

RANGER HIGH SCHOOL DEDICATION TODAY

U. S. ENTRY INTO NATIONS LEAGUE NOW SUGGESTED

President Harding and Cabinet Giving Serious Consideration to Participation.

WASHINGTON, April 12.—Possibilities of American membership in the League of Nations are being seriously considered by officials of the Harding administration, a member of the cabinet today told the United Press.

Two points which administration officials are discussing are:

- (1) Should the United States join the league to carry out the administration's pledge of an association with other nations to prevent war?
- (2) On what terms should the United States enter?

The administration is taking the position that participation in the league is only a partial step towards prevention of war. The administration is pledged to do all within its power to carry out and any opportunity to carry out that pledge will be seized.

Some of the changes regarded as essential in the League of Nations pact before U. S. entrance includes the separation of the covenant of the league from the Versailles treaty; rearrangement of the voting power of the league members. This would include the abrogation of Article ten.

More Week-Day Instruction In Religion Urged

OMAHA, April 12.—The Sunday School bureau has outlined its usefulness and is without a future after more than 100 years of Christian work, according to the Rev. William Gardner, executive secretary of religious extension of the Protestant Episcopal church, who said in an address here today:

"We need to recognize that the Sunday school has no future because it is doomed to fail in appeals to the rising generation. I do not mean that there will be less religion for children. On the contrary, there will be more religion and better systematic character than possible under present limitations. We can give our best attention to furthering plans for week-day religious instruction."

E. A. Bills of Eastland has been deputized by Mike H. Thomas of Dallas, Masonic grand master of Texas, to conduct the dedication exercises for the new Ranger High school, he was to begin the ceremony at 3 o'clock this afternoon.

The Scottish Rite delegation expected from Dallas, headed by Judge Hiram W. Lively, was prevented from coming by threatened train delays on account of washed-out culverts and bridges.

The Ranger school board considered for a little time this morning the advisability of postponing the dedication exercises until better weather prevailed, but it was decided that as all arrangements had been made it would be better to carry out the program.

The Ranger band under the leadership of "Pop" Endicott will play a number of selections before the regular program and will play at intervals throughout the afternoon. The Rev. L. A. Webb, pastor of the Methodist church, is to give the invocation this afternoon and addresses will be made by M. H. Equipment of Building
Description of the high school building, exterior and interior, was entered into by a half page article in the "Progress Edition" of The Times, Jan. 31, but the amount and cost of equipment therein had not been fully determined at that time. It can now be thoroughly described.

Of the \$250,000 in bonds authorized by a vote of the citizens of Ranger, Jan. 22, 1921, more than \$20,000 has been used in buying articles for the manual training department, for the class rooms, the laboratories, gymnasium, auditorium, offices, etc. The general construction work done by Henegar and Chambers of Dallas, was originally contracted for \$110,000, to which \$15,000 was added for excavation of rock on the grounds, and the additional sum of \$9,500 for face brick. The plumbing cost \$17,000 and the electric wiring 1,700. The First Methodist church was paid \$21,000 for a lot 140x110, and the Fleming lot cost an additional \$12,000. The latter was 140x90 feet.

The gym equipment costing approximately \$1,210, includes dumb bells, horizontal bars, mats, Indian clubs, pulleys, trapezes, etc. Shelving for the library and book room cost \$341. A sum of \$672.50 was expended for window shades, and \$271 for window guards.

A moving picture outfit caused the expenditure of \$316.25; a radio outfit, \$300.

Dismissing and starting classes on the dot will be possible by the installation of a signal system. Alarms will be in each class room and laboratory, and will be regulated by a central clock in the superintendent's room.

The auditorium will be completely equipped with comfortable seats and with its other modern appointments will give Ranger an assembly that can be utilized for many different meetings. Opera chairs and seats are included in the seating arrangements. This cost was \$3,554, not including the balcony seats.

By United Press.

MADISON, Fla., April 12.—Walter Higginbotham, "guard" at a convict camp of the Putnam Lumber company at Clara, Fla., faced trial today for the murder of Martin Tabert, a North Dakota boy, who died last December following a flogging given him at the camp.

The grand jury investigated the convict leasing system in Florida in connection with the death of Tabert, the latter being demanded by the legislature of North Dakota, and returned the indictment against Higginbotham, who has been released on \$10,000 bail. His trial has been set for May 14.

