CAN NEW YORK SECEDE FROM THE UNION?

WEST TEXAS IS DEVELOPING HER FARMING LANDS

Ranches Being Cut Up for Agriculture and Outlook for Year Cheerful.

MIDLAND, Texas, May 5.—The most successful farming year in the history of West Texas is anticipated this year, following a season of unusually heavy and timely rains. It is estimated that more than 10 times as much soil will be cultivated this year than ever before, 50 per cent of the increase being in virgin soil.

Big Spring, Stanton, San Angelo, Big Lake, Midland, Odessa, Barstow, Monahans and Pecos, have all added greatly to the percentage of tilled soil of last season. All the above named points have received good rains. Spring planting has already commenced and nothing short of a miracle can prevent a bumper crop.

Bigger Cotton Acreage. More West Texas land will be placed in cotton this year than ever before. Experts predict that it is now but a matter of time before the prestige which East Texas has long held as a cotton country will give way to West Texas leadership in this staple. In West Texas, especially in the Plains region, the farmer is not troubled with the boll weevil. Whether it is the climate, the altitude, or the natural potash in the soil, no one has yet determined, but boll weevil cannot live in the high Plains region of West Texas. The soil is admirably adapted for cotton growing. Some places have made as much as a bale to the acre. Absolute failures are unknown and West Texas farmers say that when a failure occurs in this part of the country it is due to the farmer entirely.

The past 12 months has seen a veritable pilgrimage of new farmers to West Texas. The huge ranches are realizing that diversity is more profitable than straight cattle raising.

Better and Better. W. R. Chancellor, cashier of the First National bank of Midland, and one of the authorities on conditions in West Texas is optimistic over the future prospects of the West.

"We are recovering from the effects of the disastrous cuts in the cattle business," he stated. "The cattle business is getting better. The ranges were never in better shape. But the most important development in West Texas in years has been the advent of the farmer. The farmer is making a new West Texas. He is making a big success, because West Texas is essentially a farming country. We are just beginning to realize it. There are wonderful opportunities here for real farmers. Land is cheap, crops are sure, market is easy, and the demand is greater than the supply. We will have a bumper fruit crop this year because the early frosts did comparatively no damage to our budding trees. And land is selling. That is a good sign. Thousands of acres are being sold to farmers and real men are coming into the life of bustling and growing West Texas. There is a wonderful future ahead of us, and 1923 will prove it."

FRANCE AND BELGIUM SEND POLITE REGRETS TO GERMAN GOVERNMENT

PARIS, May 5.—France and Belgium have sent a polite refusal to the reparations offer of the Germans. The note is in answer to Germany's proposal that she pay 30,000,000,000 gold marks with the alternative that in case of an unacceptance a commission as suggested by Secretary of State Hughes be appointed to settle the reparations difficulties.

BISHOP SAYS AMERICA IS WOMAN'S PARADISE

CHICAGO, May 5.—The poorest woman in the United States is infinitely better off than the poor women of South America, Bishop W. F. Oldham, of Buenos Aires, declared at a meeting of the employees and staff of the Committee on Conservation and Advance of the Methodist Episcopal church here.

Bishop Oldham has just returned from South America and Mexico. He said: "You can rate civilization from the place that women hold in that particular country. There used to be an idea that women had not replaced in the world."

Dempsey and Gibbons Sign Fight Articles

Will Meet In Ring, July 4th, at Shelby, Montana. Champion Gets \$300,000 Guarantee Before Battle. Promoters Expect Big Profits.

CHICAGO, May 5.—Jack Dempsey and Tom Gibbons today were signed to fight on July 4 at Shelby, Mont., a boom town of less than 1,000 inhabitants, about 60 miles from Great Falls. The winner is to receive \$100,000.

The champion is to receive \$300,000 in advance of the fight. Kerns, Dempsey's manager, when he signed the articles tonight, received a check for \$100,000 as the first installment of the guarantee, a second installment of \$100,000 is to be paid him on June 15 and the third installment of \$100,000 on July 2, just 48 hours before the champion goes into the ring.

Both boxers have agreed to train at Great Falls, and both are ready to start for the training ground at once. Dempsey's present weight is given as 195 pounds and it is claimed he will enter the ring at 197. Gibbons will be about 10 pounds lighter. A stadium is to be built that will seat 40,000 persons. Tickets will be sold at \$20 to \$50 each. It is estimated the receipts will aggregate about \$1,500,000, but the promoters of the fight said they would be satisfied with \$750,000.

Railway lines are to be extended at once to Shelby and arrangements will be made to build 40 miles of siding to accommodate the Pullman cars in which the fans will travel to see the fight and which will be parked nearby for their accommodation.

Kansas Governor Suggested to Sit in the White House

TOPEKA, Kan., May 5.—A Kansas "dirt farmer" for president of the United States.

This was Kansas' latest political sensation when Forest Luther, former chairman of the Democratic state central committee and one of the youngest Democratic leaders of the state launched a presidential boom for Jonathan M. Davis, governor of Kansas.

FORT WORTH.—Fort Worth now has an estimated population of 158,821, according to information received from the federal census bureau. The bureau in its official report recently placed the population at 143,831. That report does not include several suburbs that have recently been added.

Many Are Rushing In

Pay-Your-Bills Campaign Proving Successful All Over the Country: Ten Days More to Go for Rating.

The pay your bills campaign staged by the business men of Ranger, Eastland and Cisco from May 1 to May 15, is proving a success, and good returns have been received on the statements mailed out during the first part of the campaign.

The campaign will be pushed hard to its conclusion on May 15, after which time all ratings will be assembled, and the merchants will begin immediate steps to eliminate all credit risks who have not shown a disposition to come in on the movement of liquidation which they have been obliged to put on at this time.

Preparatory to this rating move, the towns of Eastland and Cisco have organizations of Retail Merchants' associations under way, and will have them perfected by the time of closing of the campaign. The merchants have taken a very determined attitude in this move for their self-protection, and much good is expected in the elimination of the people who would try and abuse their credit accommodations.

PUBLIC SCHOOL TEACHERS TO BE CHOSEN MONDAY

M. H. Hagaman, Member of Board, Says He Will Urge Action at Once.

M. H. Hagaman, secretary of the Ranger Independent school district board of trustees, said Saturday night he would urge the board at the meeting Monday afternoon to elect all available teachers for the school year of 1923-24 at the Monday meeting.

"I'm anxious to see them elected at once so they can settle down," he said. "The earlier we elect them the better off will the school be."

E. O. McNew, superintendent of the Ranger schools, told Mr. Hagaman, according to the latter, that he had his recommendations for the high school and ward school principals ready for presentation Monday. Upon the principals devolve the duty of recommending teachers in their respective schools. Mr. Hagaman said as far as he was personally concerned, he did not wish to see any changes made in teaching positions except where it was "really necessary."

A partisan matter that has been a topic of much discussion for the last five days will be brought up for final disposition, Mr. Hagaman said.

NEW YORK STATE MAY BECOME CROSSED WITH FEDERAL GOVERNMENT

ALBANY, N. Y., May 5.—New York will be without a state prohibition law if Governor Smith signs the measure repealing the Mullin-Cage act which was passed by the state legislature late last night.

Millions of dollars worth of illicit booze that has flowed into the United States unchecked across New York's northern border and up the Hudson river may enter unchecked by state officials.

If the governor signs the bill the federal government will have to undertake the entire duty of the Volstead act enforcement.

The bill is a "30-day" measure and the "drys" are marshalling their forces to plead with the governor not to sign it.

BROWNSVILLE.—After an absence of two weeks, Hans Anderson, lighthouse keeper near Aransas Pass, has returned to his post. Anderson was blown out to sea two weeks ago and after three days on the waters was picked up by a tanker bound for Tampico. He returned from that point.

New Unit to Casinghead Plant Is Needed

Wooten - Hughes Corporation Will Build Near Frankell, Making an Investment of \$30,000.

A booster station and a new unit to the casinghead plant of the Wooten-Hughes corporation, 12 miles north of Ranger, are being built. The production of "wet" gas in the fields north of Ranger has made it necessary to increase the plant's facilities, L. A. Vandervoort, general manager of the company said yesterday.

The new unit, which will be located one and one-half miles east of Frankell, and the booster station going up on the Harmon farm one mile south of Frankell, will give the Wooten-Hughes corporation a plant production of 5,500 to 6,000 gallons, Mr. Vandervoort said. Additional employees will be taken on.

The booster station, including the machinery and housing will cost, it is estimated, about \$20,000. The new unit will mean an investment of \$30,000.

The first unit was built about one year ago.

PENDER WELL OPENS UP NEW OIL TERRITORY

Special to the Times.

BRECKENRIDGE, May 5.—Six gaugers and five workers are working 24 hours a day to keep up with their work at the famous Pender well, on the Keel lease, northeast of Breckenridge, which made a sensational jump to 500 barrels an hour flow Thursday. A crew of 50 men in all are working on the well. The hole is 3,294 feet deep. The tools went 18 feet into the lime and on Friday were said to be still in the hole.

