Dancers Arriving For Marathon Dance To Begin Monday

Approximately \$1,000 in prizes are to be distributed among the marathon dancers who take part in the long distance dancing exhibition at the Summer Garden, beginning Monday morning at 10 o'clock, according to J. Bruce Corrie, who is directing the exhibition in Ranger.

A handsome cash prize is also offered to anyone from Eastland county who dances the longest. This is a special prize for the dancers of this community.

Several of the out-of-town dancers arrived today and are taking it easy at the Gholson hotel. According to Mr. Corrie every one of them is in excellent shape and it is expected that at least four dancers will out-dance the present world's record.

Many people from Dallas and surrounding territory are expected to visit Ranger during the dance. Special decorations will put a new touch to the Summer Garden for this occasion.

It will be quite interesting to see the dancers eat while dancing without missing a step. The men will shave and groom themselves and keep time to the music at the same time.

MEXICAN OPPOSITION TO RECOGNITION BY U. S. IS COMMUNISTIC

MEXICO CITY, May 19.—President Obregon said today he considered yesterday's bombing, which damaged offices of Mexican attorneys in the building in which the American consul has his offices was part of efforts that are being made to hinder the government in seeking recognition by the United States.

After 24 hours investigation by the municipal police and secret service officials no clew has been found sufficient to warrant any arrest in connection with the explosion.

According to information obtained by newspaper men, the American delegates, Charles Warren and Charles Barton Payne, received anonymous warnings upon their arrival here on May 11 that they must leave Mexico within 72 hours.

LEADERS IN MORE THAN SCORE OF TEXAS CITIES APPEAL TO TAXPAYERS TO BRIDLE LEGISLATURE

Ask Citizens to Hold Mass Meetings and Advise Lawmakers to Hold Down Appropriations So That Taxes Shall Not Be Unduly Increased.

Spent to the Times.

DALLAS, May 19.—An appeal to the taxpayers of Texas, signed by leading citizens in more than a score of Texas cities, calls for the people of the state to assemble in mass meetings in their several communities and adopt resolutions instructing their state senators and representatives in the legislature relative to taxation and appropriations.

The appeal is a protest against what are claimed to be excessive appropriations in that they will require increase of taxation which signers of the resolution insist is inopportune at this time. The appeal is as follows: To the Taxpayers of Texas:

The legislature has appropriated \$46,000,000 of the public fund to be expended during the next two years. This exceeds any other appropriation ever made to the state government by more than \$10,000,000. This exceeds the available revenue to the amount of \$8,000,000 during the same period.

The third called session of the legislature is confronted with two alternatives: To reduce this appropriation or to increase taxes. We believe that the time is inopportune to increase the burdens of taxation. We urge the citizens of every community in Texas to at once assemble in mass meetings and advise their senators and representatives as to their views on this subject.

Signed: Austin Clearing House, by H. A. Wroe, president.

NEGOTIATIONS WITH CHINESE OUTLAWS REACH STANDSTILL

PEKING, China, May 10.—Telegrams to Chinese authorities from Tsoo Chwang, near which 15 foreign captives are held by the mountain outlaws, indicate that government representatives are on the point of abandoning negotiations for release of the hostages because of the extravagant demands.

'I AM CLARA PHILLIPS,' SAYS WOMAN IN JAIL

Confesses to Honduras Official She Is Convicted "Hammer Murderess."

(Copyright by United Press)

TEGUCIGALPA, Honduras, May 19.—Confession that she was none other than Clara Phillips, the "hammer murderess" sought throughout the United States, Canada and Central America, was made today by the woman being held in jail here. Officials from Los Angeles arrived this morning to identify her, and at the same time the woman, heretofore silent, broke down and confessed she is the woman who was convicted of killing Mrs. Meadows.

Although since her imprisonment here, the woman has displayed a temper that has made officials reluctant to approach her, she now appears to be quite docile and even reconciled to being taken back to California.

GERMANS FIND WAY TO MAKE BACHELORS PAY 'BACHELOR TAX'

COLOGNE, May 19.—How to tax a bachelor for being a bachelor is puzzling a number of the communities in the Rhineland, especially in localities where the authorities are for the most part married men with families.