Witnesses who testified before the grand jury said Tabert died several hours after being whipped. Tabert had been leased with other prisoners to the Putnam Lumber company and the flogging was given to him, according to the testimony given, because he had stolen a ride on a freight train.

VALERA FREED AFTER CAPTURE SAYS REPORT

Irish Authorities Said to Have No Desire to Hold Him Prisoner.

By United Press.

LONDON, April 12.—The mystery of the capture of Eamon de Valera by Free State troops at Clonmel yesterday remains unexplained today. Dublin dispatches said the Free State troops were still searching the mountains for the erstwhile president of the Irish republic and his lieutenant Dan Breen.

Many correspondents, however, openly aver that Valera was taken captive by the Free State troops and later set free. The Manchester Guardian's Dublin correspondent said that Valera had been turned loose as soon as his identity was discovered, as the authorities preferred to have the rebel at large rather than hold him as a prisoner.

The Free State government has given out no statement except that the former president of the republic has not been captured.

FORD PROPOSES IN FUTURE TO MINE OWN COAL

DETROIT, April 12.—Coal strikes of the future will not retard manufacture of Ford products, under plans already adopted by Henry Ford.

Coal properties, acquired during the past two years by the Ford Motor Company, have been placed under direction of the Fordson Coal Company, recently incorporated under the laws of Delaware. These properties, according to a conservative estimate of Ford engineers, consist of a coal reserve of about 600,000,000 tons and about 700,000,000 feet of timber. The largest timber holdings were obtained with the purchase of the Peabody coal lands in Southern Kentucky, where, it is estimated, there is about 500,000,000 tons.

Orders for the construction of more than 1,000 coal cars of 55 ton capacity already have been issued by the new company. These cars will be operated directly between the Ford mines and the automobile plant over Ford's railroad, the Detroit, Toledo and Ironton.

The recent purchases of the coal and timber lands is in accordance with Ford's plans to gain control of the basic raw material to the delivery of the finished product and thereby gain the highest quality at the minimum production cost.

The First Purchase.
Among the first coal properties purchased by the Ford Motor Company were the Dexcar coal mines at Twin Branch, W. Va. This property was bought last November and there by gave the company nearly 18,000,000 tons of high quality coal, adaptable to both by-product and steam purposes. These mines employ about 450 men and have a daily capacity of about 2,000 tons.

Next, the Ford Company purchased the Pond Creek properties in eastern Kentucky, near Williamson, W. Va. It is estimated there is about 300,000,000 tons of available coal at these mines which are operated through eleven openings. About 7,000 tons of coal are produced daily at these mines, by about 1,000 men.

Purchase of the Banner Fork mine added about 12,000,000 tons of high volatile by-product coking coal to the company's interests. This mine employs about 400 men and has a daily production of 3,000 tons.

The Nuttallburg mine at Nuttallburg, W. Va., now owned by Ford, has a daily production of 1,000 tons and employs about 250 men.

COMB SAGE TEA INTO GRAY HAIR

DARKENS BEAUTIFULLY AND RESTORES ITS NATURAL COLOR AND LUSTRE AT ONCE.

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use preparation improved by the addition of other ingredients a large bottle, at little cost, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of muss.

While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger.—(Advertisement.)

FIERY, ITCHY SKIN QUICKLY SOOTHED WITH SULPHUR

Mentho-Sulphur, a pleasant cream, will soothe and heal skin that is irritated or broken out with eczema; that is covered with ugly rash or pimples, or is rough or dry. Nothing subdues fiery skin eruptions so quickly, says a noted skin specialist.

The moment this sulphur preparation is applied the itching stops and after two or three applications, the eczema is gone and the skin is delightfully clear and smooth. Sulphur is so precious as a skin remedy because it destroys the parasites that cause the burning, itching or disfigurement. Mentho-Sulphur always heals eczema right up.

A small jar of Rowles Mentho-Sulphur may be had at any good drug store.—(Advertisement.)

HIGHWAYMEN BEING SOUGHT FOR MURDER

Reported to Have Operated Near Ranger But Nothing Known of It Here.

Special to the Times.

