In a "mock wedding" contest Florence Pitcher drew the arrow-pierced heart and the privilege of choosing a life-partner, and Harry J. Scott arose grandly to the occasion and telephoned for Rev. J. W. Abel. Not until the marriage ceremony had been read and the couple had seized wraps, rushed to the front door and disappeared did the guests realize that they had witnessed an honest-to-goodness marriage. The first to grasp the situation drove after the couple just in time to see their train slide out of the railroad station.
Of the merry company the only ones "in" on the secret were the engaged pair, mother, father and sister. Little sister performed her role by maneuvering to give her sister the prize heart during the contest. Even the brother, James Pitcher, who "stood up" with his sister, thought it was all a huge joke. The whole program had been carefully planned out beforehand.
Miss Pitcher, her father and brother have all been employed at the Texas company, and Scott is in charge of the Tulsa Rubber Stamp company.—Tulsa World.

BLOW ON HEAD FRACTURES SKULL FROM EAR TO EAR

BROWNWOOD, Feb. 17.—Roy Cawyer of Mercury, was brought here for surgical treatment. While assisting in hanging a hog that had been killed, the pole on which the hog was swinging became loosened and struck Cawyer on the head, breaking the skull from ear to ear.
The man is conscious, and surgeons entertain hope for his recovery.

A USED CAR IS NO BETTER THAN THE FIRM OR INDIVIDUAL WHO SELLS IT

—And the responsible permanent dealer will not misrepresent one to you—he can't afford to.

—A square deal is what you want when you buy a used car. Whether you pay \$100 or \$1,000 for it, you want just that much in motor car value. You should be sure to deal with someone who thinks enough of your business to give you such treatment as will bring you back to his establishment. Making a steady customer of a used car purchaser is, or should be, the aim of any responsible dealer.

—We have spent many years (three years in Ranger) in building a reputation for square dealing with our patrons and we prize that reputation as one of our most valuable assets, for on the satisfaction or dissatisfaction of those patrons rests our future success or failure.

—Our ability to keep on selling used cars and giving used car satisfaction will, to a great extent, determine our ability to stay in the new car business.