The little town of Repelen, near the Dutch border, decided simply to call a spade a spade and declared an out-and-out "bachelor tax" of 2,000 marks a month. Young men between 18 and 23 years of age were permitted a 25 per cent rebate, and complete immunity was provided for such unmarried chaps as had little or no income. The latter clause wrecked the scheme, for it ran the town amuck of the federal finance ministry at Berlin, which ruled the income tax was a sole and pet protegee of the central authorities. Therefore the ministry decreed, neither Repelen nor any other German community could levy against an individual's earnings.

Hamborn profited by its little neighbor's experience and so disguised the tax that it comes under the head of "per capita" assessments, yet reads "For Bachelors Only" between the lines. The Hamborn city fathers wisely avoided making any reference to a man's income.

Other places are figuring on dodging the federal objections by making their bachelors subject merely to a special "residence" tax.

THROAT AFFECTION APPEARS SERIOUS AND POLITICAL LEADERS BELIEVE WILL COMPEL HIM TO RETIRE FROM OFFICE.

LONDON, May 19.—Premier Bonar Law returned from Paris last evening a sick man, according to a statement by his physician. His illness and probable resignation has put the British political world in a turmoil over his probable successor.

OPPOSITION TO OBREGON TRYING TO EMBARRASS HIM

MEXICO CITY, May 19.—Opposition to the Obregon government has begun a reign of terror and is seeking to place obstacles in the way of the administration's pathway to recognition by the United States. Threats have been made against the lives of the American commissioners and they have been told in anonymous letters to leave Mexico at once.

An effort was made by some unidentified persons to overthrow the monument to George Washington. Obregon has expressed the greatest regret for the outrages, but said he believed they were of a political nature and intended to have a bad effect on the conference. But the conference goes on without hindrance.

TOO MUCH JAZZ IN THE HOME SAYS REPORT

MONTREAL, N. C., May 19.—The morale of an average American home is kept in a constant state of jazz with jazz music, jazz amusements, jazz readers, jazz conversations, jazz ornament and jazz dress. How can sanity, sobriety and dependability be maintained in the world when the homes are pouring such poisonous streams into it?

This statement is the climax of a report of the permanent committee on the Sabbath and family religious worship made today before the general assembly of the Southern Presbyterian church, in session here.

In Texas the proportion of divorces to marriage are about 1 to 7, the report says.

RANGER SCHOOL CONTROVERSY IS TAKEN TO COURT

Election of Two Trustees Contested and Temporary Injunction Obtained.

Judge George L. Davenport in the Ninety-first district court, late Friday afternoon, granted a temporary injunction in a suit filed by W. R. Jarvis and Mrs. L. A. Vandervoort, the latter being joined by her husband, L. A. Vandervoort, against E. H. Mills and Mrs. C. E. Maddocks, the latter being joined by her husband, and H. S. Cole restraining the defendants from "exercising or attempting to exercise any of the official functions and duties, or enjoying any of the rights, privileges or powers of the office of school trustee of the Ranger independent school district, or in any way, shape, form or manner exercising or attempting to exercise any power or powers of control, management or possession of any of the records, books, papers, vouchers, documents, assets or funds of said independent school district; or in any way hampering, interfering with or obstructing the duly and legally qualified trustees of said independent school district in the proper and legal performance, fulfillment and exercise of their proper functions"; and further that the defendant Cole be "temporarily restrained from exercising or attempting to exercise any of the official functions or duties, and enjoying any of the rights, privileges or powers of the office of tax assessor and collector of the Ranger independent school district."

The injunction sought and temporary restraining order granted by the court is merely a part of a suit filed by the plaintiffs against the defendants to contest the election for school trustees held in Ranger on April 7 when E. H. Mills and Mrs. Maddocks were elected school trustees, the plaintiffs W. R. Jarvis and Mrs. Vandervoort alleging they were duly qualified and announced candidates for the office but their names were not placed upon the official ballot because of a "combination and conspiracy" whereby "qualified electors and voters of said Ranger independent school district were deliberately and wholly deceived and misled as to their rights, and as to the sole candidacy of the defendants."

