GREATEST FIELD

VOL. I.

LEWELLING IS IN RACE FOR GOVERNORSHIP

The Times has received the following:
To The People of Texas:

I announce my candidacy for the office of governor of Texas, subject to the will of the Democratic party as expressed in the next July primary. I shall fully state my views on public questions and open my campaign at a later date. A general statement at this time will be sufficient.

I am a Democrat; I do not believe in Socialism on the one hand, nor in government at the hands of private monopoly on the other. Neither do I believe in the brand of so-called Democracy advocated by Joseph Weldon Bailey. I endorse the administration of President Wilson, and shall deem it an honor to defend it against the attacks of all the representatives and attorneys of the dissatisfied "special interests" from within or without the Democratic ranks. I am opposed to the candidacy of any man for governor, or for any office, who while wearing the uniform of a Democrat, fires upon the Commander in Chief of the Democratic hosts. I will follow the leadership of no man who denounces the only Democrat who has led us to national victory since the days of Grover Cleveland, nor will I subscribe to the Democracy of any man who, while posing as a Democrat, steadily assails the party from the inside, while the Republicans make the assault from the outside.

Woodrow Wilson is entitled to the lasting credit of the American people for his remarkable legislative achievements; the winning of the world war, and his noble efforts to prevent as nearly as possible future conflicts between the nations of the earth.

I join issue with Mr. Bailey in his emphatic opposition to the League of Nations covenant, even though safeguarded by explanatory reservations, and as an American citizen, I condemn the action of the Republican party in delaying the peace treaty and their attempt to thwart a compact among the nations to arbitrate their future controversies by agreement rather than by the sword. I believe this nation should lead the world along the pathway of peace.

I am for states' rights as interpreted by the supreme court of the United States, not as contended for by the national brewers, who have coined their dollars through tears and blood, nor by those who reap their dividends through the toil and sweating of children. I approve the national and state destruction of the liquor traffic, the submission by congress of national suffrage, and the passage of the federal child labor bill, all of which Bailey so bitterly denounces, and I insist that these laws will bring an immeasurable blessing to society.

I cannot too strongly protest against Mr. Bailey's effort to proscrib the ministers of the gospel because they exercise their constitutional right of free speech. The same constitution which permits Mr. Bailey to defend the whisky ring and assail the preachers to speak for the righteous, and defend the crime proposed to a union of church and state, and I am also against the union of saloon and state.

I approve the action of Governor William F. Hobby in signing the measures which broke the power of the liquor machine and gave to the mothers of Texas the right to a voice in the government under which their children are reared, and I specially commend the last legislature for its ratification of the national woman's suffrage amendment. I have urged the destruction of all grog shops and the enfranchisement of the women of this state or many years.

Having proposed a graduated land tax while in the thirty-fourth legislature, I differ most decidedly from Mr. Bailey when he defends the border land barons in their efforts to hold their million-acre estates without paying their just share of taxation.

I declare myself a friend to education from the little red school house on the hill to the great state university. I shall give special attention to the needs and interests of the farmers; labor will receive its just rights at my hands, and I shall promote, encourage and protect the business interests of the state.

I concur in the action of the federal authorities in reporting anarchists. I favor shipping the red terrorists to their native land as fast as tonnage is available.

As governor I shall stand for economy in public expenditures; the establishment of a budget system; the abolishment of all useless offices; the more equal distribution of the burdens of taxation; a progressive system of road-building; liberal appropriations for all our educational departments, with special attention to the needs of rural communities; adequate child labor laws; mothers' pensions; equal pay for women doing the same work as men, largely increased teachers' salaries; humane treatment of prisoners; needed reform in the criminal and civil code, and legislative recognition of the patriotic service rendered by all enlisted men in the great war, the establishment of domestic relations courts to aid in solving the divorce problems; the impartial enforcement of the prohibition laws, and full suffrage for women, both state and national.

I will compel all gas, telephone and other public utilities to give adequate service or forfeit their charters. I pledge myself to make the busi-

SHOW HOUSES TO BE CLOSED IN FLU FIGHT

All places of amusements will in all probability be closed tomorrow night, if conditions grow worse, according to City Manager Turner. This will be only one of the many precautionary measures in the influenza fight taken by those in charge of the public health of the city. He further said that, in his opinion, the city schools should not be closed.

Were the schools to be closed, he stated, it would only entail an added danger to the pupils who would be on the streets and in places where the influenza germs would be more prevalent than in the school rooms.

Several cases of influenza have been reported in this city and several deaths have resulted. At present, there is no cause for alarm, but all necessary precautions should be taken. Dr. C. O. Terrell, city health officer, did not deem the situation alarming enough to encourage extreme measures and reported that the local physicians had their cases well in hand.

Mr. McDonald, superintendent of schools, said that the pupils complaining of sickness of any nature are at once sent home.

NO EPIDEMIC AT ABILENE; FEW CASES

ABILENE, Feb. 2.—There are a few cases of genuine influenza in Abilene but nothing approaching the dimensions of an epidemic, according to Dr. L. W. Hollis Jr., city-county health officer. He declared that there are many cases of lagrippe in the city, and warned the people against sneezing or coughing in public.

Germans to Get List of Those to Be Tried Today

PARIS, Feb. 2.—The list of Germans to be demanded by the Allies and placed on trial for violations of the laws of war will probably be given to the German representatives here today, according to the Petit Parisien.

1,000 Expected to Attend W. Tex. C-C Meeting Here

STAMFORD, Feb. 2.—So successful and brilliant was the second annual convention of the West Texas Chamber of Commerce, held at Abilene January 22, that preparations even at this early date are being made for the big third annual event which will be held at Ranger some time in the next twelve months.

General Manager Porter A. Whaley was compelled to cancel a large number of delegates to the Abilene convention because of the lack of accommodations. However, at Ranger it is expected that there will be a different condition. He predicts at this early a day that not less than 1,000 delegates and visitors will attend the Ranger convention. Special trains will be operated probably from Amarillo, El Paso, Fort Worth, Waco and Wichita Falls, picking up Pullmans en route.

The attendance at the second annual convention has been placed at 400. The inclement weather—the worst in many months—restricted the attendance. As it was, it surprised even the officials of the organization.

The oil city will have a special attraction to hundreds. Ranger is known the world over as an infinitesimally small portion of the people have had an opportunity to know Ranger except through the press and oil reports. The third annual convention will permit these delegates to enjoy not only the great convention, but have an opportunity to see big wells brought in.

