Ford Coupe and Diamond Ring Offered as Feature Prizes, **Prove** Attractive.

The Times Sunday announced Ford coupe and diamond ring contest which is already attracting considerable notice, so that the names of candidates are beginning to come in at the Ranger Daily Times office.

No subscriptions will be taken this week, and no credits given until next Monday, the date announced for the starting of the contest, so that everyone may have an equal chance by beginning on the same day.

Many questions have been asked as to how the candidates may start. All that is necessary is for them to secure a subscription and turn it in with their name or have some friend turn it in. Those who read the full Wall Street Gets page announcement on Sunday, and which appears again in today's issue, have found that there are two coupons attached to that page, one of which counts for 2,000 and the other for 10,000 extra votes. These should be clipped and turned in with the first subscription. The number of extra votes awarded depends on the length of time of the first subscrip-tion turned in and the figures are all plainly stated on the announce- the New York stock exchange were

After a little while we entered the tent and lined the negroes up. Just about that time Brown came in and asked what was doing. We told him. He then said that he was getting tired of the numerous raids being made at the camp and money being taken from the negroes of which no record was made. I told him that I had never made any arrest which did not go on the records. Brown then told us to get out and stay out and, taking me by the arm, started towards the

LAND OF EASTLAND Land of Eastland-imperial land. How proud thy derricks rise. How sweet the scenes on every hand, How fair thy distant skies. But for these? Ah, not for these We love thy fields to roam, Thou art Patterson's and Joe Burkett's home.

Thy pipe lines flow their liquid wealth Untrammelled to the sea. Thy hills and valleys bloom with health is a set in the set of And green with virdue But of these! Ah, not of these We hear thy water willows moan Thou hast other charms, O, Eastland free-Thou art Patterson's and Joe Burkett's home.

# **HUGE CROWDS ENDING 1923 BASEBALL GAMES**

### By HENRY L. FARRELL, United Press Sports Editor.

NEW YORK, May 7 .- Attendance at the early games of the baseball season made it apparent that the crowds in the future will be regulated only by the size of the parks in the big towns. It no longer is a question of the number of fans who want to see the players in action, but a problem of the rather limited number of them who can be allowed to see the games.

There is little doubt that 100,000 would have been present at the dedication of the new Yankee stadium if the park was big enough to hold them. As it was, there were approximately 75,000 in the stands and about 25,000 were turned away.

The first five games of the season played by the Yankees drew more than 200,000 through the gates of the huge stadium and established a mark that is almost unbelievable.

Interest in the game is not confined to New York, as a heavy increase in attendance has been observed in all of the big league towns and in a corresponding degree in the important minor points.

Ban Johnson predicted last season that the game has reached its peak and that there would be a slump in interest this year, but that just helps to prove that whenever Johnson expresses any kind of an opinion he is nearly always wrong.

Washington is sending a crew on again this year to row the best eights in the east on the Hudson at

SAN FRANCISCO, May 5 .--- The precise contour of the Pacific continental shelf from San Fransico Bay to Point Descanso, Mexico, revealed here recently in the publication by the Hydrographic office of the navy department of a bathymetric chart, shows the floor of the ocean in a detailed way which will enable mariners hereafter to determine the position of their craft when landmarks are obstructed from view by climatic conditions.