The plaintiff Jarvis alleges that he received a sufficient number of votes, his name being written on the ballot, to have elected him, but that the ballots were not counted by the election officers because some were written "W. R. Jarvis," others "J. Jarvis," and others "Jack Jarvis," the latter being the name by which he is generally known.

The plaintiffs allege that the "official ballot" was prepared and printed without the authority and approval of the school board as required by law and that the election was therefore illegal and void.

BLUE FOR SUMMER FROCKS DOMINATING COLOR NOW IN PARIS

By JOHN O'BRIEN,
United Press Staff Correspondent.

PARIS, May 19.—Blue is the dominating color for summer frocks, with green and black for evening wear. Muslins and silks and alpaca for the town, wool for the country and the seaside. Simplicity in design. These are the fashion dictates of the leaders of the dress-making world of Paris.

Poirot has come back from the Riviera with his mind full of flower tones, which he is combining into flossy, shimmering creations. Freshness and coolness are his aim. The shapes, like the colors, are inspired by flowers. His models are marked by great fullness. Alpaca and pique are his favorites. He doesn't care for black.

Worth is going in for navy blue and green and believes that black will always hold its own. Roman and pleated silks, watered silk, alpaca, ribbed silks are his choice for afternoons. Some of his tailor-mades give the impression of being one-piece suits, but when the jacket is taken off another dress appears, thanks to a new idea in waists. Silk scarfs and muslin bodies are favorites with him. The sleeves are very small.

Doeuillet stands by navy blue also, with green and red in flaring tones good seconds. Like Worth, he believes black to be always becoming. His costumes are in solid crepe or prints. A little muslin. No scarfs. Cotton in heavy, many colored designs for the country. Short sleeves. But for satin gowns the sleeves are exceedingly long, no capes, or at least very short ones which form an integral part of the dress.

Premet favors straight lines without girdles at the back. He has specialized in Egyptian styles and declares he did not wait for the Tutankhamen vogue to make his selection. Many of his models are of printed crepe de chine, muslin, linen. Some are in real lace, filet and Bruges mixed. Dark silk muslin with cachemire muslin in many colors is used in others. For him the success of the season is alpaca, in greens, browns and navy blues.

Patou holds that black has passed out. Colors are dominant in his models. Long, supple lines predominate. Many frills. Lots of filmy stuff around the neck. Leather centures give a youthful air to these gowns. As for colors he believes in beige and navy blue.