FORT WORTH, April 12.—Two motor car bandits killed Albert Smith, a salesman, and assaulted R. B. Lacy, on a county highway in the neighborhood of Ranger, according to reports that have reached this city. Robbery is said to have been the motive. The reports reaching here are very meagre and do not indicate in what county the attack took place or if any arrests were made.

Police of Ranger and the sheriff's deputies here have no information about the death of Smith and assault of Lacy and know nothing about the arrest of any motor car bandits, it was stated at 2 o'clock this afternoon. Unless the tragedy occurred in Eastland county, however, they would not be called on to act except in the event that the bandits attempted to escape through this county. It was said that the reported attack on Smith and Lacy did not take place in Eastland county.

Woman Legislator Keeps Three Vows; Would Be Sheriff

JEFFERSON CITY, Mo., April 12. Mrs. Melcene Smith, of University City, one of the first women to be elected to the Missouri Legislature, came to the sessions this year with three resolves, all of which she kept.

"One was that I would not miss a session," she said; another that I would not mar the desks in the house by placing my feet thereon, and the third that I would not expectorate tobacco juice on the floor.

At the close of her first session, Mrs. Smith observed that there is no reason why the average woman, with some little experience in public affairs, should not be as efficient a legislator as the average man.

Mrs. Smith has an ambition to become sheriff of her county. She believes she could put all law violators to flight and make the county "a modern Sahara" as far as the enforcement of the eighteenth amendment is concerned.

MILLIONS OF FAMILIES

"I will build a car for the multitude"

Said Henry Ford in 1903—Read how the fulfillment of that prophecy is now made possible through the

Ford Weekly Purchase Plan

For many years it has been Henry Ford's personal ambition to make the Ford the universal family car—to put it within the reach of the millions of people who have never been privileged to enjoy the benefits of motor car ownership. During the past fifteen years over 7,500,000 Ford cars have been placed in the hands of retail customers—more than a million and a half of them within the past twelve months—and yet there are still millions of families who are hopefully looking forward to the day when they can own a Ford. And now the way is open. Under the terms of this plan you can select your Ford Car, set aside a small amount each week and you will be surprised how soon you will own it. In the meantime your money will be safely deposited to your credit in one of the local banks where it will draw interest. Think it over. Five dollars will start an account. The whole family can participate in it—father, mother, brothers and sisters each doing a little. Why not start today. Stop in and talk it over with your local Ford dealer. He will be glad to fully explain the details of the plan and help you get started toward the ownership of a Ford car.

INTERSCHOLASTIC STATE MEET BE HELD MAY 3-5

Some 1200 Texas Boys and Girls To Take Part In Contests.

AUSTIN, April 12.—Approximately 1200 Texas boys and girls from city, town and rural schools of the state, are expected to take part in the annual interscholastic state meet which will be held at the University of Texas under the direction of the Texas Interscholastic League. The meet will be staged the week end of May 3 to 5, inclusive. Visitors and onlookers are expected to bring the total attendance to 2500.

The university interscholastic meet is considered as one of the most representative of any state in the nation, according to Roy Bedichek, head of the interscholastic division of the university bureau of extension. Sixty or eighty per cent of all railroad fare paid by contestants is refunded under the reduced rate basis.

Music and Debate.
Contests will be staged in the following: tennis for boys, two divisions; tennis for girls, two divisions; track and field events, two divisions; music memory contests, essay writing, four divisions; boys' and girls' declamation, eight divisions; and debating for boys and girls. It is estimated that 600 boys and girls will take part in the literary contests and an equal number in the athletic contests.

Bronze, silver and gold medals are offered as prizes in practically every event of the meet, according to officials. These medals are valued collectively at 500. Sixteen loving cups will be awarded. The National Association for the Advancement of Music is offering one gold and one silver medal in each district to winners in music memory contests. Various music houses and musical organizations are offering instruments, records and other prizes, in county and district meets. A large vase is being offered by Sanger Brothers, Dallas, to state winners in the music memory division.

Preliminary Contests.
Contestants win their way to the state meet through a process of elimination in county and district meets, which are now in progress. Membership of the schools in the league has increased during the past year until it embraces over 200 county organizations and 32 district organizations.