Efforts are being made to keep the well down, R. B. Pender, who had the well drilled, said, until another pipe line can be laid. The Texas company has a three-inch line laid and is now laying a four-inch line. The Humble company has a four-inch line to the well also.

The Pender well opened up new territory to the north of where other wells have producer, and new locations are being made in the vicinity of this well.

The Pender well is showing a gas flow of 4,000,000 cubic feet daily with a gasoline content of 1.38 per thousand.

STATE INCOME TAX BILL VIRTUALLY KILLED

AUSTIN, May 5.—The Dittman income tax bill was virtually killed in the house late this afternoon when a motion was defeated to suspend the rules and take up the measure.

Ranger's Senior Class This Year Largest of All

The senior class of the Ranger High school for 1923 is the largest the school has ever had, and consists of 18 girls and 12 boys.

The class of 1922 had 21 members, 1921 had 13 members, and the year before only 11 members. Examinations will begin May 15. The baccalaureate sermon will be preached on Sunday, May 20 at 11 o'clock in the Methodist church by Rev. L. A. Webb, pastor of the church. The baccalaureate address will be delivered in the high school auditorium Monday, May 21, by W. F. Aubrey of Denison who is prominent in chautauqua work.

Empire State May Refuse Aid To Prohibition

INDIANS SUE U.S. GOVERNMENT FOR LARGE SUM

Want Fifty Million Dollars Claiming Treaty Rights Violated.

WASHINGTON, May 5.—The United States government has been sued for \$50,000,000 by the Sioux Indians, who claim a gigantic fraud has been perpetrated against them in the violation of their treaty rights.

The suit against the government will probably be answered in the courts here Monday. It is charged that 8,000,000 acres of valuable land, including the Black Hills in South Dakota, were taken from them in violation of treaty rights and without just compensation.

Brick Highway Across County Almost Complete

Ranger to Cisco, all the way on a brick highway, with the exception of a short detour at the Texas and Pacific railroad viaduct and a much shorter detour than heretofore in entering Cisco. These two incompleteness of the Bankhead highway will both probably be done in several weeks more.

The eastern end of the highway between Ranger and the Palo Pinto county line, which is being asphalted will be done about the first week of June, according to Frank Hoffman, road superintendent for the contracting firm of Smith Bros. The western end between Cisco and the Callahan county line will be done before June 1.

Traffic to Cisco now goes over the Stamps hill instead of the circuitous and rough detour, which is many times shorter than the latter temporary route, now abandoned. Brick has been laid up to the point where the highway turns to 16th street and traffic now goes out 14th street, straight to the highway, instead of taking the old detour to get back to the completed portion of the brick pavement.

LION CUB DIES IN ZOO AT DALLAS CITY.

DALLAS, May 5.—One of the 10 months old lions born in Dallas last summer has died.

The little animal was hurt in a fall and paralysis followed. Local veterinarians were unable to save its life.

The carcass was turned over to the Texas museum of Natural History for mounting, according to V. Foster Jacoby, director of the city zoo.

The loss suffered by the zoo as a result of the cub's death is estimated at \$200.

Build It In Ranger

Encourage Local Industry and Trade, Says Merchant Who Is Having New Store Equipped by Local Talent.

Buying the "built in Ranger" articles has been done by Sanders-Colegrove, now preparing to open a hardware store in the Marston building, and found successful, according to J. W. Sanders of the firm.

The salesroom, 25x60, has been entirely equipped with store furnishings made in Ranger. This includes all of the counters, which have a top surface of Georgia oak, display panels of mahogany finish and window display fixtures of fir. Even the flowers, and plants, which the firm is putting in for decorative purposes, are home-grown.

Mr. Sanders is an enthusiast for having such work done in Ranger. "It can be done as cheap and just as well here as away," he said. "Why send to New York for your equipment? Here, this room slopes with the sidewalk. If the shelves were built in New York, they would never have fitted in this room. But Bordeaux brothers came in and looked the room over and built the shelves to order."

Mr. Sanders says he is trying to convince several Ranger men, who contemplate the installation of a bowling alley here, that they can do as well in having the equipment built here as in sending Ranger money out of the city for it.

EIGHT MINERS ENTOMBED FAR UNDER GROUND

Gas Explosion Wrecks Interior: Two Bodies Recovered; Rescuers Working Hard.

PUEBLO, Colo., May 5.—The bodies of John Konastakis and John Soupeginis, miners, were recovered tonight from the Southwestern mine of the Rocky Mountain Fuel company at Angilar, Colo. The men lost their lives when a gas explosion this afternoon entombed 10 men.

It was believed by rescue workers that the remaining eight men might be alive. Thirteen men were in the mine at the time but the other three managed to reach the outside.

The explosion occurred far back in the mine. The two bodies, which were recovered, were found 1,500 feet from the mine entrance. Rescue workers worked desperately, digging their way through the wreckage in the interior.

The gas was so bad at first that rescue workers could remain under the ground only ten minutes, even with their gas masks on. Ventilating fans were put into operation and the mine rapidly cleared of gas, making work less difficult.

France Protests Against Decision Of Supreme Court

WASHINGTON, May 5.—France has officially taken note of the United States supreme court ruling on the bringing in of whisky by ships to Ambassador Jusserand, acting under instructions from Premier Poincaré, today conferred with Secretary of State Hughes and in an extended conference set forth the views of his government, which while not in the form of a written note, are in the nature of a protest.

GEORGIA WOMAN WRITES HER APPRECIATION OF THE PEOPLE OF RANGER

Mrs. S. F. Cooper, who came here about a week ago from her home in Sullivan, Ga., to be with her son, Frank, following the accidental and serious wounding of the latter while he was cleaning his gun, is appreciative of the kindness and courtesy that has been shown her here. She writes:

"Through The Times I wish to thank the noble people of Ranger for their expressions of love and sympathy, not only in words, but in deeds, during the sickness of my son, Frank. To officials and employees of the Prairie Oil and Gas company, who have left nothing undone for his comfort; to the doctors and nurses who gave unstintingly of their time and talents; to the good people of the First Baptist church and their golden hearted leaders, the Rev. Dr. and Mrs. Johnson, I shall ever be indebted.

"Just let me say this: The people of Ranger are indeed fortunate in having in their midst a pastor and wife who preach and practice real religion."

NEW YORKER SHUNS MOVIES AND BALL GAMES

NEW YORK, May 5.—A New Yorker has been found who, although spending his whole life in the city, never attended a movie, has been to the theater only once in 27 years and has not seen a ball game in 40.

He is Charles J. Foy, an employee of the elevated railroad system for 45 years.

"I have a small garden," says Foy, "but I like best a good book or pipe. If I could only have one of them I should be perfectly happy with my pipe."

SAN ANGELO.—Coleman was selected as the next meeting place of the Women's Presbyterian auxiliary of the Brownwood Presbytery at the annual convention just closed here. Mrs. B. D. Kennedy, of Coleman, was named president of the auxiliary and Mrs. S. H. Gray, corresponding secretary. Approximately 100 women from West Texas counties attended the meet.

CHANCE OF LIFETIME TO OWN FULLY EQUIPPED FORD COUPE OR A COVETED DIAMOND RING

Who is there who would not like to own a Ford Coupe of the latest model, equipped with shock absorbers, a large steering wheel, motometer, sunshade, spare tire, or a diamond ring of superior lustre in a handsome setting? You may say there are lots of folks who would not, but the chances are that few would turn away, if they were offered to them free of cost, and yet that is what the Ranger Daily Times is doing, and it is a safe prediction that Monday, May 14, the day the contest starts, will find dozens of men and women out getting coupons and nominations signed for their chance to win these two splendid offers.

The race is sure to be a spirited one while it lasts, which will be from May 14 to July 2, and there will be plenty of excitement from start to finish.

This is the chance of a lifetime to many men and women who have no other way in which to earn either of these superb prizes. There are many men and women who have longed for years for a Ford coupe, who really need one, even though they may have one or two other cars, and here is the chance right at their very doors of earning one by a little personal effort.

Then there are many women who long for a handsome diamond ring. They see other women wearing them and they feel that they should have

one also. Here is a sure and easy way to get one of the really handsome ones, and in the short space of a few weeks. Some one is sure to win it, so why not you?

Then there will be compensations for those who do not win either prize for the Times will offer ten per cent commission to all who bring in any amount of new subscriptions. There is a race in itself, and one that will be lots of fun for those taking part, for each day will see great strides for the front made by those who enter and the ones who are left behind in the race will want to speed up to get there first and win these larger commissions, if not one of the big prizes.

Entering today will give you the best start on the race, and you may begin by sending The Times any number of new or old subscriptions together with the first coupon which counts for 10,000 extra votes on your account, and the nomination blank, properly signed and filled in will give the candidate another 2,000 votes. That would be a good beginning for most folks, but some will go still farther and get some more subscriptions to add to this number.

Frequent reports of the progress of the contest will be made in the columns of the Ranger Daily Times and all who are interested will be given assistance in anything they do not understand by phoning to the Contest Manager at the Times.