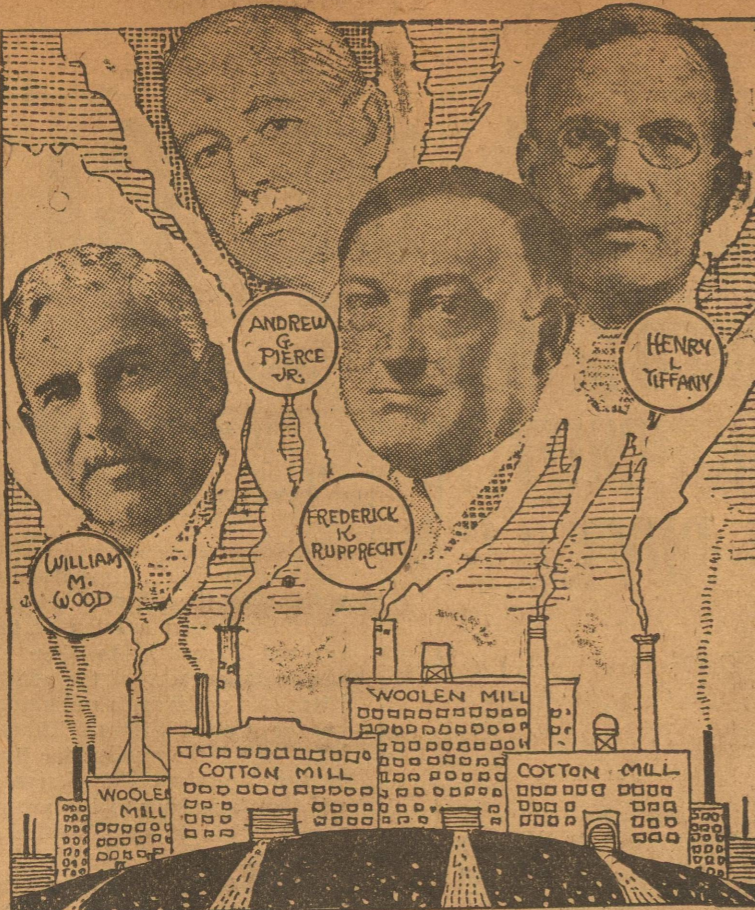

BRYAN.—The Brazos county singing convention has just closed one of its most successful annual meetings, at Kurton. The convention has been held annually for 44 years. When first organized the convention included other nearby counties but these were divided as population increased and separate county organizations formed.

ALPINE.—Alpine is experiencing a small building boom among home builders, according to city officials. Reports show that approximately \$50,000 will be spent on new homes in this town immediately.

LAMPASAS.—Lampasas women in cooperation with the American Legion auxiliary have made arrangements for a children's rest room to be located on a playground in the business section. Tables, chairs, swings, and benches have been supplied and calls issued for other equipment.

"Big Four" Combines Brains with Textiles

HERE is the "Big Four" in the textile world—the four men who make and distribute more yards (it would be easier to measure it in miles) of cloth than any other group on earth. They are William M. Wood, President of the American Woolen Company, whose 50-odd plants have a floor space of more than 10,000,000 sq. feet; Andrew G. Pierce, Jr., Vice President of the American Woolen Company and president of Consolidated Textile Corporation; Frederick K. Rupprecht, President of Conversa and Company and Chairman of the Executive Committee of Consolidated Textile, and Henry L. Tiffany, director in both corporations, and regarded as one of the wisest raw material buyers in the world.

Will Fight Red Propaganda By Use of Motion Pictures

A PLAN for the use of motion pictures to combat radical agitation and to create a better understanding of American institutions, the most far-reaching and comprehensive ever projected on a practical scale in the United States, has been launched by William H. Barr, President of the National Founders Association, and Col. John E. Edgerton, President of the National Association of Manufacturers. Under their guidance a national foundation is being organized which will undertake the widest possible promotion and development of the non-theatrical film for use in church and schools.

In outlining the purpose of the foundation, Mr. Barr declares: "It is no exaggeration to say that a great social danger confronts this country. It is found in the fact that a large number of our people are drifting from the fundamental principles upon which our government is based. This is due to the injection of the spirit of sovietism, radicalism, and, without injecting any religious controversy, atheism. A man's religious beliefs may be his own but the safeguarding principle of Christian effort must be the controlling belief of the people of this country if they are to maintain a nation which will have honor, stability, and power."

FAIR MAID, OFTEN A BRIDESMAID, YET EXPECTS TO BE BRIDE
By Associated Press
BESSEMER, Mich., May 19.—Miss MacFarlane of Bessemer has been a bridesmaid 184 times, but doesn't worry in the least, she says, about the old superstition that "twice a bridesmaid and you never marry." For Miss MacFarlane is young and pretty. Eager to wed and frequently overlooking many important details, young couples arrive at the courthouse here with the license and the ring, but without witnesses. Desiring a bridesmaid, the judge invariably sends down for Miss MacFarlane, a deputy county clerk, and she's never been known to fail.

Kellogg Bran Is Healthful Summer Dish and Tempting

Perhaps the most remarkable of the Kellogg products is their new preparation of bran, that healthful, natural cathartic, which medical science is now proclaiming as better than all artificial stimulants. It can be used in many different forms, and the Kellogg Cornflakes company has assembled many fine recipes for the help of the busy housekeepers who would like to try bran cooking.

Following are more of those tempting bran recipes such as were published last week, with sauces for the puddings already printed:

LEMON SAUCE.
Mix 3 heaping teaspoons cornstarch with 1 cup sugar; stir in 2 cups boiling water; cook about 8 minutes stirring constantly. Add juice and grated rind of 1 lemon and 1 tablespoon butter. If too thick add more water and butter.

