DEAD BROUGHT BACK TO LIFE BY SCIENCE

BLANTON MUST ANSWER CHARGE CRIMINAL LIBEL

Grand Jury in Comanche County Expects to Remarks About Calloway.

By Associated Press.

FORT WORTH, May 5.—Congressman Thomas L. Blanton was charged by indictments with criminal libel in a report of the grand jury of Comanche county, it was learned here today. A warrant has been issued for his arrest and sent to the sheriff of Taylor county. It was forwarded to the sheriff last week but not returned.

The allegations of criminal libel are based on a speech reported in a Cisco paper of July 6, 1922 date, in which Blanton charged former Congressman Oscar Calloway with having urged his friends not to buy Liberty bonds during the war.

Sugar Prices Drop Following Pressure Of Buyers' Strike

By United Press.

NEW YORK, May 5.—Sugar dropped to 8 cents a pound in some of the retail stores here today, following activities of the women's boycott against the use of sugar while high prices prevailed. The pressure of the buyer's strike was likewise reflected at the opening of the New York Sugar exchange, when prices for sugar stocks were reported lower.

WHO WOULD SAY THE FLAPPER CANNOT MAKE HER OWN CLOTHES?

By Associated Press.

WACO, May 5.—An "anti-flapper" campaign has been inaugurated in Waco. Miss Margaret Moore, county demonstration agent, has issued a call for prizes in a clothing contest which will be participated in by approximately 300 McLennan county club girls. The girls will be required to make clothes suitable for school wear. Similar contests will be conducted in canning, poultry judging and button-hole making.

WOULD-BE HOLD-UP MAN IS SHOT AND KILLED

By United Press.

OKLAHOMA CITY, May 5.—An unidentified man attempted to hold up the Rock Island depot at Kingfisher, north of here, and was shot and killed by P. Z. Spradley, the railroad telegrapher, about midnight last night, according to reports to the police.

MOB ACTIVITIES BRING GRAND JURY INDICTMENTS

By Associated Press.

HOUSTON, May 5.—Twenty-six indictments were returned today by the Harris county jury in connection with the investigation of recent whippings by masked and unmasked mobs in Goose Creek. Twenty indictments charged assault with prohibited weapons, five for perjury and one, aggravated assault. The names of those indicted were not made public.

When the grand jury was convened, Judge Charles W. Robinson of the criminal court of appeals called to the attention of the jury the flogging of Mrs. R. H. Harrison at Goose Creek, an oil town, 21 miles east of Houston. The grand jury filed in addition to the indictments, a report, which concluded with the statement: "Beginning about two years ago and continuing until Jan. 5 of this year, a reign of terror unparalleled in this country existed," the report said.

NEWSPAPERMAN DIES

By Associated Press.

NEW YORK, May 5.—James W. Faulkner, a well known newspaper man of Cincinnati, died at the Waldorf hotel this morning.

RANGER WANTS PLENTY OF ICE CREAM AND HAS PROMISE WILL GET IT

The Banner Ice Cream company, 400 Melvin street, will install two new 300-pound vats to take care of increasing business, O. D. Dillingham, president, said today. The company has, but one 300-pound vat at present. The vats are used in the first step of the manufacture of ice cream. The ingredients are put into the vat, mixed and heated before passing to the cooling process.

EARTH QUAKES IN CHILE, TIDAL WAVE ROLLS IN

Buildings Topped and Heavy Loss of Life and Property Feared.

By United Press.

SANTIAGO, Chile, May 5.—A strong earthquake shook late yesterday at Atacama, in northern central Chile, toppled buildings from their foundations and caused great damage.

A high tidal wave swept far inland at Carricillo, inundating a large area. The population sought refuge in nearby hills.

Many buildings were destroyed and many persons are believed to have been caught in the fall of structures at Ballener, on the coast of Chile. Houses were shaken to their foundations and many are lying in ruins.

In the irrigation district very extensive damage was done, but no estimate has been made as yet to estimate the loss. Neither is there any definite information relative to the number of deaths caused by the earth shocks.

The quake began at 5:20 o'clock last night, it was said. There were several shocks, some continuing more than a minute.

U. S. TREASURY SHOWS THIS YEAR SURPLUS OVER EXPENDITURES

By United Press.

WASHINGTON, May 5.—The United States treasury will show a surplus of \$60,000,000 of estimated receipts over expenditures for the fiscal year, ending June 30, instead of an expected deficiency of \$200,000,000, Budget Director Lord estimated today.

War on Bootleggers Being Waged In Pennsylvania With Unrelenting Determination to Stamp Out Liquor

HARRISBURG, Pa., May 5.—Governor Gifford Pinchot of Pennsylvania is satisfied with the progress he is making to dry up his state.

Four months ago, on taking office, Pinchot announced he would enforce the prohibition laws so rigidly that bootlegging and general violation of the dry act would be made too hard and too expensive. He has been making it very expensive for the bootleggers, likewise very hard. Many hundreds of arrests have been made, and vast quantities of liquor confiscated, under his regime.

Arrests and confiscations will increase until the violators are driven out of the state or forced to obey the law, Pinchot stated.

Dryer Than Before. If Pennsylvania is not yet quite dry it is at least a great deal dryer than it was.