Four of Five Bodies Washed Ashore Are Identified

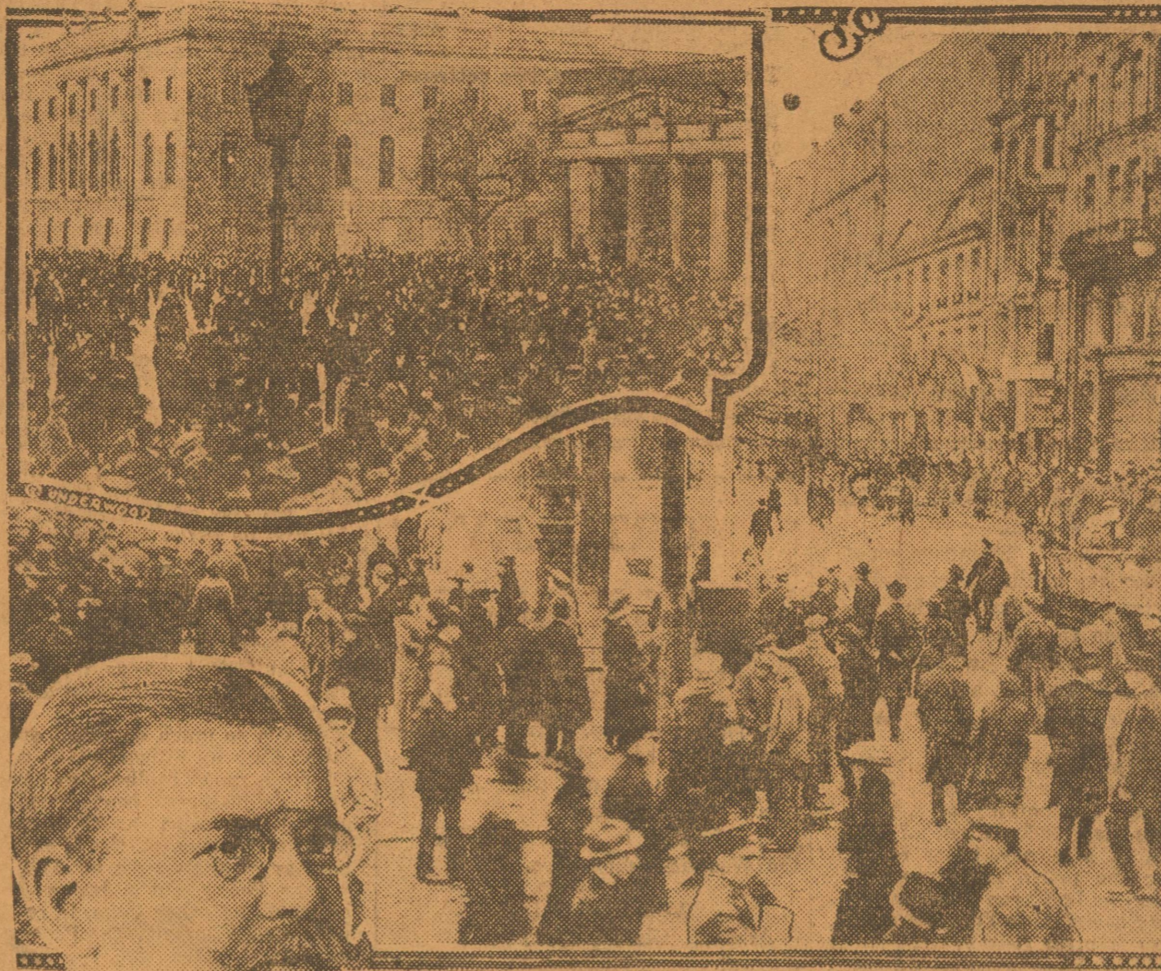

SAVANNAH, Feb. 2.—Four of the five bodies washed ashore on Jekyll Island near here yesterday with wreckage from an unidentified craft, were identified today as members of the crew of the ocean-going tug, Fortune, which carried a crew of fourteen to twenty men.

ness of the profiteer exceedingly unprofitable. I shall recommend laws with teeth to curb those "sappers of the public blood." I am in favor of the state lending the federal government every possible aid to complete the destruction of the packing house industry is entitled to protection, but any monopoly it necessitates is utterly indefensible.

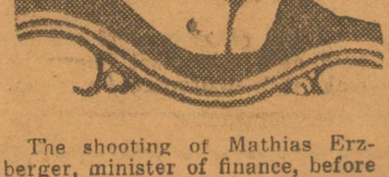

Believing that the men and women of Texas who do not ask for special favors but only justice at the hands of the state can defeat this Philistine army of liquorites, profiteers, lawless privilege and counterfeit democracy, I sincerely ask their support in the contest with the Goliath of Gainesville.

Respectfully,
DWIGHT L. LEWELLING.

WOUNDING OF ERZBERGER MAKES SITUATION IN GERMANY MORE CRITICAL; ARMORED CARS PATROL BERLIN STREETS

Photos show crowds surging through Unter den Linden and Mathias Erzberger. In photo at left an armored car can be seen handling the crowds in a previous disturbance.

The shooting of Mathias Erzberger, minister of finance, before

the criminal courts building in Berlin has brought the situation in Germany that much nearer a crisis. The Ebert government has faced a succession of uprisings ever since the signing of the armistice and has barely weathered

many of them. The wounding of the cabinet officer was followed by rioting and promiscuous shooting in the streets of the capital and resulted in the calling out of armed troops and armored cars to patrol the streets.

RINGLING ROAD STARTS LAYING TRACK, EASTLAND

EASTLAND, Feb. 2.—The connection with the Texas & Pacific railroad at this point was begun by the Ringling line today.

Ties and rails are being strung north of the intersection and track laying will begin at once. The grade for north and south connection with the Katy at Mangum is completed and track laying will begin at that point next week. A road engine from Ardmore, Oklahoma, and a switch engine from Dayton, Ohio, are moving toward Eastland and will arrive next week. The first instalment of a shipment of enough 90-pound steel to lay fifty miles of track has arrived and from one to two carloads of bridge timber, ties and other material are arriving daily.

Ranger Hi School Basketball Team vs. Strawn Today

The boys' basketball team of the Ranger High school will be given an opportunity to show their mettle when they meet the quintet from Strawn on the local court this afternoon. The local lads have been practicing for their battle under C. S. Conley and are determined to put out a winning team.

No Extra Session of Legislature Is Probable Now

AUSTIN, Feb. 2.—An extra session of the legislature is considered improbable at this time. Despite the fact that there will be a conference of prominent educators of the state here tomorrow with the governor, it is not considered likely that any action will be taken toward the calling of an extra session.

CHIEF OF POLICE OFFERS AID IN INFLUENZA FIGHT

Chief of Police Parrish, sick with influenza, Sunday asked the Times to announce:

"Knowing that influenza has again taken hold of this country and that whiskey has been recognized by all reputable physicians as the most effective remedy that can be used in combating this disease, I will give to any man, woman or child, from the stores of liquor which I have on hand, which I have collected in raids on stills and boot-legging places, whiskey, if they will present a written prescription from any reputable physician, or order from a registered nurse.

"My home is open to the afflicted who are homeless and my houses, in or out of town, are welcomed to be used as hospitals. I will give financial aid to any of the sick who are without financial means."

During the epidemic last year, Chief Parrish threw his home open to the sick and placed his rent houses at the disposal of the local nurses, who used them as hospitals.

5 STATES ARE PLANNING OPEN SHOP SOCIETY

AUSTIN, Feb. 2.—Preliminary plans for the organization of an Interstate Open Shop association to embrace Texas, Oklahoma, Arkansas, Louisiana and New Mexico, were formed at a meeting of open shop representatives from fifteen Texas cities in San Antonio, according to a statement by Gillespie Stacy, secretary of the Austin organization, published here today.

Stacy said that a committee to carry on the work had been named. Members of the open shop association pledge themselves not to accede to union demands for closed shops and, while not barring union labor, they refuse to bar non-union labor from their works.

Small Chance for Food Prices to Take Drop

SYRACUSE, N. Y., Feb. 2.—Those who are best informed on agricultural conditions in America cannot offer the slightest hope of lower prices so far as the farmer is concerned, according to Sherman J. Lowell, master of the National Grange.

6 Defendants Are Absent in Trial of Sen. Newberry

GRAND RAPIDS, Feb. 2.—Although half a dozen defendants in the Newberry election conspiracy trial were unable to be in court today, the indications are that there would be no delay in the case.

All the jurors under the watchful eye of physicians, have escaped the influenza epidemic, including John S. B. Newberry, brother of the principal defendant.

Frank G. Daily was to begin the opening statement for the prosecution at 2 o'clock this afternoon.

CHILDREN OVER 12 MAY ACT AS MESSENGERS

AUSTIN, Feb. 2.—County judges issue permits for children over twelve years of age to act as messengers, provided that the children have been excused from school under the compulsory education law and all conditions of the child labor act are met, according to an opinion given by the attorney general today.

ECUADOR PRESIDENT TO VISIT THE U. S.

GUAYAQUIL, Ecuador, Feb. 2.—Jose Luis Tamayo, recently elected president of Ecuador, will start on a visit to the United States within three months, it was announced here today.

Changes in the Cabinet Order of Day at Washington

WASHINGTON, Feb. 2.—Cabinet changes were the order of the day here today.

Carter Glass, secretary of the treasury, recently appointed senator from Virginia, is expected to be sworn in today. David F. Houston, secretary of agriculture since the beginning of the Wilson administration, takes oath as the successor to Glass, and Edwin T. Meredith of Des Moines becomes head of the department of agriculture, succeeding Houston.

DO YOU KNOW A MR. RAFFE? The Times has been requested to aid in locating a Mr. Raffie, who is employed in this city. The information furnished the Times is that Mrs. Raffie is very ill in Fort Worth and his presence is needed there at once. Anyone who can assist in the matter is asked to call the Phillips Petroleum company office.

Deny Dependents of "Reds" Are in "Deplorable" State

NEW YORK, Feb. 2.—Authorities at Ellis Island today denied any knowledge of "deplorable" conditions among families of extremists reported on the steamer Buford, which carried the "Reds" back to Russia, a round held in deportation proceedings as charged by the American women's committee, which announces that it will make efforts in Washington to have these dependents assisted.