HARD SAUCE.
Cream together 1 heaping tablespoon of butter and 1-2 cup sugar; add 1 teaspoon boiling water; beat until light and smooth and flavor with vanilla or lemon, or vinegar to taste. Grated nutmeg over the top is delicious.

BRAN NUT AND RAISIN BREAD.
One-fourth cup brown sugar, 1-2 cup milk, 1 cup flour, 1 cup Kellogg's bran, 1-2 cup water, 1-2 cup English walnuts meats, cut in slices, 1-4 cup molasses, 2 teaspoons baking powder, 1 teaspoon salt, 1-2 cup raisins. Mix in the order given, sifting flour, baking powder and salt. Add raisins and nut meats dusted well with flour. Pour into buttered bread pan, having pan three-quarters full. Bake slowly 2 hours or longer. Nut meats may be omitted.

QUICK BRAN BREAD.
Mix 1 cup Kellogg's bran, 1 1-4 cups flour, 2 teaspoons baking powder, 1 teaspoon salt together; add 3-4 cup milk or water, 1-4 cup molasses and 1 well beaten egg. Thoroughly beat and pour into a buttered bread pan. Bake in a moderate oven 1 1-2 hours.

BAPTISTS THROUGHOUT WORLD SHOW BIG GAINS

KANSAS CITY, May 19.—Greatly increased numbers of baptisms in all the 18 mission fields around the world during the past year were reported to the Southern Baptist convention last night, by Dr. J. F. Love, corresponding secretary of the foreign mission board in presenting his annual report.

Southern Europe is the newest territory in which Southern Baptists have been operating during the past two years, and during the year new theological schools and publication houses were established at Barcelona, Budapest, Bucharest and Petrograd, the report said. While native missionaries have been employed in Palestine and Syria for some time, this year marked the sending out of four American missionaries who have established headquarters at Jerusalem and are now making a survey of Palestine and Syria with a view to the establishment of a more extensive work in those countries, embodying evangelistic, educational, publication and benevolent work.

The 18 countries in which Southern Baptists are now carrying on foreign mission work, and in which there is a combined population of 900,000,000, are Africa, Argentina, Brazil, Chile, Uruguay, Paraguay, China, Japan, Spain, Italy, Jugoslavia, Hungary, Romania, Palestine, Syria, Siberia and Mexico.

SEEKS TO ENCOURAGE BETTER HOMES FOR AMERICAN FAMILIES

WASHINGTON, May 18.—There are two sides to a ten dollar bill. One side is the effort that goes to earn it; the other is the care and intelligence which go to the spending of it. One side is the man's contribution, the other is the woman's. The whole question of wages is affected by the home maker's ability to get value for her money.

In such manner Secretary of Labor Davis sets forth the significance of the Better Homes in America campaign to be conducted during the week of June 4 to 10. Secretary Davis is a member of the National Council for Better Homes in America. Other members are Vice President Coolidge, Secretaries Hoover and Wallace and Mrs. T. G. Winter, president of the General Federation of Women's Clubs.

"The campaign is a woman's campaign," says Secretary Davis. "They are taking stock of themselves to see how they fill their side of the bill; they are taking inventory of home values to determine on standards. The best American wage earners know that the pay check at the end of the week belongs to the family. They know also that a forty-five dollar a week wage does not do as well in some families as a thirty-five dollar a week wage does in others."

American Red Cross Refugee Aid In Greece Helps One Million Homeless; Emergency Program Nears Completion

A mud settlement in Athens is shown in the pictures above. The Acropolis is seen in the background. It is in this and other historic sections of Greece that the American Red Cross is completing its big task of aiding thousands of refugees. Portable spray tanks are being used by the American Red Cross workers in Greece to expedite this campaign of the organization to check and prevent epidemics. By use of these tanks, the heads of refugees are sprayed with a disinfecting solution to kill disease spreading vermin.