Pinchot's first move was to commandeer the services of the state police, a semi-military body of nearly 400 mounted troopers famous for their discipline and efficiency. As nominal commander of these troopers Governor Pinchot detailed almost every available man to the duty of breaking up moonshining and bootlegging. No single week has passed since the initiation of this campaign that has not shown a record of over a hundred arrests and the seizure of enormous quantities of illicit liquor.

Though starting the drive under existing laws Pinchot drafted a state enforcement act somewhat more drastic than the Volstead act and submitted this to the legislature. The legislature was disposed to balk but with the prestige of a new governor with considerable atonement to bestow Pinchot insisted and the general assembly passed the act. Now the added authority of the state law behind it the bootlegger drive is going on with new impetus.

Standard Oil of Indiana Said To Have Split from Parent Co., Aligning With Independents

THIRD CUT OF TEN CENTS IN PRICE OF OIL

Quotations Range Between \$1.20 and \$2.30, According to Gravity.

By United Press.

INDEPENDENCE, Kan., May 5.—A cut of 10 cents a barrel in the price of Mid-continent crude, which includes Kansas, Oklahoma and North Texas, was announced this morning by the Prairie Oil and Gas company. This is the third 10-cent cut in price in the last two weeks. The quoted prices now range, according to gravity basis, between \$1.20 and \$2.30 a barrel.

The Ranger office of the Prairie Oil and Gas company announced the 10-cent cut in the price of oil this morning. It came just three days after announcement on May 2 of the second price cut. Crude oil is now quoted, according to gravity basis, as follows:

Table with 2 columns: Gravity (Baume), Price per barrel. Includes entries like 'Below 28 degrees Baume gravity, per barrel, \$1.20' and '28 to 29.9, \$1.30'.

Inhuman Flogging State's Ward In Oklahoma Charged

OKLAHOMA CITY, May 5.—Charges that inmates of the state boys' reformatory have been whipped by guards with long leather switches until blood oozed through their clothing and that general abusive treatment was dealt out to juvenile wards of the state were made in a report to Governor Walton today by Mrs. Mable Bannett, state commissioner of charities and corrections.

The superintendent of the reformatory, W. C. Breeding, was charged by Mrs. Bannett with unbecoming conduct, for which reason she asked for his removal.

The price cutting was started in California, followed by a cut in Pennsylvania. The country was flooded with propaganda about too much production, and the impression was created that California could flood the Eastern markets, whereas, as a matter of fact, this would be physically impossible, as there are no adequate shipping facilities.

Prior to the dissolution Standard Oil was credited with doing some 85 per cent of the refining and distributing business of this country. Since then, though their actual business has grown more rapidly, and collectively today are refining more than one-half of the country's total output, Standard Oil still is in the lead in distribution of petroleum products, as many of the small refining companies have no facilities for direct distribution. This means that these small refiners must sell to the larger independents.

Declared Independent. Developments in the reported split in the Standard's forces are noted by the World as follows:

1. The World obtained information of a definite split in the old Standard Oil entente, which points to a complete realignment of petroleum interests, with the Standard Oil company of Indiana, the most powerful Standard Oil unit, entirely out of the domination of the old group. This explains the position of the Sinclair Consolidated Oil company, which has heretofore been considered a Standard Oil ally but which is actually leading the independents.

2. Some of the men in the thickest of the fight called recent Standard Oil price cuts political gestures rather than economic.

(Continued on next page)

ESPERANTO CONGRESS TO MEET

NEUERBERG, Germany, May 5.—Thirty-five different countries are represented by the 2,500 delegates so far registered for the international Esperanto congress which will be held here Aug. 2 to 8. A number of governments, as well as international organizations, have indicated they will send representatives. A feature of the week's program will be the presentation in Esperanto of Lessing's "Nathan the Wise" and a vocal selection from Mozart, also in Esperanto.

Understood to Have a Partial Working Contract with Sinclair. So-Called Oil Octopus yet Blamed for Cut in Price of Oil.

Special to the Times.

NEW YORK, May 5.—Giants have fought for supremacy at various periods and a battle between giants, termed a billion-dollar war, is declared to be in progress between the so-called octopus of the oil industry and a group of independents individually small but collectively strong.

The Standard Oil company of Ohio is declared by the World to have parted company from the parent company and to be standing squarely on its own bottom, backing the independent operators in their fight. Leading operators among the independents confirm this report, which is just as earnestly denied by the Standard Oil leaders.

Standard Starts Cut. One of the leading independent oil men, in a position to speak authoritatively regarding the fight, said:

"A study of the stock holdings in the Standard Oil of Indiana gives further evidence that the original group of interests who controlled old Standard Oil and are believed to be still in control of most of the Standard Oil units, cannot dominate the Indiana company.

"The recent cuts in prices of crude and of refined products have been initiated by Standard companies. Independents, as a matter of self-protection, must meet these cuts under present conditions. With the supremacy of the old Standard Oil group seriously threatened, even without unity of action on the part of the independent companies, this group is confronted with the alternative of subsiding into a minor position or of taking some strenuous methods to reassert its dominance.

Prappaganda Put Out. "The price cutting was started in California, followed by a cut in Pennsylvania. The country was flooded with propaganda about too much production, and the impression was created that California could flood the Eastern markets, whereas, as a matter of fact, this would be physically impossible, as there are no adequate shipping facilities.