A Scene from "THE FAMOUS MRS. FAIR"

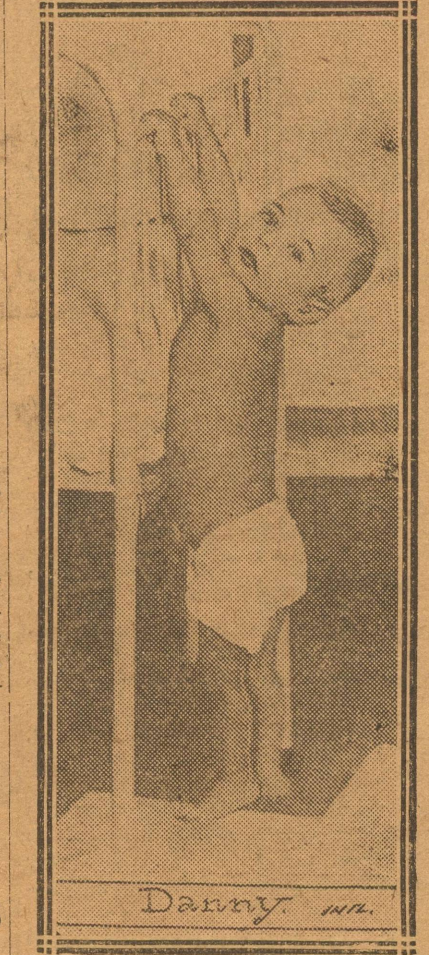

RANGER HIGH GRADUATES ARE LOOKING AHEAD

"Today we anchor; tomorrow we sail." This is the class motto of the 31 boys and girls of the senior class of the Ranger High school, who on May 21 hope to attain the honors for which they have worked for the last four years—a diploma.

Royal blue and white are the colors the seniors have carried in victory and defeat on the athletic field and in the debating halls.

The class ring of the seniors is made of green gold. In the center of a diamond shaped surface is the letter "R" in white gold. The numerals "19" are on the left side of the diamond shaped area, which occupies the center of the ring, and the numerals "23" on the right side, making for the year of their graduation.

TRAPEZE STUNTS NOTHING TO FOUNDLING BABE

Danny

Tax Reduction To Come Up Before Next Congress

WASHINGTON, May 5.—A general tax reduction is to be one of the major items on the administration's program for the next congress. The ability to carry out that plan is seen in the announcement by the budget bureau that the treasury has \$60,000,000 above expenditures in sight for the fiscal year ending June 30.

Recommendations to congress will include, it was learned, a suggestion that the surtax on incomes from \$5,000 to \$50,000 be materially reduced. A definite recommendation for other reductions is also to be included.

Danny, a nameless five-month-old founding at the Mother's Institute, Jersey City, N. J., has strength and stamina that has been called phenomenal by physicians. His favorite exercise is to lift himself to his feet by a swinging hold on a steel bar, on which he swings clear of his cot. He is 2 feet 3-4 inches tall and weighs 16 1-2 pounds. His chest, expanded, measures 17 1-2 inches, and he holds the non-crying record of the institution.

Big Bill Haywood is sticking to Russia because he doesn't like Leavenworth, Kan.—Toledo Blade.

American Milk Sought By Greek Babies Who Can Scarcely Toddle; Red Cross Emergency Aid Near End

This baby is on her way to an American Red Cross milk station. The little tot is one of the million refugees from Asia Minor and Thrace for whom the American Red Cross has expended in Greece, upwards of two and a half million dollars for food and medical care. Every morning at Dourguti, the newly-built refugee village in the very shadow of the Acropolis at Athens, some four hundred such youngsters get their daily ration of milk from the American Red Cross supplies, and altogether in all parts of Greece the American organization feeds some half million of the refugees, young and old, every day.

Since the burning of Smyrna last September the American Red Cross has devoted a large part of its disaster emergency funds to supplying food and clothing to the refugees and to fighting, with a remarkable degree of success, the threatened epidemics which menaced the entire country and the surrounding islands, where the women and children, destitute and homeless, sought refuge.

Between now and June 30th, the burden of providing for this horde of dependent people must be shouldered by the Greek government. Col. William N. Haskell, American Red Cross Commissioner in Greece, has reported to Judge John Barton Payne, chairman of the organization, that by that date the emergency stage of the situation will have been passed and that the permanent solution of the problem, whatever form that solution may take, is to be reached not by American charity, but by the government responsible for their welfare.

OKLAHOMA NOW FACING INQUIRY INTO FLOGGING

Small Boys in State Reformatory Treated Brutally, It Is Charged.

By Associated Press.
OKLAHOMA CITY, May 5.—Charges that small boys confined at the Paul's Valley Training school, the state reformatory, have been brutally beaten by guards with the approval of the superintendent, W. C. Breeding, are contained in the report of conditions at the school submitted to Governor Walton by Mabel Bastett, state commissioner of charities and corrections.

The report included 46 statements detailing alleged horrors at the reformatory. She demanded the removal of the superintendent of the institution.

"You've got to treat them rough—they are not anything short of criminals." This was the explanation of the superintendent when he was told that four guards with an eight-foot strap beat boys unmercifully, the report said.

"My instructions were to make them work and pour it on them when they refused," Goldie a guard told me," she declared. "He said he was told to put it on them and to beat them to death if they don't work."

"I've seen boys whipped until their flesh looked like it had been blistered or burned by a hot iron." So testified an employe of a contracting firm who worked with a crew of the boys for several weeks.

BRITON WOULD BAR DIVORCE SUITS FROM UNDUE PUBLICITY

LONDON, May 5.—The spectacle of long lines of men and women waiting for admission to the courts to hear divorce proceedings and the publication of lurid details of the evidence, long a feature in English newspapers, will be prohibited if a suggestion in the house of lords by Lord Buckmaster, former lord high chancellor, is carried out.

Urging that nothing in regard to divorce suits except announcement of the results should be published, Lord Buckmaster said it should not be suggested that the public has the right to know everything that takes place in the divorce courts.

"The one great scandal connected with these reports is that they pillory the innocent party," he declared. "To make a woman seeking her legal rights, go through the ordeal of disclosing her evidence before a lot of vulgar, idle sightseers is to do something that offends against the most elementary principles of justice."

Viscount Cave, the lord high chancellor in reply said that everyone was agreed as to the evils of the present situation, but the real question was how the improvement could be brought about without improperly violating the freedom of the press.

AUSTIN.—Field work by students of geology of the University of Texas this year will be done in Texas with Comal county as a base. Travel will be made by motor truck. Last summer a geology class of the University made a tour of the Rocky Mountains by truck.

POLICE SERGEANT HAS RULE OF CONDUCT FOR HIS READY REFERENCE

"The idea that the mayor or chief of police can permit violations of laws or ordinances is monstrous."

This saying is credited to Benjamin Harrison, president of the United States from 1889 to 1893. A card bearing this remark of the former president, was presented Saturday to A. B. Pitcock, day police sergeant, and he has placed it above the door that leads to the sergeant's office.

When law violators get the feeling that the men employed by the city could just as well as not discriminate in their favor, they will be taken to a point where they can read the sign and asked to think it over, police officials say.

NEW DEVICE MAY INCREASE LIFTING POWER OF AIRPLANES

LONDON, May 5.—An improvement of at least 10 per cent in the lifting power of aeroplane wings is expected to be made by an invention which has been patented by a young ex-officer of the flying corps.

He claims to have discovered the method by which crows and other birds glide at fine angles, and experiments which have been made with gliding methods suggest that the wing tip feathers are not merely for balancing purposes but contribute largely to the lifting capacity.

SUNDAY PROGRAM FOR JUNIOR EPWORTH LEAGUE

The Junior Epworth league will have the following program at the Methodist church at 4 o'clock on Sunday:

- Subject, business meeting.
- Prayer by the president.
- Song, "Work for the Night is Coming."
- Prayer by the League.
- Song, selected.
- Reading of minutes of last business meeting.
- Duet, Roma and Elaine Riddle.
- Roll call.
- Business.
- Story by Mrs. Smith.

ELECTRA WINS ANNUAL STATE INTERSCHOLASTIC TRACK MEET

AUSTIN, May 5.—Electra won the annual state interscholastic track meet at Texas university here today with 21 points, Wichita Falls was second with 16 points and Eastland third with 13 points.

Four league records were broken. The shot put was hurled for 45 feet, 11 inches, by Totes of Waco. The one-mile run in 4 minutes and 38 seconds by Tyler of Eastland. The 440-yard dash in 50.1 seconds by Thomas of Electra. The 220-yard dash in 22½ seconds by Cockrell of Albion.

MEXICAN NEGOTIATIONS TO BE OPENED MAY 14

WASHINGTON, May 5.—Negotiations between representatives of the United States government and the Obregon administration in Mexico will be formally opened at Mexico City on May 14, it was learned today, after the two commissioners, Charles E. Warren and John Barton Payne, had received their instructions from Secretary of State Hughes. They also conferred with President Harding.

They will leave here tomorrow night, going by way of New Orleans and Laredo.