PECAN GROWERS TO ORGANIZE ASSOCIATION

SAN SABA, Feb. 2.—Pecan growers in this and other sections of the state are to be organized into an association for their mutual benefit and protection, if the plans of the San Saba chamber of commerce are carried out. An invitation has been sent out by the chamber to prominent nurserymen and nut specialists of the state to meet with pecan growers at an early date and assist in the organization of the proposed Texas Pecan Growers' association.

The association will have as its purpose the standardizing and grading of pecan crops, the creation of a more favorable market and increased demand for the nuts and the establishment of a pecan growers' exchange similar to that of the walnut and citrus fruit growers of California. It is pointed out by those advocating the movement that Texas pecan growers lost more than \$3,000,000 in 1919 by allowing the speculator to fix the price on their crops. While growers in some parts of the state were forced to accept from six to ten cents a pound last year, it is hoped that through the proposed exchange the grower will be able to sell his better grades at from forty to sixty cents a pound and shell the lower grades, selling the meats at from seventy-five cents to \$1.25 a pound.

Severe Earth Shock Recorded at Washington

WASHINGTON, Feb. 2.—A severe earthquake lasting more than two minutes and centered between 3,300 and 3,800 miles from Washington was recorded early today on the Georgetown university seismograph.

GERMAN MERCHANTS ARRIVE IN U. S. TODAY

NEW YORK, Feb. 2.—Several German merchants arrived here today on the Scandinavian-American liner, the Ligolav, from Copenhagen and Christiania.

MORE DEATHS IN 1918 THAN EVER BEFORE IN U. S.

WASHINGTON, Feb. 2.—The death rate in the United States for 1918 was the highest on record, according to the census bureau's annual mortality statistics, issued today, which show 1,471,367 deaths for the year, representing the rate of eighteen per cent for 1,000 population.

Of this, thirty-two per cent was due to influenza and pneumonia and occurred during the last four months of the year, when the epidemic prevailed.

AUSTRIAN SPY EXECUTED AT PARIS TODAY

PARIS, Feb. 2.—Lieutenant Funck, an Austrian who during the war was employed in a bank here and reported to the Germans where shells of long range guns fell, was executed today.

Louis Guaspere, German spy, was also sentenced to be executed, but at the last moment made revelations to the authorities and his execution was postponed forty-eight hours.

Pershing Due in San Antonio for a Visit Tomorrow

SAN ANTONIO, Feb. 2.—Nearly three years from the time he left here to take command of the American expeditionary forces in France, Gen. John J. Pershing will return to San Antonio tomorrow for a busy two-days' visit.

Inspection of army posts and camps, dinners and public addresses are included in the formidable program mapped out for "Black Jack," in conferences between the local reception committee and Major General Joseph T. Dickman, commander of the southern department.

General Pershing will be met at the station upon his arrival by a reception committee of citizens representing the civic organizations of San Antonio and the city and county officials, who will join General Dickman and a staff of army officers. By the express wish of the general, there will be no military escort.

The welcoming party and General Pershing will ride in motor cars from the Southern Pacific station, which General Pershing's party expects to reach by 10:50 o'clock Tuesday morning, to Alamo plaza, where the general will be formally welcomed by Mayor Sam C. Bell.

After a luncheon with personal friends in the Menger hotel, General Pershing and his staff will begin their official duties, inspecting Kelly Field, Camp Normoyle and Brooks Field Tuesday afternoon. The first day of his visit will be given over entirely to the army, General Pershing being the guest of honor at a reception and dance that evening in the post "gym," following dinner in the home of Major General Dickman. By 9 o'clock Wednesday morning he will be at work again, reviewing troops at Fort Sam Houston and then going on to Camp Travis to review the second division and inspect the camp.

At noon he will be the guest of the Rotary club, of which he is an honorary member, at a luncheon.

Following the luncheon General Pershing will address the American legion.

To visit Houston Feb. 5. HOUSTON, Feb. 2.—Gen. J. J. Pershing will be presented with his title to the city on his arrival here Thursday morning, Feb. 5. Immediately upon his arrival the general and his staff will be conducted to Ellington Field on a tour of inspection. He will return to the city in time to be the honor guest of the Rotary club at luncheon. At 3:30 the general will be taken on a tour of the city, and at 4:30 will be presented to the city by the American Legion in the city auditorium.

Immediately following his presentation, the general and his staff will be given a dinner by the city, to be followed by a reception and dance in his honor.

General Pershing will leave Houston at 11:30 p. m. for Dallas.

Paid Poll Taxes in Ranger Total 2,153 February 2

Today 2,153 paid poll taxes are shown on the records in the office of Tax Collector Ringold, and it is estimated that Eastland has from two to three hundred Ranger registrations that have not been turned in as yet. Approximately 1,500 service men will be entitled to the vote, as shown by local statistics.

RED CROSS SOCIETIES TO MEET AT GENEVA

GENEVA, Feb. 2.—Preparations have been completed for a meeting of the general council of the League of the Red Cross societies here March 2.

POOL HALLS LOSE FIGHT TO STAY OPEN

WASHINGTON, Feb. 2.—The supreme court today denied a motion, made in behalf of the Texas pool and billiard room owners to enjoin temporarily state officials from enforcing the state act prohibiting such places to run, pending final determination by the court of appeals involving the statute's validity.

The lower courts held the act constitutional.

CLOSE ALL HALLS.

DALLAS, Feb. 2.—Action by the United States supreme court today in refusing to grant the restraining order in the Texas pool hall case will have the effect of closing all pool halls and billiard establishments in the state until the constitutionality of the anti-pool hall act is finally determined, according to officials here.

TREATED WELL BY MEXICANS, SAY AVIATORS

LAREDO, Feb. 2.—Lieutenants Davis and Grimes, American army aviators, who returned to the United States from Mexico yesterday after their release by the Mexican authorities, said today that they were shown every attention by the people near Guerrero, near which city they were forced to land because of a fuel shortage.

Lieutenant Stone, of the aviation corps returned from Mexico City today with the airplane.

SENATE WILL RENEW DEBATE ON PEACE PACT

WASHINGTON, Feb. 2.—The renewal of the senate debate on the peace treaty next week was regarded as virtually assured today when Republican leaders decided to join with the Democrats in a movement to bring the treaty back into the open senate.

Senator Lodge, Republican leader, planned to give notice today that he would move next Monday to suspend the rules and proceed to a consideration of the treaty. The Democrats already have announced that they would have a similar motion next week.

In the form proposed by Senator Lodge, the motion will require a two-thirds majority but the general prediction was that more than that number would support it. Should Senator Lodge's motion fail, however, with the motion of the Democrats the following day, it will be in such a form that only a majority will be necessary to pass it, party leaders say.

The Democrats contend that no suspension of rules will be necessary to take up the treaty and that position is expected to be upheld by Vice President Marshall.

Paid Poll Taxes in Ranger Total 2,153 February 2

Today 2,153 paid poll taxes are shown on the records in the office of Tax Collector Ringold, and it is estimated that Eastland has from two to three hundred Ranger registrations that have not been turned in as yet. Approximately 1,500 service men will be entitled to the vote, as shown by local statistics.

RED CROSS SOCIETIES TO MEET AT GENEVA

GENEVA, Feb. 2.—Preparations have been completed for a meeting of the general council of the League of the Red Cross societies here March 2.

Magazine of West Texas C. of C. Is Received Here

A copy of "West Texas Today," the official publication of the West Texas Chamber of Commerce, and the initial issue, has been received by the Daily Times.

It is the plan of the organization to publish the magazine every month. It will be devoted to the best interests of the regions it serves and will carry stories and articles by expert writers on subjects of vital interest to West Texas.

Nobody familiar with the achievements of this unique organization and the men who direct it can doubt that "West Texas Today" will soon take its place as one of the most interesting and instructive magazines in the Southwest.

The present issue is in the nature of a bulletin, setting forth the reasons for the organization of the W. T. C. C., and giving the history of the organization, from the time when the first call was sent out by the chambers of commerce of Ranger, Fort Worth, Brownwood and Wichita Falls on Dec. 17, 1918, to the present time.

Considering the amount of good that W. T. C. C. has done and the remarkable amount of publicity it has achieved, it seems strange to think that at the first meeting, at which a preliminary organization was made, took place only a little more than a year ago.

The first number of "West Texas Today" gives a brief but comprehensive history of the growth, problems, and accomplishments of the organization. This issue carries no advertisements, but features a number of good photographs of officers and directors.