The American Red Cross plans to withdraw its forces from Greece and terminate its emergency disaster relief program for the Asia Minor refugees on June 30th. Col. William N. Haskell, Red Cross Commissioner in Greece has been cabled to notify

the Greek government of the Red Cross' intention to arrange transfer to local authorities and charities of the work now conducted and financed by the Red Cross.

Judge John Barton Payne, National chairman of the Red Cross, in discussing the situation, said: "The American Red Cross in materials already shipped and in other expenses incurred to date, has expended \$2,594,448.21 from its disaster emergency relief funds to succor 1,000,000 refugees who were transhipped to Greece with little warning as an incident of the Greco-Turkish war. A daily feeding program is now reaching 500,000 of the most needy of these refugees. A sanitary and medical effort of wide scope and intensive nature has warded off epidemics which threatened American

charity has prevented the refugees and the population which received them from experiencing disaster in the fullest sense of the word."

The Red Cross has been operating in Greece for six months and Col. Haskell's reports from the field agree that the situation cannot attain permanent solution through outside charity. The situation is no longer regarded as an emergency by Red Cross officials and ample time is being given the Greek government to decide for itself how it will arrange for the permanent care of the refugees.

The highest Greek officials have praised the work of the American Red Cross in Greece. King George of Greece said: "It was a great work, well carried out in an admirably organized manner."

Will Pay Homage To Soldier Dead On Memorial Day

PARIS, May 19.—Memorial day this year, according to plans now being developed by the Overseas Memorial Day association and the American Legion, will be the occasion for the final consecration of the graves of the 30,587 American soldiers whose bodies will rest forever in foreign soil.

To carry out this idea arrangements have been made to have Lincoln's Gettysburg address read at the ceremonies at all the eight military cemeteries abroad. This announcement is made by Colonel Francis E. Drake, president of the Memorial Day association.

The chief service of the day will be a solemn memorial ceremony in Paris on the morning of May 30 when the memorial tablets in the cloister of the American Pro-Cathedral of the Holy Trinity to the memory of the American Divisions; the American Ambulance Service, and the Lafayette Flying Corps, together with the statue of Columbus, are to be unveiled.

"My whole family uses it," continued Mr. Garrett. "My wife says she believes she kept off the 'flu' by taking doses of Black-Draught regularly."

"I, myself, use Black-Draught for indigestion, and it is fine. We used pills and tablets and other laxatives, but they never seemed to do us good, but the Black-Draught sure has, and it has come to our house to stay. We give it to our daughter for headache and torpid liver."

"I am glad to recommend anything that has been the help to my family that Black-Draught has."

"My present health is good. Have two boxes of Black-Draught in the house now."

POTASH AND OIL LAND OFFERED FOR DRILLING CONTRACTS

West Texas News Service.
MIDLAND, Texas, May 19.—In an effort to stimulate the development of the potash fields of West Texas the Odessa Commercial club is taking an active part to introduce to the Odessa field reliable operators and is offering 50,000 acres of potential potash and oil land for drilling contracts.

The government has had a man in this field for the past year to assist in all operations with a view of determining accurately the amount of potash concealed below the surface. Potash has been found in nine wells surrounding the Odessa field and the government officials have laid great emphasis on the fact that the biggest bed of potash in the world may be located in West Texas.

Because operators generally are not familiar with the advantages and value of potash there has not been as much development as there would have been had government representatives made similar recommendations in regard to oil fields.

The Farmers Oil company, of Lancaster, Pa., has contracted to drill five wells in the Odessa field and is engaged in its first test now two miles northeast of Odessa. The Odessa organization is anxious to secure additional companies and hence is making the offer of the vast body of acreage for drilling contracts.

GIVES PRESENTS TO BE RECKONED AS GOOD FELLOW

Grand Jury is Investigating, However, How He Handled Trust.

Special to the Times.

VINELAND, N. J., May 18.—Charges that costly gifts to women were charged to his borough were made today against a former town clerk of Vineland, whose activities are being investigated by the grand jury in session at Bridgeton.

The suspect is said to have sold coal consigned to the borough during the war for its public utilities and to have pocketed big profits from the sales. He is now in the coal business.