Three Days of Social Activity To Feature Convention of West Texas Chamber of Commerce

Special to the Times.

SAN ANGELO, May 5.—Special attention has been given to provide adequate entertainment for ladies who attend the fifth annual convention of the West Texas Chamber of Commerce here May 21, 22, and 23. Unlike previous sessions when business was the chief feature and entertainment for ladies was limited, the convention here will be replete with every form of amusement liked by the women. Three days of social activities will turn the eyes of Texas on San Angelo and West Texas ladies.

The West Texas Pageant of Progress, depicting development of this section from frontier days until the present, will bring not less than 100 lady sponsors from as many West Texas towns, who will be accompanied to San Angelo by hundreds of admirers. The pageant will be staged on the evening of the second day at Fort Concho park, where comfortable seats will be provided for a throng of 7,000. Miss Mallie Jones, San Angelo's sponsor, will lead the visiting sponsors through a maze of entertainments in which the social elite of West Texas will have part.

On the first day of the convention they will be entertained at the St. Angelus hotel with a beautiful tea dance, which will be given from 5 to 7 o'clock in the afternoon. On Tuesday the sponsors will be taken for an automobile ride over the city. On Tuesday afternoon there will be a dress rehearsal for the pageant Tuesday evening. A charming dance has been planned at the magnificent San Angelo Country club immediately after the pageant, which will be in charge of the best known society matrons of the city, among whom will be Mrs. C. W. Hobbs, Mrs. Ralph Harris, Mrs. Dwight L. Hunter, Mrs. John Abe March, Jr., Mrs. Harry Stinson, Mrs. H. P. Bush, Mrs. R. S. Waring and Mrs. Alex Collins.

Sponsors to Go Swimming.

For Wednesday morning the entertainment for visiting ladies will include a swim in the limpid and placid waters of the Concho. Mrs. John Burnside, well known society matron, will have charge of entertainment for sponsors. The sponsors, however, will not encroach the whole of the entertainment. Many charming matrons will accompany their husbands to the convention and the entertainment has been planned in deference to them. A special entertainment has been planned for Governor Pat. Neff, who will be a distinguished guest.

Mrs. Ralph Harris, wife of the president of the Cattle Raisers and Producers Commission company, banker and ranchman, is chairman of the general entertainment committee. A reception will be held at 3 o'clock on May 21 at the St. Angelus hotel for visiting women. There will be auto drives, golf tournaments and a grand reception at the San Angelo Country club. A platform dance, in charge of Mrs. W. L. James, pioneer resident of San Angelo, will be given each night of the convention.

Program for Women.

The entire mezzanine floor of the St. Angelus hotel, West Texas' greatest hostelry, has been reserved for the 100 or more sponsors who

will take part in the Pageant of Progress. Registration headquarters insofar as possible are going to show visiting ladies the utmost consideration in the assignment of rooms and hotel accommodations during the convention.

A special ladies' program has been arranged by the West Texas Chamber of Commerce which will prove not only interesting but educational.

These sessions will be held in the afternoon of May 22 and 23 in the auditorium of the Methodist church, Miss Dora Barnes of the Texas A. & M. college, leading. It follows:

Program May 22

"Improvement of Our Schools Through the Improvement of Our Teachers," President J. A. Hill, of the Northwest Texas Normal, Canyon.

"Line, Color in Relation to Dress," Grace Bedell, head of home economics department, Sul Ross State Normal.

Program May 23

"Public Speaking as a Factor in Modern Education," Miss Olivia Hobgood, head of the public speaking department, Simmons college. "Home Demonstration Work," Miss Mary Jessie Stone, district home demonstration agent, extension department, A. & M.

"Illustrated Presentation of Home Demonstration Work," Mrs. Ida Chittwood, home demonstration agent, of San Angelo.

Seventy-three sponsors had been certified to the pageant committee up to noon Wednesday. The complete list up to this time follows:

West Texas Sponsors

- Scymour—Miss Thelma Porter.
- Tahoka—Miss Gladys Lee.
- Plainview—Miss Helen Ware.
- Breckenridge—Miss Lexy Jane Cragin.

STOLEN VALISE FOUND BY BOY AND HELD BY POLICE FOR OWNER

A youngster playing in an alley in the 200 block between North Marston and Austin streets found the valise stolen from an automobile parked at Main and Marston streets Saturday morning in the vacant Gypsy rooms.

He took the valise to his mother and she in turn notified the police. The only thing removed from the valise was a Savage automatic pistol. The valise was stolen from a car owned by a man who gave his name as Canada.

PASTOR PRESENTED WITH MEMORIAL ADDRESS

When Rev. Fr. Thomas J. O'Friel retiring assistant pastor of St. Rita's church, visited in his native town,

Kerrykeel, County Donegal, a few months ago, it was his first visit as a priest to his native parish. It was made the occasion of an address and presentation to the clergyman by the people of his native and surrounding districts.

An address, saluting Father O'Friel upon the completion of his clerical studies, and which was presented to him on a handiwork scholl, painted in various colors, and a presentation of \$500 was made to him in the school room where he studied his first lessons. The address, which is valued highly by the recipient, was made by Irish monks.

Rev. Fr. O'Friel arrived in County Donegal a few days preceding Christmas. Arriving in Ranger on March 23, after a stay of three months abroad, he had been here only less

than three weeks when he received a cablegram, announcing the death of his father. His mother is living.

COLLEGE STATION.—A large future market for American and particularly Texas stock in Mexico is predicted by C. M. Evans, livestock specialist of the A. and M. college here. Evans has just returned from Mexico City where he assisted representatives of different American breed associations in staging a livestock exposition.

Why our neighbor's paint went wrong

They picked out a color, and then took the first paint they could get that color in. The color was all right, but the paint was all wrong.

If they had first decided on the right paint, it would have been easy enough to get the right color in that paint.

Let us explain why you should always make sure that the paint you buy is made by the Lowe Brothers Company.

OBLIGATIONS TO GOD.
Pay-up week would be a good week to remember the preachers, according to one of the pastors, who is too busy attending to the spiritual needs of his congregation to look after collections and sufferers in consequence.

"Not that I have anything to complain of," he hastened to add. "The members of my flock are contributing liberally to the support of their church. But the obligations of many to their church usually are regarded too lightly; the church gets something out of the surplus, and too often there is no surplus."

The Bible, by the way, contains a special message for those who evade their obligations to God, and those who have forgotten it might do well to refresh their memory during pay-up week.

PLANT A TREE.
That all America has taken to her heart and to her home the "Plan to Plant Another Tree" movement is evident in the reports from Tree Planting Weeks, Spring of 1923.

From its headquarters at Aurora, Ill., from where it is advancing the movement, the Tree Lovers association of America send out this encouraging information.

Tree Planting Week, observed in appointed periods between early February and mid-May, according to climatic conditions, all over America, has gone over tremendously, the association reports.

Started in earlier weeks on the West coast, directed throughout the South where spring comes next, then brought up into the Central and Middle Atlantic states in early April, Tree Planting Week has proved, beyond doubt, that Americans are eager in their enthusiasm to advance a national planting program. The zeal which has been expended and the results which have been accomplished, the association is broadcasting as a stimulation to the Northern and New England states in which Tree Planting Week is yet to come.

"Plan to Plant Another Tree" is carrying out its spring campaign with one great objective: To get a Tree, a Fruit Tree, a Shrub or a Flower planted by every Man and Woman and Boy and Girl in America. This is but one item of its general program: To stimulate broader and better planting, and to teach care after planting.

From all over the country, hundreds of women's clubs, chambers of commerce, the American Legion and its auxiliaries—every variety of organization, has sent reports of its activities in community planting and reported the enthusiasm prevailing over "Plan to Plant Another Tree." Schools have been particularly responsive. Many superintendents have put the program into part of their county curriculum. Individuals have written their personal delight in the advance of both the practical and idealistic phases of the movement.

From coast to coast the most gratifying results have been obtained in hundreds of communities.

"When the results of the remaining Tree Planting Weeks are reported," states the secretary, "we will have a record of the most widespread accomplishment in individual planting that America has ever known. We lay the stress on individual planting under club direction, believing that this is the only satisfactory way of creating an enduring interest in planting."

WILL SHE BE ENGLAND'S NEXT QUEEN?

Lady Phyllis King

Again Dame Rumor, in London, has picked a bride for the bachelor Prince of Wales, who seems a little backward about picking one for himself. This time it is Lady Phyllis King, daughter of Lord Lovelace, who is now reported engaged to the heir to the British throne.

THE EXCLUSIVE SHOP FOR WOMEN

TIFFIN

The Parent-Teacher association of Tiffin met Friday afternoon, May 4, at 4:50 o'clock. Twenty-two of the 46 members were present.

A motion was made and carried to let Mrs. Cleveland, who has been in charge of the lunch sale lately, go on with that work for the next two weeks of school.

Report of lunch sales for May 2 was \$6 net proceeds.

The secretary reported that the "slide" had been paid for and had arrived.