Since Chester Crowell broke into the big time short story writing, W. T. Wright, formerly editor of the Ranger Daily Times, has been appointed publicity manager for the W. T. C. C. to fill the place caused by the resignation of Mr. Crowell. Mr. Wright has had a varied and broad newspaper experience, and he is familiar with every phase of publicity work and especially interested in agricultural development. He furnishes news which no live newspaper can afford to pass up.

The review of activities of the organization in the first issue of the magazine gives increased confidence in the work of the organization and causes the reader to close the volume with a feeling of wonder, picturing a constantly expanding field of usefulness for the W. T. C. C. and its official organ, "West Texas Today."

Mention should be made of the seal of the organization, which appears on the title page of the magazine and on all stationery of the headquarters office. No better bit of advertising could be devised than the picture showing a rising sun illuminating a pastoral scene, with cattle grazing in the foreground, stacks of feedstuff and a bale of cotton; and in the distance, against the sunlight, the black derricks which are the visible emblem of the underground wealth of oil.

Mr. and Mrs. A. C. Pool of Big Spring, Texas, were Sunday visitors with Mrs. G. L. Panoast of the McCleskey hotel. Mr. Pool is president of the First National bank of Big Spring.

The following recently arrived guests are registered at the McCleskey hotel: R. C. Voorhees, Fort Worth; R. C. Flournoy, Los Angeles, Cal.; E. H. Dawson, Dallas; L. Woodward, Kansas City, and H. P. Jones Colorado Springs, Colo.

Among guests listed at the Commercial hotel are the following: H. D. Baird and H. McClung of Dallas; L. D. Ratcliff and F. O. Keefer of Fort Worth and W. S. Myers of Casper, Wyo.

The Southern Enterprise, Inc., of Dallas, states that the new theater under construction adjacent to the McCleskey hotel will be finished by March 1. The building will be roofed within the next two days. The two upper stories will be used as a hotel to be known as the Southland.

J. E. T. Peters, justice of the peace, who has been in Strawn, was detained there until today.

Mr. and Mrs. Fred Oakley returned yesterday from an extensive visit with relatives and friends in Knoxville, Tenn.

C. A. Faubian left Saturday evening for a two weeks' visit with relatives in Kansas and Missouri.

William T. Cuddy, late of the University of Nevada and a recent arrival in Ranger, has been added to the reportorial staff of the Times.

Mr. and Mrs. J. A. Craven left yesterday for Plainview and other points in the Panhandle. They plan to be gone about a week.

JANUARY REPORT OF BUILDING REFUTES THEORY THAT OPENING MONTH OF YEAR MUST BE DULL

Despite the theory that January is a dull month in building operations, Ranger building permits show a total of \$177,000 for the first thirty-one days of the new year, according to a tabulated report of T. C. Morrison, electrical and building inspector. This is far above other cities of Ranger's size in the state and does not indicate the dip that the city will hit when the business incident to the start of the new year is out of the way.

Some of the new buildings are: C. C. Cooper, cement building, \$4,000. C. O. Bolen, four-room cottage, \$2,000. R. Murray, four-room cottage, \$2,000. L. Herron, four-room cottage, \$2,000.

Ranger Building company, frame building, \$4,000. J. Dysart, frame building, \$4,000. C. J. Harper, brick three-story building, \$75,000. Texas Pike company, two cottages, \$6,000.

Ranger Tobacco company, store room, \$3,500. J. B. Ames, two-story dwelling, \$3,000. Colonel Brashier, dwelling, \$3,500. Ranger cafe, remodeled building, \$2,500. Bluno Gangali, stone residence, \$10,000. L. C. Moon, residence, \$4,500. J. McElroy, brick store, \$15,000. National Inv., cottage and garage, \$4,000. E. Douglas, frame building, \$2,000.

Thompson Resigns

T. B. ("Dude") Thompson, chief of detectives of the Ranger police department, Sunday handed his resignation to Chief of Police Parrish. He plans a visit to Sweetwater, and may at a later date return to Ranger to enter business, he said.

Mr. Thompson has been with the department since May, 1919, entering the service as a plain clothes man under Chief of Police G. G. Flournoy. Prior to entering the police department of Ranger, he had been chief deputy under Sheriff Jack Yarbrough at Sweetwater for four years.

He had been considering resigning for some time, he stated today.

A point to think of is that most any fellow can put 3 per cent of his gross sales in newspaper advertising and reap a 33-1-3 per cent increase. Let a Daily Times representative show you how to do this intelligently.

MORTUARY

MRS. J. T. MYNIER. The body of Mrs. J. T. Mynier, who died here Saturday night, was sent to Burnett, Texas, by the Milford Undertaking company. Mrs. Mynier is survived by her father and mother and one child. She formerly lived at Burnett.

Mr. Mynier is night manager of the Western Union here.

ALLEN S. GISH. Allen S. Gish, a chemist for the General Construction company, died at 3:30 p. m. Sunday. He is survived by his father and mother and brothers and sisters.

The body is being held at the parlor of the Milford Undertaking company pending word from relatives, who live in Lynchburg, West Virginia.

Irrigation of Pecos Valley Is Being Planned

STAMFORD, Feb. 2.—The Red Bluff irrigation project on the Pecos just over the New Mexico line, now seems nearer construction than ever before by reason of the disposition of the reclamation department of the government to co-operate with the Pecos Valley interests and the state in securing a survey to determine the feasibility of the proposed project.

The West Texas Chamber of Commerce, through its Washington office is seeking to interest congressmen and others in the matter so that government recognition of the proposed project will result in its early consummation. According to reliable reports to the organization, interest along the Pecos in the territory proposed to be benefited are willing to raise the necessary funds with which to make the survey if the proper cooperation and aid of the government can be enlisted.

The organization has determined that this project is of sufficient merit as to deserve its heartiest cooperation, both morally and financially. It has concluded to send a special representative to Pecos in the next few weeks to procure facts and information on it. The public, through the press, will be advised of the enterprise and be given an opportunity to form their own conclusions in the premises.

The Pecos river should be dammed three miles north of the Texas-New Mexico boundary at Red Bluff, providing sufficient excess water to irrigate 150,000 acres of extremely fertile soil.

Pecos is so much enthused over the project that its citizenship is willing to make a great preliminary expenditure to bring about consummation of the irrigation scheme. At the second annual convention of the West Texas Chamber of Commerce at Abilene in January Pecos sent a larger delegation than any other town, in comparison to size. "Dam it—the Pecos," was the slogan which got the bacon at the convention.

That Depends. "You don't intend to have the hot roll at supper, do you, Mrs. Come up?"

"Why, of course, if we can get hold of a cook that knows how to make it."—Baltimore American.

Which One? Mrs. Ponderosa—Stupid, slatternly, incompetent! Can't you see you've put too much powder on my chin?—Denise—Pardon, madame! Which chin?—Houston Post.

All standard brands are advertised, guaranteeing to the public full value. In answering advertisements mention that you saw it in the Daily Times. It helps prove to those who hesitate that advertising is their salvation. News hot off the forge of history in the making—in the Times.

The largest electric sign in the world advertises WRIGLEY'S. on Times Square, New York City: it is 250 feet long, 70 feet high. Made up of 17,286 electric lamps.

The fountains play, the trade mark changes, reading alternately WRIGLEY'S SPEARMINT, DOUBLEMINT, and JUICY FRUIT, and the Spearmen "do a turn."

This sign is seen nightly by about 500,000 people from all over the world.

Sealed Tight. Kept Right. A7.

Do You Want to Buy a Nice Home, Handsomely Furnished, at a Rare Bargain?

Five-room house, furnished completely with every necessity—above the mud line, but close enough in to be convenient—near High school; big water tank with guttering (you never have to buy water); splendid neighbors; in fact an ideal bargain, which to be appreciated must be seen. At the rare bargain of \$2,000, one-half down, balance monthly. Ground rent only \$5 per month. This will go quick; don't delay.

Why Women Lack Energy

If you are nervous, pale, enervated and lack energy, your blood is thin and impoverished. It needs more oxygen to vitalize it and stimulate the circulation throughout your entire body. Lack of oxygen in the blood always causes a lack of energy and strength.

If there is not a sufficient supply of oxygen in the blood—circulation slows down—the heart action slackens—the nerve cells do not receive proper nourishment and every organ of the body becomes sluggish and inactive. Oxygen electrifies the blood—revitalizes it, and makes it rich, red and healthy.