Prior to the dissolution Standard Oil was credited with doing some 85 per cent of the refining and distributing business of this country. Since then, though their actual business has grown more rapidly, and collectively today are refining more than one-half of the country's total output, Standard Oil still is in the lead in distribution of petroleum products, as many of the small refining companies have no facilities for direct distribution. This means that these small refiners must sell to the larger independents.

Declared Independent. Developments in the reported split in the Standard's forces are noted by the World as follows:

1. TEXAS MAY LOOK INTO STANDARD OIL ACTIVITIES

By Associated Press.

AUSTIN, May 5.—The house for the second time went on record as favoring an investigation of Texas oil companies, regarding price fixing, stifling of competition and particularly the relation of the Standard Oil company to independent oil companies, when it adopted a resolution for such an investigation by a vote of 54 to 44.

A similar resolution for such an investigation was adopted by the house in the last session, but failed of approval in the senate.

The resolution charges that the Standard Oil owns the controlling interest in the leading oil companies of the state. It declares the ownership has the effect of "destroying competition and restraining trade."

A committee of five men from the house and three from the senate has been appointed to investigate the allegations in conjunction with the attorney general.

W. A. JOHNSON, FORMER LIEUTENANT GOVERNOR, DIES VERY SUDDENLY

By Associated Press.

MEMPHIS, May 5.—W. A. Johnson, editor of the Hall County Herald, and former lieutenant governor, died suddenly here at his home this morning. He had complained of feeling ill, arose from his bed and drank a glass of water. He expired immediately afterwards. The funeral services will be held here tomorrow.

'HAMMER MURDERESS' ESCAPES FROM GUARD IN HONDURAS PRISON

By Associated Press.

SAN SALVADOR, May 5.—It is reported from Honduras that Clara Phillips, escaped California hammer murderess, being detained in that country, has escaped. The report has not been confirmed.

STUDENT WINDOW CLEANERS NEW COLLEGE ORGANIZATION

By United Press.

SHERMAN, Texas, May 5.—There are more ways of making money than one.

This has been illustrated at Austin College here, where C. W. Ross with the cooperation of secretary Cashion of the college, has organized the Student Window Cleaners.

The idea originated with Ross and his brother when the two were students at the University of Colorado in 1915. By this method they were able to pay their expenses through college.

Since that time the brothers have established branches of the Window Cleaners in a number of college towns.

Golfers Are Called Out

Strong Team Will Be Here Sunday From Strawn to Play in Oil Belt Golf Tournament Series.

Eight golfers from Strawn will be in Ranger tomorrow to meet the Ranger golfers in the first of the games between these two members of the Oil Belt Golf league. They are said to be good golf players among them and the best of Ranger's golfers must be out to meet them.

In a letter to W. H. Fouke, president of the Ranger Country club, George H. Hammock names the following Strawn players who will be here:

C. L. Watson, Morris Brazar, Boyd Cooper, J. H. Stuart, K. C. Jones, R. W. Cousins, O. M. Latimer and George H. Hammock.

All Ranger golfers are expected to be on hand Sunday to greet the visitors, according to Dr. C. C. Craig, secretary of the Ranger Country club. "Ranger must win and the best of Ranger's golfers must play to get the victory," he said. Following are the Ranger golfers who are expected to be on hand and from whom the defenders of Ranger's golfing fame will be chosen:

MOSLEM WOMEN NOW LEARNING TO FACE MEN WITHOUT THEIR VEILS

By Associated Press.

MOSCOW, May 5.—Communist party workers say they now are at last having some effect in their campaign to modernize the Moslem women of the Near East.

It took hundreds of communist "missionaries" nearly two years in some localities to persuade the women to remove their veils and participate in politics. Now, in Adjerbia alone, however, more than 22,000 women have been organized in industrial activity, while workshops for feminine Mohammedans, where they are taught that the role of women is far different from that of the usual Moslem conception, have been established by hundreds in Turkestan, Bokhara and elsewhere.

RED BLUFF DAM ON PECOS RIVER IS BIG PROJECT

Would Impound Water to Irrigate 200,000 Acres of Valley Land.

Special to the Times.

PECOS, Texas, May 5.—West Texas is watching with acute interest the progress being made in the investigation to determine whether or not the Red Bluff dam, which will impound about 400,000 acre feet of the Pecos river and irrigate 200,000 acres of the fertile land of the Pecos valley, will be constructed.

A delegation consisting of Governor Hinkle of New Mexico, G. V. Davis, assistant secretary of the interior, and Arthur Davis, director of U. S. Reclamation service, and party are due to make a personal inspection of the proposed project early in May, starting from Carlsbad. The party will visit the Red Bluff site and Pecos.

It is planned to draw a treaty for the division of waters of the Pecos, between Texas and New Mexico. The legislatures of each state last month authorized the appointment of a commissioner and appropriated \$5000 for the work. The president will name the third, when the governors act. Governor Neff appointed R. E. Thomason of El Paso. Governor Hinkle is expected to act this week.