The following officers were elected: Mrs. W. R. Jarvis, president; Mrs. F. B. Sanders, first vice president; Mrs. M. N. Parrish, second vice president; Mrs. L. E. Thomas, third vice president; Mrs. C. S. Bennett, corresponding secretary; Mrs. R. H. MacFarland, recording secretary and treasurer; Mr. E. O. Elliott, press reporter.

A motion was made and passed that the officers should be installed May 18, the last regular meeting of the school year. It was announced that refreshments would be served at that meeting and all the members are asked to come and enjoy the afternoon.

Mr. W. B. Hogan superintended the hauling of gravel put around the swings and see-saws last Wednesday afternoon. Mr. C. Miller's teams were used. This was all donated to the Tiffin school.

Group No. 3, composed of Mmes. W. B. Hogan, M. J. Jarvis, J. F. Kelly, Jas. MacFarland, D. Purcell, J. P. Cagle, T. B. McIntyre, Foulkes and Harrington are asked to furnish for next Wednesday's lunch sale.

A complete report of expenditures

for the year has been compiled by the secretary and will be shown to anyone wishing to see it, as it was thought too long to print in the paper.

A complete list of the men who hauled gravel for Tiffin school the past week were Messrs. W. B. Hogan, Ed Griffin, Alexander, Salters, and B. Stephens.

The Tiffin picnic was a success from every standpoint. A beautiful day, community interest, the children's love for their school and the ball games were the factors.

In the morning the Central girls won a baseball game over Tiffin girls and Tiffin boys won a game over the Boy Scouts, 6 to 9.

The afternoon game between the Boy Scouts and Tiffin stood 14 to 18 in favor of the Boy Scouts.

RANGER INDEPENDENTS TO PLAY BRECKENRIDGE SUNDAY AT THAT PLACE

The scheduled baseball game between the Ranger Independent Baseball team and the Breckenridge team, will be played at Breckenridge Sunday afternoon, according to an announcement Saturday afternoon.

The game will be the fourth of the season for the Independent team, which is so far undefeated this season.

The game is being looked forward to by local fans with much interest inasmuch as both teams are reported to be exceptionally strong so far this season.

Ranger lineup includes Hocker, pitcher; Vaughn, catcher; Cope first base; Taylor, second base; Fennell, shortstop; Williams, third base; Mann, center field; Vaughn, right field and Bloodworth, left field. Hocker and Vaughn are booked as battery.

COLLEGE ATHLETICS
COLLEGE STATION, May 5—The University of Texas Longhorns today defeated the A. & M. College track team by a score of 67 1-2 to 47 1-2.

DALLAS, May 5.—The Southern Methodist University today defeated Baylor University on the track, 67 to 50. No outstanding records were made.

GEORGETOWN, May 5.—The University of Texas defeated the Southwestern University at baseball today by a score of 8 to 5.

HIDALGO COUNTY.—Plans for the remaining projects under the county bond issue have been completed and checked and it is probable that the contract for the construction of these projects will be let within 60 days. The type of construction for which bids will be considered on a portion of the highway from Val Verde to the Cameron county line and Pharr to Mission, will be a concrete base with asphalt topping as recommended by the state highway department.

RECORDS BROKEN AT PENNSYLVANIA MEET

Records were smashed at the intercollegiate field and track meet of the University of Pennsylvania, held in Philadelphia. The sprint medley for the champion of America was won by the Oxford (England) University team, whose captain, W. R. Milligan, is shown finishing. C. West of the University of Washington and Jefferson, won the javelin throw in the pentathlon, while Walter Higgins, of Columbia University, won the two-mile international run in 9:42.

OFFICER FOLLOWS CAR ON SUSPICION—FINDS NINE GALLONS WHISKY

Driving one's car into the country early in the morning looks suspicious to Jim Ingram (one of the night policemen). And in the story related yesterday his suspicions were justified.

"I saw a car going out rather early," he said. "I judged it was something unusual. I came back and got Tom Weeks (night patrolman) and together we went out to the Sinclair road. We followed the tracks made by the car to a point where the car had turned around. We looked and off one side of the road we found nine gallons of whisky hid."

Officer Ingram said it was "only" corn whisky.

GAMING CHARGES AGAINST FIVE MEN DISMISSED

Five men, booked on gaming charges on a raid made on a Ranger hotel last Sunday, had their cases dismissed by City Judge L. H. Flocken yesterday for lack of evidence.

City Prosecutor Milton T. Lyman said after interviewing the policemen who made the raid, that he did not have a sufficient case against the men and would not prosecute them.

The prosecutor said an officer met one man on the fire escape and a second officer caught up with two other alleged players in the hall. When searched at the police station, poker chips were found on several of the players, Mr. Lyman said.

The officers did not see the men playing, he said, which made a conviction impossible.

TWO GOOD BALL TEAMS PLAY TODAY AT THURBER

Two undefeated baseball clubs meet today at Thurber. The American Legion team of Decatur, Texas, and the Texas Pacific Coal & Oil company nine are both going into the game with the intention of keeping their slate clean. The game will be called at 3 o'clock.

C. & S. BALL TEAM TO PLAY EASTLAND INDEPENDENTS

The baseball players assembled by Manager Carl Snapp from various parts of Texas to wear the uniform of the Chestnut & Smith corporation will demonstrate today how smooth the club machine is working when it goes up against the crack Eastland Independent team.

The game is scheduled for 3 o'clock at Connellee park, Eastland.

HARN AND FAMILY MOVING FROM ABILENE TO RANGER

A. F. Harn, owner of the Sanitary Dairy, on Eastland Hill, is moving to Ranger with his family. He will occupy the dwelling house of Dr. Duffer on Walnut street.

Mr. Harn is a railroad man. Formerly he lived in Ranger, but moved to Abilene about two years ago when his work took him there, leaving the dairy here in charge of a manager. He is now retiring from railroad work and will give all his time and attention to the dairy.

It may interest the boneheads to know that there are 5,981 other ways to make a fool of oneself besides non-stop dancing.—Springfield Union.

LAMB AND LIBERTY THEATRES TO CLOSE DURING CHURCH HOURS

A departure from his usual policy in keeping the Lamb and Liberty theatres open continuously from 1 to 11 p. m. on Sundays, was announced last night by W. B. Palmer, manager of both amusement houses, in a prepared statement. Both theatres will be closed between 7 and 9 o'clock, to avoid a conflict with the evening services of Ranger churches.

"Effective today, the Lamb and Liberty theatres will be open from 1 o'clock to 7 o'clock, closing then so as to not conflict with night church services, but reopening at 9 o'clock, after which a complete program of pictures will be shown."

POISON NO LONGER SAFE FOR USE IN ASSASSINATIONS

By United Press
LONDON, May 5.—Wanted: the perfect poison!

Tasteless, odorless soluble arsenic reached the limit of its usefulness when science discovered means of identifying it in the stomach and livers of its victims years after death occurred.

Careful murderers, with a respect for their own lives, will no longer employ it.

Popes, princes and kings have suffered the excruciating pain of arsenic poisoning and died. The Borgias considered the white powder the superlative of death dealing instruments. One grain sprinkled in a cup of wine today, another tomorrow or next week

and the wine drinker died after agonized suffering.

This then undetectable substance gained for early poisoners reputations for subtlety past the ability of most men.

he discovery in 1836 of the Marsh test for arsenic whereby the fatal powder could be detected even in the victim's hair after death was the first scientific blow to murder by poison.

Since then methods of discovering the agency and the dealer of death have improved and arsenic is as deadly to the giver as to the receiver.

STRENGTH AND SAFETY IN THE BODY OF STEEL

If you could see the main body structure of Dodge Brothers Business Coupe before the enamel is baked on, and before the interior is finished, you would be profoundly impressed by its strength. You would see that every panel, every pillar, and every rib is steel—that even the door sills and window moldings are steel.

You would see that all of these parts and sections are electrically welded together into one staunch steel body, with no bolts or rivets to work loose, nothing to rattle or squeak or warp.

And you would realize that, like the all-steel Pullman coach, this unique construction—originated by Dodge Brothers for this car—represents the last word in protection to passengers—the ultimate achievement in closed car sturdiness.

The Milk You Drink

Expert in Dairying Stresses Value of Tuberculin Tested Cows and Writes of Various Grades of Milk on Market.

By MRS. H. L. KING.
I see most every business in and around Ranger is getting quite a lot of mention, but little has been said about Ranger's dairies. Of course, dairying is in its infancy, not only at Ranger but in the entire state.

Ranger has as good dairies as can be found between Fort Worth and El Paso. Her dairy herds, all tuberculin tested, and duly inspected by competent men, are: Horten's dairy, G. & H., Lakeview, Kelly & Son, Silver Moon, Midnight, Duncan and Sanitary.

The Silver Moon dairy, owned and operated by G. W. Owens, was in operation in 1919. It was a very small concern at that time, its daily output being about 20 gallons per day.

The G. & H. was owned and operated by Mr. Decker, who was an old-timer here. His output was something like 20 gallons per day. The present proprietor, Mr. Harrell, purchased the dairy from Mr. Decker in 1920.

The Lakeview has been in operation for about a year.