REOLO supplies to the blood the oxygen, organic iron and natural cell-salts that Nature requires to nourish the cells and maintain health, energy, vitality.

It stimulates the appetite, digestion and assimilation; tones up the nervous system; increases the activity of the circulation and makes the whole body glow with health.

REOLO rapidly increases the number of red blood cells—and plasma of the blood, destroys the insidious germs—burns up the worn-out cells, and sends through every artery a stream of rich red, vitalized blood that gives renewed strength, energy and endurance.

Start the REOLO Tonic Treatment today and you will be delighted with the steady improvement in your health. It has remarkable tonic qualities.

The large package of REOLO contains 100 tablets, sufficient for two weeks' treatment and only costs one dollar.

Abilene to Take Part in Baseball Meet Here Friday

ABILENE, Feb. 2.—Abilene will send another delegation to Ranger next Friday to attend the second conference there on organization of an Oil Belt baseball league, and between now and that time local fans will gather for the purpose of forming a club.

Four cities have signified their readiness to join the league—Abilene, Ranger, Eastland and Mineral Wells. At least two more towns will be welcomed, it is understood. S. D. Hunter of Abilene declared here that President Walter Morris of the Texas league probably will be present at the Ranger meeting.

Says Prices Due for Big Drop Soon

CAMBRIDGE, Mass., Feb. 2.—The Harvard committee on economic research, appointed by Harvard university, to make special studies of economic conditions, has just announced that the United States may

expect a check in the upward movement of prices and of business activities, which has been in progress since last April and perhaps a drop in prices. At the present time, however, the committee states, and on the basis of the November and December figures, it would be premature to conclude that a violent recession in commodity prices is probable. The committee bases its present

forecast upon the present state of the New York Stock Exchange, the prices of industrial securities, and the analysis of the banking and industrial situation, domestic and foreign. When it comes to news in general of the world and West Texas and its fast-growing city in particular, the Times tells 'em about it.

MR. A. L. LAMBETH, Inventor

Mr. Lambeth, inventor of the SUPERIOR OIL FIELD TOOLS, consisting of a ROTARY DRILL BIT, that drills twice as fast as any other bit on the market of its kind, a fishing tool that is unsurpassed for fishing out a string of tools, an underreamer with which you can go three thousand feet under the ground through a six-inch casing, cut out a base four feet across, fold up the machine and come back out; and, last but not least, the LAMBETH AUTOMATIC AIR ENGINE, with which we expect to startle the world and make our company one of the wealthiest in the world.

Our AUTOMATIC AIR ENGINE is constructed along the most scientific lines of modern engineering. The secret of the invention that will make this engine superior to any that has ever been placed on the market is a wonderful valve that Mr. Lambeth has invented that one pound of pressure applied to the intake will overcome fourteen pounds against the exhaust. This, the best mechanics state, will enable the engine after utilizing its power to exhaust it back into the auxiliary without any loss only frictional loss, which is taken care of by two pumps driven off of the drive shaft.

Call on our agents at 103 Commerce Street, Ranger, Texas. They will gladly explain this engine in detail.

Our officers are O. E. St. Clair, President and treasurer, a business man and a pioneer in the oil field of Ranger; A. L. Lambeth, Inventor and Superintendent; Judson Beach, General Manager, Dallas, Texas; T. L. St. Clair, with the Guaranty State Bank, Ranger, Texas, Secretary. Trustees are O. E. St. Clair, A. L. Lambeth, and Judson Beach. Three directors will be selected from stock holders. We have some openings for some live stock salesmen and some counties open for managers.

A Message to the Southern People

Letter From the Dallas Pattern & Manufacturing Company

Dec. 15, 1919.
Mr. A. L. Lambeth,
Lambeth Automatic Engine & Tool Co.,
Dallas, Texas.
Dear Sir:

In recommending your Fishing Tool, Rotary Drill Bit and Underreamer, will say that in my opinion they are the greatest inventions of modern times and the best oil field tools that have come before me for my observation and with a high market value; and you are putting them forward at an opportune time when our foremost efforts are for the development of the oil filed industry. Your possibilities with these tools are unlimited.

Relative to your taking these inventions into the north for manufacture, as you propose, let me urge upon you the importance of giving the south an opportunity to share with you the benefit of your inventions. We have the facilities right here in Dallas for the building of your tools, and our resources are unlimited. While we realize that it is quite a task to fight the manufacturing monopoly of the north, and natural for you to look to them for development, yet the south has begun to awaken to the possibilities of the manufacturing industry, and I can see no reason why, with your Superior Oil Field Tools, considering the present demand for them, that you cannot organize your company and manufacture them here in the midst of the oil fields, where you are right at the market door. And, too, I can see no reason why you should not select Dallas as a site for your plant. With a proposition with the merit yours has, it deserves the loyal support of every public-spirited man in Dallas and the financial backing of every man and woman who are looking for an investment with the least minimum risk and the greatest dividend-paying possibilities of any commercial proposition now before the people.

I cheerfully come forward and recommend your inventions to the southern people, and urge upon them the importance of keeping your inventions at home, and if possible to induce you to consider Dallas for your factory center. We have the railroad for handling your products, the material and the market for your products, and Dallas has enough public spirited men not to let you prod osition get away from it if offered for their consideration.

It is my understanding that you are to offer your Automatic Air Engine for manufacture in the same company, which will make your stock have the greatest dividend paying possibilities of any commercial proposition ever participated in by the public. My many years of experience in this line of work places me in a position to state that in my opinion your Automatic Air Engine is by far the greatest invention of the age for developing power. This, coupled with the fact that it consumes no fuel, places it in a class by itself, and my candid opinion is that \$1.00 invested in your company now will be worth thousands when your inventions are placed on the market.

My advice to you is to carefully guard your inventions from the grafting world. You are a Texan. Develop your patents in Texas and build your factory at Home, giving your own people a chance to share with you the profits you will surely derive from your industry.

I personally will back my judgment on your Superior Oil Field Tools, and especially your Automatic Engine, with which I am more familiar. Your engine, while unknown to the scientific world, but not unknown to the mechanical world, will entirely revolutionize the propelling power of the age, save countless millions in fuel consumption and make every share holder financially independent.

With my confidence in your proposition, I wish to offer you my co-operation and personal efforts for the furtherance of your industry, and you may count on me strong if you decide to promote your company here, and especially if you will make Dallas the home of your manufacturing plants.

With best regards, I am,
Yours truly,
J. F. WRIGHT,
Manager Dallas Pattern & Manufacturing Co.
Dallas, Texas.

STATEMENT OF R. B. JENNINGS, MECHANICAL DRAFTSMAN, 1005 1/2 Main Street, Dallas, Texas:
I wish to state that I have made the detail drawings on the Lambeth Automatic Air Engine; that I have figured and know that it is mechanically correct, and if the valve does the work that we expect of it and that the construction justifies us in believing it will do, the engine will be a success. I am also familiar with the Superior Oil Field Tools, which merit my recommendation. Signed: R. B. JENNINGS.

These are the opinions of men who know the merits of our proposition. It will be the purpose of THE LAMBETH AUTOMATIC ENGINE & TOOL CO. to either build a plant in Dallas or buy shops already paying a dividend on the investment for the manufacture of OIL FIELD TOOLS, specializing on our own patents but making anything the industry requires, from a monkey wrench to an oil rig, and at the same time be perfecting our Automatic Air Engine, which when perfected will revolutionize the mechanical industry of oil fields.

MR. BUSINESS MAN, does this APPEAL to you? An industry in which you can invest your savings with the smallest risk and the greatest possible dividend-paying possibilities. Can you even begin to figure what a hundred dollars invested in our company at par will be worth when our tools are ready for the market and our engines applied to different industries? Our engine will be adaptable to the AUTOMOBILE, the RAILROAD ENGINE, the STREET CAR, the AIRPLANE, the OCEAN LINER, the STATIONARY ENGINES; in fact, anywhere gasoline, electricity or steam power is applied.

Will you share in this industry and help secure for the South another Manufacturing Plant, with a scope only limited by the OIL INDUSTRY itself? Every factory added to the south means one step forward toward making us independent of eastern capital.

Don't rest until you have investigated this proposition. Call at our local office, 103 Commerce Street. Our salesmen will be pleased to explain our proposition to you.

The following are authorized to accept remittances: Messrs. Murphy and Reid, Agents, at main office T. P. Coal & Oil Co.; Jas. Mullarkey, with T. P. Coal & Oil Co. local office; J. B. Ballenfield, 103 Commerce Street.