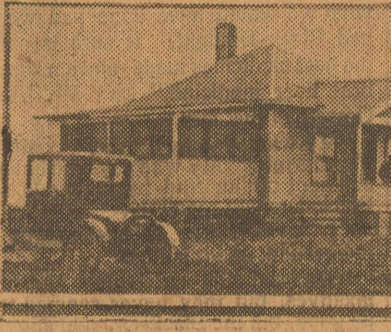

It is alleged that the accused man gave an electric sewing machine to a girl employed in the borough hall and a handsome silver service to another young woman in the borough.

It also is said the former clerk gave away large quantities of hotel supplies which he had billed to the borough.

The taxpayers also are said to have paid, without their knowledge, for many wedding presents that the accused man gave away in his desire to be known as a "good fellow."

DALLAS.—Seven bond issues were approved at a municipal election here recently. The issues voted total \$8,325,000, bringing the city's indebtedness to \$22,135,000, according to officials.

STRANGE MYSTERY IN MAN'S DISAPPEARANCE

Warren J. Lincoln, a well-to-do Aurora, Ill., man has strangely disappeared from his home. A blood-stained Indian club was found in the rear of his home, together with signs of a struggle. At the same time Lincoln's wife, Mrs. Lina Shoup Lincoln, from whom he was estranged, and her brother, Byron Shoup, who had had an altercation with Lincoln, vanished and no trace of them has been found. Lincoln lived alone with Marie Klein, a 12-year-old girl who acted as his housekeeper and who has given the police much valuable information.

BRENHAM.—Washington county commissioners have sold \$700,000 of road construction bonds. This is the last installment of a \$1,500,000 road bond issue voted recently.

BEAUMONT.—The city council has gone on record as favoring adoption of the gravity sewer system upon recommendation of the city engineering department.

DENTON.—The city council recently enacted a pure milk ordinance requiring all cows within the milk district to be tested for tuberculous.

Barbara La Marr Declines to Be Featured as Star

LOS ANGELES, Calif.—An unusual contract has just been signed by Barbara La Marr with the Universal. Who ever heard of an actress who did not want to be starred? Here is one.

The clause in the contract in which modesty is revealed reads as follows: "The producer agrees that it will not advertise the artist as a star, but that in all references to the picture and its cast, her name shall be featured at the head of the cast, it being understood that she is to be advertised as a featured player and not as a star." This contract calls for a picture

which is to be started on Oct. 1 of this year. No story has been chosen as yet, but both story and director must be mutually satisfactory. The contract also calls for a whole lot of dollars each week. Enough to make any star happy.

Barbara La Marr was married last week to Jack Dougherty, red-haired western player, who, strangely enough, had just been advanced to stardom in Universal two-reel western dramas. Possibly Barbara thinks one star in the family is enough.

AMARILLO.—What is claimed to be the original camping outfit of Daniel Boone, noted character in American history famous as a hunter, scout and pioneer, will be brought to Amarillo in the near future as the property of Mrs. Wade Holman. Mrs. Holman recently attended the funeral of her father, Daniel Boone, in California. He is said to be the grandson of the pioneer Boone.

Diogenes Out of a Job

DIOGENES, the Greek cynic and philosopher, was a successful advertiser. He lived in a barrel to advertise himself. At high noon he was wont to light his lantern and stroll about the streets of Athens, "In search," he said, "of an honest man." In this way he advertised one of the prevailing failings of the classic Greeks. For among the ancients, the most successful merchant was the biggest skinflint. The cleverest buyer was the loudest haggler.

There's no room for a cynic in modern advertising. Advertising, today, calls attention to the open-faced honesty of business. It has standardized almost every article you can buy. You know what to expect and what to pay. You don't have to dicker, bargain and haggle to know that you are getting as good as you give.

That is why it pays to read advertisements and buy advertised goods. A product's advertising is the best guarantee of its faithful performance, its lasting usefulness or its definite quality.

If you value constant satisfaction—if you want to get your full money's worth every time—read the advertisements.

To take advantage of an advertisement is to get full value.