The Sanitary dairy began operation in 1920. It is owned by Mr. Hamm of Abilene, and operated by a local manager. Mr. Hamm is a railroad man and dairying is only a side line with him. The Midnight dairy is owned and operated by H. L. King, who is a native of Eastland county. His former home town was Gorman. He had been away from Eastland county quite a number of years, but saw fit to return and cast his lot here in June of 1919.

Ranger was at that time, not a little city, but a city of cities, of gushing oil wells and very muddy streets. Her milk demand could not be supplied locally. The Midnight's output at that time was 200 gallons per day. There are quite a lot of one, two and perhaps eight cow dairies in and around Ranger that are not regularly listed as dairies. All milk cows should be tuberculin tested. Quoting Dr. Grafke, former state inspector, he said:

was at that moment lying in a plaster cast, and would probably be an invalid for life.

There are three methods, either of which will detect the disease when properly applied by a competent veterinarian, but very uncertain when attempted by inexperienced veterinarians. These three are: The thermal test, intradermic and ophthalmic. The thermal test is made by injecting tuberculin testing material under the skin and noting a rise in temperature on the following day, comparing with the temperature taken on the previous day. The intradermic test is made by injecting tuberculin test material into the layers of skin usually at the base of the tail and noting reactions in form of typical enlargements. The ophthalmic test is made by inserting a tuberculin testing tablet into the eye, and allowing it to dissolve, and later noting discharge from the eye. Occasionally cows will fail to react to one test but the second test will react.

Because a cow is fat and sleek, is no reason she is healthy, for she may be a common carrier and spreader of tuberculosis in some form.

Now for the milk itself: Pure milk is the cheapest food for the money that a householder can buy. Milk is the best all around food. It is the most perfect food we have. There is no substitute. Save on other things, if you must, but not on milk.

Milk contains "life" for it is rich in vitamins. Milk tastes good, is easily digested, and very nourishing. It makes bone, brawn and blood.

Milk is composed of the following: 87 per cent water, 6 per cent sugar, 2 1-2 per cent fat, 2 1-2 per cent albumen, 2 per cent salt. So you see it furnishes heat or fuel, for the body and lime for the bones and muscles.

There are only two kinds of milk, good and bad. There has been a tendency to classify milk as either raw or pasteurized milk, but there are other classifications, quoting from the bureau of health statistics of Washington, D. C.:

1—Grade A-1, certified milk or honor milk; 2—Grade B, inspected and tested; Grade C, market milk from untested, uninspected cows.

Certified milk is the very best, freshest, cleanest milk there is and is in the raw stage. Certified cows are never allowed on pasture, are fed weighed and balanced rations, are clipped, curried, brushed, and washed daily, milked under screens by milkers who are examined by a physician and directed by a foreman whose duty it is to see that these milkers wash their hands. The milk must be

NEW PRIME MINISTER IS NAMED FOR EGYPT

This is the most recent photograph of Yehia Ibrahim Pasha, newly elected prime minister of Egypt, who will help King Fouad in ruling the Kingdom on the Nile. The king had objected to having a premier, asking supreme power, but this was refused by the electorate, who elected the Pasha.

examined by a bacteriologist, buckets, cans and bottles sterilized and iced at the dairy, delivered in ice under a screen. Certified milk comes high, and there are only two or three certified dairies in the South.

Inspected milk, or Class B, is from tuberculin tested cows and inspected dairies. The vessels are also sterilized, but cows are allowed to graze on pasture. It may be raw or pasteurized, but good and clean.

Class C is milked from untested

cows, handled at an uninspected place, and sold by anyone.

People have an erroneous idea about pasteurized milk. It should never be pasteurized unless the milk comes from tuberculin or otherwise unhealthy cows. Pasteurized milk is simply scalded milk. It is so called in honor of the great scientist, Pasteur, who discovered the process. Pasteurization neither improves the grade of milk nor harms it; it only kills the frail harmful bacteria caused from diseased cows.

Weak, dirty milk is still weak and dirty after pasteurization; it would avoid confusion if pasteurized milk were simply called heated milk, for that is all it is.

Pure milk is better than purified milk. Pasteurized milk should be placed in bottles with air-tight caps,

such as bottled soda waters are capped with, for it will sour just the same as raw milk if exposed, and it should never be used after it is 24 hours old. Pasteurized milk is not as nutritious as raw milk.

DOORKNOB THIEVES ACTIVE IN BERLIN

BERLIN, May 5. — Doorknob thieves are causing Berlin householders much annoyance. Hotels, apartment houses, office buildings and private dwellings are all prey to the searchers for second-hand brass.

In one of Berlin's leading hotels all the brass nozzles on the fire hose in the corridors disappeared one night, together with many other brass fixtures.

VALDOSTA.—Earl Wallace, 13, was hit by a bolt of lightning while engaged in studying in a school room here recently. The school building was struck and the same bolt struck Wallace, rendering him unconscious.

AMARILLO.—Dr. L. L. Bartlett of Dalhart was elected president of the Panhandle Odd Fellows association in convention here recently. Amarillo was selected as the next convention place.

RANGER DAILY TIMES

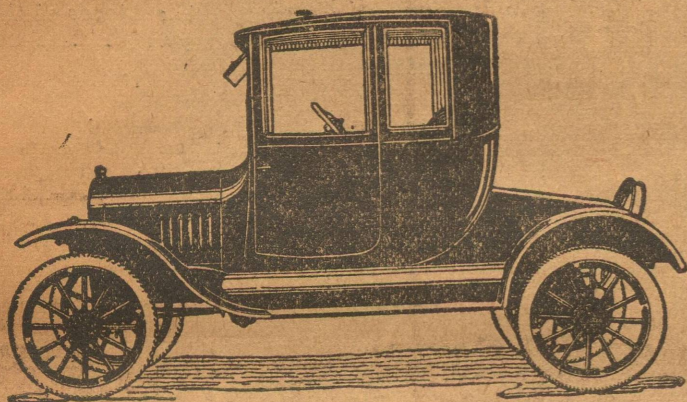

announces

FORD COUPE--DIAMOND RING PRIZE CAMPAIGN

CAMPAIGN OPENS MONDAY MAY 14th. CLOSES SATURDAY, JULY 2, 6 P. M.

THE CHANCE OF A LIFETIME. OPEN TO MEN AND WOMEN OF RANGER AND SURROUNDING TERRITORY. ENTER NOW Fully Equipped Ford Coupe and \$300.00 Diamond Ring Given Free July 2nd

FIRST PRIZE

Ford Coupe, fully equipped with double Hassler Shock Absorbers, large locked steering wheel, motorometer, sunshade and spare tire. Value \$800.

PURCHASED AND ON DISPLAY AT LEVEILLE-MAHER

NOMINATE YOURSELF TODAY AND RIDE AWAY JULY 2nd IN YOUR OWN COUPE

The Ranger Daily Times takes pleasure in announcing the first Automobile and Prize Campaign ever inaugurated in Ranger. One Ford Coupe, fully equipped with double Hassler Shock Absorbers, large Lock Steering Wheel, Motorometer, Sunshade and Spare Tire, together with one \$300.00 Diamond Ring, will be presented absolutely free of charge to those men or women who, by their popularity and energy, display the best qualities of salesmanship ability and vote gathering during the next few weeks.

The prizes have been purchased and will be given to those who by their hustling ability, obtain the highest vote totals by July 2nd at 6 p. m. The Ranger Daily Times has decided to use this unique method to increase its already large list of readers, and instead of the old method of engag-

ing solicitors, will distribute these prizes worth hundreds of dollars, the value of which will tempt many of the most representative citizens of this section.

To win one of these prizes is but a matter of ambition. You have always wanted an automobile of diamond ring of your own. Now let The Ranger Daily Times give you one free--without one cent of cost to you.

To enter it is but necessary to fill out the "Entry Blank" (lower right hand corner) and send it in. Once a contestant, the merry pastime of vote gathering begins. You will find it great fun to gather votes, and votes alone will decide the winners of the prizes on July 2nd.

It is not necessary that you be a subscriber to the Ranger Daily Times to become a candidate. Nor will it

cost you a cent either now or later. The prizes are FREE, and they will be given to the candidate who polls the greatest vote totals. The salesmanship experience one will gain in this campaign will in itself be worth hundreds of dollars in the future years.

The Campaign opens Monday, May 14th, and continues until Saturday, July 2nd at 6 p. m. Candidates may enter from this time forward. Subscription books and full information will be sent by return mail free upon receipt of the entry blank properly filled out. Jump in. Get an early start. ONE OF THESE PRIZES IS FOR YOU.

Read every word of this announcement carefully. Then fill out the "Entry Blank" and send it in today.

SECOND PRIZE

Diamond ring purchased and on display at W. E. Davis. Value \$300.00.

SEND IN YOUR NAME TODAY.

AN EARLY START MEANS SUCCESS

How Subscriptions Count in Votes

The following scale shows the subscription rates, and the number of votes given on each subscription according to the amount paid. Note particularly the tremendous vote value of longer subscriptions.