INFLUENZA. Influenza which is prevalent in the United States, and Ranger is feeling the effects of the epidemic. According to statement of Dr. C. O. Terrell, city health officer, there are between forty and fifty cases in the city.

As a precaution against the spread of the disease, the city administration is ordering the closing of all places of amusement and has considered the advisability of closing the schools. These are measures which were taken during the epidemic in Ranger in 1918, when, with conditions much worse than they are now, one of the most effective and shortest fights against the disease in the state was made.

The sanitary department, co-operating with the city health officer, will take every step it can to insure the city against the spread of influenza. The citizens can co-operate. By strict observance of the sanitary regulations, cleanliness in public places and care against accumulation of trash and waste, they can help the authorities keep the city clean.

A RESOLUTION:

Resolutions pledging rigid enforcement of law by Ranger officers, indorsing the Times for its efforts to drive the lawless element from their practices, and asking the people's support in suppressing gambling were passed today by city commissioners and signed by Mayor M. H. Hagaman and Commissioners A. Davenport and T. G. Deffebach.

Commissioner M. R. Newnam is out of the city, on business in Detroit, and Commissioner R. M. Davenport was not present at the meeting, on account of illness.

The resolutions read: Be It Resolved by the Mayor and Commissioners of the City of Ranger, That:

- 1. All the laws of the city of Ranger and subject to enforcement by its officers shall be rigidly enforced and adhered to.
2. The lawless element which has endeavored to ignore and defeat not only the wish and will of the good people of this city but the plain letter of the law shall know their presence in this city is a continuing nuisance to the city as a whole.
3. The efforts and the energies which have been put forth by the Ranger Daily Times are indorsed and commended and the support of the Times is solicited in driving the lawless element not only away from their illegal and nefarious practices, but out of the city of Ranger once and for all.
4. The good will and support of the people of Ranger is likewise solicited and their cordial and helpful co-operation desired in the aid of the city government in suppressing gambling and all other forms of lawlessness.
5. The city government of Ranger denies and disclaims any and all responsibility for the scurrilous statements contained in a circular appearing on the streets of Ranger over the name of one of its employed officers. (Signed) M. H. HAGAMAN, Mayor; A. DAVENPORT, THOS. G. DEFFEBACH, Attested by: ALEX G. ARMSTRONG, Secretary.

BALD PATES TO URGE CUT RATE FOR HAIR TRIM International News Service. WINSTED, Conn.—"Hair-raising" features are promised for the next annual banquet of the Bald Head Club of America, to be held in New Haven in April. The executive committee will meet in that city to arrange for the big event, also draft amendments to the constitution and by-laws.

"Why should a bona fide baldhead pay full price for a hair cut?" is one of the questions to be considered.

Many Attend the Opening of Lamb's Theater Sunday

Were you among the thousands of Rangerites that yesterday wore a carnation? If you weren't, then of course you wanted to know why the decorations. Lamb's new theater opened yesterday, that's the why. More than 3,200 people attended the opening of the beautiful new theater, erected by the Lamb Amusement company of Ranger, yesterday afternoon and evening the crowds surged in and out of the new play house, each person carrying away with them a carnation as a souvenir. The lobby of the theater was beautifully decorated with cut flowers and vases and the interior was just as attractive. At the door an attendant food and as every person passed into the new playhouse, they received a cut flower. During each performance Mr. Cummings rendered a select concert on the phonolayer organ. The picture, "Pollyanna," proved a huge success for the opening attraction, pleasing all that witnessed it. The same picture will also be shown again today and tomorrow. People who are music lovers should not fail to attend one of Cummings and Lang's concerts. They are both excellent musicians.

Zang! Edith Wharton, engaging a maid for her apartment, interviewed one whose name might very appropriately have been Miss Doolittle. "Of course, madam," said the girl "you don't expect me to sweep?" "Oh, no, indeed." "Nor answer the door-bell?" "Certainly not." "Nor—" "No, no," Mrs. Wharton interrupted graciously. "I expect none of these things from my peacemaker. I only want her to look at, and for that you are too plain."—Boston Transcript.

The Dough Girl. "The cook has one big advantage over the family." "She has 'nang, but what is this 'recial one?" "The family may want bread before she'll knead it."—Baltimore American.

The Age of Wisdom. He—Old Greesby told me today that he sincerely regretted his mis-spent youth. She—I'm delighted to hear that was contented at last.—Columbia (S. C.) State.

POULTRY AND PRODUCE PRODUCTION SHOULD NOT BE NEGLECTED IN OIL FIELDS

BY PAUL C. YATES. One of the best remedies for the exorbitant prices of eggs, poultry and produce in the oil fields is the increased production of these articles here. At a reasonable price there is enough money in poultry raising, dairying and produce raising to pay fine dividends on an investment of time and money.

Eastland county used to be proud of its agricultural wealth, its fine crops and herds of fat cattle. But the coming of oil has worked havoc on farming and stock-raising. Thousands of acres of fertile land, which a few years ago produced good crops when sufficient rains fell, are now abandoned. Many farmers who used to raise large crops of wheat practically nothing. An old-time settler living here, a man who has followed the herds in a half dozen western states, remarked the other day that a hundred chickens in a pasture were worth now than a hundred head of cattle did thirty years ago. The remark is a profound one. Poultry raising was never so profitable as it is today. Good milk and butter never found so ready a market at so high a price. Vegetables raised in this county could be readily disposed of at a handsome figure. Carload after carload of milk, butter, eggs, produce and feedstuff is shipped into the towns and camps of the oil fields every year. These products suffer from being held in storage, sometimes for long periods, before they are shipped here. They are not nearly so desirable as products raised here and bought fresh would be. Four dairies are attempting to supply the wants of this city, and veterinary housewives and many restful proprietors have experienced a shortage of dairy products. Two large wholesale produce houses are in operation, and they sell produce as fast as it can be delivered at Ranger.

Very few men bring home grown produce here. The demand for such produce is insistent; dozens of truck farmers could not satisfy it. Eastland county needs some kind of an agricultural association, to promote the interests of agriculture, help solve the problems peculiar to the industry in the oil fields, and help to revive farming and prevent it from being a lost art in this county and district. The roads in the county will be a boon to the farmer, enabling him to bring his products to the town and bring machinery and supplies from town to his home. The Chamber of Commerce of this county could do a good work in this connection by making a study of agricultural conditions throughout the county and taking steps to interest home-seekers in the possibilities of farming. The interest of Ranger is intimately associated with the farming interests of the county. The oil may play out in years to come, but the soil is with us always. No community can afford to neglect the most important industry in the world—that of providing food and clothing. Eastland county has splendid natural possibilities. They should be developed to the fullest extent. The population of Eastland county has doubled and doubled again in the last few years. Yet the agricultural output of the county has been steadily decreasing during this period. This condition merits careful thought. Never was there a better season for planting a crop or a greater demand for the products of the farm.

LAMB.

Cast for "Pollyanna" is Most Unusual.

A most capable and well balanced cast, including some of the best established players in the industry, supports Mary Pickford in "Pollyanna," her first release for the United Artists corporation, showing at the Lamb theater.

The juvenile lead is played by Howard Ralston, a veteran "trouser" fifteen years of age. In the part of Jimmie Bean he gives an excellent interpretation of a boy hero.

Howard comes of a theatrical family and has been in the business since babyhood. At the age of two he was in "legit" and for the past three years has played in pictures. He appeared in "Huckleberry Finn," "Cupid's Little Sister," "The Doctor and the Woman," and many other photographs. Howard's pet aversion is ancient and medieval history.

William Courtleigh, cast as Mr. Pendleton in "Pollyanna," is an actor of 29 years' experience. He came into pictures from the stage, where he appeared in Belasco and Frohman productions, and also in stock with Augustin Daly. He played leads with Mrs. Fiske, Margaret Anglin and many others. "Pollyanna" is Courtleigh's fifth picture. Other productions in which he has featured are "The Better Man," "Birth of Character" and "Eyes of Youth." Courtleigh is the proud father of three sons, the oldest of whom is seven. The lad's great ambition is to be a burglar, instead of an actor, which inspiration was given him by the film serials.

The principal feminine role, outside of Miss Pickford's part, is that of Aunt Polly, played by Katherine Griffith, one of the most capable actresses in the picture world. Mrs. Griffith has been before the public twenty-five years—eighteen years in the spoken drama and seven years in the shadow realm. She is the mother of three children, one of whom, Gordon Griffith, is now under contract to the National Film company.