There are 1338 school officials serving as county officials of the league and 160 men and women serving as district officers. The league has on its rolls this year nearly 4000 schools.

with the annual state meet is the housing of the contestants visiting Austin, according to Mr. Bedichek. Contestants are placed in homes as near the university campus as possible and Austin citizens have been asked to open their homes to care for the students. Last year this phase of the meet was handled by Miss Lucy J. Newton, dean of women for the university, assisted by the girls' representative board. It was found necessary to house a part of the boys attending the meet in the barracks of the old School of Military Aeronautics, one-time the old state blind institute. Numerous entertainment features are being planned for the attending visitors.

BRECKENRIDGE MUCH INCENSED OVER STATE OF THE COUNTY ROADS

BRECKENRIDGE, April 12.—A committee was appointed yesterday by the Breckenridge Chamber of Commerce to confer with the Stephens county commissioners over the condition of the roads leading into this city.

Thoroughly aroused over the road situation, a resolution was unanimously adopted by more than 125 men calling for an investigation.

It was brought to the attention of the chamber members since the closing of the main east highway a year ago in January an adequate detour had not been provided, and as a result business is going elsewhere. Several other roads leading to the city are in a similar condition.

Breckenridge concerns in some cases are considering locating elsewhere because of the losses sustained by inadequate roadways. Lumber houses and merchants are losing heavily to Albany, Cisco, Ranger, Mineral Wells and Graham, it was pointed out.

EASTLAND, April 12.—More applications to drill and fewer to plug wells in Eastland county are being received now, W. J. Carden, deputy supervisor of the oil and gas division of the railroad commission, said yesterday. Mr. Carden, who has his headquarters here, pointed out that this is an improvement in oil development in the county.

CISCO, April 12.—G. C. Richardson, secretary of the Cisco Chamber of Commerce, has been made presiding officer of the general conference of secretaries and unit directors, which will meet in San Angelo, May 21-23, during the West Texas Chamber of Commerce convention.

RANGER MERCHANTS ARE ON WATCH FOR 'RAISED' CURRENCY

No further "raised" bills other than the two reported yesterday by Ranger Retail Merchants' association have been found here in the city, it was said at the offices of the association today.

The warning issued yesterday has had the effect of putting merchants and bankers on their guard, K. E. Jones, the association secretary, said. The two bills "raised" were one dollar bills and one had been increased to a five and the other to a ten. The Ranger Retail Merchants' association has offered a reward of \$50 for the arrest and conviction of any person "raising" a bill or attempting to pass a bill that he knows was "raised."

Your faith in Kellogg's Bran can never be misplaced—IT IS ALL BRAN!

Kellogg's Bran, cooked and crumbled, will permanently relieve the most severe cases of constipation because it is ALL BRAN—not a food mixture that cannot possibly have sufficient natural corrective properties. Once constipation gets into your system you must fight it to the finish. Kellogg's Bran is the weapon. It will win for you. Don't take half-way measures; don't temper.

Kellogg's Bran is permanent relief for constipation if it is eaten regularly—at least two tablespoonfuls daily; in chronic cases, with each meal. And, Kellogg's is a taste-delectable because it is delicious and comes to you as a highly palatable, desirable food, as well as a corrective.

You will greatly enjoy Kellogg's Bran as a cereal; its nut-like flavor improves any hot or cold cereal, and innumerable inviting bakery batches can be made with Kellogg's. Try some Kellogg's Bran pancakes. They're great! Or, raisin bread or general Kellogg recipes are printed on each package.

For health's sake, get the whole family eating Kellogg's Bran just as quickly as possible, because it is ALL BRAN and it will make over the health of every big and little member. Your physician will recommend Kellogg's Bran because it is positive and because it will sweep and cleanse and purify, and put color back into faded cheeks. It will help children grow big and strong; it will clear and tone and brace up the system of every one who eats it regularly. All grocers sell Kellogg's Bran because its use is universal!

SPECIAL-SIX TOURING, \$1275

Wherever motor cars are discussed and that's nearly everywhere, somebody is sure to remark—"That Studebaker Special-Six is a regular automobile."

The name was selected because comparative tests against all kinds of cars made this car stand out as something special and apart from the ordinary run of automobiles. It requires special merit to warrant calling any car a special—and if the value isn't special the car quickly fades away.

Count the "Special-Sixes" that have appeared since the arrival of the Studebaker Special-Six. That's the proof of the value of the original Special-Six!