DAILY AND SUNDAY BY CARRIER IN RANGER OR BY MAIL OUTSIDE OF RANGER

		VOTES	
		New	Old
Three Months	\$ 2.00	2,000	1,000
Six Months	\$ 4.00	5,000	2,500
One Year	\$ 7.50	15,000	7,500
Two Years	\$15.00	40,000	20,000
Three Years	\$22.50	65,000	32,500
Four Years	\$30.00	100,000	50,000
Five Years	\$37.50	150,000	75,000

NOW IS THE TIME TO ENTER AND WIN

Votes cannot be purchased and they cannot be transferred. Once they are issued to the credit of a contestant, they must stay issued. This rule is imperative. There are just two ways to obtain votes, one by clipping the free coupons which appear in each issue of the Daily Times, the other is by securing new and renewal subscription payments to this newspaper. This coupon must be deposited in the ballot box in the campaign office before the expiration date printed on them. All subscriptions must be paid before votes will be issued for them.

RULES AND REGULATIONS

Any man or woman over 16 years of age, excepting employees, members of employes' immediate family, carrier or agent of The Times Publishing company may become a candidate in this campaign.

No candidate will be permitted to transfer votes to another candidate after receiving them. Subscriptions cannot be transferred. No subscription money refunded after being received.

The campaign manager reserves the right to reject objectionable nominations.

Any questions or controversies that may arise are to be settled by the campaign manager, and his decision will be final and conclusive.

Subscriptions must be paid in cash before credits are issued. No subscriptions for a period of more than five years or less than three months will be counted.

A new subscriber is one who was not taking The Ranger Daily Times either by mail or carrier, on May 6th, when this campaign was announced. Credits to

be issued subject to verification by The Ranger Daily Times.

Prizes to be delivered to the winners in Ranger as soon as the winners are announced by the official judges. In case of a tie for any of the prizes, the candidate tying will receive duplicate prizes or their equivalent.

The campaign officially opens Monday, May 14th, and closes Saturday, July 2nd, at 6 p. m.

No agreements or promises, either written or verbal, made by solicitors or candidates other than those published in the Ranger Daily Times will be recognized.

In accepting entrance all candidates abide by the conditions named.

The Ranger Daily Times reserves the right to place additional prizes on the list and to correct any typographical errors that may appear in any of its announcements.

JUST A LITTLE EFFORT AND YOU CAN DRIVE AWAY IN YOUR OWN CAR!

THIS BLANK

And one subscription to the Ranger Daily Times will start you off with more than 12,000 votes. See one of your friends about this subscription today. Let this blank be your stepping stone to success.

FIRST SUBSCRIPTION COUPON

GOOD FOR 10,000 EXTRA VOTES

This coupon accompanied by the Nomination Blank and your first subscription will start you in the race with more than 12,000 votes, only one of these coupons will be credited to each candidate.
Name of Subscriber
Address of Subscriber
Candidate's Name
Address Amt. Enc. \$ Old or New
Return this coupon to the Campaign Manager with your first subscription and you will receive 10,000 extra votes in addition to regular votes as shown in the regular schedule.

Everybody Wins Ten Per Cent Cash Commission

An appropriation has been set aside to pay cash commissions to contestants who do not win prizes. Every active worker who fails to win one of the regular prizes will receive 10 per cent of the amount in new subscriptions he or she has turned in, providing, of course, he or she remains active until the end and make a cash report each week of one or more new subscriptions from the time he or she enters the campaign.

Not only does the campaign offer you an unparalleled opportunity to win a handsome prize for effort, it is a good paying job as well.

THIS BLANK

Is all you need to start. All you have to do is send it to the Campaign Manager, the Ranger Daily Times, and you will be credited with 2,000 votes as a starter. SEND IT IN TODAY!

Rat Hounds In Buenos Aires Work On Time Schedule

BY A. FUSONI,
(United Press Staff Correspondent)
BUENOS AIRES, May 5.—The dog workers of Buenos Aires keep union hours.

They are of great help to the national department of health which, in order to prevent any epidemic from making its appearance in the biggest city of South America, is waging a war on rats coming from outside the country.

All steamers coming into the port of Buenos Aires are gassed, in order to prevent any of the many rats they carry from landing, and thirty fox terriers have been especially trained in rat hunting, so as to deal with any that survive.

These dogs start work at seven in the morning and keep on the job until eleven, when they are allowed to knock off for lunch.

At 1 o'clock their work starts again, lasting until 5 or 6, when they go of their own accord to take an antiseptic bath before having their dinner.

The dogs of the port work always fixed hours, just as the human port workers, and it is estimated that they kill about 30,000 rats monthly, effectively helping to keep the city in good health, as it has been found upon analysis that the rats in most of cases show germs of bubonic plague.

GHOSTS ALONE DISTURB MAIL RUNNERS OF INDIA

LONDON, May 5.—"Not a year passes that does not take its heavy toll of Indian mail runners who lose their lives in the execution of their duty. It might be a tiger, a swollen river, an avalanche in the Himalayas or a gang of robbers. The work goes on just the same; the mail goes through whatever happens."

So said Geoffrey Rothe Clarke, director general of Posts and Telegraphs in India, speaking before the Indian section of the Royal Society of Arts. With the runners, Mr. Clarke stated, the mail was a fetish they would protect at all costs. For wild beasts, floods, and dangers of various kinds they would not turn aside. But, fearless though they were when threatened by such perils, they would go miles out of their way, even when carrying the precious mails, to avoid an evil spirit whom they suspected of lodging in a tree. Of ghosts they are really far more afraid than of the fiercest wild beasts.

AMERICA AND CHINA SETTLE CONTROVERSY

WASHINGTON, May 5.—American Minister Schurman has reached an agreement with the Chinese foreign office in settling the Coulter affair involving the death of Charles Coulter at the hands of Chinese sentries at the gates of a Chinese city. The settlement provided for an apology from the province of Tugun, the prompt removal from office of the Chinese adjutant and the adjutant's assistant, who were in charge of the federal troops and indemnity to Coulter's heirs.

The result will be to remove a source of friction which had severely strained relations between Washington and Peking.

PORTUGAL LIMITS PROFITS OF DEALERS IN FOODSTUFFS

LISBON, May 5.—In an endeavor to reduce the cost of living, a new law provides that wholesale dealers in foodstuffs may take a profit of only ten per cent, and retailers 15 per cent. Heavy penalties will be imposed upon transgressors.

THESE "BEAVERS" WOULD BE POPULAR IN LONDON

Whiskers' Champions

London's favorite pastime now is to play "beaver," the idea being for two contestants to cry "Beaver!" every time they see a man with whiskers. The player who sees the most whiskered men in a day wins the wager. These two San Francisco men, who claim the world's "whiskers championship," are original Forty-niners, and between them they have 28 feet of whiskers. The man at the left has a beard that measures 11 feet 3 inches, while that of the man at the right is 17 feet long.

SENATE PASSES LARGE APPROPRIATION BILL

AUSTIN, May 5.—The senate unanimously passed the eleemosynary bill today providing \$3,800,000 for the first year and \$3,500,000 for the second year.

As passed it carries a modern building program for the eleemosynary institutions and appropriations for two years for permanent im-

provements amounting to \$1,900,000.

Lieutenant Governor Davidson presented to the senate a petition signed by 10,000 farmers urging the passage of the Coffee gross crude petroleum tax bill at three per cent. The house had up this afternoon as a special order, the Harris bill limiting the state free school scholastic apportionment.

WORLD NO WORSE AND MAY BE GETTING BETTER

BATTLE CREEK, Mich., May 5.—Mrs. Charlotte Bennett, 99 years old, Michigan pioneer and believed to be the only surviving mother of a Civil War veteran residing in this state, declares her opinion that "the world is no worse today than it was when I was a girl."

Mrs. Bennett, however, deplors what she calls a "lack of neighborliness" on the part of present-day Americans.

"The world has become commercialized and there no longer is the friendly attitude of one person toward another that was noticeable when I was a girl," Mrs. Bennett said. "But so far as real goodness goes, I can't see but what folks today are just as filled with virtue as they ever were. Every generation has its faults and its redeeming features."

The scales of justice are badly off balance in Herrin, Ill.—Nashville Tennessean.

GHOLSON HOTEL BUILDING

The 1923 SUPERIOR Chevrolet Utility Coupe

This is the lowest-priced closed car on the market with Fisher Body. It is bought extensively by concerns equipping fleets for salesmen, and is popular for professional and general use where a single seat and extra large rear compartment are desired.

QUALITY has been still further improved by more artistic design and added equipment.

ECONOMY has been still further increased by engineering refinements and greatly increased facilities.

SERVICE is now offered on a flat rate basis by 10,000 dealers and service stations.

PRICES of the new line remain the same in spite of added equipment and more expensive construction, which have greatly increased value.

Some Distinctive Features

Streamline body design with high hood; vacuum feed and rear gasoline tank on all models; drum type head lamps with legal lenses. Curtains open with doors of open models. Closed models have plate glass Ternstedt regulated windows, straight side cord tires, sun visor, windshield wiper and dash light. The Sedanette is equipped with auto trunk on rear.