Mrs. Griffith delights in the title of "filmland's most domestic artist." Her home is her greatest pride and she can wield a broom or a fry-pan with the same dexterity that she does an eyebrow pencil or a powder jug.

LIBERTY.

"Pipes of Pan" Tickle Chaplin's Feet in New Production, "Sunnyside."

Charlie Chaplin turns back from the prosaic present to play "Pan" in "Sunnyside," his third million dollar First National Exhibitors' circuit attraction, which will be seen at the Liberty theater for the last time today. This by no means indicates that Mr. Chaplin has taken up serious Greek art. He merely falls in with the spirit of a group of setnetann maidens dancing classical themes, who appear when he is accidentally cast to a ditch by a cow which does not think well of him as a rider.

Charlie Pan's "Pan." Pan was the Greek deity who presided over the shepherds, and who was wont, says Greek mythology, to frolic over the hills with the nymphs. Later the Romans knew him as Faunus. One of his characteristics was

VERY WEAKLY FOR SEVERAL YEARS

North Carolina Lady Describes the Symptoms From Which She Suffered and Which She Says Cardui Relieved.

Trap Hill, N. C.—Mrs. Eudora Holbrook, recently made this statement: "I was very weakly for three or four years with womanly troubles. I was much worse at special times. Every month I would have to lie in bed for three or four days.

My chief suffering was in my back. I could not tell how badly it ached, but it seemed as if it could not possibly ache worse. Whenever I would get tired, or if I was much on my feet, it would ache. Cardui was all the medicine I took.

I saw, with the first bottle, that I was being benefited, but I kept right on for five bottles regularly. By this time I was so I could do all my own work, which for some time I had not been able to do.

That is the only time I ever took it regularly, but I always have it on hand to use when I do not feel well and it always helps me."

With a successful record of over 40 years to its credit, Cardui has proven its merit in the treatment of many of the simple ailments peculiar to women.

Try it. At your druggists.—Adv.

a pair of horns, and by means of rumpling his hair, Mr. Chaplin instantly makes it known that he is Pan. He has great sport burlesquing the aesthetic dances which are so popular just now, but comes out of his dream to find that he is still only a suffering farm hand with a dominating master.

Four beautiful girls who understand the art of the Greek dance, and whose movements are as graceful as Chaplin's are grotesque, assist him in the classical dances which are given with a beautiful sylvan background. This is but one of many beauties in "Sunnyside."

OPERA HOUSE.

Emotional Part for Hayakawa. Sessue Hayakawa, the greatest actor of his race and a screen star whose admirers are legion, has in "The Illustrious Prince," a magnificent vehicle for his talents. "The Illustrious Prince," showing at the Opera House tomorrow, is a screen dramatization of the book by E. Phillips Oppenheim, which achieved an enormous sale in this country and in England, where the scenes of the story are laid. The production, which has received masterly treatment at the hands of Director William Worthington, is released by Robertson-Cole.

The action of the story revolves around the mysterious murder of Count De La Mar. Years before in Japan, De La Mar had fleeced Prince Maiyo's father in a business deal in which many of the later's friends were involved, and the Japanese had committed hara-kiri. Determined to repay the debt of honor and blood, Prince Maiyo goes to London. There he finds that De La Mar has entangled the Duchess of Devenham in an affair of the heart, and she is about to elope with the county. De La Mar is murdered in a car during a dense London fog and circumstantial evidence found by the police points to the prince as the murderer. The duchess has reason to believe that her husband is the murderer. The solution of the mystery is not brought about until the very end of the last reel, and provides suspense and highly colored dramatic situations of unusual character.

LONE STAR. Mystery is a theme that has often been woefully mishandled by the movie makers. Following the so-called "thrilling mystery serials" through their score or so of episodes is a severe strain on credulity, eyes, and nerves. "His Wife's Friend," the picture at the Lone Star theater today, is a mystery picture of a delightfully different stamp.

In the first place, it was produced by Thomas H. Ince with Dorothy Dalton as the star. Mr. Ince's abilities as a producer are too well known to

mention here, and Miss Dalton has shown in recent pictures that she belongs in the front rank of emotional actresses of the screen. She has happily cast in her latest film venture. Aside from her shrewd sense of dramatic values, there is something about the physique and manner of Miss Dalton that fits her to play the womanly, capable type of heroine.

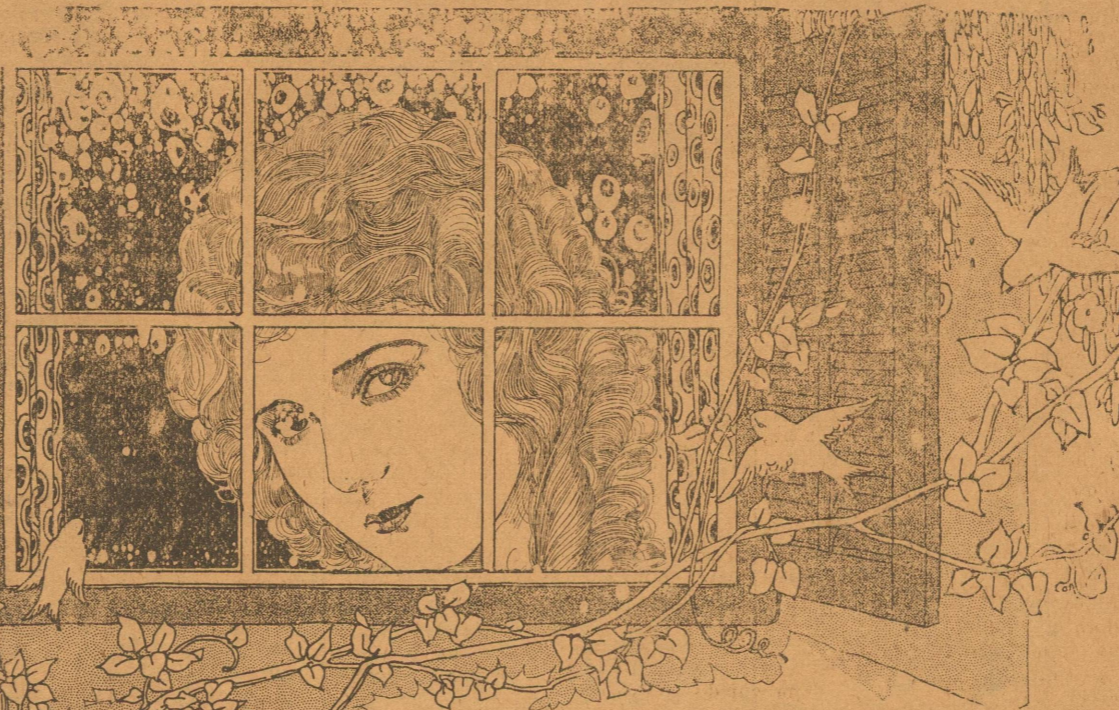

The story was adapted from a British novel by J. B. Harris-Burland. Sir Robert Grimwood has married an extremely youthful wife, played by Miss Dalton, and neglects her studiously

for the fascination of chess problems, which he works out for hours alone. An old sweetheart of Lady Miriam's appears, is invited to dinner by the now suspicious husband, and that evening Sir Robert's body is found in a nearby estate with a note that he has committed suicide in order that Heritage, Lady Miriam's admirer, and she may be free to marry.

Heritage suspicions that it is murder and is convinced of it when he meets Ling Foo, a Chinese criminal whom he knew in India, on the neighboring estate. The scene then shifts

to India where Heritage, a major in the English army, defends a garrison against the Chinese rebels and again encounters Ling Foo, who has a precious paper implicating Heritage in the murder. Heritage, in the mean-

time, falls in love with Ruth in India, the latter hears of his new

MARY PICKFORD

In Her Own Production of

"Pollyanna"

one of the great stories for which the amusement loving world has long awaited

From Eleanor H. Porter's Novel "Pollyanna" Published by the Page Company Screen Adaptation by Frances Marion Photographed by Charles Rosher

"Pollyanna" is the High Priestess of Optimism. She is not merely the discoverer, but the 33rd degree exploiter of the silver lining. The fairies who made sunshine from the cucumbers were insignificant beings to "Pollyanna." She is full of action, sparkle and pathos, and will help you to turn your sorrows, big or small, into gladness.

