INVESTMENT IN **ADVERTISING PROVES** TO BE INDISPENABLE

DALLAS, April 23.-Advertising in America costs about the same as chewing gum for American people. The advertising of American business and industry in the newspapers costs about \$650,000,000 a year and in the other publications about \$150,-000,000, says the Texas Public Service Information bureau, or about what is spent for cosmetics.

The value of production in the United States is about 40 billion dollars a year. So it will be seen that the cost of advertising is about 2 per cent of the total amount of goods produced. American business and industry has been built upon a solid foundation of newspaper advertising which is an indispensable factor in distribution.

Ford Weekly Purchase Plan

Enrols You

You can now buy and pay for a Ford car out of your family earnings on the Ford Weekly Purchase Plan. Thousands of families are taking advantage of this new way to buy a Ford and will soon be driving their own cars, enjoying all the benefits and advantages of motor transpartation.

The Food Weekly Purchase Plan is amazingly simple. You can enroll with an initial payment as low as Five Dollars each week. You add to your first payment as much or as little as you feel you can afford. This money is placed in the bank and draws interest or does not draw interest, according to your preference. In a short time your deposits plus the interest paid by the bank will be sufficient to obtain delivery of the car.

Start today, and before you realize it you will be driving your