The Pecos Valley Water Users association has been working hard to bring about a completion of the project, and confidence is felt on all sides that the project will be completed. It will unquestionably mean the opening of a huge area to farmers and will populate a section of West Texas that is rich in everything but water power. It will increase the tide of immigration to West Texas that in the last few years has grown in tremendous proportions.

HOUSE PASSES OIL AND GAS PERMITS MEASURE

By Associated Press.

AUSTIN, May 5.—The bill granting oil and gas permits to concerns under government receivership by a viva voce was engrossed and passed finally under suspension of rules today in the house.

A resolution introduced by Representative Beasley would grant state railroad commissioners an additional \$2,500 a year, which would bring their salaries to \$6,500.

STILLBORN BABE BECOMES ALIVE, REMAINS ALIVE

Physians Start Heart Beats and Respiration With Wonderful Result.

By United Press.

DALLAS, May 5.—A stillborn child was given life in a local hospital last night by the use of agra-nalin hydro chloride, which was injected into the heart muscles, according to a report given out at the hospital today.

The child is said to have been dead when born, there being neither heart beat nor respiration. The drug was injected and artificial respiration started and in a few minutes the child had begun to breathe and the tiny heart to beat.

The heating of the heart has continued steadily, according to Dr. Smoot, one of the physicians who attended the child, and the baby appeared to be strong and in good health this morning.

The infant is the child of Mr. and Mrs. Jack Ginn of Dallas.

School Children's Savings Accounts Total of \$14,144,716

By Associated Press.

NEW YORK, May 5.—Growth of membership in public school savings bank systems of the country from \$02,000 in June, 1921, to 1,643,406 on Feb. 1, 1923, and a grand bank balance of \$14,144,716 on the same date, are shown in the reports just made public by the American Bankers' association.

The total savings during the school year ending Jan. 31 amounted to \$4,457,000. The grand balance of more than 14 millions is twice as large as the balance reported last June. Four hundred and one savings systems in as many cities are included in the reports.

The A. B. A. honor roll, bearing the names and records of villages and towns in which at least 75 per cent of the official school enrollment are participating as savers, includes 207 towns this year, as compared to 102 last June and 87 in January, 1922. The 1,643,406 school children participating in the savings systems represent a total school enrollment of \$2,445,629.

In the Class A division of the honor roll, for systems of enrollments over 10,000, 23 cities are listed, led by Canton, Ohio, with 98 per cent, or 13,789 of the total enrollment of the city's schools, participating in the savings. The total savings for the school year were \$36,163 and the average net individual deposit \$2.54.

Waterbury, Conn., Harrisburg, Ill., Huntington, W. Va., Louisville, Ky., Providence, R. I., New Britain, Conn., Wilkes-Barre, Pa., Dayton, Ohio, and Pittsburgh and Scranton, Pa., are next in line. Johnstown, Pa., Akron, Toledo and Youngstown, Ohio, and Terre Haute, Ind., and Omaha, Neb., are lower down in the division on the honor roll.

Meriden, Conn., with 99 per cent of the enrollment saving \$23,412, or a net average individual deposit of \$4.56, leads the Class B division. Martins Ferry, Ohio, also with 99 per cent of the school children saving, leads Class C and Dixon, Ill., leads Class D.

FEDERAL FORCES MUST WAGE FIGHT UNAIDED

By Associated Press.

WASHINGTON, May 5.—Coming in the midst of the government's war on rum ships, the action of the New York legislature in repealing the state enforcement law, which heretofore has been of immeasurable assistance to the federal prohibition forces, is looked upon here as increasing manifold, the difficulties of the federal forces confined to that territory.

NEW YORK LEGISLATURE WOULD HAVE STATE WET

By Associated Press.

ALBANY, May 5.—Repeal of the state prohibition act and a bill directed at the Ku Klux Klan featured the work of the state legislature which concluded its session here today.

Both bills must have the approval of the governor to become laws.

DELINQUENT TAX LIST IN RANGER NOW PREPARED

Official Publication of Property to Be Followed by Suits.

The last step required by law before the names of delinquent tax payers can be published in the press and suits for collection started was being taken this week by City Secretary E. A. Ringold.

There is no specified time that must elapse between the mailing of notices and the publication of names of delinquents, Mr. Ringold said.

The board of commissioners instructed City Secretary Ringold to prepare a list of delinquent tax payers and to publicly announce the intention of the board to have these names published and suits for collection to follow.

The board of commissioners instructed City Secretary Ringold to prepare a list of delinquent tax payers and to publicly announce the intention of the board to have these names published and suits for collection to follow.

The city of Ranger has held back its recourse to law against delinquent property owners for the last two years because there was much property in litigation as the result of banks closing and crippled business conditions, here and elsewhere.

"When there was so much property in litigation, it would have helped the city in no way last year to foreclose on property," Mr. Ringold said.

The city of Ranger, according to Mr. Ringold, instead of making enemies of owners of property in arrears and while in the control of the banking business, made friends.

He also pointed out that property values, which reached the bottom here last year, are now on the upgrade and better prices can now be realized on the open market than at this time last year.

If the property in tax arrears was placed on sale last year at the city tax department's behest, the owner would have suffered unjustly," he said.

Old Trails Lead Auto Tourist From Capital to Coast

THE rubber-tired tenderfoot can now traverse the vast stretches of these United States without a sextant or a compass, and be sure of getting home if the gas holds out.