ADVERTISE**

IN THE DAILY TIMES?
WE SAY SO!
Recently we doubled our job print-
ing capacity and were wondering how
to keep the men busy. Our solicitors
were unable to supply the depart-
ment.
THREE ADVERTISEMENTS
Costing Only \$20.16
Produced enough work for a week's
run.
AND AGAIN
If it did not, Ranger's leading mer-
chants would not spend the money
they do. When the leaders, who
have grown to their present standing
by constantly making such an expen-
diture, heartily endorse our columns,
why isn't it good business for the
small firm to adopt such a policy.
Profit by others' experience.
ADVERTISE

THE RANGER DAILY TIMES

CIRCUS MAN IN OLDEN PROVIDES SOLUTION OF HOUSING PROBLEM VEXING GROWING TOWN

By EARNEST W. SPARKS
Special to The Times.

OLDEN, Texas, Feb. 2.—Olden is a small but growing town in the oil field. Very few people of the outside world would care to locate Olden on the map, but those few that would could not for the simple reason that it is newer than most of the newest maps, being less than one year old.

Midway between Eastland and Ranger, two of the large oil corporations decided in one case to locate a supply house, in the other both supply house and machine shops. At that moment Olden ceased to be merely a side track of the Texas & Pacific railroad and became a town, and from that moment a housing problem has existed.

With the advent of the big oil companies large production was found almost at Olden's back door and from all directions workers were coming, crying for a place in which to live. Such few dwellings as were suitable were snapped up at high prices or else rented at a tariff no ordinary mortal could stand. Nevertheless, leases sold on living quarters as readily as did royalties on production.

Shacks and tents sprang up as stars into the sky at dusk. Olden at that stage was a miniature Ranger. Yet, as at Ranger, the demand for a decent place to live was ever increasing, with nothing being done to supply that demand.

Time and again the business men, who had come with the rest, were assailed because they did not build rent houses. But, as they themselves explained, they were all comparatively poor men, having in many instances staked their last dollar upon the future of Olden, and they were not able, even if willing, to spend large sums in building tenant houses. Yet they viewed the situation with grave alarm. They knew that if something was not done many would come and go away, carrying with them the word that one could not make a home in Olden.

At last, in desperation, the business men of the town formed a chamber of commerce, thinking some method could be found to solve this condition that was daily driving business from their doors. At their first meeting the subject which was uppermost in every mind was discussed and every man present agreed that something had to be done. But what? Nobody knew. They adjourned no nearer a solution of their problem than when they began.

At their second meeting, a week later, a man who had for many years been a circus man, George Myer,

took charge of the meeting. He had an idea that was good and intended to put it over. He told the men in that meeting that there was only one way to get more houses and that was for some one to start building in quantities, then others would follow in increasing quantities. He admitted frankly that he did not blame any man for not wanting to invest a large amount of money in rent houses, but he said: "There are enough of us here that by putting in, each of us from \$10 to \$100, we can build at once two houses and never miss the money, and my plan is this: we will form ourselves into a company to be known as 'The Olden House Building club.'"

"Our sole purpose will be to build houses. Each house we build will be a separate club; shares will be \$10 each, each member taking as few or as many as he cares for. The houses, upon completion, will be sold or rented. If sold, the rate of profit will be only ten per cent and the sale price will be distributed as a liquidation dividend. The officers in this company are to act without pay."

This plan was adopted. Several months have passed since its inception, but the Olden club is still building three to five houses each week, and they have made money. As fast as the houses are built, there is a buyer waiting. But that is not all. Myer, the ex-circus man, knew his crowd. As soon as the house club was in full swing, others began to build homes as well as rent houses, as he knew they would.

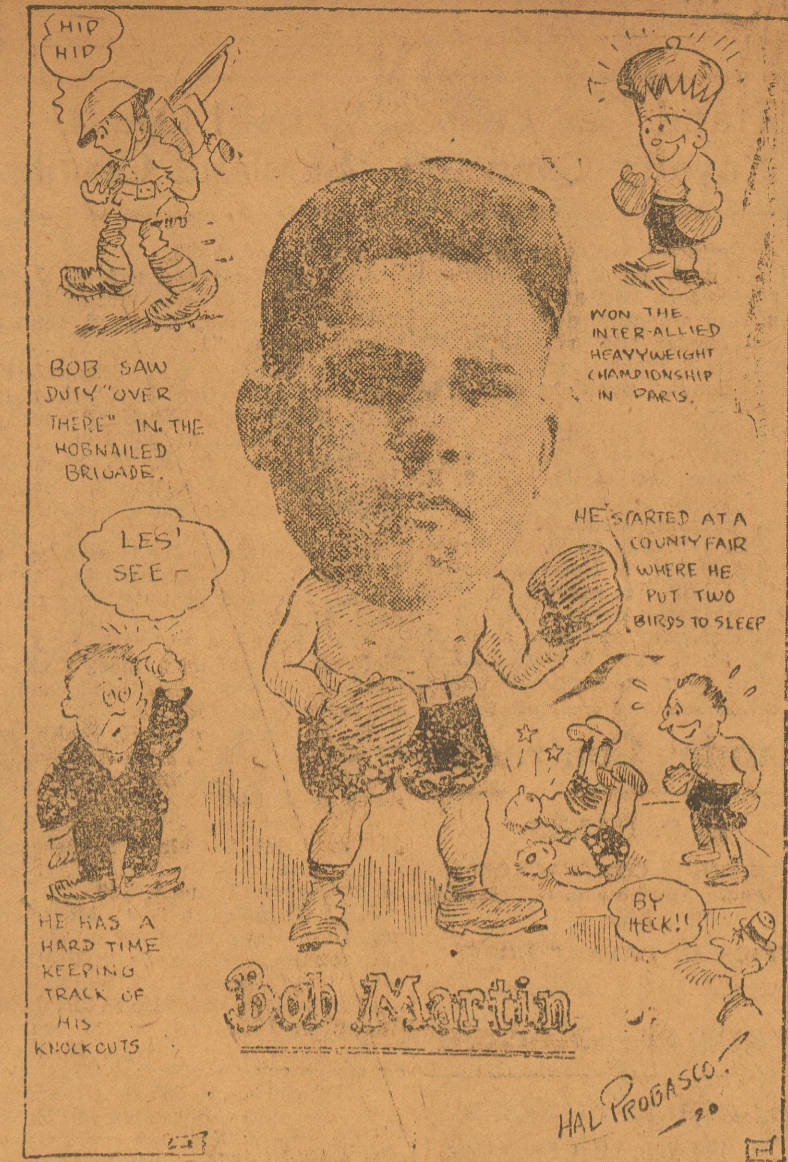

The latest and biggest thing the Olden House club has done is to subscribe funds and begin the erection of a two-story fire-proof business house, to cost in the neighborhood of \$10,000. The upper story is to be divided into lodge room and offices, the rear of the lower story to house the post office and the balance of the room to be utilized as a merchantile establishment.

Olden still has a housing problem, but the wonderful work of the House Building club, acting together in perfect harmony as they have, has done a lot toward eradicating in Olden this evil that seems to be prevalent over the state.

MOTHERS' CLUB OF YOUNG SCHOOL TO MEET

The Mothers' club of Young school will meet at the school at 4 o'clock Tuesday afternoon. It is urged that all members be present as the meeting is an important one.

ATTACK ON JACK DEMPSEY'S WAR RECORD BRINGS BOB MARTIN INTO THE LIMELIGHT

The present wave of feeling being stirred up by the posts of the American Legion against Jack Dempsey, world's heavyweight champion, because of his war record, has caused us to talk of a possible international bout between Bob Martin, A. J. F. Leavoy-weight champion, and Georges Carpentier, European title holder. Martin served as a soldier in France as a member of the "horned brigade." "Can he fight his way (in the ring) through all the good heavies the army produced."

YOUR CATARRH MAY LEAD TO CONSUMPTION

Dangerous to Use Treatment for Only Temporary Relief. There is a more serious stage of Catarrh than the annoyance caused by the stopped-up air passages, and other distasteful features. The real danger comes from the tendency of the disease to continue its course downward until the lungs become affected, and then dreaded consumption is on your path. Your own experience has taught you that the disease cannot be cured by sprays, inhalers, atomizers, jellies and other local applications. S. S. S. has proven a most satisfactory remedy for Catarrh because it goes direct to its source. Get a bottle today, begin the only logical treatment that gives real results.
