Through this means, not the least of which to the people themselves of Europe, will be the lowering of food prices, about which, just as in Amerca, there has been a great hue and cry. Possibly also the lifting of the plockade will mean the downward turn of prices in America, in respect to wheat, flax and lumber. Whether the entire range of prices in American ommodities will be directly affected s of course a question of doubt, but that the removal of the blockade ban will serve to put the trade of the world on a more stable basis cannot

Unusual Value-In Tires for Small Cars

Not only is characteristic Goodyear merit conspicuous in Goodyear Tires for small cars but ordinarily the first cost is found to be not greater than that of other tires; often it is actually less.

The combination of unusual value in first cost and very low final cost. of course, is a result of Goodyear experience, expertness and care employed as insistently in the making of 30x3-,30x3½- and 31x4-inch tires as it is in the construction of the famous Goodyear Cord Tires used on the highestpriced automobiles.

For this reason more cars using these small sizes were factory-equipped last year with Goodyear Tires than with any other kind. The initial issue of 250.000 shares of ALLEN-DALE OIL COMPANY stock has sold and is selling so rapidly that it will all be sold out in the next few days.

THE ALLENDALE OIL COMPANY with a capitalization of five million dollars, par value of stock \$1.00, would naturally sell out this, the first issue, especially so as it carries a special dividend guarantee coupon attached to stock certificates of the first quarter million shares issued of 100 per cent dividends to be paid to this issue of stock, being one-half of the profits from the first five producing Company wells, the other one-half of the profits going toward further development.

Therefore it pays you to buy stock in this, the first issue because this issue will supersede all subsequent issues of stock and therefore be worth more money in value and dividends.

We have yet a little of the stock left of the first issue, however, we suggest your making reservations or buying at once. Any day may be too late to buy in this issue.

Note — THE O'REAR WELL NO. 1 at Desdemona was shot on Sunday and bridged over 500 feet above the bottom. The well is now being cleaned out and has all promises of being as expected—one of the best wells in that

To Stockholders: All who bought stock through this office since last Wednesday, the 14th, can get their certificates and special dividend guarantee attached, by calling at this office or advising where same is to be sent.