The trails have been blazed, and the man who is fortunate enough to possess anything from a cycle car to a limousine can hit the trail to the place his fancy leads, and go by the best and shortest possible route.

Most historic of all the new system of national highways is the National Old Trails Road, 3620 miles from Washington, D. C., to Los Angeles.

The trail marker, fittingly enough, is a red, white, and blue rectangle, displayed at convenient intervals, and at every intersection.

from terminus to terminus, and penetrates what many consider the world's grandest scenic region.

The road is hard surfaced from Washington to Terre Haute, and in sections beyond Terre Haute, most of the highway through the Southwest has a dragged dirt surface, good in dry weather—and this is dry weather country.

Excellent hotel accommodations are to be had at the natural night stops for the entire distance.

By means of the official auto trails maps, which are the keys to the national system of marked highways and to the conditions to be encountered along these highways, a coast-to-coast trip over the National Old Trails Road is not only practicable for the average tourist, but can be made with ease and assurance, combining maximum pleasure with minimum difficulty.

displayed at convenient intervals, and at every intersection. It leads the tourist from Washington or Baltimore along Braddock's Road and the National Pike, the first highway which the nation constructed, through country reminiscent of young Col. Washington and the Indian Wars, to St. Louis by way of Wheeling, Columbus, and Indianapolis.

From St. Louis to Kansas City the trail follows the historic Boone's Lick Road, then opens on the pioneer's route of blood and sand, the Santa Fe Trail. Westward of Santa Fe is the Grand Canyon Route to the orange groves—the path of the Spanish conquistadores and the indomitable padres.

East and West, the National Old Trails Road traverses thirteen states and ninety counties. It is a route rich in historic interest.

STANDARD OIL OF INDIANA

(Continued from page 1)

than results of economic conditions. Standard Oil, they explained, looks with apprehension toward the new congress and wishes to place its house in order.

3. Assistant Attorney General Seymour announced at Washington that the department of justice was investigating the entire petroleum industry with a view to starting prosecution if it uncovered any violations of the law.

The defection of Standard Oil of Indiana is one of the most significant moves in recent economic history. It was made apparent by Col. Robert W. Stewart, chairman of the board of directors of the company, in a statement March 5—a statement he reiterated this week.

Can't Dominate Indiana. "The Standard Oil company of Indiana is an independent corporation," Colonel Stewart said, "and it neither votes nor acknowledges allegiance to any other corporation or organization.

It has no understanding or arrangement of any kind or character with any other of the so-called Standard Oil companies. It stands squarely on its own bottom, and we are trying to do a big job in a big way and to serve fairly the public with which we deal."

That Colonel Stewart meant what he said is clearly indicated by the alliance between the Standard of Indiana and the Sinclair Consolidated Oil company, which is today recognized as the leading independent factor of the country, although the alliance is confined definitely to the purchasing and transporting of crude petroleum.

This development explains the World's inclusion of Sinclair in the list of names of independents who are opposing Standard Oil domination, as told yesterday, and answers Wall street critics who regard Sinclair as a virtual part of the Standard Oil organization.

"WORSE THAN PAIN" Louisiana Lady Says She Has "Never Found Anything Better Than Cardui for a Run-Down Condition."

Morgan City, La.—"It would be hard for me to tell how much benefit I have derived from the use of Cardui," said Mrs. I. G. Bowman, of 1319 Front Street, this city.

"I was so run-down in health I could hardly go. I was thin. I had no appetite. Could not rest or sleep well. I was so weak, and so very nervous, I was no pleasure to myself.

"I suffered some pain, but the worst of my trouble was from being so weak and easy to get tired and out of heart. "This nervous condition was worse than pain.

"Some one told me of Cardui, and I decided to use it. "After using a few bottles, I regained my strength. I wasn't so nervous, and began to eat and sleep, and grew stronger and was soon well.

"I have never found anything better for a run-down condition. "If you suffer as this Louisiana lady did, you, too, should find Cardui helpful for your troubles. Get a bottle of Cardui, today. NC-144

DOG HILL PARAGRAPHS

By GEORGE BINGHAM

Yam Sims went to the barbershop Saturday and got a hair-cut, and after looking in the mirror he found it was not cut like he would of cut it, but he couldn't of cut it at all.

In order to put himself on an equal footing with his dog, Poke Bazley allows his dog to walk in front part of the way whenever they start anywhere together.

Salem Barlow has learnt to sing bass solos while he plays the banjo, but he is going to have to give it up, as it is too great a strain on his banjo strings.

Free to Asthma and Hay Fever Sufferers

Free Trial of Method That Anyone Can Use Without Discomfort or Loss of Time.

We have a method for the control of Asthma, and we want you to try it at our expense. No matter whether your case is of long standing or recent development, whether it is present as Chronic Asthma or Hay Fever, you should send for a free trial of our method.

We especially want to send it to those apparently hopeless cases, where all forms of inhalers, douches, opium preparations, fumes, "patent smokes," etc., have failed. We want to show everyone at our expense, that our method is designed to end all difficult breathing, all wheezing, and all those terrible paroxysms.

This free offer is too important to neglect a single day. Write now and begin the method at once. Send no money. Simply mail coupon below. Do it Today—you even do not pay postage.