207 MAIN STREET

Growth of Produce Business Indicates Progress of Ranger

In less than three months after the Dillingham & Alexander Produce company purchased the big storage plant on Melvin street, it has been found necessary from the growth of business to triple the storage capacity.

"It is a safety measure," O. D. Dillingham, of the firm, said. On a recent business trip to Fort Worth, he was told by a Fort Worth business man that his firm was one of the largest wholesale produce shippers in West Texas.

The company is building a cold storage vault with cork lining, that will have a capacity of 20,000 cubic feet and will be divided into six separate units. In one vault will be stored bananas, another oranges, and so on.

The capacity of the present storage is 10,000 cubic feet, although there are several temporary, wooden storage rooms in use to take care of fruits and vegetables until workmen have completed the cork vault.

A new refrigerating machine is to be installed, that in case of a breakdown of the present machine, the refrigerating system will continue uninterrupted.

The company has five trucks in operation. Daily trips are made to Cisco and Eastland to supply retail stores and restaurants.

The Ranger produce business has grown to the extent that almost a carload of fruits and vegetables is shipped here daily from California, Florida, Texas and other markets.

DANCE PRIZE MEANT HER FARE HOME

By United Press
HOUSTON, May 5.—A tense moment in a Houston endurance dance contest was at hand. Several dancers had all just been placed under arrest by an officer who had served warrants charging vagrancy.

Suddenly a tired, sad-eyed girl sagged to the floor. Authorities rushed to her and found her in a dead faint. She had danced 44 hours. They carried Marie Piero out to a waiting ambulance. When Marie returned to consciousness it was learned why she had entered the contest—she wanted that \$50 prize.

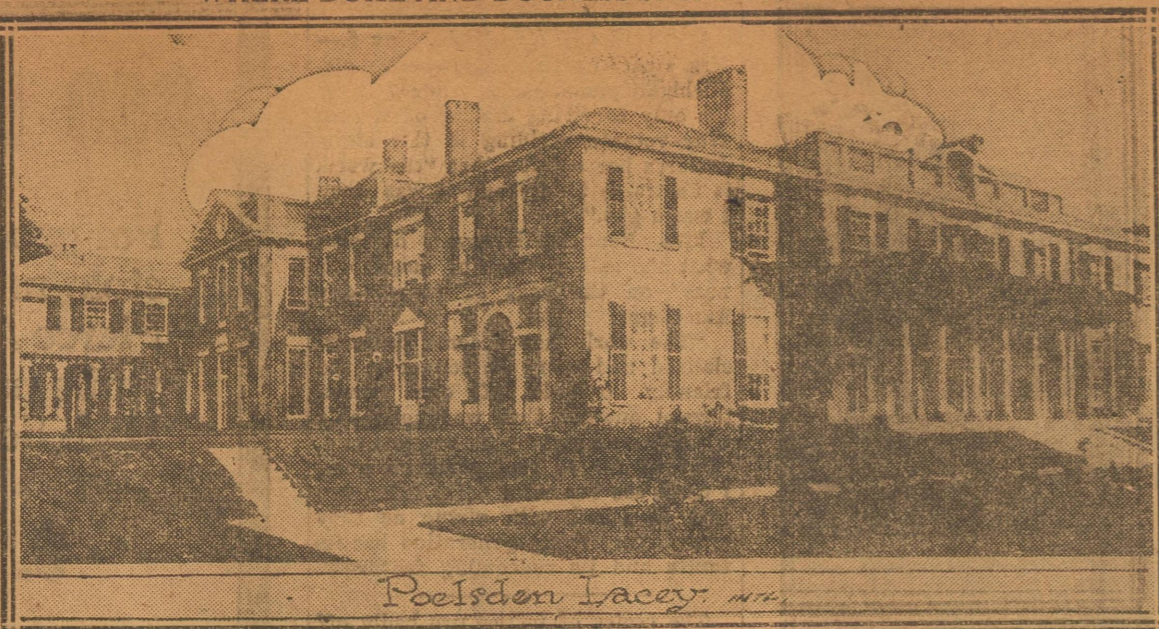

Coming here from her home in a small Louisiana town, she had obtained a job in a dressmaking shop. It paid \$8 per week. The \$50 prize meant railroad fare home and three square meals a day. She had been too proud to ask for money to pay her way back.

Two cups of coffee was all Marie had had to sustain her during the contest. She had 20 cents left when she entered the marathon.

The morning after the contest she was out hunting a job.

SULPHUR SPRINGS.—Seventy members of the local high school will be graduated this month, setting a new record for the number of seniors in one year. The class is equally divided between boys and girls. Scholastic awards have been made to the class.

WHERE DUKE AND DUCHESS SPEND HONEYMOON

Polesden Lacey, Surrey, England.

The Duke of York and his bride, who was Lady Elizabeth Bowes-Lyon, have accepted the offer of the Hon. Mrs. Ronald Greville to spend their honeymoon at her large estate, Polesden Lacey, near Dorking, in Surrey, to which they hastened immediately after their wedding.

MARATHON DANCER BUOYED UP BY VISION OF LOVE IN A HOME

By United Press
DALLAS, May 5.—Love will find a way.

When R. J. Newman, Dallas champion marathon dancer, started his mad dance of 107 hours there was more than grit and determination behind him. He was dancing a dance of love.

Newman was married last Jan. 2 in Fort Worth. The young couple planned to keep their romance a secret expecting to announce their marriage some time this month as Newman wanted to clear up a few small debts, according to his pretty 18-year-old bride.

Newman had promised his mother a long trip East and wanted to keep the promise before their marriage began in earnest, the bride said.

"He laughed at this foolish contest but he knew that it would be a fine opportunity to gain his double purpose by winning the money offered as first prize," Mrs. Newman continued.

Newman started dancing one Wednesday night and after he had danced continuously until Sunday night the young wife pushed through the crowd to his side and begged him to give it up.

"Honey, you know why I can't give up," he told her, "the stakes are high and I've got to win. Keep up your courage for I've got mine."

He continued and won, so now his promise will be kept and he will start on the best and longest journey in life, with love to keep him to the front as it did in the trying hours of his weary gliding across the dance hall floor.

FORT WORTH.—"A marathon dance dog. He has been dancing since April 21, and still dancing." This is the inscription contained on a crate received recently by Police Commissioner John Alderman. The crate contained a dog which, when turned loose, is said by witnesses to have continually jumped up and down. The police commissioner recently stopped a dance at a local dance hall.

WAREHOUSE WRECKED BY NITRO GLYCERIN EXPLOSION

NEW LEXINGTON, Ohio, April 5.—An explosion of 400 quarts of nitro glycerin at the warehouse of the Agnew Torpedo Co. at Bremen, near here, rocked the country for a radius of 20 miles Friday.

Warehouse workers were at lunch when the explosion let go. The building was blown to bits. Practically every window in Bremen was shattered by the shock.

RUM-RUNNERS TRYING TO LAND LIQUOR BY SEAPLANE

NEW YORK, May 5.—The rum fleet, after being driven by a U. S. water cordon from its old mooring place off Sandy Hook, has adopted seaplane transportation methods in their fight against the government's efforts to prevent the landing of liquor cargoes, it was announced today by the customs office here.

WHERE TEXAS AGAIN LEADS.

The state of Texas alone has more telephones than all countries put together which lie south of the Rio Grande, extending down to the Antarctic ocean.

Texas now has approximately 500,000 telephones with a population of 5,000,000 people as compared with the combined populations of all republics south which have a total of nearly 70,000,000 inhabitants and less than 500,000 telephones.

POLICE SEEK SLAYER OF BROOKLYN CHILD

Josephine Bruno.

The entire police force of New York is engaged in a search for the fiend who dragged pretty Josephine Bruno, 8, into a cellar near her home, brutally beat her to death and mistreated her.

LONELY GOLD SEEKER RETURNS

WINNIPEG, May 5.—Juiro Wada, picturesque Japanese prospector, has just returned from Herschel Island, where he has been on the trail of gold. He maintains extreme reticence regarding his 2,500-mile trip, which he made alone with his five dogs.

Wada made his first journey to

the Arctic region from San Francisco 32 years ago, and since then has achieved a wide reputation as a musher and prospector.

At one time he narrowly escaped being hanged by a band of 800 gold hunters whom he led into Alaska, and who failed to find the precious metal.

LIBRARY CIRCULATES PHONOGRAPH RECORDS

SPRINGFIELD, Mass., May 5.—The lending of phonograph records, as well as books and periodicals, has proved so popular in the city library here that the plan may be followed by libraries in other parts of the country.

The authorities' object in lending records was to give those unable to purchase the more expensive reproductions an opportunity to enjoy the best in music. One hundred records formed the nucleus of the "canned music" library, and these were early sought. Only persons more than 18 years old have the privilege of borrowing records.

FORT WORTH.—Mrs. John F. Lyons has been elected president of the Fort Worth Harmony club, a musical organization, for the twentieth consecutive year. Mrs. Lyons also is president of the National Federation of Music clubs.