FREE TRIAL COUPON FRONTIER ASTHMA CO., Room 5709 Niagara and Hudson Sts., Buffalo, N. Y. Send free trial of your method to:

SPORTS

DEMPSEY LIKELY TO FIGHT AGAIN THIS SEASON

Expected to Defend His Title Against Gibbons and Perhaps Another.

By HENRY L. FARRELL,
NEW YORK, May 5.—Jack Dempsey, it is safe to assume, will defend his title once, and perhaps twice, this season in big outdoor shows. Tommy Gibbons probably will be the first opponent for the champion. He should be beyond all doubt.

Gibbons is unquestionably the class of the field that is seeking a chance to oppose Dempsey for the heavy-weight championship. Harry Wills is past his prime, Luis Firpo has not reached his prime, and the other contenders are all second-raters, including the highly press-agented Floyd Johnson and the antique Jess Willard.

Firpo, for the present, is out of the question, as Tom Gibbons would massacre him if they ever met. Wills is vastly over-rated. He has made any number of bad showings against such mediocre as Sam Langford, Bill Tate and Clem Johnson.

Gibbons, on the other hand, has had only one bad fight and in that he lost a decision to Harry Greb. But no one seems to do anything with the fouling, acrobatic Greb.

The St. Paul challenger's list of knockout victims is one of the longest any heavyweight ever acquired, and it contains the names of many set-ups. So does Dempsey's. In criticizing Gibbons for an apparent desire to take on easy things, try and figure how many good men Dempsey has beaten!

Tex Rickard vouches for the statement that Gibbons had to take on third and fourth raters because the good heavyweights, and the trial horses refused to consider a bout with him.

"I have been trying to get a match for Gibbons in the Garden for two years, and I can't talk any kind of business to any of the heavyweights," Rickard said recently.

Gibbons has been getting nothing but the "run-arounds" from a certain element in New York that seems to have some kind of a magnetic influence on the wheel that is directing the game here.

First he got a \$15,000 match with that grossly over-rated and over-advertised Floyd Johnson. As soon as Johnson's manager realized what a terrible blunder he had made in accepting Gibbons, he ran Johnson out of the match.

Gibbons didn't have a comeback, as he was told that Jess Willard would be a better card for Johnson and that the show was being run off for sweet charity.

The "powers" then said that Gibbons could fight Jack McAuliffe in the Garden, and the same ones who started to steam up McAuliffe as a great prospect suddenly and strangely changed their tune and declared that the public ought to be protected against another set-up killing by Gibbons.

Bill Muldoon, the chairman of the

Why our neighbor's paint went wrong

They picked out a color, and then took the first paint they could get that color in. The color was all right, but the paint was all wrong.

If they had first decided on the right paint, it would have been easy enough to get the right color in that paint.

Let us explain why you should always make sure that the paint you buy is made by the Lowe Brothers Company.

Burton-Lingo Co. Lumber

BARNEY GOOGLE—Barney Goes Burglarizing for Sparky.

—By Billy De Beck

Copyright, 1923, by King Features Syndicate, Inc.

commission, then announced that McAuliffe could not fight Gibbons and at the same time McAuliffe got the "flu."

Then, all the more strange, Muldoon picked McAuliffe as the opponent for Luis Firpo on the milk show card.

C. & S. NINE OF RANGER TO PLAY INDEPENDENTS OF EASTLAND TOMORROW

Ranger fans who have been eagerly waiting to see the Chestnut & Smith club in action will be rewarded tomorrow afternoon when the Ranger team will go up against the strong Eastland Independents at Connellee park, Eastland. It will be the first real test for the Ranger club.

WICHITA FALLS.—War has been declared on Wichita Falls dogs by Chief of Police Hodgins. Under a recent order, the official has placed a "dog catcher" in the city to pick up all dogs not bearing a license tag. Sixty dogs were picked up the first week. If not called for within 48 hours, the dogs are killed.

MINEOLA.—Blackbirds have done considerable damage to early corn, according to farmers in this section. Poisoned corn has been placed in the fields as bait for the birds and many have been destroyed, it is reported. This is believed to have materially reduced the damage that would have been done.

COYOTES WILL PLAY HUMBLE IN CISCO TOMORROW

Prairie Coyotes will meet the Humble club at Cisco tomorrow afternoon in the former's fourth game of the season. Cisco reports have it that the Humble nine is a fast one. The Coyotes are determined to wipe out the defeat given to them last year by the Cisco team, reports from the Coyotes' camp declare.

The Coyotes management has announced a partial schedule for the season as follows:

May 13, Breckenridge at Breckenridge; May 20, Magnolia at Olden; May 27, Humble at Cisco; June 3, Breckenridge at Breckenridge; June 24, Humble, probably at Ranger.

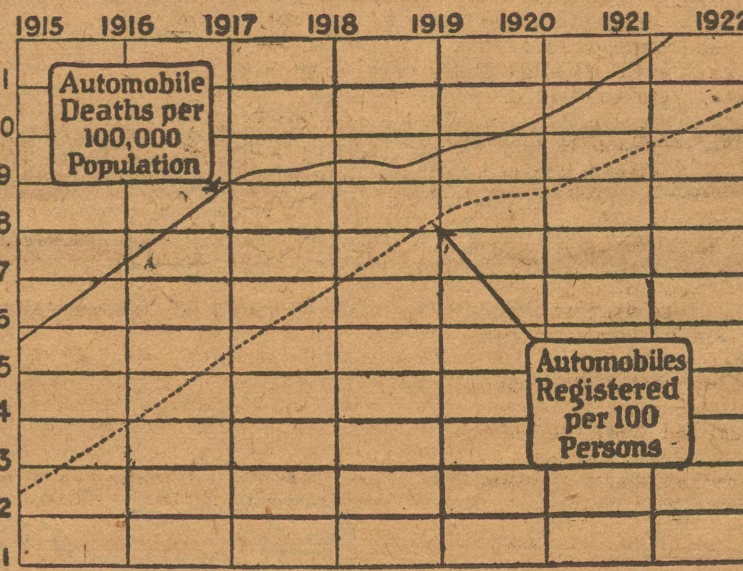

The Coyotes will be forced to play most of their games away from home, because of the lack of suitable playing grounds, it was said.

This will be the lineup of the Coyotes tomorrow:

Seale, shortstop; Hengu, catcher; Shaw, center field; C. Bradford, third base; Wendland, second base; Cary, first base; A. Bradford, left field; Hawthorne, left field; Little, right field; Smith, pitcher; Spurgeon, left field.

Efforts are being made to schedule games with the Eastland Independents and Thurber. The Coyotes sought two games with the Eastland club for June 10 and 17 but these dates had previously been given to the Chestnut & Smith team of Ranger club.

Automobile Deaths Leap Annually But at Less Rate Than Cars Owned

DEATHS in the United States caused by motor car accidents increase annually. So does the number of automobiles registered. The above graph shows, however, that the number of deaths does not increase so rapidly as the number of cars.

Between 1915 and 1920, for instance, the number killed advanced from 3,978 to 12,500, or by 214 per cent. This figure is awesome enough in itself. The number of cars, however, increased over the same period from 2,545,664 to 10,448,662, or by 310 per cent. The number of cars in 1922 was estimated to be 11,500,000.

These statistics were charted by the Phoenix Mutual Life Insurance Company, for inclusion in its mortality tables. In commenting upon them the company says, "City governments which will continue to make their traffic regulations more and more rigid till they can point to low death rates from automobile accidents will deserve the commendation of all thoughtful people."

21—LEGAL NOTICES
NOTICE OF PUBLIC SALE OF REAL ESTATE
Notice is hereby given that I, A. R. Eldredge, United States Marshal for the Northern District of Texas, shall on Tuesday, June 5th, 1923, that being the first Tuesday in the month, sell at public sale at the door of the County Court House of Eastland County, Texas, in the town of Eastland, Texas, between the hours of 10 o'clock a. m. and 4 o'clock p. m. of said day, the following described real estate situated in said Eastland County in the City of Ranger, Texas, described as follows:

"Situated in the City of Ranger, and being fifty by ninety (50x90) feet of the North ends of Lots eleven and twelve (11 and 12) in Block Number Twelve (12) of the original townsite of the town of Ranger."

I am authorized and directed to make said sale, and same will be made by virtue of a decree of foreclosure made by the United States District Court for the Northern District of Texas, Dallas Division, on February 21, 1923, in the suit styled E. B. Cushing, Receiver of the First National Bank of Ranger, Texas, vs. J. B. Sowell, et al, (the defendants in said suit being J. B. Sowell and T. W. Sowell) and numbered 2962-220 on the equity docket of said Court, and an order of sale thereon issued March 21, 1923, by the Clerk of said Court, and directed and delivered to me as aforesaid, and this decree is a foreclosure of a first lien on said land in favor of plaintiff, of \$13,261.09, with interest from the date of judgment at the legal rate.

The proceeds of sale, after the payment of all costs, are to be applied to the satisfaction of said lien as set out in said decree. (The deed of trust foreclosed in said decree is recorded in Book 26, page 386 of the Deed of Trust records of Eastland County, Texas.)

Said decree of court is referred to, and anyone interested, desiring further details, may inspect the same at the office of the Clerk of the aforesaid Court in the Post Office Building in Dallas, Texas.

A. R. ELDRIDGE,
United State Marshal for the Northern District of Texas.

March 31, 1923.
By Baylor Crawford, Deputy.

22—POULTRY AND PET STOCK
FOR SALE—Full blooded Scotch Collie pups. 616 S. Hodges St. or phone 127. L. B. Frazer.

5-room and bath; garage; hot or cold water; gas; electric lights; telephone; one of best Jersey milch cows in Ranger with heifer calf; 15 brown leghorn hens with cock; 11 barred rock hens with cock; lot of fryers and baby chicks; good garden; water in garden; barn; chicken houses, etc.; all go with place. House well built and must be seen to be appreciated. Small payment down, balance like rent—price is right. Phone 507—will call and show this property.

PROPERTY CLEAR OF DEBT.
F. D. HICKS, Owner.

The Type-and-Ink University

NEWSPAPERS are the greatest of all modern educators. They teach history in its making. The exploits of exceptional people, the press of unusual events, the ebb and flow of political expedience—all are made public knowledge within a few minutes after their happening. This information is instant and complete.

That is why men and women who are eager to be fully informed read the newspapers—not only the news of the world, but also news of what to buy, where to buy and how to buy.

You cannot be abreast of the times if you overlook the advertisements. For advertisements give you the real news of business. They are the messages of business created for your convenience and pleasure—of merchandise gathered from the myriad of markets of the world for you and your family.

Advertising teaches how to get the most in value and enjoyment for the least money. It gives you knowledge that pays.

READ ADVERTISING AND LEARN.

41,681 Ford Trucks Delivered in First Quarter Set Record

Sales of 41,681 Ford trucks during the first quarter, setting a new high record, bear out predictions made earlier that the use of the one-ton truck in hauling and delivery systems will be greater this year than ever before.

Not only is the Ford truck rapidly coming into more general use in the commercial field, where its dependability, ease of operation and adaptability to all requirements make it the most popular, but throughout the agricultural sections of the country it is fast being adopted by the farmer as the best means of solving his problem for quicker and cheaper transportation of his products from the farm to the city.

March sales of Ford trucks, which reached the new high mark of 18,717, exceeded by more than 1,000 the sales for the first three months of 1922 totaling 17,856 and were 50 per cent higher than the sales in February of this year.

'BIRTH EFFICIENCY' IN EASTLAND COUNTY REPORTED LAGGING

Eastland county is lagging in "birth efficiency." This term is used by State Health Officer W. H. Beasley in a communication to Miss E. Lindsey of the city offices, in describing the negligence or indifference of physicians in reporting births to the registrar of vital statistics.

Eastland county's "birth efficiency" for the period between March and August, 1922, inclusive in terms of percentage is 46 per cent and for the period of September, 1922, and February, 1923, 41 per cent. These percentages are believed to be based on the number of actual births as compared with the number registered with city and county authorities.

Mr. Beasley stated in his letter that the health department is anxious for Texas to gain admittance to the United States registration area this year. "In order to accomplish this, 90 per cent of the births must be reported," he said. "At present the bureau is receiving only about 65 per cent."

C. D. WELLS NOW IN SALT CREEK, WYOMING

C. D. Wells, formerly of the Ranger Times staff, has gone to Salt Creek, Wyo., where he is in the employ of the Kasoming Oil company. He has written to friends here that he likes that country very well, but finds it hard to get accustomed to the cold weather. Scott Blair, formerly of Ranger, is also at Salt Creek with the same company.

REV. THOMAS O'FRIEL GOES TO HENRIETTA TO BE PASTOR OF PARISH

Rev. Thomas O'Friel, assistant pastor of St. Rita's church, has been made head pastor of St. Mary's parish of Henrietta by Bishop Lynch of the Dallas Catholic diocese. He will say his first mass and preach his first sermon in the Henrietta church, Sunday morning.

The Henrietta parish is an important and large one in the oil belt, including as it does missions at Graham, Jacksboro, Montague, Bridgeport and a station at Nocona.

Rev. Father O'Friel, who came to Ranger on July 6, 1922, from St. Patrick's church, Dallas, has, during his short stay here, ministered to the spiritual needs of his people at the Cisco, Breckenridge and Eastland missions, which are under the Ranger parish.

He came to the United States four years ago from Ireland. He studied in a secular college at Cork, at Wexford college, also in Ireland and completed his theological studies at Kenrick seminary, St. Louis. Immediately after completing his studies at St. Louis, two and one-half years ago, he was sent to Dallas where he was ordained.

His successor here will be Rev. Fr. Lydus Parrocchini of St. Joseph's orphanage, Dallas. Father O'Friel succeeds Rev. Fr. F. J. Schiessel at Henrietta, the latter going to Pilot Point.

CROSS PLAINS.—A municipal band consisting of forty-two musicians has been organized here and will be made a permanent civic body. The band will be limited to fifty pieces. Arthur Layton, Dallas, has been employed as director.

STAMFORD.—Plans for the establishment of a permanent West Texas Baptist encampment will be considered at a meeting of Baptists from Stamford, Haskell, Abilene, Rule, Anson, Hamlin, Rotan, Wichita Falls, Vernon and Lueders, at Lueders this week. The meeting has been called by prominent Baptists of this section. The first encampment is planned for the week of July 15 to 20.

Two Aviators Who Make First Coast-to-Coast Non-Stop Flight

GOVERNMENT AID GIVEN TO ENCOURAGE THRIFT AND SAVING

Saving and thrift are qualities which need not be extolled. Their worth has been proved time after time. It is the thrifty person and the saving families that succeed. In fact it has been demonstrated again and again that the road to success is reached by saving.

The United States government has taken hold of saving in a practical way and has provided a plan which makes it easy for people to save in small sums and to make their small savings increase until a fair compe-

tence is acquired. The manner in which this can be done is told in a booklet on saving issued by the United States government savings system. Not only are the lessons of thrift told in clear and concise language, but the facts about treasury savings certificates, the gilt-edged government security, are given in such form as any reader can readily understand it. This little booklet is sent free to anyone who will write to the government savings system in the treasury department at Washington.

SPEEDER PAYS FINE.
George Epps, charged by Officers Jim Daniels and Jim Ingram with speeding on South Rusk street yesterday, pleaded guilty to the charge and paid a fine of \$11.70.
